# Adani Enterprises Net Up 7x on Exceptional Gains

#### Our Bureau

Mumbai: Adani Enterprises on Thursday posted a more than seven-fold jump in consolidated net profit for the fiscal fourth quarter at ₹3,845 crore, boosted by an exceptional gain from the sale of its stake in Adani Wilmar.

The Adani Group flagship company recorded an exceptional gain of ₹3,945.7 crore for the January-March period, after also taking a loss of ₹88 crore related to its Mundra Solar PV operations. A year earlier, it had posted an exceptional loss of ₹627.4 crore.

Post taxes, the exceptional gain was ₹3,286 crore, implying that the company's profit would have been ₹559.7 crore without this gain. This compares to a consolidated profit of ₹449 crore a year earlier.

Total income fell 7% on year to ₹27,602 crore in the March quarter, while earnings before interest, tax, depreciation and amortisation (Ebitda) rose 19% to ₹4,346 crore.

In the Adani New Industries ecosystem, under which the group invests in green energy and sustai-

nable technologies, sales of modules rose 24% to 990 MW in the past quarter. Passenger movements in its airports business rose 6% from a year earlier to 24.7 million, while construction of roads rose 1.4 times to 694.6 km.

In its integrated resources management business, the company saw volumes slump 38% on year to 15.3 million metric tonnes, while mining services posted a 30% rise in dispatch to 14.0 MMT.

For fiscal 2024-25, revenues rose 2% to ₹1 lakh crore, while Ebitda jumped 26% to ₹16,722 crore. The Ebitda

was driven by continued strong operational performance from incubating businesses, the company said in a statement. Profit for the year more than doubled to \$7,112 crore.

"Our robust performance in FY25 is a direct outcome of our strengths in scale, speed and sustainability," group chairman Gautam Adani was quoted in a news release.

"As we scale up in energy transition, airports, data centres and mining services, we are creating new market leaders that will drive India's growth story for decades to come," he said.

# Wilmar stake sale boosts profits of Adani Enterprises in FY25

Our Bureau Ahmedabad

Riding on Adani Wilmar's stake sale, Adani Enterprises, the flagship entity of the Adani Group, on Thursday reported a consolidated Profit After Tax (PAT) of ₹7,112 crore for financial year 2024-25, a growth of almost 120 per cent over the previous year.

However, the consolidated PAT numbers include a post-tax exceptional gain of ₹3,286 crore from 13.5 per cent stake-sale of Adani Wilmar, the company said.

The board of directors recommended a dividend of ₹1.3 (130 per cent) per equity share of face value of ₹1 each fully paid up for FY25. The board also approved plans to raise ₹15,000 crore through various equity instruments.

Despite the profits, the consolidated total income

rose 2 per cent to ₹1,00,364 crore. This was largely due to a 37 per cent decline in the Integrated Resource Management (IRM) business vertical; FY25 saw IRM revenues fall to ₹39,263 crore.

### GROUP BUSINESSES

The consistent growth of the company's key incubating businesses such as the new energy ecosystem, airports, roads and data centres boosted the company's overall consolidated results for FY25.

tem under Adani New Industries Ltd (ANIL) saw revenues rise 63 per cent to ₹13,965 crore. Solar Module sales increased 59 per cent on a year-on-year basis to 4,263 MW with higher EBITDA margins on account of improved realisation and operational efficiency.

Having secured financial closure, the company also started construction for an additional 6-GW cell and module line capacity extension.

The company's airport operations saw a 27 per cent growth with revenues rising to ₹10,015 crore. A total of 12 new routes and eight new flights were added during the fourth quarter of FY25.
