Adani Properties Gets NCLT Nod to Acquire HDIL's Two Assets

Kailash Babar & Maulik Vyas

Mumbai: The National Company Law Tribunal (NCLT) has approved Adani Properties' acquisition of two assets of defunct real estate developer Housing Development and Infrastructure (HDIL) through the corporate insolvency resolution process (CIRP).

The assets include a commercial property known as 'Inspire BKC' in Mumbai's business district Bandra-Kurla Complex and a land parcel in Kalyan Shahad on the outskirts of Mumbai.

Adani Properties was found to be the only bidder to make Insolvency and Bankruptcy Code (IBC)-compliant proposal for both the properties.

For the Inspire BKC commercial project, its resolution plan is valued at ₹3 crore. This includes ₹2.85 crore allocated to creditors and ₹15 lakh for CIRP costs. In the case of Shahad land parcel, the fair value and liquidation value were estimated at ₹89.66 crore and ₹62.76 crore, respectively.

According to industry experts, both these assets in central Mumbai and Kalyan together are estimated to be valued at over ₹2,000 crore.

The Mumbai bench of the NCLT approved the resolution plans for both projects under Section 31 of the IBC, 2016. The committee of creditors (CoC) had cleared both the plans with 66.08% voting share in 2022. The voting concluded in November 2022.

The Rakesh Wadhawan-promoted HDIL has been undergoing insolvency since 2019 with admitted liabilities of over ₹₹7,789 crore.

While its resolution professional had initially issued an expression of interest for a resolution of the entire company in February 2020, it did not receive any proposal.

As the company had several unfinished residential properties, the National Company Law Appellate Tribunal (NCLAT) allowed a project-wise resolution plan.

The CoC had initially rejected this proposal. However, following objections from homebuyers, the committee reversed its stance in September 2021 and authorised the RP to explore project-wise resolution.

HDIL was then divided into 10 verticals for streamlining the resolution process.

The current approvals to Adani Properties include verticals V and IX.

For Vertical V, the Inspire BKC commercial project, the plan proposes that Adani will not acquire HDIL as a going concern but will demerge the BKC project into itself or a subsidiary.

Adani has also agreed to continue the existing Slum Rehabilitation Authority (SRA) development agreement with Budhpur Buildcon.

Budhpur Buildcon, representing Adani's interest, now holds the Letter of Intent for the slum rehabilitation project that HDIL originally began in BKC, and is tasked with completing the rehabilitation under SRA oversight.

In the case of Vertical IX, the Shahad land parcel, Punjab and Maharashtra Cooperative Bank — now Unity Small Finance Bank — is the sole secured creditor holding mortgage rights.

The bank's objections to the valuation were dismissed by the tribunal in July 2024.

Both plans include performance guarantees of ₹5 crore each, as required under the CIRP regulations.

ET's query to Adani Group remained unanswered until press time Tuesday.

Fake AI Content on Air India Crash Poses Headwind for Regulators

A wave of misinformation, created by generative AI, has swarmed the internet

New Delhi | Mumbai: Days after the crash of an Air India Boeing 787 plane in Ahmedabad, killing 275 people, a preliminary investigation report was found circulating in aviation circles. The report, except for an emoji, appeared genuine with various aviation terminologies, giving it a professional look.

However, a closer scrutiny by trained eyes eventually revealed that it was created by an AI platform using details from a 2024 incident involving South American airline LATAM, giving it a convincing look. By the time, the Indian government refuted the report as fake, news websites had already run headlines, clouding the minds of the public, and even that of several pilots.

With the June 12 Air India crash stirring public uproar amid scarce post-accident updates, a wave of false information, including pictures and videos created by generative AI, has swarmed the internet.

"We've observed a disturbing pattern in how bad actors are leveraging AI and social media platforms to spread misinformation and commit fraud during sensitive events like the Air India Flight 171 crash," said Amit Relan, co-founder and CEO at digital fraud detection firm mFilterIt.

Relan's firm found instances of fake videos showing the aftermath of the air accident and even a case of a fraudulent fundraising attempt. "This is a classic case of emotionally-driven financial fraud, often operated from untraceable or unverified sources," he said, advocating for public education to differentiate legitimate from manipulated content.

As per the International Civil Aviation Organization's (ICAO) recommendations on good communication practices for aircraft crashes, it is essential to communicate effectively with the media to ensure the accuracy of information provided and maintain public trust.

The civil aviation ministry last week said the Aircraft Accident Investigation Bureau (AAIB) has successfully extracted data from the cockpit voice recorder and flight data recorder of the aircraft. Both the CVR and the FDR were moved to AAIB's lab in New Delhi only on 24 June, more than a week after they were recovered from the crash site in Ahmedabad. The ministry did not give any reason for the delay.

John Cox, a former pilot and chief executive of Safety Operating Systems, a provider of consulting services on accident investigations, said with the growing prevalence of GenAI, there needs to be a paradigm shift for providing information by AAIB after an event like a crash. "This is the most extensive case of misinformation that has been seen during any accident. The AAIB should be having daily briefings as done by agencies across the globe. Because in the absence of information, it is misinformation which fills the void," Cox said.

BOOM, a fact-checking platform found images of aircraft with its tail on fire or even an AI generated image of a wreckage in front of the Ahmedabad airport, which was also created by AI. BOOM used AI image detectors, with all indicating a high likelihood of them being AI-generated. However, none of the posts contained a disclaimer.

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

SPM Port bolsters container handling capacity with two new Mobile Harbour Cranes

KOLKATA, JULY 1 /--/ Syama Prasad Mookerjee Port, Kolkata (SMPK) today announced a significant upgrade to its container handling capabilities with the deployment of two additional high-capacity Mobile Harbour Cranes (MHCs) at NetajiSubhas Dock (NSD) within the Kolkata Dock System (KDS). This strategic enhancement will bring the total number of MHCs at KDS to six (6), marking a substantial boost in operational efficiency and a reduction in vessel turnaround time. The new MHCs, to be deployed by Adani Ports and Special Economic Zone (APSEZ), are electricity-powered, underscoring SMPK's commitment to eco-friendly and sustainable port operations.

ShriRathendra Raman, Chairman, SMP Kolkata, emphasized the importance of this development. The deployment of these energy-efficient, electric mobile harbour cranes represents a paradigm shift in our operational approach, Shri Raman stated. Shri Raman further said that this will go a long way in strengthening Kolkata's position as a sustainable and pivotal container handling hub on the eastern seaboard, increasing KDS's capacity up to 7.5 lakh TEUs (Twenty Equivalent Unit) in the FY 2025-2026. In 2024-2025, Kolkata Dock System (KDS) handled 6.19 lakh TEUs. (EOIC)

Bangladesh clears Adani Power dues

PRESS TRUST OF INDIA
New Delhi, July 1

BANGLADESH MADE ITS single-largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, sources said.

Additionally, a letter of credit (LC) worth about two months of billing and sovereign guarantee for all dues as additional security have been established, the sources stated.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power as per the schedule of Bangladesh Power Development Board (BPDB), they added. Over the previous 3-4 months, the country had been paying $90-100 million per month, and in June, it paid $437 million.

Concerns raised related to investigations into the power purchase agreement (PPA) by the Bangladesh authorities have also been resolved, with no adverse aspects found, they said.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant in Godda district of Jharkhand, meeting 10% of the country's power demand. Adani Power had curtailed supply to Bangladesh over payment delays following the ouster of Sheikh Hasina as the Prime Minister in August 2024. The company resumed full supplies in March 2025.

Simulation of AI flight that crashed puts focus on double-engine failure

Twenty days after the crash of an Air India plane in Ahmedabad that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline reenacted the aircraft's parameters in a flight simulator, including with the landing gear deployed and wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the probe. The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on a technical failure as one possible cause.

The simulated flight was conducted separately from the official probe being led by India's Aircraft Accident Investigation Bureau.

The plane was powered by two engines made by General Electric Co. Video footage of the aircraft showed it struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded. Boeing declined to comment and deferred any questions to AAIB, while GE said it cannot comment on an active investigation. AAIB and AI did not respond to a request for comment. BLOOMBERG

Gap of only 15 seconds between distress call & AI flight impact

▶ From P 1

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis. The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said.Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

At the same time, the landing-gear doors had not opened, which pilots say might mean that the aircraft experienced a loss of power or a hydraulic failure — again pointing to possible issues with the engines that provide the aircraft's electricity. The engines of modern aircraft are computer controlled using a system called Full Authority Digital Engine Control (FADEC) which helps pilots control an aircraft's power and makes sure the engines are used efficiently and not outside their operating limits. An emergency turbine called the RAT, which deploys from the back of the aircraft in the case of electrical failure, was activated before the plane crashed, as per previous findings. That fan helps provide the aircraft with vital power, though it's far too small to generate any lift.

Analysis of the crash wreckage suggests that the wing flaps and slats, which help an aircraft increase lift during takeoff, were extended correctly.

The pilots, who died in the crash, sent out a Mayday signal shortly after takeoff. There were only about 15 seconds between the distress call and impact, two people familiar with the probe said. Teams from Boeing and the US National Transportation Safety Board are supporting the investigation on the ground. It's unknown when authorities will give an update from readout of the flight recorders, which provide a comprehensive analysis.

"It took time to figure out what fashion meant to me. In the early days of my career, it was about how people wanted to perceive me. I was too young and raw. My approach was more like, 'How does the team want to see me?' Now I think, 'What do I feel like wearing? How do I want to see myself?' It's not related to trends.

I honestly feel no pressure of my fashion being dissected or dressing up because fans would want to copy my style. If there's something I want people to see, it's the authenticity. My goal is to inspire people to be themselves, I wouldn't want them to copy me or my style."

Bangladesh clears Adani Power dues

PRESS TRUST OF INDIA
New Delhi, July 1

BANGLADESH MADE ITS single-largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, sources said.

Additionally, a letter of credit (LC) worth about two months of billing and sovereign guarantee for all dues as additional security have been established, the sources stated.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power as per the schedule of Bangladesh Power Development Board (BPDB), they added. Over the previous 3-4 months, the country had been paying $90-100 million per month, and in June, it paid $437 million.

Concerns raised related to investigations into the power purchase agreement (PPA) by the Bangladesh authorities have also been resolved, with no adverse aspects found, they said.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant in Godda district of Jharkhand, meeting 10% of the country's power demand. Adani Power had curtailed supply to Bangladesh over payment delays following the ouster of Sheikh Hasina as the Prime Minister in August 2024. The company resumed full supplies in March 2025.

बारूद व बम बनाकर उद्योग जगत में नुवाल ने मचाई हलचल, अंबानी व अदाणी रहे पीछे

नई दिल्ली। इस साल की पहली छमाही में एक उद्योगपति ने कमाई के मामले में भारत के दिग्गज कारोबारी मुकेश अंबानी और गौतम अदाणी को भी पीछे छोड़ दिया है। वैश्विक जगत में पिछले छह महीने के दौरान भले ही जबरदस्त उथल पुथल रही हो, लेकिन इनकी नेटवर्थ में 78 फीसदी का जबरदस्त इजाफा हुआ है। ये अरबपति हैं सोलर इंडस्ट्रीज इंडिया के सह-संस्थापक और प्रसिडेंट सत्यनारायण नुवाल। ब्लूमबर्ग बिलियनेयर इंडेक्स के मुताबिक इनकी संपत्ति में सिर्फ इस साल की छमाही के दौरान ही 78 फीसदी के इजाफे के बाद कुल संपत्ति अब 7.90 बिलियन डॉलर हो गई है। सबसे खास बात ये है कि इनकी कंपनी डेटोनेटर, एक्सप्लोसिव और एम्यूनिशन बनती है और इसका हेडक्वार्टर नागपुर में स्थित है। सोलर इंडस्ट्रीज के शेयर में जहां 2024 में पैतालीस प्रतिशत तो वहीं दो साल पहले 2023 में चौवन प्रतिशत का इजाफा हुआ था। इस साल कंपनी के शेयर में करीब 81 प्रतिशत की तगड़ी उछाल देखी जा रही है। वर्तमान में कंपनी के शेयर नेशनल स्टॉक एक्सचेंस में 17,200 रुपए के मूल्य पर ट्रेड कर रहा है। राजस्थान के भीलवाड़ा में एक मध्यमवर्गीय परिवार में जन्मे सत्यनारायण नुवाल ने सिर्फ दसवीं तक पढ़ाई की है। 10वीं से आगे वो पढ़ाई नहीं कर पाए। पिता पटवारी थे और 1971 में उनके रिटायर होने के बाद परिवार की जरूरतें पूरी करने के लिए संघर्ष करने लगे। नुवाल के दादा छोटी सी परचून की दुकान चलाते थे, स्कूल के बाद वह अपने दादा की मदद किया करते थे।

टेकऑफ के बाद 900 फीट नीचे आया एअर इंडिया विमान

एक्शन में डीजीसीए, दोनों पायलट हटाए गए

पंजाब केसरी/नई दिल्ली

- फ्लाइट दिल्ली से विएना जा रही थी और यात्रियों की सुरक्षा पर फिर गंभीर सवाल

दिल्ली से वियना जा रही एअर इंडिया की एक अंतरराष्ट्रीय उड़ान में बड़ा हादसा टल गया। उड़ान भरने के कुछ ही मिनट बाद विमान अचानक हवा में 900 फीट नीचे आ गया, जिससे यात्रियों की सुरक्षा को लेकर गंभीर सवाल खड़े हो गए हैं। यह घटना 14 जून को फ्लाइट एआई-187 के साथ हुई, जो बोइंग 777 विमान था और इंदिरा गांधी इंटरनेशनल एयरपोर्ट से रात 2:56 बजे रवाना हुआ था।

टेकऑफ के तुरंत बाद विमान ने एल्टीट्यूड खो दिया और अचानक नीचे गिरने लगा। इस दौरान विमान में स्टॉल और ग्राउंड प्रॉक्सिमिटी वॉर्निंग अलर्ट सक्रिय हो गए, जिनमें डोंट सिंक जैसी चेतावनियां शामिल थीं। हालांकि, पायलटों ने तुरंत एक्शन लेते हुए विमान को स्थिर किया और मौसम की चुनौतीपूर्ण परिस्थितियों के बावजूद विमान को वियना तक सुरक्षित पहुंचाया। एअर इंडिया के प्रवक्ता के अनुसार घटना की सूचना नियमों के तहत नागरिक उड्डयन महानिदेशालय (डीजीसीए) को दे दी गई है। फ्लाइट रिकॉर्डर से डेटा प्राप्त कर जांच शुरू कर दी गई है। जब तक जांच पूरी नहीं हो जाती, दोनों पायलटों को उड़ान ड्यूटी से हटा दिया गया है। डीजीसीए ने मामले की गंभीरता को देखते हुए एअर इंडिया के सेफ्टी चीफ को भी तलब किया है और विस्तृत जांच शुरू कर दी है।

यह घटना ऐसे समय पर हुई है जब इससे महज दो दिन पहले, 12 जून को अहमदाबाद से लंदन जा रही एअर इंडिया की एक उड़ान टेकऑफ के तुरंत बाद क्रैश हो गई थी, जिसमें 270 लोगों की जान चली गई थी। इसके अलावा, डीजीसीए के हालिया ऑडिट में एअर इंडिया की फ्लीट में मेंटेनेंस को लेकर लापरवाही की बात भी सामने आई है। डीजीसीए ने 23 जून को एअर इंडिया के गुरुग्राम स्थित बेस पर विस्तृत ऑडिट शुरू कर दिया है, जिसमें ऑपरेशंस, रोस्टरिंग और तकनीकी प्रोटोकॉल की समीक्षा की जा रही है।

Food hall, Lonavala trips: NMIA promises diverse offers

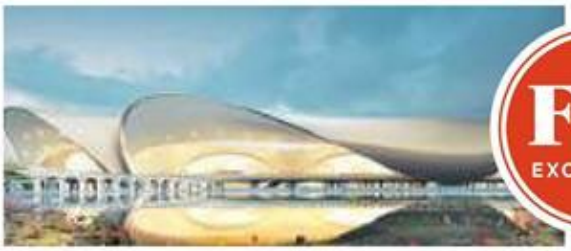
Dhairya Gajara
MUMBAI



Going against the conventional system of food courts at the airports, the upcoming Navi Mumbai International Airport (NMIA) will provide an experience of Mumbai to the passengers by serving specially curated meals at the airport's food hall. The food hall is said to offer a wide range of cuisines including specially curated meals for vegan, diabetic as well as Jain preferences.

The airport will also feature a food court with popular brands of restaurant and coffee shops outside the terminal building for non-passengers who visit the airport to drop or receive the travellers. While a game zone will also be established alongside the food court, the airport's common area will also have a drivers' canteen and a waiting lounge.

The construction work for Mumbai metropolitan region's second city airport is rushing towards the end with an aim to inaugurate the airport in late August. Meanwhile, the airport operator Navi Mumbai International Airport Ltd (NMIAL), which is a joint venture between Adani Airports Holding Ltd (AAHL) and CIDCO, is working on multiple initiatives to enhance customer experience.

Talking to The Free Press Journal, a senior official from the NMIA's non-aero commercial division said, "While our offerings and ambiance at the food hall will be premium, our pricing will be at par with any other restaurant chains. At the same time, we have also made arrangements for the non-passengers to spend time and have food at the airport."

NMIAL is also planning to introduce a unique customer experience product where the passengers would be able to have a quick trip to Lonavala and nearby localities with scenic beauty. While this product is still at the planning stage, NMIA will be the only airport in India to allow its passengers to book specially curated sight-seeing sessions before they board their flights.

"Travellers on connecting flights with long waiting hours or those visiting the city only to board a flight can go sight-seeing to Lonavala, have lunch and come back to board the flight, everything within five to six hours. We are also looking at many options from among the must visit places in Mumbai which could be explored with the help of Atal Setu," said the official.

B'desh Clears Adani Power's $437M Dues

Mumbai: Adani Power received $437 million from the Bangladesh government in June, clearing that country's payment arrears to the Indian company for electricity supplied till March 31, people in the know said.

The last payment was the largest instalment that Adani Power received for the power supplied from its 1,600 MW Godda plant in Jharkhand to Bangladesh. Previous payments had been $90–100 million a month.

With all pending payments, including carrying costs and late fees, settled, Adani Power's cross-border power agreement with Bangladesh is now financially and contractually back on track, the people said. The power purchase agreement, which had come under scrutiny from Bangladesh authorities, has been given a clean chit, they said.

The Godda plant supplies around 10% of Bangladesh's electricity needs. As payment-related issues are now resolved, Dhaka has asked Adani to operate both 800 MW units at the facility in line with the Bangladesh Power Development Board's power scheduling requirements.

With all pending payments settled, Adani Power's cross-border power pact with B'desh is now back on track

The company had reached an agreement with Bangladesh that if that country cleared the previous fiscal year's dues by June 30, the late payment surcharge would be waived.

Bangladesh is now making payments on time. To ensure this continues, it has put in place a letter of credit equal to two months of bills of around $180 million and a sovereign guarantee for all dues.

In May, ET reported that Bangladesh's dues to Adani Power stood at around $900 million. Adani Power chief financial officer Dilip Jha at the time told analysts that the total billing to Bangladesh stood at $2 billion, of which $1.2 billion had been received by the end of FY25, with an additional $136 million billed as late payment surcharge. Adani Power, however, has continued uninterrupted supply to Bangladesh, chief executive SB Khyalia had said. In the January-March quarter, dues declined by ₹500 crore.

The contract's reaffirmation has also resulted in structural changes on the Indian side. The Godda project, previously housed in a separate subsidiary, has been merged with Adani Power for operational and financial streamlining. This integration, combined with the resolution of dues, may help upgrade the company's credit rating from AA to AA+, which could lower future cost of funds.

B'desh resolves Adani's power purchase pact, payment concerns

Bangladesh made its single largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources said. Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units according to the Bangladesh Power Development Board (BPDB) schedule, they added. Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million. PTI

Operational gaps in cargo clearance need attention

India in recent years made notable improvements in its logistics ecosystem, driven by advancements in port infrastructure, multimodal connectivity, digital integration, and a renewed emphasis on trade facilitation. The country had climbed six spots on the World Bank's logistics performance index, 2023, moving to 38th position globally. The jump reflects the early impact of initiatives such as the PM Gati Shakti and Unified Logistics Interface Platform. In this regard, the recently released National Time Release Study (NTRS) 2025, conducted by the Central Board of Indirect Taxes and Customs, provides granular data on how long it takes for import and export cargo to be cleared through various Indian ports. Time-bound cargo movement allows exporters, especially small and medium enterprises, to meet global timelines, reduce costs, improve trade competitiveness, and integrate with global value chains.

Trade-facilitation reforms, including digitisation, pre-arrival processing, and the Authorised Economic Operator (Aeo) programme, are steadily reducing average release times (ARTs). According to the study, gains were seen at seaports and air-cargo complexes (ACCs), where ARTs fell significantly. Relative to 2024, Inland Container Depots (ICDs) saw marginal improvement, while Integrated Check Posts (ICPs) continued to outperform all categories, with nearly 93 per cent of imports cleared within the NTFAP (National Trade Facilitation Action Plan) benchmark of 48 hours. Exports, however, reveal a mixed picture. The ART for exports, or the duration from cargo arrival to final departure, suggests that while ACCs and ICPs meet most clearance targets, seaports and ICDs continue to lag. This is particularly worrying, given that these locations handle a substantial portion of India's outbound trade volume. Differences in cargo type, stuffing method, and time-of-day patterns cause further variations in release time.

What drags performance down? The study flags delays in duty payment, frequent amendments to shipping and entry documents, and inefficient query resolution as key contributors to higher clearance times. Moreover, delays in post-regulatory logistics, especially after Customs clearance, remain a bottleneck, particularly for exports at ICDs. The presence of partner government agencies (PGA) also continues to slow clearances at major ports, with inconsistent performance and coordination. Kolkata port, for instance, recorded the highest import clearance time across all seaports, averaging over 140 hours, due to delayed assessments, slow PGA interventions, and limited advance filing by importers. On the other hand, Mundra port emerged as a standout performer among seaports, with an average release time of just 55 hours, far below the national average, demonstrating the benefits of streamlined container handling and proactive facilitation. Logistics costs in India are estimated to be 14-18 per cent of gross domestic product, significantly higher than the global benchmark of 8 per cent. As the study rightly notes, this calls for further reforms, including automation at port gates, reduction in manual documentation, improvements in post-clearance logistics, such as faster movement from port gates, and better adoption of digital platforms by traders. For India to become a reliable export hub and an attractive destination for global manufacturing, these operational gaps need urgent attention.

Adani Properties Gets NCLT Nod to Acquire HDIL's Two Assets

Kailash Babar & Maulik Vyas

Mumbai: The National Company Law Tribunal (NCLT) has approved Adani Properties' acquisition of two assets of defunct real estate developer Housing Development and Infrastructure Ltd (HDIL) through the corporate insolvency resolution process (CIRP).

The assets include a commercial property known as 'Inspire BKC' in Mumbai's business district Bandra-Kurla Complex and a land parcel in Kalyan Shahad on the outskirts of Mumbai.

Adani Properties was found to be the only bidder to make Insolvency and Bankruptcy Code (IBC)-compliant proposal for both the properties.

For the Inspire BKC commercial project, its resolution plan is valued at ₹3 crore. This includes ₹2.85 crore allocated to creditors and ₹15 lakh for CIRP costs. In the case of Shahad land parcel, the fair value and liquidation value were estimated at ₹89.66 crore and ₹62.76 crore, respectively.

According to industry experts, both these assets in central Mumbai and Kalyan together are estimated to be valued at over ₹2,000 crore.

The Mumbai bench of the NCLT approved the resolution plans for both projects under Section 31 of the IBC, 2016. The committee of creditors (CoC) had cleared both the plans with 66.08% voting share in 2022. The voting concluded in November 2022.

The Rakesh Wadhawan-promoted HDIL has been undergoing insolvency since 2019 with admitted liabilities of over ₹₹7,789 crore.

While its resolution professional had initially issued an expression of interest for a resolution of the entire company in February 2020, it did not receive any proposal.

As the company had several unfinished residential properties, the National Company Law Appellate Tribunal (NCLAT) allowed a project-wise resolution plan.

The CoC had initially rejected this proposal. However, following objections from homebuyers, the committee reversed its stance in September 2021 and authorised the RP to explore project-wise resolution.

HDIL was then divided into 10 verticals for streamlining the resolution process.

The current approvals to Adani Properties include verticals V and IX.

For Vertical V, the Inspire BKC commercial project, the plan proposes that Adani will not acquire HDIL as a going concern but will demerge the BKC project into itself or a subsidiary.

Adani has also agreed to continue the existing Slum Rehabilitation Authority (SRA) development agreement with Budhpur Buildcon.

Budhpur Buildcon, representing Adani's interest, now holds the Letter of Intent for the slum rehabilitation project that HDIL originally began in BKC, and is tasked with completing the rehabilitation under SRA oversight.

In the case of Vertical IX, the Shahad land parcel, Punjab and Maharashtra Cooperative Bank — now Unity Small Finance Bank — is the sole secured creditor holding mortgage rights.

The bank's objections to the valuation were dismissed by the tribunal in July 2024.

Both plans include performance guarantees of ₹5 crore each, as required under the CIRP regulations. **ET**'s query to Adani Group remained unanswered until press time Tuesday.

NBCC Plans Residential Project in South Delhi

New Delhi: At a time when real estate development in the capital has been hit by an acute land constraint, state-run NBCC (India) plans to monetise a 32-acre land tract in Ghitorni, south Delhi, through a residential project anticipated to produce more than ₹9,000 crore in revenue, said an NBCC official.

The Navratna public sector undertaking is expected to hire a consultant for the project and is likely to carry it out internally rather than delegate it to a third party. **–Faizan Haidar**

New Delhi | Mumbai: Days after the crash of an Air India Boeing 787 plane in Ahmedabad, killing 275 people, a preliminary investigation report was found circulating in aviation circles.

The report, except for an emoji, appeared genuine with various aviation terminologies, giving it a professional look.

However, a closer scrutiny by trained eyes would eventually reveal that it was created by an AI platform using details from a 2024 incident involving South American airline LATAM, giving it a convincing look. By the time, the Indian government refuted the report as fake, news websites had already run headlines, clouding the minds of the public, and even that of several pilots.

With the June 12 Air India crash stirring public uproar amid scarce post-accident updates, a wave of false information, including pictures and videos created by generative AI, has swarmed the internet.

"We've observed a disturbing pattern in how bad actors are leveraging AI and social media platforms to spread misinformation and commit fraud during sensitive events like the Air India Flight 171 crash," said Amit Relan, co-founder and CEO at digital fraud detection firm mFilterIt.

ET Insight

According to the ICAO's principles, states responsible for probing an air crash should release a preliminary report within 30 days

Relan's firm found instances of fake videos showing the aftermath of the air accident and even a case of a fraudulent fundraising attempt.

"This is a classic case of emotionally-driven financial fraud, often operated from untraceable or unverified sources," he said, advocating for public education to differentiate legitimate from manipulated content.

As per the International Civil Aviation Organization's (ICAO) recommendations on good communication practices for aircraft crashes, it is essential to communicate effectively with the media to ensure the accuracy of information provided and maintain public trust.

The civil aviation ministry last week said the Aircraft Accident Investigation Bureau (AAIB) has successfully extracted data from the cockpit voice recorder and flight data recorder of the aircraft.

Operational gaps in cargo clearance need attention

India in recent years made notable improvements in its logistics ecosystem, driven by advancements in port infrastructure, multimodal connectivity, digital integration, and a renewed emphasis on trade facilitation. The country had climbed six spots on the World Bank's logistics performance index, 2023, moving to 38th position globally. The jump reflects the early impact of initiatives such as the PM Gati Shakti and Unified Logistics Interface Platform. In this regard, the recently released National Time Release Study (NTRS) 2025, conducted by the Central Board of Indirect Taxes and Customs, provides granular data on how long it takes for import and export cargo to be cleared through various Indian ports. Time-bound cargo movement allows exporters, especially small and medium enterprises, to meet global timelines, reduce costs, improve trade competitiveness, and integrate with global value chains.

Trade-facilitation reforms, including digitisation, pre-arrival processing, and the Authorised Economic Operator (Aeo) programme, are steadily reducing average release times (ARTs). According to the study, gains were seen at seaports and air-cargo complexes (ACCs), where ARTs fell significantly. Relative to 2024, Inland Container Depots (ICDs) saw marginal improvement, while Integrated Check Posts (ICPs) continued to outperform all categories, with nearly 93 per cent of imports cleared within the NTFAP (National Trade Facilitation Action Plan) benchmark of 48 hours. Exports, however, reveal a mixed picture. The ART for exports, or the duration from cargo arrival to final departure, suggests that while ACCs and ICPs meet most clearance targets, seaports and ICDs continue to lag. This is particularly worrying, given that these locations handle a substantial portion of India's outbound trade volume. Differences in cargo type, stuffing method, and time-of-day patterns cause further variations in release time.

What drags performance down? The study flags delays in duty payment, frequent amendments to shipping and entry documents, and inefficient query resolution as key contributors to higher clearance times. Moreover, delays in post-regulatory logistics, especially after Customs clearance, remain a bottleneck, particularly for exports at ICDs. The presence of partner government agencies (PGA) also continues to slow clearances at major ports, with inconsistent performance and coordination. Kolkata port, for instance, recorded the highest import clearance time across all seaports, averaging over 140 hours, due to delayed assessments, slow PGA interventions, and limited advance filing by importers. On the other hand, Mundra port emerged as a standout performer among seaports, with an average release time of just 55 hours, far below the national average, demonstrating the benefits of streamlined container handling and proactive facilitation. Logistics costs in India are estimated to be 14-18 per cent of gross domestic product, significantly higher than the global benchmark of 8 per cent. As the study rightly notes, this calls for further reforms, including automation at port gates, reduction in manual documentation, improvements in post-clearance logistics, such as faster movement from port gates, and better adoption of digital platforms by traders. For India to become a reliable export hub and an attractive destination for global manufacturing, these operational gaps need urgent attention.

How Personal Connect, Family Legacy Helped Get Akzo Nobel

Unfazed by late 'twist in the tale', Parth Jindal took up the challenge head-on to seal a transformative deal for JSW

Arijit Barman

Mumbai: Sometime around mid-May, a confident Parth Jindal was just about to pop the champagne he had just received as a gift from a senior official, almost certain that he had outbid competition to snap up his biggest prize to date —the India business of Dutch major Akzo Nobel NV. A sudden message from the same official, also in the thick of the deal, threw him off kilter within 24 hours.

A revised counter, higher in value than JSW by around 7-8%, was sent directly to the supervisory board of Akzo Nobel NV in Amsterdam by the consortium of PE group Advent International and Indigo Paints, the other serious contender. Jindal, by then, already had improved his initial binding offer and was in pole position.

The board was also made aware of the Supreme Court's decision from earlier that month rejecting the ₹19,700 crore resolution plan submitted by JSW Steel for Bhushan Power and Steel (BPSL) in 2019 and directed the initiation of liquidation proceedings. Suddenly what seemed like a slam dunk was not so straightforward for both Jindal and his counterpart Greg Poux-Guillaume, CEO, Akzo Nobel NV.

ET spoke to multiple people to piece together how Jindal came from behind to snap up the business, as twists and turns and backroom negotiations made the paints M&A even more colourful than it seemed on canvas. Several spoke off the record as the negotiations were in private domain.

An Indophile, Guillaume was very familiar with the Jindal family and their businesses. In his earlier stints in the power grid and industrial air pollution sectors with Sulzer, GE-Alstom Grid Solutions Business, he dealt and even visited JSW Steel's flagship Vijayanagar plant as a key supplier.

There was also another connection: Between 2009 and 2011, Guillaume had also spent time in private equity at CVC Capital Partners as a senior MD. The son of CVC's co-founder Rolly van Rappard was Parth's roommate for two years at Harvard Business School. "So when he did a reference check on us, he heard things from him as well," Jindal told ET.

"I've always been a fan of the Jindal family. There are a few successful Indian industrial families that are true entrepreneurs and stand out for having the same values," said Guillaume. "It's not just business acumen."

But when a board-run MNC has decided to exit a market as part of a global portfolio rejig, no professional CEO can ride roughshod over the board and ignore the best price on the table. "Value is important since we have a fiduciary duty to our shareholders to extract the best value out of this transaction, but finding the right home for the business and having the right long-term partner is also invaluable," he added.

In Mumbai, at the JSW HQ, the key members of 'Project Lakshmi'—the internal code name—including Sundaresan Arumbakkam, Joint MD and CEO of JSW Paints, and Parth Jindal had to immediately put on war paint and go into a huddle with external deal advisors from Morgan Stanley as well as the Jindal family's most trusted hand, Seshagiri Rao, former group CFO, currently an advisor.

ALL OR NOTHING

Since January, Jindal had made his intentions clear. Akzo was the "transformative deal" for his six-year old paints venture that till date has only seen a middling growth while late entrants like Birla Opus from Grasim stormed the $9 billion Indian paints market.

"There is no choice," Jindal said during WEF in Davos. "I have to give everything I've got for Akzo Nobel India."

Four months down the line, it was tough to step away so late in the game. JSW Paints' offer was in fact the lowest after the non-binding stage was over in January. Both Pidilite Industries and Advent-Indigo made higher offers. So from get-go, it was time to crank up.

From Geneva, Jindal flew directly to Amsterdam to meet the Akzo top brass, especially Guillaume. "From Holcim days (which JSW Group lost to Adani), I have learnt it's important to strike a rapport with the international management," quipped Jindal. "Not that they would share anything extra in the middle of a transaction but chemistry is equally important. Much to my surprise, Guillaume was very familiar with our family. The moment I entered the room, he asked if I was the son of Sajjan, Navin or Ratan...(Parth's uncles are Navin and Ratan Jindal)."

That bond got stronger when Guillaume visited India and met the team at JSW and even visited the Jindal residence to share a meal with the entire family, including group Chairman Sajjan Jindal and wife Sangita.

BUSINESS LOGIC

Chemistry aside, business wise JSW Paints and Akzo's operations are perfectly complementary.

Dulux is a premium player in the decorative segment, the lion's share of the industry with a 9-10% market catering to primary urban centres while JSW Paints has been a mass player. But as a combined entity, JSW-Dulux (the likely name of the new company) will have more financial heft and market share nationwide.

Together the two operations will have a ₹6,200 crore topline (decorative and industrial), inching close to the around ₹6,900 crore sales of the 3rd in the market–Kansai Nerolac.

The cumulative retail footprint of 28,000 will also have limited overlaps. This translates to a combined advertising muscle and helps doubling down on one brand. "Despite its premium positioning, Dulux for years has remained under invested. We want to bring the mojo back," explains Jindal.

With competition intensifying, advertising and marketing (A&M) spends have gone up across the industry, squeezing margins.

But now the joint budgets of around ₹350 crore will be at his disposal.

Akzo is also relinquishing the 3.5% royalty or ₹ 80 crores that it charged from its Indian arm for decorative paints giving additional firepower to Jindal to take on larger incumbents Asian Paints or newcomer Birla Opus, both of whom is estimated to have spent ₹ 450 crores on A&M alone.

Jindal is willing to absorb the "pain" in the decorative segment for the next 2-3 years. "We are willing to even put a ₹100 crore extra from our side to be in the top 3 in the share of voice," he said.

But the real game will be the industrial segment where Kansai Nerolac has strong links with Korean and Japanese steel and auto OEMs. "We want to become the number one in industrial. We believe that with the technology of Akzo International, which we still have access to post this transaction, we will have a real shot at scaling up the industrial franchise and double it ₹5000 crore over the next three years."

In all this, Pidilite remained the joker in the pack and were in parallel talks with JSW and Asian Paints and a few others, but they were only keen on the decorative business, leaving out the industrial piece.

Their offer, though much higher than both Advent-Indigo and JSW, was only for a part. "They wanted somebody else to take industrial," said an official. "JSW said in case they lose out, they will re-engage."

That wasn't necessary once Jindal matched the new offer but insisted both sides get into exclusivity by May end. Akzo and its observers were too happy to oblige.

Splash Of Colour

- **Jan 2025:** Initial non-binding bids submitted
- **Apr 2025:** JSW improves offer, leads the race
- **May 2025:** Advent-Indigo submits **7-8%** higher counteroffer
- **May End:** JSW matches offer, secures exclusivity

Combined Revenue: ₹6,200 cr (Decorative + Industrial)

Retail Footprint: 28,000 outlets with minimal overlap

Advertising Budget: ₹350 cr (combined)

Akzo to stop charging ₹80 cr in annual royalties

New Brand Name (Likely): JSW-Dulux

Target ₹5,000 cr revenue in 3 years

JSW ready to add ₹100 cr to A&M to battle Asian Paints & Birla Opus

PREMIUM VS MASS

Dulux is a premium player in the decorative segment, with a 9-10% market catering to primary urban centres while JSW Paints has been a mass player

CLOSING THE GAP

JSW-Dulux operations will have a ₹6.2k cr topline (decorative and industrial), inching close to the ₹6.9k cr sales of No.3 in the market–Kansai Nerolac

As per the International Civil Aviation Organization's (ICAO) recommendations on good communication practices for aircraft crashes, it is essential to communicate effectively with the media to ensure the accuracy of information provided and maintain public trust.

The civil aviation ministry last week said the Aircraft Accident Investigation Bureau (AAIB) has successfully extracted data from the cockpit voice recorder and flight data recorder of the aircraft. Both the CVR and the FDR were moved to AAIB's lab in New Delhi only on 24 June, more than a week after they were recovered from the crash site in Ahmedabad. The ministry did not give any reason for the delay.

John Cox, a former pilot and chief executive of Safety Operating Systems, a provider of consulting services on accident investigations, said with the growing prevalence of GenAI, there needs to be a paradigm shift for providing information by AAIB after an event like a crash. "This is the most extensive case of misinformation that has been seen during any accident. The AAIB should be having daily briefings as done by agencies across the globe. Because in the absence of information, it is misinformation which fills the void," Cox said.

BOOM, a fact-checking platform found images of aircraft with its tail on fire or even an AI generated image of a wreckage in front of the Ahmedabad airport, which was also created by AI. BOOM used AI image detectors, with all indicating a high likelihood of them being AI-generated. However, none of the posts contained a disclaimer.

AI Crash: Simulation Points to Tech Flaw

Part of an engine of Air India flight AI-171 being transported from the crash site in Ahmedabad on Monday- BCCL

Bloomberg

More than two weeks after the deadly crash of an Air India plane that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline reenacted the doomed aircraft's parameters in a flight simulator, including with the landing gear deployed and the wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the investigation.

The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on a technical failure as one possible cause, said the people, who asked not to be identified discussing non-public deliberations.

The simulated flight was conducted separately from the official probe being led by India's Aircraft Accident Investigation Bureau, or AAIB, and was done to explore possible scenarios, one of the people said.

The Boeing 787 that crashed in Ahmedabad on June 12 was powered by two engines made by General Electric. Video footage of the aircraft showed the plane struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded.

ADDITIONAL CLUES

Boeing declined to comment and deferred any questions to AAIB while GE said it cannot comment on an active investigation. The AAIB and Air India did not respond to a request for comment. Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis. The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said.

Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

B'desh Clears Dues, Adani Power to Resume Supply

Dhaka's $437-m payout in June is single-largest; gives sovereign guarantee to firm

Our Bureau

Mumbai: Adani Power received $437 million from the Bangladesh government in June, clearing that country's payment arrears to the Indian company for electricity supplied till March 31, people in the know said.

The last payment was the largest instalment that Adani Power received for the power supplied from its 1,600 MW Godda plant in Jharkhand to Bangladesh. Previous payments had been $90–100 million a month.

With all pending payments, including carrying costs and late fees, settled, Adani Power's cross-border power agreement with Bangladesh is now financially and contractually back on track, the people said. The power purchase agreement, which had come under scrutiny from Bangladesh authorities, has been given a clean chit, they said.

The Godda plant supplies around 10% of Bangladesh's electricity needs. As payment-related issues are now resolved, Dhaka has asked Adani to operate both 800 MW units at the facility in line with the Bangladesh Power Development Board's power scheduling requirements.

The company had reached an agreement with Bangladesh that if that country cleared the previous fiscal year's dues by June 30, the late payment surcharge would be waived. Bangladesh is now making payments on time. To ensure this continues, it has put in place a letter of credit equal to two months of bills of around $180 million and a sovereign guarantee for all dues.

In May, ET reported that Bangladesh's dues to Adani Power stood at around $900 million. Adani Power chief financial officer Dilip Jha at the time told analysts that the total billing to Bangladesh stood at $2 billion, of which $1.2 billion had been received by the end of FY25, with an additional $136 million billed as late payment surcharge.

Adani Power, however, has continued uninterrupted supply to Bangladesh, chief executive SB Khyalia had said. In the January-March quarter, dues declined by ₹500 crore.

The contract's reaffirmation has also resulted in structural changes on the Indian side. The Godda project, previously housed in a separate subsidiary, has been merged with Adani Power for operational and financial streamlining. This integration, combined with the resolution of dues, may help upgrade the company's credit rating from AA to AA+, which could lower future cost of funds.

Adani Power has a ₹1.2 lakh crore capital expenditure plan over the next six years to expand its generation capacity from the current 17.55 GW to 30.67 GW by 2030. This would mark the largest capacity addition in India's private sector thermal power segment. The company has placed advanced equipment orders for 11.2 GW of ultra-supercritical boilers, turbines and generators to secure its supply chain.

Adani Properties Gets NCLT Nod to Acquire HDIL's Two Assets

Kailash Babar & Maulik Vyas

Mumbai: The National Company Law Tribunal (NCLT) has approved Adani Properties' acquisition of two assets of defunct real estate developer Housing Development and Infrastructure Ltd (HDIL) through the corporate insolvency resolution process (CIRP).

The assets include a commercial property known as 'Inspire BKC' in Mumbai's business district Bandra-Kurla Complex and a land parcel in Kalyan Shahad on the outskirts of Mumbai.

Adani Properties was found to be the only bidder to make Insolvency and Bankruptcy Code (IBC)-compliant proposal for both the properties.

For the Inspire BKC commercial project, its resolution plan is valued at ₹3 crore. This includes ₹2.85 crore allocated to creditors and ₹15 lakh for CIRP costs. In the case of Shahad land parcel, the fair value and liquidation value were estimated at ₹89.66 crore and ₹62.76 crore, respectively.

According to industry experts, both these assets in central Mumbai and Kalyan together are estimated to be valued at over ₹2,000 crore.

The Mumbai bench of the NCLT approved the resolution plans for both projects under Section 31 of the IBC, 2016. The committee of creditors (CoC) had cleared both the plans with 66.08% voting share in 2022. The voting concluded in November 2022.

The Rakesh Wadhawan-promoted HDIL has been undergoing insolvency since 2019 with admitted liabilities of over ₹7,789 crore.

While its resolution professional had initially issued an expression of interest for a resolution of the entire company in February 2020, it did not receive any proposal.

As the company had several unfinished residential properties, the National Company Law Appellate Tribunal (NCLAT) allowed a project-wise resolution plan.

The CoC had initially rejected this proposal. However, following objections from homebuyers, the committee reversed its stance in September 2021 and authorised the RP to explore project-wise resolution.

HDIL was then divided into 10 verticals for streamlining the resolution process.

The current approvals to Adani Properties include verticals V and IX.

For Vertical V, the Inspire BKC commercial project, the plan proposes that Adani will not acquire HDIL as a going concern but will demerge the BKC project into itself or a subsidiary.

Adani has also agreed to continue the existing Slum Rehabilitation Authority (SRA) development agreement with Budhpur Buildcon.

Budhpur Buildcon, representing Adani's interest, now holds the Letter of Intent for the slum rehabilitation project that HDIL originally began in BKC, and is tasked with completing the rehabilitation under SRA oversight.

In the case of Vertical IX, the Shahad land parcel, Punjab and Maharashtra Cooperative Bank — now Unity Small Finance Bank — is the sole secured creditor holding mortgage rights.

The bank's objections to the valuation were dismissed by the tribunal in July 2024.

Both plans include performance guarantees of ₹5 crore each, as required under the CIRP regulations. ET's query to Adani Group remained unanswered until press time Tuesday.

Fake AI Content on Air India Crash Poses Headwind for Regulators

A wave of misinformation, created by generative AI, has swarmed the internet

Arindam Majumder

New Delhi | Mumbai: Days after the crash of an Air India Boeing 787 plane in Ahmedabad, killing 275 people, a preliminary investigation report was found circulating in aviation circles. The report, except for an emoji, appeared genuine with various aviation terminologies, giving it a professional look.

However, a closer scrutiny by trained eyes would eventually reveal that it was created by an AI platform using details from a 2024 incident involving South American airline LATAM, giving it a convincing look. By the time, the Indian government refuted the report as fake, news websites had already run headlines, clouding the minds of the public, and even that of several pilots.

With the June 12 Air India crash stirring public uproar amid scarce post-accident updates, a wave of false information, including pictures and videos created by generative AI, has swarmed the internet.

"We've observed a disturbing pattern in how bad actors are leveraging AI and social media platforms to spread misinformation and commit fraud during sensitive events like the Air India Flight 171 crash," said Amit Relan, co-founder and CEO at digital fraud detection firm mFilterIt.

Relan's firm found instances of fake videos showing the aftermath of the air accident and even a case of a fraudulent fundraising attempt. "This is a classic case of emotionally-driven financial fraud, often operated from untraceable or unverified sources," he said, advocating for public education to differentiate legitimate from manipulated content.

As per the International Civil Aviation Organization's (ICAO) recommendations on good communication practices for aircraft crashes, it is essential to communicate effectively with the media to ensure the accuracy of information provided and maintain public trust.

The civil aviation ministry last week said the Aircraft Accident Investigation Bureau (AAIB) has successfully extracted data from the cockpit voice recorder and flight data recorder of the aircraft. Both the CVR and the FDR were moved to AAIB's lab in New Delhi only on 24 June, more than a week after they were recovered from the crash site in Ahmedabad. The ministry did not give any reason for the delay.

John Cox, a former pilot and chief executive of Safety Operating Systems, a provider of consulting services on accident investigations, said with the growing prevalence of GenAI, there needs to be a paradigm shift for providing information by AAIB after an event like a crash. "This is the most extensive case of misinformation that has been seen during any accident. The AAIB should be having daily briefings as done by agencies across the globe. Because in the absence of information, it is misinformation which fills the void," Cox said.

BOOM, a fact-checking platform found images of aircraft with its tail on blaze or even an AI generated image of a wreckage in front of the Ahmedabad airport, which was also created by AI. BOOM used AI image detectors, with all indicating a high likelihood of them being AI-generated. However, none of the posts contained a disclaimer.

CHANDIGARH : Punjab registered a record 44% year-on-year growth in net goods and services tax (GST) collection for June 2025 and 27.01% growth for the first quarter of the 2025-26 financial year, said finance and taxation minister Harpal Singh Cheema on Tuesday.

Addressing a press conference here, Cheema said that the net GST collection for June 2025 stood at ₹2,379.90 crore, reflecting a revenue growth of ₹732.21 crore over the ₹1,647.69 crore collected in June 2024.

"This follows monthly net growth trends of 15.35% in April and 24.59% in May. During the first quarter, the collection reached ₹6,830.40 crore, even amidst the conflict between India and Pakistan in May 2025, compared to ₹5,377.75 crore during the corresponding period of 2024-25," he said, after facilitating the top five taxpayers of the state, including Ambuja Cement, HPCL-Mittal Energy Limited (HMEL), Samsung India Pvt Ltd, Tata Steel and Dada Motors.

Launching a scathing attack on the previous SAD-BJP and Congress-led governments, Cheema claimed that while they failed to check tax evasion and improve the state's fiscal health, the AAP government has ensured consistent month-on-month and year-on-year growth.

He said the present government registered a GST collection growth rate of 16.25% in financial year (FY) 2022-23, 15.51% in FY 2023-24, and 12.84% in FY 2024-25, with a total collection of ₹62,733 crore in three years.

He said that during the Congress regime from 2018-19 to 2021-22, the state merely collected ₹55,146 crore.

On the recent enforcement activities, Cheema stated that the state intelligence and preventive unit (SIPU) had uncovered a GST fraud syndicate run by an accountant who created and operated 20 fake firms for bogus billing and ITC fraud.

Speeding up trade

Operational gaps in cargo clearance need attention

India in recent years made notable improvements in its logistics ecosystem, driven by advancements in port infrastructure, multimodal connectivity, digital integration, and a renewed emphasis on trade facilitation. The country had climbed six spots on the World Bank's logistics performance index, 2023, moving to 38th position globally. The jump reflects the early impact of initiatives such as the PM Gati Shakti and Unified Logistics Interface Platform. In this regard, the recently released National Time Release Study (NTRS) 2025, conducted by the Central Board of Indirect Taxes and Customs, provides granular data on how long it takes for import and export cargo to be cleared through various Indian ports. Time-bound cargo movement allows exporters, especially small and medium enterprises, to meet global timelines, reduce costs, improve trade competitiveness, and integrate with global value chains.

Trade-facilitation reforms, including digitisation, pre-arrival processing, and the Authorised Economic Operator (Aeo) programme, are steadily reducing average release times (ARTs). According to the study, gains were seen at seaports and air-cargo complexes (ACCs), where ARTs fell significantly. Relative to 2024, Inland Container Depots (ICDs) saw marginal improvement, while Integrated Check Posts (ICPs) continued to outperform all categories, with nearly 93 per cent of imports cleared within the NTFAP (National Trade Facilitation Action Plan) benchmark of 48 hours. Exports, however, reveal a mixed picture. The ART for exports, or the duration from cargo arrival to final departure, suggests that while ACCs and ICPs meet most clearance targets, seaports and ICDs continue to lag. This is particularly worrying, given that these locations handle a substantial portion of India's outbound trade volume. Differences in cargo type, stuffing method, and time-of-day patterns cause further variations in release time.

What drags performance down? The study flags delays in duty payment, frequent amendments to shipping and entry documents, and inefficient query resolution as key contributors to higher clearance times. Moreover, delays in post-regulatory logistics, especially after Customs clearance, remain a bottleneck, particularly for exports at ICDs. The presence of partner government agencies (PGA) also continues to slow clearances at major ports, with inconsistent performance and coordination. Kolkata port, for instance, recorded the highest import clearance time across all seaports, averaging over 140 hours, due to delayed assessments, slow PGA interventions, and limited advance filing by importers. On the other hand, Mundra port emerged as a standout performer among seaports, with an average release time of just 55 hours, far below the national average, demonstrating the benefits of streamlined container handling and proactive facilitation. Logistics costs in India are estimated to be 14-18 per cent of gross domestic product, significantly higher than the global benchmark of 8 per cent. As the study rightly notes, this calls for further reforms, including automation at port gates, reduction in manual documentation, improvements in post-clearance logistics, such as faster movement from port gates, and better adoption of digital platforms by traders. For India to become a reliable export hub and an attractive destination for global manufacturing, these operational gaps need urgent attention.

Adani Enterprises to sell 2-5 year debt

Gautam Adani's flagship firm plans to raise up to ₹1,000 crore through a retail bond issue opening for public subscription next week, two sources aware of the development told Reuters on Tuesday.

Adani Enterprises will sell two-year, three-year and five-year bonds through the issue, which will remain open for subscription from 9 July to 22 July, the sources added.

The company will pay an annual coupon of 8.95% on its two-year bonds, 9.15% on three-year bonds and 9.30% on five-year bonds, and will also have an option to defer interest payment to maturity, the sources said.

For investors opting for quarterly payouts, the coupon will be 8.85% on three-year and 9.00% on five-year notes, they added.

This marks Adani Enterprises' second retail bond sale within a year. In September 2024, it raised ₹800 via its debut public issue. **REUTERS**

Adani Logistics rolls out first double-stack rake on Vapi-Haryana route

TBG NETWORK
AHMEDABAD

Adani Logistics Ltd (ALL) has launched its first double stack rake service, connecting the inland container depot (ICD) Tumb in Vapi (Gujarat) to the ICD Patli in Haryana. According to Adani, this marks a significant milestone in India's journey toward high efficiency, sustainable logistics and positions Adani Logistics at the forefront of multimodal infrastructure innovation. The double stack rake -- essentially two layers of containers stacked one above the other -- dramatically increases the volume of cargo transported per trip. This not only boosts operational efficiency but also reduces transit time, carbon footprint, and logistics costs for clients operating between the manufacturing hubs of Vapi, Silvassa, and Daman and the consumption centres of Delhi-National Capital Region (NCR), Haryana, and Punjab. A senior Adani Logistics official said, "This is not just about moving containers; it's about accelerating India's supply chain advantage. With double-stack rail, we can serve clients faster, greener, and more cost-effectively." The strategic link between ICD Tumb and ICD Patli is expected to decongest road freight, cut emissions by up to 30 per cent per container, and streamline export-import traffic through western ports such as Mundra and Hazira in Gujarat. For industries in southern Gujarat and North India -- especially textiles, pharmaceuticals, electronics, and chemicals -- this corridor offers unmatched speed, reliability, and scalability. With India aiming to bring down logistics costs from up to 14 per cent to under 10 per cent of its gross domestic product (GDP), innovations such as double-stack rail are vital. For Adani Logistics, which already operates a network of multi-modal logistics parks, ICDs, and warehouses, this launch is more than a milestone -- it's a signal of intent. As freight demand grows, this Tumb-Patli double stack connection is poised to become a game changer, stitching together India's manufacturing backbone with its consumption heartland.

B'desh Clears Adani Power's Dues with $437 m Payout

Settlement brings pact back on track; Dhaka gives sovereign guarantee to co

Our Bureau

Mumbai: Adani Power has received a payment of $437 million from the Bangladesh government in June—the largest single-month disbursement to date—clearing all outstanding dues for power supplied from its 1,600 MW Godda plant in Jharkhand as of March 31, 2025, sources said. This payment caps off a series of $90-100 million monthly tranches received over the last few months to pay off the dues.

With all pending payments—including carrying costs and late fees—settled, Adani Power's cross-border power agreement with Bangladesh is now financially and contractually back on track. The Power Purchase Agreement (PPA), which had come under scrutiny from Bangladesh authorities, has been given a clean chit sources said.

The Godda plant supplies around 10% of Bangladesh's electricity needs. As payment-related issues are now resolved, Bangladesh has asked Adani to operate both 800 MW units in line with the BPDB's power scheduling requirements.

The company had reached an agreement with Bangladesh that if they paid off the previous fiscal dues by June 30, the late payment surcharge will be waived off.

Bangladesh is now making payments on time. To ensure this continues, it has put in place a Letter of Credit (LoC) equal to two months of bills of around $180 million and a sovereign guarantee for all dues.

In May, ET had reported that Bangladesh's dues to Adani stood at around $900 million. Adani Power CFO Dilip Jha had told analysts that the total billing to Bangladesh stood at $2 billion, of which $1.2 billion had been received by the end of FY25, with an additional $136 million billed as late payment surcharge.

The India No. 1 in chess ranking is kind of a musical chair now. It shows how strongly the young Indians have been faring at the highest level.

The latest occupant of the hot seat is R. Praggnanandhaa, who is ranked World No. 4 in the latest FIDE rating list released by FIDE on Tuesday. Arjun Erigaisi and D. Gukesh are placed No. 5 and 6, respectively.

The 19-year-old from Chennai isn't concerned much about the ranking. He is pretty happy, though, with the kind of chess he has been playing over the last few months. He has won three significant titles, including the prestigious Wijk aan Zee (Tata Steel) this year.

Praggnanandhaa

"Winning Wijk aan Zee meant a lot to me as it is an 87-year-old tournament, which was won in the past by several World champions," Praggnanandhaa told *The Hindu* over phone from Zagreb, where he would be playing the third leg of the Grand Chess Tour.

"It was also nice winning the Superbet Chess Classic in Romania and the UzChess Cup in Tashkent just a couple of days ago."

He admits this has been one of the best phases of his career. "I have tried to change a few things about my chess, which has worked," he said. "I am much more confident, and I push myself in those critical games."

Praggnanandhaa is glad that the young Indians, apart from the top three, have been doing well of late. "Aravindh Chithambaram is playing great chess," he said. "And Nihal Sarin has had good results in the classical formats of late. Our achievements, like Gukesh's World title and Arjun breaking the 2800 Elo barrier, motivate each other. Indian chess is really looking up, with corporates supporting players like me; I have benefited from my association with Adani Group."

He is looking forward to the Esports World Cup, in which he will play for Team Liquid, alongside World No. 1 Magnus Carlsen. "It is nice that chess is becoming part of Esports," he said.

SMPK upgrades container handling capacity

STATESMAN NEWS SERVICE
KOLKATA, 1 JULY

Syama Prasad Mookerjee Port, Kolkata (SMPK) today announced a significant upgrade to its container handling capabilities with the deployment of two additional high-capacity Mobile Harbour Cranes (MHCs) at Netaji Subhas Dock (NSD) within the Kolkata Dock System (KDS).

This strategic enhancement will bring the total number of MHCs at KDS to six (6), marking a substantial boost in operational efficiency and a reduction in vessel turnaround time.

The new MHCs, to be deployed by Adani Ports and Special Economic Zone (APSEZ), are electricity-powered, underscoring SMPK's commitment to eco-friendly and sustainable port operations. To support this initiative, KDS is also establishing dedicated high-capacity electric power supply facilities within the dock premises.

Rathendra Raman, chairman, SMP Kolkata, emphasised the importance of this development. "The deployment of these energy-efficient, electric mobile harbour cranes represents a paradigm shift in our operational approach," Mr Raman stated. "This will go a long way in strengthening Kolkata's position as a sustainable and pivotal container handling hub on the eastern seaboard, increasing KDS's capacity up to 7.5 lakh TEUs (twenty equivalent unit) in the FY 2025-2026. In 2024-2025, Kolkata Dock System (KDS) handled 6.19 lakh TEUs.

Report on AI crash soon

RAJESH KUMAR

Nearly 20 days after the Air India crash in Ahmedabad killed 270 people including 241 on board, Aircraft Accident Investigation Bureau (AAIB) is likely to release a preliminary probe report by next week.

The document, which is likely to be four to five pages long, will be crucial because it will provide initial insights into the crash on June 12, including the possible causes, sources said here on Tuesday.

As per International Civil Aviation Organisation (ICAO) guidelines, India is required to file a preliminary report within 30 days of the crash. The complete probe report is expected in roughly two months from now, which would be three months from the day of the crash. Sources said the preliminary report will include details about the aircraft, which was a Boeing Dreamliner 787-8, the crew, conditions at the Ahmedabad airport, and the weather on June 12, when Air India flight 171 crashed, roughly 30 seconds after taking off.

Details about the wreckage will also be part of the report, as will the name of the investigator in charge. The document will chart the progress of the probe, outline the next steps that need to be taken and highlight areas that need further investigation.

Just days ago, the junior minister for civil aviation, Murlidhar Mohol had said all angles are being investigated in the crash, including sabotage.

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

On the rise

Nifty 50

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

Puri stampede

A judicial probe is the need of the hour to ascertain the accountability factor in the Puri stampede. Such gross mismanagement never happened during the regime of Naveen Patnaik for, unlike CM Majhi, all his efforts were concentrated on facilitating the smooth rolling of chariots. An allegation has been raised against Majhi that he prioritised billionaire Gautam Adani, who attended the Rath Yatra, and the law enforcement agencies were busy attending to him. It is unfair to make them scapegoats to befool the public.

Arun Gupta, Kolkata

Language issue

The editorial 'Maha revokes 3-language policy' rightly highlights the complexities surrounding the three-language formula. While the policy appears flexible in theory, its implementation raises valid concerns, particularly about the perceived imposition of Hindi. The recent uproar in Maharashtra over prioritising Hindi reveals the emotional and political sensitivities tied to language. The rollback of the decision following widespread opposition underscores the need for a truly consultative and inclusive approach. India's strength lies in its diversity, and the language policy must echo that truth, not override it.

Vandana, Chandigarh

Mandhana rocks!

Mandhana's knock at Nottingham was a statement innings. It wasn't just about personal milestones; it was about lifting the morale of the team. The absence of skipper Harmanpreet Kaur raised questions about team balance. With the T20 World Cup next year, every match is not just about the result but about building cohesion, confidence, and clarity in roles. In essence, it is a litmus test for India's bench strength, temperament under pressure, and readiness for world dominance.

Aditya Kamble, Kalaburagi

A welcome initiative

It is essential for students to stay informed about national and global developments. In the past, prominent news stories, historical events of the day, and cultural or national updates were often displayed on school bulletin boards. This not only promoted reading habits among students but also broadened their understanding of the world. Unfortunately, such practices have declined in recent years. In this context, a recent decision by the Himachal Pradesh government is truly commendable. Government schools in the state will now include the reading of daily news reports as a part of the morning assembly.

Vijay Koshti, Sangli

Strike against e-challans

Like every year, the transporters and school bus owners association has called for an indefinite strike against e-challans and operational issues. Why don't these people like any control over them? School bus owners neglect safety norms as well as traffic rules, in spite of the great responsibility they carry. Transporters don't adhere to traffic rules, leading to accidents; still, they oppose e-challans and CCTVs on the road. Everyone should follow the RTO rules so that transportation is more viable and safe. The strike should end soon.

Maya Hemant Bhatkar, Mumbai

Real culprits

Every time there is a custodial death, the escapists are generally the police who are immune to the system, as has been proved time and again by their brutal attitude in handling the alleged accused. The recent death of a temple security guard, Ajith Kumar, in police custody in Tamil Nadu's Sivaganga district has prompted the Madurai bench of the Madras High Court to question the manner in which the police handled the case. The police are answerable for the missing jewels, as the manner in which the cases are getting closed is creating a serious doubt as to who the real culprit is in all these cases.

B'desh resolves Adani's power purchase pact, payment concerns

Bangladesh made its single largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources said. Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units according to the Bangladesh Power Development Board (BPDB) schedule, they added. Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million. PTI

In the wake of tragic Dreamliner crash, trauma latches on to flight crew, pilots

In the wake of tragic Dreamliner crash, trauma latches on to flight crew, pilots

The morning of June 13 was one of the most dreaded for a pilot who had recently taken command of the A320 after seven years as co-pilot. As details of the Air India crash came in and theories on the causes did the rounds, not only did he get a sinking feeling when he thought of his forthcoming flight that afternoon, but his wife and ageing mother's incessant replaying of the videos and those 32 seconds before the airplane blew up in flames gave him the jitters. "A lethal combination of awe (that something like this was at all possible), trauma, shock and disbelief (ATSD)", is how he described the feeling.

As he finished lunch in his Gurugram apartment and began to get ready to leave for the airport, his wife and mother surrounded him and urged him to call in sick. They too needed a day or two to absorb the shock of the unreal nightmare that had unfolded on TV, computer and phone screens The pilot, who asked not to be named finally caved in and called in sick, unaware that he was actually one of many both in his airline and in the rival carriers to have done so. For days after the crash, pilots and cabin crew across the country looked for ways to cope with what may had, prior to June 13, considered a one-in-a-billion event. Almost all domestic airlines saw a few sick call ins, some due to pressure from family members than a case of nerves.

The three "dystopian" days, as many in the sector described them, post the crash, did require some re-rostering and rescheduling on the part of Air India, a spokesperson for the airline confirmed, with a few commanders, first officers and crew calling in sick, although he claimed that things were back to normal by Monday, June 16.

Air India management - which was in a state of shock itself - did put peer counselling into place - AI buddies were available for anyone who felt they needed counselling to carry out their duties as required and psychologists were available at the main airports for both the employees and regular fliers to avail of their services if need be. In a country where any kind of mental support is frowned upon and perceived as a sign of "madness" if not weakness, how many senior commanders or staff actually availed of these remains opaque. Neither was the effort to support flying staff adequate nor was it very effective, according to sources both in the airline and the sector.

But it wasn't just pilots. Not far from where the pilot lived, a woman fretted as her daughter, studying in the US, boarded an Air India Dreamliner to come back home for the summer. The 21-year-old was flying alone and had, just like the rest of the world, witnessed the horrific accident. The mother, who asked not to be named, knew the chances of a repeat were truly slim but her mind kept playing games and she stayed awake in panic half the night, reaching an hour before arrival to receive her only child at Delhi's T3 terminal. Although she did not take the extreme step of asking her daughter to cancel the trip, many fliers did and platforms across India reported a drop in bookings and some cancellations post the crash in domestic trips, an expected and natural response to a disaster of this magnitude.

When uncertainty kills

While there is a name for the condition, post traumatic stress disorder (PTSD), matters are now acquiring a more worrisome nature as the pilots and crew say the uncertainty of not knowing what happened is killing them.

"It's one thing to see an incident like this play out and quite another to have no idea why it occurred (almost three weeks later)", says a senior Indigo commander who asked not to be named. He says he is spooked, especially when he looks at his new-born infant, who is less than six months old. While he has been reporting for duty since the Monday after the crash, he says his mind is not at rest and is "riddled with a million uncertainties". The endless speculation on the cause of the crash has not helped.

While a majority of pilots and crew seem to have found mechanisms to cope, some continue to suffer from the after effects of the trauma , reliving and replaying it in their heads. While the travelling public was spooked too (even though public memory is short) and followed the news and causes of the crash far more closely than most other events, it was those placing themselves daily in the cockpit responsible for many lives that needed -- and still need -- support.

Many commanders now say they feel jittery especially since no clear cause had been announced. More than one expressed the "need for clarity" . They also cited pressure from their families, wives, old parents and dependents to go on "long leave" . That isn't possible for everyone; in many cases, the pilots are the sole earning members of their family.

As one Bengaluru based commander who recently took command on an A320 Neo put it : "There's more to it than just me and how I am dealing with it. This silence on the possible cause is making things worse : the uncertainty of not knowing what unfolded in those 32 seconds and led to what it did." He says he has called in sick once, after looking at the face of his eight-month-old daughter.

Moreover, he adds, asking not to be named, he keeps replaying what might go wrong even as he enters the cockpit for his next flight and adds that he can almost hear the collective prayers from the cabins behind. The only consolation factor is that the probability of a similar episode is almost nil. "Dual engine and complete failure of the kind this appears to be can only be a lapse of maintenance or a manufacturing defect," said another commander who asked not to be named, admitting that the probability of a repeat is extremely low.

The pilot cited in the first instance said that while he managed to go to work from the Monday following the crash, it hasn't been easy. Every time he emerges in his uniform, his wife responds by banging doors, his mother sulks and he's greeted by long faces. He says most families mof pilots he knows are asking the pilots "to avoid flying till they know more" as they too need some sort of closure While avoiding flying is certainly not possible for all, the pressure at home is building up and safety has replaced other dinner table conversation, he added.

Other weak spots

A former Indian Airlines senior management member recalls a similar situation playing out post the 1990 Indian Airlines A320 air crash in Bengaluru, which killed 92 people. The A320 had entered commercial service only the year before (1989) and many were not convinced of its operational efficiency and safety features. The government took a decision to ground the aircraft, which was "economically disastrous" for Indian Airlines at the time but helped reduce anxiety levels among pilots and cabin crew. "Flight safety is not confined to machines. It is all about the confidence levels of the pilots in the cockpit", argued this person, adding that it is incumbent upon the director of flight safety in Air India who would be privy to this crash investigation to allay fears within the crew.

Aviation industry executives say that this crash has exposed the inherent weaknesses in the system especially with regard to emergency response plans. "Although widely advocated by IATA, it seems in the heat of the moment, no systematic emergency response plan appears to have been executed", says a former MOCA secretary. IATA offers a structured emergency planning and response course for airlines and airport staffers as part of its safety management systems. While the former has been attended by 450 participants from 90 countries in the past five years, the latter has been attended by 149 participants from 34 countries. To what extent Indian carriers or airport staff are trained is not clear.

"Such courses and training in a country as widespread as ours remain more on paper and in theory," argues a former DGCA official, adding that coordination at a national level when a crisis erupts response tends to remain haphazard.

In a column in the edit pages of this newspaper, this writer suggested setting up a ministry for trauma care to handle accidents precisely of this nature. While a preliminary explanation for the crash has not yet emerged, there has been a very poor emergency response and post crisis handling with authorities at all levels including the office of the director general of civil aviation (DGCA) inadequately equipped, trained and staffed to handle a disaster of this nature. What has played out is inexcusable for a country with the magnitude of ambition India has.

B'desh resolves Adani's power purchase pact, payment concerns

NEW DELHI: Bangladesh made its single largest payment of $437 million in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement, reaffirming the Indian conglomerate's asset as a reliable and cost-competitive power source for meeting the country's growing energy needs, sources said.

Bangladesh is now regular in payments. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources aware of the matter said.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units as per BPDB (Bangladesh Power Development Board) schedule, they added.

Sources said Bangladesh has resolved Adani Power's dues, including the carrying cost. Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million.

The LCs are worth about two months of billing and sovereign guarantee for all dues, as additional security has put Adani in a very comfortable situation.

Concerns raised related to investigations into the PPA by the Bangladesh authorities have been resolved, with no adverse aspects found.

With all these developments, lenders are confident of improving APL's credit rating to AA+ from the current AA.

Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million

Adani Power supplies electricity to Bangladesh from a dedicated 1600 MW plant located in Godda district of Jharkhand, meeting 10 per cent of the country's power demand. The company supplies among the most competitively priced power to Bangladesh, as is evident from BPDB's merit order dispatch data, which is an essential requirement.

Bangladesh had in the past struggled to meet its payment obligations under the 2017 deal, as rising import costs — following the Russia-Ukraine conflict in 2022 and domestic political turmoil, which led to the ouster of the prime minister — strained the country's finances.

As a result, Adani halved its supply last year, and full supplies were resumed in March 2025 after the country's monthly payments started covering some of the dues.

Sources said over the last three to four months, Bangladesh had started paying $90-100 million per month, and in June, the company received the single largest chunk of payment of $437 million, thereby clearing all dues.

Adani Power's Godda unit was housed under a separate subsidiary, which has now been merged with the parent, providing greater operational and financial synergy. With all these developments, lenders are confident of improving Adani Power's credit rating to AA+ from the current AA, which will further bring down its cost of funds.

The current developments vindicate the contract established between the Bangladesh government and Adani Power. The Godda asset is now well integrated into the Bangladesh Power system successfully.

Under the 2017 deal, Adani Power's Godda power plant in Jharkhand was to supply 100 per cent of the electricity generated from burning coal to Bangladesh for a period of 25 years.

After payment defaults, Adani had cut supplies by half in November 2024. It restored full electricity supply, which is around 1,600 MW, in March after the country reduced its liabilities.

Bangladesh stepped up repayments from July last year, clearing monthly dues. The development comes after the country suffered from increased power shortages in rural areas. AGENCIES

Kolkata Port to boost container handling with new mobile cranes

OUR CORRESPONDENT

KOLKATA: Syama Prasad Mookerjee Port, Kolkata (SMPK) has announced a major capacity boost at its container terminal with the deployment of two new high-capacity mobile harbour cranes (MHCs) at the Netaji Subhas Dock (NSD), part of the Kolkata Dock System (KDS).

An issued statement read that this move will raise the total number of MHCs at KDS to six, significantly enhancing operational efficiency and reducing vessel turnaround time.

The two cranes, to be deployed by Adani Ports and Special Economic Zone (APSEZ), are powered by electricity—marking a shift towards greener, more sustainable port operations. As part of this eco-conscious initiative, SMPK is also setting up high-capacity electric power supply infrastructure within the dock premises to support the functioning of these cranes.

Rathendra Raman, chairman of SMP Kolkata, described the upgrade as a "paradigm shift" in operational strategy. "The deployment of these energy-efficient, electric mobile harbour cranes represents a significant leap towards sustainable port operations," he said. He added that the move will play a critical role in strengthening Kolkata's position as a major container-handling hub on India's eastern seaboard.

The two cranes are powered by electricity MPOST

The additional MHCs are expected to increase KDS's annual container handling capacity to 7.5 lakh Twenty-foot Equivalent Units (TEU) in FY 2025-26. In comparison, KDS handled 6.19 lakh TEUs during FY 2024–25.

Raman extended his gratitude to the APSEZ team in Kolkata and acknowledged the contributions of SMPK employees who have worked diligently to make this development possible. "This is a remarkable step forward and I appreciate my colleagues who have been tirelessly working towards the port's progression," he said.

The commissioning of the two cranes is expected in the coming months. Once operational, they will not only improve the overall productivity of NSD but also reinforce SMP Kolkata's role as a key gateway for maritime trade in the eastern region.

KOLKATA, 1 JULY

Syama Prasad Mookerjee Port, Kolkata (SMPK) today announced a significant upgrade to its container handling capabilities with the deployment of two additional high-capacity Mobile Harbour Cranes (MHCs) at Netaji Subhas Dock (NSD) within the Kolkata Dock System (KDS).

This strategic enhancement will bring the total number of MHCs at KDS to six (6), marking a substantial boost in operational efficiency and a reduction in vessel turnaround time.

The new MHCs, to be deployed by Adani Ports and Special Economic Zone (APSEZ), are electricity-powered, underscoring SMPK's commitment to eco-friendly and sustainable port operations. To support this initiative, KDS is also establishing dedicated high-capacity electric power supply facilities within the dock premises.

Rathendra Raman, chairman, SMP Kolkata, emphasised the importance of this development. "The deployment of these energy-efficient, electric mobile harbour cranes represents a paradigm shift in our operational approach," Mr Raman stated. "This will go a long way in strengthening Kolkata's position as a sustainable and pivotal container handling hub on the eastern seaboard, increasing KDS's capacity up to 7.5 lakh TEUs (twenty equivalent unit) in the FY 2025-2026. In 2024-2025, Kolkata Dock System (KDS) handled 6.19 lakh TEUs.

Bangladesh made its single largest payment of $437 million in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement, reaffirming the Indian conglomerate's asset as a reliable and cost-competitive power source for meeting the country's growing energy needs, sources said.

Bangladesh is now regular in payments. Additionally, aLetter of Credit (LC) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources aware of the matter said.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units as per BPDB (Bangladesh Power Development Board) schedule, they added.

Sources said Bangladesh has resolved Adani Power's dues, including the carrying cost.

Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million.

ADDITIONAL SECURITY

The LCs are worth about two months of billing and sovereign guarantee for all dues, as additional security has put Adani in a very comfortable situation.

Concerns raised related to investigations into the PPA by the Bangladesh authorities have been resolved, with no adverse aspects found.

CREDIT RATING

With all these developments, lenders are confident of improving APL's credit rating to AA+ from the current AA.

Adani Power supplies electricity to Bangladesh from a dedicated 1600 MW plant located in Godda district of Jharkhand, meeting 10 per cent of the country's power demand.

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

B'desh resolves Adani's power purchase pact, payment concerns

Bangladesh made its single largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources said. Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units according to the Bangladesh Power Development Board (BPDB) schedule, they added. Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million. PTI

"It took time to figure out what fashion meant to me. In the early days of my career, it was about how people wanted to perceive me. I was too young and raw. My approach was more like, 'How does the team want to see me?' Now I think, 'What do I feel like wearing? How do I want to see myself?' It's not related to trends.

I honestly feel no pressure of my fashion being dissected or dressing up because fans would want to copy my style. If there's something I want people to see, it's the authenticity. My goal is to inspire people to be themselves, I wouldn't want them to copy me or my style."

Adani Enterprises to sell 2-5 year debt

Gautam Adani's flagship firm plans to raise up to ₹1,000 crore through a retail bond issue opening for public subscription next week, two sources aware of the development told Reuters on Tuesday.

Adani Enterprises will sell two-year, three-year and five-year bonds through the issue, which will remain open for subscription from 9 July to 22 July, the sources added.

The company will pay an annual coupon of 8.95% on its two-year bonds, 9.15% on three-year bonds and 9.30% on five-year bonds, and will also have an option to defer interest payment to maturity, the sources said.

For investors opting for quarterly payouts, the coupon will be 8.85% on three-year and 9.00% on five-year notes, they added.

This marks Adani Enterprises' second retail bond sale within a year. In September 2024, it raised ₹800 via its debut public issue. **REUTERS**

'PUNJAB SEES RECORD 44.44% GST GROWTH IN JUNE, 27% 1ST QR RISE'

Finance Min felicitates top taxpayers; slams past regimes for fiscal mismanagement

TARUNI GANDHI
CHANDIGARH

Punjab has achieved an unprecedented 44.44% growth in Net GST collections for June 2025, and a strong 27.01% rise for the first quarter of the fiscal year 2025-26 — the highest recorded growth both for a single month and a fiscal quarter in the state's history.

Finance, Planning, Excise and Taxation Minister Advocate Harpal Singh Cheema announced the figures while honouring the top five taxpayers of the state for their exemplary contribution to revenue generation. The awardees included Ashu Agnihotri (Ambuja Cement), Sanjay Malhotra (HPCL-Mittal Energy Ltd), Chaman Lal Sharma (Samsung India), Ankush Sharma (Tata Steel), and Nitin Dada (Dada Motors). Cheema applauded their compliance and stressed that responsible tax practices are vital for inclusive development and long-term fiscal stability.

Joined by Secretary Taxation Ajit Balaji Joshi and Excise and Taxation Commissioner Jitendra Jorwal, Cheema underlined that Punjab's GST performance has exceeded the national average, placing the state among the top revenue-generating regions, despite economic pressures and border-related geopolitical tensions.

The Net GST collection in June 2025 reached Rs 2,379.90 crore — a remarkable Rs 732.21 crore increase from Rs 1,647.69 crore in June 2024. This builds upon a 15.35% growth in April and 24.59% in May. For the first quarter (April-June 2025), the state recorded a net GST collection of Rs 6,830.40 crore, a significant jump from Rs 5,377.75 crore during the same period last year — a fourfold increase over the 6.41% growth rate seen in Q1 of FY 2024-25, despite tensions between India and Pakistan in May 2025.

Cheema launched a scathing critique of previous SAD-BJP and Congress administrations, blaming them for poor enforcement and fiscal mismanagement.

KEYPOINTS

- Punjab recorded a 44.44% GST growth in June 2025 and a 27% surge in Q1 of FY 2025-26, with net collections reaching Rs 6,830.40 crore — surpassing the national average despite geopolitical and economic challenges.
- Finance Minister Harpal Singh Cheema honoured major contributors like Ambuja Cement, HPCL-Mittal, Samsung India, Tata Steel, and Dada Motors for their exemplary compliance and role in revenue generation.
- State Intelligence & Preventive Unit (SIPU) busted two major GST scams — a Rs 157.22 crore evasion involving bogus billing and a Rs 30.66 crore tax scam by a transporter issuing fake e-way bills.
- Despite inheriting high legacy debt, the AAP government has strengthened fiscal stability by investing in redemption funds, while planning to borrow Rs 49,900 crore in FY 2025-26 primarily for debt servicing.

Bangladesh clears Adani Power dues

PRESS TRUST OF INDIA
New Delhi, July 1

BANGLADESH MADE ITS single-largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, sources said.

Additionally, a letter of credit (LC) worth about two months of billing and sovereign guarantee for all dues as additional security have been established, the sources stated.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power as per the schedule of Bangladesh Power Development Board (BPDB), they added. Over the previous 3-4 months, the country had been paying $90-100 million per month, and in June, it paid $437 million.

Concerns raised related to investigations into the power purchase agreement (PPA) by the Bangladesh authorities have also been resolved, with no adverse aspects found, they said.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant in Godda district of Jharkhand, meeting 10% of the country's power demand. Adani Power had curtailed supply to Bangladesh over payment delays following the ouster of Sheikh Hasina as the Prime Minister in August 2024. The company resumed full supplies in March 2025.

बांग्लादेश ने अदाणी के बिजली खरीद समझौते, भुगतान संबंधी चिंताओं का समाधान किया

एजेंसी ■ नई दिल्ली

बांग्लादेश ने अदाणी पावर को जून में 43.7 करोड़ डॉलर का अपना सबसे बड़ा भुगतान किया है। इसके साथ ही पड़ोसी देश ने लंबित बकाया और बिजली खरीद समझौते से संबंधित मुद्दों का निपटान कर दिया है। सूत्रों ने यह जानकारी दी। मामले से जुड़े सूत्रों ने कहा कि बांग्लादेश अब नियमित रूप से भुगतान कर रहा है। इसके अलावा सभी बकाया के लिए लगभग दो महीने के बिल और सरकारी गारंटी के बराबर एक साख पत्र (एलसी) की भी व्यवस्था की गई है। उन्होंने कहा कि चूंकि भुगतान संबंधी मामले सुलझ गए हैं, इसलिए बांग्लादेश ने अदाणी पावर को बीपीडीबी (बांग्लादेश पावर डेवलपमेंट बोर्ड) के कार्यक्रम के अनुसार दोनों इकाइयों से बिजली की आपूर्ति करने को कहा है। बांग्लादेश पिछले 3-4 महीनों में प्रति माह 9-10 करोड़ डॉलर का भुगतान कर रहा है, और जून में उसने 43.7 करोड़ डॉलर का भुगतान किया। साख पत्र लगभग दो महीने के बिल के बराबर है और यह सभी बकाया के लिए एक सरकारी गारंटी की तरह है। अदाणी पावर झारखंड के गोड्डा जिले में स्थित 1600 मेगावाट क्षमता वाले संयंत्र से बांग्लादेश को बिजली की आपूर्ति करती है।

हादसों का ज़िम्मेदार कौन?

केपी मलिक

पिछले दिनों अहमदाबाद में जिस प्रकार से एयर इंडिया की फ्लाइट का भयंकर हादसा हुआ, उससे कई सवाल उठ खड़े हुए हैं। सवाल इसलिए भी कि इस प्रकार का हादसा होना नामुमकिन जैसा लगता है और इसलिए भी सवाल उठते हैं कि ऐसे दर्दनाक हादसे जब देश में होते हैं, तो उसकी जिम्मेदारी कोई मंत्री या सरकार क्यों नहीं लेती? चाहे वो फ्लाइट हादसा हो, चाहे ट्रेन हादसा हो, चाहे सड़क हादसा हो या फिर चाहे पानी में हुआ कोई बड़ा हादसा हो। सवाल ये भी है कि जब अपनी जेब से एक भी पैसा खर्च किए बिना किसी शिलान्यास से लेकर उद्घाटन तक का श्रेय मंत्री और सरकार लेती है, तो किसी हादसे की जिम्मेदारी आखिर मंत्री या सरकार क्यों नहीं लेते? हद तो तब हो जाती है, जब सरकारी काम को उन पार्टियों के नेता भी चुनावों में भुनाते हैं, जिनकी पार्टी की सरकार में कोई छोटे से छोटा भी काम हुआ होता है। जबकि सरकार के पास जो भी पैसा होता है, वो जनता की मेहनत की कमाई में से दिए गए टैक्स का होता है। लेकिन जरा से शिलान्यास पर भी मंत्री, बल्कि आजकल तो सीधे मुख्यमंत्री या प्रधानमंत्री का नाम लिखा जाता है और फोटो छपवा दिया जाता है। जरा-जरा से काम के प्रचार के लिए बड़े-बड़े पोस्टर, बैनर और होर्डिंग लागए जाते हैं। लेकिन जब कोई दर्दनाक हादसा होता है, तो एक चुप्पी साध ली जाती है, जैसे कुछ हुआ ही न हो। जिन कामों का श्रेय लिया जाता है, उन्हीं कामों में कोई खराबी या हादसे के बाद कोई सामने नहीं आता। मसलन, कई पुल, सड़कें और निर्माण उद्घाटन के बाद ही जाते हैं, तो उसकी जिम्मेदारी नहीं ली जाती है।

दरअसल अहमदाबाद के सरदार वल्लभभाई पटेल अंतरराष्ट्रीय हवाई अड्डे से उड़ा एयर इंडिया का एआई 171 नंबर का बोइंग 787-8 ड्रीमलाइनर जहाज मेघानी नगर में सिविल हॉस्पिटल के मेडिकल हॉस्टल से टकराया, उसकी रोंगटे खड़े कर देने वाले वीडियो केंद्र सरकार को याद दिलाते रहेंगे कि ऐसे हादसे आखिर कब तक होते रहेंगे और सरकार को सवालों के घेरे में रखेंगे, भले ही केंद्र सरकार इस तरफ ध्यान दे या न दे। झकझोरने वाले अहमदाबाद में हुए इस जहाज हादसे में उठे सवालों में पहला सवाल तो ये है कि जब जहाज करीब 12 साल पुराना बताया जाता है और उसका इंजन हादसे से तीन महीने पहले ही बदला गया था, फिर ये हादसा कैसे हो गया? और दूसरा सवाल ये है कि दोनों इंजन फेल कैसे हो गए? तीसरा सवाल ये है कि हादसे की जांच के लिए मुख्य जांचकर्ता की नियुक्ति में देरी क्यों की गई? चौथा बड़ा सवाल ये है कि जब ब्लैक बॉक्स मिल गया, तो उसका डेटा निकालने और उसकी जांच में हीलाहवाली का क्या मतलब है? पांचवां बड़ा सवाल ये है कि जब जहाज में खराबी आई और पायलट ने मदद मांगी, तो मदद क्यों नहीं मिल सकी या मदद का मौका क्यों नहीं मिला? सवाल तो और भी हैं, लेकिन यह कहना होगा कि इतनी जल्दी हवाई जहाज का हादसा होना किसी के गले नहीं उतर रहा है। हालांकि कुछ रिपोर्टों से ये पता चला है कि जहाज पुराना था और उसमें कई खामियां थीं। अगर ऐसा था, तो फिर बिना रिपेयरिंग किए उसकी उड़ान जारी क्यों रखी गई? कहा जा रहा है कि एअर इंडिया के इस जहाज की डिटेल मेंटेनेंस जांच जून 2023 में भी की गई थी और इस साल यानि 2025 के दिसंबर महीने में इसकी अगली डिटेल मेंटेनेंस जांच होनी थी। अक्सर देखा जाता है कि जिन मशीनों की कीमत ज्यादा होती हैस उनके चलने में रिस्क ज्यादा होता है और उनकी मैंटेनेंस पर न सिर्फ ज्यादा खर्च किया जाता है, बल्कि उनकी निगरानी भी ज्यादा करनी पड़ती है। फ्लाइट यानि हवाई जहाज की यात्रा भी बहुत जोखिम भरी होती है, जिसके चलते उसकी जांच, मेंटेनेंस, निगरानी और हर जरूरी दिशा-निर्देश का ख्याल रखना होता है। जब कोई जहाज रनवे से उड़ान भरने वाला होता है, तो उससे दो-घंटे पहले ही उसकी फिटनेस चेक होती है, जिससे अगर उसमें कोई कमी हो, तो उसे दूर किया जा सके और उसमें यात्रा करने वाले सही सलामत अपने गंतव्य तक पहुंच सकें। अहमदाबाद में भी एयर इंडिया के इस जहाज की फिटनेस जांच जरूर हुई होगी, तो फिर ऐसा हादसा क्यों हुआ, जिसमें अभी तक 275 लोगों के मारे जाने की पुष्टि हुई है, जबकि अंदेशा है कि मारे गए लोगों की संख्या इससे कहीं

ज्यादा हो सकती है। बहरहाल, हमने देखा है कि सरकार डीज़ल की साल पुरानी और पेट्रोल की 15 साल पुरानी गाड़ियों को हटाने का काम करती है। तो क्या इसी प्रकार जहाजों के चलने की भी कोई समय सीमा निर्धारित है? या उन्हें भी पुरानी ट्रेनों की तरह लगातार इस्तेमाल में लाया जाता है? या जिन पेट्रोल और डीज़ल की गाड़ियों को लोग अपनी मेहनत की कमाई से जैसे-तैसे पैसा जोड़कर खरीदते हैं, सिर्फ उन्हीं पर ही ये फ़ार्मूला लागू है? यहाँ पर एक बहुत बड़ा सवाल ये है कि पुरानी गाड़ियां सड़क पर नहीं चल सकतीं, लेकिन पुराने हवाई जहाजों को आकाश में उड़ाया जाता है, पुरानी ट्रेनों और सरकारी बसों को पटरी और सड़कों पर दौड़ाया जाता है। क्या केंद्र सरकार की ये दोहरी नीति नहीं है, जो ये जताती है कि सरकार किस प्रकार से बड़ी-बड़ी कंपनियों के फायदे के लिए दबाव में या पार्टी को मिलने वाले चंदे के चक्कर में अपने एजेंडे को साधती है और इस प्रकार के कानून बनाती है जिससे आम आदमी, जिसमें मध्यम वर्ग सबसे ज्यादा प्रताड़ित है, उसकी जेब से लगातार पैसा निकलता रहे और वहीं अमीर यानि पूंजीपतियों की जेब में और सरकार के खजाने में उन्हीं घिसी-पिटी मशीनों या वाहनों से लगातार पैसा आता रहे, वो भी तब जब हवाई जहाज से लेकर ट्रेनों और सरकारी बसों का किराया लगातार बढ़ा जाता है और उस पर भी टैक्स लिया जाता है। अभी हाल ही में हमारे बीएसएफ के 12 सौ जवानों को जिस प्रकार से त्रिपुरा से अमरनाथ में ड्यूटी पर जाने के लिए एकदम खराब हालत वाली ट्रेन मुहैया कराई गई थी, जबकि नेताओं के लिए बेहतर से बेहतर ट्रेन में फर्स्ट क्लास यात्रा मुफ्त दी जाती है। क्या वाहनों के चलने की अवधि और भेदभाव वाले ऐसे कानूनों में परिवर्तन करने की गंभीर जरूरत नहीं है? और ऊपर से जब कोई हादसा होता है, तो केंद्र सरकार के जवाबदेही वाले मंत्री न सवालों के जवाब देते हैं और न कोई जिम्मेदारी अपने ऊपर लेते हैं। जबकि एक समय था कि किसी भी हादसे पर मंत्री अपने इस्तीफे खुद दे दिया करते थे। आज कोई नेता या मंत्री इस्तीफा नहीं देता, क्योंकि इस्तीफा अब अपनी गलती मानकर शर्मसार होने का प्रतीक नहीं, हार मानने का प्रतीक बना दिया गया है। सत्ताधारी वर्ग छवि प्रबंधन यानि इमेज मैनेजमेंट में माहिर हो गया है। सत्ता अब मीडिया, सोशल मीडिया और पेड पैरेंट्स से चलती है, जवाबदेही से नहीं। आखिर जवाबदेही अब सिस्टम का हिस्सा क्यों नहीं रही? यह केवल एक आलेख नहीं, बल्कि एक आत्मिक दस्तावेज है और एक ऐसी सच्चाई का आईना है, जिसे आमतौर पर या तो नजरअंदाज कर दिया जाता है या फिर सत्ता के शोर-गुल या दूसरे बड़े मुद्दे को उठाकर दबा दिया जाता है। अब हर त्रासदी या हादसे के बाद यही सुनने को मिलता है कि हमारे पास मृतकों का आधिकारिक आंकड़ा नहीं है। या ये कहा जाता है कि हादसे को कौन रोक सकता है। इसका मतलब ये है कि मौतें सिर्फ खबरें हैं और वो अखबारी शब्दों में सिमटी या छुपाई गई संख्या बन चुकी हैं, जिन्हें कहीं ऊपर से मैनेज किया जाता है कि मौतों के आंकड़े कितने देने हैं और धीरे-धीरे देने हैं। और ये चलन बन गया है कि कहीं भी चाहे हादसा किसी भी प्रकार का हो, अगर गलती आपकी सरकार में हुई है, तो उस पर बेशर्मी से अपनी गलती छुपाने या जिम्मेदारी से भागने के लिए लीपापोती करनी है और जनता को गुमराह रखना है। दरअसल, जब किसी पार्टी और उसके नेताओं का लक्ष्य सिर्फ चुनाव जीतना ही हो, तो जवाबदेही एक बोझ लगने लगती है। इसीलिए ऐसी पार्टियों की सरकारों में न इस्तीफ़े होते हैं, न माफ़ी मांगी जाती है, सिर्फ पीआर कैंपेन्स चलती हैं। क्योंकि हमें भावनाओं से बाँध दिया गया है। अगर सवाल पूछे या सरकार या किसी मंत्री पर उंगली उठाई, तो देशद्रोही का टैग लगा देना अब आम बात हो चुकी है। पार्टियों और सरकारों के लिए ये इसलिए आसान हो चुका है, क्योंकि हम राष्ट्रभक्ति, राष्ट्रप्रेम, राष्ट्ररक्षा, धर्म, संस्कृति को अपना सर्वस्व मानते हैं और जातीयता की जंजीरों में हमें जकड़कर रखा गया है। और मनोविज्ञान कहता है कि इंसान, खास तौर पर आम इंसान जिन चीजों को दिल की गहराइयों से मानता है, उनकी आड़ में उसे आसानी से भावुक और ब्लैकमेल किया जा सकता है। और अगर वो फिर भी एक जागरूक नागरिक है और सवाल करता है, तो उसे राष्ट्र, धर्म और संस्कृति जैसे मार्मिक शब्दों के खिलाफ बताकर देशद्रोही, धर्मद्रोही, असभ्य और दुश्मन देश का नागरिक बता दो, जिससे वो सवाल करने की जगह अपने बचाव में लग जाए। यही वजह है कि आज ज्यादातर लोग सवाल नहीं करते और जो सवाल करते हैं, उन्हें देशद्रोही या धर्मद्रोही, पाकिस्तानी या असभ्य बताकर बुनियादी सवालों से दूर होने को मजबूर कर दो। फिर भी कोई न माने, तो उसे पीट दो, उसकी हत्या करा दो या उसके ऊपर संगीन मामलों के तहत रिपोर्ट दर्ज कराकर झूठे मुकदमों में फंसा दो या जेल भेज दो। आखिर ये सब हो क्या रहा है? क्या किसी हादसे या कमी के लिए कौन ज़िम्मेदार है? ये पूछना गुनाह है? नहीं, ये लोकतंत्र की आत्मा है, जिसे जिन्दा रखना बहुत जरूरी है, वर्ना वो दिन दूर नहीं, जब आम आदमी गुलामी की जंजीरों में उसी तरह जकड़ा नजर आएगा, जिस तरह अंग्रेजों ने हम हिंदुस्तानियों को जकड़ा था। इसलिए मेरा मानना है कि लोग भावनाओं में बहकर नहीं, बल्कि सरकारों और नेताओं के कामकाज पर ध्यान केंद्रित करें। वर्ना हादसे होंगे, अत्याचार होगा, अपराध होंगे और जवाब देने वाला कोई नहीं होगा। क्योंकि लोकतंत्र में जब जनता सो जाती है, तब सत्ता मनमानी करने लगती है। विपक्ष का भी असली काम सरकार से जवाब मांगना है और चुप रहना एक अपराध है और लोकतंत्र की हत्या में एक मूक सहमति है। अगर सरकार विपक्षियों की नहीं सुनती है, तो उन्हें चाहिए कि वे हर समस्या को आंदोलन में बदल दें, ताकि सरकार किसी भी मामले से भागे नहीं, बल्कि मजबूर होकर सही, लेकिन ज़िम्मेदार बने। अब सवाल ये है कि अप्रैल में एअर इंडिया ने बोइंग 787-8 ड्रीमलाइनर के लिए बीमा कवर 750 करोड़ रुपए से बढ़ कर 850 करोड़ रुपए कर दिया गया था और अहमदाबाद में हुए इस जहाज हादसे के बाद टाटा ग्रुप को इस जहाज के हादसे में खत्म हो जाने के बदले तकरीबन 3 हजार करोड़ रुपए इंश्योरेंस कंपनी को भरने पड़ सकते हैं, जो कि अब तक का सबसे बड़ा इंश्योरेंस क्लेम होगा। कहा जा रहा है कि इस क्लेम से एविएशन इंश्योरेंस सेक्टर में भूचाल आ सकता है। लेकिन उनका क्या, जिनकी जान चली जाती है या जो किसी हादसे में अपाहिज हो जाते हैं या बुरी तरह चोटिल हो जाते हैं और अपने इलाज में लाखों रुपए खर्च करने को मजबूर होते हैं। अहमदाबाद के जहाज हादसे में भी मरने वालों के परिजनों को और उस हॉस्टल में मौजूद मरने वालों के परिजनों को कुछ खास नहीं मिलेगा। इसमें तो मिलेगा भी, लेकिन सड़क और रेल हादसों में मारे गए ज्यादातर लोगों के परिजनों और हमेशा के लिए हैंडिकैप होने या चोटिल होने पर हादसे के शिकार लोगों को कोई मुआवजा तक नहीं मिलता।

आज देश में हर साल तकरीबन पांच लाख से ज्यादा बड़े सड़क हादसे होते हैं, जिनमें तकरीबन दो लाख लोग मारे जाते हैं और तकरीबन तीन लाख से ज्यादा लोग गंभीर रूप से घायल होते हैं। इसी तरह ट्रेन हादसे में मारे गए बहुत से लोगों की गिनती इसलिए नहीं होती, क्योंकि वो जनरल या रिजर्वेशन कंफर्म न होने पर यात्रा करते हैं। रिपोर्ट बताती है कि सिर्फ केंद्र की मोदी सरकार में साल 2014 से साल 2024 तक देश भर में 641 ट्रेन हादसे हो चुके हैं, लेकिन कोई बड़ी जिम्मेदारी अभी तक मौजूदा सरकार के जिम्मेदार रेल मंत्री या प्रधानमंत्री ने अपने सिर पर लेते हुए इस्तीफा देने की बात तो दूर, माफी तक नहीं मांगी है। इसी तरह देश में कई विमान हादसे भी हो चुके हैं, लेकिन सिर्फ जांच का दिलासा मिल जाता है, जिम्मेदारी लेने वाला कोई नहीं।

SIMULATION SHOWS POSITION OF LANDING GEAR, FLAPS DIDN'T ALONE CAUSE CRASH

Focus on technical flaw in AI probe

MIHIR MISHRA
July 1

MORE THAN TWO weeks after the deadly crash of an Air India plane that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline reenacted the doomed aircraft's parameters in a flight simulator, including with the landing gear deployed and the wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the investigation.

The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on a technical failure as one possible cause, said the people, who asked not to be identified discussing non-public deliberations.

The simulated flight was conducted separately from the official probe being led by India's Aircraft Accident Investigation Bureau (AAIB) and was done to explore possible scenarios, one of the people said.

The Boeing 787 that crashed in Ahmedabad on June 12 was powered by two engines made by General Electric. Video footage of the aircraft showed the plane struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded.

Boeing declined to comment and deferred any questions to AAIB, while GE said it cannot comment on an active investigation. The AAIB and Air India did not respond to a request for comment.

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis. The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said.

Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

Adani Enterprises to sell 2-5 year debt

Gautam Adani's flagship firm plans to raise up to ₹1,000 crore through a retail bond issue opening for public subscription next week, two sources aware of the development told Reuters on Tuesday.

Adani Enterprises will sell two-year, three-year and five-year bonds through the issue, which will remain open for subscription from 9 July to 22 July, the sources added.

The company will pay an annual coupon of 8.95% on its two-year bonds, 9.15% on three-year bonds and 9.30% on five-year bonds, and will also have an option to defer interest payment to maturity, the sources said.

For investors opting for quarterly payouts, the coupon will be 8.85% on three-year and 9.00% on five-year notes, they added.

This marks Adani Enterprises' second retail bond sale within a year. In September 2024, it raised ₹800 via its debut public issue. REUTERS

Bangladesh resolves Adani's power purchase pact

Bangladesh resolves Adani's power purchase pact

PRESS TRUST OF INDIA
New Delhi

Bangladesh made its single largest payment of $437 million in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement, reaffirming the Indian conglomerate's asset as a reliable and cost-competitive power source for meeting the country's growing energy needs, sources said.

Bangladesh is now regular in payments. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources aware of the matter said.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units as per BPDB (Bangladesh Power Development Board) schedule, they added.

Sources said Bangladesh has resolved Adani Power's dues, including the carrying cost. Over the last 3-4 months, the country has been paying $ 90-100 million per month, and in June, it paid $ 437 million. The LCs are worth about two months of billing and sovereign guarantee for all dues, as additional security has put Adani in a very comfortable situation. Concerns raised related to investigations into the PPA by the Bangladesh authorities have been resolved, with no adverse aspects found.

With all these developments, lenders are confident of improving APL's credit rating to AA+ from the current AA.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant located in Godda district of Jharkhand, meeting 10 per cent of the country's power demand. The company supplies among the most competitively priced power to Bangladesh, as is evident from BPDB's merit order dispatch data, which is an essential requirement.

Bangladesh had in the past struggled to meet its payment obligations under the 2017 deal, as rising import costs — following the Russia-Ukraine conflict in 2022 and domestic political turmoil, which led to the ouster of the prime minister — strained the country's finances. As a result, Adani halved its supply last year, and full supplies were resumed in March 2025 after the country's monthly payments started covering some of the dues.

Sources said over the last three to four months, Bangladesh had started paying $90-100 million per month, and in June, the company received the single largest chunk of payment of $437 million, thereby clearing all dues. Adani Power's Godda unit was housed under a separate subsidiary, which has now been merged with the parent, providing greater operational and financial synergy. With all these developments, lenders are confident of improving Adani Power's credit rating to AA+ from the current AA, which will further bring down its cost of funds.

The current developments vindicate the contract established between the Bangladesh Government and Adani Power. The Godda asset is now well integrated into the Bangladesh Power system successfully.

Under the 2017 deal, Adani Power's Godda power plant in Jharkhand was to supply 100 per cent of the electricity generated from burning coal to Bangladesh for a period of 25 years. After payment defaults, Adani had cut supplies by half in November 2024. It restored full electricity supply, which is around 1,600 MW, in March after the country reduced its liabilities.

Bangladesh stepped up repayments from July last year, clearing monthly dues. The development comes after the country suffered from increased power shortages in rural areas.

It has been struggling to generate sufficient dollar revenues to cover the cost of essential imports like electricity, coal, and oil. Its foreign currency reserves declined amid months of student-led protests and political unrest, which culminated in the ousting of the Sheikh Hasina Government in August 2024.

The interim Government that succeeded her sought an additional $3 billion loan from the International Monetary Fund (IMF), on top of the existing $4.7 billion bailout package. Adani's power deal with Bangladesh was one of many under Sheikh Hasina, which the current interim Government has called opaque. Besides Adani Power, other Indian state-owned firms also sell power to Bangladesh, including NTPC Ltd and PTC India Ltd.

Report on AI crash soon

Nearly 20 days after the Air India crash in Ahmedabad killed 270 people including 241 on board, Aircraft Accident Investigation Bureau (AAIB) is likely to release a preliminary probe report by next week.

The document, which is likely to be four to five pages long, will be crucial because it will provide initial insights into the crash on June 12, including the possible causes, sources said here on Tuesday.

As per International Civil Aviation Organisation (ICAO) guidelines, India is required to file a preliminary report within 30 days of the crash. The complete probe report is expected in roughly two months from now, which would be three months from the day of the crash. Sources said the preliminary report will include details about the aircraft, which was a Boeing Dreamliner 787-8, the crew, conditions at the Ahmedabad airport, and the weather on June 12, when Air India flight 171 crashed, roughly 30 seconds after taking off.

Details about the wreckage will also be part of the report, as will the name of the investigator in charge. The document will chart the progress of the probe, outline the next steps that need to be taken and highlight areas that need further investigation.

Just days ago, the junior minister for civil aviation, Murlidhar Mohol had said all angles are being investigated in the crash, including sabotage.

"It (the plane crash) was an unfortunate incident. The AAIB has begun a full investigation into it. It is being probed from all angles, including any possible sabotage. The CCTV footage is being reviewed and all angles are being assessed. Several agencies are working on it," he had said.

"It has never happened that both engines have shut down together. Once the (full) probe report comes out, we will be able to ascertain if it was an engine problem or fuel supply issue or why both the engines had stopped functioning. There is a Cockpit Voice Recorder in the black box, which has stored the conversation between the two pilots. It is too early to say anything but whatever it is, it will come out," the minister added.

The Boeing 787-8 Dreamliner, which was operating as Air India flight AI-171 to London, had taken off from Ahmedabad and crashed into the complex of the BJ Medical College — an aerial distance of less than 2 km. The crash took place at 1.39 pm, just 32 seconds after the aircraft took off.

Of the 242 people, including 10 crew members and two pilots, on board the flight, only one — 40-year-old Vishwash Kumar Ramesh, a British-Indian who was returning to the UK after a visit - survived. At least 30 people on the ground, including trainee doctors, were also killed. The document will focus on establishing a timeline of the crash. It will also detail critical information such as cockpit conversations, pilot actions, system performance, weather data and air traffic control communications, the report added.

While the report is not expected to assign definitive blame, it will mark the first time that investigators publicly share insight into what happened inside the cockpit and on the ground in the final minutes of the flight.

Meanwhile, legal teams from the US and UK are preparing to sue Air India and Boeing over the devastating Air India crash. The legal action is being considered to seek enhanced compensation for the loss of lives in the tragic incident.

According to sources, the litigation is being spearheaded by UK-based Keystone Law partners James Healy-Pratt and Owen Hanna, alongside aviation law specialists from the US-based Wisner Law Firm.

हैरत:हवाई जहाजों से रनवे तक हर जगह खामियां सामने आईं

एक्सक्लूसिव

■ अरुण चट्ठा

नई दिल्ली। अहमदाबाद विमान हादसे के बाद नागर विमानन महानिदेशालय (डीजीसीए) की ओर से देशभर के हवाईअड्डों का ऑडिट किया जा रहा है। इस दौरान विमान से लेकर रनवे तक कई बड़ी खामियां सामने आई हैं।

अब तक के ऑडिट को देखा जाए तो मुख्य तौर पर पांच तरह की खामियां अधिकांश जगहों पर देखने को मिल रही हैं। ऐसे में डीजीसीए ने विमानन कंपनियों और ऑपरेटरों को नोटिस जारी कर तय समय सीमा के अंदर सुधार करने का निर्देश दिया है। सबसे अहम बात कुछ खामियां बार-बार रिकॉर्ड में दर्ज की गईं लेकिन उन्हें फिर भी ठीक नहीं किया गया।

सात दिन की समय अवधि : डीजीसीए द्वारा दिए जा रहे नोटिस में सात दिन की समय अवधि तय की गई है। अगर तय समय के अंदर कमियों को ठीक नहीं किया जाता है तो विमानन कंपनियों और ऑपरेटर पर जुर्माने से लेकर लाइसेंस रद्द करने तक की कार्रवाई की जाएगी। पहले चरण की जांच के बाद दिए गए नोटिस के आधार पर कंपनियों एवं ऑपरेटर ने सुधार किए हैं, जिनका अलग से सत्यापन कराया जा रहा है।

प्रमुख गड़बड़ियां

1. कई हवाईअड्डों पर रनवे मार्किंग स्पष्ट नहीं, जिससे विमान की लैंडिंग में परेशानी आ सकती है।
2. कई विमानों में एक ही खराबी बार-बार रिपोर्ट की गई, लेकिन उसे पूरी तरह से ठीक नहीं किया जा सका।
3. विमान की मरम्मत के दौरान वर्क ऑर्डर एवं नियमों का पालन नहीं किया गया। पूरी चेकलिस्ट के आधार पर जांच नहीं।
4. हवाईअड्डों पर बैगेज ट्रॉली और ग्राउंड पर इस्तेमाल किए जाने वाले सामान उपयोग में नहीं लाए जा रहे हैं।
5. हवाईअड्डों पर चलने वाले वाहनों में गति नियंत्रक नहीं थे या फिर उन्हें प्रतिबंधित क्षेत्र में चलता हुआ पाया गया।

सत्यापन के लिए टीम गठित : नोटिस के बाद किए जा रहे सुधार से जुड़े सत्यापन के लिए अलग से टीमें बनाई गई हैं, जो एक से दो सप्ताह में रिपोर्ट देंगी। पहले चरण में दिल्ली, मुंबई समेत देश के कुछ प्रमुख हवाईअड्डों का निरीक्षण किया गया था लेकिन उसके बाद से देश के बाकी शहरों में स्थित छोटे हवाईअड्डों का भी निरीक्षण किया गया, जिसमें कई तकनीकी खामियां पाई गईं।

Simulation of AI flight puts focus on double-engine failure

Twenty days after the crash of an Air India plane in Ahmedabad that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline re-enacted the aircraft's parameters in a flight simulator, including with the landing gear deployed and wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the probe.

The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on a technical failure as one possible cause.

The simulated flight was conducted separately from the official probe being led by India's Aircraft Accident Investigation Bureau.

The plane was powered by two engines made by General Electric Co. Video footage of the aircraft showed it struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded.

Boeing declined to comment and deferred any questions to AAIB, while GE said it cannot comment on an active investigation. AAIB and AI did not respond to a request for comment. bloomberg

'NOT WORRIED ABOUT MY STYLE BEING DISSECTED'

Shooting with HT City Showstoppers, actor Radhikka Madan talks about being authentic in her approach to fashion

Actor Radhikka Madan brings an It girl vibe in a strapless denim dress. Stud detailing edges up the outfit's clean lines, complementing her loose waves and bold lip

"It took time to figure out what fashion meant to me. In the early days of my career, it was about how people wanted to perceive me. I was too young and raw. My approach was more like, 'How does the team want to see me?' Now I think, 'What do I feel like wearing? How do I want to see myself?' It's not related to trends.

I honestly feel no pressure of my fashion being dissected or dressing up because fans would want to copy my style. If there's something I want people to see, it's the authenticity. My goal is to inspire people to be themselves, I wouldn't want them to copy me or my style."

▶ 'Gap of 15 seconds', P 20

Did electrical failure of 'more-electric' B787 cause both engines of AI 171 to fail?

THE TIMES OF INDIA | JUNE 16, 2025

Gap of only 15 seconds between distress call & AI flight impact

▶ Continued from Page 1

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis. The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said. Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

At the same time, the landing-gear doors had not opened, which pilots say might mean that the aircraft experienced a loss of power or a hydraulic failure — again pointing to possible issues with the engines that provide the aircraft's electricity. The engines of modern aircraft are computer controlled using a system called Full Authority Digital Engine Control (FADEC) which helps pilots control an aircraft's power and makes sure the engines are used efficiently and not outside their operating limits. An emergency turbine called the RAT, which deploys from the back of the aircraft in the case of electrical failure, was activated before the plane crashed, as per previous findings. That fan helps provide the aircraft with vital power, though it's far too small to generate any lift.

Analysis of the crash wreckage suggests that the wing flaps and slats, which help an aircraft increase lift during takeoff, were extended correctly.

The pilots, who died in the crash, sent out a Mayday signal shortly after takeoff. There were only about 15 seconds between the distress call and impact, two people familiar with the probe said. Teams from Boeing and the US National Transportation Safety Board are supporting the investigation on the ground. It's unknown when authorities will give an update from readout of the flight recorders, which typically provide a comprehensive analysis of an aircraft's settings and performance metrics as well as conversations in the cockpit.

Adani Foundation and ACC Wadi Provide Year-Round Irrigation to Halkatta Farmers through Check Dam

ACC and Adani Foundation have constructed a 500-meter-long check dam in Halkatta village of Kalaburagi district, solving the long-standing water scarcity issue

The check dam now irrigates 30.8 hectares of agricultural land, enabling farmers to grow multiple crops throughout the year

Farmers like Eranna have seen their income triple and are also venturing into allied activities such as goat farming

BR Team | Karnataka

ACC, the cement and building materials company from the diversified Adani portfolio, continues to uplift rural livelihoods through sustainable water infrastructure. Near ACC Wadi, in Halkatta village of Kalaburagi district, the company has collaborated with the Adani Foundation to construct a 500-meter-long check dam. This initiative has transformed lives by addressing the chronic water shortage and opening up year-round farming opportunities for the local community.

With the capacity to irrigate 30.8 hectares of land, the check dam has empowered farmers to cultivate multiple crops across all seasons, reducing their dependency on unpredictable monsoons. For Eranna, a small farmer with four acres of land, this change has been life-altering. Previously limited to a single seasonal crop, he now grows black gram, wheat, cotton, and vegetables-tripling his annual income to Rs. 30,000 and significantly improving his family's quality of life.

This initiative has had a widespread impact across the village. With assured irrigation, farmers are diversifying into allied activities like goat farming, which is boosting financial resilience and enhancing nutrition and food security. Through such transformative efforts, ACC and Adani Foundation reaffirm their commitment to inclusive rural progress and sustainable agricultural development in India's heartland.

Bangladesh clears Adani Power dues

PRESS TRUST OF INDIA
New Delhi, July 1

BANGLADESH MADE ITS single-largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, sources said.

Additionally, a letter of credit (LC) worth about two months of billing and sovereign guarantee for all dues as additional security have been established, the sources stated.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power as per the schedule of Bangladesh Power Development Board (BPDB), they added. Over the previous 3-4 months, the country had been paying $90-100 million per month, and in June, it paid $437 million.

Concerns raised related to investigations into the power purchase agreement (PPA) by the Bangladesh authorities have also been resolved, with no adverse aspects found, they said.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant in Godda district of Jharkhand, meeting 10% of the country's power demand. Adani Power had curtailed supply to Bangladesh over payment delays following the ouster of Sheikh Hasina as the Prime Minister in August 2024. The company resumed full supplies in March 2025.

हैरत: हवाई जहाजों से रनवे तक हर जगह खामियां सामने आईं

एक्सक्लूसिव

■ अरुण चट्ठा

नई दिल्ली। अहमदाबाद विमान हादसे के बाद नागर विमानन महानिदेशालय (डीजीसीए) की ओर से देशभर के हवाईअड्डों का ऑडिट किया जा रहा है। इस दौरान विमान से लेकर रनवे तक कई बड़ी खामियां सामने आई हैं।

अब तक के ऑडिट को देखा जाए तो मुख्य तौर पर पांच तरह की खामियां अधिकांश जगहों पर देखने को मिल रही हैं। ऐसे में डीजीसीए ने विमानन कंपनियों और ऑपरेटरों को नोटिस जारी कर तय समय सीमा के अंदर सुधार करने का निर्देश दिया है। सबसे अहम बात कुछ खामियां बार-बार रिकॉर्ड में दर्ज की गईं लेकिन उन्हें फिर भी ठीक नहीं किया गया।

सात दिन की समय अवधि : डीजीसीए द्वारा दिए जा रहे नोटिस में सात दिन की समय अवधि तय की गई है। अगर तय समय के अंदर कमियों को ठीक नहीं किया जाता है तो विमानन कंपनियों और ऑपरेटर पर जुर्माने से लेकर लाइसेंस रद्द करने तक की कार्रवाई की जाएगी। पहले चरण की जांच के बाद दिए गए नोटिस के आधार पर कंपनियों एवं ऑपरेटर ने सुधार किए हैं, जिनका अलग से सत्यापन कराया जा रहा है।

प्रमुख गड़बड़ियां

1. कई हवाईअड्डों पर रनवे मार्किंग स्पष्ट नहीं, जिससे विमान की लैंडिंग में परेशानी आ सकती है।
2. कई विमानों में एक ही खराबी बार-बार रिपोर्ट की गई, लेकिन उसे पूरी तरह से ठीक नहीं किया जा सका।
3. विमान की मरम्मत के दौरान वर्क ऑर्डर एवं नियमों का पालन नहीं किया गया। पूरी चेकलिस्ट के आधार पर जांच नहीं।
4. हवाईअड्डों पर बैगेज ट्रॉली और ग्राउंड पर इस्तेमाल किए जाने वाले सामान उपयोग में नहीं लाए जा रहे हैं।
5. हवाईअड्डों पर चलने वाले वाहनों में गति नियंत्रक नहीं थे या फिर उन्हें प्रतिबंधित क्षेत्र में चलता हुआ पाया गया।

सत्यापन के लिए टीम गठित : नोटिस के बाद किए जा रहे सुधार से जुड़े सत्यापन के लिए अलग से टीमें बनाई गई हैं, जो एक से दो सप्ताह में रिपोर्ट देंगी। पहले चरण में दिल्ली, मुंबई समेत देश के कुछ प्रमुख हवाईअड्डों का निरीक्षण किया गया था लेकिन उसके बाद से देश के बाकी शहरों में स्थित छोटे हवाईअड्डों का भी निरीक्षण किया गया, जिसमें कई तकनीकी खामियां पाई गईं।

SIMULATION SHOWS POSITION OF LANDING GEAR, FLAPS DIDN'T ALONE CAUSE CRASH

Focus on technical flaw in AI probe

MIHIR MISHRA
July 1

MORE THAN TWO weeks after the deadly crash of an Air India plane that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline reenacted the doomed aircraft's parameters in a flight simulator, including with the landing gear deployed and the wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the investigation.

The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on a technical failure as one possible cause, said the people, who asked not to be identified discussing non-public deliberations.

The simulated flight was conducted separately from the official probe being led by India's Aircraft Accident Investigation Bureau (AAIB) and was done to explore possible scenarios, one of the people said.

The Boeing 787 that crashed in Ahmedabad on June 12 was powered by two engines made by General Electric. Video footage of the aircraft showed the plane struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded.

Boeing declined to comment and deferred any questions to AAIB, while GE said it cannot comment on an active investigation. The AAIB and Air India did not respond to a request for comment.

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis. The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said.

Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

2 घंटे का नोटम लागू, एयर इंडिया की फ्लाइट फंसी, 3 घंटे बाद रवाना

पुणे फ्लाइट रही रद्द, तो दुबई फ्लाइट लेट रवाना

एविएशन रिपोर्टर | जयपुर

जयपुर एयरपोर्ट पर मंगलवार से रनवे पर लिए जाने वाले नोटम का समय बदल गया है। अब नोटम सिर्फ 2 घंटे का होगा। दरअसल, अभी तक नोटम दोपहर 1 से शाम 5 बजे तक रहता था। इस अवधि में फ्लाइट संचालन पूरी तरह बंद रहता था। इसी वजह से सुबह 9:30 से शाम 6 बजे तक सिर्फ 2 फ्लाइट ही संचालित हो रहीं थीं, लेकिन अब दोपहर 2:30 से शाम 4:30 बजे तक नोटम रहेगा। इस अवधि में 16 फ्लाइट्स संचालित होगी। इसके बाद करीब 3 महीने बाद जयपुर से दिन में भी फ्लाइट संचालित होगी। हालांकि मंगलवार को पहले ही दिन नोटम में एयर इंडिया की फ्लाइट अटक गई।

जानकारी के अनुसार मामला एयर इंडिया की फ्लाइट एआई-612 का है। दरअसल, फ्लाइट जयपुर से दोपहर 1:35 बजे मुंबई जाती है, लेकिन मंगलवार को मुंबई से आने वाली फ्लाइट लेट रही। क्योंकि दोपहर 2:30 बजे एयरपोर्ट पर रनवे नोटम लागू हो गया। ऐसे में फ्लाइट साढ़े 4 बजे नोटम खत्म

होने के बार रवाना हो सकी। वहीं, स्पाइसजेट की जयपुर-पुणे फ्लाइट के रद्द होने से यात्रियों को परेशानी का सामना करना पड़ा। दरअसल, फ्लाइट एसजी-1077 जयपुर से अल सुबह 5:05 बजे पुणे जाती है। ऐसे में यात्री पौने 4 बजे एयरपोर्ट पहुंच गए, लेकिन एयरलाइंस ने संचालन कारणों का हवाला देते हुए फ्लाइट को रद्द कर दिया। हालांकि एयरलाइंस का कहना है कि उन्होंने देर रात यात्रियों को मैसेज के जरिए इसकी जानकारी दे दी। वहीं, यात्रियों का कहना था कि उन्हें एयरलाइंस की ओर से कोई मैसेज नहीं मिला। पुणे जा रहे साहिल भारद्वाज ने कहा कि एयरलाइंस झूठ बोल रही है, अगर हमें मैसेज मिलता, तो हम इतनी सुबह एयरपोर्ट क्यों पहुंचते। इसी प्रकार स्पाइसजेट की जयपुर से दुबई की फ्लाइट एसजी-57 सुबह 9:30 की बजाय 10:15 बजे रवाना हो सकी।

दिल्ली से वियना जा रहा था विमान, अहमदाबाद प्लेन क्रैश के 2 दिन बाद की घटना

नई दिल्ली। अहमदाबाद प्लेन क्रैश के 2 दिन बाद 14 जून को एअर इंडिया की एक और फ्लाइट हवा में 900 मीटर नीचे आ गई थी। यह घटना दिल्ली-वियना फ्लाइट के दौरान हुई थी। रिपोर्ट्स के मुताबिक, विमान ने दिल्ली एयरपोर्ट से टेकऑफ किया और उसके बाद वह नीचे आने लगी। हालांकि, 9 घंटे 8 मिनट की उड़ान के बाद यह फ्लाइट वियना में सुरक्षित लैंड हुई थी। एअर इंडिया ने कहा कि घटना की जांच शुरू कर दी गई है। रिपोर्ट सामने आने तक दोनों पायलट्स को ड्यूटी से हटा दिया गया है। एयरलाइन ने इस बात की जानकारी डायरेक्टोरेट जनरल ऑफ सिविल एविएशन को भी दे दी है। एअर इंडिया ने बताया कि रिकॉर्डर से डेटा कलेक्ट कर लिया गया है और आगे की जांच जारी है। 12 जून को अहमदाबाद से लंदन जा रही एअर इंडिया की फ्लाइट इक्र171 टेकऑफ के कुछ ही देर बाद एक मेडिकल हॉस्टल की इमारत से टकरा गई थी। इसमें 275 लोगों की मौत हो गई थी, जिनमें 241 यात्री और क्रू मेंबर शामिल थे। सिर्फ एक यात्री इस हादसे में जिंदा बचा था। टोक्यो के हनेडा एयरपोर्ट से दिल्ली आ रही एअर इंडिया की फ्लाइट इक्र357 कोलकाता डायवर्ट की गई थी। फ्लाइट के केबिन का तापमान लगातार गर्म बना हुआ था, इसके कारण फ्लाइट का रास्ता बदला गया। पुणे से हैदराबाद जाने वाली फ्लाइट को तकनीकी खामी के बाद विजयवाड़ा डायवर्ट किया गया था। फ्लाइट जब नेल्लोर के पास हवा में थी तब खराबी का पता चला था, इसके तुरंत बाद ही फ्लाइट को डायवर्ट किया गया। विमान में 159 यात्रियों और 6 क्रू मेंबर्स थे। एअर इंडिया की मुंबई से चेन्नई जा रही फ्लाइट उड़ान भरने के बाद वापस मुंबई लौटाई गई थी। फ्लाइट में केबिन के भीतर से जलने की बदबू आ रही थी। एयरलाइन के मुताबिक फ्लाइट सुरक्षित मुंबई एयरपोर्ट पहुंची थी। इसके बाद एयरक्राफ्ट को बदला गया था। यात्रियों को ग्राउंड स्टाफ ने सभी जरूरी चीजें मुहैया कराईं।

GST net collection up 44% in June: Cheema

TRIBUNE NEWS SERVICE

CHANDIGARH, JULY 1

Punjab has recorded an unprecedented 44.44 per cent growth in net GST collection for June 2025 and a substantial 27.01 per cent growth for the first quarter of fiscal year (FY) 2025-26. This marks the highest-ever GST revenue growth in a quarter and for June month in the state's history.

This was stated by Finance, Planning, Excise and Taxation Minister Advocate Harpal Cheema here on Tuesday, after he facilitated top five taxpayers of the state. Ashu Agnihotri from Ambuja Cement, Sanjay Malhotra from HPCL-Mittal Energy Limited (HMEL), Chaman Lal Sharma from Samsung India Private Limited, Ankush Sharma from Tata Steel and Nitin Dada from Dada Motors were felicitated by him.

Cheema claimed that the state had outpaced the national average in GST growth, firmly positioning itself among the top-performing states in tax mobilisation, despite facing national and geopolitical challenges, including border-related tensions.

₹2,379 CR COLLECTED DURING MONTH

- ₹2,379 crore net GST collection during June 2025
- ₹1,647 crore collected in June 2024
- 15.35% was the monthly net growth in April and 24.59% in May

The net GST collection for June 2025 stood at Rs 2,379.90 crore, reflecting a revenue growth of Rs 732.21 crore over the Rs 1,647.69 crore collected in June 2024. This follows monthly net growth trend of 15.35 per cent in April and 24.59 per cent in May. The net GST collection during the first quarter of FY 2025-26 reached Rs 6,830.40 crore, compared to Rs 5,377.75 crore in the first quarter of 2024-25.

Cheema also launched a scathing attack on the previous SAD-BJP and Congress-led governments, citing their failure to check tax evasion and improve the state's fiscal health. "During our three years of rule, we have made total GST collection of Rs 62,733 crore. During the previous Congress regime, the state collected merely Rs 55,146 crore," he added.

On the state's mounting debt, he said they had to pay Rs 25,000 crore as interest and Rs 18,200 crore in principal on the legacy debt left by the previous SAD-BJP and Congress governments.

बांग्लादेश ने अदाणी को चुकाए 44 करोड़ डॉलर

■ **दिल्ली,** नवभारत न्यूज नेटवर्क. बांग्लादेश ने भारत की बिजली कंपनी अदाणी पावर को जून में 43.7 करोड़ डॉलर का अपना सबसे बड़ा भुगतान किया है. इसके साथ ही पड़ोसी देश ने लंबित बकाया और बिजली खरीद समझौते से संबंधित मुद्दों का निपटान कर दिया है. सूत्रों ने यह जानकारी दी. मामले से जुड़े सूत्रों ने कहा कि बांग्लादेश अब नियमित रूप से भुगतान कर रहा है. इसके अलावा सभी बकाया के लिए लगभग दो महीने के बिल और सरकारी गारंटी के बराबर एक साख पत्र (एलसी) की भी व्यवस्था की गयी है. उन्होंने कहा कि चूंकि भुगतान संबंधी मामले सुलझ गए हैं, इसलिए बांग्लादेश ने अदाणी पावर को बीपीडीबी (बांग्लादेश पावर डेवलपमेंट बोर्ड) के कार्यक्रम के अनुसार दोनों इकाइयों से बिजली की आपूर्ति करने को कहा है. बांग्लादेश पिछले 3-4 महीनों में प्रति माह 9-10 करोड़ डॉलर का भुगतान कर रहा है, और जून में उसने 43.7 करोड़ डॉलर का भुगतान किया. साख पत्र लगभग दो महीने के बिल के बराबर है.

Bangladesh Clears Adani Power's Dues

Settlement brings cross-border pact back on track; Dhaka gives sovereign guarantee to firm

Our Bureau

Mumbai: Adani Power has received a payment of $437 million from the Bangladesh government in June—the largest single-month disbursement to date—clearing all outstanding dues for power supplied from its 1,600 MW Godda plant in Jharkhand as of March 31, 2025, sources said. This payment caps off a series of $90–100 million monthly tranches received over the last few months to pay off the dues. With all pending payments—including carrying costs and late fees—settled, Adani Power's cross-border power agreement with Bangladesh is now financially and contractually back on track. The Power Purchase Agreement (PPA), which had come under scrutiny from Bangladesh authorities, has been given a clean chit sources said.

The Godda plant supplies around 10% of Bangladesh's electricity needs. As payment-related issues are now resolved, Bangladesh has asked Adani to operate both 800 MW units in line with the BPDB's power scheduling requirements.

This payment caps off a series of $90–100 million monthly tranches received over the last few months to pay off the dues

The company had reached an agreement with Bangladesh that if they paid off the previous fiscal dues by June 30, the late payment surcharge will be waived off.

Bangladesh is now making payments on time. To ensure this continues, it has put in place a Letter of Credit (LoC) equal to two months of bills of around $180 million and a sovereign guarantee for all dues.

In May, **ET** had reported that Bangladesh's dues to Adani stood at around $900 million. Adani Power CFO Dilip Jha had told analysts that the total billing to Bangladesh stood at $2 billion, of which $1.2 billion had been received by the end of FY25, with an additional $136 million billed as late payment surcharge.

Adani Power CEO S B Khyalia had then said the company has continued uninterrupted supply to Bangladesh and that current payments exceed monthly billing.

"It took time to figure out what fashion meant to me. In the early days of my career, it was about how people wanted to perceive me. I was too young and raw. My approach was more like, 'How does the team want to see me?' Now I think, 'What do I feel like wearing? How do I want to see myself?' It's not related to trends.

I honestly feel no pressure of my fashion being dissected or dressing up because fans would want to copy my style. If there's something I want people to see, it's the authenticity. My goal is to inspire people to be themselves, I wouldn't want them to copy me or my style."

दाम गिरे, अब सामान्य फेयर, रेंज में उपलब्ध हो रहे टिकट

राहत : सस्ते हवाई सफर का मौसम

पत्रिका न्यूज नेटवर्क
patrika.com

जयपुर. मानसून की दस्तक और स्कूल, कॉलेजों की छुट्टियों के खत्म होते ही एयर ट्रैफिक में गिरावट आई है। इसका सीधा असर हवाई किराए पर पड़ा है। स्थिति यह है कि एयरलाइंस कंपनियों ने जयपुर से दिल्ली, मुंबई, पुणे, कोलकाता समेत कई रूट्स का किराया घटा दिया है। ऐसे में जो टिकट गत सप्ताह तक डेढ़ से दो गुना दामों पर बिक रहे थे, वे अब सामान्य फेयर रेंज में उपलब्ध हो रहे हैं। सीजन में प्रमुख रूटों का हवाई किराया अमूमन 10 हजार पार रहता है।

दरअसल, गत महीनों में जयपुर इंटरनेशनल एयरपोर्ट पर यात्रीभार 15 हजार तक चल रहा था, जो वर्तमान में 12 हजार तक ही है। इसके साथ ही हवाई किराए की तुलना करें तो अप्रेल-मई माह में जयपुर से श्रीनगर का सामान्य 12 हजार से 37 हजार रुपए तक पहुंच गया था, जो इस महीने बुकिंग करने पर 5512 रुपए से 11 हजार 670 रुपए तक लग रहा है।

बारिश में लोग कम दिखा रहे रुचि

इस संबंध में एयर ट्रैवल इंडस्ट्री से जुड़े लोगों का कहना है कि मानसून के समय हिल स्टेशन और टूरिस्ट डेस्टिनेशन की बुकिंग घट जाती हैं। कारण है कि लोग बारिश में ऐसी जगह जाने से बचते हैं। इसके चलते एयरलाइंस कंपनियां ऑफ-सीजन सेल या फ्लैश डिस्काउंट्स निकालती हैं और किराया घटा देती हैं। इस बार यह रेट 15 अगस्त तक स्थिर रहने की संभावना है।

मानसून में हिल स्टेशन व टूरिस्ट डेस्टिनेशन की घट जाती बुकिंग

2 जुलाई से 15 अगस्त के बीच जयपुर से इन शहरों तक यह हवाई किराया

इन स्थान तक	किराया (सामान्य अधिकतम)		
मुंबई	4994-5557 रुपए	दिल्ली	2175-2595 रुपए
चंडीगढ़	3579-6090 रुपए	इंदौर	4198-6631 रुपए
		कोलकाता	5954-7475 रुपए
		पुणे	5946-6514 रुपए

नोटम हटा, फ्लाइट और उम्मीद दोनों बढ़ी

- इधर, जयपुर इंटरनेशनल एयरपोर्ट पर मार्च महीने से सुबह 10 से शाम छह बजे तक लग रहा नोटम मंगलवार से हट गया है। बंद हुई सात फ्लाइट का संचालन फिर से शुरू हो गया है।
- उम्मीद है कि यात्रीभार में भी वृद्धि होगी। दोपहर में फ्लाइट के पुन संचालित होने से यात्रियों को भी लाभ मिलेगा। बताया जा रहा है कि अब फ्लाइट की संख्या 53 से बढ़कर 60 तक पहुंच गई है।

ऐसे ही जयपुर से देहरादून का किराया 11 हजार रुपए तक पहुंच गया था, जो अब 3945 रुपए से 6061 रुपए तक तो चंडीगढ़ का हवाई किराया 7500 रुपए से घटकर 3579 से 6 हजार रुपए तक लग रहा है। ऐसे ही स्थिति जयपुर से पुणे, मुंबई, कोलकाता, बेंगलूरु रूट पर देखी जा रही है।

Simulation of AI flight that crashed puts focus on double-engine failure

Twenty days after the crash of an Air India plane in Ahmedabad that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline re-enacted the aircraft's parameters in a flight simulator, including with the landing gear deployed and the wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the probe.

The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on technical failure as one possible cause.

Did electrical failure of 'more-electric' B787 cause both engines of AI 171 to fail?

The simulated flight was conducted separately from an official probe being led by India's Aircraft Accident Investigation Bureau (AAIB).

The plane was powered by two engines made by General Electric Co. Video footage of the aircraft showed it struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded.

Boeing declined to comment and deferred any questions to AAIB, while GE said that it cannot comment on an active investigation. AAIB and Air India did not respond to a request for comment. BLOOMBERG

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis. The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said.

Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

At the same time, the landing-gear doors had not opened, which pilots say might mean that the aircraft experienced a loss of power or a hydraulic failure — again pointing to possible issues with the engines that provide the aircraft's electricity.

The engines of modern aircraft are computer controlled using a system called Full Authority Digital Engine Control (FADEC) which helps pilots control an aircraft's power and makes sure the engines are used efficiently and not outside their operating limits. An emergency turbine called the RAT, which deploys from the back of the aircraft in the case of electrical failure, was activated before the plane crashed, as per previous findings. That fan helps provide the aircraft with vital power, though it's far too small to generate any lift.

Landing-gear doors did not open, which, pilots say, might mean the aircraft experienced a loss of power or a hydraulic failure — again pointing to possible issues with engines that provide the aircraft's electricity

Analysis of the wreckage suggests the wing flaps and slats, which help an aircraft increase lift during takeoff, were extended correctly.

The pilots, who died in the crash, sent out a Mayday signal shortly after takeoff. There were only about 15 seconds between the distress call and impact, two people familiar with the probe said.

Ranbir Kapoor and Alia Bhatt, who have been fiercely protective of their daughter Raha Kapoor's privacy, were spotted at the Mumbai airport on Monday night along with veteran actor Neetu Kapoor. The trio, dressed in stylish yet comfortable airport looks, posed graciously for photographs, but drew a firm line when it came to their little one.

As the family headed to their car to pick up Raha, Ranbir was seen politely requesting the paparazzi to turn off their cameras. While no official destination was revealed, it appeared the Kapoor-Bhatt family was headed for a vacation together.

The star couple was dressed in effortlessly chic travel attire. Ranbir looked sharp in a blue tracksuit, while Alia kept it cool in a white Tshirt, black palazzos, and a baseball cap. Neetu Kapoor also looked radiant in a blue shirt and matching trousers. After posing with Alia, Ranbir made sure to pose with his mother as well, showing their usual warmth and camaraderie.

While the public got a glimpse of baby Raha last Christmas, Ranbir and Alia have since maintained a guarded stance when it comes to her media exposure.

Bangladesh clears Adani Power dues

PRESS TRUST OF INDIA
New Delhi, July 1

BANGLADESH MADE ITS single-largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, sources said.

Additionally, a letter of credit (LC) worth about two months of billing and sovereign guarantee for all dues as additional security have been established, the sources stated.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power as per the schedule of Bangladesh Power Development Board (BPDB), they added. Over the previous 3-4 months, the country had been paying $90-100 million per month, and in June, it paid $437 million.

Concerns raised related to investigations into the power purchase agreement (PPA) by the Bangladesh authorities have also been resolved, with no adverse aspects found, they said.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant in Godda district of Jharkhand, meeting 10% of the country's power demand. Adani Power had curtailed supply to Bangladesh over payment delays following the ouster of Sheikh Hasina as the Prime Minister in August 2024. The company resumed full supplies in March 2025.

અદાણી લૉજિસ્ટિક્સ દ્વારા આઇસીડી તુંબ અને પાટલી વચ્ચે પ્રથમ ડબલ સ્ટેક રેકનો પ્રારંભ

અમારા પ્રતિનિધિ તરફથી

સુરત, તા. ૧ : નૂર ગતિશીલતાને પુનઃ વ્યાખ્યાયિત કરવા અદાણી લૉજિસ્ટિક્સ લિમિટેડે છલાંગ ભરી છે. એએલએલ દ્વારા પ્રથમ ડબલ સ્ટેક રેક સેવા શરૂ કરવામાં આવી છે. જે વાપી (ગુજરાત) નજીકના ઇનલેન્ડ કન્ટેનર ડેપો (આઇસીડી) તુંબને હરિયાણાના આઇસીડી પાટલી સાથે જોડે છે. ઉચ્ચ-કાર્યક્ષમતા, ટકાઉ લૉજિસ્ટિક્સ તરફની ભારતની સફરમાં આ એક સીમાચિહ્નરૂપ ઘટના છે.

ડબલ સ્ટેક રેક કન્ટેનરના બે-સ્તરો એક બીજા ઉપર સ્ટેક કરેલા પ્રતિ ટ્રિપ પરિવહન કાર્ગોના જથ્થામાં વધારો કરે છે. તેનાથી માત્ર કાર્યક્ષમતામાં જ નહીં, પરંતુ વાપી, સિલવાસા અને દમણનાં ઉત્પાદન કેન્દ્રો અને દિલ્હી-નેશનલ કેપિટલ રિજન (એનસીઆર), હરિયાણા અને પંજાબનાં વપરાશ કેન્દ્રો વચ્ચે ગ્રાહકોનો પરિવહન સમય, કાર્બન ફૂટપ્રિન્ટ અને લૉજિસ્ટિક્સ ખર્ચમાં પણ ઘટાડો થાય છે.

એએલએલના એક વરિષ્ઠ અધિકારીએ જણાવ્યું હતું કે, ફક્ત કન્ટેનર ખસેડવા માટે જ નથી, પરંતુ તે ભારતની સપ્લાય ચેઇનના લાભને પૂરક વેગ આપવા મહત્ત્વપૂર્ણ છે, ડબલ-સ્ટેક રેલ સાથે અમે ગ્રાહકોને ઝડપી, હરિયાળી અને વધુ ખર્ચ-અસરકારક સેવા આપી શકીએ છીએ. આ પહેલ લૉજિસ્ટિક્સમાં આત્મનિર્ભર ભારતના સ્વપ્નને સાકાર કરવા માટે એક પ્રેરણાદાયી ઉદાહરણ સ્થાપિત કરશે.

તુંબ અને પાટલી વચ્ચેની વ્યૂહાત્મક કડીથી રોડ ફ્રેઇટમાં ભીડ ઓછી થવાની, પ્રતિ કન્ટેનર ૩૦ ટકા સુધી ઉત્સર્જનમાં ઘટાડો થવાની અને ગુજરાતમાં મુન્દ્રા અને હજીરા જેવાં પશ્ચિમી બંદરો દ્વારા નિકાસ-આયાત ટ્રાફિકને સુવ્યવસ્થિત થવાની અપેક્ષા છે. દક્ષિણ ગુજરાત અને ઉત્તર ભારતના ઉદ્યોગો ખાસ કરીને કાપડ, ફાર્માસ્યુટિકલ્સ, ઇલેક્ટ્રોનિક્સ અને રસાયણો માટે આ કૉરિડોર બેજોડ ગતિ, વિશ્વસનીયતા પ્રદાન કરે છે.

દેશના લૉજિસ્ટિક્સ ખર્ચને તેના કુલ સ્થાનિક ઉત્પાદનના ૧૪ ટકાથી ઘટાડીને ૧૦ ટકા સુધી લાવવાનું લક્ષ્ય ધરાવે છે, ત્યારે ડબલ સ્ટેક રેલ જેવી નવીનતાઓ મહત્ત્વપૂર્ણ છે. અદાણી લૉજિસ્ટિક્સ પહેલાંથી જ મલ્ટિ-મોડલ લૉજિસ્ટિક્સ પાર્ક, આઇસીડી અને વેરહાઉસનું નેટવર્ક ચલાવે છે, તેના માટે આ લૉન્ચ એક સીમાચિહ્નરૂપ કરતાં વધુ છે. તુંબ-પાટલી ડબલ સ્ટેક કનેક્શન ગેમચેન્જર બનવા તૈયાર છે. તે ભારતના ઉત્પાદન કરોડરજ્જુને વપરાશના કેન્દ્ર સાથે જોડે છે.

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

Bangladesh Clears all Pending Dues to Adani Power, Pays $437 million

Our Bureau

Mumbai: Adani Power has received a payment of $437 million from the Bangladesh government in June—the largest single-month disbursement to date—clearing all outstanding dues for power supplied from its 1,600 MW Godda plant in Jharkhand as of March 31, 2025, sources said. This payment caps off a series of $90-100 million monthly tranches received over the last few months to pay off the dues.

With all pending payments—including carrying costs and late fees—settled, Adani Power's cross-border power agreement with Bangladesh is now financially and contractually back on track. The Power Purchase Agreement (PPA), which had come under scrutiny from Bangladesh authorities, has been given a clean chit sources said. The Godda plant supplies around 10% of Bangladesh's electricity needs.

As payment-related issues are now resolved, Bangladesh has asked Adani to operate both 800 MW units in line with the BPDB's power scheduling requirements. The company had reached an agreement with Bangladesh that if they paid off the previous fiscal dues by June 30, the late payment surcharge will be waived.

Payment caps off a series of $90-100 m monthly tranches received over the last few months to pay off dues

Bangladesh is now making payments on time. To ensure this continues, it has put in place a Letter of Credit equal to two months of bills of around $180 million and a sovereign guarantee for all dues.

In May, ET had reported that Bangladesh's dues to Adani stood at around $900 million. Adani Power CFO Dilip Jha had told analysts that the total billing to Bangladesh stood at $2 billion.

Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources said. Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units according to the Bangladesh Power Development Board (BPDB) schedule, they added. Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million. PTI

Gautam Adani's flagship firm plans to raise up to ₹1,000 crore through a retail bond issue opening for public subscription next week, two sources aware of the development told Reuters on Tuesday.

Adani Enterprises will sell two-year, three-year and five-year bonds through the issue, which will remain open for subscription from 9 July to 22 July, the sources added.

The company will pay an annual coupon of 8.95% on its two-year bonds, 9.15% on three-year bonds and 9.30% on five-year bonds, and will also have an option to defer interest payment to maturity, the sources said.

Fake AI Content on Air India Crash Poses Headwind for Regulators

A wave of misinformation, created by generative AI, has swarmed the internet

New Delhi | Mumbai: Days after the crash of an Air India Boeing 787 plane in Ahmedabad, killing 275 people, a preliminary investigation report was found circulating in aviation circles. The report, except for an emoji, appeared genuine with various aviation terminologies, giving it a professional look.

However, a closer scrutiny by trained eyes would eventually reveal that it was created by an AI platform using details from a 2024 incident involving South American airline LATAM, giving it a convincing look. By the time, the Indian government refuted the report as fake, news websites had already run headlines, clouding the minds of the public, and even that of several pilots.

With the June 12 Air India crash stirring public uproar amid scarce post-accident updates, a wave of false information, including pictures and videos created by generative AI, has swarmed the internet.

"We've observed a disturbing pattern in how bad actors are leveraging AI and social media platforms to spread misinformation and commit fraud during sensitive events like the Air India Flight 171 crash," said Amit Relan, co-founder and CEO at digital fraud detection firm mFilterIt.

Relan's firm found instances of fake videos showing the aftermath of the air accident and even a case of a fraudulent fundraising attempt. "This is a classic case of emotionally-driven financial fraud, often operated from untraceable or unverified sources," he said, advocating for public education to differentiate legitimate from manipulated content.

As per the International Civil Aviation Organization's (ICAO) recommendations on good communication practices for aircraft crashes, it is essential to communicate effectively with the media to ensure the accuracy of information provided and maintain public trust.

The civil aviation ministry last week said the Aircraft Accident Investigation Bureau (AAIB) has successfully extracted data from the cockpit voice recorder and flight data recorder of the aircraft. Both the CVR and the FDR were moved to AAIB's lab in New Delhi only on 24 June, more than a week after they were recovered from the crash site in Ahmedabad. The ministry did not give any reason for the delay.

John Cox, a former pilot and chief executive of Safety Operating Systems, a provider of consulting services on accident investigations, said with the growing prevalence of GenAI, there needs to be a paradigm shift for providing information by AAIB after an event like a crash. "This is the most extensive case of misinformation that has been seen during any accident. The AAIB should be having daily briefings as done by agencies across the globe. Because in the absence of information, it is misinformation which fills the void," Cox said.

BOOM, a fact-checking platform found images of aircraft with its tail on fire or even an AI generated image of a wreckage in front of the Ahmedabad airport, which was also created by AI. BOOM used AI image detectors, with all indicating a high likelihood of them being AI-generated. However, none of the posts contained a disclaimer.

In the wake of tragic Dreamliner crash, trauma latches on to flight crew, pilots

In the wake of tragic Dreamliner crash, trauma latches on to flight crew, pilots

The morning of June 13 was one of the most dreaded for a pilot who had recently taken command of the A320 after seven years as co-pilot. As details of the Air India crash came in and theories on the causes did the rounds, not only did he get a sinking feeling when he thought of his forthcoming flight that afternoon, but his wife and ageing mother's incessant replaying of the videos and those 32 seconds before the airplane blew up in flames gave him the jitters. "A lethal combination of awe (that something like this was at all possible), trauma, shock and disbelief (ATSD)", is how he described the feeling.

As he finished lunch in his Gurugram apartment and began to get ready to leave for the airport, his wife and mother surrounded him and urged him to call in sick. They too needed a day or two to absorb the shock of the unreal nightmare that had unfolded on TV, computer and phone screens The pilot, who asked not to be named finally caved in and called in sick, unaware that he was actually one of many both in his airline and in the rival carriers to have done so. For days after the crash, pilots and cabin crew across the country looked for ways to cope with what may had, prior to June 13, considered a one-in-a-billion event. Almost all domestic airlines saw a few sick call ins, some due to pressure from family members than a case of nerves.

The three "dystopian" days, as many in the sector described them, post the crash, did require some re-rostering and rescheduling on the part of Air India, a spokesperson for the airline confirmed, with a few commanders, first officers and crew calling in sick, although he claimed that things were back to normal by Monday, June 16.

Air India management - which was in a state of shock itself - did put peer counselling into place - AI buddies were available for anyone who felt they needed counselling to carry out their duties as required and psychologists were available at the main airports for both the employees and regular fliers to avail of their services if need be. In a country where any kind of mental support is frowned upon and perceived as a sign of "madness" if not weakness, how many senior commanders or staff actually availed of these remains opaque. Neither was the effort to support flying staff adequate nor was it very effective, according to sources both in the airline and the sector.

But it wasn't just pilots. Not far from where the pilot lived, a woman fretted as her daughter, studying in the US, boarded an Air India Dreamliner to come back home for the summer. The 21-year-old was flying alone and had, just like the rest of the world, witnessed the horrific accident. The mother, who asked not to be named, knew the chances of a repeat were truly slim but her mind kept playing games and she stayed awake in panic half the night, reaching an hour before arrival to receive her only child at Delhi's T3 terminal. Although she did not take the extreme step of asking her daughter to cancel the trip, many fliers did and platforms across India reported a drop in bookings and some cancellations post the crash in domestic trips, an expected and natural response to a disaster of this magnitude.

When uncertainty kills

While there is a name for the condition, post traumatic stress disorder (PTSD), matters are now acquiring a more worrisome nature as the pilots and crew say the uncertainty of not knowing what happened is killing them.

"It's one thing to see an incident like this play out and quite another to have no idea why it occurred (almost three weeks later)", says a senior Indigo commander who asked not to be named. He says he is spooked, especially when he looks at his new-born infant, who is less than six months old. While he has been reporting for duty since the Monday after the crash, he says his mind is not at rest and is "riddled with a million uncertainties". The endless speculation on the cause of the crash has not helped.

While a majority of pilots and crew seem to have found mechanisms to cope, some continue to suffer from the after effects of the trauma , reliving and replaying it in their heads. While the travelling public was spooked too (even though public memory is short) and followed the news and causes of the crash far more closely than most other events, it was those placing themselves daily in the cockpit responsible for many lives that needed -- and still need -- support.

Many commanders now say they feel jittery especially since no clear cause had been announced. More than one expressed the "need for clarity" . They also cited pressure from their families, wives, old parents and dependents to go on "long leave" . That isn't possible for everyone; in many cases, the pilots are the sole earning members of their family.

As one Bengaluru based commander who recently took command on an A320 Neo put it : "There's more to it than just me and how I am dealing with it. This silence on the possible cause is making things worse : the uncertainty of not knowing what unfolded in those 32 seconds and led to what it did." He says he has called in sick once, after looking at the face of his eight-month-old daughter.

Moreover, he adds, asking not to be named, he keeps replaying what might go wrong even as he enters the cockpit for his next flight and adds that he can almost hear the collective prayers from the cabins behind. The only consolation factor is that the probability of a similar episode is almost nil. "Dual engine and complete failure of the kind this appears to be can only be a lapse of maintenance or a manufacturing defect," said another commander who asked not to be named, admitting that the probability of a repeat is extremely low.

The pilot cited in the first instance said that while he managed to go to work from the Monday following the crash, it hasn't been easy. Every time he emerges in his uniform, his wife responds by banging doors, his mother sulks and he's greeted by long faces. He says most families mof pilots he knows are asking the pilots "to avoid flying till they know more" as they too need some sort of closure While avoiding flying is certainly not possible for all, the pressure at home is building up and safety has replaced other dinner table conversation, he added.

Other weak spots

A former Indian Airlines senior management member recalls a similar situation playing out post the 1990 Indian Airlines A320 air crash in Bengaluru, which killed 92 people. The A320 had entered commercial service only the year before (1989) and many were not convinced of its operational efficiency and safety features. The government took a decision to ground the aircraft, which was "economically disastrous" for Indian Airlines at the time but helped reduce anxiety levels among pilots and cabin crew. "Flight safety is not confined to machines. It is all about the confidence levels of the pilots in the cockpit", argued this person, adding that it is incumbent upon the director of flight safety in Air India who would be privy to this crash investigation to allay fears within the crew.

Aviation industry executives say that this crash has exposed the inherent weaknesses in the system especially with regard to emergency response plans. "Although widely advocated by IATA, it seems in the heat of the moment, no systematic emergency response plan appears to have been executed", says a former MOCA secretary. IATA offers a structured emergency planning and response course for airlines and airport staffers as part of its safety management systems. While the former has been attended by 450 participants from 90 countries in the past five years, the latter has been attended by 149 participants from 34 countries. To what extent Indian carriers or airport staff are trained is not clear.

"Such courses and training in a country as widespread as ours remain more on paper and in theory," argues a former DGCA official, adding that coordination at a national level when a crisis erupts response tends to remain haphazard.

In a column in the edit pages of this newspaper, this writer suggested setting up a ministry for trauma care to handle accidents precisely of this nature. While a preliminary explanation for the crash has not yet emerged, there has been a very poor emergency response and post crisis handling with authorities at all levels including the office of the director general of civil aviation (DGCA) inadequately equipped, trained and staffed to handle a disaster of this nature. What has played out is inexcusable for a country with the magnitude of ambition India has.

IndiGo launches long-haul flights to Manchester

MUMBAI: Domestic carrier IndiGo on Tuesday launched its long-haul international operations with its inaugural flight landing in Manchester from Mumbai.

This new direct connection, to be operated with Boeing 787-9 Dreamliner aircraft three times a week, will significantly enhance accessibility between India's financial capital and a major economic and cultural hub in Northern England, the airline said.

This is a significant move that paves the way for IndiGo to become a global airline, while reinforcing its commitment to offering enhanced connectivity between India and key global markets, and also signifies the successful execution of IndiGo's internationalisation strategy, it said. The Gurugram-based airline has tied up with Norwegian low-cost airline Norse Atlantic Airways for damp leasing of six wide-body B 787-9 aircraft for its international operations, primarily to the UK and Europe.

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

Adani Properties Gets NCLT Nod to Acquire HDIL's Two Assets

Kailash Babar & Maulik Vyas

Mumbai: The National Company Law Tribunal (NCLT) has approved Adani Properties' acquisition of two assets of defunct real estate developer Housing Development and Infrastructure Ltd (HDIL) through the corporate insolvency resolution process (CIRP).

The assets include a commercial property known as 'Inspire BKC' in Mumbai's business district Bandra-Kurla Complex and a land parcel in Kalyan Shahad on the outskirts of Mumbai.

Adani Properties was found to be the only bidder to make Insolvency and Bankruptcy Code (IBC)-compliant proposal for both the properties.

For the Inspire BKC commercial project, its resolution plan is valued at ₹3 crore. This includes ₹2.85 crore allocated to creditors and ₹15 lakh for CIRP costs. In the case of Shahad land parcel, the fair value and liquidation value were estimated at ₹89.66 crore and ₹62.76 crore, respectively.

According to industry experts, both these assets in central Mumbai and Kalyan together are estimated to be valued at over ₹2,000 crore.

The Mumbai bench of the NCLT approved the resolution plans for both projects under Section 31 of the IBC, 2016. The committee of creditors (CoC) had cleared both the plans with 66.08% voting share in 2022. The voting concluded in November 2022.

The Rakesh Wadhawan-promoted HDIL has been undergoing insolvency since 2019 with admitted liabilities of over ₹7,789 crore.

While its resolution professional had initially issued an expression of interest for a resolution of the entire company in February 2020, it did not receive any proposal.

As the company had several unfinished residential properties, the National Company Law Appellate Tribunal (NCLAT) allowed a project-wise resolution plan.

The CoC had initially rejected this proposal. However, following objections from homebuyers, the committee reversed its stance in September 2021 and authorised the RP to explore project-wise resolution.

HDIL was then divided into 10 verticals for streamlining the resolution process.

The current approvals to Adani Properties include verticals V and IX.

For Vertical V, the Inspire BKC commercial project, the plan proposes that Adani will not acquire HDIL as a going concern but will demerge the BKC project into itself or a subsidiary.

Adani has also agreed to continue the existing Slum Rehabilitation Authority (SRA) development agreement with Budhpur Buildcon.

Budhpur Buildcon, representing Adani's interest, now holds the Letter of Intent for the slum rehabilitation project that HDIL originally began in BKC, and is tasked with completing the rehabilitation under SRA oversight.

In the case of Vertical IX, the Shahad land parcel, Punjab and Maharashtra Cooperative Bank — now Unity Small Finance Bank — is the sole secured creditor holding mortgage rights.

The bank's objections to the valuation were dismissed by the tribunal in July 2024.

Both plans include performance guarantees of ₹5 crore each, as required under the CIRP regulations. ET's query to Adani Group remained unanswered until press time Tuesday.

New Delhi | Mumbai: Days after the crash of an Air India Boeing 787 plane in Ahmedabad, killing 275 people, a preliminary investigation report was found circulating in aviation circles. The report, except for an emoji, appeared genuine with various aviation terminologies, giving it a professional look.

However, a closer scrutiny by trained eyes would eventually reveal that it was created by an AI platform using details from a 2024 incident involving South American airline LATAM, giving it a convincing look. By the time, the Indian government refuted the report as fake, news websites had already run headlines, clouding the minds of the public, and even that of several pilots.

With the June 12 Air India crash stirring public uproar amid scarce post-accident updates, a wave of false information, including pictures and videos created by generative AI, has swarmed the internet.

"We've observed a disturbing pattern in how bad actors are leveraging AI and social media platforms to spread misinformation and commit fraud during sensitive events like the Air India Flight 171 crash," said Amit Relan, co-founder and CEO at digital fraud detection firm mFilterIt.

Relan's firm found instances of fake videos showing the aftermath of the air accident and even a case of a fraudulent fundraising attempt. "This is a classic case of emotionally-driven financial fraud, often operated from untraceable or unverified sources," he said, advocating for public education to differentiate legitimate from manipulated content.

As per the International Civil Aviation Organization's (ICAO) recommendations on good communication practices for aircraft crashes, it is essential to communicate effectively with the media to ensure the accuracy of information provided and maintain public trust.

The civil aviation ministry last week said the Aircraft Accident Investigation Bureau (AAIB) has successfully extracted data from the cockpit voice recorder and flight data recorder of the aircraft. Both the CVR and the FDR were moved to AAIB's lab in New Delhi only on 24 June, more than a week after they were recovered from the crash site in Ahmedabad. The ministry did not give any reason for the delay.

John Cox, a former pilot and chief executive of Safety Operating Systems, a provider of consulting services on accident investigations, said with the growing prevalence of GenAI, there needs to be a paradigm shift for providing information by AAIB after an event like a crash. "This is the most extensive case of misinformation that has been seen during any accident. The AAIB should be having daily briefings as done by agencies across the globe. Because in the absence of information, it is misinformation which fills the void," Cox said.

BOOM, a fact-checking platform found images of aircraft with its tail on blaze or even an AI generated image of a wreckage in front of the Ahmedabad airport, which was also created by AI. BOOM used AI image detectors, with all indicating a high likelihood of them being AI-generated. However, none of the posts contained a disclaimer.

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

On the rise

Nifty 50

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

Adani Enterprises to sell 2-5 year debt

Gautam Adani's flagship firm plans to raise up to ₹1,000 crore through a retail bond issue opening for public subscription next week, two sources aware of the development told Reuters on Tuesday.

Adani Enterprises will sell two-year, three-year and five-year bonds through the issue, which will remain open for subscription from 9 July to 22 July, the sources added.

The company will pay an annual coupon of 8.95% on its two-year bonds, 9.15% on three-year bonds and 9.30% on five-year bonds, and will also have an option to defer interest payment to maturity, the sources said.

For investors opting for quarterly payouts, the coupon will be 8.85% on three-year and 9.00% on five-year notes, they added.

This marks Adani Enterprises' second retail bond sale within a year. In September 2024, it raised ₹800 via its debut public issue. REUTERS

SIMULATION SHOWS POSITION OF LANDING GEAR, FLAPS DIDN'T ALONE CAUSE CRASH

Focus on technical flaw in AI probe

MIHIR MISHRA

MORE THAN TWO weeks after the deadly crash of an Air India plane that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline reenacted the doomed aircraft's parameters in a flight simulator, including with the landing gear deployed and the wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the investigation.

The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on a technical failure as one possible cause, said the people, who asked not to be identified discussing non-public deliberations.

The simulated flight was conducted separately from the official probe being led by India's Aircraft Accident Investigation Bureau (AAIB) and was done to explore possible scenarios, one of the people said.

The Boeing 787 that crashed in Ahmedabad on June 12 was powered by two engines made by General Electric. Video footage of the aircraft showed the plane struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded.

Boeing declined to comment and deferred any questions to AAIB, while GE said it cannot comment on an active investigation. The AAIB and Air India did not respond to a request for comment.

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis. The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said.

Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis.

Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels. At the same time, the landing-gear doors had not opened, which pilots say might mean that the aircraft experienced a loss of power or a hydraulic failure.

The engines of modern aircraft are computer controlled using a system called Full Authority Digital Engine Control (FADEC) which helps pilots control an aircraft's power and makes sure the engines are used efficiently and not outside their operating limits. An emergency turbine called the RAT was activated before the plane crashed. That fan helps provide the aircraft with vital power, though it's far too small to generate any lift.

The pilots, who died in the crash, sent out a Mayday signal shortly after takeoff. There were only about 15 seconds between the distress call and impact, two people familiar with the probe said.

टेकआफ के बाद हवा में 900 फीट नीचे आया एअर इंडिया का विमान

नई दिल्ली, एएनआइ: दिल्ली से वियना जा रहा एअर इंडिया का विमान उड़ान भरने के कुछ ही देर बाद हवा में करीब 900 फीट तक नीचे आ गया। यह घटना अहमदाबाद में एयरलाइन के एआइ-171 विमान हादसे के कुछ ही दिनों बाद हुई। एयरलाइन के प्रवक्ता ने मंगलवार को बताया कि जांच के नतीजे आने तक दोनों पायलटों को विमान उड़ाने से रोक दिया गया है।

एअर इंडिया का विमान 14 जून को सुबह 2.56 बजे इंदिरा गांधी इंटरनेशनल एयरपोर्ट से रवाना हुआ, इसके बाद नौ घंटे और आठ मिनट फ्लाइट के बाद सुरक्षित रूप से वियना में उतरा। हालांकि, टेकआफ के तुरंत बाद विमान ने अचानक एल्टीट्यूड खो दिया, जिससे स्टाल और ग्राउंड प्राक्सिमिटी वार्निंग शुरू हो गईं, जिसमें बार-बार 'डोन्ट सिंक' अलर्ट शामिल थे। एअर इंडिया ने कहा कि पायलटों ने विमान को स्थिर करने के लिए तुरंत एक्शन लिया और चुनौतीपूर्ण मौसम की स्थिति के बावजूद सुरक्षित यात्रा जारी रखी।

एअर इंडिया के प्रवक्ता ने कहा कि पायलट की रिपोर्ट मिलने के बाद मामले की जानकारी नियमों के अनुसार नागरिक उड्डयन महानिदेशालय (डीजीसीए) को दी गई। विमान के रिकार्डर से डाटा मिलने पर जांच शुरू की गई।

Adani Properties Gets NCLT Nod to Acquire HDIL's Two Assets

Adani Properties Gets NCLT Nod to Acquire HDIL's Two Assets

Kailash Babar & Maulik Vyas

Mumbai: The National Company Law Tribunal (NCLT) has approved Adani Properties' acquisition of two assets of defunct real estate developer Housing Development and Infrastructure (HDIL) through the corporate insolvency resolution process (CIRP).

The assets include a commercial property known as 'Inspire BKC' in Mumbai's business district Bandra-Kurla Complex and a land parcel in Kalyan Shahad on the outskirts of Mumbai.

Adani Properties was found to be the only bidder to make Insolvency and Bankruptcy Code (IBC)-compliant proposal for both the properties.

For the Inspire BKC commercial project, its resolution plan is valued at ₹3 crore. This includes ₹2.85 crore allocated to creditors and ₹15 lakh for CIRP costs. In the case of Shahad land parcel, the fair value and liquidation value were estimated at ₹89.66 crore and ₹62.76 crore, respectively.

According to industry experts, both these assets in central Mumbai and Kalyan together are estimated to be valued at over ₹2,000 crore.

The Mumbai bench of the NCLT approved the resolution plans for both projects under Section 31 of the IBC, 2016. The committee of creditors (CoC) had cleared both the plans with 66.08% voting share in 2022. The voting concluded in November 2022.

The Rakesh Wadhawan-promoted HDIL has been undergoing insolvency since 2019 with admitted liabilities of over ₹₹7,789 crore.

While its resolution professional had initially issued an expression of interest for a resolution of the entire company in February 2020, it did not receive any proposal.

As the company had several unfinished residential properties, the National Company Law Appellate Tribunal (NCLAT) allowed a project-wise resolution plan.

The CoC had initially rejected this proposal. However, following objections from homebuyers, the committee reversed its stance in September 2021 and authorised the RP to explore project-wise resolution.

HDIL was then divided into 10 verticals for streamlining the resolution process.

The current approvals to Adani Properties include verticals V and IX.

For Vertical V, the Inspire BKC commercial project, the plan proposes that Adani will not acquire HDIL as a going concern but will demerge the BKC project into itself or a subsidiary.

Adani has also agreed to continue the existing Slum Rehabilitation Authority (SRA) development agreement with Budhpur Buildcon.

Budhpur Buildcon, representing Adani's interest, now holds the Letter of Intent for the slum rehabilitation project that HDIL originally began in BKC, and is tasked with completing the rehabilitation under SRA oversight.

In the case of Vertical IX, the Shahad land parcel, Punjab and Maharashtra Cooperative Bank — now Unity Small Finance Bank — is the sole secured creditor holding mortgage rights.

The bank's objections to the valuation were dismissed by the tribunal in July 2024.

Both plans include performance guarantees of ₹5 crore each, as required under the CIRP regulations.

ET's query to Adani Group remained unanswered until press time Tuesday.

The Rakesh Wadhawan-promoted HDIL has been undergoing insolvency since 2019 with admitted liabilities of over ₹₹7,789 crore.

While its resolution professional had initially issued an expression of interest for a resolution of the entire company in February 2020, it did not receive any proposal.

As the company had several unfinished residential properties, the National Company Law Appellate Tribunal (NCLAT) allowed a project-wise resolution plan.

The CoC had initially rejected this proposal. However, following objections from homebuyers, the committee reversed its stance in September 2021 and authorised the RP to explore project-wise resolution.

HDIL was then divided into 10 verticals for streamlining the resolution process.

The current approvals to Adani Properties include verticals V and IX.

For Vertical V, the Inspire BKC commercial project, the plan proposes that Adani will not acquire HDIL as a going concern but will demerge the BKC project into itself or a subsidiary.

Adani has also agreed to continue the existing Slum Rehabilitation Authority (SRA) development agreement with Budhpur Buildcon.

Budhpur Buildcon, representing Adani's interest, now holds the Letter of Intent for the slum rehabilitation project that HDIL originally began in BKC, and is tasked with completing the rehabilitation under SRA oversight.

In the case of Vertical IX, the Shahad land parcel, Punjab and Maharashtra Cooperative Bank — now Unity Small Finance Bank — is the sole secured creditor holding mortgage rights.

The bank's objections to the valuation were dismissed by the tribunal in July 2024.

Both plans include performance guarantees of ₹5 crore each, as required under the CIRP regulations.

ET's query to Adani Group remained unanswered until press time Tuesday.

Bangladesh clears all pending dues to Adani Power, resolves power purchase pact

NEW DELHI, JULY 1

Reaffirming the Adani Power Ltd assets as a reliable and cost-competitive power source for meeting the country's growing energy needs, Bangladesh has made its single largest payment of $437 million last month, clearing all pending dues to the company.

The neighbouring country has now requested Adani Power, part of the diversified Adani Group, to supply power from both units as per BPDB (Bangladesh Power Development Board) schedule, since the dues are now settled, according to sources on Tuesday.

The payment includes carrying costs, and issues related to the power purchase agreement (PPA).

Moreover, a Letter of Credit (LC) worth about two

months of billing and sovereign guarantee for all dues as additional security has been established, informed sources added. The LCs are worth about two months of billing and a sovereign guarantee for all dues.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant located in Godda district of Jharkhand, meeting 10 per cent of the country's power demand.

Under the 2017 deal, Adani Power's Godda power plant was to supply 100 per cent of the electricity generated from burning coal to Bangladesh for a period of 25 years. **IANS**

Mumbai: The National Company Law Tribunal (NCLT) has approved Adani Properties' acquisition of two assets of defunct real estate developer Housing Development and Infrastructure (HDIL) through the corporate insolvency resolution process (CIRP).

The assets include a commercial property known as 'Inspire BKC' in Mumbai's business district Bandra-Kurla Complex and a land parcel in Kalyan Shahad on the outskirts of Mumbai.

Adani Properties was found to be the only bidder to make Insolvency and Bankruptcy Code (IBC)-compliant proposal for both the properties.

For the Inspire BKC commercial project, its resolution plan is valued at ₹3 crore. This includes ₹2.85 crore allocated to creditors and ₹15 lakh for CIRP costs. In the case of Shahad land parcel, the fair value and liquidation value were estimated at ₹89.66 crore and ₹62.76 crore, respectively.

According to industry experts, both these assets in central Mumbai and Kalyan together are estimated to be valued at over ₹2,000 crore.

The Mumbai bench of the NCLT approved the resolution plans for both projects under Section 31 of the IBC, 2016. The committee of creditors (CoC) had cleared both the plans with 66.08% voting share in 2022. The voting concluded in November 2022.

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

Bangladesh clears Adani Power dues

PRESS TRUST OF INDIA
New Delhi, July 1

BANGLADESH MADE ITS single-largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, sources said.

Additionally, a letter of credit (LC) worth about two months of billing and sovereign guarantee for all dues as additional security have been established, the sources stated.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power as per the schedule of Bangladesh Power Development Board (BPDB), they added. Over the previous 3-4 months, the country had been paying $90-100 million per month, and in June, it paid $437 million.

Concerns raised related to investigations into the power purchase agreement (PPA) by the Bangladesh authorities have also been resolved, with no adverse aspects found, they said.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant in Godda district of Jharkhand, meeting 10% of the country's power demand. Adani Power had curtailed supply to Bangladesh over payment delays following the ouster of Sheikh Hasina as the Prime Minister in August 2024. The company resumed full supplies in March 2025.

वित्त मंत्री बोले- पंजाब के जीएसटी संग्रह में रिकॉर्ड वृद्धि, जून में 2379.90 करोड़

जून में 44.44 % बढ़ा जीएसटी संग्रह

अमर उजाला ब्यूरो

चंडीगढ़। पंजाब के जीएसटी संग्रह में इस बार रिकॉर्ड 44.44 प्रतिशत की बढ़ोतरी हुई है। जून 2025 में 2379.90 करोड़ का जीएसटी संग्रह हुआ, जबकि जून 2024 में जीएसटी संग्रह सिर्फ 1647.69 करोड़ रुपये था। वित्त मंत्री हरपाल चीमा ने कहा कि जून माह में अब तक की यह सबसे अधिक बढ़ोतरी है, जिसने पिछले सभी रिकॉर्ड तोड़ दिए हैं। चीमा ने मंगलवार को प्रेसवार्ता के दौरान इस संबंध में जानकारी दी।

चीमा ने बताया कि वित्तीय वर्ष 2025- 26 की पहली तिमाही में भी 27 प्रतिशत की रिकॉर्ड बढ़ोतरी दर्ज की गई है। साथ ही राज्य के पांच शीर्ष करदाताओं को राज्य के आर्थिक विकास और राजस्व उत्पादन में उनके योगदान के लिए सम्मानित भी किया। इनमें अम्बुजा सीमेंट से आशु अग्निहोत्री, एचपीसीएल-मित्तल एनर्जी लिमिटिड (एचएमईएल) से संजय मल्होत्रा, सैमसंग इंडिया प्राईवेट लिमिटिड से चमन लाल शर्मा, टाटा स्टील से अंकुश शर्मा और दादा मोटर्स से नितिन दादा शामिल हैं। इससे पहले अप्रैल में 15.35 प्रतिशत और मई में 24.59 प्रतिशत की बढ़ोतरी हुई थी।

मई 2025 में भारत और पाकिस्तान के बीच टकराव के बावजूद वित्तीय साल 2025- 26 की पहली तिमाही के दौरान जीएसटी संग्रह 6830.40 करोड़ रुपए तक पहुंच गई। कांग्रेस के नेतृत्व वाली राज्य सरकार राजस्व के लिए भविष्य की कोई योजना बनाने की जगह 30,070 करोड़ रुपए के प्राप्त हुए जीएसटी मुआवजे पर ही निर्भर रही।

जीएसटी धोखाधड़ी सिंडिकेट का पर्दाफाश : चीमा

चीमा ने कहा कि विभाग के स्टेट इंटेलिजेंस एंड प्रिवेंटिव यूनिट (एसआईपीयू) ने एक अकाउंटेंट द्वारा चलाए जा रहे जीएसटी धोखाधड़ी सिंडिकेट का पर्दाफाश किया है। इसके द्वारा जाली बिलिंग और आईटीसी धोखाधड़ी के लिए 20 जाली फर्में बनाई गई थीं। प्राथमिक जांच में 866.67 करोड़ रुपए के धोखाधड़ी वाले लेन-देन का पता चला है, जिससे 157.22 करोड़ रुपए की टैक्स चोरी होने का अनुमान है। इसके अलावा विभाग ने एक बड़े जीएसटी चोरी घोटाले का पर्दाफाश किया है, जिसमें मैसर्ज मां दुर्गा रोडलाइनज 168 करोड़ रुपए के जाली ई-वे बिल बनाने और असीमित सामान की ढुलाई में शामिल पाया गया, जोकि एक ट्रांसपोर्टर के तौर पर रजिस्टर्ड है। इसमें 30.66 करोड़ रुपए की कर देनदारी शामिल है।

यह दावा वित्तमंत्री हरपाल सिंह चीमा ने यहां मीडिया कर्मियों से बात करते हुए किया। राज्य के शीर्ष के पांच टैक्सदाताओं को सम्मानित करने के बाद उन्होंने यह दावा किया। सम्मानित किए गए करदाताओं में अंबूजा सीमेंट से आशु अग्निहोत्री, एचपीसीएल-मित्तल एनर्जी लिमटिड (एचएमइएल) से संजय मल्होत्रा, सैमसंग इंडिया प्राइवेट लिमिटेड से चमन लाल शर्मा, टाटा स्टील से अंकुश शर्मा व दादा मोटर्स से नितिन दादा शामिल हैं।

वित्तमंत्री ने कहा कि राज्य को वित्तीय वर्ष 2025-26 में पिछली कांग्रेस व अकाली-भाजपा सरकारों द्वारा लिए गए कर्ज पर 25,000 करोड़ रुपये के ब्याज भुगतान व 18,200 करोड़ रुपये के मूल भुगतान करने हैं जबकि केंद्र सरकार द्वारा 13,000 करोड़ रुपये की कटौती के बावजूद, 49,900 करोड़ रुपये उधार लेने की योजना है। उन्होंने कहा कि राज्य सरकार मौजूदा वित्तीय वर्ष की दूसरी तिमाही में विरासत में मिले कर्ज के लिए 3,500 करोड़ रुपये के उत्तरदायित्व पूरे करने के लिए 8500 करोड़ रुपये उधार लेगी। उन्होंने बताया कि पंजाब सरकार ने हाल ही में गारंटी रीडेंप्शन फंड (जीआरएफ) और कंसोलीडेटिड सिंकिंग फंड (सीएसएफ) में 1000-1000 करोड़ रुपये का निवेश किया है जिससे कंसोलीडेटिड सिंकिंग फंड में अब 10,000 करोड़ रुपये से अधिक है।

वित्तमंत्री चीमा ने बताया कि एसआइपीयू ने पर्दाफाश किया जिसमें 866.67 करोड़ रुपये के धोखाधड़ी वाले लेनदेन का पता चला है।

Bangladesh resolves Adani's power purchase pact

Bangladesh resolves Adani's power purchase pact

PRESS TRUST OF INDIA
New Delhi

Bangladesh made its single largest payment of $437 million in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement, reaffirming the Indian conglomerate's asset as a reliable and cost-competitive power source for meeting the country's growing energy needs, sources said.

Bangladesh is now regular in payments. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources aware of the matter said.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units as per BPDB (Bangladesh Power Development Board) schedule, they added.

Sources said Bangladesh has resolved Adani Power's dues, including the carrying cost. Over the last 3-4 months, the country has been paying $ 90-100 million per month, and in June, it paid $ 437 million. The LCs are worth about two months of billing and sovereign guarantee for all dues, as additional security has put Adani in a very comfortable situation. Concerns raised related to investigations into the PPA by the Bangladesh authorities have been resolved, with no adverse aspects found.

With all these developments, lenders are confident of improving APL's credit rating to AA+ from the current AA.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant located in Godda district of Jharkhand, meeting 10 per cent of the country's power demand. The company supplies among the most competitively priced power to Bangladesh, as is evident from BPDB's merit order dispatch data, which is an essential requirement.

Bangladesh had in the past struggled to meet its payment obligations under the 2017 deal, as rising import costs — following the Russia-Ukraine conflict in 2022 and domestic political turmoil, which led to the ouster of the prime minister — strained the country's finances. As a result, Adani halved its supply last year, and full supplies were resumed in March 2025 after the country's monthly payments started covering some of the dues.

Sources said over the last three to four months, Bangladesh had started paying $90-100 million per month, and in June, the company received the single largest chunk of payment of $437 million, thereby clearing all dues. Adani Power's Godda unit was housed under a separate subsidiary, which has now been merged with the parent, providing greater operational and financial synergy. With all these developments, lenders are confident of improving Adani Power's credit rating to AA+ from the current AA, which will further bring down its cost of funds.

The current developments vindicate the contract established between the Bangladesh Government and Adani Power. The Godda asset is now well integrated into the Bangladesh Power system successfully.

Under the 2017 deal, Adani Power's Godda power plant in Jharkhand was to supply 100 per cent of the electricity generated from burning coal to Bangladesh for a period of 25 years. After payment defaults, Adani had cut supplies by half in November 2024. It restored full electricity supply, which is around 1,600 MW, in March after the country reduced its liabilities.

Bangladesh stepped up repayments from July last year, clearing monthly dues. The development comes after the country suffered from increased power shortages in rural areas.

It has been struggling to generate sufficient dollar revenues to cover the cost of essential imports like electricity, coal, and oil. Its foreign currency reserves declined amid months of student-led protests and political unrest, which culminated in the ousting of the Sheikh Hasina Government in August 2024.

The interim Government that succeeded her sought an additional $3 billion loan from the International Monetary Fund (IMF), on top of the existing $4.7 billion bailout package. Adani's power deal with Bangladesh was one of many under Sheikh Hasina, which the current interim Government has called opaque. Besides Adani Power, other Indian state-owned firms also sell power to Bangladesh, including NTPC Ltd and PTC India Ltd.

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

Bangladesh resolves Adani's power purchase pact

PRESS TRUST OF INDIA
New Delhi

Bangladesh made its single largest payment of $437 million in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement, reaffirming the Indian conglomerate's asset as a reliable and cost-competitive power source for meeting the country's growing energy needs, sources said.

Bangladesh is now regular in payments. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources aware of the matter said.

Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units as per BPDB (Bangladesh Power Development Board) schedule, they added.

Sources said Bangladesh has resolved Adani Power's dues, including the carrying cost. Over the last 3-4 months, the country has been paying $ 90-100 million per month, and in June, it paid $ 437 million. The LCs are worth about two months of billing and sovereign guarantee for all dues, as additional security has put Adani in a very comfortable situation. Concerns raised related to investigations into the PPA by the Bangladesh authorities have been resolved, with no adverse aspects found.

With all these developments, lenders are confident of improving APL's credit rating to AA+ from the current AA.

Adani Power supplies electricity to Bangladesh from a dedicated 1,600 MW plant located in Godda district of Jharkhand, meeting 10 per cent of the country's power demand. The company supplies among the most competitively priced power to Bangladesh, as is evident from BPDB's merit order dispatch data, which is an essential requirement.

Bangladesh had in the past struggled to meet its payment obligations under the 2017 deal, as rising import costs — following the Russia-Ukraine conflict in 2022 and domestic political turmoil, which led to the ouster of the prime minister — strained the country's finances. As a result, Adani halved its supply last year, and full supplies were resumed in March 2025 after the country's monthly payments started covering some of the dues.

Sources said over the last three to four months, Bangladesh had started paying $90-100 million per month, and in June, the company received the single largest chunk of payment of $437 million, thereby clearing all dues. Adani Power's Godda unit was housed under a separate subsidiary, which has now been merged with the parent, providing greater operational and financial synergy. With all these developments, lenders are confident of improving Adani Power's credit rating to AA+ from the current AA, which will further bring down its cost of funds.

The current developments vindicate the contract established between the Bangladesh Government and Adani Power. The Godda asset is now well integrated into the Bangladesh Power system successfully.

Under the 2017 deal, Adani Power's Godda power plant in Jharkhand was to supply 100 per cent of the electricity generated from burning coal to Bangladesh for a period of 25 years. After payment defaults, Adani had cut supplies by half in November 2024. It restored full electricity supply, which is around 1,600 MW, in March after the country reduced its liabilities.

Bangladesh stepped up repayments from July last year, clearing monthly dues. The development comes after the country suffered from increased power shortages in rural areas.

It has been struggling to generate sufficient dollar revenues to cover the cost of essential imports like electricity, coal, and oil. Its foreign currency reserves declined amid months of student-led protests and political unrest, which culminated in the ousting of the Sheikh Hasina Government in August 2024.

The interim Government that succeeded her sought an additional $3 billion loan from the International Monetary Fund (IMF), on top of the existing $4.7 billion bailout package. Adani's power deal with Bangladesh was one of many under Sheikh Hasina, which the current interim Government has called opaque. Besides Adani Power, other Indian state-owned firms also sell power to Bangladesh, including NTPC Ltd and PTC India Ltd.

सुरक्षित हवाई यात्रा के लिए बने नई व्यवस्था

12 जून को 230 सवारियों वाली एयर इंडिया की उड़ान संख्या 171 ने अहमदाबाद हवाई अड्डे से उड़ान भरी। तीस सैकेंड बाद बोइंग 787-8 ड्रीमलाइनर एक मेडिकल कॉलेज के हॉस्टल पर गिर पड़ा। उस हादसे को रोका जा सकता था, दुर्घटना ने उस विमान की बदहाली की पोल तो खोली ही, विमानन क्षेत्र से जुड़े पूरे तंत्र में व्याप्त सड़ांध को भी उजागर कर दिया। किसी भी लोकतंत्र में ऐसे हादसे जागने का अवसर होते हैं लेकिन भारत में ऐसा नहीं है। इसके बजाय मृतकों के शोकाकुल परिजन शवों की तस्वीरों और अनुत्तरित प्रश्नों के साथ एक से दूसरे मुर्दाघर में दौड़ रहे थे। संकट के समय मदद करने के लिए कोई टीम नहीं थी।

एयरलाइंस द्वारा हत्या करके बच निकलने का मुख्य कारण यह है कि उनकी जिम्मेदारी तय करने के लिए कोई विनियामक नहीं है। सच तो यह है कि वह कोई हादसा नहीं था, यह दैनंदिन अक्षमता के वेश में सुनियोजित लापरवाही थी। भारत का विमानन क्षेत्र ऊंची उड़ान नहीं भर रहा, यह विनियंत्रण के स्तर पर डरे होने, कॉरपोरेट लालच और राजनीतिक उदासीनता का मिलाजुला रूप है। नतीजतन रनवे पर, हवा में और जिम्मेदार लोगों के हाथों में-सर्वत्र खून है, दो कंपनियों के नियंत्रण वाला विमानन क्षेत्र सिर्फ एयरलाइंस का संचालन नहीं कर रहा, लोगों के मुताबिक, 35,000 फीट की ऊंचाई पर यह उगाही का तंत्र चलाता है। इन दो प्रमुख एयरलाइन समूहों का भारतीय आकाश के 88.5 फीसदी हिस्से पर कब्जा है।

विमानों के किराये का नमूना देखिये : दिल्ली-चंडीगढ़ के बीच 50 मिनट की उड़ान के 8,500 रुपये, चेन्नई से कोयंबटूर के लिए 10,200 रुपये, पिछले साल इंडिगो ने 11.8 करोड़ मुसाफिरों को गंतव्य तक पहुंचाया और 7258 करोड़ रुपये का मुनाफा कमाया। एयर इंडिया हिसाब-किताब के मामले में शालीनता दिखाती है लेकिन एक बार में 470 विमानों के ऑर्डर देने का फैसला उसकी ताकत के बारे में बताता है। गो फर्स्ट के खत्म हो जाने और स्पाइसजेट की हिस्सेदारी घटकर चार फीसदी रह जाने के बाद भारतीय विमानन क्षेत्र में कोई प्रतिस्पर्धा नहीं है-सिर्फ कार्टेल पूंजीवाद है और विनियामक? जरा रुकिए, भारत में कोई विनियामक नहीं है। यहां डीजीसीए यानी नागर विमानन महानिदेशालय है, नागर विमानन के लिए डीजीसीए का होना वैसा ही है, जैसे चाकू की जगह टूथपिक हो।

भारत का तथाकथित विमानन विनियामक फंड और संसाधन की कमी के साथ राजनीतिक अंकुश से जूझ रहा है, इसमें 53 फीसदी पद खाली हैं, जबकि संसाधनों में 91 फीसदी कटौती की गयी है। नींद से जागकर 24 जून को उसने जो जांच रिपोर्ट जारी की, वह डरावने उपन्यास की तरह लगता था। उसने रिपोर्ट में व्यवहार के अयोग्य बैगेज ट्रॉली, गलत ढंग से रखे लाइफ वेस्ट्स, रखरखाव के प्रोटोकॉल की अनदेखी, लगातार होने वाली तकनीकी चूक आदि का जिक्र किया है। डीजीसीए ने इन कमियों पर क्या रुख दिखाया? उसने एक प्रेस रिलीज जारी की, अपनी पीठ थपथपायी, फिर लंबी नींद में सो गया।

भारत बड़े विमानन बाजार वाला इकलौता देश है, जिसके पास वैधानिक रूप से और स्वतंत्र विनियामक नहीं है। ब्रिटेन, ब्राजील, दक्षिण अफ्रीका और पड़ोसी नेपाल तक में ऐसे स्वतंत्र

निकाय हैं, जिन्हें विमानों पर उड़ान प्रतिबंध लगाने, जुर्माना लगाने, यात्री अधिकारों को लागू करने, यहां तक कि अधिकारियों को जेल में डालने के लिए भी मंत्रियों से अनुमति लेने की जरूरत नहीं पड़ती। अमेरिका के संघीय विमानन प्राधिकरण (एफएए) में 45,000 कर्मचारी हैं और उसका 20 अरब डॉलर का सालाना बजट है, भारत में डीजीसीए समय पर हादसे की रिपोर्ट जारी कर दे तो यही बहुत है।

दूसरे देशों में विमान दुर्घटनाओं के बाद सुधार लागू होते हैं, वर्ष 2008 के स्पेन एयर हादसे के बाद यूरोपीय संघ ने सेफ्टी मैनेजमेंट सिस्टम लागू किया। वर्ष 2018-19 में 737 मैक्स हादसे के बाद एफएए ने बोइंग जेट्स पर 20 महीने का उड़ान प्रतिबंध लगाने के साथ बदलाव भी किये। वर्ष 2023 में विमान के इंजनों का मुद्दा सामने आने के बाद ऑस्ट्रेलिया का सीएएसए हरकत में आया। जापान में इसी साल टोक्यो के रनवे में हुई टक्कर के तुरंत बाद जेटीएसबी सक्रिय हो गया। अपने यहां अहमदाबाद विमान हादसे के दो सप्ताह बाद तक डीजीसीए चुप रहा। भारतीय विमानन क्षेत्र में सिर्फ फेयर मीटर ही तेज दौड़ता है। हां, हमारे यहां एयरपोर्ट क्वालिटी के लिए विनियामक है, क्योंकि रनवे के टाइल्स यात्रियों के जीवन से ज्यादा महत्व रखते हैं। विगत मार्च में कोलकाता से दिल्ली जा रही इंडिगो की एक उड़ान को खराब मौसम के कारण जब जयपुर में उतारा गया तो एक यात्री प्रिया शर्मा अपने पिता के अंतिम संस्कार में उपस्थित नहीं हो सकी।

बेंगलुरु से हैदराबाद जा रही उड़ान में जब एक महिला बेहोश हो गयी तो क्रू ने उसकी अनदेखी की, तब महिला की बेटी को रोते हुए बताना पड़ा कि यह मेरी मां हैं। पिछले महीने गुवाहाटी से चेन्नई जा रहे इंडिगो के एक विमान के पायलट ने ईंधन भरने के लिए मे डे कॉल किया। दिल्ली से श्रीनगर जा रहा एक विमान ओलावृष्टि से जर्जर हो गया। अहमदाबाद हवाई अड्डे पर एक साल में बर्ड हिट के 462 मामले पाये गये। अहमदाबाद हादसे के बाद भारत को बड़ा कदम उठाने की जरूरत है, इसे सुधार के लिए जुबानी वादे की जरूरत नहीं है। न ही किसी कमेटी या 700 पेज की रिपोर्ट की जरूरत है। इस मौजूदा व्यवस्था को खत्म कर नई व्यवस्था शुरू करनी होगी। देश को एक स्वतंत्र नागर विमानन विनियामक प्राधिकरण की जरूरत है जो पूरी तरह वैधानिक हो, जिसके पास अधिकार हो और जिस पर राजनीतिक दखल न हो। इस प्राधिकरण को विदेशी विशेषज्ञ नियुक्त करने दें। इसके पास बड़ा बजट हो, किराये के मामले में पारदर्शिता होनी चाहिए।

उड़ानों और यात्रियों के रिकॉर्ड के साथ छेड़छाड़ करने वाले सीईओ को जेल क्यों नहीं भेजा जाता? यात्रियों के साथ मानवीय सलूक होना चाहिए और संकट के समय किराया घटाया जाना चाहिए, हर हादसे, डायवर्जन या इमर्जेंसी लैंडिंग के ऑडिट का कानून बनाया जाना चाहिए। बीमा राशि सालों बाद नहीं, कुछ हफ्ते बाद मिल जानी चाहिए। उड़ान के दौरान जहरीले खान-पान और उद्दंड क्रू मेंबर्स पर प्रतिबंध लगना चाहिए। हर विमान हादसे के पीछे खराब मौसम या तकनीकी गलती को कारण बताया जाता है लेकिन कभी उस व्यवस्थागत सड़ांध का जिक्र नहीं होता जो विमान हादसों के लिए जिम्मेदार होते हैं।

As US tariff clock ticks, mkts refuse to blink

Cautious optimism builds as investors bet on delay or deal

SUNDAR SETHURAMAN & SAMIE MODAK
Mumbai, 1 July

Domestic stock markets are holding firm even as the July 9 deadline approaches for the new US tariff rates — ranging from 10 per cent to 50 per cent — announced by US President Donald Trump on April 2.

The tariffs, paused for 90 days to allow for bilateral trade negotiations, have sparked cautious optimism among investors who foresee an extension or a favourable US-India trade deal. The benchmark Nifty 50 index last ended at 25,542, less than 3 per cent below its record closing of 26,179 on September 27, 2024. From this year's low of 22,162 on April 7, the Nifty has rallied more than 15 per cent. Amish Shah, head of India research at BofA Securities, said, "Markets are fully pricing in an imminent India-US trade deal, making any delay or disappointment a major risk."

Nimesh Chandan, chief investment officer at Bajaj Finserv Mutual Fund, described the potential for an extension as "kicking the can down the road", as inking trade agreements within a short period is challenging.

He, however, believes India will be the least impacted by US tariffs compared to other nations. Analysts are more sanguine also because of the nature of India's exports to the US, which are predominantly services like information technology and medical services — likely to be exempt from tariffs.

U R Bhat, cofounder of Alphaniti Fintech, said, "Commodity exports are not a large portion of the listed market. Also, as pharmaceutical exports feed into the US public health system, tariffs on these could raise US healthcare costs, making them less likely."

Bhat also noted that Trump's rhetoric has been less aggressive towards India compared to China, Japan, or Europe.

Despite US tariff uncertainty, emerging markets' bonds, stocks, and currencies logged strong performance during the first half of calendar 2025. Market players attribute the gains to rising investor demand for non-US assets.

According to *Bloomberg*, an index for emerging market (EM) debt has gained over 11 per cent this year — its best performance in the first six months of any year since 2016. The EM index has rallied almost 14 per cent, double the advance in the S&P 500.

Anand Radhakrishnan, managing director at Sundaram Asset Management Company, believes the risk of tariffs impacting the market has reduced unless there is another major reversal in stance.

"Global markets, including India, expect a moderation of stance on the tariff side, considering the US central bank is itself saying tariffs can be inflationary and therefore they will not cut rates. Whereas the political administration may want to soften rates. So it does look like, at the margin, the stance may be softened with respect to tariff negotiations," he added.

Experts don't rule out an increase in market volatility as the July 9 deadline nears. Investors are keenly eyeing signs of an extension or a breakthrough in US-India trade talks, with markets poised to react sharply to any developments.

"If tariffs are imposed, markets will correct, though the correction may not be deep. An agreement or extension could trigger a rally, which could see domestic indices reclaiming September highs, driven by strong domestic liquidity," said Ambareesh Baliga, an independent equity analyst.

Experts said limited direct exposure to US trade, which accounts for only 2 per cent of India's gross domestic product (GDP), can protect the market from a sharp downside.

In an interview with *Business Standard* last month, Ridham Desai, managing director at Morgan Stanley India, said, "Slower global growth, driven by US trade policies, will indirectly affect India, as 20 per cent of its GDP relies on global engagement."

Desai added that global economic deceleration has led Morgan Stanley to revise India's earnings estimates downward.

Shah of BofA highlighted the 96 per cent correlation between the Nifty and the S&P 500, suggesting that a correction in the US market could also have a ripple effect on India.

Air India international aircraft stranded in city

SANJAY MANDAL

Calcutta: Two Boeing aircraft, operated by Air India, are stranded at Calcutta Airport because of technical snags.

One of them, a San Francisco-Mumbai flight that had developed a technical snag before takeoff, has been stranded since June 17.

The other one, a Tokyo-Delhi flight which was diverted to Calcutta on Sunday afternoon, is also parked at Calcutta airport.

According to airport officials, it was unusual for an aircraft that developed a technical snag to remain stranded for two weeks.

"Usually, it takes four to five days for an airline to repair the stranded aircraft and reinstate it into the fleet for operation, unless there is a major problem. Even if the spare parts need to be flown in from the manufacturer's base in the US or Europe, it does not take more than a week for the repair," said an official at the Calcutta airport.

Sources said that after the June 12 crash of Air India's Ahmedabad-London flight seconds after takeoff, the airline's Dreamliner series aircraft are undergoing stringent checks along with other planes in the fleet.

"This could be the reason for the delay in the repair of the aircraft stranded at Calcutta airport since June 17," said an official of the civil aviation ministry.

Air India sources said the airline has 33 Dreamliner series aircraft, which had to undergo one-time checks after the crash, overseen by the directorate general of civil aviation (DGCA). Now, 29 aircraft have completed the checks while four are undergoing routine major maintenance. Once those come back, the aircraft have to undergo similar checks.

These checks and snags, along with flight path diversions to avoid war zones, have forced Air India to cancel many flights on several international routes.

The Air India flight from San Francisco to Mumbai with 228 onboard was grounded at Calcutta airport on June 17 after a technical snag was detected in the Boeing 777-200LR aircraft that had stopped to refuel.

The plane, carrying 211 passengers and 17 crew members, had landed at Calcutta airport at 12.47am. Several passengers of AI180 had alleged that they had to wait inside the aircraft for nearly five hours before being allowed to disembark. They also claimed that there was no proper communication from Air India officials.

Some passengers, who were anxious about flying following the crash of Air India's Boeing 787-8 Dreamliner in Ahmedabad on June 12 that killed 241 onboard, said they were relieved that the snag was detected before the plane took off for Mumbai.

The second Air India aircraft stranded at the airport had landed in Calcutta on June 29.

The flight, a Boeing 787-800 Dreamliner from Tokyo to Delhi carrying 243 passengers, was diverted to the Calcutta airport after the air conditioning system malfunctioned, said airport officials.

Passengers were stranded at the Calcutta airport for over eight hours.

The, Boeing 777-200 aircraft, stranded since June 17, was first taken to parking stand 115 and later shifted to stand number 12, said airport officials.

The Boeing 787-800 Dreamliner is at parking stand 114, said officials.

Calcutta airport has 76 parking bays.

"Flight AI180 operating San Francisco-Mumbai made its scheduled technical stop in Calcutta on 17 June, 2025. During routine checks on the aircraft before departing for Mumbai, an extended maintenance task was advised, which required rectification before the next flight. In the interest of passenger convenience, an alternative aircraft was arranged at the earliest opportunity to fly the passengers to Mumbai on the same evening. The aircraft on the ground will return to service as soon as the maintenance task concludes," said a spokesperson of Air India.

Boeing refused to comment.

"Air India flight crash is under investigation now, and so it is not possible to comment," said a Boeing spokesperson.

बांग्लादेश ने अदाणी के भुगतान चिंताओं का समाधान किया

नयी दिल्ली : बांग्लादेश ने अदाणी पावर को जून में 43.7 करोड़ डॉलर का अपना सबसे बड़ा भुगतान किया है। इसके साथ ही पड़ोसी देश ने लंबित बकाया और बिजली खरीद समझौते से संबंधित मुद्दों का निपटान कर दिया है। मामले से जुड़े सूत्रों ने कहा कि बांग्लादेश अब नियमित रूप से भुगतान कर रहा है। इसके अलावा सभी बकाया के लिए लगभग दो महीने के बिल और सरकारी गारंटी के बराबर एक साख पत्र (एलसी) की भी व्यवस्था की गयी है। चूंकि भुगतान संबंधी मामले सुलझ गए हैं, इसलिए बांग्लादेश ने अदाणी पावर को बीपीडीबी (बांग्लादेश पावर डेवलपमेंट बोर्ड) के कार्यक्रम के अनुसार दोनों इकाइयों से बिजली की आपूर्ति करने को कहा है। बांग्लादेश पिछले 3-4 महीनों में प्रति माह 9-10 करोड़ डॉलर का भुगतान कर रहा है, और जून में उसने 43.7 करोड़ डॉलर का भुगतान किया। साख पत्र लगभग दो महीने के बिल के बराबर है और यह सभी बकाया के लिए एक सरकारी गारंटी की तरह है। अदाणी पावर झारखंड के गोड्डा जिले में स्थित 1600 मेगावाट क्षमता वाले संयंत्र से बांग्लादेश को बिजली की आपूर्ति करती है।

B'desh resolves Adani's power purchase pact, payment concerns

Bangladesh made its single largest payment of $437 million to Adani Power in June, clearing pending dues, including carrying costs, and issues related to the power purchase agreement. Additionally, an LC (Letter of Credit) worth about two months of billing and sovereign guarantee for all dues as additional security has been established, sources said. Since payment-related matters are resolved, Bangladesh has asked Adani Power to supply power from both units according to the Bangladesh Power Development Board (BPDB) schedule, they added. Over the last 3-4 months, the country has been paying $90-100 million per month, and in June, it paid $437 million. PTI

বিমান দুর্ঘটনায় কেস কি এ বার লন্ডনেও

এই সময়: গত ১২ জুন আমেদাবাদে এয়ার ইন্ডিয়ার যে ড্রিমলাইনার ভেঙে পড়েছিল, সেখানে ২৪০ জন যাত্রীর মধ্যে ছিলেন ৫৪ জন ব্রিটিশ নাগরিক। তাঁদের মধ্যে একজন ব্রিটিশ নাগরিক বেঁচে গেলেও মারা যান বাকি ৫২ জন। সূত্রের দাবি, এ বার এই কারণে লন্ডন হাইকোর্টে মামলা দায়ের হতে চলেছে এয়ার ইন্ডিয়ার বিরুদ্ধে।

তবে শুধু এয়ার ইন্ডিয়া নয়, জানা গিয়েছে, ওই দুর্ঘটনার জেরে

আমেদাবাদ ক্র্যাশ

মামলা হতে চলেছে ড্রিমলাইনারের প্রস্তুতকারক সংস্থা বোয়িং-এর বিরুদ্ধেও। সেটি আমেরিকার সংস্থা। তাই বোয়িংয়ের বিরুদ্ধে আমেরিকার আদালতেই মামলা হবে বলে সূত্রের দাবি।

এয়ার ইন্ডিয়ার তরফে ইতিমধ্যেই মৃত যাত্রীদের পরিবারকে আর্থিক ক্ষতিপূরণ দেওয়ার কথা ঘোষণা করা হয়েছে। প্রাথমিক ভাবে এয়ার ইন্ডিয়া পরিবার-পিছু ভারতীয় মুদ্রায় ২৫ লক্ষ টাকা করে দেবে। এ ছাড়াও এয়ার ইন্ডিয়ার মালিক টাটা সন্স প্রতি পরিবারকে এক কোটি টাকা দেবে।

ক্ষতিপূরণ দিলেও কেন মামলা?

জানা গিয়েছে, কোনও বিমান দুর্ঘটনার পরে এয়ারলাইনের দায়-দায়িত্ব ঠিক হয়েছিল ১৯৯৯-এর মন্ট্রিল কনভেনশনে। মৃত ও আহত যাত্রীদের ক্ষেত্রে কী করণীয়, বিমান দেরিতে ছাড়লে বা মালপত্র হারিয়ে গেলে কী করতে হবে সে সবই বলা রয়েছে সেই কনভেনশনে। সূত্রের দাবি, সেই কনভেনশনের নিয়ম মেনে এয়ার ইন্ডিয়া আর্থিক ক্ষতিপূরণ দিচ্ছে কি না, মৃতদের পরিবারের পাশে দাঁড়াচ্ছে কি না, খতিয়ে দেখা হচ্ছে তা। তবে, সম্ভবত আর্থিক ক্ষতিপূরণ নয়। অন্য বিষয় নিয়ে মামলা হতে পারে বলে সূত্রের দাবি।

একটি সর্বভারতীয় সংবাদমাধ্যমের খবর অনুযায়ী, ইংল্যান্ডের একটি লিগ্যাল ফার্ম ইতিমধ্যেই এই মামলার বিষয়ে মৃতদের পরিবারের সদস্যদের সঙ্গে আলোচনা শুরু করেছে। মতামত নেওয়া হচ্ছে এভিয়েশন এক্সপার্টদেরও। সে দিন ফ্লাইটে সাতজন পর্তুগিজ এবং কানাডার একজন নাগরিকও ছিলেন। যোগাযোগের চেষ্টা করা হলেও এয়ার ইন্ডিয়ার বক্তব্য মেলেনি।

আমেদাবাদের দুর্ঘটনার দিন দুই পরে ১৪ জুন, এয়ার ইন্ডিয়ার দিল্লি-ভিয়েনা ফ্লাইট নিয়েও শুরু হয়েছে তদন্ত। সূত্রের খবর, সে দিনও টেক-অফের একটু পরে মুখ তুলে উপরে ওঠার সময়ে আচমকাই ঝুপ করে ৯০০ ফুট নেমে আসে বিমানটি। তদন্তে নেমে ডিরেক্টরেট জেনারেল অফ সিভিল এভিয়েশন (ডিজিসিএ) ওই ফ্লাইটের দুই পাইলটকেই আপাতত বসিয়ে দিয়েছে। এটিও ছিল ড্রিমলাইনার।

১২ জুনও আমেদাবাদ থেকে লন্ডনের গ্যাটউইক যাওয়ার সময়ে টেক-অফ করার সঙ্গে সঙ্গেই মুখ থুবড়ে ভেঙে পড়েছিল এয়ার ইন্ডিয়ার ড্রিমলাইনার। মারা গিয়েছিলেন ২৪০-র বেশি মানুষ। সেই ঘটনার প্রাথমিক তদন্ত রিপোর্ট জুলাইয়ের মাঝ বরাবর প্রকাশ্যে আসতে পারে বলে দাবি করা হয়েছে।

दो अतिरिक्त उच्च क्षमता वाली मोबाइल हार्बर क्रेन की तैनाती

कोलकाता @ पत्रिका. श्याम प्रसाद मुखर्जी पोर्ट ने गोदी प्रणाली (केडीएस) के भीतर नेताजी सुभाष गोदी में दो अतिरिक्त उच्च क्षमता वाली मोबाइल हार्बर क्रेन की तैनाती के साथ अपनी कंटेनर संचालन क्षमताओं में वृद्धि की घोषणा की है। इस रणनीतिक वृद्धि से केडीएस में एमएचसी की कुल संख्या छह (6) हो जाएगी, जिससे परिचालन दक्षता में पर्याप्त वृद्धि और पोत के टर्नअराउंड समय में कमी आएगी।

आगामी कुछ महीनों में इन नई क्रेनों के चालू होने की उम्मीद है और इनसे एनएसडी में कंटेनर टर्मिनल की समग्र उत्पादकता और प्रदर्शन में उल्लेखनीय वृद्धि होने की भी उम्मीद है, जिससे क्षेत्र में व्यापार के लिए एक महत्वपूर्ण प्रवेश द्वार के रूप में एसएमपी की भूमिका और मजबूत होगी।

एसएमपी के अध्यक्ष रथेंद्र रमण ने इस पहल के महत्व को रेखांकित करते हुए कहा कि ऊर्जा-कुशल, इलेक्ट्रिक मोबाइल हार्बर क्रेन की तैनाती हमारे परिचालन के क्षेत्र में एक महत्वपूर्ण कदम है। यह पूर्वी समुद्र तट पर एक स्थायी और महत्वपूर्ण कंटेनर हैंडलिंग हब के रूप में कोलकाता की स्थिति को मजबूत करने में एक लंबा रास्ता तय करेगा, जिससे वित्त वर्ष 2025-2026 में केडीएस की क्षमता 7.5 लाख टीईयू (ट्वेंटी इक्विवेलेंट यूनिट) तक बढ़ जाएगी। 2024-2025 में कोलकाता गोदी प्रणाली (केडीएस) ने 6.19 लाख टीईयू संचालित किया। उन्होंने इस उल्लेखनीय कदम के लिए एपीएसईजेड टीम को धन्यवाद दिया और अपने साथी सहयोगियों और कर्मचारियों की सराहना की।

‘চাকরি ছেড়ে চলে আয়’, ড্রিমলাইনার সেই দুঃস্বপ্নই

সুনন্দ ঘোষ

মা বলেছেন, ভিআর নিয়ে চলে আয়। ভিআর অর্থে ভলান্টারি রিটায়ারমেন্ট। সোজা কথা, মা চাইছেন না মেয়ে আর চাকরি করুক।

ফোনের ও প্রান্ত থেকে ভেসে আসে এক এয়ারহস্টেসের ক্লান্ত স্বর। কেবিন-ক্রু হিসেবে দীর্ঘদিন কাজ করছেন এয়ার ইন্ডিয়ায়।বলছিলেন, ‘জানেন! এখনও রাতে ভালো করে ঘুম হচ্ছে না। মর্নিং ফ্লাইটে টায়ার্ড লাগছে। একটা অদ্ভুত অস্বস্তি নিয়ে প্রতিটা ফ্লাইটে উঠছি। যন্ত্রের মতো কাজ করে যাচ্ছি। মানসিক অশান্তিটা কিছুতেই ঠেলে ফেলে দিতে পারছি না।’

কর্মীদের ‘দেখভাল’ করার সুনাম রয়েছে টাটা-গোষ্ঠীর। কর্তারাও জানেন ১২ জুনের পর থেকে একটা অমানবিক মানসিক চাপ তৈরি হয়েছে পাইলট আর কেবিন-ক্রুদের মধ্যে। মানসিক চাপ কমাতে তাই দিল্লিতে আলাদা করে কাউন্সেলিং সেশন শুরু করেছে সংস্থা। যে কেউ চাইলে

সশরীরে দিল্লি গিয়ে কাউন্সিলারদের সঙ্গে কথা বলতে পারবেন। কেউ চাইলে ফোনে বা ভিডিয়ো কলেও কনসালটেশন নিতে পারবেন।

কিন্তু, সেখানেও তো ভয়! পাইলট ও বিমানসেবিকা বা এয়ারহস্টেসদের বেতনের বড় অংশই হচ্ছে ফ্লাইং অ্যালাওয়েন্স। তাঁরা বলছেন, ‘কোম্পানি যখন জানতে পারবে, মানসিক চাপ বেড়েছে, ফ্লাই করতে দেবে না। তখন?’ অনেকে তাই বাড়িতেই মেডিটেশন শুরু করেছেন। কেউ ব্যক্তিগত স্তরে সাইকিয়াট্রিস্ট বা সাইকোলজিস্ট দেখাচ্ছেন। অ্যাংজাইটি কমাতে কেউ কেউ ওষুধও খাচ্ছেন।

সবে দিন কুড়ি কেটেছে। ১২ জুন আমেদাবাদে ভেঙে পড়েছে এয়ার ইন্ডিয়ার ড্রিমলাইনার। বিমানে থাকা যে ২৪১ জন মারা গিয়েছিলেন, তাঁদের মধ্যে ১০ জন কেবিন ক্রু এবং দু’জন পাইলট। আর তার পর থেকে একটা অবর্ণনীয় মানসিক চাপ তৈরি হয়েছে ভারতের আকাশে উড়ে বেড়ানো পাইলট ও এয়ারহস্টেসদের উপরে।

জানা গিয়েছে, দুর্ঘটনার কয়েক ঘণ্টা পরে, ১২ জুনই নাইট শিফটে এয়ার ইন্ডিয়ার ২২১ জন কেবিন ক্রু ‘সিক রিপোর্ট’ করেছিলেন বা অসুস্থতার কথা জানিয়েছিলেন। সে দিন দুপুরে ভয়াবহ দুর্ঘটনার পরে যে পাহাড়-প্রমাণ মানসিক চাপ তৈরি হয়েছিল, তা নিয়ে তাঁরা ফ্লাই করতে চাননি।

এক এয়ারহস্টেসের কথায়, ‘সে দিন যে ১০ জন মারা গিয়েছিলেন,

দুঃস্বপ্নই

তাঁদের কয়েকজনের সঙ্গে কখনও না কখনও উড়েছি। কোনও স্টেশনে গিয়ে তিন-চার দিন একসঙ্গে থেকেছি। কেউ বন্ধুর মতো, কেউ বড় দিদির মতো। স্বজন ছেড়ে বাইরে গিয়ে পরিবারের মতো থাকি আমরা। সেই স্বজনহারার শোক তো আমাদেরও ঘিরে ধরেছে।'

১৩ জুন, ভোট ৬টায় এয়ার ইন্ডিয়ার দিল্লি-ফ্রাঙ্কফুর্ট ফ্লাইটের দরজা বন্ধ হয়ে যায়। এয়ারব্রিজটিকে টো-বার দিয়ে পিছনে টেনে আনার পরে ট্যাক্সি করার মুহূর্তে কম্যান্ডার পাইলট সিক রিপোর্ট করেন। ফ্লাইটটি ফিরে আসে। কাকতালীয় নাকি দুর্ঘটনার এফেক্ট! পরের দিন ১৪ জুন রাতে, মুম্বই-গোয়া ফ্লাইটের পাইলটও জানান, টেক-অফ করার মতো মানসিক অবস্থায় নেই তিনি।

এক সিনিয়র পাইলট বলছেন, 'আমরা চেক-লিস্ট মেনেই জীবন যাপন করি। অনেক রেস্ট্রিকশন। আমরা প্রফেশনাল। ঘটনার পরে ককপিটে গিয়ে যখন বসেছি, বা এখনও যে বসছি, চোখের সামনে এক ঝলক উঁকি দিয়ে যাচ্ছে ধ্বংসস্তূপের ছবি। কিন্তু, পরমুহূর্তেই কনসেনট্রেট করছি চেক-লিস্টে। আরও সতর্ক হয়ে খুঁটিয়ে দেখে নিচ্ছি সবকিছু। কিছু ভাবার অবকাশ নেই। এতগুলো মানুষের জীবন আমাদের হাতে। শুধু অবসরে, একা থাকার সময়ে একটা ক্লান্তি এসে গ্রাস করছে।'

পাইলটদের কথায়, তাঁদের থেকেও ১২ জুনের ঘটনা বেশি দাগ কেটে গিয়েছে কেবিন ক্রু-দের উপরে। কাজ করছে একটা ইনসিকিউরিটিও। এক এয়ারহস্টেসের কথায়, 'প্রতিটি টেক-অফের পরে ১০ হাজার ফুট পর্যন্ত আমরাও সিট বেল্ট পরে বসে নিজেদের মধ্যে নানা কথা বলি। ১২ জুনই ইভনিং ফ্লাইট ছিল। সিট-বেল্ট পরে আমরা চুপ করে বসেছিলাম। কেউ একটাও কথা বলিনি। দেখলাম, সামনে বসা প্যাসেঞ্জাররা আমাদের মুখের দিকে একদৃষ্টে তাকিয়ে আছেন। সে দিনের সেই দৃষ্টি কখনই ভুলব না। এতটা অসহায়তা কখনও প্যাসেঞ্জারদের চোখে দেখিনি।'

কোথাও যেন তাঁদের আত্মবিশ্বাসে ভয়ঙ্কর আঘাত লেগে গিয়েছে — মেনে নিচ্ছেন বেশিরভাগ পাইলটই। বার বার বলছেন, যে এয়ারব্রিজটিকে অজেয় বলা হতো, সেই ড্রিমলাইনারের এ ভাবে ভেঙে পড়া মেনে নিতে পারছেন না তাঁরা। প্রথম দু'দিন ড্রিমলাইনারের প্রায় কোনও পাইলটই ঘুমোননি। নিজেদের মধ্যে চ্যাট করেছেন। কোথাও একটা সেন্স অফ হেল্পলেসনেস কাজ করছে।

এক এয়ারহস্টেস বলছেন, 'ঘটনার দিন আমি হোটেলে ছিলাম। ফ্লাইটের প্রিপারেশন নিচ্ছিলাম। ঘরের টিভি খোলা ছিল। আচমকা ব্রেকিং নিউজ় দেখে হাত-পা অবশ হয়ে যায়। হোটেলের বয় ঘরে ঢুকে আমাকে ওই অবস্থায় দেখে বলেন, ম্যাম প্লিজ় হ্যাভ সাম ফুড। খেতে পারিনি। আমরা প্রশিক্ষিত। ইমার্জেন্সিতে কোথাও ল্যান্ড করলে, ডোর ওপেন থেকে প্যাসেঞ্জারকে ইভ্যাকুয়েট করা — সবটাই শিখেছি। কিন্তু, সে সুযোগ পেলে তো! সে দিন তো আমাদের দিদি-বোন-বন্ধুরা সেই সুযোগটাও পেল না। আমাদের ট্রেনিংয়ে শেখানো হয়, প্রতিটি টেক-অফ আর ল্যান্ডিং — তোমার নবজন্ম। সে দিনও তো এমনই কোনও নবজন্ম হতে পারত।'

আস্তে আস্তে পরিস্থিতি স্বাভাবিকও হচ্ছে। এক পাইলটের কথায়, 'মানুষ এখন খুব তাড়াতাড়ি সব কিছু ভুলে যেতে শিখেছে। মনে আছে প্রায় ২০ বছর আগে পাটনা এয়ার ক্র্যাশের পরে বেশ কিছুদিন ওই রুটে আমরা প্যাসেঞ্জারই পাইনি। খোঁজ নিয়ে দেখুন, এখন আমেদাবাদ-গ্যাটউইক রুটের ফ্লাইটও ফুল যাচ্ছে।'

Simulation of AI flight that crashed puts focus on double-engine failure

Simulation of AI flight that crashed puts focus on double-engine failure

Twenty days after the crash of an Air India plane in Ahmedabad that killed all but one of the 242 people on board, investigators and the airline are studying possible dual engine failure as a scenario that prevented the Boeing 787 jet from staying airborne.

Pilots from the airline re-enacted the aircraft's parameters in a flight simulator, including with the landing gear deployed and the wing flaps retracted, and found those settings alone didn't cause a crash, according to people familiar with the probe.

The result, alongside the previous discovery that an emergency-power turbine deployed seconds before impact, has reinforced the focus on a technical failure as one possible cause.

The simulated flight was conducted separately from the official probe being led by Aircraft Accident Investigation Bureau (AAIB).

The plane was powered by two engines made by General Electric Co. Video footage of the aircraft showed the plane struggling to gain altitude after taking off, and then sinking back to the ground, where it exploded.

Boeing declined to comment and deferred any questions to AAIB, while GE said it cannot comment on an active investigation. AAIB and Air India did not respond to a request for comment. BLOOMBERG

Gap of only 15 seconds between distress call & AI flight impact

▶ Continued from P 1

Whether or why both engines would have simultaneously lost power remains unknown, but investigators will seek additional clues from the two flight recorders, whose data has been extracted and is undergoing analysis.

The investigation is exploring a wide range of scenarios, though a closer focus is on technical issues, the people said.

Pilots who reviewed the footage have pointed to the fact that the landing gear was already partially tilted forward, suggesting the cockpit crew had initiated the retraction sequence of the wheels.

At the same time, the landing-gear doors had not opened, which pilots say might mean that the aircraft experienced a loss of power or a hydraulic failure — again pointing to possible issues with the engines that provide the aircraft's electricity.

CRASH SIMULATION

The engines of modern aircraft are computer controlled using a system called Full Authority Digital Engine Control (FADEC) which helps pilots control an aircraft's power and makes sure the engines are used efficiently and not outside their operating limits. An emergency turbine called the RAT, which deploys from the back of the aircraft in the case of electrical failure, was activated before the plane crashed, as per previous findings. That fan helps provide the aircraft with vital power, though it's far too small to generate any lift.

Analysis of the wreckage suggests the wing flaps and slats, which help an aircraft increase lift during takeoff, were extended correctly.

The pilots, who died in the crash, sent out a Mayday signal shortly after takeoff. There were only about 15 seconds between the distress call and impact, two people familiar with the probe said.

नवी मुंबई इंटरनेशनल एयरपोर्ट पीएम मोदी के जन्मदिन पर शुरू करने की योजना

नवी मुंबई, 1 जुलाई (वि.प्र.)

नवी मुंबई से उड़ान भरने वाली उड़ानों के लिए अनुमानित लॉन्च तिथि सितंबर के लिए निर्धारित की गई है. हवाई अड्डे के निर्माण के लिए जिम्मेदार अदानी समूह ने राज्य की सार्वजनिक उपक्रम समिति को अनिवार्य रूप से सूचित कर दिया है. इसलिए, यह उल्लेख किया गया है कि अदानी समूह और राज्य सरकार 17 सितंबर को प्रधान मंत्री नरेंद्र मोदी के जन्मदिन के सम्मान में नवी मुंबई से उड़ानें शुरू करने की योजना बना रही है. कई रिपोर्टों के अनुसार सिडको और सरकारी अधिकारी 15 अगस्त को स्वतंत्रता दिवस के सम्मान में नवी मुंबई से उड़ानें शुरू करने के लिए सहयोग कर रहे थे.

नवी मुंबई हवाई अड्डा परियोजना की समीक्षा के लिए हवाई अड्डा स्थल पर राज्य विधायकों वाली सार्वजनिक उपक्रम समिति (पीयूसी) के समक्ष परियोजना प्रस्तुति में, नवी मुंबई से उड़ानें शुरू करने की समय-सीमा अब सितंबर के लिए निर्धारित की गई है. नवी मुंबई एयरपोर्ट टर्मिनल के निर्माण स्थल पर 13,000 से ज़्यादा कर्मचारी काम कर रहे हैं. नतीजतन, यह देखा गया है कि अडानी समूह और केंद्र सरकार ने सिर्फ़ घरेलू उड़ानें चलाने के बजाय अंतरराष्ट्रीय उड़ानें शुरू करने का विकल्प चुना.

■ अब 15 अगस्त की बजाय 17 सितम्बर को उद्घाटन

मुहूर्त से पहले मई और जून में नवी मुंबई से उड़ानें शुरू करने की योजना थी. फिर भी, टर्मिनल का काम अधूरा होने के कारण मुहूर्त 15 अगस्त के लिए निर्धारित किया गया. अडानी समूह ने सार्वजनिक उपक्रम समिति की समीक्षा बैठक में अधिसूचित किया कि टर्मिनल परियोजना को कम से कम 15 सितंबर तक पूरा करने की अनुमति दी जाएगी.

Adani Properties Gets NCLT Nod to Acquire HDIL's Two Assets

Kailash Babar & Maulik Vyas

Mumbai: The National Company Law Tribunal (NCLT) has approved Adani Properties' acquisition of two assets of defunct real estate developer Housing Development and Infrastructure Ltd (HDIL) through the corporate insolvency resolution process (CIRP).

The assets include a commercial property known as 'Inspire BKC' in Mumbai's business district Bandra-Kurla Complex and a land parcel in Kalyan Shahad on the outskirts of Mumbai.

Adani Properties was found to be the only bidder to make Insolvency and Bankruptcy Code (IBC)-compliant proposal for both the properties.

For the Inspire BKC commercial project, its resolution plan is valued at ₹3 crore. This includes ₹2.85 crore allocated to creditors and ₹15 lakh for CIRP costs. In the case of Shahad land parcel, the fair value and liquidation value were estimated at ₹89.66 crore and ₹62.76 crore, respectively.

According to industry experts, both these assets in central Mumbai and Kalyan together are estimated to be valued at over ₹2,000 crore.

The Mumbai bench of the NCLT approved the resolution plans for both projects under Section 31 of the IBC, 2016. The committee of creditors (CoC) had cleared both the plans with 66.08% voting share in 2022. The voting concluded in November 2022.

The Rakesh Wadhawan-promoted HDIL has been undergoing insolvency since 2019 with admitted liabilities of over ₹7,789 crore.

While its resolution professional had initially issued an expression of interest for a resolution of the entire company in February 2020, it did not receive any proposal.

As the company had several unfinished residential properties, the National Company Law Appellate Tribunal (NCLAT) allowed a project-wise resolution plan.

The CoC had initially rejected this proposal. However, following objections from homebuyers, the committee reversed its stance in September 2021 and authorised the RP to explore project-wise resolution.

HDIL was then divided into 10 verticals for streamlining the resolution process.

The current approvals to Adani Properties include verticals V and IX.

For Vertical V, the Inspire BKC commercial project, the plan proposes that Adani will not acquire HDIL as a going concern but will demerge the BKC project into itself or a subsidiary.

Adani has also agreed to continue the existing Slum Rehabilitation Authority (SRA) development agreement with Budhpur Buildcon.

Budhpur Buildcon, representing Adani's interest, now holds the Letter of Intent for the slum rehabilitation project that HDIL originally began in BKC, and is tasked with completing the rehabilitation under SRA oversight.

In the case of Vertical IX, the Shahad land parcel, Punjab and Maharashtra Cooperative Bank — now Unity Small Finance Bank — is the sole secured creditor holding mortgage rights.

The bank's objections to the valuation were dismissed by the tribunal in July 2024.

Both plans include performance guarantees of ₹5 crore each, as required under the CIRP regulations. ET's query to Adani Group remained unanswered until press time Tuesday.

Bangladesh Clears Adani Power's Dues

Settlement brings cross-border pact back on track; Dhaka gives sovereign guarantee to firm

Our Bureau

Mumbai: Adani Power has received a payment of $437 million from the Bangladesh government in June—the largest single-month disbursement to date—clearing all outstanding dues for power supplied from its 1,600 MW Godda plant in Jharkhand as of March 31, 2025, sources said. This payment caps off a series of $90-100 million monthly tranches received over the last few months to pay off the dues. With all pending payments—including carrying costs and late fees—settled, Adani Power's cross-border power agreement with Bangladesh is now financially and contractually back on track. The Power Purchase Agreement (PPA), which had come under scrutiny from Bangladesh authorities, has been given a clean chit sources said.

The Godda plant supplies around 10% of Bangladesh's electricity needs. As payment-related issues are now resolved, Bangladesh has asked Adani to operate both 800 MW units in line with the BPDB's power scheduling requirements.

This payment caps off a series of $90-100 million monthly tranches received over the last few months to pay off the dues

The company had reached an agreement with Bangladesh that if they paid off the previous fiscal dues by June 30, the late payment surcharge will be waived off.

Bangladesh is now making payments on time. To ensure this continues, it has put in place a Letter of Credit (LoC) equal to two months of bills of around $180 million and a sovereign guarantee for all dues.

In May, ET had reported that Bangladesh's dues to Adani stood at around $900 million. Adani Power CFO Dilip Jha had told analysts that the total billing to Bangladesh stood at $2 billion, of which $1.2 billion had been received by the end of FY25, with an additional $136 million billed as late payment surcharge.

Adani Power CEO S B Khyalia had then said the company has continued uninterrupted supply to Bangladesh and that current payments exceed monthly billing.

এবার বিদেশে আইনি জটে এয়ার ইন্ডিয়া!

নয়াদিল্লি: আমেদাবাদ কাণ্ডের জের। এবার বিদেশে বিপাকের মুখে এয়ার ইন্ডিয়া! সূত্রের খবর, বেশ কয়েকটি আন্তর্জাতিক ল'ফার্ম ইতিমধ্যেই দুর্ঘটনায় মৃতদের পরিবারের সঙ্গে যোগাযোগ করেছে। এর মধ্যে উল্লেখযোগ্য হল ব্রিটেনের কিস্টোন এবং আমেরিকার উইনসার ল'ফার্ম। শীঘ্রই তারা ভারতীয় বিমান সংস্থাটির বিরুদ্ধে মামলা দায়ের করতে পারে। এয়ার ইন্ডিয়া এবং বিমান নির্মাণকারী সংস্থা বোয়িং-এর বিরুদ্ধে মামলা করতে উদ্যত হয়েছেন বিমান দুর্ঘটনায় নিহত ব্রিটিশ নাগরিকদের পরিবার-পরিজনরাও। দুই সংস্থার কাছ থেকে মোটা টাকা ক্ষতিপূরণের দাবি জানাতে চলেছেন তাঁরা। অন্য দিকে, সব কিছু ঠিক থাকলে আগামী সপ্তাহেই সামনে আসতে পারে বিমান দুর্ঘটনার প্রাথমিক রিপোর্ট। জানা যাবে দুর্ঘটনার সম্ভাব্য কারণও।

সর্বভারতীয় সংবাদমাধ্যম সূত্রে খবর, দুর্ঘটনায় নিহতদের পরিবার-পরিজনদের সাহায্য করছে ব্রিটেনের 'কিস্টোন ল' নামক সংস্থা। এয়ার ইন্ডিয়া এবং বোয়িং, দুই সংস্থার বিরুদ্ধেই মামলা করার প্রস্তুতি চলছে। বাড়তি ক্ষতিপূরণ দাবি করা হবে দুই সংস্থার কাছ থেকে। কিস্টোনের তরফে জানানো হয়েছে, বেশ কিছু পরিবারের সঙ্গে কথা চলছে তাদের। শীঘ্রই আইনি পদক্ষেপ করা হবে। লন্ডনের আদালতে ইতিমধ্যেই এয়ার ইন্ডিয়ার বিরুদ্ধে মামলা দায়ের হয়েছে। এবার ক্ষতিগ্রস্ত পরিবারগুলি আইনি পদক্ষেপের পথে এগোচ্ছে। কিস্টোন জানিয়েছে, মন্ট্রিল কনভেনশন-এর মতো আন্তর্জাতিক চুক্তির আওতায় বিমান দুর্ঘটনায় ক্ষতিগ্রস্ত পরিবারগুলি ব্রিটেন, আমেরিকার মতো দেশে মামলা দায়ের করতে পারে। এই আইন অনুসারে, যাত্রীর মৃত্যু এবং আঘাতের জন্য পুরোপুরি দায়ী করা যেতে পারে সংশ্লিষ্ট বিমান সংস্থাকে। এ ক্ষেত্রে ক্ষতিপূরণের নির্দিষ্ট অঙ্কও বেঁধে দেওয়া নেই। ফলে পরিবারগুলি নিজেদের দাবি-দাওয়া জানাতে পারে নির্দ্বিধায়।

কিস্টোন ল'ফার্মের এক অংশীদার জেমস হিলি প্র্যাট বলেন, "আমেদাবাদ বিমান দুর্ঘটনায় ব্রিটেনের যে নাগরিকদের মৃত্যু হয়েছে, তাঁদের পরিবারের সঙ্গে আমাদের কথা হয়েছে। বর্তমানে আমরা সমস্ত নথি এবং এখনও পর্যন্ত যে তথ্যগুলি প্রকাশ্যে এসেছে, সেগুলি খতিয়ে দেখছি। এয়ার ইন্ডিয়ার পাশাপাশি আমরা বোয়িং-এর বিরুদ্ধেও লন্ডন হাই কোর্টে মামলা দায়েরের কথা ভাবছি।"

नवी मुंबई इंटरनेशनल एयरपोर्ट पीएम मोदी के जन्मदिन पर शुरू करने की योजना

नवी मुंबई, 1 जुलाई (वि.प्र.)

नवी मुंबई से उड़ान भरने वाली उड़ानों के लिए अनुमानित लॉन्च तिथि सितंबर के लिए निर्धारित की गई है. हवाई अड्डे के निर्माण के लिए जिम्मेदार अदानी समूह ने राज्य की सार्वजनिक उपक्रम समिति को अनिवार्य रूप से सूचित कर दिया है. इसलिए, यह उल्लेख किया गया है कि अदानी समूह और राज्य सरकार 17 सितंबर को प्रधान मंत्री नरेंद्र मोदी के जन्मदिन के सम्मान में नवी मुंबई से उड़ानें शुरू करने की योजना बना रही है. कई रिपोर्टों के अनुसार सिडको और सरकारी अधिकारी 15 अगस्त को स्वतंत्रता दिवस के सम्मान में नवी मुंबई से उड़ानें शुरू करने के लिए सहयोग कर रहे थे.

नवी मुंबई हवाई अड्डा परियोजना की समीक्षा के लिए हवाई अड्डा स्थल पर राज्य विधायकों वाली सार्वजनिक उपक्रम समिति (पीयूसी) के समक्ष परियोजना प्रस्तुति में, नवी मुंबई से उड़ानें शुरू करने की समय-सीमा अब सितंबर के लिए निर्धारित की गई है. नवी मुंबई एयरपोर्ट टर्मिनल के निर्माण स्थल पर 13,000 से ज़्यादा कर्मचारी काम कर रहे हैं. नतीजतन, यह देखा गया है कि अडानी समूह और केंद्र सरकार ने सिर्फ़ घरेलू उड़ानें चलाने के बजाय अंतरराष्ट्रीय उड़ानें शुरू करने का विकल्प चुना.

- अब 15 अगस्त की बजाय 17 सितम्बर को उद्घाटन

मुहूर्त से पहले मई और जून में नवी मुंबई से उड़ानें शुरू करने की योजना थी. फिर भी, टर्मिनल का काम अधूरा होने के कारण मुहूर्त 15 अगस्त के लिए निर्धारित किया गया. अडानी समूह ने सार्वजनिक उपक्रम समिति की समीक्षा बैठक में अधिसूचित किया कि टर्मिनल परियोजना को कम से कम 15 सितंबर तक पूरा करने की अनुमति दी जाएगी.

दादरमधील निशित गांधी यांनी ३५ वर्षांपूर्वी विमान अपघातात पत्नीला गमावले होते

- **मूळ कच्छमधील असलेल्या या कुटुंबाची अहमदाबाद विमान अपघातानंतर झोप उडाली**

मुंबई, १ जुलै (आ.प्र.) :

अहमदाबादमध्ये झालेल्या विमान अपघातानंतर मुंबईत दादर येथे राहणारे आणि मूळ कच्छचे रहिवासी असलेल्या गांधी कुटुंबाची पुन्हा एकदा एका दुर्दैवी घटनेच्या आठवणीने झोप उडाली.

विमान अपघातात त्यांनी ३५ वर्षांपूर्वी त्यांच्या पत्नीला गमावले आहे, या अपघातात ते स्वतः मात्र पूर्णपणे वाचले आहेत. लग्नानंतर ते हनिमूनसाठी निघाले होते; पण दुर्दैवाने एक आठवड्यातच त्यांची पत्नीबरोबरची साथ कायमची सुटली. अहमदाबाद येथे नुकत्याच झालेल्या विमान अपघातानंतर त्यांच्या या दुःखद घटनेच्या आठवणी पुन्हा ताज्या झाल्या आहेत. त्या वेळी झालेल्या अपघाताच्या करुण दृश्यांनी त्यांच्या स्मृती सजीव झाल्या.

दादरच्या (पश्चिम) पोलीस चौकीजवळ राहणाऱ्या मूळ कच्छमधील असलेल्या ५९ वर्षीय निशित शांतिलाल गांधी यांनी अहमदाबाद विमान अपघातानंतर त्यांच्या वेदना व्यक्त करताना सांगितले की, १९९० मध्ये २ फेब्रुवारीला त्यांचे लग्न हिनाबरोबर झाले होते. हनिमूनसाठी बंगळुरूला जाण्याचे त्यांनी नक्की केले होते. ट्रेनचे तिकीट न मिळाल्याने त्यांनी विमानाचे तिकीट बुक केले होते. आयुष्यात पहिल्यांदाच विमानाने प्रवास ते करणार होते.

१४ फेब्रुवारीला 'व्हॅलेंटाईन डे'च्या दिवशी मुंबईहून नियोजित वेळी २३०-एअर बस १३० प्रवाशांना घेऊन बंगळुरूकडे रवाना झाले होते. बंगळुरू एअरपोर्टवर विमानाच्या पायलटने लँडिंग सुरू केले; परंतु पायलटद्वारा काही चूक झाली आणि विमान 'रन-वे'सोडून एअरपोर्टच्या मोठ्या भिंतीवर जाऊन आदळले. या अपघातात १३० प्रवाशांमधून १५ लोक वाचले होते, मात्र ते देखील गंभीर जखमी झाले होते.

लग्नानंतर बंगळुरूला हनिमूनसाठी निघाले होते : विमान भिंतीवर आदळल्याने अपघात झाला होता : निशित गांधींना किरकोळ जखमही नाही : पत्नी हिनाचा जळून मृत्यू

या विमान दुर्घटनेत केवळ दोनच लोक खऱ्या अर्थाने वाचले होते आणि त्यांना किरकोळ जखमही झाली नव्हती. यामध्ये स्वतः निशित गांधी आणि एका एअर होस्टेसचा समावेश होता. त्यांनी सीट बेल्ट बांधलेला नव्हता, त्यामुळे ते मागील सीटवर उडाले होते.

या वेळी त्यांच्या एका एअर होस्टेसने ज्यांना वाचवता येणे शक्य होते त्यांना वाचवण्याचा प्रयत्न केला आणि विमानाच्या सुमारे २० फूट उंचावरून तिने गांधी यांना धक्का मारून बाहेर फेकले आणि स्वतः देखील उडी मारली. यावेळी ते दोघे खाली गवतावर पडल्याने त्यांना दुखापत झाली नाही.

मात्र, पत्नी हिनाला ते वाचवू शकले नाहीत. हिनाचा मृतदेह संपूर्ण जळाला होता. दुसऱ्या दिवशी मृतदेहावरील दागिन्यांवरून तिची ओळख पटली. अहमदाबाद दुर्घटनेनंतर या स्मृती पुन्हा ताज्या झाल्या. त्या वेळी झालेला विमान अपघात त्यांच्या डोळ्यांसमोर झाला असल्याने पुन्हा एकदा त्या आठवणींनी त्यांची झोप उडाली आहे.
