Adani Green Refinances \$1B **Loan for Hybrid Project in R'sthan**

Our Bureau

Mumbai: Renewable energy player Adani Green Energy (AGEL) said Monday it refinanced a \$1.06-billion maiden construction facility with long-term financing for its solar-wind hybrid renewable cluster in Rajasthan.

'AGEL has successfully refinanced its maiden construction facility with an outstanding of \$1.06 billion taken in 2021 to develop India's largest solar-wind hybrid renewable cluster in Rajasthan," AGEL said.

According to industry sources, Power Finance Corporation has refinanced the loan for a tenure of 19 years. AGEL did not respond to a mailed query

In the statement, AGEL said the long-term financing raised to refinance its construction facility has a door-to-door tenor of 19 years, with a fully amortized debt structure emula-

ting the underlying asset life.

PSU Power Finance Corp refinanced the loan for a tenure of 19 years, according to industry

"The door-to-door maturity of the new onshore facility is 19 year with the weighted-average life could be indicated at 10.5 year, in our view," said Nomura in a note to investors, adding that the funding cost co-

uld be estimated at 9.2% in Rupee terms (with a potential 25bp coupon step-down when obtaining onshore issue rating).

AGEL currently has an operating re-newable portfolio of 12.2 GW, the largest in India, spread across 12 states. The company has set a target of achieving 50 GW by 2030.

Last week the company said it has surpassed a record 12,000 megawatts (MW) of operational portfolio.

AGEL is the first and only renewable energy company in India to reach this landmark. AGEL's 12,258.1 MW port-folio consists of 8,347.5 MW solar, 1,651 MW wind and 2,259.6 MW wind-solar hybrid capacity

"With this breakthrough, AGEL has completed its capital management program for the underlying asset portfolio, which involves securing long-term facilities that are perfectly aligned with the cash flow lifecycle of that portfolio," AGEL added in the press statement.

The refinancing facility has received an AA+/Stable rating from three domestic rating agencies: ICRA, India Ratings, and CareEdge Ratings.

SECURES REFINANCING FOR 2021 CONSTRUCTION LOAN

Adani Green Energy raises \$1.06 bn for debt refinance

FE BUREAU Mumbai, March 3

ADANI GREEN ENERGY (AGEL) on Monday said it has refinanced its maiden construction facility, with outstanding of \$1.06 billion taken in 2021, to develop a solar-wind hybrid renewable cluster in Rajasthan.

The long-term financing has door-to-door tenure of 19 years with fully amortised debt structure emulating the underlying asset life, the company said.

With this, AGEL has completed its capital management programme for the underlying asset portfolio, which involves securing longterm facilities that are perfectly aligned with the cash

flow lifecycle of that portfolio.

The framework of this programme provides significant benefits through deep access to diverse pools of capital, securing large sums with long duration, the company said.

"This approach not only

enhances financial stability, but also ensures AGEL's ability to continue its growth trajectory and deliver sustainable value creation to its stakeholders," the company said.

The refinancing facility has received a rating of

AA+/Stable from three domestic rating firms — India Ratings and CareEdge Ratings (Icra).

Last week, AGEL said it has surpassed a record 12,000 megawatt (MW) of operational portfolio, the first and only renewable energy company in the country to achieve the feat.

AGEL's 12,258.1-MW portfolio consists of 8,347.5 MW solar, 1,651 MW wind and 2,259.6 MW wind-solar hybrid capacity.

The milestone underscores AGEL's commitment to deliver 50,000 MW of green power by 2030, the company said.

Shares of Adani Green on Monday closed up 3.93% at ₹804.50 on the BSE.

Adani Green refinances \$1.06-b construction unit

Our Bureau

Mumbai

Adani Green Energy Ltd (AGEL) announced that it has refinanced its \$1.06 billion maiden construction facility with long-term financing.

The facility, originally secured in 2021, was used to develop India's largest solarwind hybrid renewable cluster in Rajasthan.

DEBT STRUCTURE

The refinancing arrangement features a 19-year door-to-door tenor with a fully amortised debt structure designed to match the underlying asset life cycle.

Three domestic rating agencies — ICRA, India Ratings and CareEdge Ratings — have assigned an AA+/ Stable rating to the facility.

This refinancing completes AGEL's capital management programme for the underlying asset portfolio, which aims to secure longterm facilities aligned with the portfolio's cash flow lifecycle.
