Adani Group Buys Land Parcel in South Mumbai for ₹170 cr

FREEHOLD PLOT Buyer pays over ₹10.4 crore in stamp duty for property in Malabar Hill

Kailash Babar

Mumbai: Adani Group has acquired a more than 1.1-acre prime land parcel in South Mumbai's Carmichael Road area for over ₹170 crore.

The land parcel is in the Malabar Hill locality, and is among the few large freehold plots available in the sought-after neighbourhood. It has an old cottage spread over 2,760 sq ft.

The acquisition has been executed through Adani Group subsidiary, Mah-Hill Properties, showed documents accessed through CRE Matrix.

The buyer has paid over ₹10.46 crore towards stamp duty alone for the registration of the transaction that took place on March 27, according to the documents.

ET could not ascertain whether the plot will be developed into a high-rise structure or a bungalow. The property was earlier embroiled in legal disputes, which were resolved through consent terms submitted to and accepted by the court, clearing the way for the transaction.

ET's email query to Adani Group remained unanswered.

South Mumbai's Carmichael Road in Malabar Hill is home to some of the country's most influential industrialists and corporate leaders.

This real estate micro-market commands among the highest prices in India, driven by the limited supply of properties, breathtaking views of the Arabian Sea, and proximity to financial hubs.

Delhi airport to begin trials of full-body scanners next month

DEEPAK PATEL
New Delhi, 4 April

Delhi airport will begin trials of advanced full-body scanners in May for quicker movement of passengers at the security screening stage, Delhi International Airport Limited (DIAL) said on Friday. The airport operator said scanners will generate a standardised 2D image on a preset human avatar so that no personal images are stored in the system.

All scanned data will be securely stored with access restricted to authorised agencies, it noted.

Four scanners have been procured, with two installed at Terminal 1 and the remaining two at Terminal 3.

Already deployed at major airports in the US, Canada, and Australia, this technology allows rapid screening, with each scan taking only three seconds. The system is capable of handling up to 1,200 scans per hour.

The IT interface for these machines is being finalised. Once the trial period is complete, a committee led by the Bureau of Civil Aviation Security (BCAS) will analyse the results and establish standard operating procedures for full-scale implementation, DIAL said.

Following BCAS's latest directives, the trials will begin next month. The advanced scanners can detect both metallic and non-metallic threats, including explosives, providing a significant upgrade over conventional metal detectors.

DIAL said the scanners come equipped with four touch-screen monitors for real-time image analysis and passenger instructions. They are designed to accommodate individuals ranging from 3.3 feet to 6.7 feet in height.

AWL AGRI BUSINESS, formerly Adani Wilmar, recorded a 7% year-on-year volume growth in the fourth quarter (Q4) of fiscal 2025, it said in a business update on Friday.

The company saw a 36% year-on-year revenue growth, with stronger performance in rural towns compared to urban markets.

This growth, particularly in the foods category, was driven by expanded reach and increased market penetration.

For the entire fiscal year, the company reported strong volume growth of 10% year-on-year (y-o-y), with edible oils contributing a 10% y-o-y increase and the food & FMCG sectors achieving a robust 28% growth.

The company saw a total revenue of about ₹62,000 crore at the end of FY25, resulting in a 26% y-o-y growth. Revenue from alternate channels such as modern trade, e-commerce, quick commerce, and e-business-to-business crossed ₹3,600 crore in fiscal 2025, it said.

The company's quick commerce sales volume saw notable growth of more than 100% y-o-y in the fourth quarter, which made the firm declare it as the best quarter in two years. "This growth reflects our strategic focus on operational improvements—particularly in product assortment, availability, and promotions and advertisements—allowing us to tap into the rapidly expanding quick commerce channel," the firm said.

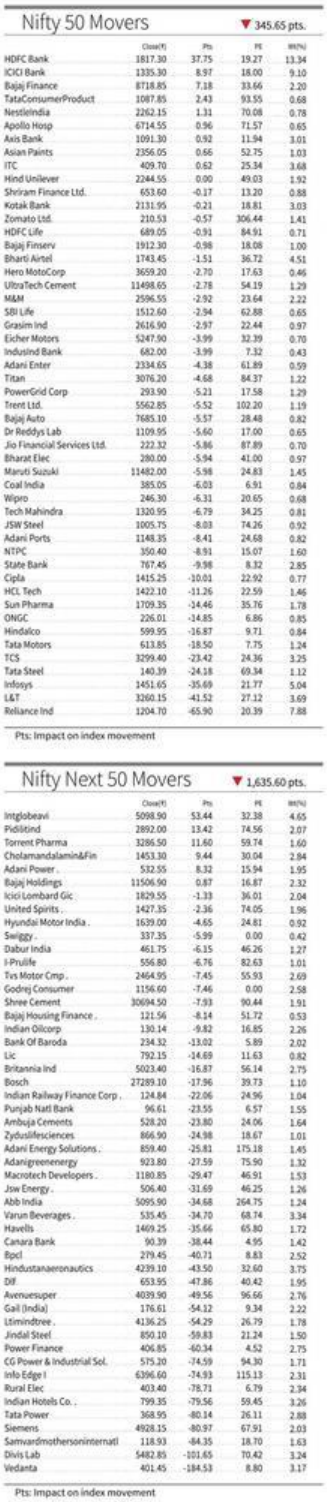

The company also said it met its objective of extending its reach to 50,000 rural towns through the addition of distributors, sub-distributors, and an expanded rural sales force.

US tariffs may offer some competitive edge to Indian solar equipment makers over China, Vietnam

US tariffs may offer some competitive edge to Indian solar equipment makers over China, Vietnam

Rishi Ranjan Kala
New Delhi

Tariffs imposed by the US are expected to offer a slight edge to certain Indian solar equipment manufacturers over their peers in China and Vietnam as imports from the former face lower tariff barriers.

However, India solar equipment manufacturers and project developers are likely to feel the pinch of higher tariffs as certain machinery and components, advanced turbines or solar panel technology are imported from the US.

Industry feels that tariffs could help push up Indian module exports to the US to some extent.

Globally, China dominates the module market with 65 per cent share followed by Vietnam (21 per cent).

The US imposed 26 per cent tariffs on Indian exports, 46 per cent on Vietnam and a cumulative 54 per cent on China.

SLIGHT EXPORT EDGE

Sambitosh Mohapatra, Leader for ESG/ Climate & Energy at PwC India, said, "The tariffs hit competitors like China and Vietnam harder, potentially diverting US demand for energy-related goods elsewhere. India could benefit if it ramps up exports of exempted energy products or related manufacturing (e.g., solar panels), but its current capacity is geared more domestically or toward other markets."

On costlier imports, he explained that India's energy sector, particularly renewables such as solar and wind, relies on imported machinery and components, some from the US (e.g., advanced turbines or solar panel technology).

"While energy commodities are exempt, tariffs on machinery (with a 5.3 per cent tariff gap as per GTRI) or electronics (7.2 per cent gap) could increase costs for Indian firms if US-sourced equipment falls under the 27 per cent levy. This might raise capital expenses for projects, though the US isn't a dominant supplier here — China and Europe often lead," Mohapatra pointed out.

Ankit Hakhu, Director at Crisil Ratings, said: "The US will likely continue to rely on imports, particularly for solar cells, due to its limited domestic capacity and preference for Indian manufacturers over Chinese and South-East Asian suppliers," he added.

Tariffs could impact margins of manufacturers as 20-25 per cent of domestic production is exported – most of it to the US – where sales are more profitable, he anticipated.

"However, growing domestic demand will absorb some of the likely reduction in export volume.

"Domestic market is also protected by tariffs (basic customs duty: 20 per cent) and non-tariff barriers (Approved List of Models and Manufacturers since April 2024 and Approved List of Cell Manufacturers from June 2026)," Hakhu pointed out.

IMPORT DEPENDENCE

However, India's dependence on Chinese imports is a concern.

Rubix Data Sciences, a risk management services provider, in a March 2025 report said the US accounts for over 90 per cent of India's PV cell and module exports, yet India represents only 11 per cent of total US panel imports (as of Q2 2024), indicating tremendous potential.

However, India remains dependent on China for over 50 per cent of its solar PV cell and module components, particularly polysilicon and wafers.

If China redirects its excess supply to India at lower prices to compensate for US losses, domestic manufacturers may struggle with margin pressures and price competition, it added.

Rubix report said that until FY24, Waaree Energies, Adani Solar and Vikram Solar were major players in India's PV exports.

Other manufacturers such as Grew Energy, Navitas, Solex Energy, and Saatvik Energy are also expanding into global markets and establishing supply chains overseas.

Waaree Energies CEO Amit Paithankar said tariff imposition offers an opportunity to reassess and strengthen the RE supply chain, without impacting industry's strong long-term growth trajectory.

POLICY SHIFTS

"At Waaree, we have proactively anticipated potential policy shifts and have built a resilient supply chain to navigate such geopolitical uncertainties.

"Our diversified manufacturing presence, including Waaree Solar Americas, ensures that we remain agile in serving the US market while upholding our global commitments," he added.

Cabinet clears railway projects worth over ₹18,000 crore across three States

PM GATI SHAKTI. Lines will enhance carrying capacity of coal, iron ore, steel, cement and agricultural goods

New Delhi

Four multitracking projects for the Railways, with a combined investment of ₹18,658 crore, have been cleared by the Cabinet. Spanning Odisha, Maharashtra and Chhattisgarh, these projects will add 1,247 track kilometres (680 route km) to the railway network and are set to be completed by 2030-31.

According to Minister of Railways Ashwini Vaishnaw, these projects are expected to help the railways push up its share in the cargo logistics business.

The current share of the railways in transport logistics and cargo movement is around 29 per cent.

"We are on course to bring the share of railways up to 35 per cent. From 26 per cent share in cargo movement, continuous investment has seen the railways move up its share to 29 per cent. More concerted investments are being made now with dedicated freight corridor type projects," he said.

GREEN GOALS. The projects align with India's sustainability goals and will slash oil imports by 95 crore litres. BISWARANJAN ROUT

The approved projects include Sambalpur-Jarapada third and fourth line, Jharsuguda-Sason third and fourth line in Odisha at an outlay of ₹3,917 crore and ₹1,181 crore respectively; Kharsia-Naya Raipur-Parmalkasa fifth and sixth-line covering Chhattisgarh at ₹8,741 crore, and Gondia-Balharshah doubling in Maharashtra at ₹4,819 crore. These routes, critical for transporting coal, iron ore, steel, cement, and agricultural goods, will boost capacity handling by an additional 88.77 million tonnes of freight per year. This is expected to ease congestion, enhance service reliability, and streamline supply chains, fuelling economic growth across 15 districts in the three States.

ECONOMIC BOOST

The projects also align with India's sustainability goals. By shifting more freight to rail, the initiative will cut oil imports by 95 crore litres and reduce CO_2 emissions by 477 crore kg, equivalent to planting 19 crore trees.

Construction works will generate around 379 lakh jobs, with new industrial opportunities such as cement plants in Baloda Bazar also expected to emerge.

Connectivity will also improve, with 19 new stations linking 3,350 villages and 47.25 lakh people, including aspirational districts like Gadchiroli and Rajnandgaon.

The projects fall under the PM-Gati Shakti National Master Plan. "Indian Railways is now the second-largest cargo carrier in the world with 1,617 mtcarried in FY25," Vaishnaw said, adding that "new projects, once commissioned, will lead to quantum jump in cargo." These new rail lines —especially in Odisha — will also improve port connectivity in Paradip, Dhamra and Gopalpur.

EQUITY benchmarks Sensex on Friday slumped over 900 points to crash below the 76,000 level due to an across-the-board sell-off, tracking weak global markets amid growing global trade war fears. Besides, heavy selling in market heavyweights Reliance Industries, L&T and Infosys and a sharp correction in global crude prices, indicating recessionary fears, added to the gloom, analysts said.

The 30-share BSE Sensex tumbled 930.67 points or 1.22 per cent to settle at 75,364.69. During the day, it plummeted 1,054.81 points or 1.38 per cent to hit an intraday low of 75,240.55. The broader NSE Nifty declined 345.65 points or 1.49 per cent to close at 22,904.45. In the session, the 50-share benchmark gauge 382.2 points or 1.64 per cent to 22,867.90. The market capitalisation (mcap) of BSE-listed firms slumped by Rs9,98,379.46 crore to Rs4,03,34,886.46 crore ($4.73 trn).

"The recent implementation of higher-than-anticipated US tariffs has had a significant impact on global markets, triggering a bearish trend as investors assess the broader implications. The likelihood of retaliatory measures against the US has further heightened uncertainty. US bond yields and oil prices are trending downward, reflecting concerns over potential economic slowdown and increased recessionary risks," said Vinod Nair, Head (Research), Geojit Investments.

Investors fear Trump's reciprocal tariff policy will fuel recession and drive inflation in the US going ahead and engulf other key economies. A sharp fall in metal and oil stocks is indicating that demand could be hit amid slowdown fears

As much as 2,820 stocks declined, 1,126 advanced and 130 remained unchanged on the BSE. During the week, the BSE Sensex tanked 2,050.23 points or 2.64 per cent, while the NSE Nifty declined 614.8 points or 2.61 per cent.

"The sharp fall in global markets - particularly in the US - and fresh concerns over potential tariffs on pharma impacted sentiment negatively. However, sustained strength in banking and financial stocks helped limit the overall downside to some extent. Looking ahead, we anticipate a time-wise correction in the Nifty index," said Ajit Mishra, Sr V-P (Research), Religare Broking Ltd.

In broader markets, the BSE midcap gauge plunged 3.08 per cent, while smallcap index declined 3.43 per cent.

"Markets slumped in sync with the crash in global equities with sectors crashing over 2-6 per cent on broad-based selling. Investors fear Trump's reciprocal tariff policy will fuel recession, drive inflation in the US going ahead and engulf other key economies. A sharp fall in metal and oil stocks is indicating that demand could be hit amid slowdown fears," Prashanth Tapse, Senior V-P (Research), Mehta Equities Ltd.

All the sectoral indices ended in negative territory. Metal declined 6.34 per cent, followed by capital goods (3.99 per cent), Oil & Gas, Commodities, and Industrials (3.89 per cent each), Energy (3.65 per cent), realty (3.61 per cent), and IT (3.55 per cent). Tata Steel was the biggest loser in the Sensex pack, sliding 8.59 per cent, followed by Tata Motors, Larsen & Toubro, Adani Ports, IndusInd Bank, Tech Mahindra, Reliance Industries, Sun Pharmaceutical, HCL Technologies, Tata Consultancy Services, Infosys, and NTPC, were the major laggards.

वैश्विक प्रतिस्पर्धा के लिए बड़े कॉरपोरेट चाहिए

लेख 'उद्यमों को मिले नीतिगत समर्थन' दो महत्त्वपूर्ण बिंदुओं पर गंभीर चर्चा करता है। पहला यह कि देश के सकल घरेलू उत्पाद में एम-एसएमई सेक्टर की भागीदारी 30 प्रतिशत पहुंच गई जो बहुत उत्साहवर्धक है और इस सेक्टर में मेक इन इंडिया और मेड इन इंडिया के प्रोत्साहन के कारण इस क्षेत्र के भागीदारी आगे भी बढ़ेगी तथा इसके साथ रोजगार सृजन, स्वावलंबी उद्योगों का विकास एवं विस्तार तथा राजस्व संग्रहण भी बढ़ेगा। सरकार एवं उद्यमियों के संयुक्त प्रयासों से पिछले दशक से निरंतर एमएसएमई क्षेत्र में उत्तरोत्तर वृद्धि हो रही है। वैश्विक परिप्रेक्ष्य में दूसरा महत्त्वपूर्ण पक्ष भी चिंता के रूप में रखा गया है कि नियामकीय बाधाओं के कारण हमारी कंपनियां अपना आकार बढ़ाने में सफल नहीं हुई हैं। इस कारण से हमारे देश में ट्रेडिंग को ही सरल व्यापार के रूप में स्थापित कर रखा है और विनिर्माण का उद्योग प्रारंभ करना

सरकार एवं उद्यमियों के संयुक्त प्रयासों से पिछले दशक से एमएसएमई क्षेत्र में निरंतर वृद्धि हो रही है

टेढ़ी खीर समझा जाता है। छोटे उपक्रम और कंपनियां अपर्याप्त पूंजी, इन्फ्रास्ट्रक्चर के कारण ट्रेडिंग को ही वरीयता देने को विवश हैं भले ही वह आयातित माल बेचने को ही अपना अच्छे लाभ का स्रोत समझते हों। आज चीन इसलिए अपने निर्यात में विश्व में अग्रणी है क्योंकि उसके उद्योगों का आकार विशाल है। अपने देश में अदाणी, रिलायंस, टाटा, किर्लोस्कर, विप्रो, टीसीएस, इन्फोसिस, महिंद्रा, ओएनजीसी जैसे विशालकाय कॉर्पोरेट को छोड़ दें तो हमारे देश का निर्यात छोटे उपक्रमों से छोटे स्तर पर ही किया जा सकता है। सरकार को हमारे कॉरपोरेट को विस्तार के लिए भी नियामकीय प्रोत्साहन से अपने आकार बढ़ाने के लिए प्रयास किया जाना चाहिए।

जीएसटी में अभी भी है सुधार की गुंजाइश

हाल-फिलहाल, जीएसटी सरली-करण से काफी दूर है। प्राकृतिक गैस और पेट्रोलियम उत्पादों जैसी बहिष्कृत वस्तुओं को जीएसटी के दायरे में लाने के लिए एक रोडमैप की भी आवश्यकता है। छोटी फर्मों के लिए अनुपालन को आसान बनाने के साथ-साथ सभी व्यवसायों के लिए प्रणाली को सरल बनाने की गुंजाइश है जिसमें बड़े व्यवसाय भी शामिल हैं। वित्तीय जानकारों का मानना है कि टैक्स चोरी करने वाले सरकारी खजाने को चूना लगाने के लिए नए-नए तरीके खोज रहे हैं। टैक्स अधिकारी फर्जी चालान बनाने और फर्जी जीएसटी रजिस्ट्रेशन की घटनाओं से जूझ रहे हैं। फर्जी चालान और धोखे से रजिस्ट्रेशन की घटनाएं अभी भी करदाताओं के लिए बड़ी चुनौती बनी हुई है। वर्ष 2023 में जीएसटी खुफिया निदेशालय ने 1.98 लाख करोड़ रुपये से अधिक की टैक्स चोरी का पता लगाया। इसके अलावा सरकारी खजाने को चूना लगाने में शामिल 140 साजि-शकर्ताओं को भी गिरफ्तार किया। इसके जरिये ऑनलाइन गेमिंग, कैसीनो, इंश्योरेंस और सेकंडमेंट जैसे अलग-अलग सेक्टर में महत्त्वपूर्ण जीएसटी चोरी का पता चला। जीएसटी में अभी बहुत सुधार की जरूरत है। जिस संख्या में जीएसटी नोटिस जारी हो रहें है, उससे लगता है कि जीएसटी की प्रक्रियाएं सरल नहीं है।

Male colleague made accused in case

IB OFFICER'S SUICIDE

Non-bailable charges were slapped against the accused after HC sought a report on the case status after he sought anticipatory bail

T'puram/Kottayam: The police team probing the death of a 24-year-old Intelligence Bureau (IB) officer has added her male colleague as an accused in the case. He faces charges including sexual intercourse on false marriage promise, abetment of suicide, rape and outraging the modesty of a woman.

The move comes after HC sought a report on the case status after the accused moved court seeking anticipatory bail.

The woman's father provided police with her banking transaction details to prove that she was financially exploited. A hospital bill to prove that she was sexually exploited was also given. The payment of Rs 10,000 she made at the hospital in July was for an abortion, her father had found out. Travel details of the duo to places such as Chennai and Bengaluru were also submitted. Police charged the accused based on this evidence and after talking to their colleagues.

The woman had died by suicide by jumping in front of a train at Pettah on the morning of March 24. She had talked to the accused on phone for eight seconds just before her death.

"Talking to her friends, we came to know that she was in severe mental trauma due to the sudden withdrawal of the accused from the relationship. He backed off by claiming that he wanted to pursue his civil service aspirations," said a police officer.

"After finding out about their relationship, we wanted to discuss it with him and his family. We were not against their marriage. But they were unavailable for any discussion, and he was evading us," the woman's father said.

The woman's family termed the accused's allegations while pleading for bail as totally baseless.

Meanwhile, HC on Friday sought instructions from the state govt on the pre-arrest bail plea filed by the accused. The bench of Justice P V Kunhikrishnan also denied his request for an interim 'no arrest' order from the court. His plea claimed that the lady officer, who had lived with him, may have died by suicide due to relentless pressure from her parents, who allegedly forced her to accept an alternative marriage proposal.

Adani Group firm acquires 1 acre wooded plot on SoBo's Carmichael Road for ₹170cr

Nauzer.Bharucha@timesofindia.com

Mumbai: A Parsi-owned wooded plot spread over one acre on Carmichael Road in south Mumbai, a residential zone considered one of the priciest real estate in the country, has been sold for Rs 170 crore to Mah-Hill Properties, a subsidiary of Adani Group. According to registration documents sourced by CRE Matrix, A Real Estate Data Analytics Firm, Behram Nowrosji Gamadia, who inherited the property that goes back to the early part of the 20th century, sold the 4,500 sq m plot to Mah-Hill. A copy of the resolution to buy the property passed by the board of directors of Mah-Hill Properties shows the company's address at Adani Corporate House in Ahmedabad.

The deal was registered on March 27 and a stamp duty of Rs 10.5 crore paid by the buyer. Under the new development plan (DP 2034), the plot is reserved for residential purposes. However, the land with a green slope was earlier shown for a children's park in the 1991 development plan.

After locals opposed the conversion of the plot from garden to residential, BMC proposed to reverse the decision, but the state rejected it

In 2017, **TOI** had reported that the locals had protested against the deletion of the children's park reservation and its conversion into a residential plot. "It is not understood as to why, how and on whose behest the said change of land use from 'children's park' to 'residential' has taken place, when one considers the huge efforts that residents and associations have put in to use and maintain the garden plot as green lung for children and senior citizens of Cumballa Hill," citizens' associations had written to BMC.

On new development plan map, green slope remains, rest of plot for residential purposes

▶From P 1

Subsequently, BMC reversed its decision and proposed to the state govt to mark the plot once again for a garden/park and green belt.

Interestingly, the state rejected the modification proposed for a garden and earmarked it as a residential zone.

The plot is located close to the municipal commissioner's bungalow on Carmichael Road, now officially called M L Dahanukar Marg.

On the new development plan map, the green slope continues to remain one, but the rest of the plot is now shown for residential purposes.

The plot belonged to Jehangir Nowrosji Gamadia, who passed away in 1927, leaving behind his wife Bai Putli Bai and their minor children Nowroji Jehangir Gamadia and Bai Maneckbai.

After his death, Putlibai, Jehangir Hormasji Cama and Behramji Nowroji Gamadia were given control of the land as administrators. Later, the children got a share in the land in 1943 and became joint owners.

In 1974, Nowroji signed an agreement with one Samrathmal Seth to develop the plot. A dispute between the heirs of the two parties was settled.

As part of the agreement and settlement, Behram Gamadia received Rs 140 crore and the Seths received Rs 30 crore from the developer.

Subsequently, the BMC reversed its decision and proposed to the state govt to mark the plot once again for a garden/park and green belt. Interestingly, the state rejected the modification proposed for a garden and earmarked it as a residential zone.

On the new development plan map, the green slope continues to remain one, but the rest of the plot is now shown for residential purposes. The plot belonged to Jehangir Nowrosji Gamadia, who passed away in 1927, leaving behind his wife Bai Putli Bai and their minor children Nowroji Jehangir Gamadia and Bai Maneckbai.

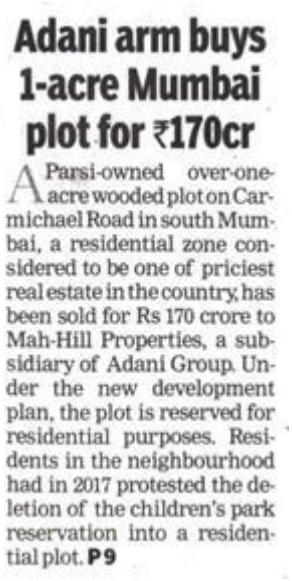

After his death, Putlibai, Jehangir Hormasji Cama and Behramji Nowroji Gamadia were given control of the land as administrators. Later, the children got a share in the land in 1943, who became joint owners. In 1974, Nowroji signed an agreement with one Samrathmal Seth to develop the plot. A dispute between the heirs of the two parties was settled.

After locals opposed conversion of the plot from garden to residential, BMC proposed to reverse the decision, but state rejected it

Mumbai: A Parsi-owned over-one-acre wooded plot on Carmichael Road in south Mumbai, a residential zone considered to be one of priciest real estate in the country, has been sold for Rs 170 crore to Mah-Hill Properties, a subsidiary of Adani Group.

According to registration documents sourced by CRE Matrix, a real estate data analytics firm, Behram Nowrosji Gamadia, who inherited the property which goes back to the early part of the 20th century, sold the 4,500-sq-m plot to Mah-Hill.

A copy of the resolution to buy the property passed by the board of directors of Mah-Hill Properties shows the company's address at Adani Corporate House in Ahmedabad.

The deal was registered on March 27 last and a stamp duty of Rs 10.46 crore was paid by the buyer.

Under the new development plan (DP 2034), the plot is reserved for residential purposes. However, the land with a green slope was earlier shown for a children's park in the 1991 development plan.

In 2017, **TOI** had reported that residents in the neighbourhood had protested the deletion of the children's park reservation into a residential plot. The plot is located close to the municipal commissioner's bungalow on Carmichael Road, now officially called M L Dahanukar Marg.

"It is not understood as to why, how and on whose behest the said change of land use from 'children's park' to 'residential' has taken place, when one considers the huge efforts that residents and associations have put in to use and maintain the garden plot as green lung for the children and senior citizens of Cumballa Hill," citizens' associations had written to the BMC.

Subsequently, BMC reversed its decision and proposed to the state govt to mark the plot once again for a garden/park and green belt. State rejected the modification proposed for a garden and earmarked it as a residential zone.

Later, the children got a share in the land in 1943, who became joint owners.

In 1974, Nowroji signed an agreement with one Samrathmal Seth to develop the plot. A dispute between the heirs of the two parties was settled. As part of the agreement and settlement, Behram Gamadia got Rs 140 crore and the Seths received Rs 30 crore from the developer.

I love colours. I have also understood that there are certain colours that complement your skin tone, and it's so interesting that a particular palette would make you feel like your skin is glowing. The science of colour and mood is so interesting. I always have a little colouring here and there.

I love wearing saris. I am the most comfortable when I'm in one. There was a phase in between where I used to wear it casually too, like while going to movies. Women in saris look so stunning. The best thing is that it covers all the uncomfortable areas, yet it shows the curves and is still sexy.

Malabar Hill British era bungalow sold to Adani Group for ₹170 crore

MUMBAI: In a significant real estate transaction, Mah-Hill Properties Private Limited, a subsidiary of the Adani Group, has acquired a prime land parcel in the affluent neighbourhood of Malabar Hill for ₹170 crore. The property was purchased from Behram Nowrosji Gamadia of Gamadia Factories.

The 48,491 sq ft plot houses a 2,766 sq ft bungalow, with the deal valuing the land at ₹35,058 per square foot. According to property registration documents accessed via real estate data analytics firm CRE Matrix, the Gamadia family had held ownership of the estate since the British era. Their lineage traces back to Jamshedji Bhimji of Surat, who arrived in Bombay (now Mumbai) in 1720. The family amassed its fortune through cotton ginning and pressing and played a crucial role in civic and business circles. The transaction was officially registered on March 27, with a stamp duty payment of ₹10.46 crore and a registration fee of ₹30,000.

The presence of British-ear bungalows is rapidly diminishing due to an ongoing redevelopment surge aimed. Luxury and ultra-luxury apartments in the area often command prices exceeding ₹1 lakh per square foot. This sale follows another major real estate deal in South Mumbai last month, when Laxmi Nivas, a historic bungalow on Nepean Sea Road that once served as a secret hideout for freedom fighters during the Quit India Movement in the 1940s, was sold for ₹276 crore.

Aircraft stranded in Turkey lands in city

MUMBAI: After being stranded for more than 40 hours in Turkey, over 250 Virgin Atlantic passengers, including Indians, landed at the Mumbai airport late in the evening on Friday.

The Mumbai-bound flight had taken off on Wednesday morning from London's Heathrow Airport and was diverted to Turkey's Diyarbakir Airport following a medical emergency.

Due to the nature of the landing, the aircraft required extensive technical inspection before it was cleared to operate. "The safety and security of our customers and crew remains our highest priority, and we sincerely apologise for the inconvenience caused and prolonged delay," a spokesperson from the airline said on Friday.

One of the passengers on board was London resident Ripal Patel, who was heading to Mumbai to meet his mother. "I am happy to be back home after spending uncertain moments in Turkey," he said.

As the Turkish airport was a military airbase, passengers were taken to a dark lounge, where many had a tough time, he said.

"In the first few hours, we shared one toilet for a planeload of passengers. The first meal came after 10 hours and we were given a cheese chilly sandwich. One lady had gluten allergy and suffered from health issues. We protested on Thursday. After approaching many officials, we were finally given hotel accommodation on Thursday," said the London resident.

The flight finally took off on Friday after it was declared fit. It was originally supposed to land in Mumbai at 1.40am on Thursday.

Jewellery worth ₹17L stolen from Chennai-Mumbai flight

MUMBAI: A box containing gold and diamond jewellery worth ₹17 lakh disappeared from a Chennai-Mumbai flight on December 8, prompting the airport police to register an FIR against unknown persons for theft on Thursday.

The parcel, securely packed and sealed, was sent by a logistics company that specialises in transporting precious jewellery. Instead of using air freight, the company opted for a passenger flight to ensure faster delivery, an officer said.

The package arrived in Mumbai as scheduled, but when an employee opened it, one of the parcels was empty. Alarmed, the company immediately contacted its Chennai office, triggering a frantic search. CCTV footage was reviewed, airport staff were questioned, but no signs of tampering or foul play emerged.

The real shock came when authorities at Chhatrapati Shivaji Maharaj International Airport confirmed that an unidentified person had managed to steal the jewellery during transit. HTC

Sensex, Nifty join global selloff on trade war fears

Sensex tumbles 1.22% to 75,364, while Nifty declines 1.49% to close at 22,904 points

MUMBAI: Equity benchmarks Sensex on Friday slumped over 900 points to crash below the 76,000 level due to an across-the-board sell-off, tracking weak global markets amid growing global trade war fears.

Besides, heavy selling in market heavyweights Reliance Industries, Larsen & Toubro and Infosys and a sharp correction in global crude prices, indicating recessionary fears, added to the gloom, analysts said.

The 30-share BSE Sensex tumbled 930.67 points or 1.22% to settle at 75,364.69. During the day, it plummeted 1,054.81 points or 1.38% to hit an intraday low of 75,240.55.

The broader NSE Nifty declined 345.65 points or 1.49% to close at 22,904.45. In the session, the 50-share benchmark gauge 382.2 points or 1.64% to 22,867.90.

Nifty declined 2.61% during the week. REUTERS

"The recent implementation of higher-than-anticipated US tariffs has had a significant impact on global markets, triggering a bearish trend as investors assess the broader implications." The likelihood of retaliatory measures against the US has further heightened uncertainty. US bond yields and oil prices are trending downward, reflecting concerns over potential economic slowdown and increased recessionary risks," Vinod Nair, Head of Research, Geojit Investments, said.

As much as 2,820 stocks declined, 1,126 advanced and 130 remained unchanged on the BSE.

The market capitalisation of BSE-listed firms slumped by ₹9,98,379 crore to ₹4,03,34,886 crore ($4.73 trillion).

40-hour ordeal of 260 passengers ends as Virgin Atlantic flight lands in Mumbai

Vaishali Sapkal with her daughter Ishwari after she arrived at Mumbai airport on Friday.

VAISHALI SAPKAL stood at Terminal 2 of Mumbai Airport, her eyes scanning the arrival gates with growing anticipation. Her daughter Ishwari, a student in London, was among the passengers aboard a Virgin Atlantic flight that turned into a 40-hour ordeal — after what should have been a routine journey home. "Since yesterday, we have been in Mumbai, staying at our relatives' place and waiting. It was the first time she was travelling such a long distance alone," Sapkal told The Indian Express.

After more than 40 hours of uncertainty and hardship, the flight — carrying around 260 passengers — finally landed in Mumbai at around 8:45 pm on Friday. The aircraft had taken off from Diyarbakir Airport in Turkey at approximately 1 pm local time (3:30 pm IST), putting an end to the ordeal of the passengers, most of whom were Indian nationals.

Muktesh Pardeshi, Ambassador of India to Turkey, confirmed Friday afternoon that the flight had departed. "Virgin Atlantic flight from London to Mumbai has just left Diyarbakir Airport in Turkey," he posted on X.

The passengers had been confined to a small terminal at a remote military airport on Turkey's border, where food, restrooms, and basic support were in short supply. For over a day, there was minimal communication from the airline, and no staff on the ground to guide or assist them.

Hotel accommodation was eventually arranged late Thursday night, following sustained pressure and intervention from the Indian Embassy in Ankara. "Late at night, we were taken to a hotel about 20 minutes away from the airport. All 260 of us were accommodated across five different hotels, and meals were arranged. After an ordeal of more than 24 hours, we were finally able to get some proper rest," said Sumit Sheth, one of the stranded passengers.

Though visibly relieved, Sheth added, "I am tired... but luckily my stop is Mumbai. So many people still have connections to make."

Another passenger, who did not wish to be named, said, "We were picked up from our respective hotels at 9 am and brought to the airport, where we were told that a flight would depart at 12 noon to take us to Mumbai. While the plane took off at around 3 pm, we are happy to be back to the bay."

The flight, originally scheduled to land in Mumbai at 1:40 am on Thursday, had taken off on time from Heathrow Airport in London. However, a few hours into the journey, a 17-year-old female passenger suffered a panic attack, prompting the pilots to make an emergency landing at Diyarbakir — a military airbase ill-equipped to handle large commercial jets.

Passengers described the landing as hard and bumpy. It reportedly damaged the aircraft's tyres, rendering it unfit for take-off and necessitating a lengthy inspection.

Throughout the following day, passengers were left stranded in the terminal without updates or clarity about their journey ahead. Virgin Atlantic cited technical inspections and sent apology emails, but on-ground assistance was nearly absent, according to multiple accounts.

In a statement on Thursday night, a Virgin Atlantic spokesperson said, "The VS358 flight from London Heathrow to Mumbai on 2 April was cancelled due to an urgent medical diversion to Diyarbakir Airport in Turkey, followed by ongoing technical inspections of the aircraft. Subject to receiving the necessary technical approvals, we will continue flight VS1358 to Mumbai from Diyarbakir Airport at 12:00 hours local time on Friday, 4 April."

The incident has triggered widespread criticism over the airline's handling of the emergency, lack of communication, and delay in extending support to passengers.

Rape charge against absconding colleague in IB officer's death

EXPRESS NEWS SERVICE @T'Puram

POLICE on Friday charged Sukanth Suresh, the colleague of the IB officer who died by suicide by jumping in front of a train, with rape. The charge was made after evidence of sexual abuse came out. A lookout notice has been issued against the absconding accused.

Megha's father submitted medical reports to the Pettah police, based on which the rape charge was filed.

The police had earlier found her case to be an unnatural death. Currently, the accused is charged with sexual abuse under the pretext of marriage, financial fraud, and abetment of suicide.

Sukanth, a native of Malappuram and an IB officer in Kochi, has not yet been arrested. According to police, an arrest is expected soon.

Megha's family had raised suspicions about Sukanth, particularly due to financial discrepancies. Later, family of the deceased provided evidence that supported claims of sexual assault by Sukanth.

Megha's father, Madhusoodanan claimed that Megha was threatened and financially drained by Sukanth. He alleged that Megha's bank statements showed that her entire salary was transferred to his account.

Following Megha's death, Sukanth switched off his phone and went into hiding along with his family, according to the police. His house at Malappuram was found abandoned when police visited the place earlier for investigation.

Megha died one-and-a-half weeks ago after jumping in front of a train near Pettah after her shift at the Thiruvananthapuram airport.

Her family alleged that the breakdown of her relationship with Sukanth drove her to suicide. Megha joined the Intelligence Bureau in December 2023 and was posted in Thiruvananthapuram, while Sukanth was stationed in Ernakulam. They were together in Jodhpur for training after she joined.

Meanwhile, Sukanth has moved the High Court seeking anticipatory bail. The state police chief has ordered the Thiruvananthapuram Pettah CI to conduct an inquiry into possible lapses by the Kollengode police in tracking down Sukanth. Pettah Police will examine whether the police failed to act despite receiving credible information regarding Sukanth's presence within their jurisdiction.

Court declines to issue order restraining Sukanth's arrest

Kochi: The prosecution in the case dealing with the alleged suicide of IB officer Megha Madhusoodhanan has informed the High Court that there are allegations of rape and abetment of suicide against the suspect, Sukanth Suresh P of Malappuram. Hearing Sukanth's anticipatory bail plea, Justice P V Kunjikrishnan, in an oral observation, said the petitioner has himself admitted the victim was staying with him, and therefore, he is answerable for her suicide. The court declined to issue an order restraining Sukanth's arrest.

Chennai and Kamarajar Ports record Rs. 2,200 cr revenue: Chairman Paliwal

Chennai, Apr 4: Chennai and Kamarajar Ports have collectively recorded an operating income exceeding Rs.2,200 crore while surpassing 100 million metric tonnes (MMT) in cargo handling, marking a significant milestone. Sunil Paliwal, Chairman of Chennai Port Trust and Kamarajar Port Limited (KPL), announced the achievement on Thursday.

Calling it a historic moment, Paliwal emphasized ongoing infrastructure upgrades at both ports. "At Kamarajar Port, we are continuously expanding capacity and improving connectivity, while at Chennai Port, we are focused on enhancing connectivity and storage," he stated.

Cargo Growth and Performance

For the financial year 2024-25, Chennai Port handled 54.96 MMT, while Kamarajar Port contributed 48.41 MMT, together reflecting a 6.7% growth. Chennai Port remains the second-largest major port for container handling in India, following Jawaharlal Nehru Port Authority in Mumbai. Notably, container handling at Chennai Port grew by 14.7%.

Despite this surge, overall growth at Chennai Port stood at 6.5%, which Paliwal attributed to factors such as cargo shifting to KPL and Krishnapatnam, as well as a slight decline in car handling. Meanwhile, Kamarajar Port witnessed a remarkable 45% growth in multi-cargo handling, as highlighted by JP Irene Cynthia, Managing Director of KPL.

Future prospects and infrastructure development

Paliwal sees Kamarajar Port playing a crucial long-term role in regional maritime trade due to its ample land availability and strong connectivity. "We expect substantial growth at Kamarajar Port, which could emerge as the primary sea hub in this part of the country," he remarked.

Regarding Hyundai Group's interest in setting up a shipbuilding facility, Paliwal noted that the required 500 acres of land might not be available in Chennai. Instead, potential locations are being explored near VOC Port, which has a larger land bank.

Several infrastructure projects are in the pipeline for both ports. These include a parking plaza, a multi-modal logistics park at Mappedu, the development of a seafarers' club at Chennai Port, expanded car parking and transit yards, a common-user coal terminal capacity optimization, and the development of an IOCL captive jetty at Kamarajar Port.

With these initiatives, Chennai and Kamarajar Ports are poised for continued growth and enhanced operational efficiency.

Saptak Talwar of Greater Noida ended a long wait for his maiden title after he outshined his nearest rivals at his home course with a flawless final round of five-under 67 at the ₹1.5 crore Adani Invitational Golf Championship 2025 played at the Jaypee Greens Golf & Spa Resort in Greater Noida.

The 26-year-old Saptak's (67-72-69-67) superb last round effort lifted him two spots from his overnight third position. Talwar, who had previously posted two runner-up finishes on the PGTI since turning pro in 2021, ended the week with a winning total of 13-under 275 and a one-stroke victory margin.

Talwar, who studied at Sacred Heart University in Connecticut, USA, prior to turning professional, picked up the winning cheque worth INR 22,50,000 that propelled him from seventh to fourth position in the PGTI Order of Merit. Overnight joint leaders Arjun Prasad (68-69-69-70) of Delhi and Chandigarh's Yuvraj Sandhu (70-67-69-71) finished second and third at 12-under 276 and 11-under 277 respectively.

Saptak Talwar, who was two off the lead at the start of round four, enjoyed a hot start on Friday as he capitalized with birdies on the first two par-5s, the second and fourth holes. Saptak then added two more birdies on the fifth and 10th using his wedges to great effect. He narrowly missed a five-feet eagle putt on the par-5 12th where he picked up his fifth birdie of the day.

Talwar, who had made three three-putts for bogeys earlier in the week, then saw it home with pars on the last six holes. He made a crucial par save from eight feet on the 16th that helped keep his card bogey-free and gave him the momentum towards the end.

Champion Saptak Talwar (C) receives the trophy from Pranav Adani, Director, Adani Enterprises Limited (R) and Kapil Dev, President, PGTI.

Saptak said, "It's great to win at my home course in the presence of my family and friends. This is my fifth straight week of competition and my endurance was my biggest asset this week. The fact that it was a relatively stress-free week because I was playing in home conditions and there was not much preparation needed also helped.

"At the start of the day, my approach was to just be patient and keep myself in the mix as long as possible as I knew the course well and was aware that I will have my opportunities at some stage. After the good start, the eight-feet par putt on the 16th I feel was a pivotal moment for me today. It helped me keep my card clean and gave me the confidence to finish well."

Arjun Prasad, also searching for his first title, produced five birdies and three bogeys during his fourth round of 70. Arjun had the opportunity to take the match into a playoff before he bogeyed the final hole.

Yuvraj Sandhu, a two-time winner on the PGTI this season, sank five birdies on the last day but an early double-bogey and two bogeys on the back-nine put him out of contention as he signed for a 71.

- Investors' wealth erodes Rs 10 lakh cr
- Sensex falls 901 pts, Nifty loses 346 pts
- FIIs offload equities worth Rs 3,484 cr
- Pharma stocks tumble over 11%

Indian markets entered a bearish phase on Friday in the midst of growing fears of an intensified trade war, which threatens to throw the American economy and the rest of the world into a long recession.

Shares of Indian pharmaceutical companies tumbled more than 11 per cent amid media reports that the Trump administration would announce new tariffs on pharma imports soon.

Besides, a sharp correction in crude prices and a heavy sell-off in market heavyweights Reliance Industries, L&T and Infosys added to the gloom. The 30-share BSE Sensex tumbled 931 points to settle at 75,364.69. The broader NSE Nifty declined 346 points to close at 22,904.45. Tata Steel was the biggest loser in the Sensex pack, sliding 8.59 per cent, followed by Tata Motors, Larsen & Toubro, Adani Ports, IndusInd Bank, Tech Mahindra, Reliance Industries, Sun Pharmaceutical, HCL Technologies, Tata Consultancy Services, Infosys, and NTPC, were the major losers. Bajaj Finance, HDFC Bank, Nestle India, ICICI Bank, ITC, Asian Paints and Axis Bank were among the top gainers. The stock of Marksans Pharma plummeted 11.18 per cent, Laurus Labs by 7.40 per cent, Shilpa Medicare by 6.56 per cent, Ipca Labs by 6.53 per cent, Aurobindo Pharma by 5.96 per cent and Lupin by 5.85 per cent on the BSE.

"The recent implementation of higher-than-anticipated US tariffs has had a significant impact on global markets, triggering a bearish trend as investors assess the broader implications. The likelihood of retaliatory measures against the US has further heightened uncertainty. US bond yields and oil prices are trending downward, reflecting concerns over potential economic slowdown and increased recessionary risks. Domestically, while the direct impact of these tariffs is relatively moderate compared to other major economies, it remains more substantial than initially projected. As Q4 approaches, a sequential improvement in corporate performance is anticipated. However, prevailing weak market sentiment suggests that the phase of consolidation may persist in the near term," said Vinod Nair, Head of Research, Geojit Investments.

"The new financial year has commenced on a subdued note, largely driven by the imposition of higher-than-anticipated tariffs by the US. Sectors like IT and metals have underperformed relative to the broader market, reflecting growing concerns over the outlook for the US economy and potential retaliatory trade actions by other countries. Investors are expected to closely monitor any countermeasures implemented by global trade partners, which could further exacerbate geopolitical and economic uncertainty. This cautious sentiment is reflected in the sustained rally in gold and bond prices, underscoring a pronounced shift toward safe-haven assets.

Any constructive developments arising from the ongoing India–US bilateral trade negotiations could serve as a supportive catalyst for the market, ," said Ajit Mishra–SVP, Research, Religare Broking.

Baij terms Amit Shah's visit as political stunt

Staff Reporter

RAIPUR

Chhattisgarh Pradesh Congress Committee President Deepak Baij has criticized Union Home Minister Amit Shah's repeated visits to the Bastar region, calling them a mere political stunt. Baij questioned why Amit Shah, who never visited Bastar during the BJP's 15-year rule in Chhattisgarh, is now making frequent trips to the region. He alleged that each time Shah visits, a letter from Naxalites surfaces, expressing readiness for ceasefire and dialogue, which he believes is part of a pre-planned script. According to Baij, this is done to create a narrative that the Naxalites are surrendering due to the government's actions, reinforcing Shah's political agenda.

He further claimed that Amit Shah's visits are not aimed at eliminating Naxalism but at facilitating access to Bastar's natural resources for industrialists. Baij accused the Union Home Minister of trying to hand over Bastar's minerals, land, water, and forests to corporate giants like Ambani and Adani, under the guise of development.

The Congress leader also posed eight questions to Shah, demanding clear assurances for the people of Bastar. He insisted that industrialists should not be allowed to operate in the region without the consent of the local population. He questioned why the headquarters of NMDC has not been shifted to Bastar and why the lease for Nandraj Hill has not been canceled. He also demanded guarantees that the Nagarnar Steel Plant would not be privatized and questioned why Jagdalpur has not been included in the Bharatmala Pariyojana for better connectivity.

Danve accuses BJP of giving away Waqf land

Manish Gajbhiye
CHHATRAPATI SAMBHAJINAGAR

Maharashtra Legislative Council's Leader of Opposition Ambadas Danve on Thursday alleged the BJP-led Union government plans to transfer Waqf Board lands to industrialists like Gautam Adani and Mukesh Ambani under the "guise of welfare schemes" for poor Muslims. His comments came hours after the Lok Sabha passed the Waqf Amendment Bill in the early hours of Thursday.

"This is a calculated strategy to grab Waqf properties in the name of social justice," Danve told reporters. He simultaneously criticised the Mahayuti government for reneging on its farm loan waiver promise, citing Deputy Chief Minister Ajit Pawar's recent rejection of debt relief. Addressing rising crime in Beed, Danve questioned why local leaders weren't being held accountable. "MLC Pankaja Munde must explain this surge in violence," he said, responding to Ajit Pawar's tough-on-crime stance.

Pharma industry's joy over not figuring in the U.S. tariff list was short-lived with Trump announcing that a levy is coming

Frontline stock indices on Friday fell up to 1.5% owing to fears of a global trade war and potential recession in the global economy.

The S&P BSE Sensex plunged 931 points, or 1.22%, to 75,365 points, led by fall in Tata Steel (8.59%), Tata Motors (6.15%), L&T (4.67%), Adani Ports (4.38%), IndusInd Bank (3.83%) and RIL (3.52%).

The NSE Nifty index fell 346 points, or 1.49%, to 22,904 points. Out of the 2,947 stocks traded on the NSE, 2,230 declined, while only 646 stocks gained.

"Amid weak global cues, Indian equity markets opened on a negative note following an overnight plunge on Wall Street triggered by fears of a global trade war and rising concerns about a potential recession," said Sundar Kewat, technical and derivatives analyst, Ashika Institutional Equity.

"Nifty 50 opened lower at 23,190 and briefly touched 23,214 in early trade, but soon reversed course and slipped sharply to an intraday low of 22,874. Throughout the day, the index faced consistent selling pressure, dragging it below the crucial psychological support level of 23,000," he said.

Sectoral performance remained broadly negative with metals, pharmaceuticals, oil and gas, energy, and IT witnessing the most pronounced declines.

Shares of pharma companies were hit on Friday after the industry's joy over not figuring in the U.S. reciprocal tariff list proved short-lived with President Donald Trump announcing such a levy is coming.

"Looking at pharma as a separate category and will be announcing that in not too distant future," he said, adding the tariff would be at a level "never seen before." Mr. Trump said the tariff for semiconductor chips were also to be announced soon.

Out of the 20 companies forming part of the NSE's Nifty pharma index, 18 were in the red on Friday even as the sectoral index closed 4.03% lower. Barring Torrent Pharma and Mankind, shares of other pharma companies ended lower, with some wiping the gains of Thursday.

Dr. Reddy's Laboratories intra-day touched a 52-week low of ₹1,076.20 apiece. Shares of nine companies, including Aurobindo Pharma, Lupin, Granules Pharma, Laurus Labs and Gland Pharma ended lower by 5% and more.

IB officer's death: case registered against colleague

The Hindu Bureau
THIRUVANANTHAPURAM

The Pettah police have registered a case against Sukanth Suresh on Friday, a colleague of the recently deceased 24-year-old Intelligence Bureau (IB) officer, on charges including rape, abetment of suicide and cheating.

The move comes after the police sought legal opinion in the case. Sukanth, a native of Edappal in Malappuram, is currently absconding.

According to official sources, the accused had filed an anticipatory bail plea before the Kerala High Court. However, the High Court on Friday declined his plea. Counsel for the IB officer sought a directive to the police not to arrest him when his bail petition came up for hearing. The prosecutor submitted that there was allegation of rape against him. Besides, there was evidence for abetment of suicide.

'Emotional bond'

In his petition, Sukanth said that he and the deceased shared a profound mental and emotional bond and had mutually decided to get married. The deceased had also conveyed their decision to her parents. He said that she had intense emotional distress, primarily due to the relentless pressure from her parents. They were in fact forcing her to consider an alternative marriage proposal against her will.

High Court declines Sukanth's plea for anticipatory bail

The petitioner strongly believed that if her death was indeed a case of suicide, it was not a voluntary act, but rather a consequence of the severe mental agony and unbearable pressure put on her by her parents' coercion and opposition to her relationship with him.

The victim's family has accused Sukanth of both physical and financial exploitation, which they believe contributed to her death.

Sensex slumps over 900 points due to sell-off

PRESS TRUST OF INDIA ■ Mumbai

Equity benchmarks Sensex on Friday slumped over 900 points to crash below the 76,000 level due to an across-the-board sell-off, tracking weak global markets amid growing global trade war fears.

Besides, heavy selling in market heavyweights Reliance Industries, Larsen & Toubro and Infosys and a sharp correction in global crude prices, indicating recessionary fears, added to the gloom, analysts said.

The 30-share BSE Sensex tumbled 930.67 points or 1.22 per cent to settle at 75,364.69. During the day, it plummeted 1,054.81 points or 1.38 per cent to hit an intraday low of 75,240.55.

The broader NSE Nifty declined 345.65 points or 1.49 per cent to close at 22,904.45. In the session, the 50-share benchmark gauge 382.2 points or 1.64 per cent to 22,867.90.

"The recent implementation of higher-than-anticipated US tariffs has had a significant impact on global markets, triggering a bearish trend as investors assess the broader implications.

"The likelihood of retaliatory measures against the US has further heightened uncertainty. US bond yields and oil prices are trending downward, reflecting concerns over potential economic slowdown and increased recessionary risks," Vinod Nair, Head of Research, Geojit Investments, said.

As much as 2,820 stocks declined, 1,126 advanced and 130 remained unchanged on the BSE.

The market capitalisation of BSE-listed firms slumped by ₹9,98,379.46 crore to ₹4,03,34,886.46 crore ($4.73 trillion).

During the week, the BSE Sensex tanked 2,050.23 points or 2.64 per cent, while the NSE Nifty declined 614.8 points or 2.61 per cent.

On the other hand, Bajaj Finance, HDFC Bank, Nestle India, ICICI Bank, ITC, Asian Paints and Axis Bank were among the gainers.

"The sharp fall in global markets — particularly in the US — and fresh concerns over potential tariffs on pharma impacted sentiment negatively. However, sustained strength in banking and financial stocks helped limit the overall downside to some extent. Looking ahead, we anticipate a time-wise correction in the Nifty index," Ajit Mishra – SVP, Research, Religare Broking Ltd, said. In broader markets, the BSE midcap gauge plunged 3.08 per cent, while smallcap index declined 3.43 per cent.

All the sectoral indices ended in negative territory. Metal plunged declined 6.34 per cent, followed by capital goods (3.99 per cent), Oil and Gas, Commodities, and Industrials (3.89 per cent each), Energy (3.65 per cent), realty (3.61 per cent), and IT (3.55 per cent).

"Markets slumped in sync with the crash in global equities with sectors crashing over 2-6 per cent on broad-based selling," Prashanth Tapse, Senior VP (Research), Mehta Equities Ltd, said.

Investors fear Trump's reciprocal tariff policy will fuel recession, drive inflation in the US going ahead and engulf other key economies. A sharp fall in metal and oil stocks is indicating that demand could be hit amid slowdown fears, Tapse added.

In Asian markets, Tokyo and Seoul ended lower. Hong Kong and Shanghai stock markets remained closed for the holidays.

European markets were trading lower in the mid-session deals. US markets closed lower in overnight deals on Thursday, witnessing their biggest drop since 2020.

Global oil benchmark Brent Crude slipped 3.26 per cent to $67.85 a barrel.

"Crude oil prices plunged after the US President announced heavy reciprocal trade tariffs, triggering fears of slower global demand. A sharp tariff hike on China spooked energy markets, leading to crude oil's biggest single-day fall in three years," Rahul Kalantri, VP Commodities, Mehta Equities Ltd, said.

Meanwhile, foreign institutional investors (FIIs) offloaded equities worth Rs 2,806 crore on Thursday, while Domestic Institutional Investors (DIIs) purchased shares worth Rs 221.47 crore on a net basis.

On Thursday, the 30-share BSE Sensex declined by 322.08 points to close at 76,295.36, and the broader NSE Nifty fell 82.25 points to settle at 23,250.10.

As Q4 approaches, a sequential improvement in corporate performance is anticipated.

'Several Metro corridors have missed deadlines, leading to cost escalations. The MMRDA and state government must prioritise and complete these projects without further delays.'

ASHOK DATAR

'With Metro construction delayed, BEST buses must step in. The Metro will take at least two more years, but if BEST adds 10 lakh daily riders, it can bridge the gap with more electric buses. Right now, public transport needs urgent reinforcement.'

HARISH T POOJARY
Commuter

'The speed of Metro construction in Mumbai must increase. Years of work, barricaded roads, and endless traffic jams have become unbearable. The Metro should have been ready 20 years ago, and now that work has started, it must be completed on time.'

Sion Hospital to expand bone marrow unit

Facility to have five bone marrow transplant rooms with a four-bedded step-down unit; currently has only one

RITIKA GONDHALEKAR
ritika.gondhalekar@mid-day.com

THE Lokmanya Tilak Municipal Medical College and General Hospital (LTMGH) at Sion completed 104 bone marrow transplants (BMT) in their paediatric ward as of March 31. However, considering the increasing number of patients on the waiting list, the hospital has planned to expand its BMT treatment facilities. It is the first civic hospital to have introduced this facility for children in 2015.

"Our first patient was a 15-year-old boy who was diagnosed with aplastic anemia. His bone marrow was not producing red blood cells, white blood cells, and platelets. 10 years on, after the transplant, today he is married and has a healthy child," said Dr Sujata Sharma, in-charge, division of paediatric hematology, department of paediatrics, Sion Hospital.

"We have received all permissions from the Brihanmumbai Municipal Corporation (BMC), and the construction works will begin within a few weeks. The expanded facility will be started on the second floor of Eknath Gaikwad Urban Health Centre located in Dharavi as the current building of Sion Hospital faces space constraints. This new ward will have five BMT beds and a four-bedded step-down room. The step-down rooms have HEPA filtration and are like ICU rooms for those undergoing the transplant," informed Dr Sharma.

As per the hospital authorities, this new project will be funded entirely by the NGO MKH Foundation, which has been working towards thalassemia eradication across the country. The NGO is expected to spend approximately ₹18 to ₹20 crore for the project.

In a recent BMT case, a 6-month-old girl child with primary immunodeficiency (T cell migration defect), a mutation in the ARPC1B gene, was transplanted successfully. "Only three to five cases are reported in the literature. Patients of primary immunodeficiency get admitted with recurrent life threatening infections and are likely to die of infection if not transplanted early in life," informed Dr Sharma.

Current facility

The hospital currently has only one BMT bed and four step-down rooms. At one particular time, the hospital can conduct BMT of just one patient, and each patient needs at least one month to 45 days for the process, after which they are shifted to these step-down rooms.

"Considering a month's time required for the treatment, ideally nearly 120 patients could have been treated so far. However, sometimes complications arise, and the patients are required to occupy the room for more than 45 days. This apart, other issues such as maintenance works restrict admissions of the patients, too. Also, we could not treat patients during the COVID-19 period," explained Dr Sharma.

While there are at least seven to eight patients on the waiting list at one particular time, nearly one or two patients are added per week, which are emergency cases. These further delays treatment access to those already on the list.

"Once we expand, we can conduct at least four to five BMTs simultaneously against just one that we do now," said Dr Radnyi Mande, consultant, Paediatric haematology, oncology division, department of Paediatrics, LTMGH.

While at BMC-run hospitals, each transplant costs ₹10 to ₹12 lakh; the costs go up to ₹25 to ₹40 lakh per transplant at a private hospital.

Need for bone marrow transplants

"Above-mentioned diseases are of marrow cells. And thus, replacing the bone marrow with healthy HLA-matched marrow stem cells is the only permanent cure for it," mentioned Dr Sharma.
CEO of Wadia Hospitals, Dr Minnie Bodhanwala, explained, "Bone marrow transplant can be either autologous (using the patient's own cells) for solid tumours like neuroblastoma or allogeneic (from a donor). Allogeneic bone marrow transplant is done to treat a variety of conditions, primarily blood-related cancers like leukaemia, non-cancerous blood disorders like aplastic anaemia, thalassemia, immunodeficiencies like severe combined immunodeficiency, Wiskott-Aldrich syndrome, and certain metabolic disorders."

Sensex, Nifty join global sell-off

MUMBAI: Equity benchmarks Sensex on Friday slumped over 900 points to crash below the 76,000 level due to an across-the-board sell-off, tracking weak global markets amid growing global trade war fears.

Besides, heavy selling in market heavyweights Reliance Industries, Larsen & Toubro and Infosys and a sharp correction in global crude prices, indicating recessionary fears, added to the gloom, analysts said.

The 30-share BSE Sensex tumbled 930.67 points or 1.22 per cent to settle at 75,364.69. During the day, it plummeted 1,054.81 points or 1.38 per cent to hit an intraday low of 75,240.55.

The broader NSE Nifty declined 345.65 points or 1.49 per cent to close at 22,904.45. In the session, the 50-share benchmark gauge 382.2 points or 1.64 per cent to 22,867.90.

"The recent implementation of higher-than-anticipated US tariffs has had a significant impact on global markets, triggering a bearish trend as investors assess the broader implications. "The likelihood of retaliatory measures against the US has further heightened uncertainty. US bond yields and oil prices are trending downward, reflecting concerns over potential economic slowdown and increased recessionary risks," Vinod Nair, head of research, Geojit Investments, said.

CPM protests hike in electricity rates

HISAR, APRIL 4

The Communist Party of India (Marxist) — CPM — Hisar unit has submitted a memorandum to the Deputy Commissioner regarding the recent hike in electricity rates by the Haryana Government, calling it an additional burden on the working class and middle-class power consumers. They have demanded the immediate rollback of the increased charges.

Hisar CPM leader Shakuntala Jakhar stated that the government had imposed this financial burden on the common people, who were already struggling with inflation. The electricity rates were increased by 20 to 40 paise per unit, along with an additional fixed charge of Rs 50 per kilowatt. She alleged that there was no valid reason for these hikes. Furthermore, she alleged, municipal, panchayat and fuel surcharges would also be added to the bill, making the actual costs much higher than the officially stated rates.

The CPM activists argued that the government's electricity policies were responsible for the financial crisis in the sector. Instead of increasing its own power generation capacity, the state government was purchasing expensive electricity from private companies such as Adani, benefiting private firms at the expense of the public. The 5 per cent discount for prepaid smart meter users was seen as a misleading tactic. — TNS

NEW DELHI

Investors' wealth dropped by Rs 10 lakh crore on Friday as the BSE Sensex slumped over 900 points to crash below the 76,000 level due to an across-the-board sell-off, tracking weak global markets amid growing global trade war fears.

Besides, heavy selling in market heavyweights Reliance Industries, Larsen & Toubro and Infosys and a sharp correction in global crude prices, indicating recessionary fears, added to the gloom, analysts said. The 30-share BSE Sensex tumbled 930.67 points or 1.22% to settle at 75,364.69. During the day, it plummeted 1,054.81 points or 1.38% to hit an intraday low of 75,240.55.

Tracking the weak trend in equities, the market capitalisation of BSE-listed firms eroded by Rs 9,98,379.46 crore to Rs 4,03,34,886.46 crore ($4.73 trillion).

"The recent implementation of higher-than-anticipated US tariffs has had a significant impact on global markets, triggering a bearish trend as investors assess the broader implications.

World Markets

Stock markets worldwide are careening even lower on Friday after China matched President Donald Trump' big raise in tariffs in an escalating trade war. Not even a better-than-expected report on the US job market, which is usually the economic highlight of each month, was enough to stop the slide.

The S&P 500 was down 2.8% in early trading, coming off its worst day since Covid wrecked the global economy in 2020. The Dow Jones Industrial Average was down 1,049 points, or 2.6, as of 9:35 am Eastern time, and the Nasdaq composite was 3.2% lower. So far there are few, if any winners, in financial markets from the trade war. PTI

Rein in Revanth, Harish tells Rahul

In a strongly worded open letter to the Congress leader, the BRS MLA suggests the Congress to practice what it preaches

STATE BUREAU
HYDERABAD

Former Minister and senior BRS legislator T Harish Rao charged the Congress government in Telangana, led by Chief Minister A Revanth Reddy, with abandoning constitutional values, violating its manifesto promises, and unleashing bulldozer politics in the State. He suggested that the Congress practice what it preaches.

In a strongly worded open letter to Congress Lok Sabha leader Rahul Gandhi on Friday, Harish reminded him of the Congress party's public commitment to automatic disqualification of defected MLAs, citing its 2024 election manifesto. "Your Chief Minister facilitated the defection of 10 BRS MLAs, blatantly contradicting your stated position and in a clear violation of the principles you and your party claim to uphold," he said.

The BRS legislator lashed out at Revanth Reddy's controversial comments on the judiciary, stating that even the Supreme Court had to intervene, finding fault with the Chief Minister's conduct. He said while Rahul Gandhi speaks against bulldozer politics, his party government in Telangana razed homes of the poor in the name of urban projects - the HYDRAA and Musi River Development Project.

Former Minister and senior BRS leader T Harish Rao addressing the party cadre at a meeting in Siddipet on Friday.

Harish also criticised the police crackdown at University of Hyderabad (UoH), where students and professors faced brutal action during environmental protests. "Even NSUI affiliated to the Congress condemned it, but your party itself didn't utter a word," he said. He blamed Rahul Gandhi for abandoning students whom he once pledged to support during his 2016 visit to the UoH campus during protests over Rohith Vemula's death.

Further, the former Minister slammed the Congress government for inviting crony capitalism into Telangana. He pointed to alleged police excesses against tribal farmers in Lagacherla protesting against the pharma village project, and to land acquisition for an Adani cement plant in Nalgonda district. "While you attack Adani nationally, your Chief Minister is handing him Telangana on a platter," he said.

Harish questioned the ideological coherence of the Congress. "While you fight PM Modi, your Chief Minister calls him 'Bade Bhai'. Is this happening with your blessing, or are you deliberately silent?" he asked. Urging Rahul Gandhi to "practice what you preach," he wanted the Congress high command to rein in its State leadership and uphold the values it claims to represent.

Adani Invitational Golf Championship 2025: Saptak Talwar outshines rivals on home turf to bag maiden title

GREATER NOIDA (UTTAR PRADESH) : Saptak Talwar of Greater Noida ended a long wait for his maiden title after he outshined his nearest rivals at his home course with a flawless final round of five-under 67 at the Rs 1.5 crore Adani Invitational Golf Championship 2025 played at the Jaypee Greens Golf and Spa Resort in Greater Noida.

The 26-year-old Saptak's (67-72-69-67) superb last round effort lifted him two spots from his overnight third position. Talwar, who had previously posted two runner-up finishes on the PGTI since turning pro in 2021, ended the week with a winning total of 13-under 275 and a one-stroke victory margin.

Talwar, who studied at Sacred Heart University in Connecticut, USA, prior to turning professional, picked up the winning cheque worth Rs 22,50,000 that propelled him from seventh to fourth position in the PGTI Order of Merit.

Overnight joint leaders Arjun Prasad (68-69-69-70) of Delhi and Chandigarh's Yuvraj Sandhu (70-67-69-71) finished second and third at 12-under 276 and 11-under 277, respectively.

Saptak Talwar, who was two off the lead at the start of round four, enjoyed a hot start on Friday as he capitalized with birdies on the first two par-5s, the second and fourth holes.

Saptak then added two more birdies on the fifth and 10th using his wedges to great effect. He narrowly missed a five-feet eagle putt on the par-5 12th where he picked up his fifth birdie of the day.

Talwar, who had made three three-putts for bogeys earlier in the week, then saw it home with pars on the last six holes. He made a crucial par save from eight feet on the 16th that helped keep his card bogey-free and gave him the momentum towards the end.

Saptak said, "It's great to win at my home course in the presence of my family and friends. This is my fifth straight week of competition and my endurance was my biggest asset this week. The fact that it was a relatively stress-free week because I was playing in home conditions and there was not much preparation needed also helped.

"At the start of the day, my approach was to just be patient and keep myself in the mix as long as possible as I knew the course well and was aware that I will have my opportunities at some stage.

After the good start, the eight-feet par putt on the 16th I feel was a pivotal moment for me today. It helped me keep my card clean and gave me the confidence to finish well."

Arjun Prasad, also searching for his first title, produced five birdies and three bogeys during his fourth round of 70. Arjun had the opportunity to take the match into a playoff before he bogeyed the final hole.

Yuvraj Sandhu, a two-time winner on the PGTI this season, sank five birdies on the last day but an early double-bogey and two bogeys on the back-nine put him out of contention as he signed for a 71.

There was a hole-in-one by Sri Lankan N Thangaraja on the 14th during his fourth round of 71. He secured tied 17th place at two-under 286.

Nineteen-year-old Sukhman Singh of Greater Noida, the lone amateur to make the cut, won the prize for the best performance by an amateur. Sukhman totaled six-over 294 for the week to finish tied 46th.

ADANI VIDYA MANDIRS: HOW INCLUSIVE EDUCATION IS OPENING UP WINDOWS OF OPPORTUNITIES FOR UNDERPRIVILEGED STUDENTS

The institutions, which provide quality holistic education for free, are a beacon of hope for bright students from economically-disadvantaged families. The young minds' hopes and aspirations are being nurtured by the philanthropic zeal of Adani Foundation that believes in empowering communities

Meena is a bright young girl from a tiny village in Gujarat. Quality education was a distant dream for her because of her family's acute financial constraints. But when she was selected to join Adani Vidya Mandir (AVM), her world changed overnight. She flourished in a conducive environment that nurtured her talents and ignited her passion for learning. Today, Meena is pursuing a degree in engineering, a testament to the opportunities and support provided by AVM.

Another fascinating tale is that of Ravi, a boy from an impoverished fishing community in Krishnapatnam, a port town in the coastal district of Nellore in Andhra Pradesh (AP). Before joining AVM, Ravi's future seemed bleak and was limited to the traditional occupation of his family, where financial security was few and far between. However, AVM's holistic education system, which emphasised critical thinking and also inculcated life skills, allowed Ravi to dream big. He excelled in his studies and was encouraged to pursue his keen interest in science. Now, Ravi is a scholarship recipient at a prestigious university, studying marine biology and aspiring to bring sustainable fishing practices to his community.

Transformative power of AVMs

These case studies are a sneak peek into the transformative power of AVMs. By providing free, high-quality education, these schools

are not just breaking the cycle of poverty but they are also building a generation of leaders, thinkers and changemakers. The ripple effect of this initiative extends beyond the students to their families and communities, fostering a culture of learning and growth.

In the heartland of India, where dreams often fade under the weight of economic hardships, a beacon of hope and transformation stands tall. AVM provides free, high-quality education to children from economically- weaker sections. Established with an unwavering commitment to ensuring no child is denied quality education due to financial constraints, AVMs have become an enduring symbol of the Adani Foundation's vision of empowering communities.

A lifeline for underprivileged children

Born from a vision to break the chains of poverty through the power of education, AVMs redefine opportunities for underprivileged children, offering them a chance to realise their potential and reshape a bright future. These schools go beyond the scope of educational institutions. They are incubators of hope, values and community transformation.

Recognising the critical need for quality education in underserved rural and urban areas, the Adani Foundation launched the initiative of the AVMs. The aim was simple yet profound: to provide cost-free, holistic education to children from economically-disadvantaged backgrounds.

The AVM journey

The journey began in 2008 with the establishment of the first AVM in Ahmedabad, Gujarat. Over the years, the initiative expanded, reaching other locations such as Bhadreshwar in Gujarat, Surguja in Chhattisgarh, and Krishnapatnam in AP.

Each AVM is strategically located to serve distinct communities. For the tribal populations in Surguja, rural learners in Ahmedabad and children of fishing communities in Bhadreshwar and Krishnapatnam, these schools offer a lifeline to poor community folks. Catering to students from families with annual incomes below a certain threshold, AVMs focus on those who would otherwise have limited access to quality education.

The journey of AVMs has been one of growth and impact. Since welcoming 134 students 17 years ago, these schools have grown into pillars of educational transformation. Beyond classrooms, AVMs are building a legacy of empowerment and community transformation. Students demonstrating both academic excellence and financial need are offered the opportunity to pursue higher education in their chosen fields, opening doors to brighter futures for young minds.

Currently, over 3,500 students benefit from the support provided by AVMs.

What sets these schools apart is their unwavering focus on holistic development, an approach that resonates deeply with every parent and community member dreaming of a brighter future for their children. The curriculum nurtures Indian values, patriotism, critical thinking and life skills. From state-of-the-art infrastructure to a dedicated faculty, every aspect of the schools is tailored to create an environment conducive to learning and personal growth.

Adani Foundation's commitment to holistic education

Modern classrooms, science and computer laboratories, libraries, and sports facilities are standard across all AVMs. The emphasis on co-curricular activities, such as music, arts, and sports, ensures a holistic education. By blending traditional and modern pedagogical methods, these schools foster creativity and innovation among students. The integration of technology, including Generative artificial intelligence (AI) and continuous teacher development reflects the Adani Foundation's commitment to a progressive and inclusive approach to learning.

AVMs have garnered widespread recognition for their contributions to education and social welfare. The schools have been lauded at the national level for their innovative teaching methods, inclusive policies and commitment to excellence. Awards from educational and philanthropic organisations underscore the significance of the initiative.

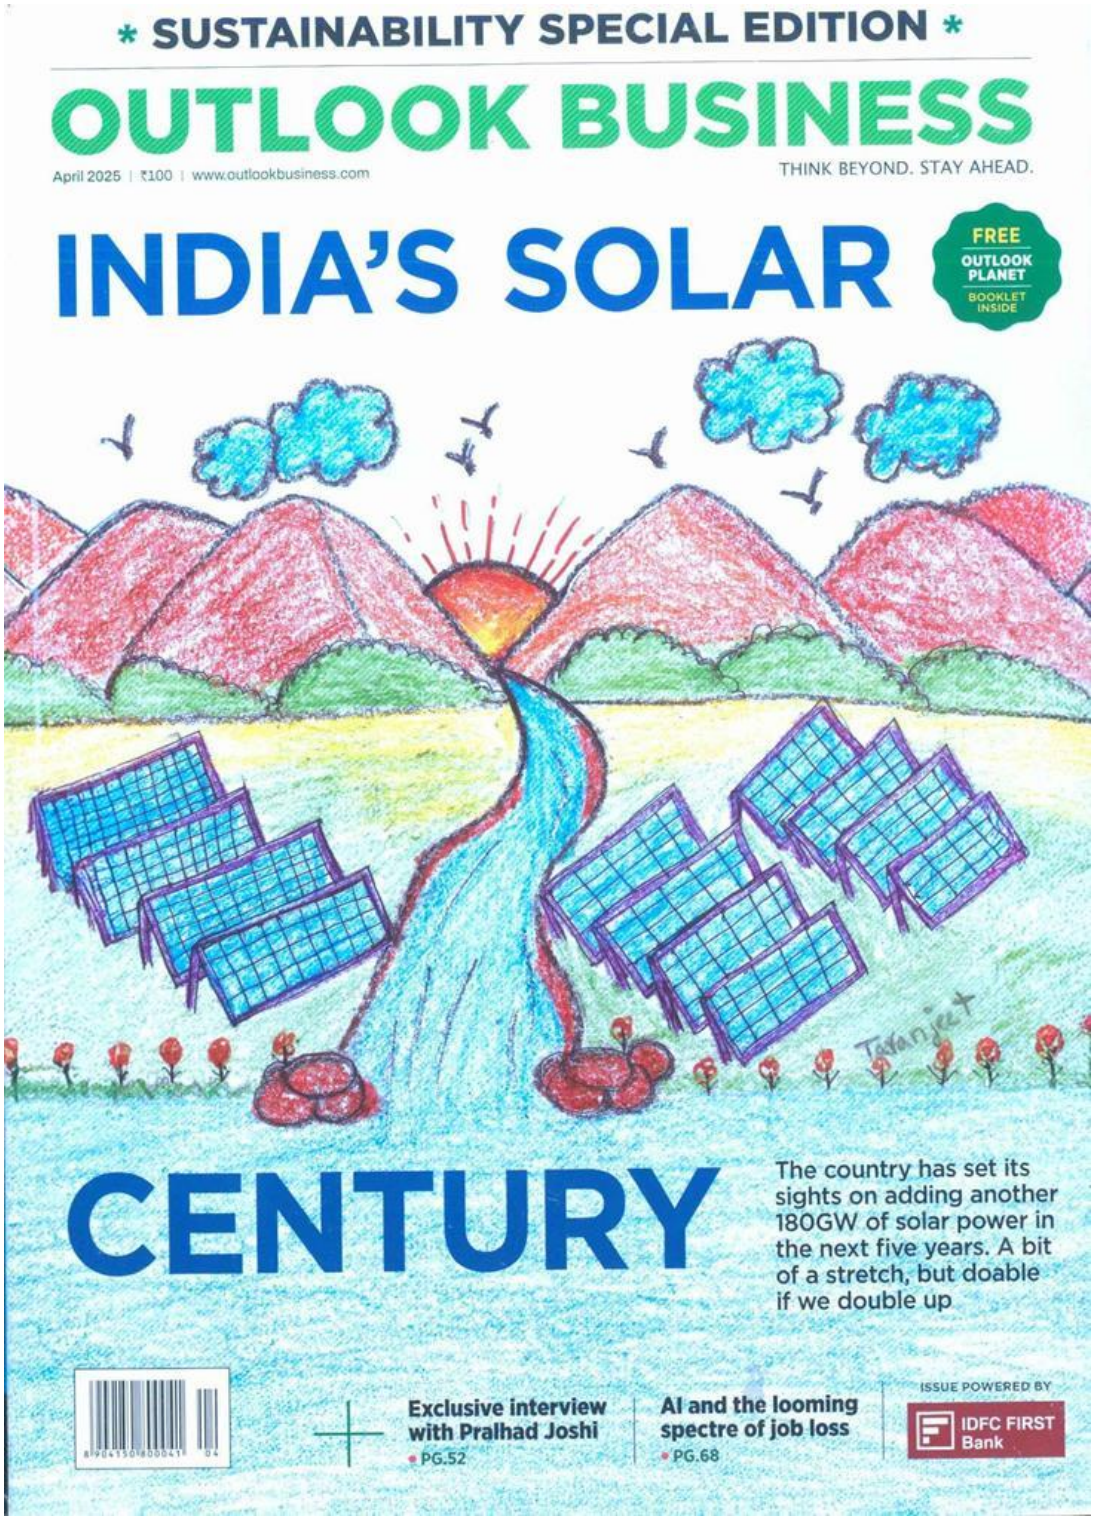

In a nation where education holds the key to breaking the cycle of poverty, AVMs stand as a beacon of hope and transformation. They embody the Adani Foundation's vision of a future where every child, regardless of economic constraints, has access to quality education. Through their unwavering commitment to holistic development and community empowerment, AVMs are redefining the window of opportunities, one student at a time.

INDIA'S SOLAR CENTURY

The country has set its sights on adding 180GW of solar power in the next five years. A bit of a stretch, but doable if we double up

Nandini Keshari and Aditi Ray Chowdhury

In the fictional world of Frank Herbert's *Dune*, Arrakis is a mythical desert and home to the universe's most-coveted resource—spice. Beyond its psychedelic properties, it is the fuel for space travel, so valuable that empires rise and fall for its control.

In the real world, deserts may never fuel space travel, but they can propel nations to a utopia, just as rarefied—decarbonised and emission-free. For evidence, picture this.

As the sun beats down on Rajasthan's Thar Desert, millions of photovoltaic silicon panels light up and turn into a shimmering ocean of energy in Bhadla, Jodhpur, home to the world's third-largest solar park. Spread across 5,700 hectares, this awe-inspiring facility pumps out 2.25GW of power, enough to light up 1.5mn homes.

Given its surreal desert setting, it might be easy to mistake Bhadla for a spectacular mirage. Except that it is not. Nor are the dozen other parks dotting India's blazing plains, which collectively make more solar power, behind just China (886.7GW) and the US (139GW).

However, if you think that is unreal, think again as India has set its sights on adding another 180GW of solar in the next five years—four times its record.

Here Comes the Sun

There were several drivers, but none more potent than two pieces of game-changing reform. "The introduction of a market-driven procurement model and reverse auctions, which awarded projects to the lowest bidder and shares to the second and third finishers, made the industry competitive," says Ajay Shankar, distinguished fellow, The Energy and Resources Institute (Teri).

In and beyond Bhadla, the Thar is emerging as an electromagnet for India's power players like ACME, which owns a massive power plant spread across 4,400 acre in Jaisalmer. The numbers are staggering: 37 lakh solar modules, 384 inverters and 1,200MW of green power that runs through 100 voltage step-up transformers before draining into the Fatehgarh pooling substation.

From here, high-density transmission lines relay the power to industries and homes within and beyond the state.

Once unimaginable, plants like these and the ones in Pawagada (2GW), Dholera (1GW) and Rewa (750MW) have now become inspiring symbols of India's rise as a global solar powerhouse. "Given the turbulent geopolitical context, India's unlikely achievement sends a strong signal that clear policy drives transformation," says Shalu Agrawal, director of programmes, Council of Energy, Environment and Water (CEEW).

Rainbow of Reforms

Eclipsed by a penumbra of financial, structural, regulatory and geopolitical challenges, India's solar ambitions seemed most improbable in 2010, with tariffs hovering around Rs 10 per unit—three times that of coal—and investors staring at a forbidding mix of high risks and uncertain returns. Add to this the hefty capital requirements, a fickle regulatory environment, unproven revenue models and a storage infrastructure ill-equipped to cope with issues endemic to renewable power, such as intermittency.

To clear these clouds, the government rolled out a rainbow of

Rooftop Solar: Waiting to Shine

Residential rooftop solar can be a game-changer in navigating the land availability challenge for utility-scale solar projects and reaching the 2030 target. But its adoption remains limited. As of January 31, grid-connected rooftop-solar capacity was 16.3GW, far from the targeted 40GW by 2022.

The biggest hurdle is the high upfront cost, at least Rs 2.5 lakh for a 5kW solar unit, while the monthly electricity bill of an average household rarely exceeds Rs 5,000. Plus, the presence of a reliable round-the-clock grid-connected power supply provides little incentive to shift.

Programmes like Pradhan Mantri Surya Ghar Muft Bijli Yojana, which provide subsidies and also has the provision to offer collateral-free loans of up to Rs 2 lakh at an interest rate of 6.75%, are promising. It has driven 10 lakh installations as of March 10 and the target is to reach 1 crore households by 2026-27.

But other challenges still remain like grid connectivity. Rooftop solar requires a two-way flow of power with the surplus power flowing back from the household to the grid. Experts say the distribution grid may not be strong enough to handle two-way power flows, causing grid-management problems.

Moreover, the awareness about skilled installers and maintenance still remains low. "It is almost impossible for a customer to know what the quality of the workmanship is when they are setting up a rooftop plant. The issues only become clear 3-5 years later," says Rohit Gadre, an expert on renewables financing with research agency BloombergNEF.

For rooftop solar to truly capture the Sun, faster smart meter rollouts, stronger distribution grids and stricter installation standards are required.

reforms, such as reverse auctions that awarded the lowest bidder, halving tariffs to Rs 4.3–4.8 per unit in 2016 and later to around Rs 2.5 per unit, making solar remarkably competitive with thermal.

"When paired with batteries for storage, it [solar energy] remains among the most cost-effective 24/7 power solution," says Amit Paithankar, chief executive of Waaree Energies, a solar-module manufacturer.

Similarly, the push for long-term power-purchase agreements (PPAs) enabled the industry to prioritise market expansion over short-term profits.

To bolster domestic manufacturing of high-efficiency solar modules, the government introduced the production-linked incentive (PLI)

scheme, which proved phenomenally successful, generating substantial investments and reducing India's import dependence.

Analytics service provider Rubix estimates that imports of solar cells and modules declined by 20% and 57% respectively in the first eight months of 2024–25.

"Supply chains have improved, aided by government support to domestic manufacturers. Our 1,300MW Rajasthan solar project, for example, now runs on modules from our own Jaipur facility," says Sumant Sinha, chief executive, ReNew, a Gurgaon-based renewable energy company.

The PLI scheme added a powerful impetus to government policies like the Domestic Content Requirement policy, which mandated local sourcing of solar cells and modules to fortify domestic supply chains. Complementing this are initiatives like Central Public Sector Undertaking Scheme, offering viability gap funding (VGF) to bridge the cost disparity between domestic and imported components and the Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabiyan (PM-Kusum), which makes domestic components mandatory for setting up decentralised solar-power plants.

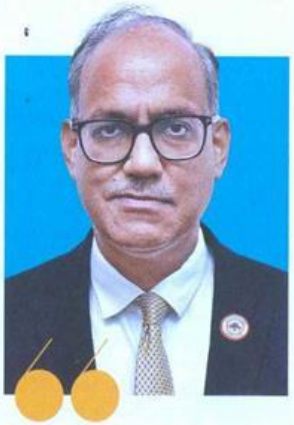

Buoyed by these policies India is now the third-largest solar-power producer globally, with solar energy forming 20% of its total power-generation capacity.

A massive $18.9bn in foreign direct investment has surged into the renewable space since 2000, $3.8bn of it in 2023–24 alone, representing a 51% annual jump. The renewable sector now employs 1mn-plus people, 318,600 of whom are in the solar vertical.

Task Cut Out

As part of its Nationally Determined Contributions (NDCs), India needs to expand the renewables portion of its total installed energy capacity to 50% by 2030. Given that renewables are already at 47%, it is on track to stroll past this milestone way ahead of time. The target it has set for itself—180GW in five years—is, however, daunting.

But why is India chasing such impossible targets? According to brokerage house Nuvama Institutional Equities, the country could face an acute power deficit around 2029–30, even if demand grows by a conservative 5% year-on-year. But with the rapid shift to electric vehicles (EVs) and the explosion of data centres, demand is set to rise much faster, leaving India with no choice but to scale up its solar-led renewables capacity exponentially, far beyond its NDC pledge.

In numbers, adding 180GW by 2030 would require sustained solar additions of 36GW per year, a breakneck speed that far exceeds current levels, pushing India into uncharted territory.

"Total backward integration for solar, wind and battery would be important to gain control over the cost of each component and ensure stable prices and timely deliveries," says a spokesperson of Adani Green Energy, the country's renewable energy leader.

Clearly, the path ahead is strewn with challenges, none more fraught than finance. There are concerns around infrastructure, storage, land acquisition, regulatory frameworks, bureaucratic inertia and supply chain vulnerabilities too.

Shoring up Finances

To get a sense of the staggering funding challenge, consider this: according to *Outlook Business* estimates, the country will need to muster $155bn in fresh investment to go from here to 280GW.

Mobilising funds of this magnitude would entail coordinated action of banks, private-equity players and multilateral lenders on an unprecedented scale.

Sure, policies like VGF and PLI have been instrumental in catalysing early growth. But given the enormity of the 2030 challenge, a much bigger role would have to be played by private investors, who, while showing interest, have tended to stay on the sidelines, baulking at the prospect of policy volatility and currency risks.

"Beyond banks and NBFCs

Slice Getting Bigger

[non-banking financial companies], private-equity players like Blackstone and Temasek invest in renewables, but they prefer cash-generating assets," says Ashwini Kumar Tewari, managing director, State Bank of India (SBI).

But how about the exposure of SBI itself in the sector—a mere 4% of its loan portfolio as of February 28? Actually, not bad at all. "The Rs 59,274 crore we loaned to renewables in this period represented a 64% jump over the previous year, with solar alone hogging Rs 43,800 crore," says Tewari.

Institutions such as the World Bank, Asian Development Bank and International Finance Corporation would raise their ante significantly if India structured bankable projects with assured, long-term returns. Green bonds and environmental social and governance (ESG)-driven investments have shown promise and given a stable regulatory environment, they could make a difference. But there is a caveat.

Lengthy Shadows

"Access to green bonds depends on financial strength. Top-rated companies like ReNew can secure green-bond funding at lower costs, while smaller, lower-rated firms may struggle," says Tewari.

Just as worrying is the fact that funding for the renewable energy sector from banks and other public-sector lenders has thus far been lopsided. Sure, the past decade has seen growing interest from private-equity entities, including global investment and pension funds, and independent power producers like Adani, JSW Energy and Tata Power—but that has scarcely made a dent with debts still making up 75% of the investments.

Adding 180GW by 2030 would require sustained additions of 36GW per year, a breakneck speed that far exceeds current levels

"During the six-to-18-month construction phase, lenders are exposed to greater risks," says SBI's Tewari as it is marked by substantial upfront investment and may be affected by construction delays, regulatory hurdles and market fluctuations. Project mismanagement, engineering design flaws and rising interest rates further exacerbate these risks.

Another disturbing factor is undersubscription (bids for planned projects falling short of the offered capacity) or, more specifically, its underlying causes, which are essentially bureaucratic inertia, infrastructural bottlenecks and the reluctance of beleaguered state distribution companies to commit to long-term agreements.

"Due to the expectation that the prices might fall further, discoms don't tie up for long-term contracts, creating off-taker risk for the developers," says Vibhuti Garg, director, South Asia, Institute for Energy Economics and Financial Analysis (IEEFA).

In the past year alone, undersubscription surged five-fold to 8.5GW in tandem with project cancellations that stood at a staggering 38.3GW of planned renewable capacity between 2020 and 2024, with 2023 being the worst year.

Forty key transmission projects are currently in limbo due to delayed power transmission approvals and clearances, stalling connectivity to renewable energy projects. Worse, the impending expiry of the Inter-State Transmission System (ISTS) waiver in June 2025 is likely to raise costs for developers, making new investments less attractive.

Fixing the Grid

Even if India wins its battle for funds, it will still need to fight fires

on other fronts, such as transmission and storage. "Evacuating power to the grid requires transmission capacity, substations and a smarter grid, which must evolve to manage complexities and ensure stability," says Waaree's Paithankar.

With its grid infrastructure growing at a far slower pace than its renewable energy generation capacity, India faces an alarming mismatch that leaves a great deal of the power it generates stranded. Take, for example, the states of Rajasthan and Gujarat, where generation has long outstripped the capacity of their grids to evacuate power, leading to a loss of up to 10% during peak sunlight hours. This gap is set to widen disconcertingly unless India ramps up its high-voltage transmission networks at pace with its expanding solar-power-generation capacity.

The much bigger headache still is storage. Solar energy is genetically intermittent and, therefore, without a robust storage infrastructure aligned with generation capacity, much of the green power India produces could go to waste.

"As the share of solar power increases in the country's electricity mix, it will need to be rapidly shored up to balance supply with demand and ensure smooth grid integration," warns Rohit Gadre, specialist-solar at research agency BloombergNEF.

According to multiple sources, for its installed capacity of 100GW, India must have an energy storage system (ESS) capacity of 113GW hours (GWh). Currently, its capacity stands at less than 1GWh. Looking ahead, India would require an estimated 336GWh of ESS capacity by 2030. The opportunity is not lost on the industry leaders.

"We aim to develop battery storage solutions and a 5GW+ hydro-pumped storage project [PSP] capacity by 2030. Already, we have a pipeline of hydro PSPs across Andhra Pradesh, Maharashtra, Tamil Nadu and Telangana," according to Adani Green Energy.

Cause For Cheer

Stumbling on Storage

Historically, the storage industry has been hamstrung by high costs and over-dependence on imports from countries like China for lithium, the lifeblood of batteries, exposing the industry to price shocks and supply disruptions.

Although the government has stepped in to charge up the power storage industry with measures like the new firm and dispatchable renewable energy (FDRE) tenders, which mandate power companies to bundle storage systems with their bids for projects, the results have been less than impressive. "Storage capacity addition must outpace early solar growth, and storage bid volumes must exceed new solar capacity," says Teri's Shankar.

Lithium alternatives like sodium-ion and solid-state batteries hold promise but are yet to prove their mettle at scale. The more established pumped-hydro storage comes with its challenges like high capital costs, long gestation periods and environmental concerns. Unless India addresses these issues in a mission mode, its lofty solar ambition faces the risk of major delays or disruptions.

Upstream, import tariffs have driven up the costs of solar cells and modules, and not just in terms of cash. Technologically, too, India lags its global peers.

For example, China has started shifting from the traditional Passivated Emitter and Rear Contact (PERC) technology to Tunnel Oxide Passivated Contact (TOPCon) for better efficiency and durability and Heterojunction Technology (HJT). However, manufacturers in India are still in the PERC age.

On Shaky Ground

Many large infrastructure projects in India have landed in hot water,

literally, because they haven't found the ground to stand on, with land acquisition proving to be an intractable challenge involving a thicket of sanctions, approvals, compensations and land-use conflicts.

For land-hungry solar power projects, such delays could be deadly. A typical solar farm needs 5,000 acres per gigawatt of power. In other words, for its ambitious target of 280GW of installed solar capacity, India would need about 1.4mn acres of free land—roughly eight to 10 times the size of Delhi.

"Finding contiguous land near substations is a major hurdle—fragmented parcels raise costs. With rapid sector growth, land procurement is getting harder, driving up right-of-way and real estate costs. Greater transparency and ease in allocating government land would help immensely," says ReNew's Sinha.

The bidding process complicates the issue further as it tends to favour developers who own the land required for a project. This escalates capital costs with funds locked in for extended periods before a project even starts. Meanwhile, government intervention remains minimal.

"In any infrastructure project, land acquisition has always been a challenge. However, some of the states have been forthcoming and have offered government land for renewable energy projects including solar parks," says Nikhil Dhingra, chief executive, ACME Solar, a major renewable energy company.

Another major challenge is securing the right of way for transmission lines, which must traverse areas governed by state governments, local authorities and private agencies.

Despite these challenges, land acquisition constraints are expected to ease over time, helped by shifts in policy and technology.

When paired with batteries for storage, it [solar energy] remains among the most cost-effective 24/7 power solutions

Innovative models are also emerging to reduce land dependency, such as community-owned solar projects, where farmers co-invest or leverage their land to generate and sell solar power.

Another potential game-changer is floating solar, which eliminates land acquisition challenges. By using water bodies floating solar farms provide a vast, untapped resource for expansion.

Still a Long Way

Although renewables including solar are hogging the limelight, fossil-fuel-energy sources like thermal are set to be at the centre stage of India's energy theatre for the foreseeable future. They must if India wishes to maintain a 7–8% growth momentum over the next decade. What India cannot afford, however, is to lag behind in the global transition race and it must, therefore, do what it takes to keep pace with, if not lead the frontrunners.

Efforts are already underway to address challenges in energy storage, transmission and beyond. To emerge as a preferred destination for impact investors, India is ringing in reforms, stabilising its regulatory framework and taking steps to cushion the industry from currency and geopolitical shocks.

Meanwhile, standalone storage tenders are gaining ground and innovations addressing lithium shortages for battery storage are emerging. "Alternative technologies like flow and sodium-based batteries are already in the works," says Garg of IEEFA.

After developing a kilowatt-scale vanadium redox flow battery for grid-level storage, researchers at premier engineering institutions, including IIT Madras, are now exploring alternative flow battery chemistries using lead, zinc, iron and organic redox-active materials to cut costs. In collaboration with Hindustan Zinc, the institute is also developing a rechargeable Zinc-Air battery prototype—praised for its affordability, safety and long-duration storage.

"India's solar industry needs a mix of government incentives and industry-led initiatives. Capital subsidies, lower electricity costs, affordable land and low-cost funding are key," says ReNew's Sinha.

Alongside, the domestic supply chain needs to be strengthened and diversified with an emphasis on Make in India if the country aspires to become the Arrakis of the world—a self-sufficient global supplier of a coveted resource that is reshaping life itself. OB

THE NEW OLIGARCHS

For years, activists around the world have argued that extreme concentration of wealth is leading to extreme concentration of power, allowing an ultra-rich few to tighten their grip on governments, economies, and media. America is now the cradle of the new oligarchs

SUPPORT BY BILLIONAIRES Billionaires Mark Zuckerberg (curly hair), Jeff Bezos (bald), and Elon Musk (thumbs up) at the Donald Trump's inauguration in January. Musk helped bankroll Trump's campaign to the tune of $30 million. He refers to himself as "the first buddy"

TILL recently, the term "oligarch" was popularly associated with ultra-rich Russians who had gained control of significant portions of the economy in the late 1990s, especially in energy, metals and natural resources. Many of these had close ties with government officials, particularly the president, leading some to characterize modern Russia as an oligarchy intertwined with the state. Now, much the same is being said about post-Trump America.

In his farewell speech, former US President Joe Biden warned of the rise of an oligarchy in the US that "literally threatens our entire democracy". He said that a new Gilded Age of "robber barons" was in danger of eroding hard-won freedoms. The group he referred to is headed by Elon Musk, the

world's richest man and now the most powerful civilian the world has ever seen. Tesla and X owner Musk helped bankroll Trump's campaign to the tune of $30 million, and since then, he has been a constant at the president's Palm Beach base and at the Oval Office in the White House, sitting in on cabinet meetings and other official functions. He refers to himself as "the first buddy".

The world's richest man is now seemingly inseparable from the world's most powerful office. Musk has singlehandedly cut thousands of jobs under his DOGE (Department of Government Efficiency) and even won praise from Trump and his MAGA supporters for his efforts. When Tesla cars and showrooms were attacked because of the DOGE jobs massacre, Trump promptly posed on the White House lawns with a brand-new red Tesla he says he had bought to show solidarity with is new best buddy. Some are calling it "broligarchy".

He is not the only one using his financial clout and closeness to Trump to do the latter's bidding. Other billionaires like Meta's Mark Zukerberg and Amazon founder Jeff Bezos, who also owns the storied *Washington Post*, have also used their weight and influence to back Trump. There is also another billionaire with Indian origins, Vivek Ramaswamy, who also fought the 2024 elections as a presidential candidate before dropping out and endorsing Trump. He was appointed by Trump to join Musk at DOGE, but dropped out to focus on his political ambitions to become governor of Ohio, where he was born, as a Republican candidate.

In the latest issue of *The Atlantic*, Anne Applebaum writes: "A group of American oligarchs want to undermine European institutions because they don't want to be

Democratic Senator Bernie Sanders recently said: "Of course the oligarchs run Russia. But guess what? Oligarchs run the United States as well, and it's not just the United States, it's not just Russia; Europe, the UK, all over the world, we're seeing a small number of incredibly wealthy people running things in their favour."

VENTING ANGER
People protest against President Donald Trump and Elon Musk as well as the rise of oligarchy in the US. A new oligarchy is making itself heard."

regulated." She was referring to Big Tech and Musk. Adds Onur Bakiner, a well-known political scientist: "I believe that the incoming Trump administration points to a historical transformation in American capitalism. A new oligarchy is making itself heard."

For years, Oxfam has been warning that extreme concentration of wealth is leading to extreme concentration of power, allowing an ultra-rich few to tighten their grip on governments, economies, and, more importantly, the media. "The crown jewel of this oligarchy is a billionaire president, backed and bought by the world's richest man Elon Musk, running the world's largest economy," said the charity's executive director Amitabh Behar.

The US has contended with oligarchy in the past. In 1948, Supreme Court (above) Justice William O Douglas argued that: "Power that controls the economy should be in the hands of elected representatives of the people, not in the hands of an industrial oligarchy".

For long, political scientists have warned that when power belongs to just a few, democracy suffers as the inequality gap widens. Meta and Amazon each donated $1 million to Trump's inauguration fund. Zuckerberg abruptly ended Meta's third-party fact-checking. Bezos killed a Kamala Harris endorsement from the paper's editorial board during the campaign, and said the paper would end its long-standing practice of endorsing presidential candidates.

An activist group recently posted about advertising campaigns they were running, calling out Musk and Trump for the "damage" they were doing, which X and Meta refused to air.

in the hands of an industrial oligarchy".

Tellingly, the world's three richest men, Musk, Bezos and Zuckerberg (who owns Facebook, Instagram and WhatsApp) were seated in the front row at Trump's inauguration, along with Apple's Tim Cook. Equally tellingly, Ruth Marcus, a long-time editor and columnist for *Washington Post* opinion section, resigned recently after her column criticizing owner Jeff Bezos' changes to the section was scrapped. Bezos announced last month that the opinion section would begin writing in "support and defence" of "personal liberties and free markets" and would not publish viewpoints opposing those principles. Writing to Bezos and publisher Will Lewis, who she says killed her column, Marcus warned that the *Post*'s new policy "threatens to break the trust of readers that columnists are writing what they believe, and not what the owners has deemed acceptable." Bezos and other CEOs have also come under fire for removing DEI—diversity, equity and inclusion—initiatives, a long-time target of conservatives. Daniel Kinderman, associate professor of political science at the University of Delaware who has researched how businesses respond to right-wing populism, said current income inequality in the United States constitutes "oligarchic conditions". "Since the late 2000s, the top one percent of Americans, roughly 3 million people, have owned upwards of one-third of the wealth and capital in our country. It's now about 35 percent. The bottom 50 percent of Americans, which is about 150 million people,

The billionaire and so-called oligarch George Soros (above) is familiar to Indians because the ruling party has constantly complained about his "interference" in local politics and support for the Congress party. Soros says he supports progressive and liberal political causes through his Open Society Foundation, but numerous far right theorists, in many other countries, have claimed that Soros is a dangerous "puppet master" behind alleged global plots.

Even in India, Gautam Adani (right) and Mukesh Ambani are routinely described by the western media as "Oligarchs" because of their supposed closeness to PM Modi. Modi faced a question from an American journalist about Adani's influence during his joint press conference when he met Donald Trump last February in the US. Both Adani and Ambani control sections of the media apart from their other wide-ranging business interests.

own about 1.5 percent of wealth," he said, adding: "This is oligarchy 2.0. It's kind of a turbocharged technological oligarchy that has control over media and technology." While acknowledging the corporate elite has always influenced government, Kinderman noted that the country is now in uncharted territory because the current top CEOs have more control over the public discourse.

The original definition of an oligarchy dates back to Ancient Greece and means "rule by few", a form of government in which power rests with a small number of people. Business groups may be considered oligarchies if they meet the following criteria: They are the largest private owners in the country. They possess sufficient political power to influence their own interests. The owners control multiple businesses, coordinating activities across sectors.

Currently, the top five richest men in America control over a trillion dollars in wealth. They also have control over sections of social media and traditional media. We also have the examples of powerful billionaires like Australian-born Rupert Murdoch who owns *Fox News* in America, which is pro-Trump and has the highest viewership in the country. His company News Corp, also owns hundreds of local, national, and international publishing outlets around the world, including in the UK (*The Sun* and *The Times*), in Australia (*The Daily Telegraph*, *Herald Sun*, and *The Australian*), in the US (*The Wall Street Journal* and the *New York Post*), book publisher HarperCollins, and the television broadcasting channels *Sky News Australia* and *Fox News* (through the Fox Corporation).

There is also billionaire George Soros, familiar to Indians because the ruling party has constantly complained about his "interference" in local politics and support for the Congress party. Soros says he supports progressive and liberal political causes through his Open Society Foundation, but numerous far right theorists, in many other countries, have claimed that Soros is a dangerous "puppet master" behind alleged global plots. Both have been called oligarchs.

As Democratic Senator Bernie Sanders recently said: "Of course the oligarchs run Russia. But guess what? Oligarchs run the United States as well, and it's not just the United States, it's not just Russia; Europe, the UK, all over the world, we're seeing a small number of incredibly wealthy people running things in their favour."

Oligarchy in America can be compared to what was termed "crony capitalism" in many Asian countries in the late 1990s where politicians and business leaders were in bed together, as the expression goes. Throughout history, power structures considered to be oligarchies have often been viewed as coer-

Former President Jimmy Carter in 2015 characterized the United States as an "oligarchy with unlimited political bribery" following the 2010 *Citizens United vs FEC* Supreme Court decision, which removed limits on donations to political campaigns. This led to an influx of anonymous donations, allowing affluent donors to sway elections and policymaking without accountability.

cive, relying on public obedience or oppression to exist. Aristotle pioneered the use of the term as meaning rule by the rich, contrasting it with aristocracy, arguing that oligarchy was the perverted form of aristocracy.

The consolidation of power by a dominant religious or ethnic minority can also be considered a form of oligarchy. Examples include South Africa during Apartheid. Oligarchic rule was often tied to the legacy of colonialism. Robert Michels, the well-known sociologist, expanded on this idea in his Iron Law of Oligarchy. He argued that even democracies, like all large organizations, tend to become oligarchic due to the necessity of dividing labour, which ultimately results in a ruling class focused on maintaining its power. Other countries perceived as oligarchies included Columbia, Indonesia, Russia, Singapore and America. The rule of Ferdinand Marcos from 1965 to 1986, was described as an era of oligarchy in the Philippines.

Even in India, Gautam Adani and Mukesh Ambani are routinely described by the western media as "Oligarchs" because of their supposed closeness to Prime Minister Narendra Modi. In fact, Modi faced a question from an American journalist about Adani's influence during his joint press conference when he met Trump last February in the White House. Incidentally, both Adani and Ambani control sections of the media apart from their other wide-ranging business interests.

American oligarchy is not new, it is just more powerful and able to wield more influence than ever before. Former President Jimmy Carter in 2015 characterized the United States as an "oligarchy with unlimited political bribery" following the 2010 Citizens *United vs FEC* Supreme Court decision, which removed limits on donations to political campaigns. This led to an influx of anonymous donations, allowing affluent donors to sway elections and policymaking without accountability. Such financial power often translates into political power, undermining the democratic principle of equal representation.

Unforeseen events also give rise to oligarchy. During Covid, Big Pharma acquired unprecedented influence over governments across the world. Now, we are seeing how the ultra-rich have bought themselves access to the Oval Office. Musk has been photographed with one or more of his numerous children playing in the Oval Office with Trump looking on in approval. So far, Trump has 13 billionaires—and counting—in his proposed administration, their combined net worth is more than the GDP of 172 countries, as *US News & World Report* calculated. Even without Musk, Trump's cabinet would be the richest▶

The focus is now on America and the rise of the new oligarchs mainly because it is the most powerful country in the world, and the richest. There are signs, however, that some sections of American society are fighting back. Over 2,50,000 people ended their *Washington Post* subscriptions after Bezos vetoed the paper's planned endorsement of Kamala Harris.

in history.

Former US President Biden highlighted a "tech industrial complex," akin to Dwight Eisenhower's 1961 warning about the "military-industrial complex." Jeffrey A Winters, in his book *Oligarchy* (2011), explained that oligarchs defend their wealth by using power and influence. Today, economic power concentrated through technological advancements, like AI, is intensifying oligarchic tendencies globally.

China is ostensibly a communist country, but Chinese companies like Alibaba, Tencent, Huawei and BYD exemplify the proximity between corporate power and government influence in China. These firms play a pivotal role in advancing state-led initiatives such as the "Made in China 2025" programme and the Belt and Road Initiative, which aim to bolster China's technological and geopolitical dominance. BYD, a leader in electric vehicles, has benefited from substantial government subsidies and policy support and has blurred lines between corporate ambitions and state power in China's strategic vision. In fact, both the dominant superpowers—the US and China—have sought to leverage global resources and the reach of their respective corporate elite to advance their strategic interests.

Musk is being wooed in India by billionaires Mukesh Ambani and Airtel's Sunil Mittal for access to his Starlink satellite service and is also planning to launch Tesla in India. India is also witness to the power and greed of the East India Company, where it was historically proven that multinational corporations do not just want to expand their businesses, but also want a share of power.

The focus is now on America and the rise of the new oligarchs mainly because it is the most powerful country in the world, and the richest. There are signs, however, that some sections of American society are fighting back. Over 2,50,000 people ended their *Washington Post* subscriptions after Bezos vetoed the paper's planned endorsement of Kamala Harris. Millions of social media users have dumped Meta platforms and X for other social media sites since they rolled back their content moderation policies. There is power of the new oligarchs and, in a democracy, there is power of the people. Two Harvard Professors Archon Fung and Larry Lessig, wrote recently that the Trump era could be an inflection point that will force Americans to finally confront the country's trend towards rule by the wealthy, and that it's by no means certain that direction can be changed anytime soon. ■

GLOBAL CHIP RACE SHIFTS; A Spotlight Moment For India?

Still competing with chip giants, India's rise in the East raises a crucial question: Are global chip dynamics shifting? The contrast is striking—while the West faces stalled and delayed manufacturing, Asian facilities are rapidly turning 'operational.'

SHUBHA MITRA

Less than five years ago, the world scrambled for semiconductors amid the pandemic. Chips were the new oil, and the West rushed to counter China and East Asia's dominance. But today, the landscape has shifted. Billions in subsidies. Political promises. Dreams of semiconductor independence. Yet, Europe's chip-making ambitions are faltering—stalled by bureaucracy and economic realities. Factories remain unfinished, investments waver, and Asia continues to lead.

But in a surprising twist, it is not just Taiwan and South Korea driving the industry—India is emerging as a player. Once an outsider in the silicon supply chain, it is quietly drawing investments, reshaping the semiconductor map and the power structures that come with it.

Reports in recent months highlight widespread delays and halts in global semiconductor projects—primarily in Europe and, to some extent, the US. Industry giants like Wolfspeed and Intel have reported suspensions at various fabs, while the GlobalFoundries-STMicroelectronics project in Crolles, France, was recently put on hold for reasons still unclear.

In response, companies are revising investment strategies, optimising costs, and exploring new financing options to stay on course. The question lingers: Is this a momentary disruption, or the start of a deeper shift in the global semiconductor industry?

The projects in limbo

At the beginning of this year, Bloomberg reported that the 58:42 fab venture between GlobalFoundries and STMicroelectronics in France had hit a roadblock. Construction stalled over the past 18 months, leading to a pause. Announced in July 2022 and finalised in June 2023, the €7.5 billion project—backed by 'European Chips Act' funding—was set to build a 12-inch (30.48cm) semiconductor fab alongside their existing Crolles facility. Production was slated for 2026, with an annual output of 620,000 wafers.

Meanwhile, Wolfspeed has delayed its $3 billion semiconductor plant in Saarland, Germany. In a June 2024 report, Reuters called this a setback for the European Union's efforts to strengthen

local chip production and reduce dependence on Asia. Originally planned for electric vehicle (EV) chip production, the project has been pushed back by two years, with construction now expected to begin in mid-2025 as Wolfspeed seeks additional funding amid internal investment pressures and broader market challenges in Europe and the US.

Across the Atlantic, Wolfspeed announced further restructuring, closing its 150mm Durham fab in North Carolina and another facility in Texas, alongside a 20% workforce reduction. The company cited struggles in the EV market as the driving force behind these moves. In 2024, a Cox Automotive report showed US EV sales rose 7.3% to 1,301,411 units, making up 8.1% of total sales (up from 7.8% in 2023). In contrast, European BEV registrations fell 10.2% in December, with annual volumes down 5.9%—driven by sharp declines in Germany (-38.6%) and France (-20.7%), according to ACEA (European Automobile Manufacturers' Association).

Intel has also been grappling with delays. Its Magdeburg, Germany, fabs—Fab 29.1 and Fab 29.2—have been postponed due to EU subsidy approval delays and soil removal requirements. Originally set to begin in summer 2024, construction will now start in May 2025. The two fabs, intended to house Intel's advanced 14A (1.4nm) and 10A (1nm) manufacturing technologies, were initially expected to start production by late 2027. That timeline has now slipped to between 2029 and 2030.

Intel's Ohio-based chip projects face similar setbacks. The $20 billion investment in two fabs in Licking County, announced in January 2022, was expected to be operational by 2025. However, weak market demand and delayed government subsidies have pushed construction to 2026-2027, with production now slated for 2027-2028.

On the other side of the coin

In a separate development, three semiconductor projects made headlines recently. German-based Infineon has officially started constructing a new backend semiconductor factory in Thailand. Indian company Indichip, alongside Japan's YMTL, has made a joint investment of $1.6 billion to establish India's first silicon carbide (SiC) wafer manufacturing facility. Last but not least, Fuji Electric has begun mass production of 6-inch

(15.24cm) SiC power semiconductors at its facility in Japan.

On January 14, 2025, Infineon began constructing its new semiconductor backend production facility in Samut Prakan, south of Bangkok, Thailand. The first phase of the facility is expected to start operations by early next year, with plans for flexible capacity expansions based on market demand.

Indichip Semiconductors Ltd, an emerging power semiconductor startup in Amaravati, India, has partnered with Japan's Yitoa Micro Technology (YMTL) to invest ₹140 billion (around $1.6 billion) in establishing a silicon carbide wafer manufacturing plant in Andhra Pradesh.

The initial production capacity is expected to reach 10,000 wafers per month, with plans to scale up to 50,000 wafers per month within two to three years. Initially focusing on 6-inch (15.24cm) SiC wafers, the company plans to transition to 8-inch (20.32cm) wafers.

Furthermore, Fuji Electric has started mass production at its facility in Aomori Prefecture, Japan, as of December 2024. The company had initially planned to begin production in the summer of 2024, but delays due to lower global demand for EVs pushed back the schedule.

Besides, China's influence in the semiconductor industry is undeniable, with major players deepening their regional investments. At GlobalFoundries' 2024 summit in Shanghai, the company clarified that its future strategy hinges on local partnerships rather than setting up its own facilities.

Likewise, STMicroelectronics has strengthened its presence through key collaborations with Sanan Optoelectronics and Hua Hong Semiconductor. European firms like Infineon and NXP are also ramping up their 'Made in China' efforts, recognising that despite geopolitical tensions, China's demand remains crucial for growth.

Why the West is at the heart of these delays

The semiconductor story is not just about technology—it is about power, politics, and shifting global dynamics. Production spans several specialised stages—design, fabrication, assembly, testing, and packaging—each distributed across different regions.

US and European firms dominate semiconductor design, with Nvidia leading in AI chips and Arm's technology embedded in most consumer electronics. Taiwan's TSMC manufactures 60% of the world's chips and 90% of advanced semiconductors, while South Korea remains a key supplier of memory components. Assembly, testing, and packaging are concentrated in China, Japan, and South Korea, reinforcing East Asia's dominance.

This regional concentration makes the supply chain highly vulnerable. A disruption in one region can ripple across industries worldwide, intensifying the urgency for diversification as geopolitical risks escalate.

With Joe Biden's term having ended on January 20, 2025, uncertainty looms over the US CHIPS Act of 2022 and the return of Trump's

tariffs. The Western world is bracing for a seismic shift in semiconductor policy.

Meanwhile, political and economic turbulence in Germany and France—Europe's largest economies—is undermining the EU's semiconductor ambitions. The Russia-Ukraine conflict has driven energy costs to record highs, disrupting European industry. Even if a ceasefire emerges under a Trump administration, the economic fallout will persist.

Germany's reliance on Russian natural gas has slowed its economy, while France grapples with rising deficits, tax hikes, and spending cuts. The surge of far-right conservatism in both nations adds further uncertainty, stalling industrial projects. As a result, Germany's semiconductor ambitions are faltering, and France's chip plans remain in limbo.

According to *DIGITIMES Asia*, the current Trump presidency could further worsen these challenges, adding geopolitical and economic uncertainty and making it harder for Europe to regain its semiconductor competitiveness.

A *Deloitte* report highlights that Europe consumes twice as many chips as it manufactures, making it highly dependent on Asian suppliers. The region's reliance on East Asian chip imports has already caused disruptions, especially in industries like automotive, aerospace, and consumer electronics. The EU and the US efforts to localise chip production face two major challenges:

1. High costs. Building fabs in Europe or the US is significantly more expensive than in Asia.

2. Longer supply chains.

Even if European and American fabs increase production, the supply chain remains lengthy and expensive.

And this is precisely where India comes in.

The advent of India and why India

According to *Reuters*, India's semiconductor market is projected to reach $63 billion by 2026, signalling its growing influence in the global chip economy.

Global supply chain disruptions and escalating geopolitical tensions have prompted semiconductor companies to reconsider their manufacturing and investment strategies. Despite the European Union's €43 billion Chips Act, both the US and EU still lack substantial manufacturing capacity, making them dependent on external sources.

Meanwhile, East Asia continues to dominate semiconductor production, with Taiwan, South Korea, Japan, and China accounting for over 70% of global chip manufacturing.

But this concentration comes with risks. Taiwan's geopolitical vulnerability, tensions between the US and China, and potential disruptions in South Korea and Japan have fueled concerns about supply chain security. Countries are now actively looking for alternative and 'friendly' manufacturing destinations, and India might be an attractive option.

The country offers cost-effective labour, a large talent pool of English-speaking engineers, and favourable government policies. As Sarah E. Kreps, Professor at Cornell University, in a Wired report, points out:

"India has always had the potential, but until now, other semiconductor hubs have met the demand. This is India's moment to capitalise on its strengths."

Government initiatives and the talent pool

The Indian government is well aware of this "strength." It has responded to these opportunities with aggressive policy measures, like the India Semiconductor Mission (ISM). Union Minister Ashwini Vaishnaw even announced that the first 'Made-in-India' chips would be produced by mid-2025.

India's semiconductor strategy is manufacturing chips and creating a holistic ecosystem that includes design, testing, packaging, and research. The country already has a strong foothold in semiconductor design, with companies like Intel, AMD, and Qualcomm operating large R&D centres in Bengaluru and Hyderabad. The next step is to convert design expertise into large-scale manufacturing.

The India Brand Equity Foundation (IBEF) highlights several reasons why India is emerging as a key semiconductor hub. India's strengths include a cost-effective workforce and a vast pool of skilled engineers, making it an attractive semiconductor hub. Strategic policies, such as the ₹760 billion Production Linked Incentive (PLI) scheme, encourage chip production, while the Design Linked Incentive (DLI) scheme supports domestic design startups. Additional measures include special economic zones (SEZs), semiconductor parks, and duty exemptions.

Competing with East Asia: Can India catch up?

Despite its advantages, India faces stiff competition from well-established semiconductor giants like Taiwan and South Korea. TSMC, Samsung, and Intel continue to expand their production in Asia and the US, and China is investing over $150 billion in semiconductor development.

However, the global semiconductor landscape is not just about advanced chip manufacturing. Many industries—such as automotive, industrial, and telecom—still rely on mature node chips, an area

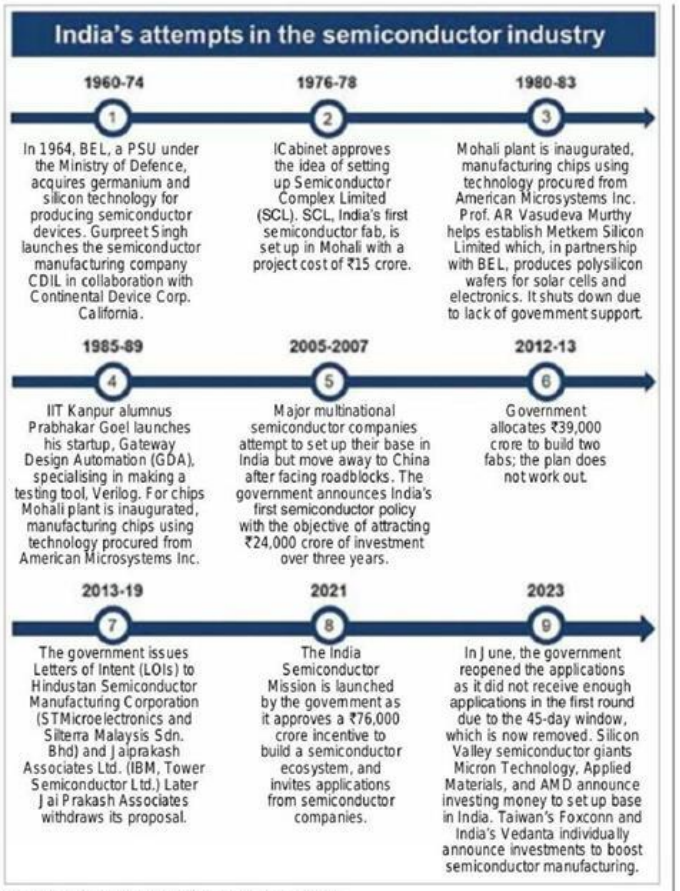

Fig. 1: India's semiconductor journey (Source: IBEF)

where India can play a significant role. Moreover, India's partnership with Powerchip Semiconductor Manufacturing Corporation (PSMC) in Gujarat and Vedanta-Foxconn's $19.5 billion project indicate that the country is serious about establishing long-term semiconductor manufacturing.

What can be India's semiconductor future?

As Western nations look for reliable and geopolitically stable partners, India is positioning itself as a manufacturing hub that complements—not replaces—existing chip powerhouses. While it may take years for India to match Taiwan's high-end foundry capabilities, the country is well on its way to becoming a trusted semiconductor manufacturing and design partner, as global investments keep pouring in. INVEST MADHYA PRADESH

PM Shri Narendra Modi launched 18 new policies for MP at the Global Investors Summit

Endless Possibilities, Limitless Opportunities

Given CM Yadav's vision, and double engine government, Madhya Pradesh is set to emerge as one of the top three state economies, with a size of more than $2 trillion in 2047

The Venue: the grand Indira Gandhi Rashtriya Manav Sangrahalaya, which is located near the picturesque Upper Lake in Bhopal, the Capital of Madhya Pradesh.

The Mega-Event: the hugely-successful 'Invest Madhya Pradesh – Global Investors Summit 2025,' held on 24-25 February, with its ambitious theme, 'Endless Possibilities,' and aim to fulfil it.

Madhya Pradesh Chief Minister Dr Mohan Yadav said that the Global Investors Summit (GIS) was not an end, but marked a beginning, and it was not an investment platform to woo Indian and global investors, but an event that would transform the possibilities into opportunities. ***"We will create new policies for investors, create employment opportunities for the youth, and strengthen infrastructure. It (GIS) will prove to be a milestone for the state government's economic system and progress," he remarked. The state, he added, will become the "Flagbearer of a Developed India.'"***

CM Dr. Mohan Yadav addressed the Tech-Invest Summit on the first day of the Global Investors Summit

Prime Minister Narendra Modi, who inaugurated the event, too linked the future of India with that of Madhya Pradesh. In its recent Global Economic Prospects Report, the World Bank stated that India will remain the fastest-growing major economy for the next two years. In sync with this growth, the PM said that Madhya Pradesh is "becoming a preferred business destination." He added, ***"This is the time, and right time, to invest in the state. Two decades ago, people used to stay away from investing here, and now it is the top state for investment. The speed of development has doubled after the formation of the 'double-engine' government."***

Such sentiments were proved right at the end of the Summit, which garnered investment promises and

proposals worth Rs 30.77 lakh crore, with the potential to create 21.4 lakh jobs, and positioned the state as "India's most business-friendly state." More than 90 MoUs were inked between the state and investors, as the event was attended by 25,000 people, including top-notch industrialists. The GIS witnessed more than 600 B2B meetings, and over 500 B2G ones, including one-on-one discussions with 70 businesspersons. Leading Indian and global private and state-owned groups such as Mukesh Ambani's Reliance Industries, Adani Group, Avaada Group, Pepsico, Bridgestone, Power Finance Corporation (PFC), and Rural Electrification Corporation (REC) announced mega projects.

The Adani Group committed a massive Rs 10 trillion to build a greenfield smart city, an airport, and a coal-gasification plant. It proposed to pump in another Rs 1.1 trillion for projects in areas such as pumped storage, cement, mining, smart meters, and thermal energy. NTPC, a state-owned energy giant, pledged Rs 1.2 trillion to construct a 2-gigawátt renewable power plant, apart from Rs 80,000 crore for two greenfield nuclear power plants. Not to be left behind, Reliance Industries announced that it would spend Rs 60,000 crore on biofuel projects. Green energy was the flavour of the event, with Avaada's intention to invest Rs 50,000 crore in solar energy, pumped hydro storage, battery storage, and solar modules. Torrent Power promised Rs 26,500 crore for renewable energy projects.

Transformative Governance & EoDB

As most states, even the progressive ones, have realized in the past, while attracting lucrative promises, and mouth-watering plans is easier during an investors summit, converting them into reality is a huge challenge. Hence, Madhya Pradesh has implemented a robust screening and monitoring process, which will ensure on-the-ground investments and construction on a fast-track basis. The Cabinet Committee on Investment Promotion will evaluate large-scale proposals, and ensure their alignment with the state's industrial vision, and long-term economic goals. To tackle bottlenecks such as land acquisition, labour laws, infrastructure, and red tape in getting requisite permissions, the state has initiated reforms in these areas to improve the 'Ease of Doing Business (EoDB)' for investors.

CM Mohan Yadav in a meeting with Adani Group chairman Gautam Adani

Already, Madhya Pradesh ranks high among Indian states in the World Bank's EoDB ranking, and is seventh in the Export Preparedness Index (2021). During the 500 days of CM Yadav's tenure, the state decriminalized 64 provisions across eight laws, reduced land allotment period from 59 to 29 days, and launched a single-window system that offers 54 services across 14 state departments. It has allocated 876 acres to more than 400 MSMEs and large industries, and initiated the development of 39 new industrial areas, and the expansion of the Narmadapuram Industrial region. Not to

CM Dr. Mohan Yadav addressing the MoU exchange session

forget that Madhya Pradesh is situated in the influence area of the Delhi-Mumbai Industrial Corridor.

Digital governance is the key. The state's policy-makers are aware of this aspect of growth. Digitization of business processes such as online registration, licensing, and permit approvals significantly reduce time, efforts, and costs for entrepreneurs. As mentioned earlier, 'Invest MP SingleWindow System' streamlines clearances and approvals, and ensures timely and transparent responses to boost investor confidence. Smart cities, through the implementation of 'Integrated Command Control Centers,' offer platforms that enable the policy makers to analyze data for faster decision-making process, provide citizen-centric online services that enhance the business environment. The aim is to create a larger ecosystem within the state to help businesses thrive, and earn attractive returns.

During GIS, the state released a document that detailed policies to boost manufacturing. These included investment promotion incentives of up to 40% of investment in plant and machinery, and multipliers to capital subsidy – 1.5x on employment generation, 1.2x on exports, and 1.2 x to promote priority areas. Apart from infrastructure development assistance in areas such as power, roads, and water, there is a power tariff rebate of Rs 1 per unit. There are concessions for export-oriented units, and to obtain quality certification, and energy audit expenses, apart from financial assistance for patents and IPRs. There are several fiscal incentives for infrastructure development. Policies such as Madhya Pradesh Startup Policy, Madhya Pradesh Mukhyamantri Udyam Kranti Yojana, MSME Development Policy, and Industrial Promotion Policy aim to boost the entrepreneurial culture and environment.

Manohar Lal Khattar, Union Minister of Power and Housing and Urban Affairs

Potential, Possibility, Profits

According to a recent report, 'Envisioning Madhya Pradesh Economy@2047,' by the country's leading industry association, CII, highlighted that the state has the potential to increase the size of its economy by 18 times to more than $2 trillion by 2047. This implies a high CAGR of 8.6% over the next two decades, and an increase in the country's GDP share from 4.6% to 6%. It means a huge shift in the state's GDP structure – a change from being largely agriculture-oriented, with a contribution of 43%, to focus on industry and manufacturing, whose share needs to catapult more than three times, from the current 7.2% to 22.2% in 2047. Services will continue to account for the majority share, as it does today.

Clearly, Madhya Pradesh needs to ensure that manufacturing takes a centrestage, and proves to be the new runway for the great growth takeoff, and stable GDP flight over the next two decades. The proposed strategic interventions in the CII report point to horizontal (cross-sector), and vertical (sector-specific) approaches. The first entails an infrastructure push to enhance transportation, develop multi-modal logistics parks, expand air cargo hubs, and increase air connectivity. This will provide the overall base and foundation for businesses to flourish. At the same time, the focus needs to be on sector-specific industrial parks, smart cities, and eco-friendly industrial parks to integrate renewable energy sources.

New Policies, Sunrise Sectors

Taking cue from the CII report, and feeling the need to transform the policy

regime, PM Modi unveiled 18 new state-level policies at the GIS, which included a mix of revisions of older ones, and 4-5 new ones for sunrise sectors. These included Madhya Pradesh Industrial Policy 2025, MSME Policy, Logistics Policy, Madhya Pradesh Animation, VR Gaming, Comics & Extended Reality Policy, Semiconductor Policy, Tourism Policy, Pumped Hydro Storage Policy, City Gas Distribution Policy, and Integrated Township Policy. Of these, those related to semiconductor, and city gas were newly-framed with the potential of the sunrise sectors in mind. The policies are tailored to meet the needs of the specific sectors, rather than boost the scale of investments. As CM Yadav said at the summit, "We are already working to develop 13 new industrial parks, and develop more industrial and semiconductor parks."

Madhya Pradesh has pinpointed five priority sectors, which will help boost growth, state GDP, and investments. These are:

- **Energy:** The aim is to meet at least half of the state's electricity needs from sustainable and renewable sources in the future. At the summit, the state's New and Renewable Energy Minister, Rakesh Shukla, said that Madhya Pradesh had immense possibilities in the area. With a policy on the sector among the 18 unveiled, investors seemed excited. MoUs worth more than Rs 2 lakh crore were signed with, as mentioned earlier, participation by major Indian groups. The summit showcased progress in the EV segment. Two lakh electric vehicles were registered by January 2025. The state is home to more than 30 OEMs, and is emerging as a key hub for EVs. Pithampur, now popular as 'The Detroit of India,' boasts of Asia's largest National Automotive Test Tracks, which provide cutting-edge solutions for testing, evaluation, R&D, and certification for the auto and auto-components segments.
- **IT & Emerging Technologies:** At the GIS, 35 technology companies across segments promised to invest Rs 25,640 crore, with a potential to generate nearly 2 lakh jobs. Of this amount, almost half is in the space of electronics manufacturing from eight entities, and another Rs 5,500 crore from IT and ITes companies. Key MoUs were signed with global giants such as IBM, Microsoft, Barclays, and L&T EduTech. "To truly empower India, we must focus not just on digital expansion, but on creating jobs, value addition, and strengthening the semiconductor supply chain. India's digital economy has grown from 6-7% to 13% of GDP in a decade," said S. Krishnan, Secretary, Ministry of Electronics. Another senior official said that the state provides 25% incentive for semiconductors, in addition to Centre's 50%, which makes the overall package one of the most attractive in the country. The focus on technology is reflected by the slew of new policies that were announced during the summit, including ones on drone promotion technology, gaming and VR, and animation.
- **Tourism & Heritage Development:** Union Tourism Minister Gajendra Singh Shekhawat said at the summit that India stood at the cusp of unlimited possibilities in the tourism and hospitality sector, as the contribution of tourism grows by 80% to 10% of the country's GDP by 2027. More importantly, he viewed the huge tax relief to the middle class in this year's Union Budget – zero tax for income up to Rs 12 lakh – will benefit tourism more than any other sector, including housing and real estate. Indians will travel more as they seek to spend the higher disposable income. In the future, he added, Madhya Pradesh, with its set of incentives, is likely to attract the maximum investments from India's hospitality, travel, and tourism sector. The state has the "power to meet the aspirations of tourists looking to explore all kinds of experiences."
- **MSMEs & Startups:** Madhya Pradesh, as mentioned before, has taken several steps to help MSMEs, and boost the startup culture.

The CII report felt that innovative and unique measures, as the state adopted in the agriculture sector, can help MSMEs in manufacturing. It mentioned the Yantradoot scheme, which was initiated to address low farm mechanization due to small holdings. Through subsidies and access to mechanized equipment at affordable rates, farm productivity shot up by 60-85%, and farm incomes by 75-100% in villages where the scheme was implemented. "MSMEs can particularly benefit from such models as they lack access to modern technologies," concludes the CII report. It adds that the state government can "emulate the Yantradoot model in industrial sectors like food processing and textiles by implementing similar strategies tailored to their needs. This includes conducting training programs to educate workers about modern technology and equipment, and facilitating access to such technologies through CHCs (Custom Hiring Centers)."

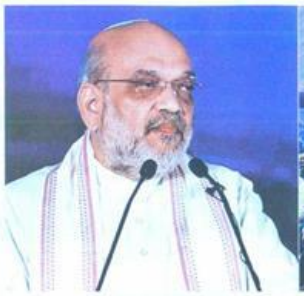

- **Urban Infrastructure & Real Estate:** Smart cities are fast emerging as the panacea for dramatically improving urban infrastructure, and seeking sustainable real estate and housing solutions. At present, there are seven smart cities in the state – Bhopal, Indore, Jabalpur, Gwalior, Sagar, Satna, and Burhanpur. In the India Smart Cities Awards 2022, under the PM Smart Cities Mission, Madhya Pradesh won the best state award, and Indore the best city one. The CII report insists that the state needs to "develop smart city infrastructure including ICT networks, smart buildings, energy and waste management solutions, public safety measures, etc., to enhance urban infrastructure and quality of living." In addition, smart residential communities near IT parks with amenities like good quality schools, healthcare facilities, recreational areas, robust transportation system, dedicated police station, etc., can provide a "holistic living experience to IT professionals and their families." This will address key issues related to skill development, talent acquisition, and employee retention.

Beyond Bhopal, Hovering Hubs

This year, the shift of the venue of the GIS to Bhopal marked a strategic decision that reflected the state's vision of a balanced and inclusive development. The success proved that the Capital is more than capable of hosting large-scale global engagement and events. According to news reports, and eyewitness accounts, Bhopal went through a major makeover, "with streets renovated and adorned with artistic designs, colourful paintings, and stunning decor. Lighting fountains illuminated major squares, while walls showcased Madhya Pradesh's rich cultural heritage. The iconic Upper Lake featured a floating 'Invest MP GIS' logo, creating a captivating visual." In the future, the state plans to build world-class class convention and exhibition centers in major cities such as Bhopal, Gwalior, Jabalpur, and Rewa to ensure that the state emerges as a premier destination for business, investment, cultural, and other global events. CM Yadav announced that considering the grandeur of GIS this year, the state will build a permanent convention center in Bhopal, Bhopal and Indore will be developed as the country's new metros, and efforts will be made to beautify Bhopal and other major cities. The investment inflows too will lead to emergence of several manufacturing and industrial hubs, rather than being restricted to a few locations. This will expand and spread the benefits throughout the state, and involve more citizens in the ensuing prosperity.

Conclusion

Clearly, under the visionary leadership of CM Yadav, backed by PM Modi, and other central ministries, Madhya Pradesh is on its way to transform into a prosperous, globally-competitive, and $2 trillion GDP state over the next two decades. It is emerging as a leader that other Indian states will wish to emulate. With the focus on investments, infrastructure, and sustainability, the state is poised to become a model of growth, governance, and progress.

Union Minister of Home Affairs & Co-operation, Amit A. Shah addressed the closing session on the 2nd day of the GIS

It has already proved what it can achieve in the agriculture sector. Now, it is the turn of manufacturing, followed simultaneously by services. More importantly, it will be a model of inclusive growth.

Building on the success of GIS 2025, the state has declared this year as 'Udyog Evam RojgarVarsh' (Industry-cum-Employment Year). Logically, the state government will dedicate itself to accelerate industrial growth, and job creation. According to senior officials, the key initiatives will include:

- Roadshows, and Investor Connect efforts in crucial domestic and global markets
- Sector-specific summits for focused industry engagements, and policy-driven discussions, apart from implementing CII's recommendations about vertical-linked strategy
- Streamlined regulatory processes, and enhanced overall infrastructure development

CM Dr. Mohan Yadav welcomed actor and MP Tourism's brand ambassador, Shri Pankaj Tripathi, by draping him with an 'Angavastram

Madhya Pradesh emerges as the top investment destination among Indian states, with policies that achieve the highest ease of doing business. It wants to build world-class infrastructure by expanding highways and expressways, airports, and industrial corridors. It wishes to create high-value jobs, and retain talent by strengthening the IT sector, MSMEs, and the startup ecosystem. The state desires to promote green growth and sustainability through renewable energy, sustainable industries, and eco-friendly development and progress. The first step is to emerge as a $300 billion economy by 2028-29, and transition to $2 trillion by 2047.

As the CII report sums up, "For MP (Madhya Pradesh) to propel itself towards the $2.1 trillion milestone, it cannot rely solely on the agriculture sector; a strategic shift towards enhancing the manufacturing sector is imperative. This requires implementing structural reforms, developing industrial capabilities, and fostering a conducive environment for trade and investment." If these measures are taken by the policy makers, the state can "move into the league of top three largest state economies from the current position of tenth by increasing the share of manufacturing, and improving its attractiveness as an investment destination."

Replicate Agriculture in Industry

The CII report highlights the remarkable growth that Madhya Pradesh has recorded in the agriculture sector. It is one of the few states where the gross value added of the sector has gone up from 36% to 43%. According to the report, "This impressive growth can be attributed to various factors, including improvements in irrigation, the provision of zero-interest loans, the use of high-quality seeds, and a strong focus on technology and innovation that has enhanced farmers' welfare and ensured sustainable and resilient agriculture. These advancements have significantly boosted foodgrain production, and overall agriculture productivity in the state." Riding on the back of the agriculture sector, the food processing segment has emerged as a arising star in manufacturing. The real output of the food processing segment reached more than Rs 64,000 crore in 2022-23, registering a growth of an unprecedented 28%. The share of the segment comprised a significant 22.7% of the state's industrial sector. The segment employed more than 62,000 workers. This government has focused on food processing as one of the engines of manufacturing growth. But more importantly, what has been achieved in agriculture is now being translated in industry. With new policies, new endeavours, more efforts, Madhya Pradesh is now on its way to become a giant and crucial manufacturing hub among Indian states.

One of the most ambitious proposals was the Bhutan Connectivity project, which involves the construction of a 69.04 km rail line between Kokrajhar and Gelephu, earmarked at a staggering INR 3,500 crores. This project, along with the modernization of 50 railway stations under the Amrit Bharat Station Scheme (INR 1,700 crores) and the development of six new Gati Shakti cargo terminals (INR 300 crores), is set to significantly enhance regional connectivity and cargo movement. Complementing these efforts are the introductions of two new Amrit Bharat trains and two intercity trains connecting Silchar with Guwahati and Guwahati with Agartala, thereby reinforcing Assam's position as a critical transport nexus.

In another major set of announcements, Union Minister Jyotiraditya M. Scindia focused on the telecommunication sector. He unveiled an investment of INR 1,800 crores by BSNL to enhance network infrastructure across Northeast India, ensuring that Assam is equipped with next-generation digital connectivity. Moreover, the launch of a 5G lab at Guwahati University aims to foster research and skill development in emerging telecom technologies, thereby positioning the state as a future-ready digital hub.

Waterways and more

Maritime and inland connectivity received a boost as well. Union Minister Sarbananda Sonowal, overseeing Ports, Shipping & Waterways, announced the establishment of a Centre of Excellence for Maritime Skilling in Dibrugarh, designed to nurture a skilled workforce for the shipping industry. In addition, he committed INR 4,800 crores over the next five years to develop inland waterways, thereby leveraging Assam's rich riverine resources for economic benefit.

On the roads and highways front, Union Minister Nitin Gadkari declared an ambitious allocation of INR 80,000 crores for critical infrastructure projects across Assam. This substantial investment aims to overhaul the state's transport network, enhancing connectivity within the state and with neighboring regions, thereby underpinning all other industrial developments.

The private sector, too, played a pivotal role in the announcements, underscoring a unified vision for Assam's future. Confidence Industries, under the leadership of ***Chairman and MD Mukesh Ambani, committed a total investment of over INR 50,000 crores across five priority areas in Assam. Ambani outlined a multi-pronged strategy focusing on digital transformation and AI readiness, clean and green energy (including the development of two world-class***

Assam Tea Gardens: Where Tradition Meets Flavour

Celebrating Assam's Legacy: Jhumoir Binondini

At the heart of the Advantage Assam 2.0 summit was a moving celebration of Assam's rich cultural and economic heritage—the Jhumoir Binondini event. Marking the 200th anniversary of Assam tea, this grand celebration served as a powerful reminder of the state's enduring legacy and its significant contribution to India's economic tapestry. The event not only highlighted Assam's historical role as the birthplace of one of the world's most renowned teas but also showcased how this legacy is interwoven with modern industrial aspirations.

The tea industry has long been the cornerstone of Assam's economy, symbolizing not only agricultural excellence but also a vibrant cultural heritage. For over two centuries, Assam tea has captivated the world with its distinctive flavour and quality. At the summit, this legacy was celebrated with unparalleled fervour. The Jhumoir Binondini event brought together more than 8,000 performers from over 800 tea gardens, transforming the summit grounds into a mesmerizing tapestry of traditional music, dance, and folklore. These performers, hailing from the heart of Assam's tea estates, showcased age-old traditions that have been passed down through generations, vividly portraying the cultural soul of the state.

During the keynote address at the event, Prime Minister Narendra Modi paid a moving tribute to the tea tribes, underscoring their role in shaping Assam's identity. He remarked, "Assam's tea is not merely a beverage; it is a symbol of our heritage, resilience, and the collective spirit of our people. Today, as we celebrate 200 years of Assam tea, we honour the legacy of the tea tribes who have been the custodians of this magnificent tradition. Their hard work and unwavering dedication have not only put Assam on the global map but have also laid the foundation for our future." These words resonated deeply with the audience, bridging the gap between tradition and modernity, and reinforcing the message that Assam's cultural legacy is an integral part of its growth narrative.

The Jhumoir Binondini event was more than just a cultural celebration; it was a strategic component of the Advantage Assam 2.0 summit, reinforcing the state's image as a premier destination for both business and industrial investments. By showcasing its rich cultural heritage alongside its industrial prowess, Assam sent a clear message to global investors: the state is a unique blend of tradition and innovation. This juxtaposition creates a robust and attractive investment climate where age-old practices coexist with futuristic technologies. For instance, while investors marveled at the elaborate performances and traditional art forms, they also witnessed state-

of-the-art pavilions displaying advancements in sectors such as semiconductor manufacturing, renewable energy, and digital infrastructure.

Deep Roots in Assam's Cultural and Social Fabric

Moreover, the event demonstrated that Assam's economic model is not solely dependent on large-scale industrial ventures but is also deeply rooted in its cultural and social fabric. The celebration of 200 years of tea symbolized the state's commitment to preserving its heritage while embracing modernity. It highlighted how cultural industries can drive inclusive growth by creating employment opportunities, fostering community development, and encouraging sustainable practices. In an era where investors are increasingly looking for projects with both economic and social returns, the Jhumoir Binondini event illustrated that Assam is poised to deliver on both fronts.

Local entrepreneurs and small business owners, many of whom have emerged from the tea gardens themselves, found renewed inspiration from the event. The rich cultural displays reinforced their belief in the value of tradition as a driver for innovation. The state government, by integrating these cultural elements into the summit, demonstrated its commitment to inclusive growth—ensuring that investments and development benefit every strata of society, from large conglomerates to grassroots communities.

Furthermore, the global recognition of Assam's tea legacy played a crucial role in boosting investor confidence. Delegates from around the world were not only impressed by the state's industrial capabilities but were also captivated by the vibrant cultural narrative that accompanied it. This dual appeal has positioned Assam as a destination where investments come with the added value of cultural and social capital. International business leaders, witnessing the seamless fusion of heritage and modern enterprise, were convinced that Assam offers a holistic environment for sustainable development.

It provided a unique opportunity for policymakers to interact with cultural ambassadors and business leaders, facilitating discussions on how to harness Assam's traditional strengths to drive future economic growth. By celebrating its legacy, Assam is not only honouring its past but is also setting the stage for a dynamic future—one where heritage inspires innovation and where every investment is imbued with the spirit of its people.

A New Dawn for Assam

The Advantage Assam 2.0 summit emerged as a transformative milestone in the state's economic journey, delivering outcomes that promise to redefine Assam's future. At the summit, a record-breaking 305 Memorandums of Understanding (MoUs) were signed, amounting to an astounding INR 5.18 lakh crore in investment commitments. This historic achievement underscores the robust confidence that both public and private sectors have placed in Assam's potential as an industrial powerhouse.

Beyond these overarching figures, the summit also witnessed unprecedented district-level engagement. Across all 35 districts of Assam, a total of 2,674 MoUs were exchanged, collectively worth INR 7,084 crore. This district-wise

distribution highlights a decentralized investment approach, ensuring that the benefits of economic growth are spread across the entire state. It is a clear signal that Assam's development is not confined to major urban centers but is inclusive of rural and semi-urban regions, creating a more balanced and widespread economic upliftment.

A closer look at the sectorial breakdown of the MoUs reveals the diverse and dynamic nature of the investments being funneled into Assam. For instance, the industrial sector alone attracted an investment commitment of INR 90,035 crore. This figure is a testament to the trust that major industry players have in Assam's industrial ecosystem. The power sector is another major beneficiary, with investments amounting to INR 83,187 crore. This significant pledge will not only modernize Assam's energy infrastructure but also facilitate reliable power supply to fuel further industrial activities and boost overall economic growth.

In the realm of natural resources, the mining, and minerals sector received INR 46,488 crore in commitments, while Central Public Sector Enterprises (PSEs) accounted for INR 34,211 crore. The information technology (IT) sector, despite being relatively nascent in Assam, saw an investment pledge of INR 4,786 crore, signaling the state's ambition to evolve into a tech-savvy hub. Similarly, the environment and forest sector received INR 4,401 crore, a figure that reflects a growing awareness of sustainable development and ecological conservation as integral parts of industrial progress.

The commitment to human capital and social infrastructure is equally noteworthy. Investments in education reached INR 3,901 crore, which will be critical for nurturing a skilled workforce capable of sustaining future growth. The finance sector committed INR 3,000 crore, while the health sector saw a pledge of INR 2,562 crore, ensuring that critical social services

are bolstered alongside industrial expansion. Culture and tourism, vital for promoting Assam's heritage and generating ancillary economic benefits, garnered INR 2,500 crore and INR 2,068 crore, respectively. These figures not only affirm the economic value of Assam's rich cultural legacy but also its potential to become a major tourist destination.

Multi-faceted Strategy

Other sectors, though representing relatively smaller figures, are no less significant in the larger development mosaic. Animal husbandry received INR 1,176 crore, highlighting the importance of agriculture and livestock in the region. Meanwhile, cooperative initiatives, housing and urban development, and skill development were allocated INR 1,000 crore, INR 500 crore, and INR 455 crore, respectively. Labour, handloom and textiles, and agriculture were also recognized, with commitments of INR 450 crore, INR 330 crore, and INR 232 crore, respectively. Additionally, sectors like transport, science and technology, and water resources received investments of INR 220 crore, INR 97 crore, and INR 21 crore, respectively.

These monumental figures are not just numbers on paper — they represent a multi-faceted strategy designed to catapult Assam into a new era of prosperity. The sheer scale of investment pledges reflects a broad consensus among stakeholders that Assam is uniquely positioned to serve as a gateway to Northeast India and Southeast Asia. With robust infrastructure development plans, a favourable business environment, and a government that is committed to rapid and inclusive progress, Assam is emerging as a magnet for investment.

The outcomes of the summit will have far-reaching implications for the state. For one, the infusion of capital across diverse sectors is expected to generate thousands of new jobs, significantly reducing regional unemployment and catalysing overall socio-economic development. The focus on infrastructure — evident from major investments in roads, railways, and energy projects — will not only enhance connectivity within Assam but also integrate the state more effectively into national and international trade networks. Furthermore, the substantial commitment to education and skill development will empower the local workforce, enabling them to participate actively in the state's industrial evolution.

Another critical aspect of these outcomes is their role in fostering sustainable growth. With dedicated investments in renewable energy, environmental conservation, and technology-driven initiatives, the summit has laid a strong foundation for a future that balances industrial progress with ecological responsibility. This integrated approach is particularly important in today's global economic

climate, where sustainability and innovation are key drivers of long-term success.

In essence, the outcomes of the Advantage Assam 2.0 summit signal a new dawn for Assam—one characterized by transformative investments, comprehensive infrastructure development, and an inclusive growth model that benefits every segment of society. As these MoUs move from the negotiation stage to actual implementation, they will set in motion a cycle of economic activity that is expected to redefine Assam's role in India's economic landscape, making it a premier destination for industrial and business investments well into the future.

Investment Follow-Up: Ensuring Tangible Outcomes

A cornerstone of the Advantage Assam 2.0 summit was not only the impressive volume of investment commitments but also the robust follow-up mechanism that the Government of Assam has put in place to ensure these commitments translate into real, actionable projects. With a staggering array of MoUs signed across various sectors, the state government has recognized that the next critical step is to convert these pledges into tangible, transformative outcomes for the people of Assam.

To achieve this, the Chief Minister's Office has established a dedicated Investment Tracking and Facilitation Unit. This unit is designed to serve as the nerve centre for monitoring and executing the projects endorsed at the summit. Its primary objective is to maintain a transparent, accountable, and efficient process that ensures every signed MoU is diligently followed up. Through this system, periodic reporting, detailed progress reviews, and strategic oversight are provided, ensuring that no project falls through the cracks.

One of the key features of this follow-up mechanism is its multi-tiered approach to accountability. Regular review meetings are scheduled, where representatives from the state government, industry experts, and project stakeholders come together to assess progress against predefined milestones. These meetings are not just routine; they are structured to facilitate in-depth discussions about any hurdles encountered, enabling quick course corrections. For instance, if a project faces delays due to bureaucratic bottlenecks or logistical challenges, the task force can immediately mobilize resources or reallocate responsibilities to keep the project on track.

Transparency is another critical pillar of the follow-up process. In an era where investor confidence is paramount, the government has committed to publishing regular progress reports. These reports, accessible via a dedicated public portal, provide real-time updates on the status of each project. They include key performance indicators, timelines, and any changes in investment scope or expenditure. This transparency not only instills confidence among investors but also reassures local communities that the state is committed to converting investment promises into actual development.

Furthermore, the follow-up mechanism integrates advanced digital tools to track the implementation of each project. A centralized dashboard consolidates data from various sectors—ranging from infrastructure and energy to technology and health—offering a comprehensive view of the investment landscape in Assam. This digital integration is crucial for ensuring that all projects are aligned with the broader economic goals of the state. It facilitates cross-sector coordination, enabling stakeholders to identify synergies between different projects. For instance, improved road connectivity can accelerate the implementation of industrial projects

by reducing logistics costs and enhancing accessibility, thereby multiplying the benefits of each investment.

Robust Tracking System

The impact of these follow-up mechanisms extends far beyond the immediate execution of projects. They are designed to create a sustainable ecosystem that continuously fosters investor confidence. When investors see that the government is not only capable of attracting massive investment commitments but also effective in ensuring their execution, it sends a powerful signal to the global market. This, in turn, can lead to additional rounds of investment, as the state becomes known as a reliable and proactive partner in economic development.

Moreover, the robust tracking system has a direct bearing on Assam's present and future economic landscape. In the short term, it ensures that the projects, which together account for investments in the hundreds of thousands of crores, begin to generate employment, stimulate local businesses, and improve infrastructure. In the long run, it sets the stage for sustainable industrial growth, transforming Assam into a hub for innovation, technology, and manufacturing. The resulting multiplier effect will not only bolster the state's GDP but will also contribute significantly to job creation and overall socio-economic upliftment.

For example, the follow-up mechanism is crucial for the successful implementation of flagship projects like the Namrup IV Mega Integrated Urea Project, which alone has an investment commitment of INR 12,000 crores. Likewise, massive investments in infrastructure, telecommunications, and energy—all of which were major highlights of the summit—require stringent monitoring to ensure that they are completed within set timelines and deliver the promised benefits. With the Chief Minister's Office at the helm, every stage of these projects is subject to meticulous scrutiny, which helps in mitigating risks and ensuring that funds are utilized effectively.

Additionally, the follow-up framework fosters a culture of collaboration between the public and private sectors. By actively engaging industry leaders and establishing a clear line of communication, the government creates an environment where feedback is not only welcomed but actively sought. This collaborative approach ensures that any issues are promptly addressed, and best practices are shared across sectors, ultimately leading to a more resilient and adaptive investment ecosystem.

In summary, the Investment Follow-Up mechanism established under the Chief Minister's Office is a game-changer for Assam. It ensures that the bold promises and significant investment commitments made at the Advantage Assam 2.0 summit are converted into real-world developments that drive sustainable growth. Through transparent reporting, rigorous monitoring, and advanced digital tracking, Assam is setting a new benchmark for accountability in public investment. This meticulous approach not only safeguards the interests of investors but also guarantees that the economic benefits of these investments reach every corner of the state, propelling Assam into a future of robust industrial growth and inclusive prosperity.

Assam's Rise as an Economic Powerhouse

The Advantage Assam 2.0 summit has unequivocally set a new benchmark for economic summits, marking a turning point in the region's industrial narrative and positioning Assam as a future economic powerhouse. Under the visionary leadership of Chief Minister Himanta Biswa Sarma and Prime Minister Narendra Modi, Assam is on a transformative journey, harnessing robust investments, global partnerships, and strategic policy frameworks to propel its economic resurgence.

At the heart of this transformation is the recognition that Assam, historically renowned for its tea and natural resources, is evolving into a modern industrial hub. The summit showcased an array of high-impact projects — from infrastructure upgrades to advanced technological initiatives — demonstrating a well-rounded approach to economic development. Prime Minister Modi's emphatic words, "Assam's journey is one of bold reforms and limitless possibilities," resonated strongly with the audience, reaffirming that the state is not only ready for the future but is actively shaping it. His support has provided a robust endorsement of Assam's investment potential, reinforcing the idea that when visionary leadership meets proactive governance, transformative change becomes inevitable.

Chief Minister Himanta Biswa Sarma, who has been a stalwart

champion for the state's development, played a pivotal role in orchestrating the success of the summit. His pragmatic yet ambitious approach to governance has been critical in creating an environment conducive to business and industrial growth. "With the Prime Minister's blessings and our relentless commitment, Assam is emerging as a beacon of progress in Northeast India," Sarma declared during his address at the summit. This confident outlook has not only inspired local stakeholders but has also attracted global investors who now see Assam as a key driver of India's broader economic progress.

The summit's outcomes, featuring an unprecedented signing of 305 MoUs totalling INR 5.18 lakh crore and district-level MoUs spread across all 35 districts, are a testament to the effectiveness of this leadership. These figures reflect a comprehensive strategy where investment is not concentrated in urban hubs alone but is distributed across the state, ensuring that the benefits of growth are inclusive and far-reaching. The sectoral commitments—spanning industries, power, mining, IT, and beyond—highlight the breadth of Assam's industrial potential and its readiness to integrate into global supply chains. This diversification of investments is critical for a resilient and sustainable economic ecosystem.

Global partnerships, a key highlight of the summit, further illustrate Assam's emergence as a global economic player. With participation from 75 countries, 67 heads of missions, and engagement from 12 bilateral chambers, the international community has recognized Assam's strategic importance. These partnerships are not only fostering technology transfer and innovation but also ensuring that Assam becomes a gateway to Southeast Asia—a role that is pivotal for India's Act East Policy. The momentum generated by these global engagements is expected to attract

further foreign direct investments, fueling a cycle of continuous growth and development.

The proactive investment in infrastructure projects is another cornerstone of Assam's future success. With significant allocations toward enhancing roadways, rail connectivity, and digital infrastructure, the state is rapidly bridging historical gaps in connectivity. This focus on infrastructure, spearheaded by Union Ministers like Nitin Gadkari and Ashwini Vaishnaw, is transforming Assam into a hub where logistics and technology converge, thereby attracting businesses that value efficient connectivity and a reliable supply chain.

Moreover, the summit has underscored the importance of sustainable growth. Assam's commitment to renewable energy projects, digital transformation initiatives, and modern industrial practices signals a future where growth is both robust and environmentally responsible. The integration of traditional industries, such as tea and handicrafts, with modern technology further demonstrates a model of inclusive growth where every sector of the economy contributes to a vibrant, sustainable future.

The strategic planning and follow-up mechanisms established by the state government have ensured that the promises made during the summit are not transient. With a dedicated Investment Tracking and Facilitation Unit under the Chief Minister's Office, there is a clear roadmap for transforming investment pledges into tangible development outcomes. This diligent approach to project execution not only builds investor confidence but also guarantees that the economic benefits reach every corner of the state, thereby reinforcing the foundations for long-term prosperity.

The impact of these initiatives will be felt across all sectors of society. By generating thousands of new jobs, enhancing public infrastructure, and fostering a culture of innovation, Assam is poised to witness an economic renaissance. This transformation will create a ripple effect, elevating the quality of life for its citizens and positioning the state as a critical contributor to India's national growth narrative.

In conclusion, the Advantage Assam 2.0 summit has not merely been an event — it has been a catalyst for change, setting the stage for Assam's rise as an economic powerhouse. Building Bridges: Expanding Domestic and Global Outreach

Assam's meteoric rise as a premier destination for business and industrial investments is not an overnight phenomenon — it is the result of a well-planned, multi-pronged outreach campaign led by the state government. In preparation for the Advantage Assam 2.0 summit, Assam's leadership embarked on an extensive journey, engaging with stakeholders both domestically and internationally to showcase the state's immense potential.On the domestic front, the state government organized over 100 Business-to-Business (B2B) meetings and 240 Business-to-Government (B2G) meetings across major Indian cities such as Ahmedabad, Bengaluru, Hyderabad, Kolkata, Mumbai, and

New Delhi. These meetings were meticulously arranged to create direct dialogue between Assam's investment authorities and top industrial players from across the country. This campaign attracted more than 2,100 domestic participants, reflecting a strong national interest in the opportunities that Assam offers. ***Union Minister Piyush Goyal, speaking during one of these roadshows, emphasized, "We are witnessing unprecedented interest from Indian businesses. Assam is no longer perceived as a remote region; it is emerging as a vibrant industrial hub that can drive growth across sectors such as manufacturing, logistics, and technology."*** Such statements resonated widely, as the

outreach efforts made it clear that the economic narrative of Assam was being redefined on the national stage.

In tandem with these domestic initiatives, Assam's government executed an aggressive international outreach strategy. More than 180 meetings were held with stakeholders from countries like Japan, Malaysia, the Republic of Korea, Singapore, Thailand, the United Kingdom, and the United Arab Emirates. These sessions, which included both high-level bilateral discussions and informal networking events, allowed international investors and diplomats to gain first-hand insight into Assam's potential. The outreach not only highlighted key sectors such as semiconductor manufacturing, clean energy, and infrastructure development but also emphasized Assam's unique locational advantage as the gateway to Southeast Asia.

A particularly notable aspect of the international engagement was the series of 35 diplomatic interactions. These engagements, involving ambassadors and high commissioners, underscored Assam's commitment to forging strong bilateral ties. For instance, during one of these meetings, Japan External Trade Organization (JETRO) representatives expressed their enthusiasm for exploring joint ventures in high-tech

manufacturing and renewable energy projects. As Dr. S. Jaishankar, India's External Affairs Minister, remarked, "Assam is at the confluence of history and opportunity. Our outreach efforts are building bridges that will not only enhance trade but also foster cultural and technological exchanges that are crucial in today's interconnected world."

Transformative Impact

To amplify these efforts on a global scale, the Ministry of External Affairs announced the launch of "Assam Week" organized through Indian embassies in key cities around the world, which will serve as a dynamic platform to exhibit Assam's rich cultural heritage and burgeoning economic potential. The initiative is designed to attract international media attention, provide a forum for dialogue with global investors, and solidify Assam's brand as a destination where tradition meets modernity. Diplomatic missions and bilateral chambers have lauded this initiative as a progressive step in projecting Assam's strategic importance to the world.

The comprehensive outreach strategy did not merely involve meetings and events — it was a deliberate exercise in building a robust ecosystem of trust and cooperation. In major Indian cities, the face-to-face interactions allowed domestic investors to witness the state's readiness to adopt world-class industrial practices. Simultaneously, international meetings helped dispel old myths about the Northeast being an isolated region, replacing them with narratives of rapid transformation, progressive policies, and infrastructural breakthroughs.

At the Advantage Assam 2.0 summit held in Guwahati, these extensive outreach efforts culminated in an overwhelming show of support. The summit was enriched by the participation of over 2,100 domestic and 1,100 international delegates who had been engaged through these prior outreach programs. The face-to-face interactions during the meetings built a foundation of trust, which translated into robust discussions and concrete investment commitments during the summit.

Moreover, the state government's commitment to transparency and proactive facilitation further reassured investors. By establishing streamlined processes for approvals and by setting up dedicated investor facilitation cells, Assam demonstrated that it is ready to convert interest into tangible development outcomes. As a result, the summit not only became a forum for discussions but also a launchpad for transformative projects that are

expected to generate significant economic growth in the coming years.

Global Participation: A Testament to Assam's Appeal

The Advantage Assam 2.0 summit was a global spectacle that firmly established Assam's position on the international investment map. With 75 countries / bilateral agencies, the summit served as a powerful statement that the Northeast is no longer a hidden gem but a vibrant hub of opportunity. More than 67 heads of missions and their representative engaged in high-level discussions, setting the stage for transformative collaborations that transcend geographical boundaries.

This global participation is a true testament to Assam's emerging appeal as a destination for business and industrial investments. Representatives from 9 key partner countries — including Australia, Bhutan, Germany, Indonesia, Japan, Malaysia, Singapore, Thailand, and the United Kingdom — arrived to explore mutually beneficial avenues. Their presence was not just symbolic; it was a clear signal of trust and optimism about Assam's future as a gateway to Southeast Asia and beyond.

International delegates, numbering over 200 from Asia, Europe, Africa, Australia, and the Americas, converged on Guwahati, drawn by the promise of a burgeoning investment landscape and a state poised for rapid industrial transformation. These delegates came from diverse sectors such as technology, renewable energy, manufacturing, and infrastructure, each seeking to tap into Assam's unique blend of natural resources, strategic location, and progressive policy framework.

In one of the high-profile diplomatic engagements, representatives from Japan and Singapore highlighted the strategic advantages that Assam offers in terms of connectivity and resource potential. They remarked, "Assam's geographical position and forward-thinking policies make it an ideal bridge between India and Southeast Asia. The summit has opened up unprecedented opportunities for technology transfer and industrial cooperation," echoing sentiments shared by many international stakeholders. This sentiment was echoed across various meetings, where dialogues centred on how Assam's industrial ecosystem can be integrated into global supply chains.

Their participation signified a bridge between international business practices and local industry standards, fostering a collaborative environment where ideas could flourish into actionable projects. Such interactions helped dispel outdated notions about the Northeast and replaced them with narratives of dynamic growth and vibrant industrialization.

Moreover, the global participation was not limited to formal meetings; it also extended to cultural and networking events that allowed international delegates to experience the rich heritage and vibrant traditions of Assam. During these events, delegates witnessed first-hand the blend of modern industrial prowess and cultural richness—a duality that positions Assam uniquely on the global stage. They observed that Assam's investment landscape is not just about economic figures but also about the people, the culture, and the promise of sustainable development.

The significant international turnout had a direct impact on the summit's overall success. Investment proposals from multinational corporations and high-caliber institutions poured in, reinforcing the state's reputation as a prime destination for industrial and infrastructural investment. The summit's platform allowed Assam to showcase its advanced policies, strategic location, and rich resource base, which in turn attracted interest from global giants in sectors ranging from oil and gas to technology and renewable energy.

Furthermore, the global participation at the Advantage Assam 2.0 summit laid a strong foundation for long-term collaborations. The dialogue initiated at the summit is expected to lead to tangible investment flows, technology transfer, and knowledge sharing. This is particularly significant for sectors like semiconductor manufacturing, where international expertise is crucial for building world-class facilities. Delegates from countries with advanced technology ecosystems have already expressed a keen interest in partnering with Assam's industries to develop next-generation production capabilities.

The global participation witnessed at the Advantage Assam 2.0 summit is a clear reflection of the state's appeal and potential as an investment destination. This robust global involvement is instrumental in propelling Assam towards a future where it stands as a dynamic and strategic hub for business, innovation, and sustainable growth. Through these engagements, Assam is not only attracting investment but also cementing its status as a global economic powerhouse, ready to lead the way into a new era of industrial prosperity.

Driving Inclusive Growth

Designed beyond just being a platform for high-level investment announcements, the Advantage Assam 2.0 summit also served as a comprehensive forum to drive inclusive growth across all sectors of the economy. With 20 meticulously curated sessions — 6 ministerial and 14 thematic — the summit showcased Assam's commitment to fostering growth that benefits all segments of society while propelling the state to the forefront of industrial innovation. At the heart of these sessions were the ministerial segments, attended by six Union Ministers who reinforced the central government's unwavering support for Assam's development. Notable among them were Union Ministers Sarbananda Sonowal, S. Jaishankar, and Ashwini Vaishnaw. In sessions themed "I-way to Viksit Assam" and "Indo-Bhutan Economic Cooperation," these leaders laid out visionary policies under the banner of "Act East, Act Fast and Act First." ***As Ashwini Vaishnaw remarked during his address, "Assam is poised to become a hub of technological and industrial innovation. With our focused policies and robust investment in infrastructure, the state will not only unlock its energy potential but also serve as a model for inclusive growth across India."***

Such powerful pronouncements resonated with attendees, underscoring the government's commitment to a growth model that is both expansive and inclusive.

The ministerial sessions went beyond policy rhetoric. They delved into concrete strategies for enhancing connectivity — both digital and physical. For instance, discussions on Assam's Infrastructure Development in Roads, Railways, and Riverine Sectors highlighted ambitious plans for modernizing transportation networks to ensure that the benefits of growth reach even the most remote areas. ***Union Minister Sarbananda Sonowal noted, "Our investments in infrastructure are not merely about building roads and bridges; they are about connecting communities, fostering regional integration, and ensuring that every citizen has access to the opportunities of a modern economy." This focus on connectivity is a cornerstone of inclusive growth, ensuring that economic benefits are distributed equitably.***

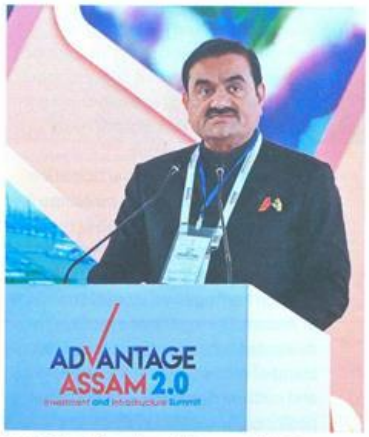

The Pillars

Complementing the ministerial sessions were the 14 thematic sessions, each addressing critical dimensions of Assam's economic landscape and tailored to drive inclusive development. The thematic sessions were strategically categorized into several clusters:

- **Economic and Industrial Development:** Four sessions focused on strengthening the industrial backbone of Assam. Topics ranged from supporting MSMEs and implementing the One District One Product (ODOP) initiative to exploring opportunities in Aerospace and Defence Manufacturing. One session delved into the immense potential of bamboo—often referred to as Assam's green gold—alongside discussions on Agarwood processing and value addition. These sessions were crucial in presenting practical pathways for local entrepreneurs and large corporations alike to harness Assam's unique resources, ensuring that the benefits of industrial growth are shared broadly.
- **Technology and Innovation:** Two sessions were dedicated to fostering innovation through cutting-edge technology. Discussions on the Space and Geospatial Industry and Advancing Biomanufacturing and Bio foundries highlighted how technology can be leveraged to create high-value jobs and elevate Assam's industrial capabilities. Union Minister S. Jaishankar, emphasizing the role of technology in global competitiveness, commented, "Innovation is the engine of future growth. By integrating advanced technology with traditional industries, Assam is setting the stage for a new era of prosperity that includes every stakeholder."
- **Sustainability and Health:** In today's world, sustainable growth is non-negotiable. Three sessions addressed the urgent need to decarbonize energy production in Assam, transform the health sector, and explore the synergies between traditional sectors like tea production and emerging industries such as fragrances and flavours. These discussions underscored how environmental stewardship and public health initiatives can drive sustainable development, ensuring that economic progress does not come at the cost of ecological balance or public well-being.
- **Entrepreneurship and Leadership:** Four sessions focused on unleashing the entrepreneurial spirit of Assam. These sessions discussed leveraging Multilateral Development Bank (MDB) resources to unlock private sector opportunities, developing robust real estate and urban infrastructure, and nurturing a vibrant startup ecosystem. One of the sessions, titled "200 Years & Growing: Nurturing Assam Tea's Vision for Global Leadership," paid tribute to Assam's iconic tea industry while outlining innovative strategies to propel it onto the global stage. Industry leaders and policymakers alike emphasized that a thriving startup culture, coupled with strong institutional support, would be instrumental in creating a sustainable and inclusive economy.
- **Tourism Promotion:** Finally, one session was dedicated to positioning Assam as a premier tourism destination—a state that offers a compelling blend of natural beauty, cultural richness, and modern infrastructure. This session explored

Mukesh Ambani - Chairman and MD of Reliance Industries

Gautam Adani - Founder and Chairman of Adani Group

N Chandrasekaran - Chairman of Tata Sons & Tata Group

Sajjan Jindal - Chairman & MD of JSW Group

opportunities to develop tourism that benefits local communities, preserves heritage, and attracts global visitors year-round.

Throughout these sessions, the robust attendance of over 14,500 participants was a testament to the strong interest in Assam's holistic development model. Attendees included government officials, industry leaders, entrepreneurs, and investors who engaged in deep, sector-specific discussions. The sessions fostered an environment where policy ideas could be exchanged, innovative projects were conceptualized, and collaborative partnerships were forged.

The comprehensive agenda of the summit was designed to ensure that every sector—be it technology, health, or traditional industries like tea and bamboo—was integrated into Assam's growth narrative. This inclusive approach is what sets Assam apart as an investment destination. It is not solely focused on attracting capital, but on building an ecosystem that nurtures talent, drives innovation, and ensures that growth reaches every corner of society.

An Exhibition of Potential

The Advantage Assam 2.0 Exhibition emerged as one of the most anticipated segments of the summit, symbolizing not only the dynamic industrial capabilities of Assam but also its cultural vibrancy. Spanning an impressive 87,200 square feet, the exhibition was inaugurated by Prime Minister Narendra Modi, whose presence underscored the high priority accorded to Assam's growth story at a national level. In his address at the exhibition, PM Modi remarked, "This exhibition is a testament to Assam's rich industrial potential and its readiness to integrate into the global economic system. Today, Assam stands as a beacon of progress, where cultural heritage meets modern industry." Such words resonated deeply with the diverse audience, setting the stage for a transformative experience.

At the heart of the exhibition were over 200 exhibitors representing a cross-section of India's most influential corporates. Major industry players such as Tata, HUL, IOCL, ONGC, Vedanta, Reliance, Adani, GAIL, BCPL, NEEPCO, OIL-NRL etc showcased their cutting-edge technologies and innovative solutions. Their participation was not only a demonstration of confidence in Assam's economic prospects but also an endorsement of the state's ability to attract high-calibre investments. These companies brought to the exhibition a blend of global expertise and a commitment to regional development, affirming Assam's status as a burgeoning industrial hub.

Equally significant was the active participation of 132 MSMEs and start-ups, which highlighted the entrepreneurial spirit flourishing within the state. These smaller enterprises, with their innovative approaches and agile business models, demonstrated that Assam's growth is inclusive, reaching even the grassroots level. Their presence at the exhibition served as a powerful reminder that Assam's economic narrative is not solely driven by multinational corporations, but also by home-grown enterprises ready to scale and compete on a global platform. One of the start-up founders shared, "Being here is a validation of our dreams. Assam's support for start-ups has been tremendous, and this exhibition is our window to the world."

A key feature of the exhibition was the assortment of themed pavilions, each meticulously designed to showcase specific facets of Assam's industrial and cultural prowess. The Assam Pavilion, covering over 9,700 square feet, was dedicated to displaying the state's rich cultural diversity alongside its industrial advancements. Visitors were treated to a vibrant display of Assam's traditional art, handicrafts, and indigenous technologies, which were seamlessly integrated with modern industrial innovations. This pavilion served as a visual narrative of Assam's evolution—from its deep-rooted heritage in tea, silk, and bamboo crafts to its modern ventures in semiconductor manufacturing and renewable energy.

Best Foot Forward

Complementing the Assam Pavilion were other specialized pavilions such

as the Semiconductor Pavilion, the Energy Pavilion, and the Innovation Pavilion. The Semiconductor Pavilion was a nod to Assam's rising profile in the high-tech arena, especially with significant investments aimed at establishing world-class semiconductor assembly and testing facilities. Here, industry experts demonstrated the latest in chip manufacturing processes and discussed the state's potential to become a critical player in India's tech ecosystem. Similarly, the Energy Pavilion highlighted projects focused on renewable energy, clean power, and energy efficiency—sectors that are set to revolutionize Assam's industrial landscape in the coming years. Interactive exhibits, live demonstrations, and panel discussions in these pavilions provided visitors with a hands-on understanding of the technological innovations driving Assam's future.

The Innovation Pavilion, on the other hand, was designed to foster an environment of creative collaboration. It served as a platform where startups and established corporations could interact, share ideas, and explore opportunities for joint ventures. This space epitomized the spirit of innovation that is central to the Advantage Assam 2.0 summit, emphasizing that progress in Assam is built on the foundation of continuous innovation and collaboration. Industry leaders from various sectors engaged with local innovators, discussing new business models, digital transformation, and sustainable development strategies that are set to shape the region's economic future.

Beyond the themed pavilions and the display of products and technologies, the exhibition played a crucial role in feeding into the overall momentum of the Advantage Assam 2.0 summit. It acted as a dynamic platform for networking, where policymakers, industry leaders, investors, and entrepreneurs converged to exchange ideas and forge strategic alliances. The visual and experiential impact of the exhibition helped translate policy announcements and investment pledges into tangible, relatable concepts. For instance, as visitors walked through the Assam Pavilion, they could witness first-hand the convergence of tradition and modernity — a narrative that encapsulates Assam's unique value proposition as an investment destination.

ERGO: Empowering Assam's Future

The exhibition also underscored Assam's commitment to fostering an ecosystem of inclusive growth. By offering dedicated spaces for MSMEs and startups alongside global corporate giants, the event highlighted the state's balanced approach towards industrialization. This inclusive model ensures that while large-scale investments are being attracted, there is also significant support for local entrepreneurs and smaller enterprises. As a result, the exhibition not only showcased technological and infrastructural advancements but also celebrated the entrepreneurial spirit that is critical to Assam's socio-economic fabric.

Paving the Way for Growth

The Advantage Assam 2.0 summit was marked by a series of landmark announcements that set the stage for a transformative era in Assam's economic and industrial landscape. These key announcements, made by top government officials and industry leaders alike, underscore a strategic commitment to large-scale investments and infrastructural enhancements designed to propel the state into a new phase of growth.

At the forefront was the announcement by Prime Minister Narendra Modi regarding the Namrup IV Mega Integrated Urea Project. With an investment of INR 12,000 crores, this project is poised to revolutionize Assam's agricultural and industrial sectors. Crash And Burn: Should You Buy Stocks At Lower Levels?

If you are tempted to buy a stock whose price has dropped sharply, remember that there's still a lot of volatility left in the stock markets, and sometimes the volatility in negative news-driven stocks can persist for a long time

Kundan Kishore

Around the start of the fourth quarter of calendar year 2024 (around September-October), there was plenty of money to be made in the Indian stock market, irrespective of whether you were a savvy investor or not. The choice of stocks and the skill to time the market didn't matter so much.

A simple back-of-the-envelope calculation shows that nearly 80 per cent of the BSE 500 stocks delivered positive returns in one year as on September 30, 2024. Essentially, if you had randomly chosen 10 stocks, eight of them were likely to have been profitable. The markets had entered the Goldilocks phase at the time; there was low volatility, and returns were high. Besides, mid-cap and small-cap indices saw significant gains.

The party lasted till it did. The following period was not that exciting for investors. A series of events, both on the global and domestic fronts, such as economic slowdown, trade tariff speculation and foreign institutional investors (FIIs) sell off, coupled with already inflated company valuations, led the stock

market into a more volatile and uncertain territory.

"India has seen strong foreign portfolio investor (FPI) outflows on the back of fragile sentiment of overwhelming growth coupled with elevated valuation," says market expert Ajay Bagga.

Since October 2024, the markets have seemingly entered choppy waters, leaving investors who came in late in the market looking at their portfolio values turning into red.

The major benchmark indices, the BSE Sensex and the Nifty 50, have tumbled nearly 16 per cent from their September 2024 peak, marking the sixth-largest drawdown since the 2008-09 financial crisis and the second-largest since the Covid-led crash in March 2020.

Mid- and small-cap indices, such as the BSE Mid-Cap and the BSE Small-Cap faced the maximum heat during this time and skid 22.22 per cent and 25.85 per cent, respectively.

THE VALUATION GAP

Higher valuation of the Indian market is one of the major culprits for FII outflows and market volatility. The recent correction has pulled down the Nifty price-to-earnings (P-E) ratio from 24.38 on September 26, 2024, when the Nifty was soaring at 26,216, to 20.61 now. This is closer to the 10-year average multiple, which is at 19.91, making the market attractive for investors. "On the valuation front, Indian indices have fallen to historical average levels which provides further comfort to investors," says Bagga

However, India is still commanding a higher premium compared to major markets, such as China, Canada, France, and other major markets (see *Pricey Equities* for India's position in terms of P-E). Experts argue that Indian markets were historically at a premium due to a higher growth rate compared to other countries.

Says Mohit Nigam, fund manager, Hem Securities: "We are the world's fastest growing emerging markets and it is likely that we will continue to command a premium due to this differentiated positioning in future. The gap between the valuations of Indian and global markets may vary from time to time, but there are high chances that Indian markets will continue to command higher premium till the time we are growing higher than the world."

THE INVESTOR'S DILEMMA

The current market downturn is being defined differently by various investors. Newbie investors refer to it as a crash. Aditya Prakash, 25, a software engineer based in Pune, calls it a market crash, as he has not witnessed any major market corrections in his few-years-old investing life. He has been investing in the stock market since 2022.

However, when you ask experts or seasoned investors, they refer to it as a correction, as they have experienced similar volatility in past market cycles.

Whether you call it a correction or a crash, there are a few common questions that are on the minds of investors. Has the market become riskier, or has the correction brought stocks down to more comfortable valuation levels?

In this scenario, people often feel tempted to buy more stocks at lower prices. That's because at the broader index level, the 15-20 per cent fall over the last 5-6 months may not seem substantial given the high returns delivered by the market in the last few years.

However, if you look at individual stocks, the situation is scarier. Some of the large-cap index stocks have fallen as much as 50-55 per cent. In the case of small-cap index stocks, the fall is much sharper, going up to 86 per cent. For instance, the BSE Small Cap Index, which has 200 stocks as its constituents, shows that half of the stocks are trading more than 50 per cent lower from their peaks. The bottom 25 stocks in the small-cap index are trading 65-83 per cent lower. For instance, Kamdhenu Ventures, which was trading at ₹58.60 on September 26, 2024, closed at ₹10.30 on March 20, 2024, a decline of 82.42 per cent from its peak. Similarly, Gensol Engineering and Jai Corp are down by 78.81 per cent and 77.89 per cent, respectively.

To assess the performance of large-cap stocks, we looked at the BSE 100 index, the benchmark index for many large-cap-oriented funds. Out of 100 stocks, 25 or one-fourth of the companies, are down by more than 30 per cent, with some falling as much as 58 per cent from their 52-week high. Adani Green Energy and IndusInd Bank are at the bottom, with the highest falls of 57.53 per cent and 56.60 per cent, respectively. Here, the big question arises: should you buy them, as conventional wisdom suggests—buy low and sell high? To answer that question, we'll have to tackle another one first.

HAS THE STOCK MARKET BOTTOMED OUT?

The dilemma to buy or not also depends on the question: whether the market has bottomed out, and recovery is on the cards.

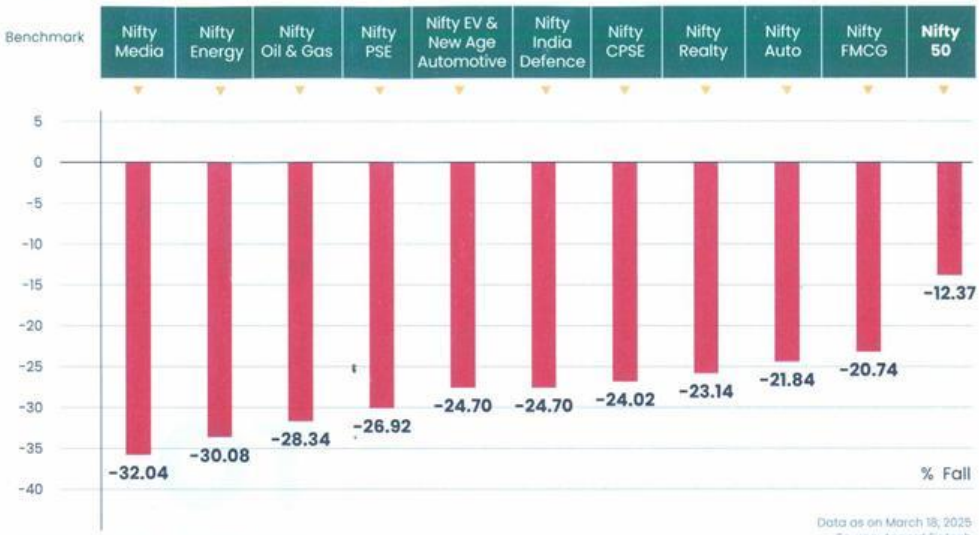

In the last few trading sessions till the filing of this report, some recovery was seen in the market. This reversal may be seen as the market recovering from the bottom, and might tempt you to take the plunge, but you need to be cautious. While a bounce-back from recent lows may appear promising, short-term rallies don't always signal the end of a downtrend.

To a question on whether the market has bottomed out, Shrikant Chouhan–head, equity research, Kotak Securities, says: "Not yet. This is a pullback or relief rally following the continuous decline we experienced since the announcement of the Union Budget 2025. We can say we were closer to decent support levels when the market (Nifty 50) was around 22,000-22,200."

The correction may also signal positivity, according to some experts. Says Bagga: "The correction in the leading indices and the 20 per cent-plus fall in the broader indices is nearing an end. Domestically, the macro situation is improving, with the economy having made a bottom in the September 2024 quarter and

corporate earnings probably having made a bottom in the December 2024 quarter. On government expenditure, the December capex was up 91 per cent year-on-year (y-o-y) and the January capex was up 51 per cent y-o-y. The tax revenues are pointing to a recovery in the broader economy."

Further, aggregate demand will benefit from the triple action by the Reserve Bank of India (RBI) in terms of the rate cut, macro prudential credit easing and liquidity injection on a massive scale, he adds.

The brokerage consensus for earnings growth is in the range of 13-15 per cent for FY26 and FY27.

WHAT SHOULD YOU DO?

If you have ever been tempted to buy a stock that has dipped sharply, think again. Sure, there are many stocks where investors press the panic-sell button because of some negative news. As a result, some may even fall to levels that may look extremely cheap. But remember that there's still a lot of volatility left in the market, and sometimes volatility in negative news-driven stocks can continue for a longer period.

Also, the mid- and small-cap space was significantly impacted during the recent correction.

So, does this present a potential investment opportunity? To ascertain that, experts say, investors will need to dig deeper and find stocks that have still some value left, especially in the mid- and small-cap categories. "Invest a small portion in mid- and small-cap stocks, but invest with a long-term perspective. Also, invest only in well-researched stocks after taking the advice of experts," says Chauhan.

He adds that long-term investors should focus more on identifying quality stocks available at extremely attractive valuations rather than spending sleepless nights wondering if the bottom has been reached.

"A meaningful correction in the market always presents an opportunity to buy your dream companies or management at attractive valuations," says Chauhan.

Bagga suggests that investors should focus on companies with robust cash flow, strong management, and no leverage, ideally from index constituents, as they tend to have a higher probability of bouncing back.

The returning tide of liquidity from FIIs and domestic investors is not going to lift all boats, which means not all stocks will appreciate. You need to be sharp and vigilant about stock selection at this point. ▸OM

देश की यादों में रहेंगे 'भारत कुमार'

मनोज कुमार, एक ऐसे सितारे थे जिनका नाम लेते ही देशभक्ति की भावना जागृत हो जाती है। 'भारत कुमार' के नाम से मशहूर, मनोज ने अपनी फिल्मों के जरिए देशप्रेम और सामाजिक मुद्दों को बड़े परदे पर जीवंत किया। 87 साल की उम्र में उन्होंने अंतिम सांस ली। इस मौके पर उनके करीबी और साथ काम कर चुके कलाकारों ने उनसे जुड़ी यादें साझा कीं...

शास्त्री जी के कहने पर मनोज ने बनाई थी फिल्म 'उपकार'

दिल्ली से मुंबई की फ्लाइट में ही मनोज ने तैयार कर ली थी 'उपकार' की रूपरेखा

मनीष गोस्वामी, *फिल्म प्रोड्यूसर और मनोज कुमार के भतीजे*

मनोज जी ने हमें सिखाया कि देशभक्ति का असली मतलब क्या होता है। उन्होंने अपनी फिल्मों के माध्यम से देश के प्रति प्रेम और कर्तव्य की भावना को जगाया। उनका बचपन विभाजन के दर्दनाक अनुभवों से भरा था, जिसकी झलक उनकी फिल्मों में दिखाई देती थी। दिलीप कुमार अक्सर उनकी लेखन की प्रशंसा करते थे। 'महंगाई मार गई' जैसे गीतों के माध्यम से उन्होंने तत्कालीन सामाजिक मुद्दों को उठाया। 'शहीद' फिल्म के प्रीमियर के बाद तत्कालीन प्रधानमंत्री लाल बहादुर शास्त्री ने उनसे 'जय जवान, जय किसान' के विषय पर फिल्म बनाने का आग्रह किया। दिल्ली-मुंबई की दो घंटे की फ्लाइट में ही उन्होंने फिल्म 'उपकार' की पूरी रूपरेखा तैयार कर ली थी।

मनोज के आदर्श थे दिलीप साहब, फिल्म 'क्रांति' के हर फ्रेम में उन्हें ही चाहते थे

सायरा बानो, *एक्ट्रेस, मनोज के साथ तीन फिल्मों में किया था काम*

मनोज कुमार के आदर्श दिलीप साहब थे। शादी के बाद मैंने जाना कि मनोज, साहब के कितने करीब थे। वे अक्सर साथ में ऑमलेट बनाते और पतंग उड़ाते थे। एक मजेदार किस्सा है कि जब वे दोनों 'आदमी' फिल्म में साथ काम कर रहे थे तो मनोज अनजाने में साहब की तरह दिखने और हावभाव करने लगे। इस पर साहब ने मजाक में कहा, 'यार, तू मेरी तरह शॉट्स कर ले... मैं कुछ और तरीका निकालता हूं।' 'पड़ोसन' के दौरान मेरी तबीयत खराब हुई तो साहब ने मनोज से कहा कि वे चाहें तो उन्हें बदल सकते हैं लेकिन मनोज ने फिल्म ही रोक दी। फिर बाद में मैंने फिल्म की। जब दिलीप साहब ने 'क्रांति' की तो मनोज ने उनके लिए एक ट्रायल रखा। मनोज चाहते थे कि दिलीप साहब हर फ्रेम में हों।

जैसा दोनों ने अमित कर्ण को बताया

देशभक्ति फिल्मों के जनक थे मनोज कुमार, वे हमेशा हमारे दिलों में रहेंगे

रजा मुराद, *फिल्म एक्टर, 'रोटी कपड़ा और मकान' में काम किया।*

मैंने मनोज कुमार के साथ फिल्म 'रोटी कपड़ा और मकान' में काम किया था। मनोज जी ने मेरा गाना 'मैं शायर बदनाम...' सुना था और उससे प्रभावित होकर मुझे फिल्म में हमीद का रोल दिया था। उन्होंने देशवासियों के बीच देशभक्ति की भावना को जागृत किया। उनकी फिल्में 'शहीद', 'उपकार', 'पूरब और पश्चिम' और 'क्रांति' आज भी लोगों के दिलों में बसी हैं। उनके गाने 'मेरे देश की धरती...', 'भारत का रहने वाला हूं, भारत की बात सुनाता हूं...', 'अब के बरस तुझे धरती की रानी...', और 'दुल्हन चली पहन तीन रंग की चोली...' आज भी 26 जनवरी और 15 अगस्त पर सुने जाते हैं। मनोज जी होमियोपैथी डॉक्टर भी थे। मनोज जी हमेशा दिलों में रहेंगे।

जैसा उमेश कुमार उपाध्याय को बताया

व्यापार युद्ध की आशंका से सहमा शेयर बाजार

सेंसेक्स 931 व निफ्टी 345.65 अंक लुढ़का

मुंबई (भाषा)।

व्यापार युद्ध गहराने की आशंका हावी होने से वैश्विक बाजारों में आई नरमी के बीच शुक्रवार को घरेलू शेयर बाजारों में तेज गिरावट दर्ज की गई। मानक सूचकांक सेंसेक्स करीब 931 अंक लुढक गया जबकि निफ्टी में 346 अंकों की गिरावट आई। विश्लेषकों ने कहा कि कच्चे तेल की कीमतों में तेज गिरावट और घरेलू दिग्गज कंपनियों रिलायंस इंडस्ट्रीज, लार्सन एंड टुब्रो और इन्फोसिस में भारी बिकवाली ने भी निवेशकों की धारणा को नकारात्मक रूप से प्रभावित किया।

बीएसई का 30 शेयरों पर आधारित सूचकांक सेंसेक्स 930.67 अंक यानी 1.22 प्रतिशत गिरकर 76,000 के स्तर से काफी नीचे 75,364.69 अंक पर बंद हुआ। कारोबार के दौरान एक समय यह 1,054.81 अंक गिरकर 75,240.55 तक आ गया था। नेशनल स्टॉक एक्सचेंज (एनएसई) का मानक सूचकांक निफ्टी भी 345.65 अंक यानी 1.49 प्रतिशत गिरकर 23,000 के नीचे 22,904.45 अंक पर बंद हुआ। कारोबार के

दौरान एक समय यह 382.2 अंक गिरकर 22,867.90 पर आ गया था।

सेंसेक्स के समूह में शामिल कंपनियों में से टाटा स्टील के शेयरों में सर्वाधिक 8.59 प्रतिशत की गिरावट दर्ज की गई। इसके बाद टाटा मोटर्स, लार्सन एंड टुब्रो, अदाणी पोर्ट्स, इंडसइंड बैंक, टेक महिंद्रा, रिलायंस इंडस्ट्रीज, सन फार्मा, एचसीएल टेक्नोलॉजीज, टाटा कंसल्टेंसी सर्विसेज, इन्फोसिस और एनटीपीसी में भी प्रमुख रूप से गिरावट रही।

दूसरी तरफ, बजाज फाइनेंस, एचडीएफसी बैंक, नेस्ले इंडिया, आईसीआईसीआई बैंक, आईटीसी, एशियन पेंट्स और एक्सिस बैंक के शेयरों में बढत दर्ज की गई। मझोली कंपनियों का बीएसई मिडकैप सूचकांक में 3.08 प्रतिशत की गिरावट आई, जबकि छोटी कंपनियों के स्मॉलकैप सूचकांक में 3.43 प्रतिशत की गिरावट आई। मेहता इक्विटीज लिमिटेड के वरिष्ठ उपाध्यक्ष (शोध) प्रशांत तापसे ने कहा, 'वैश्विक बाजारों में गिरावट के साथ ही घरेलू बाजारों में भी गिरावट हावी रही। व्यापक बिकवाली के कारण विभिन्न क्षेत्रों में दो-छह प्रतिशत की गिरावट देखी गई।' तापसे के मुताबिक, निवेशकों को डर है कि अमेरिकी राष्ट्रपति डोनाल्ड ट्रंप की जवाबी शुल्क नीति अमेरिका में मंदी और मुद्रास्फीति को बढावा देगी जो आगे चलकर अन्य प्रमुख अर्थव्यवस्थाओं को भी अपनी चपेट में ले लेगी।

उन्होंने कहा कि धातु और पेट्रोलियम शेयरों में तेज गिरावट यह संकेत दे रही है कि मंदी की आशंकाओं के बीच मांग पर असर पड़ सकता है। एशिया के अन्य बाजारों में जापान के निक्की और दक्षिण कोरिया के कॉस्पी सूचकांक में गिरावट दर्ज की गई जबकि हांगकांग और शंघाई शेयर बाजार छुट्टियों के कारण बंद रहे।

यूरोप के बाजार मध्य सत्र के सौदों में गिरावट के साथ कारोबार कर रहे थे। अमेरिकी बाजार बृहस्पतिवार को 2020 में कोविड महामारी के बाद की सबसे बड़ी गिरावट के साथ बंद हुए थे। वैश्विक तेल मानक ब्रेंट क्रूड 3.26 प्रतिशत गिरकर 67.85 डॉलर प्रति बैरल पर आ गया।

दौरान एक समय यह 382.2 अंक गिरकर 22,867.90 पर आ गया था।

सेंसेक्स के समूह में शामिल कंपनियों में से टाटा स्टील के शेयरों में सर्वाधिक 8.59 प्रतिशत की गिरावट दर्ज की गई। इसके बाद टाटा मोटर्स, लार्सन एंड टुब्रो, अदाणी पोर्ट्स, इंडसइंड बैंक, टेक महिंद्रा, रिलायंस इंडस्ट्रीज, सन फार्मा, एचसीएल टेक्नोलॉजीज, टाटा कंसल्टेंसी सर्विसेज, इन्फोसिस और एनटीपीसी में भी प्रमुख रूप से गिरावट रही।

दूसरी तरफ, बजाज फाइनेंस, एचडीएफसी बैंक, नेस्ले इंडिया, आईसीआईसीआई बैंक, आईटीसी, एशियन पेंट्स और एक्सिस बैंक के शेयरों में बढ़त दर्ज की गई। मझोली कंपनियों का बीएसई मिडकैप सूचकांक में 3.08 प्रतिशत की गिरावट आई, जबकि छोटी कंपनियों के स्मॉलकैप सूचकांक में 3.43 प्रतिशत की गिरावट आई। मेहता इक्विटीज लिमिटेड के वरिष्ठ उपाध्यक्ष (शोध) प्रशांत तापसे ने कहा, 'वैश्विक बाजारों में गिरावट के साथ ही घरेलू बाजारों में भी गिरावट हावी रही। व्यापक बिकवाली के कारण विभिन्न क्षेत्रों में दो-छह प्रतिशत की गिरावट देखी गई।' तापसे के मुताबिक, निवेशकों को डर है कि अमेरिकी राष्ट्रपति डोनाल्ड ट्रंप की जवाबी शुल्क नीति अमेरिका में मंदी और मुद्रास्फीति को बढ़ावा देगी जो आगे चलकर अन्य प्रमुख अर्थव्यवस्थाओं को भी अपनी चपेट में ले लेगी।

उन्होंने कहा कि धातु और पेट्रोलियम शेयरों में तेज गिरावट यह संकेत दे रही है कि मंदी की आशंकाओं के बीच मांग पर असर पड़ सकता है। एशिया के अन्य बाजारों में जापान के निक्की और दक्षिण कोरिया के कॉस्पी सूचकांक में गिरावट दर्ज की गई जबकि हांगकांग और शंघाई शेयर बाजार छुट्टियों के कारण बंद रहे।

यूरोप के बाजार मध्य सत्र के सौदों में गिरावट के साथ कारोबार कर रहे थे। अमेरिकी बाजार वृहस्पतिवार को 2020 में कोविड महामारी के बाद की सबसे बड़ी गिरावट के साथ बंद हुए थे। वैश्विक तेल मानक ब्रेंट क्रूड 3.26 प्रतिशत गिरकर 67.85 डॉलर प्रति बैरल पर आ गया।

हवाई अड्डे पर कला की उड़ान

खुद अपनी आंख से

शीतल वर्मा

अधिकतर लोगों की तरह मैं भी आमतौर पर एयरपोर्ट समय से पहले पहुंच जाता हूं। लाउंज में अपना जरूरी काम निपटाता हूं या फिर अखबार पढ़कर समय गुजारता हूं। पिछले दिनों मुझे मुंबई से बनारस जाना था। फ्लाइट पकड़ने के लिए मुंबई टर्मिनल-2 पर पहुंचा। फ्लाइट में वक्त कम था सो बोर्डिंग गेट के पास ही समय बिताना ठीक था। टर्मिनल-2 काफी बड़ा है। यहां प्रस्थान के लिए आठ-दस नहीं, बल्कि पूरे 90 दरवाजे हैं। मेरे बोर्डिंग पास पर 87 नंबर गेट अंकित था। मैंने सोचा कि चलो, आज का मॉर्निंग वॉक यहीं पूरा हो जाएगा।

गेट नंबर- 87 के पास पहुंचा। चाय पीते-पीते प्रस्थान दरवाजों के दूसरी ओर दीवारों पर लगीं कलाकृतियां बरबस अपनी ओर ध्यान खींचने लगीं। सतह पर पारदर्शी ग्लास फ्रेम के बीच फाइबर ग्लास के आधार को समुद्री सतह का खड़बड़ आकार दिया गया था। उसके ऊपर बहुत सारे बड़े आकार के शंख, सीप वगैरह बड़ी तरतीब से सजाए हुए थे। एक मीटर के बाद इन्हें सीढ़ियों की तरह कतारबद्ध सजाया गया था। इन सबके ऊपर एक ग्लास के लेयर पर एक बड़े पारदर्शी बॉक्स में प्रागैतिहासिक अवशेष नुमा कुछ अद्भुत कलाकृतियां करीने से रखी हुई थीं।

मैं अपने मोबाइल से उनकी तस्वीरें खींचने लगा। लगा कि इसे बनाने वाले कलाकार ने कितना इंस्पिरेशनल काम किया है। आखिरी कलाकृति की तस्वीर लेते वक्त नेमप्लेट पर नजर पड़ी तो चौंक गया। लिखा था- विपुल कुमार। यह तो मेरा मित्र और सहपाठी विपुल है। वही विपुल, जो कॉलेज के दिनों में मेरी तरह दुबला-पतला सा था। हमारा चेहरा-मोहरा भी मिलता-जुलता था। इतनी समानता कि टीचर्स भी अक्सर कन्फ्यूज होते। हममें एक समानता और थी कि हम दोनों आर्थिक कठिनाइयों से जूझते हुए पढ़ाई कर रहे थे। थर्ड ईयर में विपुल ने मूर्तिकला ली और मैंने व्यावसायिक कला।

कॉलेज के कई वर्षों बाद विपुल से संपर्क हुआ। विपुल तब भी संघर्ष कर रहा था। जयपुर के पास भैंसलाना में जमीन खरीदकर उस पर स्टूडियो बनाने के लिए। हम सभी मित्रों से आर्थिक सहायता की दरकार थी। बहुत से सीनियर कलाकारों ने विपुल की मदद की, स्टूडियो के सपने को साकार करने में। आज भारत के सबसे खूबसूरत हवाई अड्डे पर उसकी कलाकृतियां और उसका नाम देख गौरवान्वित हो उठा। फोन किया, हालचाल के बाद बताया कि उसकी कलाकृतियां देखकर कितनी खुशी हुई। उसने बताया और दिख भी रहा था, कलाकृतियां जो मुंबई शहर की प्रतिकृति हैं। उनके ऊपर 7 मुखौटे थे, जिनके मुंह से पानी गिरना चाहिए था, सूखे थे। विपुल ने बताया कि पानी गिरता है तो सभी मुखौटों से जलतरंग की तरह संगीत भी आता है। विपुल की कला को इस ऊंचाई तक पहुंचा देख मन में खुद-ब-खुद सितार बज उठा।

कच्चे तेल में तीन साल में सबसे बड़ी एक दिनी गिरावट, मांग में कमी की आशंका बढ़ी

मेहता इक्विटीज लिमिटेड के वाइस प्रेसिडेंट कमोडिटीज राहुल कलंत्री ने कहा कि अमेरिकी राष्ट्रपति द्वारा भारी पारस्परिक शुल्क लगाने की घोषणा के बाद कच्चे तेल की कीमतों में जोरदार गिरावट आई है और इससे वैश्विक मांग में कमी आने की आशंका बढ़ गई है। चीन पर शुल्क में तेज वृद्धि से ऊर्जा बाजार में हड़कंप मच गया है। इससे कच्चे तेल में तीन साल में सबसे बड़ी एक दिनी (3.26 प्रतिशत गिरकर 67.85 डालर प्रति बैरल) गिरावट आई।

खुलते ही गिरे दुनियाभर के शेयर बाजार

न्यूयार्क, एपी: चीन द्वारा अमेरिका पर जवाबी शुल्क लगाने से शुक्रवार को दुनियाभर के बाजारों में गिरावट देखी गई। नौकरियों को लेकर जारी होने वाली अमेरिकी रिपोर्ट आमतौर पर प्रत्येक महीने की हेडलाइन होती है, लेकिन वह भी गिरावट रोकने के लिए पर्याप्त नहीं थी। सुबह के कारोबार में एसएडपी 500 में पांच प्रतिशत की गिरावट आई और यह 2020 में कोरोना के दौरान आई मंदी के बाद सबसे खराब दिन था। यूरोपीय बाजारों में भी गिरावट दर्ज की गई और शुरुआती कारोबार में सभी बड़े सूचकांक लगभग पांच तक गिरे थे।

अनुमान से अधिक टैरिफ लागू करने से वैश्विक बाजारों पर महत्वपूर्ण प्रभाव पड़ा है। निवेश में मंदी का रुख देखने को मिला है, क्योंकि निवेशक इसके व्यापक प्रभावों का आकलन कर रहे हैं। अमेरिका के खिलाफ जवाबी कार्रवाई की संभावना ने अनिश्चितता को और बढ़ा दिया है। अमेरिकी बांड यील्ड और तेल की कीमतों में गिरावट का रुख है, जो संभावित आर्थिक मंदी और मंदी के बढ़ते जोखिम को लेकर चिंताओं को दर्शाता है।

अमेरिका में मंदी और मुद्रास्फीति को बढ़ावा देगी राष्ट्रपति डोनाल्ड ट्रंप की नीति

मेहता इक्विटीज लिमिटेड के वरिष्ठ उपाध्यक्ष (शोध) प्रशांत तापसे ने कहा, 'वैश्विक बाजारों में गिरावट के साथ ही घरेलू बाजारों में भी गिरावट हावी रही। व्यापक बिकवाली से विभिन्न क्षेत्रों में दो-छह प्रतिशत की गिरावट देखी गई।' निवेशकों को डर है कि अमेरिकी राष्ट्रपति डोनाल्ड ट्रंप की जवाबी शुल्क नीति अमेरिका में मंदी और मुद्रास्फीति को बढ़ावा देगी जो आगे चलकर अन्य प्रमुख अर्थव्यवस्थाओं को भी अपनी चपेट में ले लेगी। धातु और पेट्रोलियम शेयरों में तेज गिरावट यह संकेत दे रही है कि मंदी की आशंकाओं के बीच मांग पर असर पड़ सकता है।

व्यापार युद्ध गहराने की आशंका हावी होने से वैश्विक बाजारों में आई नरमी के बीच शुक्रवार को घरेलू शेयर बाजारों में तेज गिरावट दर्ज की गई। मानक सूचकांक करीब 931 अंक लुढ़क गया जबकि निफ्टी में 346 अंकों की गिरावट आई। विश्लेषकों ने कहा कि कच्चे तेल की कीमतों में तेज गिरावट और घरेलू दिग्गज कंपनियों रिलायंस इंडस्ट्रीज, लार्सन एंड टुब्रो और इंफोसिस में भारी बिकवाली ने भी निवेशकों की धारणा को नकारात्मक रूप से प्रभावित किया।

बीएसई का 30 शेयरों पर आधारित सूचकांक 930.67 अंक यानी 1.22 फीसद गिरकर 76,000 के स्तर से काफी नीचे 75,364.69 अंक पर बंद हुआ। कारोबार के दौरान एक समय यह 1,054.81 अंक गिरकर 75,240.55 तक आ गया था। नेशनल स्टाक एक्सचेंज (एनएसई) का मानक सूचकांक निफ्टी भी 345.65 अंक यानी 1.49 फीसद गिरकर 23,000 के नीचे 22,904.45 अंक पर बंद हुआ।

कारोबार के दौरान एक समय यह 382.2 अंक गिरकर 22,867.90 पर आ गया था। सूचकांक के समूह में शामिल कंपनियों में से टाटा स्टील के शेयरों में सर्वाधिक 8.59 फीसद की गिरावट दर्ज की गई। इसके बाद टाटा मोटर्स, लार्सन एंड टूब्रो, अदाणी पोर्ट्स, इंडसइंड बैंक, टेक महिंद्रा, रिलायंस इंडस्ट्रीज, सन फार्मा, एचसीएल टेक्नोलाजीज, टाटा कंसल्टेंसी सर्विसेज, इंफोसिस और एनटीपीसी में भी प्रमुख रूप से गिरावट रही।

ट्रम्प टॅरिफमुळे गुंतवणूकदारांचे १० लाख कोटी पाण्यात

शेअर बाजारात घसरण; सेन्सेक्स ९३१ अंकांनी कोसळला

◆ मुंबई (प्रतिनिधी) :

भारतीय शेअर बाजारात शुक्रवारी घसरण झाली. अमेरिकेचे अध्यक्ष डोनाल्ड ट्रम्प यांचा नवीन टॅरिफ प्रस्ताव व संभाव्य व्यापार युद्धाच्या चिंतेत असल्याने शेअर बाजार घसरला असून गुंतवणूकदारांच्या तोंडचे पाणी पळाले आहे.

बीएसईचा ३० शेअर्स असलेला सेन्सेक्स ७६,१६० अंकांच्या घसरणीसह उघडला. दुपारी ३ वाजता, सेन्सेक्स १०३१.२९ किंवा १.३५% घसरला व ७५,२६४.०७ वर व्यवहार करत होता. शेवटी सेन्सेक्स ९३० अंकांनी घसरला व ७५,३६५ वर बंद झाला. नॅशनल स्टॉक एक्सचेंजचा निफ्टी-५० देखील सपाट रंगात उघडला.

आजच्या घसरणीची ५ मोठी कारणे

- यूएस मार्केट अपेक्षेपेक्षा जास्त घसरले
- केवळ इक्विटीमध्येच नाही, तर सर्व मालमत्ता वर्गांमध्ये विक्री
- डाऊ फ्युचर्स, नॅस्डॅक फ्युचर्समध्येही घसरण झाली
- आता फार्मावरही दर लागू होण्याची भीती
- कालच्या रिकव्हरीमध्ये एफआयआय किंवा देशांतर्गत फंडांनी खरेदी केली नाही.

गुंतवणूकदारांचे मोठे नुकसान

बाजारातील घसरणीमुळे गुंतवणूकदारांचे मोठे नुकसान झाले आहे. बीएसईवर लिस्टेड कंपन्यांचे मार्केट कॅप शुक्रवारी (बाजार बंद होण्याच्या वेळी) ४,०३,८३,६४१ कोटी रुपयांवर घसरले. गुरुवारी बाजार बंद झाल्यानंतर ते ४१४,९६,२१८ कोटी रुपयांवर पोहोचले होते. अशा प्रकारे गुंतवणूकदारांच्या संपत्तीत १०,३२,५४४ कोटी रुपयांची घट झाली आहे.

कोणते शेअर्स तेजीत?

बीएसई सेन्सेक्समधील ३० शेअर्सपैकी २४ शेअर्स शुक्रवारी घसरणीसह बंद झाले. यामध्येही टाटा स्टीलचे शेअर्स सर्वाधिक ८.५९ टक्क्यांनी घसरले, तर टाटा मोटर्स, लार्सन अँड टुब्रो (एल अँड टी), अदानी पोर्ट्स आणि इंडसइंड बँकेचे शेअर्स घसरणीसह बंद झाले, तर उर्वरित ६ सेन्सेक्स शेअर्स शुक्रवारी हिरव्या रंगात म्हणजेच वाढीसह बंद झाले. यामध्ये बजाज फायनान्सच्या शेअर्समध्ये सर्वाधिक १.५९ टक्के वाढ झाली आहे. यानंतर एचडीएफसी बँक, नेस्ले इंडिया, आयसीआयसीआय बँक आणि एशियन पेंटचे शेअर्स वाढीसह बंद झाले.

खा. नारायण राणे यांनी दिली माहिती

सिंधुदुर्ग विमानतळावर मुंबई - पुणे बरोबरच अन्य शहरांसाठी लवकरच विमान सेवा

एअर अलायन्स सेवे बरोबरच इंडिगोचेही विमान उतरणार सिंधुदुर्ग विमानतळावर

◆ नवी दिल्ली (विशेष प्रतिनिधी) :

परुळे - चिपी येथील सिंधुदुर्ग विमानतळावर १८ एप्रिलपासून एअर अलायन्सची मुंबई - सिंधुदुर्ग-मुंबई सेवा देणारी विमाने उतरणार आहेत. एअर अलायन्स बरोबरच इंडीगो विमान कंपनीची सेवा सुरू करण्याबाबत पुढचतळीवर प्रयत्न सुरू आहेत. अशी माहिती खा. नारायण राणे यांनी दिली.

नागरी विमान वाहतूक मंत्री के. राम मोहन नायडू यांनी याबाबत विशेष योजना अमलात आणण्यात येईल असे माजी केंद्रीय मंत्री खा. नारायण राणे यांना आश्वासित केले होते. गेल्याच आठवड्यापासून सिंधुदुर्ग - पुणे विमान वाहतूक सुरूही झाली आहे.

गेले काही महिने चिपी ते मुंबई ही नियमित सुरू असलेली सेवा बंद झाली होती. ही सेवा पुन्हा मुंबई-सिंधुदुर्ग-मुंबई अशी सेवा सुरू करण्यासाठी उडाण संचालनालयाने विशेष धोरण अमलात आणावे यासाठी खा. नारायण राणे आग्रही होते. त्यांनी नागरी विमान वाहतूक मंत्री के. राम मोहन नायडू व नागरी विमान वाहतूक राज्यमंत्री मुरलीधर मोहोळ यांची भेट घेत सिंधुदुर्ग विमानतळावरील सेवा किती महत्त्वाची आहे, विमानतळावरील अन्य सेवा-सुविधा, सध्यस्थ यांकडे लक्ष वेधले होते. यानंतर वेगाने कार्यवाही होत सिंधुदुर्ग विमानतळावरील अनेक सेवा-सुविधा अपडेट करण्यात येत आहेत. यामुळे येत्या १८ एप्रिलपासून मुंबई-चिपी-मुंबई ही एअर अलायन्सची विमान सेवा दर शुक्रवारी सुरू होणार आहे. इंडिगो या कंपनीची विमान सेवा लवकरच जाहीर केली जाणार आहे. काही तांत्रिक त्रुटी दूर केल्यानंतर त्याची माहिती जाहीर होईल, असे खा. नारायण राणे यांनी सांगितले.

अलायन्स एअरने मुंबई-सिंधुदुर्ग-मुंबई दरम्यान उडाण सुरू केली. आरसीएसचा कालावधी ३ वर्षांचा होता, जो ऑक्टोबर २०२४ मध्ये संपला. उडाण सेवा बंधनकारक असल्याने पर्यटन व अर्थव्यवस्थेवर तसेच एअरलाइन वापरकर्त्यांवर याचा परिणाम झाला आहे. मुंबई ते चिपी सेवा कार्यान्वित असताना पर्यटकांना, जिल्हावासीयांना लाभ होत होता.

जागतिक पडझडीने

'सेन्सेक्स'ची नऊ शतकी गटांगळी

लोकसत्ता व्यापार प्रतिनिधी

मुंबई: व्यापार युद्धाचा भडका आणि अमेरिकेसह जगभरावर मंदीच्या छायेच्या चिंतेतून जागतिक बाजारपेठांमध्ये झालेल्या समभाग विक्रीच्या माऱ्यामुळे शुक्रवारी स्थानिक बाजारातही भीतीदायी पडसाद उमटले. प्रमुख निर्देशांक सेन्सेक्समध्ये ९०० अंशांहून अधिक घसरण होऊन तो ७६,००० च्या पातळीच्या खाली ढासळला.

खनिज तेलाच्या किमतीतील घसरण आणि निर्देशांकात सर्वाधिक योगदान राखणाऱ्या रिलायन्स इंडस्ट्रीज, लार्सन अँड टुब्रो आणि इन्फोसिस या बाजारातील दिग्गज कंपन्यांच्या समभागात विक्री झाल्याने बाजारातील निराशेत आणखी भर पडली, असे विश्लेषकांनी मत व्यक्त केले. परिणामी सप्ताहातील अखेरच्या सत्रात मुंबई शेअर बाजाराचा निर्देशांक सेन्सेक्स ९३०.६७ अंशांनी म्हणजेच १.२२ टक्क्यांनी घसरून ७५,३६४.६९ वर स्थिरावला. दिवसभरात त्याने १,०५४.८१ अंश गमावत ७५,२४०.५५ या सत्रातील नीचांकी पातळीला स्पर्श केला होता. दुसरीकडे राष्ट्रीय शेअर बाजाराचा निर्देशांक निफ्टीमध्ये ३४५.६५ अंशांची (१.४९ टक्के) घसरण झाली आणि तो २२,९०४.४५ पातळीवर बंद झाला.

सेन्सेक्सधील टाटा स्टील सर्वाधिक ८.५९ टक्क्यांनी गडगडला. त्यापाठोपाठ टाटा मोटर्स, लार्सन अँड टुब्रो, अदानी पोर्ट्स, इंडसइंड बँक, टेक महिंद्र, रिलायन्स इंडस्ट्रीज, सन फार्मास्युटिकल, एचसीएल टेक्नॉलॉजीज, टाटा कन्सल्टन्सी सर्व्हिसेस, इन्फोसिस आणि एनटीपीसी या कंपन्यांचे समभाग नकारात्मक पातळीवर स्थिरावले. दुसरीकडे, बजाज फायनान्स, एचडीएफसी बँक, नेस्ले इंडिया, आयसीआयसीआय बँक, आयटीसी, एशियन पेंट्स आणि ॲक्सिस बँक यांचे समभाग मात्र तेजीत होते.

जागतिक शेअर बाजारातील घसरणीमुळे देशांतर्गत बाजारात प्रमुख निर्देशांकांमध्ये पडझड झाली. क्षेत्रीय पातळीवर विविध निर्देशांक प्रत्येकी २-६ टक्क्यांपर्यंत घसरले. ट्रम्प यांच्या नवीन व्यापार धोरणामुळे मंदी येण्याची शक्यता असून अमेरिकेतही महागाई वाढेल. आगामी काळात हे अरिष्ट इतर प्रमुख अर्थव्यवस्थांनाही गिळंकृत करेल, या भीतीने गुंतवणूकदारांमध्ये घर निर्माण केले आहे.

मंदी आली तर मागणीला फटका बसण्याच्या शक्यतेने धातू आणि तेल वितरण कंपन्यांच्या समभागांमध्ये घसरण झाली, असे निरीक्षण मेहता इक्विटीज लिमिटेडचे वरिष्ठ उपाध्यक्ष (संशोधन) प्रशांत तापसे यांनी नोंदवले.

अमेरिकी मंदीच्या भीतीने हाहाःकार

गुरुवारी अमेरिकेच्या प्रमुख शेअर बाजार निर्देशांकांमध्ये २०२० नंतरची सर्वात मोठी टक्केवारीतील घसरण नोंदवण्यात आली. अमेरिकेचे अध्यक्ष डोनाल्ड ट्रम्प यांच्या कठोर कर धोरणामुळे जागतिक मंदीच्या भीतीने एस अँड पी ५०० निर्देशांकातील कंपन्यांनी एकत्रितपणे २.४ (ट्रिलियन) लाख कोटी अमेरिकी डॉलरचे बाजार मूल्य केवळ काही तासात गमावले. १६ मार्च २०२० रोजी जागतिक बाजारपेठेत करोना साथीचा प्रादुर्भाव झाल्यानंतर जे नुकसान झाले, त्यानंतरचा हा एका दिवसातील सर्वात मोठा तोटा आहे. नॅसडॅक निर्देशांकानेही सहा टक्क्यांची ऐतिहासिक घसरण नोंदविली.

गुंतवणूकदारांना १० लाख कोटींची झळ

सेन्सेक्सच्या ९०० अंशांच्या शुक्रवारच्या झडीने गुंतवणूकदारांच्या संपत्तीत १० लाख कोटी रुपयांची घसरण झाली. गेल्या तीन सत्रात सेन्सेक्स १२,०० अंशांहून अधिक कोसळला आहे. शेअर बाजारातील निराशाजनक वातावरणामुळे मुंबई शेअर बाजारातील सूचिबद्ध कंपन्यांचे बाजार भांडवल ९.९८ लाख कोटी रुपयांनी घसरून ४०३.३४ लाख कोटी रुपयांपर्यंत (४.७३ ट्रिलियन अमेरिकी डॉलर) खाली आले आहे.

व्यापार युद्ध की आशंका से शेयर बाजार सहमा, सेंसेक्स ९३१ अंक लुढ़का

मुंबई । व्यापार युद्ध गहराने की आशंका हावी होने से वैश्विक बाजारों में आई नरमी के बीच शुक्रवार को घरेलू शेयर बाजारों में तेज गिरावट दर्ज की गई। मानक सूचकांक सेंसेक्स करीब ९३१ अंक लुढ़क गया जबकि निफ्टी में ३४६ अंकों की गिरावट आई। विश्लेषकों ने कहा कि कच्चे तेल की कीमतों में तेज गिरावट और घरेलू दिग्गज कंपनियों रिलायंस इंडस्ट्रीज, लार्सन एंड टुब्रो और इन्फोसिस में भारी बिकवाली ने भी निवेशकों की धारणा को नकारात्मक रूप से प्रभावित किया। बीएसई का ३० शेयरों पर आधारित सूचकांक सेंसेक्स ९३०.६७ अंक यानी १.२२ प्रतिशत गिरकर ७६,००० के स्तर से काफी नीचे ७५,३६४.६९ अंक पर बंद हुआ। कारोबार के दौरान एक समय यह १,०५४.८१ अंक गिरकर ७५,२४०.५५ तक आ गया था। नेशनल स्टॉक एक्सचेंज (एनएसई) का मानक सूचकांक निफ्टी भी ३४५.६५ अंक यानी १.४९ प्रतिशत गिरकर २३,००० के नीचे २२,९०४.४५ अंक पर बंद हुआ। कारोबार के दौरान एक समय यह ३८२.२ अंक गिरकर २२,८६७.९० पर आ गया था। सेंसेक्स के समूह में शामिल कंपनियों में से टाटा स्टील के शेयरों में सर्वाधिक ८.५९ प्रतिशत की गिरावट दर्ज की गई। इसके बाद टाटा मोटर्स, लार्सन एंड टुब्रो, अदाणी पोर्ट्स, इंडसइंड बैंक, टेक महिंद्रा, रिलायंस इंडस्ट्रीज, सन फार्मा, एचसीएल टेक्नोलॉजीज, टाटा कंसल्टेंसी सर्विसेज, इन्फोसिस और एनटीपीसी में भी प्रमुख रूप से गिरावट रही। दूसरी तरफ, बजाज फाइनेंस, एचडीएफसी बैंक, नेस्ले इंडिया, आईसीआईसीआई बैंक, आईटीसी, एशियन पेंट्स और एक्सिस बैंक के शेयरों में बढ़त दर्ज की गई। मझोली कंपनियों का बीएसई मिडकैप सूचकांक में ३.०८ प्रतिशत की गिरावट आई, जबकि छोटी कंपनियों के स्मॉलकैप सूचकांक में ३.४३ प्रतिशत की गिरावट

आई। मेहता इक्विटीज लिमिटेड के वरिष्ठ उपाध्यक्ष (शोध) प्रशांत तापसे ने कहा, 'वैश्विक बाजारों में गिरावट के साथ ही घरेलू बाजारों में भी गिरावट हावी रही। व्यापक बिकवाली के कारण विभिन्न क्षेत्रों में दो-छह प्रतिशत की गिरावट देखी गई।' तापसे के मुताबिक, निवेशकों को डर है कि अमेरिकी राष्ट्रपति डोनाल्ड ट्रंप की जवाबी शुल्क नीति अमेरिका में मंदी और मुद्रास्फीति को बढ़ावा देगी जो आगे चलकर अन्य प्रमुख अर्थव्यवस्थाओं को भी अपनी चपेट में ले लेगी।

उन्होंने कहा कि धातु और पेट्रोलियम शेयरों में तेज गिरावट यह संकेत दे रही है कि मंदी की आशंकाओं के बीच मांग पर असर पड़ सकता है। एशिया के अन्य बाजारों में जापान के निक्की और दक्षिण कोरिया के कॉस्पी सूचकांक में गिरावट दर्ज की गई जबकि हांगकांग और शंघाई शेयर बाजार छुट्टियों के कारण बंद रहे। यूरोप के बाजार मध्य सत्र के सौदों में गिरावट के साथ कारोबार कर रहे थे। अमेरिकी बाजार बृहस्पतिवार को २०२० में कोविड महामारी के बाद की सबसे बड़ी गिरावट के साथ बंद हुए थे। वैश्विक तेल मानक ब्रेंट क्रूड ३.२६ प्रतिशत गिरकर ६७.८५ डॉलर प्रति बैरल पर आ गया। इस बीच, विदेशी संस्थागत निवेशकों (एफआईआई) ने बृहस्पतिवार को २,८०६ करोड़ रुपये मूल्य के शेयरों की शुद्ध बिकवाली की जबकि घरेलू संस्थागत निवेशकों (डीआईआई) ने शुद्ध आधार पर २२१.४७ करोड़ रुपये के शेयर खरीदे। सेंसेक्स बृहस्पतिवार को ३२२.०८ अंकों की गिरावट के साथ ७६,२९५.३६ और निफ्टी ८२.२५ अंकों की गिरावट के साथ २३,२५०.१० पर बंद हुआ था।

सीमेंट के बाद अब तार और केबल क्षेत्र में प्रतिस्पर्धा करेंगे अदाणी, आदित्य बिड़ला समूह

नयी दिल्ली। अरबपति उद्योगपति गौतम अदाणी की अगुवाई वाला अदाणी समूह और कुमार मंगलम बिड़ला का आदित्य बिड़ला समूह सीमेंट के बाद अब तार एवं केबल कारोबार में आमने-सामने होने के लिए तैयार हैं। दोनों ही समूह दहाई अंकों की वृद्धि वाले इस क्षेत्र में उतरने की घोषणा कर चुके हैं। एक महीने से भी कम समय में दोनों समूहों ने तार और केबल क्षेत्र में उतरने की घोषणा की है। इन दोनों समूहों की प्रतिस्पर्धा की वजह से सीमेंट क्षेत्र की छोटी कंपनियां पहले ही काफी पीछे छूट गई हैं। वहीं तार और केबल उद्योग में असंगठित और छोटी कंपनियों का दबदबा है। दो बड़े समूहों के इस क्षेत्र में कदम रखने से तार और केबल उद्योग में प्रतिस्पर्धा तेज होने का अनुमान है। इस क्षेत्र ने वित्त वर्ष 2018-19 से 2023-24 के बीच राजस्व में सालाना आधार पर 13 प्रतिशत की वृद्धि दर्ज की है। यह क्षेत्र अब एक संगठित ब्रांड बाजार की ओर बढ़ रहा है। शत टूट गया।

વ્યાપાર ટીમ

મુંબઈ, તા. ૪ એપ્રિલ

ટ્રમ્પની ટેરિફના ધમાકાથી વૈશ્વિક વેપાર યુદ્ધનો ભય વધી રહ્યો છે તે સંજોગોમાં દરિયાપારના શેરબજારોની નબળાઈ પાછળ ભારતીય શેરબજારોમાં કડાકો બોલી ગયો હતો. સેન્સેક્ષ ૯૩૦.૬૭ પોઈન્ટ્સ (૧.૨૨ ટકા) ઘટીને ૭૫,૩૬૪.૬૯ પોઈન્ટ્સ ઉપર અને નિફ્ટી ૩૪૫.૬૫ પોઈન્ટ્સ (૧.૪૯ ટકા) ઘટીને ૨૨,૯૦૪.૪૫ પોઈન્ટ્સ ઉપર બંધ થયા હતા.

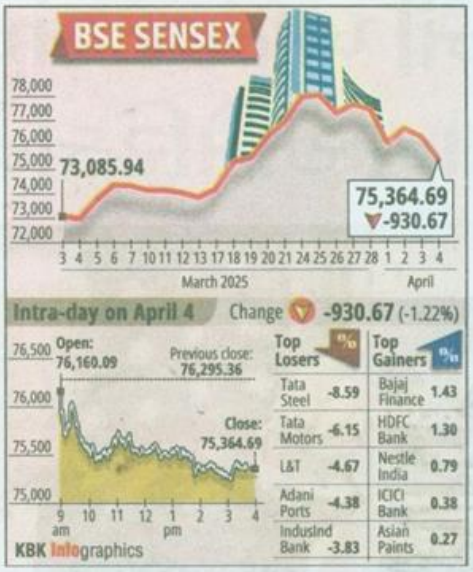

એક તબક્કે સેન્સેક્ષ ૧૦૫૪.૮૧ પોઈન્ટ્સ (૧.૩૮ ટકા) ઘટીને ઈન્ટ્રાડેમાં ૭૫,૨૪૦.૫૫ પોઈન્ટ્સ સુધી નીચે ગયો હતો, જ્યારે નિફ્ટી ૩૮૨.૨ પોઈન્ટ્સ (૧.૬૪ ટકા) ઘટીને ઈન્ટ્રાડેમાં ૨૨,૮૬૭.૯૦ પોઈન્ટ સુધી નીચે ગયો હતો.

जागतिक व्यापारयुद्धाच्या भीतीने बाजाराला कंप

चौफेर विक्रीचा मारा ▮ सेन्सेक्सची ९०० अंकांनी गटांगळी

▮ मुंबई : ट्रम्प यांनी शुल्कवाढीचा शॉक दिल्यानंतर आता नव्याने जागतिक व्यापार युद्धाची भीती जगभरातील गुंतवणूकदारांना सतावू लागली आहे. याच भीतीमुळे जागतिक बाजारपेठेत झालेल्या घसरणीचा परिणाम म्हणून भांडवल बाजारात झालेल्या जोरदार विक्रीमध्ये सेन्सेक्स ९०० अंकांपेक्षा जास्त घसरून ७६,००० अंकाच्या खाली आला. अमेरिकेच्या राष्ट्राध्यक्षांनी मोठ्या प्रमाणात प्रत्युत्तर शुल्क जाहीर केल्यानंतर कच्च्या तेलाच्या किमती घसरल्या. यामुळे जागतिक मागणी कमी होण्याची भीती निर्माण झाली आहे. शेअर बाजार घसरण्याचे हेही एक कारण होते.

जागतिक पातळीवर आशियाई बाजारपेठेत जपान, दक्षिण कोरिया शेअर बाजार घसरला. किंगमिंग महोत्सवानिमित्त चीन आणि हाँगकाँगच्या शेअर बाजाराला सुट्टी होती. युरोप बाजारातही घसरणीचा कल होता. गुरुवारी अमेरिकेच्या शेअर बाजारामध्ये २०२० नंतरची सर्वात मोठी घसरण दिसून आली. कच्च्या तेलाच्या किमतींमध्ये तीव्र घट त्याचबरोबर रिलायन्स इंडस्ट्रीज, लार्सन आणि टुब्रो आणि इन्फोसिस या बड्या समभागांच्या जोरदार विक्रीमुळेही गुंतवणूकदारांच्या मानसिकतेवर नकारात्मक परिणाम झाला.

चौफेर विक्रीच्या माऱ्यामध्ये टाटा मोटर्स, टाटा स्टील, लार्सन अँड टुब्रो, रिलायन्स इंडस्ट्रीज, मारुती सुझुकी इंडिया, इंडसइंड बँक, इन्फोसिस, एचसीएल टेक्नॉलॉजीज, एनटीपीसी, टेक महिंद्रा, सन फार्मास्युटिकल इंडस्ट्रीज आणि अदाणी पोर्ट्स या समभागांना फटका बसला. तर एचडीएफसी बँक, बजाज फायनान्स, भारती एअरटेल, महिंद्रा अँड महिंद्रा, कोटक महिंद्रा बँक, आयसीआयसीआय बँक, नेस्ले इंडिया आणि हिंदुस्तान युनिलिव्हर या समभागांना खरेदीचा आधार मिळाला.

जागतिक शेअर बाजारातील घसरणीच्या अनुषंगाने भांडवल बाजारात झालेल्या आक्रमक विक्रीमुळे पडझड झाली. ट्रम्प यांच्या शुल्क धोरणामुळे मंदी वाढेल आणि अमेरिकेत महागाई वाढेल आणि इतर प्रमुख अर्थव्यवस्थांनाही गिळंकृत करेल, अशी गुंतवणूकदारांना भीती वाटत आहे. मंदीच्या भीतीमुळे मागणीवर परिणाम होऊ शकतो. धातू आणि तेलाच्या साठ्यात मोठी घसरण होत असल्याचे दिसून येत आहे, असे मेहता इक्विटीज लिमिटेडचे वरिष्ठ संशोधन उपाध्यक्ष प्रशांत तापसे म्हणाले.

सेन्सेक्स ९३०.६७ अंकांनी घसरून ७५,३६४.६९ अंकाच्या पातळीवर बंद झाला. दिवसभरात सेन्सेक्स १,०५४.८१ अंकांनी घसरून ७५,२४०.५५ अंकाच्या इंट्राडे नीचांकी पातळीवर आला होता. राष्ट्रीय शेअर बाजाराचा निफ्टी निर्देशांक ३४५.६५ अंकांनी घसरून २२,९०४.४५ अंकाच्या पातळीवर बंद झाला. बीएसई मिडकॅप निर्देशांक ३.०८ टक्क्यांनी, तर स्मॉलकॅप निर्देशांक ३.४३ टक्क्यांनी घसरला.

रुपया मात्र ५ पैशांनी मजबूत

अमेरिकन डॉलर निर्देशांक कमकुवत झाल्याने आणि कच्च्या तेलाच्या किमतीत मोठी घसरण झाल्याने दिवसभरात रुपया वधारला होता. जागतिक बाजारपेठेत शुल्काशी संबंधित व्यापार चिंतेमुळे जोखीम टाळल्याने रुपयाची सुरुवातीची वाढ कमी झाली आणि तो अमेरिकन डॉलरच्या तुलनेत ५ पैशांनी वाढून ८५.२५ (तात्पुरता) वर बंद झाला.

धातू, औषधे, आयटीमुळे बाजार कोसळला

अमेरिकी आयातशुल्कामुळे निर्देशांक घसरले

वृत्तसंस्था, मुंबई

अमेरिकेकडून अतिरिक्त आयातशुल्क जाहीर झाल्यानंतर अमेरिकेसह जगभरात मंदी येण्याची शक्यता शुक्रवारी सर्वत्र वर्तवली गेली. त्यामुळे जगभरातील शेअर बाजारांत पडझड झाली.

देशातील मुंबई आणि राष्ट्रीय शेअर बाजारांचे निर्देशांक देखील पडले. धातू, औषधे आणि आयटी क्षेत्रांतील कंपन्यांच्या समभागांना विक्रीचा मारा सहन करावा लागला. परिणामी, मुंबई शेअर बाजाराचा सेन्सेक्स ९३०.६७ अंकांनी कोसळून ७५,३६४.६९वर स्थिरावला. राष्ट्रीय शेअर बाजारात निफ्टी ३४५.६५ अंकांनी घसरून २२,९०४.४५वर बंद झाला.

सेन्सेक्सची उभारणी करणाऱ्या ३० कंपन्यांपैकी टाटा स्टीलचा समभाग सर्वाधिक ८.५९ टक्के पडला. टाटा मोटर्स, लार्सन अँड टुब्रो, अदानी पोर्ट्स, इंडसइंड बँक, टेक महिंद्र, रिलायन्स इंडस्ट्रीज, सन फार्मा, एचसीएल टेक्नॉलॉजिज, टीसीएस, इन्फोसिस आणि एनटीपीसी यांचे समभाग पडले. बजाज फायनान्स, एचडीएफसी बँक, नेसले इंडिया, आयसीआयसीआय बँक, आयटीसी, एशियन पेंट्स आणि ॲक्सिस बँक यांचे समभाग वधारले. कच्च्या खनिज तेलाचा दर घसरला.

- पाच मिनिटांच्या अंतरावर वाहतूक व्यवस्था
- मोकळे रस्ते, हिरवळ, सायकल ट्रॅकची सोय
- वाहतूककोंडी टाळण्यासाठी उपाययोजना

चित्र : एआय

मुंबई : धारावी पुनर्विकास योजनेतील (डीआरपी) पुनर्विकसित धारावीमध्ये रहिवाशांना हिरवळ, मोकळ्या जागा, रस्ते सुरक्षा, उद्यानांसह महत्त्वाच्या पायाभूत सुविधा उपलब्ध होणार आहेत. धारावी अधिसूचित क्षेत्राच्या (डीएनए) मास्टर प्लॅनमध्ये पुनर्विकसित धारावीतील सोयीसुविधांवर विशेष लक्ष केंद्रित करण्यात आले आहे. येथील रहिवाशांसाठी मेट्रोसह अन्य सार्वजनिक वाहतूक व्यवस्था पाच मिनिटांच्या अंतरावर राहतील, असे नियोजन करण्यात आले आहे.

मटा विशेष

धारावी पुनर्विकास योजनेमध्ये (डीआरपी) पुनर्विकसित भूभागात रहिवाशांना नेमक्या कोणत्या सुविधा असतील, याचे काटेकार नियोजन मास्टर प्लॅनमध्ये करण्यात आले आहे. या प्रकल्पाचा भाग म्हणून सध्या सर्वेक्षणाची प्रक्रिया सुरू आहे. गेल्या काही महिन्यांपासून धारावी पुनर्विकास प्रकल्प चर्चेच्या केंद्रस्थानी आहे. त्यातील पुनर्विकसित धारावीमध्ये रहिवाशांना कोणकोणत्या पायाभूत सुविधा मिळतील, असे प्रश्न उपस्थित केले जात आहेत. त्यासंदर्भात सूत्रांनी दिलेल्या माहितीनुसार, मास्टर प्लॅनमध्ये या ठिकाणी लोकसंख्येची घनता ही बाब लक्षात घेण्यात आली आहे. धारावीतील लोकसंख्येची घनता अधिक असल्याने पुनर्विकसित भागातील मोकळ्या जागा, हिरवळ, चालण्यासाठी मोकळी जागा, रस्ते सुरक्षा, सार्वजनिक वाहतूक व्यवस्थेचा सक्षम वापर आदींवर भर देण्यात आला आहे.

मास्टर प्लॅननुसार, पुनर्विकसित धारावीत काँक्रीटच्या जंगलाचे प्रतिबिंब उमटणार नाही, याची दक्षता घेण्यात येणार आहे. उत्तम पायाभूत सुविधा देण्याच्या अनुषंगाने प्लॅनमध्ये महत्त्वाच्या बाबींचा समावेश करण्यात आला आहे. मैदानांप्रमाणेच हिरवळ अधिक प्रमाणात राहील, याचा विशेषत्वाने विचार करण्यात आला आहे. नियोजनाचा भाग म्हणून चालण्यासाठी मोकळी जागा, सायकल ट्रॅकची सुविधा राहणार आहे. वाहनांमुळे रस्त्यांवर कोंडी होऊ नये, यासाठी सार्वजनिक वाहतूक व्यवस्था अधिक सक्षम केली जाईल. त्यासाठी इथल्या रहिवाशांना पाच मिनिटांच्या अंतरावर सार्वजनिक वाहतूक व्यवस्था उपलब्ध राहील, अशी रचना राहणार असल्याचे सूत्रांचे म्हणणे आहे. ही व्यवस्था पुनर्विकसितप्रमाणेच अपात्र धारावीकरांना स्थलांतरित केल्या जाणाऱ्या नवीन वसाहतीतही राहणार आहे. सुरक्षित रस्ते संकल्पना राबवताना रहिवाशांना चालण्यासाठी मोकळी जागा, सार्वजनिक वाहतूक व्यवस्थेमुळे वाहनांची संख्या कमी प्रमाणात राहील, असा दावा केला जात आहे. साधारणपणे, जागतिक पातळीवर शहरांच्या नियोजन, आरेखनात अवलंबल्या जाणाऱ्या घटकांचा समावेश त्यात करण्यात आल्याचे सांगण्यात येते.

दीड लाख घरे

धारावीतील पात्र, अपात्र रहिवाशांसाठी सुमारे दीड लाख नवीन घरे बांधण्यात येतील. १ जानेवारी २००० पूर्वी धारावीमध्ये राहणाऱ्या तळमजल्यावरील रहिवाशांना धारावीत ३५० चौ.फूट घर विनामूल्य मिळेल. १ जानेवारी २००० ते १ जानेवारी २०११ या कालावधीतील तळमजल्यावरील रहिवाशांना पंतप्रधान आवास योजनेतंर्गत धारावीबाहेर कमी दरांत ३०० चौ.फू. घर मिळेल. १५ नोव्हेंबर २०२२पर्यंत वरच्या मजल्यावरील सर्व रहिवाशांना आणि १५ नोव्हेंबर २०२२पर्यंत इतर तळमजल्यावरील रहिवाशांना धारावीबाहेर भाडेतत्त्वावर, खरेदी तत्त्वावर ३०० चौ.फू. घरे मिळतील.

लंडनहून निघालेले विमान उतरले तुर्कीत

वैद्यकीय आणीबाणी; इतर प्रवासी 30 तास अडकले

म. टा. प्रतिनिधी, पुणे

लंडनवरून मुंबईला येणाऱ्या प्रवासी विमानातील एका प्रवाशाला वैद्यकीय आणीबाणी निर्माण झाल्याने हे विमान आपत्कालीन परिस्थितीत अचानक तुर्कीतील दियाबाकीर विमानतळावर उतरवावे लागले. मात्र, दियाबाकीर विमानतळ हे लहान व लष्करी असल्यामुळे हार्ड लँडिंग होऊन गिअरमध्ये समस्या निर्माण झाली. त्यामुळे ३० तास प्रवासी अकडून पडले होते. अखेर, केंद्रीय विमान वाहतूक राज्यमंत्री मुरलीधर मोहोळ यांच्या मदतीने ते सर्व जण मुंबईत परतले.

व्हर्जिन अटलांटिक (व्हीएस ३५८) कंपनीचे विमान लंडनहून मुंबईकडे निघाले होते. एका प्रवाशाच्या वैद्यकीय आणीबाणीमुळे हे विमान दियाबाकीर विमानतळावर आपत्कालीन परिस्थितीमध्ये उतरवावे लागले. हे लष्करी विमानतळ असून, लहान आहे. या विमानतळावर सुविधांची कमतरता व संपर्क साधनांच्या मर्यादा होत्या. त्यामुळे भारतीय प्रवासी ३० तास तिथे अडकून पडले होते. त्यातील काही प्रवाशांनी नागरी विमान वाहतूक राज्यमंत्री मुरलीधर मोहोळ यांच्याशी संपर्क साधून मदतीची मागणी केली.

> लंडनवरून मुंबईला येणाऱ्या विमानात माझा एक मित्र प्रवास करीत होता. त्यांनी अचानक तुर्कीत अडकून पडल्याची माहिती मला दिल्यानंतर मी मुख्यमंत्री देवेंद्र फडणवीस, केंद्रीय राज्यमंत्री मुरलीधर मोहोळ, भाजप नेते विनोद तावडे यांच्याशी संपर्क साधून त्यांना माहिती दिली. मोहोळ यांनी सविस्तर घटना जाणून घेतली. विमान वाहतूक मंत्रालयातील दोन अधिकारी सातत्याने वेगवेगळ्या यंत्रणांशी संपर्क करण्यासाठी नेमण्यात आले. वेगवान हालचाली केल्यामुळे प्रवाशांना दिलासा मिळू शकला.
>
> - ॲड. सत्यम सुराणा

मोहोळ यांनी तातडीने अडकलेल्या प्रवाशांशी, अधिकाऱ्यांशी संपर्क साधला. व्हर्जिन अटलांटिक एअरलाइन्सशीही चर्चा केली. सर्व प्रवाशांना 'ट्रान्झिट व्हिसा' देण्यात आला; तसेच अन्य सोयीही पुरविण्यात आल्या. मोहोळ यांनी समन्वयासाठी मंत्रालयात विशेष पथकांची नियुक्ती केली. याशिवाय परराष्ट्र मंत्रालयातील अधिकारी, तुर्की येथील भारतीय दूतावासाशी व मुख्यमंत्री देवेंद्र फडणवीस यांच्या कार्यालयाशीही संपर्क साधला. या समन्वयातून मोहोळ यांनी प्रवाशांना मुंबईला परतण्यासाठी विशेष विमान उपलब्ध करून दिले. त्यातून शुक्रवारी रात्री हे प्रवासी मुंबईत पोहोचले.

धारावी पुनर्विकास : उभे राहतेय नवे शहर

धारावी.. आशिया खंडातील सर्वात मोठी झोपडपट्टी म्हणून कुप्रसिद्ध. या २.३९ चौरस कि. मीटर परिसरात पसरलेल्या वस्तीचा पुनर्विकास व्हावा, अशा चर्चा विसाव्या शतकाच्या उत्तरार्धात सुरू झाल्या, जेव्हा तुलनेने लोकसंख्या कमी होती. तरीही हा प्रकल्प अत्यंत आव्हानात्मक मानला गेला. दोन दशके उलटूनही रखडलेला हा प्रकल्प आता राज्य सरकारच्या आग्रही भूमिकेमुळे पूर्णत्वास जाण्याची शक्यता निर्माण झाली आहे. हा प्रकल्प केवळ धारावीच नव्हे, तर संपूर्ण मुंबईच्या विकासाला दिशा देणारा ठरणार आहे. त्याचमुळे सध्याच्या प्रकल्पाचा आढावा, त्याच्यासमोरील आव्हाने आणि धारावीकरांना यातून नेमकं काय मिळणार याचा हा धांडोळा...

धारावीचे संग्रहित छायाचित्र

• मुंबईच्या गतिशीलतेला ऊर्जा देणारी धारावी

आपल्या कष्टाळू, उद्योगी स्वभावातून परिस्थितीशी सतत दोन हात करत मुंबईच्या मध्यभागी पसरलेली धारावी तिच्या महानगरी संघर्षशील जीवनाचे मूर्तिमंत उदाहरण. धारावीच्या पोटात असंख्य लघुउद्योग बहरले आहेत. विशेषतः चर्मोद्योग, कागदाचा पुनर्वापर, मातीच्या वस्तू त्याबरोबर इथला कापड उद्योग प्रसिद्ध आहे. धारावीतील लोकसंख्या अत्यंत दाट असून, अरुंद कॉंदट गल्ल्या आणि अनधिकृत बांधकामे यामुळे बकालपणाशीही ही वस्ती झुंज देते. पाणीटंचाई, अस्वच्छता आणि आरोग्यविषयक समस्या येथील रहिवाशांच्या जणू पाचवीलाच पूजलेल्या आहेत. अत्यंत दाटीवाटीने राहणारी प्रचंड लोकसंख्या आणि आरोग्य सुविधांचा अभाव यामुळे पाणीटंचाई, अस्वच्छता यामुळे क्षयसारख्या संसर्गजन्य आजारांनी या वस्तीत घर केले आहे. शिक्षण आणि रोजगाराच्या संधी मर्यादित असल्याने अनेक कुटुंबांना हाता-तोंडाची गाठ पडण्यासाठीही प्रचंड संघर्ष करावा लागतो. इतकं असलं तरी, धारावीतील समाज एकसंध असून, धारावीचा लढाऊ आणि जिद्दी स्वभाव मुंबईच्या गतिशीलतेला ऊर्जा देणारा आहे.

सुमारे २.३९ चौरस किलोमीटर क्षेत्रफळावर ७ लाख ते १० लाखांहून अधिक लोक राहतात. त्यामुळे येथे लोकसंख्येची घनता प्रतिचौरस किलोमीटर २,९२,००० ते ४,१८,००० इतकी आहे. संपूर्ण मुंबईची सरासरी लोकसंख्येची घनता २७,००० प्रतिचौरस किलोमीटर इतकी आहे. इथल्या अरुंद गल्ली बोळात जणू प्रतिसृष्टीच अवतरली आहे. छोटे छोटे लघुउद्योग, कुटिरोद्योग धारावीत बहराला आले. काळ जसजसा पुढे सरकला तसे वाढती लोकसंख्या आणि शासकीय उदासीनतेमुळे धारावीत मूलभूत सुविधांची वानवा निर्माण झाली. धारावीने लघुउद्योगांच्या माध्यमातून मुंबईच्या अर्थव्यवस्थेला हातभार लावला, पण आज तिची परिस्थिती जागतिक दर्जाच्या शहराला शोभणारी नाही. म्हणूनच धारावीकर अनेक वर्षांपासून या वस्तीच्या संपूर्ण कायापालटाची वाट पाहत आहे. आता धारावी पुनर्विकास प्रकल्पामुळे धारावीच्या रहिवाशांच्या पक्क्या घरांचे स्वप्न दृष्टिपथात आले आहे.

धारावीचा संघर्षमय इतिहास

राज्य सरकारने धारावी पुनर्विकास प्रकल्पाला 'विशेष प्रकल्प' म्हणून मान्यता दिली आहे. धारावी पुनर्विकास प्रकल्पाच्या (डीआरपी) अंतर्गत सर्वेक्षणाला वेग आला असून, आतापर्यंत ९७,००० हून अधिक लेन रेकी पूर्ण झाल्या असून, ९१,००० हून अधिक घरांवर क्रमांक देण्यात आले आहेत. सुमारे ६५,००० झोपड्यांचे प्रत्यक्ष सर्वेक्षण झाले आहे.

आकड्यांमध्ये धारावी

- २.३९ चौरस कि.मी.
- लोकसंख्या १० लाख
- प्रतिचौरस कि.मी.- ४ लाख लोक
- बांधली जाणार १.५ लाख घरे
- सर्वात मोठा पुनर्वसन प्रकल्प
- ९१ हजार घरांना दिले घर नंबर

झोपडपट्टी पुनर्वसन प्राधिकरणाच्या (एसआरए) नियमानुसार तळमजल्यावरील झोपड्या, वरच्या मजल्यावरील सदनिका, एसआरए इमारती, रेल्वेच्या जागेवरील झोपड्या आणि धार्मिक स्थळांचा समावेश या सर्वेक्षणात केला जात आहे. या प्रक्रियेनंतर पात्र धारावीकरांची निश्चिती केली जाईल.

यासाठी 'भाडेकरार-खरेदी' योजना राबवली जाईल, जिथे लाभार्थी वाजवी भाडे भरून किंवा माफक दरात घर खरेदी करू शकतील. विशेष म्हणजे, झोपडपट्टी पुनर्वसन प्रकल्पाच्या नियमांनुसार घराचे क्षेत्रफळ २७० चौरस फूट असते, मात्र धारावीकरांसाठी हा नियम शिथिल करून ३५० चौरस फुटांचे घर देण्यात येणार आहे. याशिवाय, पुनर्वसनानंतर धारावीकरांना पुढील १० वर्षे कोणताही देखभाल खर्च भरावा लागणार नाही. प्रत्येक पुनर्विकसित सोसायटीतील १० टक्के क्षेत्र व्यावसायिक वापरासाठी राखीव ठेवले जाईल आणि त्यातून येणाऱ्या उत्पन्नातून सोसायटीचा देखभाल खर्च भागवला जाईल. यामुळे धारावीकरांचा कायमस्वरूपी आर्थिक भार कमी होईल. धारावीतील उद्योगांना पाच वर्षांपर्यंत राज्य जीएसटीतून सूट दिली जाणार आहे.

धारावीकरांना काय मिळणार?

धारावी पुनर्विकास प्रकल्पामध्ये प्रत्येक धारावीकराला घर मिळणार आहे, हे या प्रकल्पाचे वैशिष्ट्य आहे. याआधी केवळ पात्र रहिवाशांनाच घर देण्याची योजना होती, मात्र यावेळी अपात्र धारावीकरांनाही विशेष नियम आणि अटींसह पुनर्वसनाचा लाभ मिळणार आहे.

- सन २००० पूर्वी तळमजल्यावर वास्तव्यास असलेल्या रहिवाशांना ३५० चौरस फुटांचे मोफत घर मिळेल.
- १ जानेवारी २००० ते १ जानेवारी २०११ दरम्यान तळमजल्यावर आलेल्या रहिवाशांना धारावीबाहेर प्रधानमंत्री आवास योजनेंतर्गत ३०० चौरस फुटांचे माफक दरातील घर दिले जाईल.
- १ जानेवारी २०११ ते १५ नोव्हेंबर २०२२ दरम्यान तळमजल्यावर आलेले आणि १५ नोव्हेंबर २०२२ पूर्वी वरच्या मजल्यावर राहणाऱ्या रहिवाशांना धारावीबाहेर ३०० चौरस फुटांचे घर माफक दरात देण्यात येईल.

सर्वांगीण विकासाचे आश्वासन

धारावी पुनर्विकास प्रकल्प केवळ घर उपलब्ध करून देण्यापुरता मर्यादित न राहता संपूर्ण भागाचा विकास करेल. स्वतंत्र स्वयंपाकघर आणि शौचालय असलेली घरे अखंडित वीज आणि पाणीपुरवठा सांडपाण्याचे योग्य व्यवस्थापन प्रशस्त रस्ते, उद्याने, खेळाची मैदाने अद्ययावत आरोग्य सुविधा आणि शैक्षणिक संस्था, मॉल्स, रेस्टॉरंट्स् आणि शॉपिंग कॉम्प्लेक्स.

प्रकल्पासमोरील आव्हाने

धारावी पुनर्विकास प्रकल्प हा आशियातील सर्वांत मोठ्या झोपडपट्टीच्या पुनर्विकासाचा महत्त्वाकांक्षी उपक्रम आहे. यामध्ये विविध घटकांना पुनर्वसनाच्या चौकटीत सामावून घेणे हे मोठे आव्हान आहे. धारावीतील निसर्ग उद्यान आणि इतर आरक्षित भूखंड, तसेच फनेल झोनमुळे उंच इमारती उभारण्यावर मर्यादा येऊ शकते. संक्रमण शिबिरे न उभारता थेट घरांच्या चाव्या रहिवाशांच्या हाती देण्याच्या सरकारच्या निर्णयामुळे प्रकल्प वेळेत पूर्ण करणे अत्यंत महत्त्वाचे ठरणार आहे. तसेच, अपात्र रहिवाशांसाठी धारावीबाहेर पुनर्वसन करताना तिथेही योग्य पायाभूत सुविधा उभारण्याचे मोठे आव्हान आहे.

ഐബി ഉദ്യോഗസ്ഥയുടെ മരണം: സഹപ്രവർത്തകനെതിരെ ബലാത്സംഗത്തിനും കേസ്

തിരുവനന്തപുരം∙ രാജ്യാന്തര വിമാനത്താവളത്തിലെ ഇന്റലിജൻസ് ബ്യൂറോ ഉദ്യോഗസ്ഥയായ പത്തനംതിട്ട സ്വദേശിനിയെ ട്രെയിൻ തട്ടി മരിച്ചനിലയിൽ കണ്ടെത്തിയ സംഭവത്തിൽ സഹപ്രവർത്തകനെതിരെ പൊലീസ് കേസ് റജിസ്റ്റർ ചെയ്തു. നെടുമ്പാശേരി വിമാനത്താവളത്തിലെ ഐബി ഉദ്യോഗസ്ഥനും മലപ്പുറം എടപ്പാൾ സ്വദേശിയുമായ സുകാന്തിന് എതിരെയാണ് ബലാത്സംഗം, ആത്മഹത്യാപ്രേരണ, വഞ്ചന എന്നീ കുറ്റങ്ങളുടെ വകുപ്പുകൾ ചുമത്തി കേസെടുത്തത്.

പാലക്കാട്, എറണാകുളം, മലപ്പുറം ജില്ലകളിൽ പൊലീസിന്റെ രണ്ടു സംഘങ്ങൾ ഒരാഴ്ചയായി അന്വേഷണം നടത്തിയിട്ടും സുകാന്തിനെ കണ്ടെത്താനായില്ല. 24ന് ആണ് ചാക്കയിലെ റെയിൽവേ ട്രാക്കിൽ യുവതിയെ ട്രെയിൻ തട്ടി മരിച്ചനിലയിൽ കണ്ടെത്തിയത്.

അടുത്ത ദിവസം തന്നെ മകളുടെ മരണത്തിനു കാരണക്കാരൻ സുകാന്ത് ആണെന്നാരോപിച്ച് യുവതിയുടെ പിതാവ് പേട്ട പൊലീസിൽ പരാതി നൽകിയെങ്കിലും പൊലീസ് ഇതു കാര്യമായി എടുത്തില്ല.

തന്റെ മകളെ സുകാന്ത് സാമ്പത്തികമായും ലൈംഗികമായും ചൂഷണം ചെയ്തതിന്റെ തെളിവുകൾ പിതാവ് സ്വന്തം നിലയ്ക്കു കണ്ടെത്തി ഹാജരാക്കിയതിനൊടുവിലാണ് പൊലീസ് കേസെടുക്കാൻ തയാറായത്.

പൊലീസ് പറഞ്ഞത്: ഇന്റലിജൻസ് ബ്യൂറോയിലെ പരിശീലന കാലത്താണ് ഇരുവരും അടുപ്പത്തിലായത്. വിവാഹം കഴിക്കാമെന്നു സുകാന്ത് യുവതിക്ക് ഉറപ്പ് നൽകിയിരുന്നു. ബന്ധം യുവതിയുടെ വീട്ടിൽ അറിഞ്ഞതോടെ സുകാന്തുമായുള്ള വിവാഹത്തിന് സമ്മർദമായി. എന്നാൽ ഐഎഎസ് എഴുതി എടുക്കണമെന്നും വിവാഹത്തിന് ഇപ്പോൾ പറ്റില്ലെന്നും പറഞ്ഞ് സുകാന്ത് ഒഴിഞ്ഞുമാറുകയായിരുന്നു. ഇതാണ് ആത്മഹത്യയ്ക്കു പ്രേരണയായത്.

ഐ.ബി ഉദ്യോഗസ്ഥയുടെ ആത്മഹത്യ

സുകാന്തിനെതിരെ പീഡനക്കുറ്റം

ഗർഭഛിദ്രം നടത്തി

•ഗോകുൽകൃഷ്ണ.യു.എസ്

തിരുവനന്തപുരം: തിരുവനന്തപുരം രാജ്യാന്തര വിമാനത്താവളത്തിലെ എമിഗ്രേഷൻ ഇന്റലിജൻസ് ബ്യൂറോ ഉദ്യോഗസ്ഥ ആത്മഹത്യ ചെയ്ത കേസിൽ സഹപ്രവർത്തകനും സുഹൃത്തുമായിരുന്ന ഉദ്യോഗസ്ഥനെതിരെ പൊലീസ് പീഡനക്കുറ്റം ചുമത്തി.

കൊച്ചിലെഐ.ബിഉദ്യോഗസ്ഥനായഎടപ്പാൾപട്ടാമ്പിറോഡ്ശുകപുരംപുവത്താക്കണ്ടി ഹൗസിൽ സുകാന്ത് സുരേഷാണ് (31) പ്രതി. സുകാന്തിനെതിരെ ഐ.ബി ആഭ്യന്തര അന്വേഷണവും ആരംഭിച്ചു. യുവതി മരിച്ചതിന്റെ തൊട്ടടുത്ത ദിവസം മുതൽ അവധിയെടുത്ത് ഒളിവിൽ കഴിയുകയാണ്.

യുവതി എട്ടുമാസം മുമ്പ് തിരുവനന്തപുരം നഗരത്തിലെസ്വകാര്യ ആശുപത്രിയിൽ ചികിത്സ തേടിയതിന്റെ രേഖകൾ കഴിഞ്ഞ ദിവസം രക്ഷിതാക്കൾ പേട്ട പൊലീസിന് കൈമാറിയിരുന്നു. ഗർഭഛിദ്രം നടത്തിയെന്ന് പൊലീസ് ആശുപത്രിയിലെത്തിസ്ഥിരീകരിച്ച ശേഷമാണ് വിവാഹ വാഗ്ദാനം നൽകി പീഡിപ്പിക്കൽ, വഞ്ചന, ആത്മഹത്യാ പ്രേരണാകുറ്റങ്ങൾ ചുമത്തിയത്. പതിനൊന്നു ദിവസം മുമ്പ് നടന്ന ആത്മഹത്യയിൽ ദുരൂഹ മരണത്തിന് മാത്രമാണ് കേസെടുത്തിരുന്നത്.

യുവതിയുടെ കുടുംബം ഉന്നയിച്ച ആരോപണങ്ങൾ പൊലീസ് ആദ്യം ഗൗരവത്തിലെടുത്തിരുന്നില്ല. പൊലീസ് അന്വേഷിച്ച് എറണാകുളത്തേക്ക് പോയെങ്കിലും പ്രതി മുൻകൂർ ജാമ്യത്തിന് ഹൈക്കോടതിയെ സമീപിച്ചതറിഞ്ഞ് മടങ്ങിപ്പോരുകയായിരുന്നു.

തെളിവുകൾ വെല്ലുവിളി

- നഗരത്തിലെ സ്വകാര്യ ആശുപത്രിയിൽ കുട്ടികാരിയോടൊപ്പമെത്തി ഗർഭഛിദ്രം നടത്തിയെന്നതിന്റെ രേഖകൾ പൊലീസിന് ലഭിച്ചിട്ടുണ്ട്
- സുകാന്താണ് ഉത്തരവാദിയെന്നതിന് തെളിവ് ലഭിച്ചിട്ടില്ല. ഭ്രൂണം നശിപ്പിക്കപ്പെട്ടതിനാൽ ഡി.എൻ.എ ടെസ്റ്റ് അസാദ്ധ്യം. ഉദ്യോഗസ്ഥയുടെ മരണമൊഴിയും ഇല്ല
- നിരന്തരം ഫോൺ ചെയ്തും ഒന്നിച്ച് സഞ്ചരിച്ചും ഒന്നിച്ച് താമസിച്ചും സംബന്ധിച്ച തെളിവുകളാണ് പിടിവള്ളിയാവുന്നത്. അതെല്ലാം പൊലീസ് കണ്ടെത്തണം
- ഉദ്യോഗസ്ഥയുടെടെയിൻതട്ടിതകർന്നഫോൺ പരിശോധിച്ച് വിവരശേഖരണം നടത്താനുള്ള ശ്രമത്തിലാണ് ഫോറൻസിക് സംഘം.
- പണം കൈമാറ്റം ചെയ്തതിന് രേഖയുള്ളതിനാൽ ബന്ധം ദൃഢമായിരുന്നു എന്ന് തെളിയിക്കാനാവും
- ഇരുവരും പരിശീലനവേളയിൽ ജോർപൂരിൽ ഒരുമിച്ച് യാത്ര ചെയ്തതും താമസിച്ചതുമായരേഖകളും കണ്ടെത്തേണ്ടതുണ്ട്

പണം തട്ടിയതിലും ദുരൂഹത

സാമ്പത്തികമായി മുന്നാക്കം നിൽക്കുന്ന കുടുംബമാണ് സുകാന്തിന്റേത്. പിതാവ് പ്രവാസിവ്യവസായിയാണ്. സമ്പന്നനായ സുകാന്ത് എന്തിന് എല്ലാമാസവും ഉദ്യോഗസ്ഥയുടെ ശമ്പളം വാങ്ങിയെന്നതിനും ഉത്തരം കണ്ടെത്തണം. ഇയാൾക്ക് മറ്റ് സ്ത്രീകളുമായി ബന്ധമുണ്ടെന്നും പൊലീസ് സംശയിക്കുന്നു.

സുകാന്തിന്റെ അറസ്റ്റ് വിലക്കാതെ കോടതി

കൊച്ചി: ഐ.ബി ഉദ്യോഗസ്ഥ ട്രെയിനിടിച്ച് മരിച്ച സംഭവത്തിൽ സുകാന്ത് സുരേഷിന്റെ മുൻകൂർ ജാമ്യഹർജിയിൽ ഹൈക്കോടതി വിശദീകരണം തേടി. അറസ്റ്റ് വിലക്കണമെന്ന ആവശ്യം ജസ്റ്റിസ് പി.വി. കുഞ്ഞികൃഷ്ണൻ അനുവദിച്ചില്ല. ഉദ്യോഗസ്ഥയുടെ മാതാപിതാക്കൾ പരാതി നൽകിയതിനെ തുടർന്നാണ് സുകാന്ത് മുൻകൂർ ജാമ്യഹർജി നൽകിയത്. തങ്ങൾ വിവാഹിതരാകാൻ തീരുമാനിച്ചിരുന്നെന്നും ഇതിനെ യുവതിയുടെ വീട്ടുകാർ എതിർത്തത് മാനസികസമ്മർദ്ദത്തിന് കാരണമായെന്നുമാണ് ഹർജിക്കാരന്റെ വാദം.

> അന്വേഷണം പുരോഗമിക്കുകയാണ്. പീഡനക്കുറ്റം കൂടി ഉൾപ്പെടുത്തിയിട്ടുണ്ട്

തുറമുഖത്തിന്റെ ഒന്നാംഘട്ടത്തിൽ വാർഷിക കൈകാര്യശേഷിയായി നിശ്ചയിച്ചത് 10 ലക്ഷം ടിഇയുവാണ്. 2024 ജൂലൈ മുതൽ ഡിസംബർ രണ്ടുവരെ ട്രയൽ ഓപ്പറേഷനായിരുന്നു.

മാർച്ചിൽമാത്രം 53 ചരക്ക് കപ്പൽ തുറമുഖത്ത് എത്തി. 1,12,562 ടിഇയു ചരക്ക് കൈകാര്യം ചെയ്തു. മൊത്തം കപ്പലുകൾ വന്നതിൽ 144 എണ്ണം രാജ്യത്തെ വിവിധ തുറമുഖത്തുനിന്ന് വരികയും പോവുകയും ചെയ്ത ചെറുകപ്പലുകളാണ്. മറ്റുള്ളവ യൂറോപ്പ്, അമേരിക്ക, സിംഗപ്പൂർ, ചൈന എന്നിവിടങ്ങളിൽ എത്തിയവയാണ്. എംഎസ്സി ജേഡ് സർവീസ് ആരംഭിച്ചതോടെ അന്താരാഷ്ട്രരംഗത്ത് കൂടുതൽ ശ്രദ്ധ നേടി. ഇന്ത്യയിൽ ജേഡ് സർവീസിന്റെ ഒരേയൊരു ഡെസ്റ്റിനേഷൻ വിഴിഞ്ഞമാണ്. ഒമ്പതുമാസത്തിനിടെ 300 കോടിയിലധികം രൂപ ഇന്ത്യൻ വ്യാപാരികൾക്ക് ലാഭമുണ്ടായതാണ് കണക്ക്.

തിങ്കളാഴ്ച സിംഗപ്പൂരിൽനിന്ന് വിഴിഞ്ഞത്ത് എത്തുന്ന എംഎസ്സി ടർക്കിയേ

തിങ്കളാഴ്ച 400 മീറ്റർ നീളവും 62 മീറ്റർ വീതിയുമുള്ള എംഎസ്സി ടർക്കിയേ സിംഗപ്പൂരിൽനിന്ന് വിഴിഞ്ഞത്ത് എത്തും. ലോകത്തെ വലിയ ചരക്ക് കപ്പലുകളിൽ ഒന്നാണിത്. അതിനിടെ, വിഴിഞ്ഞത്തിന് കേന്ദ്രസർക്കാർ നൽകാനുള്ള വയബിലിറ്റി ഗ്യാപ് ഫണ്ട് (വിജിഎഫ്) വായ്പ നൽകുന്നത് വീണ്ടും ചർച്ചയായി. 817 കോടി രൂപ നൽകുമ്പോൾ തിരിച്ച് 12,000 കോടി രൂപയാണ് കേന്ദ്രത്തിന് നൽകേണ്ടത്. സംസ്ഥാനത്തിന് തുറമുഖത്തുനിന്ന് ലഭിക്കുന്ന വരുമാനത്തിൽനിന്നാണ് ഇത്രയും തുക ബിജെപി സർക്കാർ പിഴിയുന്നത്.

व्यापार युद्ध की आशंका से शेयर बाजार सहमा, सेंसेक्स 931 अंक लुढ़का

एजेंसी

मुंबई . व्यापार युद्ध गहराने की आशंका हावी होने से वैश्विक बाजारों में आई नरमी के बीच शुक्रवार को घरेलू शेयर बाजारों में तेज गिरावट दर्ज की गई। मानक सूचकांक सेंसेक्स करीब 931 अंक लुढ़क गया जबकि निफ्टी में 346 अंकों की गिरावट आई।

विश्लेषकों ने कहा कि कच्चे तेल की कीमतों में तेज गिरावट और घरेलू दिग्गज कंपनियों रिलायंस इंडस्ट्रीज, लार्सन एंड टुब्रो और इन्फोसिस में भारी बिकवाली ने भी निवेशकों की धारणा को नकारात्मक रूप से प्रभावित किया। बीएसई का 30 शेयरों पर आधारित सूचकांक सेंसेक्स 930.67 अंक यानी 1.22 प्रतिशत गिरकर 76,000 के स्तर से काफी नीचे 75,364.69 अंक पर बंद हुआ। कारोबार के दौरान एक समय यह 1,054.81 अंक गिरकर 75,240.55 तक आ गया था।

नेशनल स्टॉक एक्सचेंज (एनएसई) का मानक सूचकांक निफ्टी भी 345.65 अंक यानी 1.49 प्रतिशत गिरकर 23,000 के नीचे 22,904.45 अंक पर बंद हुआ। कारोबार के दौरान एक समय यह 382.2 अंक गिरकर 22,867.90 पर आ गया था।

सेंसेक्स के समूह में शामिल कंपनियों में से टाटा स्टील के शेयरों में सर्वाधिक 8.59 प्रतिशत की गिरावट दर्ज की गई। इसके बाद टाटा मोटर्स, लार्सन एंड टुब्रो, अदाणी पोर्ट्स, इंडसइंड बैंक, टेक महिंद्रा, रिलायंस इंडस्ट्रीज, सन फार्मा, एचसीएल टेक्नोलॉजीज, टाटा कंसल्टेंसी सर्विसेज, इन्फोसिस और एनटीपीसी में भी प्रमुख रूप से गिरावट रही। दूसरी तरफ, बजाज फाइनेंस, एचडीएफसी बैंक, नेस्ले इंडिया, आईसीआईसीआई बैंक, आईटीसी, एशियन पेंट्स और एक्सिस बैंक के शेयरों में बढ़त दर्ज की गई। मझोली कंपनियों का बीएसई मिडकैप सूचकांक में 3.08 प्रतिशत की गिरावट आई, जबकि छोटी कंपनियों के स्मॉलकैप सूचकांक में 3.43 प्रतिशत की गिरावट आई।

मेहता इक्विटीज लिमिटेड के वरिष्ठ उपाध्यक्ष (शोध) प्रशांत तापसे ने कहा कि वैश्विक बाजारों में गिरावट के साथ ही घरेलू बाजारों में भी गिरावट हावी रही। व्यापक बिकवाली के कारण विभिन्न क्षेत्रों में दो-छह प्रतिशत की गिरावट देखी गई। तापसे के मुताबिक, निवेशकों को डर है कि अमेरिकी राष्ट्रपति डोनाल्ड ट्रंप की जवाबी शुल्क नीति अमेरिका में मंदी और मुद्रास्फीति को बढ़ावा देगी जो आगे चलकर अन्य प्रमुख अर्थव्यवस्थाओं को भी अपनी चपेट में ले लेगी। उन्होंने कहा कि धातु और पेट्रोलियम शेयरों में तेज गिरावट यह संकेत दे रही है कि मंदी की आशंकाओं के बीच मांग पर असर पड़ सकता है।

ভার্জিন আটলান্টিক বিমানে গোলযোগ

৪০ ঘণ্টা পর তুরস্ক বিমানবন্দর থেকে মুম্বইয়ে ফিরলেন যাত্রীরা

৩৬৫ দিন। ৪০ ঘণ্টারও বেশি সময় তুরস্কের বিমানবন্দরে আটকে থাকার পর অবশেষে মুম্বইয়ের উদ্দেশে রওনা দিল ভার্জিন আটলান্টিক সংস্থার বিমান। ওই বিমানে ২৫০ জন যাত্রী রয়েছেন। তাঁদের মধ্যে বেশির ভাগই ভারতীয়। তুরস্কের দিয়ারবাকির বিমানবন্দর থেকে মুম্বইয়ের উদ্দেশে বিমান ছাড়ায় স্বস্তির নিশ্বাস ফেললেন যাত্রীরা।

লন্ডন থেকে মুম্বইগামী ভার্জিন আটলান্টিক সংস্থার একটি বিমানে থাকা এক যাত্রী মাঝ আকাশে আচমকাই অসুস্থ হয়ে পড়েন। তাঁর অসুস্থতার বিষয়টি বিবেচনা করে বিমানটিকে তড়িঘড়ি তুরস্কের দিয়ারবাকির বিমানবন্দরে জরুরি অবতরণ করাতে হয়। কিন্তু পুনরায় তুরস্কের বিমানবন্দর থেকে ওড়ার ক্ষেত্রে ওই বিমানে সমস্যা দেখা দেয়। যান্ত্রিক ত্রুটির সম্মুখীন হয় বিমানটি। বার বার চেষ্টা করেও বিমানটি ছাড়া সম্ভব হয়নি। এই অবস্থায় যাত্রীদের বিমান থেকে নামিয়ে আনা হয়। তার পর ঘণ্টার পর ঘণ্টা কাটতে থাকে। গন্তব্যে ফেরার অপেক্ষায় যাত্রীরাও বিমানবন্দরে অধৈর্য হয়ে পড়েন। অভিযোগ, এই সমস্যার মধ্যে বিমান সংস্থা কোনও রকম সহযোগিতা করেনি। বিমানবন্দরে দাঁড়িয়ে থাকা যাত্রীদের প্রয়োজনীয় খাবার, জল বা পর্যাপ্ত শৌচাগারের বন্দোবস্ত করতে পারেনি সংশ্লিষ্ট সংস্থা। প্রবল ঠান্ডায় দেওয়া হয়নি কম্বল। সমাজমাধ্যমের বিভিন্ন পোস্ট এমন নানা অভিজ্ঞতার কথা জানান যাত্রীরা।

বিমানবন্দরে নানা অসুবিধার কথা জানিয়ে সমাজমাধ্যমে সরব হয়েছেন যাত্রীরা। অভিযোগ, প্রায় ৩০০ মানুষের জন্য একটিমাত্র শৌচাগার ছিল সেখানে। রাত কাটাতে হয়েছে বিমানবন্দরের বেঞ্চে বা মেঝেতে। যদিও বিমান সংস্থার তরফে অবশ্য জানানো হয়, যাত্রীদের বিকল্প হোটেলের বন্দোবস্ত করে দেওয়া হয়েছে। তাঁদের সমস্ত রকম সুযোগসুবিধা দেওয়া হচ্ছে।

যাত্রীদের ভোগান্তির জন্য দুঃখপ্রকাশ করেছেন কর্তৃপক্ষ। পরে ওই বিমান সংস্থার মুখপাত্র বলেন, "প্রয়োজনীয় যাবতীয় প্রযুক্তিগত ত্রুটি সারানোর পর বিমানটি শুক্রবার বিকেল ৪টের (তুরস্কের সময়) মুম্বইয়ের উদ্দেশে রওনা দিয়েছে। আশা করা হচ্ছে, শুক্রবারই মধ্যরাতের আগেই মুম্বইয়ে বিমানটি অবতরণ করবে।"

પટની ચોકથી વાશી સુધી રોડ અને વાશીથી એરપોર્ટ વચ્ચે નવ કિલોમીટર લાંબા ડબલ ડેકર રૂટની યોજના

નવી મુંબઈ એરપોર્ટ અને થાણે વચ્ચે ડાયરેક્ટ કનેક્ટિવિટી આપવા સિડકોએ ૨૬ કિ.મી એલિવેટેડ રોડનો પ્રસ્તાવ રજૂ કર્યો છે. આ માર્ગ માટે વિગતવાર અહેવાલ તૈયાર થઈ રહ્યો છે અને એક નાણાકીય સલાહકારની નિમણૂક કરવામાં આવી છે.

નવો શરૂ થયેલો અટલ સેતુ મુંબઈ અને નવી મુંબઈના એરપોર્ટને કનેક્ટ કરે છે. નિર્માણાધીન એરપોર્ટનું ઉદ્ઘાટન જૂન મહિનામાં થશે. તેથી એરપોર્ટને વિવિધ મહત્વના સ્થાન વચ્ચે કનેક્ટિવિટી બહેતર કરવા સિડકો અને એમએમઆરડીએ મળીને મોટા પાયે માળખાકીય પ્રોજેક્ટ હાથ ધર્યા છે. જેમાં નવી મુંબઈ હવાઈ મથકને થાણે સાથે જોડવાનો પ્રસ્તાવ કરવામાં આવ્યો છે. સિડકો અધિકારીના જણાવ્યાનુસાર હાલમાં થાણેથી નવી મુંબઈ એરપોર્ટ જવું હોય તો થાણે-બેલાપુર રોડ અને પામ બીચ રોડનો મર્યાદિત રૂટ જ છે.

જ્યારે કે પ્રસ્તાવ થયેલો રૂટ આ બે શહેરો વચ્ચે ડાયરેક્ટ ઝડપી પ્રવાસ પ્રવાસીઓને પ્રદાન કરશે.

એલિવેટેડ કોરિડોર થાણેના પટની ચોકથી શરૂ થઈને વાશી સુધી જશે. અહીં સુધી આ રૂટ થાણે-બેલાપુર રોડને સમાંતર ૧૭ કિ.મી જઈને પછી વાશીથી એરપોર્ટ વચ્ચે ડબલડેકર એલિવેટેડ નવ કિ.મીનો માર્ગ બનશે. જોકે પટની ચોક અને વાશી સુધીના માર્ગમાં પર્યાવરણને લગતા અવરોધો ઓછા છે પણ વાશીથી નવી મુંબઈ એરપોર્ટ વચ્ચેનો બીજા તબક્કાનો માર્ગ મેનગ્રોવ્ઝ અને કોસ્ટલ રેગ્યુલેશન ઝોન પ્રતિબંધિત વિસ્તારમાંથી પસાર થાય છે. જેના માટે સિડકોએ બાંધકામ પહેલાં જાતજાતની પર્યાવરણીય પરવાનગીઓ મેળવવી પડશે.

એલિવટેડ માર્ગના બાંધકામનો અંદાજિત ખર્ચ આઠ હજાર કરોડ રૂપિયા છે. એક અધિકારીએ જણાવ્યું હતું કે પ્રોજેક્ટના કદને જોતા વિવિધ મંજૂરીઓ મળશે, જમીન સંપાદન થશે તેના ઉપરથી પ્રોજેક્ટની ડેડલાઈન નિશ્ચિત થશે. સિડકોએ એરપોર્ટ પ્રવાસીઓને કનેક્ટિવિટીની વધુ સુવિધા આપવા માટે અનેક રસ્તાઓ અને પુલોના બાંધકામની પણ યોજના બનાવી છે.

ट्रम्प 'टॅरिफ बॉम्ब'मुळे बाजार गडगडले

सेन्सेक्स ९३० अंकांनी घसरला, गुंतवणूकदारांचे ९.५ लाख कोटींचे नुकसान; मेटल, फार्मा, आयटी सेक्टरमध्ये मोठी घसरण, जगात व्यापार युद्ध भडकण्याच्या भीतीमुळे परदेशी संस्थात्मक गुंतवणूकदारांकडून मोठ्या प्रमाणावर विक्रीचा मारा

लोकमत न्यज नेटवर्क

मुंबई : अमेरिकेचे राष्ट्राध्यक्ष यांनी जगभरातील देशांवर ९ एप्रिलपासून 'जशास तसा कर' लावण्याची घोषणा गुरुवारी केली. त्यामुळे जगभरात व्यापार युद्ध तीव्र होण्याच्या भीतीने शुक्रवारी भारतासह जगभरातील बाजारात घसरणीचे चित्र होते. सेन्सेक्स सुमारे ९३१ अंकांनी घसरला, तर निफ्टीमध्ये ३४६ अंकांची घसरण झाली.

शुक्रवारच्या घसरणीमुळे बाजारात सूचीबद्ध कंपन्यांचे बाजार भांडवल ९.५ लाख कोटींनी कमी झाले आहे. याचाच अर्थ बाजारातील गुंतवणूकदारांच्या संपत्तीत इतकीच घट झाली आहे.

कच्च्या तेलाच्या किमतीत मोठी घसरण, रिलायन्स इंडस्ट्रीज, लार्सन अँन्ड टुब्रो आणि इन्फोसिसच्या शेअर्समध्ये मोठ्या प्रमाणावर विक्री झाल्याने गुंतवणूकदारांच्या मनोवृत्तीवर नकारात्मक परिणाम झाला. बीएसईचा ३० शेअर्सवर आधारित निर्देशांक सेन्सेक्स ९३० अंकांनी (१.२२ टक्के) घसरून ७५,३६४ अंकांवर बंद झाला. निफ्टी निर्देशांकही १.४९ टक्के घसरून २२,९०४ अंकांवर स्थिरावला.

फार्मा, आयटी आणि मेटल शेअर्समध्ये मोठी घसरण झाली आहे. निफ्टीचे सर्व १३ सेक्टोरल निर्देशांक लाल चिन्हात व्यवहार करत होते. जागतिक पुरवठा साखळीत अडथळ्यांमुळे मेटल शेअर्समध्ये घसरण झाली. गुंतवणूकदारांना भीती आहे की, ट्रम्प यांच्या कर आकारण्याच्या धोरणामुळे अमेरिकेत मंदी आणि महागाई वाढेल. इतर देशांनाही त्याचा फटका बसेल. धातू व पेट्रोलियम क्षेत्रातील घसरण हे सूचित करते की, जागतिक अर्थव्यवस्थेत मंदी येऊ शकते.

कोणते शेअर्स घसरले?

टाटा स्टीलच्या शेअर्समध्ये सर्वाधिक ८.५९ टक्के घसरण झाली. टाटा मोटर्स, लार्सन अँड टुब्रो, अदानी पोर्ट्स, टेक महिंद्रा, रिलायन्स इंडस्ट्रीज, सन फार्मा, एचसीएल टेक्नोलॉजीज, टाटा कन्सल्टन्सी सर्व्हिसेस, इन्फोसिस आणि एनटीपीसी यांचे शेअर घसरले. बजाज फायनान्स, एचडीएफसी बँक, नेस्ले इंडिया, आयटीसी आणि ॲक्सिस बँकेच्या शेअर्समध्ये वाढ झाली.

कोणत्या क्षेत्रामध्ये सर्वाधिक घसरण?

क्षेत्र	घसरणीचे प्रमाण
मेटल	६.५६
फार्मा	४.०३
रिअल्टी	३.६०
आयटी	३.५८
हेल्थकेअर	३.०५

घसरणीमागे नेमकी कारणे कोणती?

१ **ग्लोबल ट्रेड वॉरची भीती :** अमेरिकेच्या जशास तसे शुल्क लावण्याच्या घोषणेमुळे जागतिक व्यापार युद्ध सुरू होण्याची भीती वाढली. चीन व कॅनडाने अमेरिकेवर प्रत्युत्तरात्मक कारवाई करण्याची शपथ घेतल्याने गुंतवणूकदारांमध्ये घबराट वाढली आहे. चीनने याला प्रत्युतर देत अमेरिकेवरील करात ३४ टक्क्यांची वाढ केली आहे. कॅनडाने अमेरिकन गाड्यांच्या आयातीवर २५% शुल्क लावण्याची घोषणा केली आहे. याचाच कित्ता युरोपियन युनियन व इतर देशांकडून गिरवला जाऊ शकतो.

२ **अनिश्चितता व मंदीची भीती :** २०२५ च्या पहिल्या तिमाहीत अमेरिकेच्या जीडीपीमध्ये मध्ये २.८% पर्यंत घसरण होण्याच्या अंदाजामुळे गुंतवणूकदारांचा विश्वास कमी झाला आहे. यामुळे शेअर बाजारातील अस्थिरता वाढत आहे. जाणकारांनी आर्थिक मंदीची भीती आधीच वर्तवलेली आहे.

३ **विदेशी गुंतवणूकदारांची विक्री :** काही काळ स्थिर राहिल्यानंतर, परदेशी गुंतवणूकदार पुन्हा भारतीय शेअर बाजारातून पैसे काढू लागले आहेत. गुरुवार, ३ एप्रिल रोजी परदेशी गुंतवणूकदारांनी २,८०६ कोटी रुपयांचे शेअर्स विकले. दुसरीकडे, देशांतर्गत संस्थात्मक गुंतवणूकदारांनी फक्त २२१ कोटी रुपयांच्या शेअर्स खरेदी केली.

४ **फेडचे प्रमुख काय सांगणार? :** आता जगाचे लक्ष अमेरिकेच्या फेडरल रिझर्व्हचे चेअरमन जेरोम पॉवेल यांच्या भाषणाकडे सर्वांचे लक्ष लागले आहे. पॉवेल अमेरिकन अर्थव्यवस्थेच्या स्थितीवर आपले नवीन विश्लेषण देतील. तसेच, ट्रम्प यांच्या नव्या टॅरिफ घोषणेनंतर अमेरिकेच्या आर्थिक धोरणात काय बदल होतील, याचे संकेतही मिळतील. याशिवाय, गुंतवणूकदार भारतीय रिझर्व्ह बँकेच्या चलनविषयक धोरण समितीच्या बैठकीची वाट पाहत आहेत, जी पुढील आठवड्यात आहे.

ফের দেশসেরা পিডিসিএল, তাপবিদ্যুৎ কেন্দ্রগুলির শীর্ষ দশে বাংলার ৪ সংস্থা

নিজস্ব প্রতিনিধি, কলকাতা: কেন্দ্রীয় সরকারের বিচারে দেশের সেরা বিদ্যুৎ উৎপাদন সংস্থা হিসেবে ফের উঠে এল পশ্চিমবঙ্গ বিদ্যুৎ উন্নয়ন নিগম বা পিডিসিএল। ২০২৪-২৫ অর্থবর্ষের কার্যকারিতার নিরিখে এই র‍্যাঙ্কিং করেছে কেন্দ্রীয় বিদ্যুৎ মন্ত্রকের অধীন সেন্ট্রাল ইলেকট্রিসিটি অথরিটি। কেন্দ্রীয় সংস্থা এনটিপিসি, ডিভিসির পাশাপাশি আদানি পাওয়ার, রিলায়েন্স পাওয়ারের মতো বেসরকারি সংস্থাগুলিকে পিছনে ফেলে এই সাফল্য এসেছে। এছাড়া কেন্দ্রের বিচারে দেশের ২০১টি তাপবিদ্যুৎ কেন্দ্রের মধ্যে প্রথম স্থান দখল করেছে পশ্চিমবঙ্গ বিদ্যুৎ উন্নয়ন নিগমের অন্তর্গত সংস্থা সাঁওতালডিহি তাপবিদ্যুৎ কেন্দ্র। দু'নম্বরে জায়গা করে নিয়েছে বক্রেশ্বরের তাপবিদ্যুৎ কেন্দ্রটি। দেশে চতুর্থ স্থানে জায়গা পেয়েছে সাগরদিঘি তাপবিদ্যুৎ কেন্দ্র। নবম স্থান পেয়েছে ব্যান্ডেল। এই সাফল্য টুইট করে জানিয়েছেন মুখ্যমন্ত্রী মমতা বন্দ্যোপাধ্যায়।

বিদ্যুৎমন্ত্রী অরূপ বিশ্বাস বলেন, মুখ্যমন্ত্রীর নির্দেশনা ও সহায়তাতেই এই সাফল্য অর্জন সম্ভব হয়েছে। প্রসঙ্গত, এর আগেও কেন্দ্রের বিচারে সেরা বিদ্যুৎ সংস্থা হিসেবে জায়গা পেয়েছিল পশ্চিমবঙ্গ বিদ্যুৎ উন্নয়ন নিগম। সেরা তাপবিদ্যুৎ কেন্দ্র হিসেবে প্রথম দশে জায়গা করে নিয়েছিল সাঁওতালডিহি, বক্রেশ্বর ও সাগরদিঘি।

কোনও বিদ্যুৎ কেন্দ্রের উৎপাদন ক্ষমতা অনুযায়ী তারা বাস্তবে কতটা উৎপাদন করতে পারল, তার উপর নির্ভর করেই কেন্দ্রগুলির রেটিং করে সেন্ট্রাল ইলেকট্রিসিটি অথরিটি। একে বলে প্ল্যান্ট লোড ফ্যাক্টর বা পিএলএফ। ২০২৪-২৫ অর্থবর্ষের নিরিখে বিদ্যুৎ উন্নয়ন নিগমের এই পিএলএফের হার ৮৮.৯ শতাংশ। কেন্দ্রীয় সংস্থা এনটিপিসি'তে তা ৭৬.১ শতাংশ। ডিভিসিতে ৭৫.৭ শতাংশ। সাঁওতালডিহি তাপবিদ্যুৎ কেন্দ্রে তা ৯৪.৩৮ শতাংশ। দু'নম্বরে জায়গা করে নেওয়া বক্রেশ্বর কেন্দ্রটির পিএলএফ ৯৩.৩ শতাংশ। প্রসঙ্গত, ২০২২-২৩ অর্থবর্ষে যখন রাজ্যের বিদ্যুৎ সংস্থা ও তাপবিদ্যুৎ কেন্দ্রগুলি সেরার স্থান দখল করেছিল, তার চেয়ে তাদের কার্যকারিতা এখন আরও বেড়েছে। অর্থাৎ পিএলএফের হার আরও বাড়াতে সক্ষম হয়েছে তারা। কেন্দ্রীয় সরকার যে পরিসংখ্যান সামনে এনেছে, তাতে তা স্পষ্ট।

দু'দিন ধরে ঠান্ডায় ভোগান্তি, ক্ষোভ চরমে

আটকে পড়া যাত্রীদের নিয়ে তুরস্ক থেকে রওনা বিমানের

ইস্তানবুল: তুরস্কের বিমানবন্দরে প্রায় দু'দিন চরম ভোগান্তির পর যাত্রীদের নিয়ে মুম্বইয়ের উদ্দেশে রওনা দিল ভার্জিন আটলান্টিকের বিমান। শুক্রবার বিকেলে তুরস্কের ভারতীয় রাষ্ট্রদূত মুক্তেশ পরদেশি এক্স হ্যান্ডলে জানিয়েছেন, সুস্থ অবস্থাতেই সব যাত্রীকে নিয়ে দিয়ারবাকির বিমানবন্দর থেকে উড়ে গিয়েছে বিমানটি। কিন্তু তার আগে যেভাবে হেনস্তার শিকার হতে হয়েছে, তা নিয়ে ক্ষোভ উগরে দিয়েছেন ওই বিমানের ২৫০ জন যাত্রী। প্রচণ্ড ঠান্ডায় প্রায় ৪০ ঘণ্টা ওই ছোট বিমানবন্দরেই বসে থাকতে বাধ্য হন তাঁরা। যাঁদের বেশিরভাগই ভারতীয়। তাঁদের কম্বলও দেওয়া হয়নি। মেলেনি খাবারও। অভিযোগ, বিমানকর্মীদের হোটেলে পাঠানোর ব্যবস্থা করলেও যাত্রীদের বিমানবন্দরেই থাকতে বাধ্য করা হয়। এতজন যাত্রীর জন্য ভরসা ছিল মাত্র একটি শৌচালয়। বিমানবন্দরের কর্মীরা ইংরেজি বলতে না পারায় সমস্যা আরও বাড়ে।

গত ২ এপ্রিল লন্ডনের হিথরো বিমানবন্দর থেকে মুম্বইয়ের উদ্দেশে রওনা দেয় ব্রিটিশ বিমান সংস্থা ভার্জিন আটলান্টিকের ওই বিমানটি। কিন্তু মাঝ আকাশে 'মেডিক্যাল ইমার্জেন্সি'র জন্য বিমানটি তুরস্কের প্রত্যন্ত দিয়ারবাকির বিমানবন্দরে জরুরি অবতরণ করতে বাধ্য হয়। তারপরই শুরু হয় বিপত্তি। জরুরি অবতরণের সময় যান্ত্রিক ত্রুটি দেখা দেওয়ায় বিমানটি আর মুম্বইয়ের উদ্দেশে রওনা দিতে পারেনি। রাজধানী ইস্তানবুল থেকে ১৪০০ কিমি দূরের ওই বিমানবন্দরটি পরিচালনার দায়িত্বে রয়েছে তুরস্কের সেনা। সাধারণ পরিষেবাও সেখানে পাওয়া যায় না।

এক্স হ্যান্ডলে ক্ষোভ উগরে দেন আটকে পড়া যাত্রীদের আত্মীয়রাও। সঞ্জয় শাহ নামে এক ব্যক্তি লেখেন, 'নামী বিমান সংস্থার এমন খারাপ ব্যবহার কেন? কোনও খাবার, জল নেই। অবতরণের পরই বিমানকর্মীরা গা-ঢাকা দিয়েছেন।' শেরিলিন ফার্নান্ডেজ নামে অপর একজন লেখেন, তাঁর পরিবারের সদস্যরাও আটকে রয়েছেন। বিমানকর্মীরা অবতরণের পর থেকে খারাপ ব্যবহার করেছেন। এমনকী যাত্রীদের পাসপোর্টও চাইতে থাকেন তাঁরা। বিষয়টি নিয়ে কেন্দ্রীয় সরকারের হস্তক্ষেপ দাবি করেন আম আদমি পার্টি নেত্রী প্রীতি শর্মা মেনন। যদিও পরে ভারতীয় দূতাবাসের উদ্যোগে বৃহস্পতিবার রাতে যাত্রীদের স্থানীয় হোটেলে থাকার ব্যবস্থা করা হয়।

लंडनहून मुंबईला निघालेले विमान उतरले तुर्कीत!

३० तास अडकलेल्या प्रवाशांना केंद्रीय राज्यमंत्री मुरलीधर मोहोळ यांची मदत

मुंबई, दि. ४ : प्रतिनिधी

लंडनवरून मुंबईला प्रवासी विमान घेऊन जाणारे व्हर्जिन अटलांटिक विमान (व्हीएस३५८) मध्ये एका प्रवाशाच्या वैद्यकीय आणीबाणीमुळे अचानक तुर्कीतील दियाबाकीर विमानतळावर इमर्जन्सी अवघडरित्या लॅण्डिंग करावी लागली. तसेच, हार्ड लॅण्डिंग होऊन गिअरमध्ये समस्या निर्माण झाली. त्यामुळे भारतीय प्रवासी ३० तास अडकून पडले. दरम्यान, काही प्रवाशांनी नागरी विमान वाहतूक राज्यमंत्री मुरलीधर मोहोळ यांना संपर्क साधला. त्यानंतर तांत्रिक अडचणी दूर करून प्रवाशांना मदत मिळाली आहे.

मुरलीधर मोहोळ यांची कार्यतत्परता

मुंबईतील उच्च न्यायालयात कामकाज करणारे ॲड. सत्यम सुराणा यांनी सांगितले की, ''लंडनवरून मुंबईला येणाऱ्या संबंधित विमानात माझा एक मित्र प्रवास करत होता. त्यांनी तुर्कीत अडकून पडल्याची मला माहिती दिली. त्यानंतर मी मुख्यमंत्री देवेंद्र फडणवीस, केंद्रीय राज्यमंत्री मुरलीधर मोहोळ, भाजप नेते विनोद तावडे यांच्याशी संपर्क साधला. मुरलीधर मोहोळ यांच्याकडून मला तत्काळ निरोप आला, त्यांनी संपर्क साधत सविस्तर घटना जाणून घेतली. या माध्यमातून केंद्रीय नागरी हवाई राज्यमंत्री मुरलीधर मोहोळ यांची कार्यतत्परता दिसून आली.''

नागरी विमान वाहतूक राज्यमंत्री मुरलीधर मोहोळ यांनी दियाबाकीर विमानतळावर अडकलेले प्रवासी, 'व्हर्जिन अटलांटिक एअरलाईन्स' आणि नागरी विमान वाहतूक मंत्रालयातील अधिकारी यांच्याशी समन्वय साधण्यासाठी हवाई मंत्रालयातील विशेष पथक नियुक्त केले. तसेच, परराष्ट्र मंत्रालयाचे अधिकारी आणि तुर्कीमधील भारतीय राजदूतावासदेखील मदत घेतली. दरम्यान, महाराष्ट्राच्या मुख्यमंत्री कार्यालयानेदेखील केंद्रीय राज्यमंत्री मोहोळ यांच्याशी चर्चा केली. नागरी विमान वाहतूक मंत्रालयाच्या दिनांतीनुसार, प्रवाशांना सँडविच, फळे व अल्पोपहार देण्यात आले. भारतीय हवाई दलाच्या पाठपुराव्याने तुर्की सरकारच्या नियमांनुसार प्रवाशांना हॉटेलमध्ये राहण्याची व्यवस्था आणि नियमित प्रक्रियेसाठी तीन दिवसांचा ट्रान्झिट व्हिसा देण्यात आला. दरम्यान, 'व्हर्जिन अटलांटिक'च्या विशेष विमानाने प्रवासी शुक्रवारी संध्याकाळी प्रवासी मुंबईकडे रवाना झाले.

ट्रम्प टॅरिफ : शेअर बाजारात विक्रीचा मारा

मुंबई : ट्रम्प टॅरिफच्या परिणामी वाढत्या जागतिक व्यापार युद्धाच्या भीतीमुळे कमकुवत जागतिक बाजारपेठांच्या पार्श्वभूमीवर भारतीय शेअर बाजारातही मोठी पडझड झाली. रिलायन्स इंडस्ट्रीज, लार्सन अँड टुब्रो आणि इन्फोसिस आदी कंपन्यांच्या समभागांच्या जोरदार विक्रीमुळे शुक्रवारी सेन्सेक्स ९३१ अंकांनी घसरून ७६ हजारांखाली गेला. याशिवाय, जागतिक क्रूडच्या किमतीत झालेली तीव्र सुधारणा, मंदीची भीती दर्शवते. त्यामुळे निराशा आणखी वाढली, असे विश्लेषकांनी सांगितले.

अमेरिकेविरुद्ध बदला घेण्याच्या उपायांमुळे अनिश्चितता आणखी वाढली आहे. यूएस बॉन्ड उत्पन्न आणि तेलाच्या किमती खाली येत आहेत. त्यामुळे संभाव्य आर्थिक मंदी आणि वाढत्या मंदीच्या जोखमींबद्दल चिंता दिसून येते, असे विनोद नायर, संशोधन प्रमुख, जिओजित इन्व्हेस्टमेंट्स म्हणाले.

અમેરિકન શેરબજારમાં મલ્ટિયર કડાકા પાછળ વિશ્વબજારો વધુ ધોવાયાં : પાકિસ્તાની શેરબજાર અવળી ચાલમાં ૧૨૦૭૯૭ની સર્વોચ્ચ સપાટીએ : બન્ને બજારનાં તમામ સેક્ટોરલ રેડ ઝોનમાં, બ્રોડર માર્કેટ અને રોકડામાં વ્યાપક ખરાબી : ટીસીએસ નવા તળિયાની શોધમાં, આઇટીના ૧૯માંથી ૧૭ શેર ડાઉન : બેન્કિંગના ૪૧માંથી ૩૫ શેર માઇનસ, તમામ સરકારી બેન્કો ઘટી, પણ HDFC બેન્કના સુધારાએ બેન્ક નિફ્ટીની લાજ રાખી : બ્રોકરેજ કંપનીઓના શેરોમાં સાગમટે વેચવાલી : કૂદની ખરાબી પાછળ ONGC અને ઓઇલ ઇન્ડિયા લપસ્યા

ટ્રમ્પની રેસિપ્રોકલ ટેરિફને સૌથી વર્સ્ટ રિસ્પોન્સ અમેરિકન શેરબજારે આપ્યો છે. ડાઉ ઇન્ડેક્સ ગુરુવારની મોડી રાત્રે જૂન ૨૦૨૦ પછીના સૌથી મોટા કડાકામાં ૪ ટકા કે ૧૬૭૮ પોઇન્ટ તૂટ્યો છે. એકલકારોને ૨.૪ લાખ કરોડ ડૉલર અર્થાત્ આશરે ૨૦૯ લાખ કરોડ રૂપિયાનો ફટકો પડ્યો છે. નેસ્ડેક ઇન્ડેક્સ ૬ ટકા કે ૧૦૫૦ પોઇન્ટ લપડીને ૧૬૫૫૦ બંધ થતાં ૧.૪ લાખ કરોડ ડૉલરનું માર્કેટકેપ સાફ થયું છે. એ પછી પણ ડાઉ ફ્યુચર કઈ કાલે રનિંગમાં એક ટકો કે ૩૯૦ પૉઇન્ટ નીચે દેખાતો હતો. અમેરિકન શેરબજારના ધબડકા વચ્ચે પણ ટ્રમ્પ ગ્રેટ અમેરિકાનાં બણગાં ફૂંકતાં બજારમાં જોરદાર તેજી આવવાની વાતો માંડી રહ્યા છે. સંસદીય ચૂંટણીનાં પરિણામ પૂર્વે નરેન્દ્ર મોદી અને અમિત શાહે પણ આપણે ત્યાં મારકાડ તેજી આવવાની વાતો કરી જ હતીને, દરમ્યાન ટ્રમ્પે સેમિકન્ડક્ટર્સ અને ફાર્મા સેક્ટર પર પણ રેસિપ્રોકલ ટેરિફ લાદવાનો અણસાર આપી હવે નવી કિકર ઊભી કરી છે. મતલબ કે 'ડલ માર્કેટ જમ્પ થા ડમ્પ, યહ રાત કો બતાએગા ટ્રમ્પ' જેવી હાલત છે. દહાડે ઊગે ને રોજ નવી વાત કરે છે આ માણસ.

અમેરિકાની ખરાબી પાછળ મુહ્કારે તમામ અગ્રણી વિશ્વબજારો વધુ બગડ્યાં છે. એશિયા ખાતે ચાઇના, હોન્કોન્ગ અને તાઇવાન રજામાં હતાં, પરંતુ જપાન પોણાત્રણ ટકા, ઓસ્ટ્રેલિયા અઢી ટકા, ન્યુ ઝીલેન્ડ એક ટકો, મલેશિયા સવા ટકો, સિંગાપોર દોઢ ટકો, થાઇલેન્ડ સાડાત્રણ ટકા, વિયેટનામ દોઢ ટકો ઘટ્યું છે. યુરોપ ખાતે રનિંગમાં ઇટલી સાડાત્રણ ટકા, જર્મની બે ટકા, સ્પેન સવાત્રણ ટકા, સ્વિટ્ઝરલેન્ડ સવાબે ટકા, નૉર્વે બે ટકા, ફ્રાન્સ પોણાબે ટકા, બ્રિટન એક ટકો, સ્વીડન સવા ટકો ગ્રીન હતું. પાકિસ્તાની શેરબજાર અવળી ચાલમાં ૧૨૦૭૯૭ની નવી ઑલટાઇમ હાઈ બતાવી રનિંગમાં સાત પૉઇન્ટની પીછેહઠમાં ૧૧૮૯૩૧ દેખાયું છે. બ્રેન્ટ ક્રૂડ તગડ કડાકાને આગળ વધારતાં ૬૭.૭૫ ડૉલર નીચે જોવા મળ્યું છે. છેલ્લા ૨૪ કલાક દરમ્યાનન બિટકૉઇન ૮૧૩૦૨ની નીચી સપાટીથી વધી રનિંગમાં ૮૪૩૬૫ ડૉલર પર આવી ગયો છે.

ઘરઆંગણે સેન્સેક્સ આગલા બંધથી ૧૩૫ પૉઇન્ટ નરમ, ૭૬૧૬૦ ખૂલી છેવટે ૯૩૧ પૉઇન્ટ લથડી ૭૫૩૬૫ તથા નિફ્ટી ૩૪૬ પૉઇન્ટ ખરડાઈ ૨૨૯૦૪ બંધ આવ્યો છે. આરંભથી અંત સુધી માઇનસ ઝોનમાં રહેલા બજારમાં શેરઆંક ઉપરમાં ૭૬૨૫૮ અને નીચામાં ૭૫૪૭૦ થયો હતો. બન્ને બજારનાં લગભગ તમામ સેક્ટોરલ લાલ થયાં છે. સેન્સેક્સ તથા નિફ્ટીની સવા-દોઢ ટકા જેવી નબળાઈ સામે બ્રોડર માર્કેટ બે ટકા, સ્મોલકેપ સવાત્રણ ટકાં, મિડકેપ ત્રણ ટકા ડૂલ થતાં માર્કેટ બ્રેડથ બગડી છે. NSEમાં વધેલા ૬૪૬ શેર સામે ૨૨૩૦ જાતો માઇનસ થઈ છે. તમામ શેરની બુરાઈ સાથે મેટલ ઇન્ડેક્સ ૧૯૨૫ પૉઇન્ટ કે ૬.૩ ટકા પીગળ્યો છે. ઑઇલ-ગેસ ઇન્ડેક્સ ચારેક ટકા, કેપિટલ ગુડ્સ ઇન્ડેક્સ ચાર ટકા કે ૨૪૭૭ પૉઇન્ટ, આઈટી ઇન્ડેક્સ સાડાત્રણ ટકા કે ૧૨૧૮ પૉઇન્ટ, એનર્જી બેન્ચમાર્ક પોણાચાર ટકા, પાવર ઇન્ડેક્સ ત્રણેક ટકા, યુટિલિટીઝ અઢી ટકા, ઑટો ઇન્ડેક્સ ૨.૭ ટકા કે ૧૨૮૫ પૉઇન્ટ, હેલ્થકેર ઇન્ડેક્સ સવાત્રણ ટકા, નિફ્ટી ફાર્મા ચાર ટકા, પીએસયુ બેન્ક નિફ્ટી સવાબે ટકા, નિફ્ટી મીડિયા ૨.૯ ટકા, કન્ઝ્યુમર ડ્યુરેબલ્સ ઇન્ડેક્સ અઢી ટકા સાફ થયા હતા. બજારનું માર્કેટ કેપ ૯.૯૮ લાખ કરોડ રૂપિયા ઘટી ૪૦૩.૩૫ લાખ કરોડ રહ્યું છે.

તાતા સ્ટીલ તૂટ્યો, રિલાયન્સે બજારને સર્વાધિક માર માર્યો

ટ્રમ્પની ટેરિફ સામે ચાઇના, યુરોપિયન યુનિયન ઇત્યાદિએ લડી લેવાનો નિર્ધાર જાહેર કરી દીધો છે. આગળ જતાં અન્ય દેશો પણ એમાં જોડાશે. સંખ્યાબંધ દેશોએ ટ્રમ્પની ટેરિફ સામે વિરોધનો સૂર દર્શાવ્યો છે. વિશ્વગુરુ મૌન છે. નરેન્દ્ર મોદી કે મોદી સરકારના તમામ પ્રધાનોએ મોઢામાં મગ ભરી લીધા છે. ટ્રમ્પ પાસે અદાણીના સ્વરૂપે સૌથી મોટું ટ્રમ્પકાર્ડ છે એટલે સરકારની મજબૂરી કે લાચારી અમે સમજી શકીએ છીએ. સરકારની સદંતર ખામોશી વચ્ચે પ્રચારતંત્રમાં ટ્રમ્પની ટેરિફથી ભારતને ખાસ વાંધો નહીં આવે, લાંબા ગાળે ભારત ફાયદામાં રહેશે, અન્ય હરીફ દેશોની તુલનામાં ભારતનું હિત મોદી-મિત્ર ટ્રમ્પે સાચવ્યું છે, આપસી વાટાઘાટ હાથ ધરી ડ્યુટી ઘટાડવામાં ભારત સફળ બનશે. ઇત્યાદિ જેવી સુફિયાણી વાતો શરૂ થઈ ગઈ છે. આ લોકો સાવ બેવકૂફ છે. અગર તો પછી અબ્બલ દરજ્જાના બદમાશ છે. આ સરકારી વાર્જિંત્રોને બહુ સિરિયસલી લેવાની જરૂર નથી. બોટમલાઇન એક જ છે. પેટનો બળ્યો ગામ બાળશે. ટ્રમ્પ તેના સિવાય બીજા કોઈનું ભલું કરવાનો નથી.

ગઈ કાલે સેન્સેક્સ ખાતે ૩૦માંથી વધેલા ૬ શેરમાં બજાજ ફાઇનેન્સ દોઢ ટકા નજીક તો નિફ્ટી ખાતે ૫૦માંથી વધેલા ૮ શેરમાં તાતા કન્ઝ્યુમર દોઢ ટકાથી વધુ પ્લસ રહી મોખરે હતી. रुपया १४ पैशांनी घसरून ८५.४४ वर

आयातशुल्काच्या चिंतेमुळे जगभरातील शेअर बाजारात मोठ्या प्रमाणात विक्री झाली, तसेच परदेशी गुंतवणूकदारांनीही भारतीय शेअर बाजारात विक्रीवर भर दिल्याने आज रुपया डॉलरच्या तुलनेत १४ पैशांनी घसरून ८५.४४ वर स्थिरावला. कमकुवत अमेरिकी डॉलर निर्देशांक आणि कच्च्या तेलाच्या किमतीत मोठी घसरण झाल्यामुळे रुपयाने फायदा मिळवला, परंतु नंतर कमकुवत शेअर बाजार आणि अनिश्चित जागतिक आर्थिक परिस्थितीमुळे परदेशी गुंतवणूकदारांनी पैसे काढण्यावर भर दिल्यामुळे हा कल उलटला आणि रुपयातील वाढ घसरणीत बदलली. आंतरबँक परकी चलन बाजारात, रुपया ८५.०७ वर उघडला, दिवसभरात त्याने ८४.९६ चा उच्चांक आणि ८५.४४ चा नीचांकी स्तर गाठला. दिवसअखेर तो डॉलरच्या तुलनेत ८५.४४ वर स्थिरावला, त्याच्या मागील बंद पातळीपेक्षा १४ पैशांची घसरण नोंदवली. गुरुवारी, अमेरिकेचे राष्ट्राध्यक्ष डोनाल्ड ट्रम्प यांनी सुमारे ६० देशांवर परस्पर कर लादल्यानंतर डॉलरची घसरण झाल्याने रुपया ८५.३० वर स्थिरावला होता.

> आता नऊ एप्रिल रोजी रिझर्व्ह बँकेच्या पतधोरण समितीचा निर्णय जाहीर होणार असून, त्यावर सर्वांचे लक्ष आहे. त्यानंतर दहा तारखेला टीसीएसच्या निकालांनी जानेवारी ते मार्च तिमाही निकाली हंगामाला सुरुवात होईल. त्यावर सर्वांचे लक्ष लागले आहे.

'ಟ್ರಂಪ್ ನೀತಿಯು ಅಮೆರಿಕದಲ್ಲಿ ಆರ್ಥಿಕ ಹಿಂಜರಿತ ಮತ್ತು ಹಣದುಬ್ಬರ ಏರಿಕೆಗೆ ದಾರಿ ಮಾಡಿಕೊಡುವ ಸಾಧ್ಯತೆಯಿದೆ. ಇದು ಪ್ರಮುಖ ದೇಶಗಳ ಆರ್ಥಿಕತೆ ಬೆಳವಣಿಗೆ ಮೇಲೂ ಪರಿಣಾಮ ಬೀರಿದೆ. ಈ ಭೀತಿಯಿಂದಾಗಿ ಹೂಡಿಕೆದಾರರು ಷೇರುಗಳ ಮಾರಾಟಕ್ಕೆ ಮುಂದಾಗಿದ್ದಾರೆ. ಹಾಗಾಗಿ, ಸೂಚ್ಯಂಕಗಳು ಕುಸಿದಿವೆ' ಎಂದು ಮೆಹ್ತಾ ಈಕ್ವಿಟಿ ಲಿಮಿಟೆಡ್‌ನ ಹಿರಿಯ ಉಪಾಧ್ಯಕ್ಷ (ಸಂಶೋಧನೆ) ಪ್ರಶಾಂತ್ ತಾಪ್ಸೆ ಹೇಳಿದ್ದಾರೆ.

930 अंक गिर 75,364 पर बंद हुआ सेंसेक्स, क्रूड में तेज गिरावट और घरेलू दिग्गज कंपनियों में भारी बिकवाली ने भी धारणा को किया प्रभावित

मुंबई, प्रेट्र: व्यापार युद्ध गहराने की आशंका हावी होने से वैश्विक बाजारों में आई नरमी के बीच शुक्रवार को घरेलू शेयर बाजारों में तेज गिरावट दर्ज की गई। मानक सूचकांक सेंसेक्स 900 अंक से अधिक लुढ़ककर 76,000 के स्तर से नीचे आ गया। विश्लेषकों ने कहा कि कच्चे तेल की कीमतों में तेज गिरावट और घरेलू दिग्गज कंपनियों रिलायंस इंडस्ट्रीज, लार्सन एंड टुब्रो और इन्फोसिस में भारी बिकवाली ने भी निवेशकों की धारणा को नकारात्मक रूप से प्रभावित किया।

कच्चे तेल में तीन साल में सबसे बड़ी एक दिनी गिरावट, मांग में कमी की आशंका बढ़ी

मेहता इक्विटीज लिमिटेड के वाइस प्रेसिडेंट कमोडिटीज राहुल कलंत्री ने कहा कि अमेरिकी राष्ट्रपति द्वारा भारी पारस्परिक शुल्क लगाने की घोषणा के बाद कच्चे तेल की कीमतों में जोरदार गिरावट आई है और इससे वैश्विक मांग में कमी आने की आशंका बढ़ गई है। चीन पर शुल्क में तेज वृद्धि से ऊर्जा बाजार में हड़कंप मच गया है। इससे कच्चे तेल में तीन साल में सबसे बड़ी एक दिनी (3.26 प्रतिशत गिरकर 67.85 डालर प्रति बैरल) गिरावट आई।

खुलते ही गिरे दुनियाभर के शेयर बाजार

न्यूयार्क, एपी: चीन द्वारा अमेरिका पर जवाबी शुल्क लगाने से शुक्रवार को दुनियाभर के बाजारों में गिरावट देखी गई। नौकरियों को लेकर जारी होने वाली अमेरिकी रिपोर्ट आमतौर पर प्रत्येक महीने की हेडलाइनहोती है, लेकिन वह भी गिरावट रोकने के लिए पर्याप्त नहीं थी। सुबह के कारोबार में एसएंडपी 500 में पांच प्रतिशत की गिरावट आई और यह 2020 में कोरोना के दौरान आई मंदी के बाद सबसे खराब दिन था। यूरोपीय बाजारों में भी गिरावट दर्ज की गई और शुरुआती कारोबार में सभी बड़े सूचकांक लगभग पांच तक गिरे थे।

अनुमान से अधिक टैरिफ लागू करने से वैश्विक बाजारों पर महत्वपूर्ण प्रभाव पड़ा है। निवेश में मंदी का रुख देखने को मिला है, क्योंकि निवेशक इसके व्यापक प्रभावों का आकलन कर रहे हैं। अमेरिका के खिलाफ जवाबी कार्रवाई की संभावना ने अनिश्चितता को और बढ़ा दिया है। अमेरिकी बांड यील्ड और तेल की कीमतों में गिरावट का रुख है, जो संभावित आर्थिक मंदी और मंदी के बढ़ते जोखिम को लेकर चिंताओं को दर्शाता है।

अमेरिका में मंदी और मुद्रास्फीति को बढ़ावा देगी राष्ट्रपति डोनाल्ड ट्रंप की नीति

मेहता इक्विटीज लिमिटेड के वरिष्ठ उपाध्यक्ष (शोध) प्रशांत तापसे ने कहा, 'वैश्विक बाजारों में गिरावट के साथ ही घरेलू बाजारों में भी गिरावट हावी रही। व्यापक बिकवाली से विभिन्न क्षेत्रों में दो-छह प्रतिशत की गिरावट देखी गई।' निवेशकों को डर है कि अमेरिकी राष्ट्रपति डोनाल्ड ट्रंप की जवाबी शुल्क नीति अमेरिका में मंदी और मुद्रास्फीति को बढ़ावा देगी जो आगे चलकर अन्य प्रमुख अर्थव्यवस्थाओं को भी अपनी चपेट में ले लेगी। धातु और पेट्रोलियम शेयरों में तेज गिरावट यह संकेत दे रही है कि मंदी की आशंकाओं के बीच मांग पर असर पड़ सकता है।

দেশের সেরা বিদ্যুৎকেন্দ্র সাঁওতালডিহি, বক্রেশ্বর

আজকালের প্রতিবেদন

কৃষি, স্বাস্থ্য, ক্ষুদ্র-মাঝারি শিল্প, স্বনির্ভর গোষ্ঠী, মাংস ডিম দুধ উৎপাদনের পর এবার বিদ্যুৎ-ক্ষেত্রেও সেরা বাংলা। এবং তা খোদ কেন্দ্রীয় সরকারের বিচারেই। কেন্দ্রীয় বিদ্যুৎ কর্তৃপক্ষ বা সেন্ট্রাল ইলেকট্রিসিটি অথরিটির (সিইএ) বিচারে দেশের সেরা তাপবিদ্যুৎ কেন্দ্র পুরুলিয়ার সাওতালডিহি। এই সিইএ কেন্দ্রীয় বিদ্যুৎ মন্ত্রকের অধীন। শুধু সেরার সেরা নয়, সেরা দশের তালিকায় নাম রয়েছে বাংলার আরও তিন তাপবিদ্যুৎ কেন্দ্রের। বীরভূমের বক্রেশ্বর তাপবিদ্যুৎ কেন্দ্র, মুর্শিদাবাদ জেলার সাগরদিঘি তাপবিদ্যুৎ কেন্দ্র আর হুগলির ব্যান্ডেল তাপবিদ্যুৎ কেন্দ্র। রাজ্যের মুখ্যমন্ত্রী মমতা ব্যানার্জি স্বভাবতই খুশি। নিজের এক্স হ্যান্ডলে খুশির খবরটি জানিয়ে এই সাফল্যের জন্য রাজ্য বিদ্যুৎ দপ্তরের আধিকারিক, ইঞ্জিনিয়ার ও কর্মীদের অভিনন্দন জানিয়েছেন তিনি। লিখেছেন, 'এবার বিদ্যুতেও আমরা দেশে সেরার শিরোপা পেলাম।

মুখ্যমন্ত্রীর শুভেচ্ছা

● এরপর ২ পাতায়

দেশের সেরা বিদ্যুৎকেন্দ্র

● ১ পাতার পর

কর্মীদের নিরন্তর পরিশ্রমের ফলেই এটা সম্ভব হয়েছে। কাজের মাধ্যমে নিজেদের সেরাটা বের করে আনার জন্য এবং রাজ্যকে গর্বিত করার জন্য অভিনন্দন!'

সেন্ট্রাল ইলেকট্রিসিটি অথরিটি বা কেন্দ্রীয় বিদ্যুৎ কর্তৃপক্ষ দেশের সমস্ত তাপবিদ্যুৎ কেন্দ্রের মধ্যে এই মূল্যায়ন করে প্লান্ট লোড ফ্যাক্টরের ওপর। কোনও একটি বিদ্যুৎ উৎপাদন কেন্দ্রের প্লান্ট লোড ফ্যাক্টর হল ওই কেন্দ্রের গড় উৎপাদন বা কর্মদক্ষতার অনুপাত। যা মূলত প্লান্টের কর্মদক্ষতার বা ব্যবহারের একটি সূচক।

এই মূল্যায়নের ভিত্তিতে শুক্রবার দেশের ২০১টি তাপবিদ্যুৎ কেন্দ্রের তালিকা প্রকাশ করেছে কেন্দ্রীয় বিদ্যুৎ কর্তৃপক্ষ। তাতে দেখা যাচ্ছে, এক নম্বরে রয়েছে পুরুলিয়ার সাঁওতালডিহি তাপবিদ্যুৎ কেন্দ্র। দ্বিতীয় স্থানে বীরভূমের বক্রেশ্বর তাপবিদ্যুৎ কেন্দ্র। তালিকার প্রথম দশে রয়েছে এই বাংলার আরও দুই তাপবিদ্যুৎ কেন্দ্র। চার নম্বরে রয়েছে মুর্শিদাবাদ জেলার সাগরদিঘি তাপবিদ্যুৎ কেন্দ্র। আর নয় নম্বরে হুগলির ব্যান্ডেল তাপবিদ্যুৎ কেন্দ্র। সিইএ-র এই তালিকা অনুযায়ী রাজ্যের পাওয়ার ডেভেলপমেন্ট কর্পোরেশনের অধীনে থাকা সাঁওতালডিহি তাপবিদ্যুৎ কেন্দ্রের কর্মদক্ষতা ৯৪.৩৮ শতাংশ। দ্বিতীয় স্থানে থাকা বক্রেশ্বর তাপবিদ্যুৎ কেন্দ্রের কর্মদক্ষতা ৯৩.৩ শতাংশ। চতুর্থ স্থানে থাকা সাগরদিঘি তাপবিদ্যুৎ কেন্দ্রে ও নবম স্থানে থাকা ব্যান্ডেল তাপবিদ্যুৎ কেন্দ্রের কর্মদক্ষতা যথাক্রমে ৯০.৮৬ শতাংশ ও ৮৯.৬২ শতাংশ।

সেই সঙ্গে ওয়েস্ট বেঙ্গল পাওয়ার ডেভেলপমেন্ট কর্পোরেশনও দেশের প্রথম সারির বিভিন্ন বিদ্যুৎ উৎপাদনকারী সংস্থাকে পিছনে ফেলে দিয়েছে। এনটিপিসি, ডিভিসি, আদানি পাওয়ার, রিলায়েন্স পাওয়ার, টাটা পাওয়ার, টরেন্ট পাওয়ারের মতো সংস্থা কর্মদক্ষতার হিসেবে ডব্লিউবিপিডিসিএল-এর পেছনে। ডব্লিউবিপিডিসিএল-এর কর্মদক্ষতা ৮৮.৯ শতাংশ। সেখানে এনটিপিসি ৭৬.১ শতাংশ, ডিভিসি ৭৫.৭ শতাংশ, রিলায়েন্স পাওয়ার ৭৭.৮ শতাংশ। অর্থাৎ রাজ্য সরকারের বিদ্যুৎ সংস্থা অনেকটাই এগিয়ে দেশের অন্য সংস্থাগুলির থেকে। রাজ্যের বিদ্যুৎমন্ত্রী অরূপ বিশ্বাস জানান, মুখ্যমন্ত্রী লাগাতার বিভিন্ন নির্দেশ দিয়েছেন আমাদের এবং বিভিন্ন ভাবে সাহায্য করেছেন। তাই এই সাফল্য।

तुर्किये एयरपोर्ट पर सुविधाएं न मिलने का आरोप

265 विमान यात्री अब भी फंसे

■ अंकारा, एजेंसियां. वर्जिन अटलांटिक फ्लाइट से लंदन से मुंबई की यात्रा कर रहे 265 यात्री अब भी तुर्किये के दियारबाकिर हवाईअड्डे पर फंसे हैं. यात्री लगातार मदद के लिए गुहार लगा रहे हैं. इनमें कई भारतीय भी हैं. वर्जिन अटलांटिक ने इसे हार्ड लैंडिंग बताया, जिसके बाद विमान को तकनीकी समस्या के कारण उड़ान भरने के लिए अयोग्य घोषित कर दिया गया. इसके बाद जहां चालक दल को होटल ले जाया गया, वहीं यात्रियों को छोटे क्षेत्रीय हवाई अड्डे के भीतर प्रतिबंधित क्षेत्र में ठहराया गया जहां पर्याप्त सुविधाएं भी नहीं हैं. भारतीय दूतावास की मदद के बाद कुछ यात्रियों को नजदीक के होटल में ले जाया गया. फंसे हुए यात्रियों ने आरोप लगाया कि एयरलाइन बुनियादी सुविधाओं का प्रबंध करने में विफल रही.

एयरलाइन ने मांगी माफी

यात्रियों का आरोप था कि वर्जिन एयरलाइंस ने न तो यात्रियों के लिए कोई व्यवस्था की और न ही यह जानकारी दी कि वे मुंबई के लिए कब रवाना हो पाएंगे.यात्रियों ने एक्स पर अपर्याप्त भोजन, टॉयलेट और इलेक्ट्रॉनिक उपकरणों के लिए चार्जिंग पॉइंट की कमी सहित बुनियादी सुविधाओं की कमी का जिक्र किया. वर्जिन अटलांटिक के प्रवक्ता ने कहा कि हमारे कस्टमर्स और क्रू मेंबर्स की सुरक्षा हमारी सर्वोच्च प्राथमिकता है और असुविधा के लिए हम ईमानदारी से माफी मांगते हैं. हम यात्रियों को मुंबई भेजने के लिए आवश्यक सभी प्रयास कर रहे हैं. उन्हें जल्दी ही मुंबई भेजा जाएगा.

ফোনে চার্জ নেই, মেলেনি খাবার, দুঃস্বপ্ন কাটিয়ে মুম্বইয়ে ফিরল প্লেন

মুম্বই: ৪০ ঘণ্টারও বেশি সময় আটকে থাকার পর তুরস্কের স্থানীয় সময় দুপুর একটা নাগাদ অবশেষে মুম্বইয়ের উদ্দেশে রওনা দিল ভার্জিন আটলান্টিকের উড়ান।বৃহস্পতিবার লন্ডন থেকে মুম্বইগামী ভার্জিন আটলান্টিকের উড়ানটি মেডিক্যাল ইমার্জেন্সির কারণে কমপক্ষে ২৫০ জন যাত্রী নিয়ে তুরস্কের দিয়ারবাকির এয়ারপোর্টে জরুরি অবতরণ করতে বাধ্য হয়। তার পরই যান্ত্রিক ত্রুটি দেখা দেওয়ায় বৃহস্পতিবার রাতভর এয়ারপোর্টে আটকে পড়েন যাত্রীরা, যার সংখ্যাগরিষ্ঠই ভারতীয়। অভিযোগ ওঠে— বিমানসংস্থা তাদের ক্রু সদস্যদের জন্য হোটেলের ব্যবস্থা করলেও যাত্রীদের বিমানবন্দরের ছোট জায়গাতেই রাত কাটাতে হয়েছে। আম আদমি পার্টি (আপ)-এর নেত্রী প্রীতি শর্মা মেনন এক্স প্ল্যাটফর্মে জানান, তাঁর বোন এবং বোনঝি ওই বিমানে ছিলেন। তুরস্কে প্রবল সমস্যার মুখে পড়েছেন তাঁরা। বিমানবন্দরের শৌচালয় ব্যবহারের যোগ্য নয়, খাবার, ফোনের চার্জিং পয়েন্ট—কিছুই পাননি তাঁরা। এমনকী বিমানবন্দরের কর্মীরা ইংরেজিও বলতে পারেন না বলে অভিযোগ। শেরলিন ফার্নান্ডেজ় নামে আরও এক এক্স ইউজ়ার জানান, তাঁর এক আত্মীয় বিমানে ছিলেন। তুরস্কে পৌঁছনোর পর থেকে একটা স্যান্ডউইচ ছাড়া কিছুই খেতে দেওয়া হয়নি তাঁদের। শেরলিনের বক্তব্য, 'বিমানটি যে ভাবে ল্যান্ড করেছে, তাতে বিমানবন্দরের কর্মীরা খুবই খাপ্পা। যাত্রীদের কোনও দোষ নেই, তার পরও বার বার তাঁদের পাসপোর্ট দেখতে চাওয়া হচ্ছে। ফোনে চার্জ দেওয়ার কোনও ব্যবস্থা ওখানে নেই।' ভার্জিন আটলান্টিক এয়ারলাইন্স অবশ্য জানিয়েছিল, প্রয়োজনে বিকল্প বিমানে যাত্রীদের ফেরানোর তোড়জোড় করবেন তাঁরা। প্রীতি শর্মা মেননের পোস্টের জবাবে এয়ারলাইন্স জানিয়েছিল, বৃহস্পতিবার রাতে যাত্রীদের থাকার জন্য হোটেলরুমের ব্যবস্থা করা হয়েছে। যদিও বেশ কিছু যাত্রী সোশ্যাল মিডিয়ায় দাবি করেছেন, রাতে ঠান্ডার মধ্যে এয়ারপোর্টে থাকতে হয়েছে, কম্বল ছাড়া এয়ারলাইন্সের তরফে কিছুই দেওয়া হয়নি! মেলেনি নিরামিষ খাবারও। ভারতীয় সময় শুক্রবার বিকেল চারটে নাগাদ ভার্জিন আটলান্টিক এয়ারলাইন্সের মুখপাত্র জানান, দিয়ারবাকির এয়ারপোর্ট থেকে উড়ান রওনা দিয়েছে। শুক্রবার রাত ন'টা নাগাদ মুম্বই পৌঁছয় বিমানটি। যাত্রীদের সমস্যার জন্য ক্ষমাও চান এয়ারলাইন্স কর্তৃপক্ষ।

কেন্দ্রের বার্ষিক র‍্যাঙ্কিংয়ে প্রথম স্থানে বাংলার সাঁওতালডিহি তাপবিদ্যুৎ কেন্দ্র

নিজস্ব প্রতিবেদন: ফের কেন্দ্রের স্বীকৃতি পেল রাজ্য সরকার। কার্যক্ষম দক্ষতার (প্ল্যান্ট লোড ফ্যাক্টর) ভিত্তিতে সম্প্রতি ভারত সরকারের বিদ্যুৎ মন্ত্রণালয়ের কেন্দ্রীয় বিদ্যুৎ কর্তৃপক্ষ দেশের ২০১টি তাপবিদ্যুৎ কেন্দ্রের বার্ষিক র‍্যাঙ্কিং ঘোষণা করেছে। তাতে শীর্ষস্থানে তো বটেই দেশের সেরা দশের মধ্যে বাংলার আরও তিনটি তাপবিদ্যুৎ কেন্দ্র স্থান পেয়েছে। শুক্রবার এক্স হ্যান্ডেলে একথা জানিয়েছেন মুখ্যমন্ত্রী মমতা বন্দ্যোপাধ্যায়। তিনি জানিয়েছেন, ২০২৪-২৫ সালের জন্য কেন্দ্রীয় বিদ্যুৎ কর্তৃপক্ষ সাঁওতাল ডিহি তাপবিদ্যুৎ কেন্দ্রকে দেশের সেরা কর্মক্ষম তাপবিদ্যুৎ কেন্দ্র হিসেবে স্থান দিয়েছে। সর্বভারতীয় তালিকায় প্রথম স্থান রয়েছে ওই বিদ্যুৎ কেন্দ্রটি। ওই তালিকায় দ্বিতীয় স্থানে রয়েছে বীরভূমের বক্রেশ্বর কেন্দ্র, চতুর্থস্থানে সাগরদিঘি এবং নবম স্থানে ব্যান্ডেল। একই সঙ্গে বিদ্যুৎ উৎপাদনেও এনটিপিসি, ডিভিসি, আদানি পাওয়ার, টাটা পাওয়ারের

মতো সংস্থাগুলিকে ছাপিয়ে শীর্ষে উঠে এসেছে রাজ্য বিদ্যুৎ উন্নয়ন নিগম। প্রসঙ্গত মার্চের শেষে আইসিএমআরের প্রকাশিত তালিকা অনুযায়ী পূর্ব ভারতের মধ্যে স্বাস্থ্যক্ষেত্রে সেরা গবেষণা প্রতিষ্ঠান হিসাবে প্রথম স্থান অর্জন করেছে কলকাতা মেডিক্যাল কলেজ। দ্বিতীয় স্থানে রয়েছে এসএসকেএম। অর্থাৎ সেরা স্বাস্থ্য প্রতিষ্ঠানের নিরিখে শীর্ষে বাংলার দুই সরকারি মেডিক্যাল কলেজ। তার কিছু দিন আগেই কেন্দ্রের প্রকাশিত তালিকা অনুযায়ী অসংগঠিত ক্ষেত্রে অতি ক্ষুদ্র, ক্ষুদ্র এবং মাঝারি উৎপাদন শিল্পে দেশের মধ্যে শীর্ষ স্থান দখল করেছে বাংলা। এবার বিদ্যুতেও সেরার তকমা এল বাংলায়।

আদানি-আম্বানিদের টেক্কা, দেশের সেরা তাপবিদ্যুৎ কেন্দ্র সাঁওতালদিহি

পুবের কলম প্রতিবেদক

আদানি-আম্বানি-টাটাকে পেছনে ফেলে এগিয়ে গেল পশ্চিমবঙ্গ বিদ্যুৎ উন্নয়ন নিগম লিমিটেড (ডব্লিউবিপিডিসিএল)। ভারত সরকারের বিদ্যুৎ মন্ত্রকের বিচারে দেশের সেরা কর্মক্ষম তাপবিদ্যুৎ কেন্দ্রের মর্যাদা পেল ডব্লিউবিপিডিসিএল -এর সাঁওতালদিহি। এছাড়াও দেশের সেরা দশটি কর্মক্ষম তাপবিদ্যুৎ কেন্দ্রের তালিকায় দ্বিতীয়, চতুর্থ এবং নবম স্থানটি দখল করল যথাক্রমে এই রাজ্যেরই সরকারি তাপবিদ্যুৎ কেন্দ্র বক্রেশ্বর, সাগরদিঘি এবং ব্যান্ডেল। রাজ্যের এই কৃতিত্বে খুশি

শুভেচ্ছা মুখ্যমন্ত্রীর

মুখ্যমন্ত্রী মমতা বন্দ্যোপাধ্যায়। এই সুখবরে এক্স হ্যান্ডেলে প্রথমেই তিনি লিখেছেন, 'উই আর দ্য বেস্ট, ইয়েট এগেন'। এদিন তিনি বিদ্যুৎ দফতরের আধিকারিক, ইঞ্জিনিয়ার ও কর্মীদের অভিনন্দন জানিয়েছেন। বিদ্যুৎমন্ত্রী অরূপ বিশ্বাস জানিয়েছেন, মুখ্যমন্ত্রী মমতা বন্দ্যোপাধ্যায়ের নির্দেশনা ও সহায়তার কারণেই বাংলা এই কৃতিত্বের অধিকারী হয়েছে।

ভারত সরকারের বিদ্যুৎ মন্ত্রকের অধীনস্থ কেন্দ্রীয় বিদ্যুৎ কর্তৃপক্ষ (সিইএ) দেশের ২০১টি তাপবিদ্যুৎ কেন্দ্রের বার্ষিক র‍্যাঙ্কিং ঘোষণা করেছে, যা কার্যক্ষম দক্ষতার ওপর ভিত্তি করে পিএলএফ তথা প্ল্যান্ট

লোড ফ্যাক্টরের নিরিখে গণনা করা হয়েছে। ২০২৪-২৫ সালের সিইএ র‍্যাঙ্কিং অনুযায়ী ডব্লিউবিপিডিসিএল -এর সাঁওতালদিহি তাপবিদ্যুৎ কেন্দ্র যার পিএলএফ ৯৪.৩৮ শতাংশ, দেশের সেরা অর্থাৎ প্রথম স্থানের মর্যাদা পেল। দেশের মধ্যে দ্বিতীয় স্থান পেয়েছে বক্রেশ্বর (পিএলএফ ৯৩.৩ শতাংশ)। এক্ষেত্রে সাগরদিঘি (পিএলএফ - ৯০.৯ শতাংশ) চতুর্থ এবং ব্যান্ডেল (পিএলএফ ৮৯.২ শতাংশ) নবম স্থানে রয়েছে। এক্ষেত্রে এনটিপিসি (পিএলএফ ৭৬.১ শতাংশ), ডিভিসি (পিএলএফ -৭৫.৭ শতাংশ), আদানি পাওয়ার (পিএলএফ ৭৩.০২ শতাংশ), রিলায়েন্স পাওয়ার (পিএলএফ-৭৭.৮ শতাংশ), টাটা (পিএলএফ - ৭২ শতাংশ)-এর মতো সংস্থাগুলিকে তাপবিদ্যুৎ উৎপাদনের নিরিখে বেশ অনেকটাই ছাপিয়ে গিয়েছে ডব্লিউবিপিডিসিএল। পরিসংখ্যান বলেছে ২০২৪-২৫ অর্থবর্ষে সারা দেশের মোট উৎপাদনের গড় যেখানে পিএলএফ -এর নিরিখে ৭০ শতাংশ। সেখানে রাজ্যের তাপবিদ্যুৎ উৎপাদন কেন্দ্রের কর্মক্ষমতা ৯০ শতাংশের মতো।

মুখ্যমন্ত্রী এদিন এক্স হ্যান্ডেলে লিখেছেন, কর্মীদের নিরন্তর পরিশ্রমের ফলেই এটা সম্ভব হয়েছে। কাজের মাধ্যমে নিজেদের সেরাটা বের করে আনার জন্য এবং রাজ্যকে গর্বিত করার জন্য অভিনন্দন। কিছুদিন আগেই কেন্দ্রের প্রকাশিত তালিকা অনুযায়ী অসংগঠিত ক্ষেত্রে ক্ষুদ্র, ছোট এবং মাঝারি উৎপাদন শিল্পে দেশের মধ্যে শীর্ষস্থান দখল করেছে বাংলা। মার্চের শেষেই আইসিএমআর-এর প্রকাশিত তালিকা অনুযায়ী পূর্ব ভারতের মধ্যে স্বাস্থ্যক্ষেত্রে সেরা গবেষণা প্রতিষ্ঠান হিসেবে প্রথম স্থান অধিকার করেছে কলকাতার মেডিকেল কলেজ। এবার বিদ্যুতেও এলো দেশের মধ্যে সেরার শিরোপা। পরিসংখ্যান অনুযায়ী দেখা যাচ্ছে বর্তমানে ডব্লিউবিপিডিসিএল -এর মোট স্থাপিত ক্ষমতা ৪২৬৫ মেগাওয়াট। এর সঙ্গে সাগরদিঘি তাপবিদ্যুৎ কেন্দ্রের ৬৬০ মেগাওয়াটের একটি সুপার ক্রিটিক্যাল উইনিট শীঘ্রই উৎপাদন শুরু করবে। এই মাইলফলক ডব্লিউবিপিডিসিএল-এর অবস্থানকে আরও শক্তিশালী করে তুলবে।

এই কৃতিত্বের নেপথ্যে রয়েছে রাজ্যের বিদ্যুৎ দফতরের একাধিক পরিকল্পনা ও কর্মসূচি। এর মধ্যে রয়েছে তাপবিদ্যুৎ উৎপাদন কেন্দ্রের সুরক্ষা, নিরাপত্তা বজায় রাখা, পরিবেশ দূষণের উপাদানগুলি কম করা ইত্যাদি। পুরনো ইউনিটগুলির মধ্যেও কোলাঘাটের তিন ও চার নম্বর ইউনিট এবং ব্যান্ডেলের দুই নম্বর ইউনিট ব্যতিক্রমী কর্মক্ষমতা দেখিয়েছে। নিজস্ব খনি থেকে ১০০ শতাংশ কয়লা সরবরাহ ডব্লিইবিপিডিসিএল এই কর্মক্ষমতা দেখাতে পেরেছে। আগামী দিনে ডেউচা পাঁচামী থেকে কয়লা উত্তোলন করা সম্ভব হলে বিদ্যুৎ উৎপাদন ক্ষমতা আরও বৃদ্ধি পাবে। যেকথা মুখ্যমন্ত্রী প্রায়ই বলে থাকেন। শীর্ষ কর্তৃপক্ষের তাপবিদ্যুৎ কেন্দ্রগুলির নিয়মিত পরিদর্শন, পুরনো ইউনিটগুলির পুনরুদ্ধার, পুরস্কার প্রদান ইত্যাদির মাধ্যমে কর্মীদের কর্মক্ষমতা বৃদ্ধি পেয়েছে। সেই সঙ্গে উন্নত সরঞ্জামের ব্যবহার, নিয়মিত রক্ষণাবেক্ষণও কর্মক্ষমতা বাড়িয়েছে রাজ্যের তাপবিদ্যুৎ উৎপাদন কেন্দ্রগুলির।

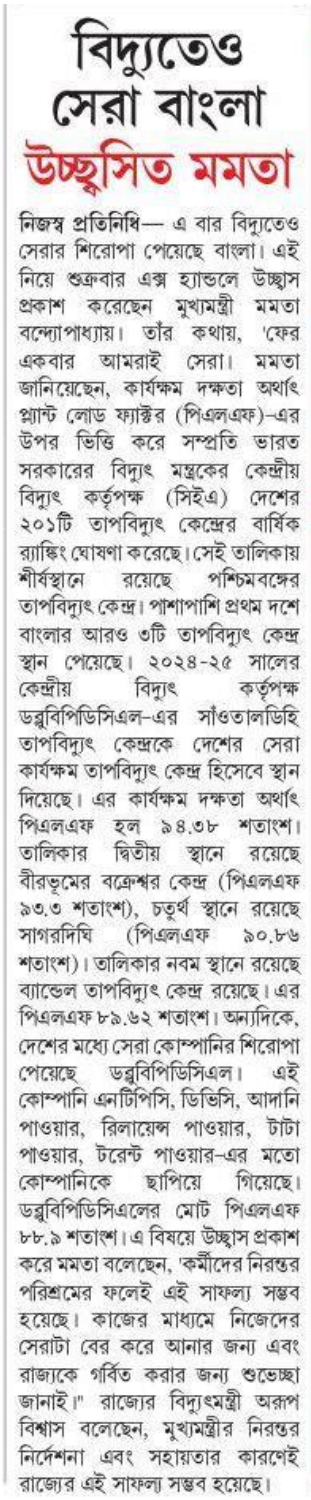

রাজ্যের বিদ্যুৎ দফতরের মতে সুষ্ঠু পরিচালনা ও উন্নয়নমুখী ভাবনার জন্যই রাজ্যের সরকারি তাপবিদ্যুৎ কেন্দ্রগুলি উৎপাদনের নিরিখে এগিয়ে গেল।
