The Adani Group said on Monday it had opened an \$800 million container terminal in Sri Lanka, right next to a similar facility operated by a Chinese company.

The Adani development at Sri Lanka's main seaport in Colombo is widely seen as

a counter to the rival Chinese terminal and as a means for India to secure a foothold at the strategic facility.

The launch of the Adani-operated facility came a day after Prime Minister Narendra Modi concluded a state visit to Sri Lanka during which he secured defence and energy deals with Colombo.

"The commencement of operations at CWIT (Colombo West International Terminal) marks a momentous milestone in regional cooperation between India and Sri Lanka," billionaire chairman Gautam Adani said in a statement.

Sri Lanka lies at a key halfway point along the main east-west international maritime route and Colombo is a major transshipment hub for South Asia.

The company said it had completed 600 metres (660 yards) out of a final 1,400-metre long berth with a depth of 20 metres that is able to handle the largest container ships. **AFF**

Adani Ports and Special Economic Zone Ltd (APSEZ) on Monday announced the commencement of operations at the Colombo West International Terminal (CWIT), located at the Port of Colombo, Sri Lanka.

Developed under a public-private partnership, CWIT is operated by a consortium, comprising India's largest port operator Adani Ports & SEZ Ltd, leading Sri Lankan conglomerate John Keells Holdings PLC, and the Sri Lanka Ports Authority, under a 35-year build, operate, and transfer agreement.

CRITICAL INFRA

Gautam Adani, Chairman of the Adani Group, stated in an official release, "The CWIT project will create thousands of direct and indirect jobs locally and unlock immense economic value for the island nation. It also stands as a shining example of the deep-rooted friendship and growing strategic ties between the two neighbours, and of what can be achieved through visionary public-private partnerships. Delivering this world-class facility in record time also reflects the Adani Group's proven ability to efficiently execute largescale critical infrastruc-

ture projects anywhere in the world."

The CWIT project represents a significant investment of \$800 million and features a 1,400-metre quay length and 20-metre depth, enabling the terminal to handle approximately 3.2 million twenty foot equivalent units (TEUs) annually.

KEY HUB

It is the first deep-water terminal in Colombo to be fully automated, designed to enhance cargo handling capabilities, improve vessel turnaround times and elevate the port's status as a key transshipment hub in South Asia.

Construction began in early 2022 and has since achieved rapid progress. With the installation of cutting-edge infrastructure now nearing completion, CWIT is poised to set new benchmarks in operational efficiency and reliability in regional maritime logistics.

Krishan Balendra, Chairperson, John Keells Group, said, "This project is among the most significant private sector investments in Sri Lanka. Together with the Sri Lanka Ports Authority and the Adani Group, we will elevate Colombo's status as a leading transshipment hub. We are confident that the project will enhance global trade and connectivity in the region."

Adani-backed Colombo port terminal starts operations; first vessel to call in May

Meera Srinivasan
COLOMBO

Adani Ports and Special Economic Zone Ltd. on Monday announced commencing operations at the Colombo West International Terminal (CWIT) that it is jointly developing with the Sri Lanka Ports Authority and Sri Lankan Conglomerate John Keells Holdings.

The development assumes significance, coming months after the multinational conglomerate withdrew another investment in Sri Lanka, a controversial wind power project of Adani Green.

Monday's announcement marks the beginning of commercial operations at the port, but the inaugural call by a vessel is expected in May 2025, sources in Colombo indicated. The CWIT project – coming up next to the China-backed Colombo International Container Terminal (CICT) in Sri Lanka's strategic port – is to be executed through a 35-year-long build-operate-transfer (BOT) contract among the three parties. While Adani Ports holds majority stakes of 51%, John Keells holds 34%, and the SLPA, 15%.

Issuing a statement, Adani Ports said the terminal project represents "a significant investment" of \$800 million and features a 1,400-metre quay length and 20-metre depth, enabling the terminal to handle 3.2 million Twenty-foot Equivalent Units (TEUs) annually. turnaround times and elevate the port's status as a key transshipment hub in South Asia," the company said.

Chairman Gautam Adani termed it "a milestone" in India-Sri Lanka regional cooperation, according to the company's statement. Krishan Balendra, Chairperson, John Keells Group said the project "strengthens Sri Lanka's position as a regional maritime hub." The Sri Lanka Ports Authority has not commented.

Past controversies

The Adani Ports-led Colombo West International Terminal (CWIT) or the West Container Terminal project has been in focus for four years now. The agreement for the project was signed in September 2021, when President Gotabaya Rajapaksa was in office. That decision came months after he cancelled the East Container Terminal project that the governments of Sri Lanka, India, and Japan had agreed to jointly develop. His decision caused considerable strain in bilateral ties. Subsequently, Mr. Gotabaya offered the West Container Terminal to India.

The project was back in the spotlight last year, after Federal prosecutors in New York indicted Adani Group Chairman and seven others on multiple counts of fraud.

Despite past controversies surrounding the terminal project, the ruling Anura Kumara Dissanayake government has expressed keenness to take it forward, seeing opportunity to "boost revenue" at the Colombo Port. Sri Lanka's Minister of Transport, Highways, Ports and Civil Aviation Bimal Rathnayake described the CWIT project a "foster child" from two past governments [Presidents Gotabaya and Ranil Wickremesinghe]. "It was an unsolicited investment that came in without any competitive bid. But we cannot delete it like a computer programme, especially after considerable amount of infrastructure work has been done," he told *The Hindu*, adding that the National People's Power [NPP] government would try its best to follow due process in all future investments. "Also, more than 95 % of those employed at the terminal are young Sri Lankans," Rathnayake added.

अडानी पोर्ट्स ने एक बयान में कहा कि यह कोलंबो में पहला गहरे पानी का टर्मिनल है, जो पूरी तरह से स्वचालित है, जिसे कार्गो हैंडलिंग क्षमताओं को बढ़ाने, जहाज के टर्नअराउंड समय में सुधार करने और दक्षिण एशिया में एक प्रमुख ट्रांसशिपमेंट हब के रूप में बंदरगाह की स्थिति को बढ़ाने के लिए डिजाइन किया गया है। एक ऐतिहासिक सार्वजनिक-निजी भागीदारी के तहत विकसित, सीडब्ल्यूआईटी का संचालन

■ भारत-श्रीलंका समुद्री संबंधों में ऐतिहासिक क्षण

भारत के सबसे बड़े बंदरगाह संचालक, अडानी पोर्ट्स एंड एसईजेड लिमिटेड, श्रीलंका के लीडिंग समूह जॉन कील्स होल्डिंग्स पीएलसी और श्रीलंका पोर्ट्स अथॉरिटी के एक संघ द्वारा किया जाता है, जो 35 साल के बिल्ड, ऑपरेट और ट्रांसफर (बीओटी) समझौते के तहत है। अडानी समूह के अध्यक्ष गौतम अदानी ने कहा कि सीडब्ल्यूआईटी में परिचालन की शुरुआत भारत और श्रीलंका के बीच क्षेत्रीय सहयोग में एक महत्वपूर्ण मील का पत्थर है।

उन्होंने कहा कि यह टर्मिनल न केवल हिंद महासागर में व्यापार के भविष्य का प्रतिनिधित्व करता है, बल्कि इसका उद्घाटन श्रीलंका के लिए भी एक गौरवपूर्ण क्षण है, जो इसे वैश्विक समुद्री मानचित्र पर मजबूती से स्थापित करता है।

बयान में कहा गया है कि यह कोलंबो का पहला पूर्णतः स्वचालित गहरे पानी का टर्मिनल है, जिसे कार्गो हैंडलिंग क्षमताओं को बढ़ाने, पोत के वापसी के समय में सुधार करने तथा दक्षिण एशिया में बंदरगाह के एक प्रमुख ट्रांसशिपमेंट हब के रूप में इसकी स्थिति को बढ़ाने के लिए डिज़ाइन किया गया है। अदाणी समूह के चेयरमैन गौतम अदाणी ने कहा कि सीडब्ल्यूआईटी में परिचालन की शुरुआत भारत और श्रीलंका के बीच क्षेत्रीय सहयोग में एक महत्वपूर्ण मील का पत्थर है। उन्होंने कहा, यह टर्मिनल न केवल हिंद महासागर में व्यापार के भविष्य का प्रतिनिधित्व करता है, बल्कि इसकी शुरुआत श्रीलंका के लिए भी एक गौरवपूर्ण क्षण है, जो इसे वैश्विक समुद्री मानचित्र पर मजबूती से स्थापित करता है।
