Mumbai: Akasa Air plans to operate 50 flights from the upcoming Adani-backed Navi Mumbai airport, starting off with about 15 departures which will be a combination of both domestic and international, said Vinay Dube, its chief executive officer.

The Navi Mumbai airport is expected to open by the end of August, although the exact date is yet to be finalised. Dube claimed Akasa Air would be the airline with the most number of flights from there.

"I'm sure there'll be others, but I don't believe there'll be any other airline in India, or in fact the world, that would have a larger percentage of their network based out of Navi Mumbai Airport as compared to Akasa," Dube told reporters at a virtual roundtable on Friday.

Arun Bansal, CEO of Adani Airports Holdings Limited, said in a press statement, "Their rapid growth and forward-looking approach make them an ideal partner in NMIA's journey to becoming a key domestic and international hub."

Budget carrier-Akasa operates some 32 flights from Mumbai daily. "In Mumbai, we have close to 32 departures today and Navi Mumbai, we expect to take that up to about 75 to 80 odd departures as we exit winters. That's how signifi-

cant this is for us," said Dube.

The airline will continue to maintain these flights with "no plans to consolidate operations", Dube said. The carrier will also focus on connecting tier-II cities through its Navi Mumbai hub.

Akasa Air is the second airline to sign an agreement with Navi Mumbai airport, IndiGo, which

will be the first to commence flights from the new airport, plans to start with over 18 daily departures to 15 cities from day one of the airport's opening and aims to increase operations to 79 departures by November.

Air and 50 international departures per week in the winter schedule. The airline plans to expand to 10 parking bases by the end of FY27, focusing on international growth in key Middle Eastern and Sout-

heast Asian markets.

Dube said the airline will have a mix of prime slots as well as slots spread across the day.

## Amid Covid & Global Chaos, Indians' Big Fear: Missing that Flight

Summer travel sentiment remains strong with packages for domestic and international spots pricier by up to 15%

Flight fares for Georgia, another emerging destination, are up as well and the visa will take over 10 days to arrive. She says she'll likely pick Thailand eventually, considering the easier access and more reasonable fares.

Despite global uncertainties, and the recent spike in Covid-19 cases in India, travel sentiment remains strong and holiday packages for ongoing summer breaks for both domestic and international destinations are pricter by up to 15 % year-on-year, said travel experts.

"Travellers had been in the waitand-watch mode last month following Operation Sindoor, but bookings are now happening full throttle," said a travel industry insider. Fares could rise up to 15%, especially to international destinations such as Georgia, Vietnam and Sri Lanka, which have turned out to be more affordable than some of the top domestic spots over the past year, said Tavleen Bhatia, chief marketing and revenue officer at Cleartrip. In 2024, Vietnam welcomed about 500,000 Indian tourists, a fourfold jump from pre-pandemic levels. India was the top primary market for Sri Lanka in December last year with 52,881 arrivals, accounting for a 21.3% share. Around 124,300 Indian tourists visited Georgia in 2024, marking a 46.8% increase from the previous year.

New Delhi: Several packaged food companies have raised complaints about shoddy and unhygienic conditions in some dark stores from which quick commerce companies despatch purchases to consumers. Nearly a dozen have written to the platforms in the last two-three months, raising urgent concerns about lapses in storage and handling at the stores, citing specific violations. Dark stores are large warehouses that stock products for quick delivery.

This comes as government authorities, including the Food and Number of quick commerce dark stores: FY26 5,000-5,500 FY25 4.550 Store throughput \$35-40 B What They Say FDA & FSSAI officials Audits and surprise checks to be escalated Consumer trust in our We launch premium products exclusively brands non-for QC, pay hefty negotiable for QC, pay hefty commissions

the Food Safety and Standards Authority of India (FSSAI), are stepping up surprise inspections and audits at the thousands of dark stores mushrooming all over the country.

Many of the companies did not want to be identified while confirming that they'd made complaints.

"We supply the freshest stock to our quick commerce partners complying to more than 70% shelf life and temperature guidance on categories like cheese, said Varun Berry, managing director of biscuits, bakery and dairy maker Britannia Industries. "Beyond this point we expect them to ensure best hygiene practices and FMFO (First Manufacturing First Out) in the last-mile delivery. With rapid expansion, we will need to work very closely with them to ensure no slip-ups happen."

Companies making daily essentials, staples and premium grocery products have been reporting swift growth on quick commerce platforms compared with neighbourhood stores or modern trade. The pace of growth ranged from 50% to 100% in FY25.

A senior executive at a large frozen foods company said odour transfer was one of the issues that had to be addressed.

"We noticed that agarbatti sticks were being stored close to our frozen snack packs at the dark stores of a large platform. This runs the risk of migration of odour, so we immediately asked them to rectify the storage, "said a senior executive at a large frozen foods company. "Ultimately, it's our brand that's the direct consumer interface and we can't let that

Various large companies such as HUL, ITC, Britannia, Tata Consumer Products, PepsiCo, Amul, Parle Products, Coca-Cola, Mother Dairy and KRBL have also been introducing exclusive premium packs of teas, loe-creams, cookies, snacks, frozen foods and staples for sale only on quick commerce channels.

"We've asked all the platforms to urgently step up routine audits on their own," said Vikram Agarwal,

managing director of Cornitos snacks maker Greendot Health Foods, which gets nearly 20% of its annual sales from quick commerce platforms now.
"The matter is even more concerning in case of franchised

dark stores."

Earlier this week, the Maharashtra Food and Drug Administration (FDA) suspended the food business licence of a Zepto dark store in Dharavi after discovering safety and hygiene violations such as fungal contamination and unsanitary storage conditions during an inspection.

"Hygiene protocols are non-negotiable, and consumer trust remains sacrosanct, regardless of how or where the product is purchased," said Kunal Sharma, head of marketing and business head, modern trade and ecommerce at the listed

KRBL Ltd, which makes India Gate basmati rice. "All platforms and partners must maintain rigorous hygiene and safety standards, and regulatory guidance from the FDA and FSSAI play a vital role in reinforcing these benchmarks."

FSSAI has stepped up audits at dark stores across cities, including the metros, tier-2 and smaller markets.

"As quick commerce revolutionises last-mile delivery, it brings new challenges where cold chain integrity and hygienic handling are absolutely non-negotiable," said Srideep Kesavan, chief executive at Heritage Foods.

## IndiGo may line up 30-50 ATR plane order in Paris

New Delhi, 6 June

IndiGo, India's largest airline, is likely to place an order for 30 to 50 ATR 72-600 turboprop aircraft during the Paris Air Show later this month, people familiar with the matter told Business Standard on Friday. The deal, if finalised with the Franco-Italian aircraft manufacturer ATR, could be valued between \$450 million and \$750 million, based on an estimated transaction price of around \$15 million per aircraft, they said.

Discussions between IndiGo and ATR for a new batch of aircraft have been ongoing since last year, the sources said. "The deal size could be increased from 50 planes to a larger number," a source added. Asked for comment, an ATR spokesperson told Business Standard: "It's best to ask IndiGo about its plans."

"What we can say is that ATR aircraft provide an outstanding value proposition for India's regional mobility needs, as demon-

presence and dominant market share in the country. With unparalleled fuel efficiency, versatility, and accessibility, our aircraft perfectly match India's need for sustainable, cost-

effective regional connectivity," the spokesperson added.

IndiGo did not respond to Business Standard's request for comment till the time of going to the press. Turn to Page 3 >

# Experts flag infra limitations at major airports as hurdle for ATR operations

The Indian carrier, which currently operates a fleet of about 46 ATR 72-600s, had earlier placed an order for 50 such aircraft in 2017 as part of a strategy to expand its regional footprint under the government's UDAN scheme to improve air connectivity to underserved towns. Four aircraft since have been sold or leased to other.

Deliveries under that contract were completed by early 2025.

The ATR 72-600 is a twinengine turboprop aircraft typically seating around 70 passengers, although IndiGo configures its planes in a high-density 78-seat layout. The aircraft is primarily deployed on short regional routes, with a range of about 1,370km.

"IndiGo has utilised the ATRs on all sorts of routes, from monopoly under regional connectivity scheme UDAN to some intra-metro high frequency ones in South India," said Ameya Joshi, aviation analyst and founder of the blog Network Thoughts. "The airline has also experimented with routes, some working well and some not continuing." he said

working well and some not continuing," he said. The turboprop fleet enabled IndiGo to expand its network to smaller destinations such as Kolhapur, Kishangarh and Kadapa, which are not feasible for the airline's Airbus fleet, according to Joshi.

But he also flagged infrastructure limitations at major airports as a major hurdle for ATR operations. "One of the bigger challenges has been getting slots at Delhi or Mumbai for the ATR," he said. "The development of secondary airports — like Navi Mumbai and Jewar — could ease this constraint and support rapid network expansion. How much does the government incentivise going forward also needs to be seen."

Since 2023, IndiGo has placed several aircraft orders. Last Sunday, it announced an order for 30 additional Airbus A350 widebody planes, adding to its April 2024 order for 30 A350s, bringing its total widebody order to 60 aircraft. Deliveries will begin in 2027 and continue into the

next decade. These widebody planes, which have larger fuel tanks than narrow-body A320s, are key to IndiGo's long-haul expansion, targeting routes like India-US, India-Europe, and India-Australia to compete with Air India and Gulf carriers.

The recent widebody orders followed IndiGo's record-breaking June 2023 order for 500 Airbus A320neo family aircraft to boost its narrow-body fleet for domestic and short-haul

international operations. Airbus Chief Commercial Officer Benoit de Saint-Exupéry said on Sunday that IndiGo's total order book now stands at 1,400 aircraft, including these recent wide-body orders and earlier large-scale A320 family purchases over the past decade.

over the past decade.

ATR is a joint venture between Airbus and the Italian aerospace group Leonardo, with each owning a 50 percent stake in the manufacturer. IndiGo's current fleet

DIAL CEO cites runway upgrade as reason for cancellations

#### DEEPAK PATEL

New Delhi, 6 June

About 7.5 per cent daily flights to and from the Delhi airport will be cancelled between June 15 and September 15 as one of its four runways undergoes an upgrade, Delhi International Airport Limited (DIAL) Chief Executive Officer (CEO) Videh Kumar Jaipuriar said on

GMR Group-led DIAL operates the Delhi airport, which is the largest in the country.

"The Delhi airport handles 1,450 aircraft movements per day. Of these, 114 daily movements will be cancelled during the runway upgrade," Jaipuriar said at a press conference.

"The number of cancellations will be in the range of 7-7.5 per cent, compared to the usual 3-4 per cent on a normal day. However, this time we have coordinated with airlines in advance and rescheduled flights accordingly, which will help reduce any cascading impact," he said.

Referring to a similar upgrade effort earlier this year, he added, "Last time, the lack of proper rescheduling led to cascading disruptions when wind patterns changed. This time, the impact on passengers will be much lower. Since they've been informed in advance, they will have enough time to rebook or make alternative arrangements.

The upgrade of runway 10/28 will include installing an instrument landing system (ILS) and make it compliant with CAT III-B operations. CAT III-B is a precision landing system that allows aircraft to land in very low visibility conditions, such as dense fog.

It was originally scheduled for April-May. However, unexpected changes in wind patterns during that time severely affected flight operations, causing delays.

As a result, the Ministry of Civil Aviation - on April 21- directed DIAL to postpone the upgrade and resume oper-

The airport will see flight cancellations between June 15 and September 15

ations on the runway. The runway was made operational again on May 6, and the upgrade was deferred to June 15-September 15.

The revised timeline was agreed upon by all airlines," Jaipuriar said.

Following this, airlines collaborated with DIAL to rework slot allocations and align with the revised arrival capacity.

"The objective was to ensure optimum use of available runway capacity while maintaining on-time performance," he added.

"During the fog season, the arrival capacity of all runways comes down due to safety concerns, as arriving aircraft have to be spaced out," Jaipuriar said.

"In case of westerly winds, arrivals drop from 42 per hour to 30 during CAT III-B operations. But with easterly winds, arrivals fall sharply from 42 per hour to just 15. Once the upgrade is complete, this number will go up to 30 even with easterly winds, significantly improving efficiency," he added.

Every hour of fog disruption takes

three hours for us to return to normal operations. This becomes much worse with easterly winds, where every hour of disruption takes six hours to recover. This impacts not just Delhi airport but also nearby ones.

Therefore, we decided to upgrade runway 10/28 and make it ready to handle CAT III-B flight operations," he said.

Jaipuriar also acknowledged the growing impact of changing weather conditions on airport operations.

'We are conducting a study as part of our climate change mitigation plan. This kind of erratic weather behaviour is increasing every year. Based on the findings, we will develop a mitigation strategy," he said.

## Akasa to launch over 100 weekly flights from Navi Mumbai airport

Akasa Air will start more than 100 weekly domestic flights from the upcoming Navi Mumbai International Airport (NMIA), expanding to more than 300 domestic and over 50 international weekly departures in the winter schedule, it said on Friday.

Akasa joins IndiGo in confirming its early commitment to NMIA.

"No airline in India will have a larger percentage of its fleet and operations based out of NMIA than Akasa Air," said Vinay Dube, founder and chief executive officer (CEO) of Akasa Air.

AAHL CEO Arun Bansal welcomed Akasa as an inaugural partner, stressing the airline's rapid growth and forward-looking approach.

## IndiGo may line up 30-50 ATR plane order in Paris

#### DEEPAK PATEL

New Delhi, 6 June

IndiGo, India's largest airline, is likely to place an order for 30 to 50 ATR 72-600 turboprop aircraft during the Paris Air Show later this month, people familiar with the matter told Business Standard on Friday, The deal, if finalised with the Franco-Italian aircraft manufacturer ATR, could be valued between \$450 million and \$750 million, based on an estimated transaction price of around \$15 million per aircraft, they said.

Discussions between IndiGo and ATR for a new batch of aircraft have been ongoing since last year, the sources said. "The deal size could be increased from 50 planes to a larger number," a source added. Asked for comment, an ATR spokesperson told Business Standard: "It's best to ask IndiGo about its plans."

"What we can say is that ATR aircraft provide an outstanding value proposition for India's regional mobility needs, as demon-

strated by our 25-year presence and dominant market share in the country. With unparalleled fuel efficiency, versatility, and accessibility, our aircraft perfectly match India's need for sustainable, cost-

effective regional connectivity," the spokesperson added.

IndiGo did not respond to Business Standard's request for comment till the time of going to the press. Turn to Page 3 >

# Experts flag infra limitations at major airports as hurdle for ATR operations

The Indian carrier, which currently operates a fleet of about 46 ATR 72-600s, had earlier placed an order for 50 such aircraft in 2017 as part of a strategy to expand its regional footprint under the government's UDAN scheme to improve air connectivity to underserved towns. Four aircraft since have been sold or leased to other.

Deliveries under that contract were completed by early 2025.

The ATR 72-600 is a twinengine turboprop aircraft typically seating around 70 passengers. although IndiGo configures its planes in a high-density 78-seat layout. The aircraft is primarily deployed on short regional routes, with a range of about 1,370km.

"IndiGo has utilised the ATRs on all sorts of routes, from monopoly under regional connectivity scheme UDAN to some intra-metro high frequency ones in South India," said Ameya Joshi, aviation analyst and founder of the blog Network Thoughts. "The airline has also experimented with routes, some working well and some not continuing," he said.

The turboprop fleet enabled IndiGo to expand its network to smaller destinations such as Kolhapur, Kishangarh and Kadapa, which are not feasible for the airline's Airbus fleet, according to Joshi.

But he also flagged infrastructure limitations at major airports as a major hurdle for ATR operations. "One of the bigger challenges has been getting slots at Delhi or Mumbai for the ATR." he said. "The development of secondary airports — like Navi Mumbai and Jewar — could ease this constraint and support rapid network expansion. How much does the government incentivise going forward also needs to be seen."

Since 2023, IndiGo has placed several aircraft orders. Last Sunday, it announced an order for 30 additional Airbus A350 widebody planes, adding to its April 2024 order for 30 A350s, bringing its total widebody order to 60 aircraft. Deliveries will begin in 2027 and continue into the

next decade. These widebody planes, which have larger fuel tanks than narrow-body A320s, are key to IndiGo's long-haul expansion, targeting routes like India-US, India-Europe, and India-Australia to compete with Air India and Gulf carriers.

The recent widebody orders followed IndiGo's record-breaking June 2023 order for 500 Airbus A320neo family aircraft to boost its narrow-body fleet for domestic and short-haul

international operations. Airbus Chief Commercial Officer Benoit de Saint-Exupéry said on Sunday that IndiGo's total order book now stands at 1,400 aircraft, including these recent wide-body orders and earlier large-scale A320 family purchases over the past decade.

ATR is a joint venture between Airbus and the Italian aerospace group Leonardo, with each owning a 50 per cent stake in the manufacturer. IndiGo's current fleet stands at about 430 aircraft, comprising 46 ATR 72-600s, three leased widebody aircraft, and a mix of narrowbody Airbus planes.

The Paris Air Show, held biennially at Le Bourget near Paris, is one of the world's largest aerospace exhibitions, where major aircraft manufacturers and airlines announce new products, technologies, and commercial deals. This year's edition will take place from June 16 to 22.

#### Cement demand recovery remains vital as capacity surplus looms

The cement industry continues to suffer from weak der and and surplus capacity although Q4FY25 indicated a marginal improvement. Demand grew in low single-digits year-on-year (Y-o-Y) from April to May 2025 owing to unseasonal rains in certain parts of the unseasonal rains rectain pariso the country. Price hikes of ₹40 per bag in South India, in April 2025, were largely sustained before dropping by about ₹10-15 per bag this month. East India also saw a hike of ₹10-12 per bag during April-May 25, while

per oug during April-May 25, While other regions were flat. Average India prices are higher by 3 per cent quarter-on-quarter (Q-o-Q) and 4-5 per cent Y-o-Y in Q1FY26, highest in 18 months. Hence, margins may be sustained. The average profitability has been

between ₹ 700-900 per tonne (₹800 per tonne in FY2s) since FY11 with single-digit return on capital employed or RoCE while consolidation continues alongside capacity expansions. Management guidance for demand growth

agement guidance for demand growth in FY26 of most companies was in the range of 6-7 per cent.

The lagged impact of fuel price hikes of 350-100 per tonne during January-April will be seen in H1FY26 given inventory with higher exposure to petcoke usage had a bigger impact. However, the recent decline in fuel prices with prices back to pre-January 2023 levels may ease costs in H2FY26. Average operating profit per tonne

Average operating profit per tonne for some companies may rise from \$850 per tonne in FY25 to \$1,070 per tonne in FY26 given the cost efficiencies and higher realisation.

Early monsoon and demand weak-

ness may lead to some downwards pressure on prices. Given the policy focus on infra and housing projects, and better rural demand, volume growth of 6-7 per cent is expected.

now7 per cent lower than the average price in Q4FY25. In Q4FY25, manage-ment commentaries suggested sustainable cost savings potential of ₹150-200 per tonne through FY26 and FY27.

The aggregate operating profit of large listed companies grew by double-digits Y-o-Y with operating profit per tonne rising by 30 per cent Q-o-Q to ₹1,099 per tonne.

₹1,099 per tonne.
The average Q1FY26 cement spread is at ₹2,652 per tonne, up ₹171 per tonne Q-o-Q, as prices have increased Q-o-Q. If global fuel costs remain stable or trend down, this is a positive for the

cement industry. Volume growth may improve slightly with an annual growth of7 per cent over FY25-27 versus 4 per cent over the past decade and com-panies have adopted sustainable cost saving measures to reduce operating

expenditure such as reducing thermal consumption and increasing green power. In FY25, the cement industry ended with a capacity of about 655 million tonnes per annum (mtpa), up 4.8 per cent Y-o-Y.

Companies like Ultratech, and JK Cement saw volume growth of 16.9 per cent and 14.6 per cent Y-o-Y respectively owing to demand bounce and newly acquired assets. Ambuja also grew volacquired assets. Amouja aiso grew voi-umes by 127 per cent while Ramco (down 5.3 per cent) vere disap-pointing. Realisations were down 3.4 per cent Y-o-Y and 1.9 per cent sequen-

per cent 17-0's and 19 per cent sequen-tially in Q4FY2S.

Operating profit per tonne has wit-nessed a decrease of 2.5 per cent over Q4FY24 but a 5.8 per cent sequential rise as marginal fall in power & fuel costs and other operating expenditure shored

up margins, Dalmia Bharat (up 24.1 per the margins. Damia Sharat (up 24.1 per cent) and JK Cement (up 17.4 per cent) witnessed the sharpest recovery in operating profit per tonne. Energy costs have declined by 11–12

Energy costs nave declined oy 11-12 per cent in January due to soft coal and Brent crude prices. Price hikes in April-May '25 could not be fully sustained. Government capex accelerated towards the year-end, reviving construction activity. If consolidation completes,

activity. It consolution compietes, there could be better price discipline leading to a more profitable cycle. Monsoon may lead to some demand softness and delays in project activity. In H2FY26, commissioning of new 60 mtpa capacity may be completed and that could lead to surplus over demand unless activity picks up strongly, Inves-tors should remain selective with ana-lysts recommending Ultratech, Shree Cement, Ambuja and JK Cement.

## Akasa lines up 15 daily flights from Navi Mumbai airport

SWARAJ BAGGONKAR Mumbai, June 6

AKASAAIR AND Adani Airport Holdings (AAHL) have signed an agreement to commence commercial flight operations from the upcoming Navi Mumbai International Airport (NMIA).

The airline will start operations with 15 flight departures a day and by the winter schedule, it expects to move to 40 domestic departures and about 8-10 international departures, said Vinay Dube, founder and CEO, Akasa Air.

Between the Mumbai airport, where the airline has close to 32 departures, and the Navi Mumbai airport, it expects to have 75-80 departures.

While AAHL has not provided a date yet for the opening of NMIA, the operator, which is the second largest in the country (in terms of passengers serviced), had announced a similar partnership with IndiGo for starting commercial flight operations last month.

"The dates are fluid. We are working with NMIA to see what those dates are. The information that we have been provided for the launch (of the airport) date is the end of August," Dube said.

"No airline in India will have a larger percentage of its fleet and operations based out of NMIA than Akasa Air. This move supports our commit-

"There will be a set of per-

ment to supplement existing capacities, unlock new demand centres, and enable sustainable growth," Dube added.

There will be no immediate increase in the number of destinations that Akasa connects presently after starting operations at NMIA. The airline connects 28 destinations, including five international destinations.

Akasa will start undertaking bookings for flying to and from NMIA only after AAHL completes all the approvals, following which the flying schedule will be filed.

Akasa did not specify if there will be a difference in cost for it to operate from NMIA compared to the Mumbai airport. "There will be a set of permissions that will be required before we can start constructing elements of our back office that are required along the check-in area or to house certain maintenance spares that we may have, as we do in every other airport," Dube added.

Akasa Air also announced it will operate over 100 weekly domestic departures initially, scaling up to more than 300 domestic and over 50 international departures weekly in the winter schedule.

As part of its broader network strategy, the airline is also set to ramp up to 10 parking bases by the end of FY27, with a focused international expansion into key West Asian and Southeast Asian markets.

## Delhi airport to cancel 114 flights for 3 months

NITIN KUMAR New Delhi, June 6

ABOUT 114 DAILY flights to and from Delhi Airport will be cancelled between June 15 and September 15 this year, as one of its four runways undergoes an upgrade, Delhi International Airport (DIAL) CEOVideh Kumar Jaipuriar said on Friday.

GMR Group-led DIAL operates Delhi Airport, the largest in the country. "The Delhi airport handles 1,450 aircraft movements per day. Out of these, 114 daily movements will be cancelled during the runway upgrade. Passengers will face inconvenience in the short term, but definitely stand to benefit in the long run," Jaipuriar said during a press conference.

As part of the exercise, DIAL will update the current ILS (instrument landing system), which is already out of order. DIAL will also make the runway CAT III-B is an advanced landing system that allows aircraft to land in extremely lowvisibility conditions.

He highlighted that this strategic runway overhaul will enhance winter operations, preventing delays during dense seasonal fog. He reassured that all schedule changes have been filed with the Directorate General of Civil Aviation (DGCA), ensuring minimal passenger inconvenience.

To prevent cascading delays, a new slot plan has been finalised after multiple rounds of discussions with airlines, DGCA, air traffic control (ATC), and the Ministry of Civil Aviation. The runway closure coincides with the low travel season to avoid disruptions during the festive period rush.

During the three-month closure, arrival capacity will temporarily dip from 42 flights per hour to 32, impacting key sectors like Mumbai and Patna.

## Our lofty equity valuations are pure Bollywood

EVENTO SEASONED investment professionals, India's lofty equity valuations are a head-scratcher. How's a sell-side researcher to explain to a foreign institution that the country's cement makers are more than twice as expensive as their peers in every other major market? Building materials are just one example, though that's what analyst Sanjeev Prasad and his team at Kotak Institutional Equities picked to raise some provocative questions in a recent investor note, titled What the cement sector tells us about our industry.

They discussed the possible reasons for what they termed as "absolutely ridiculous" multiples. Those looking for short-term trading opportunities may not care about rational analysis from brokers as long as the prognosis is cheery enough to draw in other punters. And sure enough, as Prasad and his colleagues show, deep downgrades to upbeat earnings forecasts for the sector have been routine over the past decade. And this is when as a single-product, domestic industry, cement is relatively easy to analyse.

Alternatively, it could be that a section of the buy-side community is too heavily invested in its thesis - an underbuilt India eventually catching up to China in infrastructure and housing - to brook any challenge to its conviction that cement stocks will do well. Some investors I spoke to offered a pushback. It's possible, they say, that retail buyers are being guided not by optimistic forecasts, but by a parable - a memory from another industry.

Tycoon Mukesh Ambani entered telecom in 2016, bankrupted most of his competition, and only then allowed dirt-cheap data prices to rise. What if Gautam Adani, Asia's second-richest man behind Ambani, is pursuing the same strategy with con $struction\, materials? Including\, the\, acquisitions\, concluded\, and\, announced, 11\%\, of\, the$ country's installed cement capacity is changing hands over two years, a record pace of consolidation, according to CRISIL. Once Adani's challenge to market leader Kumar

Mangalam Birla cools, the sector will get back what it now lacks: pricing power.

For global asset managers, this may still not justify paying 33-34 times estimated earnings for Birla's Ultra-Tech Cement, or Adani's Ambuja Cements. Not when China's Anhui Conch Cement trades below a price-toearnings multiple of 10 in Hong Kong. For the domestic investor, though, no good story is too far-fetched. That puts those who deploy other people's money in a spot. Earlier in the year, Sankaran Naren at ICICI Prudential Asset Management raised a much-needed alarm over "absurd" valuations of small- and mid-cap shares. But just when it looked like a meaningful correction was underway, a new central bank chief opened the liquid-

ity floodgates. Since domestic mutual funds aren't allowed to invest freely in foreign stocks, their managers must take the deluge of cash coming their way (nearly \$50 bil-

lion over 12 months), and join the party. Elsewhere, it's technology that's helping investors overcome their fears of a global tradewar. In Hong Kong, they have opened their purse strings for \$5 billion-plus share sales by Xiaomi, BYD, and Contemporary Amperex Technology, this year's biggest listing worldwide. But hardly any Indian company is at the cutting edge of generative artificial intelligence or new-age transport solutions. Losses and troubles are mounting at Ola Electric Mobility, with its shares having collapsed by two-thirds since August. Overseas institutions have also cut their ownership of India's largest companies to a 15-year low. Yet such is the local investor's fear of missing out that even unlisted shares of a humdrum capital-market utility are being pitched in the informal market at around 70 times earnings.

That brings us back to cement: If the investment industry can prop up a sector that's slow to garner revenue from clunky assets, and mediocre when it comes to earning a return on equity, then it can surely drum up a much higher level of excitement around businesses that are more amenable to storytelling, such as defence? Sure enough, following the recent military clash between India and Pakistan, the sector is trading at a price-to-earnings multiple of around 50.

More than excess liquidity, it's the stories that are driving India's lofty valuations. Some of them may be easier to follow. Others may have convoluted plots. But all of them have Bollywood-style happy endings.

# अकासा एयर नवी मुंबई से शुरू करेगी 100 से अधिक साप्ताहिक उडानें

दीपक पटेल नई दिल्ली, 6 जून

अकासा एयर नए बनने वाले नवी मुंबई इंटरनैशनल एयरपोर्ट (एनएमआईए) से 100 से ज्यादा साप्ताहिक घरेलू उड़ानें शुरू करेगी और सर्दियों के समय उड़ानों की साप्ताहिक घरेलू संख्या बढ़कर 300 से अधिक और विदेशी उड़ानों की संख्या 50 से अधिक हो जाएगी। विमानन कंपनी ने शुक्रवार को यह जानकारी दी।

इंडिगो की तरह अकासा ने भी नवी मुंबई इंटरनैशनल एयरपोर्ट के प्रति अपनी शुरुआती प्रतिबद्धता की पुष्टि की है। कुछ ही दिन पहले इंडिगो ने कहा था कि वह एनएमआईए से 15 से अधिक शहरों के लिए 18 दैनिक उड़ानों के साथ परिचालन शुरू करेगी और उसका लक्ष्य नवंबर 2025 तक 79 उड़ान तथा मार्च 2026 तक 100 से अधिक उड़ान करना है।

मुंबई का पुराना हवाईअड्डा और नवी मुंबई इंटरनैशनल एयरपोर्ट दोनों ही अदाणी एयरपोर्ट होल्डिंग्स लिमिटेड (एएएचएल) के अंतर्गत आते हैं। उम्मीद की जा रही है कि नवी मुंबई हवाईअड्डा अगले कुछ

महीनों में परिचालन शुरू कर देगा। एएएचएल के मुख्य कार्याधिकारी अरुण बंसल ने अकासा के तीव्र विकास और दूरदर्शी दृष्टिकोण पर जोर देते हुए विमानन कंपनी का उद्घाटन भागीदार के रूप में स्वागत किया।

नवी मुंबई हवाईअड्डे को मुंबई के मौजूदा हवाईअड्डे पर भीड़भाड़ कम करने के लिए डिजाइन किया गया है। यह अपने पहले चरण में सालाना आधार पर दो करोड़ यात्रियों और 50 लाख टन कार्गों को संभालेगा।

यात्री यातायात को बढ़ावा देने के अलावा अकासा ने साल 2026-27 तक एनएमआईए में 10 विमान पार्किंग बेस स्थापित करने और प श्चिमी एशिया तथा दक्षिण पूर्व एशिया की दिशा में अपने अंतरराष्ट्रीय विस्तार को आगे बढ़ाने की योजना बनाई है।

#### Pay ₹5k or miss flight, Akasa tells minor sisters

Carrier Declines UPI, Insists On Cash Payment As 'Unaccompanied Minor Fee'

Tamaghna.Banerjee @timesofindia.com

Kolkata: A Kolkata-Ahmedabad flight turned into a nightmare for two sisters, Mahira (9) and Manyata (17), after airline ground staff asked them to pay Rs 5,000 in cash for the 'unaccompanied minor fees' for the nine-year-old girl or risk missing the flight. The airline claimed the 17-year-old couldn't qualify as an adult as she was yet to be 18.

They were scheduled to board Akasa Airlines flight QP 1926 to Ahmedabad, where their mother awaited them. However, the journey took a traumatic turn at the airline's check-in counter.

There were two cousins of the young girls who were flying on a separate airline but were checking in around the same time and had offered to pay the money through UPI. However, the airline staff demanded the money in cash, claiming the counter was closed and that no QR code could be generated. The kids finally managed to pool in funds and

pay up, after which they were allowed to board.

In India, some airlines charge an 'unaccompanied minor fee' for children aged between five and 12 years on the date of travel for certain, assistance services from the airline crew. A parent or guardian is required to complete a signed 'unaccompanied' minor form' at the point of checkin. The form must include the name and contact numbers of the parent or guardian (above

the age of 18) who will meet the unaccompanied minor at the point of arrival.

In this case, the family said no documentation or written policy was provided to support this claim. At the Ahmedabad airport, there was reportedly no ID verification of the receiving parent, further contradicting the rationale for the fee, the family alleged.

TOI reached out to Akasa, who was yet to send a response till late on Friday. "They were simply told to pay or miss the flight," said the girls' mother, Shalini Dugar. "There was no explanation, no breakdown of charges, and no receipt till the time my elder daughter insisted."

According to the family,

the two, along with their cousins—both aged 21—were returning from a vacation in Nepal. They came to Kolkata by train and stayed at their grandmother's place for a night. They were to board the flight back home to Ahmedabad on Wednesday, where Shalini was supposed to pick them up.

"At the time of booking, we were never told about the unaccompanied minor fee. In fact, kids above 12 years are shown as adults on the booking page. They previously flew to Bagdogra from Ahmedabad with the same airline on April 26, where no fee was sought. When the kids told them they didn't have additional money, they refused to issue a

boarding pass. The cousins, who had finished check-in, intervened and attempted to resolve the issue by offering UPI payment. But the airline refused, claiming a QR code couldn't be generated," said Pearl Choradia, the girls' aunt.

Under duress, the kids finally paid the money by pooling in funds, after which a boarding pass was issued for Mahira. "We have no problem in
paying the fee if it's legitimate
and announced in advance at
the time of booking. But we demand an explanation, apology,
refund, and disciplinary action against the staff who caused emotional distress and
trauma to my daughters," said
Shalini, who lost her husband
a year and a half ago.

Family members said because of the family circumstances, the children gathered the courage to travel without their mother. "It was a decision born out of necessity and resilience. However, the traumatic experience they faced has left them deeply shaken," Choradia added.

Lonavala's scenic hills welcome a new era of luxe living

Amarja Hills: A harmonious blend of privacy and

a ccording to a recent study, high-net-worth individuals (HNIs) are increasingly gravitating towards investing in farmlands and farm houses. Amarja Hills by Nanak Properties Pvt. Ltd., located at Pawna near Lonavala, meets the rising demand by offering options to own farmland, luxury villas and more.

LUXURY LIFESTYLE OPTIONS Enveloped in the lush greenery of the Sahyadri hills and idyllic tranquillity of Pawna lake, this upscale project sits on a 350-acre land that delivers splen-

did views, a harmonious atmosphere and absolute privacy. Located an hour away from the upcoming Navi Mumbai International Airport (NMIA), Amarja Hills introduces a world of exclusivity, which even includes a helipad. A spokesperson of Nanak Properties Pvt. Lid. says, "The project offers luxury lifestyle options, which include a villa plot, a farmhouse made from a Russian wooden log-house exclusively imported from Russia, Log-houses have a lifespan of almost 100 years, and these can be ready-to-move-in within a

span of six months with a pre-fab wooden house with a thickness of 200mm. A few villas are fully con-structed, ready to move in and equipped with necessary amenities. The project has a well-thought-out lay-out, with lots of natural light, fine ar-chitectural features and quality finish-es throughout."

Take, for instance, the Russian Izba House. Spread over a minimum one-acre land area, it promises a refined lifestyle in a spacious villa with a configuration of 10,000 sq. ft along with a parking facility against the backdrop of nature. The collection features an array of architectural styles and layouts, each tailored to meet the prefer-

ences of buyers. From expansive living spaces, stunning landscape and highend amenities like private swimming pool, jacuzzi and home theatre, every detail has been thoughtfully curated to enhance the luxe living experience.

RELAXED LIFESTYLE

Distinguished by the beauty and simplicity of its clean architectural lines and aesthetic style, the project is both effortlessly elegant and comfortably liveable. Vast glass panes, dazzling wall finishes and an uncluttered look create a polished and airy living space. Every detail of the clean-lined flowing spaces is designed to invite seamless continuity between indoor and outdoor living.

Adds the spokesperson, "The independent villas flaunt an impecable contemporary design. The project offers a stylistically perfected living space while the sun-flooded master bedrooms are well-suited to refined living. The airy open-plan layout enjoys an effortlessly integrated lounge and

dining area. These villas perfectly cap-ture the essence of relaxed lifestyle liv-ing in carefully integrated outdoor spaces that are aesthetically pleasing. The landscaped garden provides out-door living and entertaining possibili-ties. Designed to provide a stylish, in-viting and contemporary sanctuary, this luxury project features an appeal-ing blend of sleek modernity, timeless comfort and natural har mony."

Paving the way for a better tomorrow

Nanak Properties' luxury gated estates have ushered in a new era of extravagance. "We have created worlds of undeniable grandeur where one is surrounded by the finest materials, high-end amenities and a lifestyle crafted for those who appreciate the finer things in life. The project is already drawing interest from both investors and HNIS, includ industrialists, who recognise the intrinsic value of a privileged collection elite homes. For the global citizen, who is used to plush locales the world over, Amaria Hills by Nanok Properties Pvt. Ltd. at Lonavala offers the sexacting international standards."

### Airport gets L-4 accreditation for user experience

Ahmedabad: The Sardar Vallabhbhai Patel International (SVPI) airport, Ahmedabad, announced on Friday that it received Level-4 accreditation by the Airports Council International (ACI) for improved customer experience.

This recognition places SVPI airport among a select group of airports globally and third in India for enhanced customer experience. The accreditation evaluates multiple parameters, including airport culture, governance, operational improvement, measurement, customer strategy, and customer understanding.

Key initiatives behind the accreditation include the digitisation of SOPs, the launch of Digi Yatra, selfbaggage drop and increasing baggage handling from 600 to 1,600 bags per hour. TNN

## Akasa Air unveils flight plan for Navi Mum airport

Mumbai/New Delhi: Akasa Air will operate flights from day one of the opening of the Navi Mumbai International Airport (NMIA). The airport is likely to start opemations from the end of Au-

rations from the end of Aug.

The airline will start with 15 daily domestic flights and increase the number to over 40 domestic plus 8-10 international flights by next summer, said Akasa founder-CEO Vinay Dube and co-founder and chief commercial officer Praveen Iyer on Friday "Between our 32 daily flights at Mumbal CSMIA and NMIA, we will have over 80 daily flights (both domestic and international) by next summer from the Mumbal Metropolitan Region. By the financial year 2027, we will have 10 aircraft based at NMIA, "said Iyer.

Akasa will operate over 100 weekly domestic departures initially scaling up to over 300 domestic and 50 international departures weekly in the winter schedule, the airline said in a press statement. The winter schedule runs from the end of Oct to the end of March. "As part of its broader network strategy, the airline is also set to ramp up to 10 parking bases by the end of FY2027, with a focused international expansion into key Middle Eastern and Southeast Asian markets," it added.

Last month, IndiGo beca.

Last month, IndiGo became the first airline to announce flights from the new airport with a total of 36 domestic departure and arrival flights connecting 15 cities from day one. By Nov, IndiGo will raise its flight frequency to 79 daily departures (158 flightsper day, including arrivals). These will include 14 international departures, the airline said.

Meanwhile, the Mumbai airport, which handles about 920 flights a day will continue to handle both domestic and international flights.

In phase 1, NMIA will handle 20 million passengers and 0.5 million metric tonnes of cargo annually, with ultimate capacity expanding to 90 million passengers and 3.2 MMT of cargo in the final phase. TNN

## Three-Month Runway Closure At IGI May Impact 200 Flights Daily

Upgrade To Benefit Flyers In Fog Season When Visibility Goes Down Considerably

Priyangi Agarwal & Ananya Neel Mani | TNN

New Delhi: Flight operations will be impacted at Indira Gandhi International Airport when runway 10/28 is closed from June 15 to Sept 15 for upgradation. However, airport operator Delhi International Airport Limited clarified that only around 200 flights could be impacted daily. It has coordinated with airlines to reschedule 86 flights every day after cancelling 114 daily arrivals or departures during the period.

DIALCEO Videh Kumar Jaipuriar said on Friday that the upgradation work was likely to take around three months but would eventually benefit flyers in the fog season when visibility is reduced considerably.

The runway is being closed to make it CAT-IIIB compliant to facilitate operations during dense fog in Delhi's winter. It was first closed for upgrades in April and May, but caused delays of hundreds of daily flights. Worsened by prevalence of easterly winds, which lowered the hourly landing capacity from 42 to 32 flights per hour, the runway had to be reopened to facilitate peak season flights.

Delhi airport operates with four runways: 27/9, 10/28, 29R/11L and 29L/11R. DIAL said when runway 10/28 remains closed, runway 29R/11L will handle departures, 29L/11R will manage arrivals and runway 27/9 will serve both arriving and departing flights. During westerly winds, the three remaining runways can accommo-

date 42 arrivals and 42 departures per hour. However, when easterly winds prevail, the departure capacity remains at 42 per hour while the arrival capacity reduces to 32 per hour.

Jaipuriar said Delhi airport handled around 1,450 flights daily of which around 7.5% could be cancelled in the affected period. Normally, the airport sees an average of 3.5% cancellations. "It is just a little bit more than the normal average. It will not significantly disrupt the ope rations," Jaipuriar said. He said after consultation with all stakeholders, more flights have been shifted from peak hours to non-peak hours. "The difference is that the last time, we did not re-schedule the flights, and there were delays due to the cascading effect," said Jaipuriar.

DIAL earlier said that during peak fog season, only 15 flights landed every hour on the only CAT-3B compliant runway, but this upgradation work would double that number.

DIAL said flights from big airports wouldn't face a major impact. For instance, the number of arrivals from Mumbai would only reduce from 56 to 54 per day and from Bengaluru, 38 to 36 daily. "The same flights that arrive at an airport fly back. Hence the same number of departures are impacted," Jaipuriar explained.

Jaipuriar revealed that every hour of fog disruption took over three subsequent hours for operations to become normal because of safety issues because the space between two flights had to be maintained at a specific level.

DIAL earlier said that during peak fog season, only 15 flights landed every hour on the only CAT-3B compliant runway, but this upgradation work would double that number.

DIAL said flights from big airports wouldn't face a major impact. For instance, the number of arrivals from Mumbai would only reduce from 56 to 54 per day and from Bengaluru, 38 to 36 daily. "The same flights that arrive at an airport fly back. Hence the same number of departures are impacted," Jaipuriar explained.

Jaipuriar revealed that every hour of fog disruption took over three subsequent hours for operations to become normal because of safety issues because the space between two flights had to be maintained at a specific level.

## Fork out ₹5,000 or miss flight, airline tells sisters, 9 & 17, as both are minors

#### Airline Insists On Cash Payment As 'Unaccompanied Minor Fee'

Tamaghna.Banerjee @timesofindia.com

Kolkata: A Kolkata-Ahmedabad flight turned into a nightmare for two sisters, Mahira (9) and Manyata (17), after airline ground staff demanded Rs 5,000 in cash as an "unaccompanied minor fee" for the younger girl, warning that failure to pay would result in them missing the flight. The airline claimed the 17-yearold didn't qualify as an adult as she had not yet turned 18.

The sisters were scheduled to board Akasa Airlines flight QP 1926 to Ahmedabad, where their mother awaited them. But at the check-in counter, the journey took a distressing turn.

Two of their cousins — both aged 21 — were flying a separate airline but were checking in around the same time and offered to pay the fee through UPI. However, airline staff allegedly insisted on a cash payment, saying the counter was closed and no QR code could be generated. The children managed to pool in funds and pay, after which they were allowed to board.

assistance services. The policy requires a parent or guardian above 18 to fill in an "unaccompanied minor form" at check-in, with contact details of the person receiving the child at the destination.

In this case, the family said no such documentation was provided, and at Ahmedabad, there was no ID verification of the receiving parent, further undermining the rationale behind the fee.

TOI reached out to Akasa for a response, but none was received till the time of going to press. "They were simply told to pay or miss the flight," said the girls' mother, Shalini Dugar. "No explanation, no breakdown of charges, and no receipt was given until my elder daughter insisted."

The family said the girls had travelled from Nepal with their cousins, stayed a night in the West Bengal capital, and were flying home. "We don't mind paying a legitimate fee, but we deserve an explanation, an apology, a refund and action against those responsible for distressing the children," Shalini added.

#### BIZMAN WHO TIPPED CUSTOMS OFF ATTACKED IN MAZGAON

MUMBAI: A businessman from Mazgaon was attacked by unknown people on Thursday, purportedly because his tip-offs about illegal smuggling rackets operating out of Chhatrapati Shivaji Maharaj International Airport (CSMIA) resulted in several arrests by the Customs department.

Motorists on the Bhagwan Adinath Road in Mazgaon alerted the Byculla police on Thursday evening of a group attacking a man who laid in his blood. The victim was identified as Mohammed Aslam Patel. Constable Uday Vichare said Patel suffered grievous head injuries. There was also an iron rod lying next to him, he added.

Patel was rushed to the JJ Hospital from where he was shifted to the Saifee Hospital. "We have been told that he gave a tip-off about people who smuggled cosmetics and gold from foreign countries. Based on this, the Customs department seized goods and made arrests," said a police officer. The accused allegedly hired a contract killer. The police are tracing the accused through CCTV cameras.

#### AKASA AIR ALSO ANNOUNCES FLIGHT OPS FROM NAVI AIRPORT

MUMBAI: Akasa Air on Friday said it is set to begin commercial flight operations from the upcoming Navi Mumbai International Airport (NMIA). The decision came a week after IndiGo's announcement to launch flights from NMIA.

Initially, the airline will operate over 100 domestic departures per week and will increase the number to over 300 domestic departures and over 50 international departures per week in the winters.

In an attempt to broaden its network, the airline is also set to increase its parking capacity to 10 bases by the end of financial year 2027. Their focus is on international expansion into key Middle Eastern and Southeast Asian markets.

Vinay Dube, founder and CEO, Akasa Air said, "Our foray into NMIA is a strategic step aligned with Akasa Air's longterm vision to build a futureready airline."

KOCHI: The work on extracting marine diesel and furnace oil from the fuel tanks of the sunken Liberia-flagged cargo vessel MSC ELSA 3 will begin on June 9, a senior shipping official said on Friday.

The cargo vessel, on its way to Kochi port from the Vizhinjam International Seaport, had developed a 26-degree starboard list and subsequently sank around 14.5 nautical miles off the Kerala coast on the morning of May 25. While the 24 foreign crew members onboard were rescued in a joint operation by the Indian Navy and the Indian Coast Guard (ICG), the incident triggered fears of an oil spill.

A senior shipping official, who did not wish to be named, said a team of expert deep-sea diving personnel are slated to advance to the region where the ship sank on June 9 and begin operations on extracting the fuel.

"The priority right now is to plug the leaks, if any, of the oil and diesel from the tanks and ensure that it does not spill into the sea. If it leaks, the oil will corrode, resulting in damage to the marine environment," the official said.

"First, the leaks will be plugged and later the oil will be taken out. The fuel tanks are punctured and the oil extracted. It's a complicated process for which proper protocol has to be followed."

According to a defence ministry statement after the vessel's capsizing, the ship had 84.44 metric tonnes of diesel and 367.1 metric tonnes of furnace oil in its tanks.

The diving vessel to be used in the operation has already reached Kochi, the official said. "The deadline for removing the fuel and oil from the ship is July 3. We are confident we can do it," he said.

KOCHI: The work on extracting the marine diesel and furnace oil from the fuel tanks of the sunken Liberia-flagged cargo vessel MSC ELSA 3 will begin on June 9, a senior shipping official said on Friday.

The cargo vessel, on its way to Kochí port from the Vizhinjam International Seaport, had developed a 26-degree starboard list and subsequently sank around 14.5 nautical miles from the Kerala coast on the morning of May 25. While all the 24 foreign crew members were rescued in joint operations by the Indian Navy and the Indian Coast Guard (ICG), dozens of containers from among the 643 onboard the vessel were scattered in the sea. Over 50 of them, mostly empty, have since then drifted to Kerala's coast. At least 12 containers, filled with dangerous goods such as calcium carbide, and another filled with rubber chemicals continue to be under the sea, along with the ship's debris.

The senior official, who did not want to be named, said a team of expert deep-sea diving personnel are slated to advance to the region where the ship sank on Monday and begin operations on extract the fuels.

leaks will be plugged and later the oil will be taken out. The fuel tanks are punctured and the oil extracted. It's a complicated process for which proper protocol has to be followed," the official, based in Mumbai, said.

According to a defence ministry statement, the ship was loaded with 84.44 MT of diesel and 367.1 MT of furnace oil.

The diving vessel, he said, has already reached Kochi and the personnel, armed with all the gear, will move towards the ship capsize region on June 9. "The deadline for removing the fuel and oil from the ship is July 3. We are confident we can do it," he said.

The shipping official confirmed that the capsized vessel is currently in the Arabian Sea at a depth of 51 metres and that its

GPS coordinates were confirmed through sonar surveys by a preliminary assessment team. The containers, many still held in the cargo hold of the ship and others which have sunk, are within a 1-kilometre radius where fishing operations are currently prohibited. He said the current location of the ship below the sea and its debris do not pose obstacles to the movement of other shipping vessels.

"The removal of the ship and the containers will take more time. The work will start only after the monsoon," the official said, underlining that the oil spill following the capsizing of the vessel has been completely han-

Captain Jamal Afsal Rahman, who was the commanding officer of the initial team which visited the spot last week to assess the ship's location and condition, had said that if the heavy fuel oil (HFO) from the vessel tank were to leak out into the sea, it would be a "disaster".

"The HFO is just like tar. This tar is heated and used as oil in the vessel. If it comes out into the sea, it can become small, small particles and drift towards the coast. It will result in severe obstacles for tourism, fishing and even general movement of boats," Rahman was quoted telling a local media platform.

He said the extraction of the HFO and the diesel from the ship should be the urgent concern of the authorities, followed by the clearing of the ship's debris and the containers.

While a salvage firm known as T&T Salvage has been appointed to deal with the ship debris and the containers, it has been on standby due to inclement weather over the past week and the need to extract the fuel.

Senior shipping and Mercantile Marine Department (MMD) officials had told reporters last week that of the 13 containers loaded with hazardous substances, five were on the deck and the others in the cargo hold. The calcium carbide is located within 200-litre drums inside the containers and are reported to be stable.

#### Place in public domain details of cargo in vessel: Kerala HC to state

On Thursday, the Kerala high court had asked the state to place in public domain, through its website, the details of the cargo loaded on the vessel and the impact it could have on the marine environment.

The division bench of chief justice Nitin Jamdar and justice Basant Balaji directed the government to inform if such an information has been relayed through its website. The directions came in response to a writ petiton filed by Congress leader and former MP TN Prathapan.

As per the list of inventory released by the state government, the cargo vessel was carrying cashew nuts, Brazil nuts and coconuts. Among other items were cotton, plastic pellets used in the manufacture of plastic products, green tea bags, newsprint, art boards, dried leguminous vegetables and cinnamon.

NEW DELHI: Delhi's Indira Gandhi International (IGI) airport will cancel 114 flights daily and reschedule another 86 during a three-month runway closure from June 15 to September 15, airport operator Delhi International Airport Limited (DIAL) announced on Friday.

The plan, developed after detailed deliberations with airlines and other stakeholders, aims to prevent a repeat of the widespread chaos that erupted in April when the same runway maintenance work was attempted without adequate coordination.

The airport typically handles close to 1,450 flights daily, meaning around 7.8% of all flights will be cancelled on a daily basis—marginally above the typical 3-4% daily flight cancellations. "So this is just marginally above average," DIAL CEO Videh Kumar Jaipuriar said. He said, "We are better prepared now for this exercise."

NEW DELHI: Delhi's Indira Gandhi International (IGI) airport will cancel 114 flights daily and reschedule another 86 during a three-month runway closure from June 15 to September 15, airport operator Delhi International Airport Limited (DIAL) announced on Friday.

The plan, developed after detailed deliberations with airlines and other stakeholders, aims to prevent a repeat of the widespread chaos that erupted in April when the same runway maintenance work was attempted without adequate coordination.

coordination.
DIAL said that while it has rescheduled 86 flights to non-peak hours, Il4 flights (57 arrivals and 57 departures) will be cancelled daily when runway 28/10 undergoes upgradation work to make it CAT-IIIB compliant for the upcoming fog season.

"We are better prepared now for this exercise and detailed deliberations and stakeholder consultations were held in the last few weeks." DIAL chief executive officer Videh Kumar Jaipuriar said on Friday, acknowledging that these adjustments were not made previously, which led to the April chaos.

The first attempt to upgrade runway 28/10 in April had to be aborted within four weeks after flight schedules descended into chaos. The airport became unable to handle its daily load of flights, a situation made worse due to unseasonably high spells of easterly winds, which reduced the hourly arrival rate from 42 flights per hour to 32 flights per hour.

The month of May is regarded as the peak of the summer season, including vacation travel, followed by travel surges in the pre-winter and winter months that feature a number of festivals and the wedding season.

"For every one hour where flights are delayed, it takes three hours for the flight schedule to become normal, as there is a cascading effect on the remaining schedule," Jaipuriar explained, highlighting why proactive cancellations are necessary this time.

meaning around 7.8% of all flights will be cancelled on a daily basis—marginally above the typical 3-4% daily flight cancellations. "So this is just marginally above average," Jaipuriar said.

The plan involves shifting more flights from peak hours to non-peak hours to reduce possible impact during the closure period. "Earlier, we were seeing only 25-26 flights landing in some off-peak hours," Jaipuriar said, explaining how better distribution of flight movements will help manage the constraints.

easterly winds scenario. DIAL said flights from major airports have not been impacted significantly, with only a 4-8% reduction in daily flights.

For Mumbal, arrivals will decrease from 56 to 54; for Kolkata, from 22 to 21; for Ahmedabad, from 21 to 19; for Bengaluru, from 38 to 36; for Chennai, from 20 to 19; and for Patna, from 13 to 12.

Patna, from 13 to 12.
"The same flights that arrive at an airport depart back, so the same number of departures are also impacted," Jaipuriar explained.

Runway 28/10 requires closure for two key works: making it CAT-IIIB compliant so flights can land in very dense fog spells, and upgrading the existing Instrument Landing System (ILS).

"Even if it finishes by September 15, work will be done before the festive season starts. Ultimately, it will benefit fliers in the fog season, when visibility becomes extremely low," Jaipuriar said.

Currently, during peak fog conditions, only 15 flights can land every hour on the airport's only CAT-III B compliant runway. This upgrade work will allow 30 flights to land every hour, significantly improving winter operations when Delhi's dense fog typically causes widespread flight delays.

DIAL said it shared a slot adjustment plan with airlines on April 25, with airlines providing feedback in the first and second weeks of May. The finalised slots and plan were submitted to the ministry on May 22 and subsequently to the Directorate General of Civil Aviation, which evaluated and approved the plan.

### Akasa Air to operate flights from Navi Mumbai from 'Day One'

#### SIDDHANT KONDUSKAR & SUKALP SHARMA

MUMBAI, NEW DELHI, JUNE 6

INDIA'S YOUNGEST major airline Akasa Air announced Friday that it will be operating flights from the upcoming Navi Mumbai International Airport (NMIA) from 'day one' of the airport's commercial operations, which are likely to start from Augustend. The carrier plans to start operations at the new airport with 15 domestic flights a day or over 100 flights a week and scale up the operations to over 300 domestic flights and 50 international flights a week in this year's winter schedule.

This will take the number of daily flights to over 80 cumulatively for the Mumbai and Navi Mumbai airports. Akasa Air currently operates 32 daily flights from the slot-constrained Mumbai airport and does not plan to move any flights to NMIA.

The airline and Adani Airport Holdings Ltd (AAHL)—operator of NMIA—on Friday announced a strategic partnership for commencement of the carrier's flight operations from the greenfield airport, which will be the second airport serving the Mumbai Metropolitan Region and nearby areas. The announcement comes a few days after India's

largest airline IndiGo announced that it will launch operations from NMIA from day one of the airport's commercial operations with 18 daily flights to more than 15 cities, which will be scaled up over the coming months.

According to the Akasa Air's co-founder and chief commercial officer Praveen lyer, the carrier will continue to operate at both airports and sees the NMIA as an extension or proxy to the capacity-constrained Mumbai airport as there is massive overlap in the catchment areas of both these airports, and at the same time, some specific catchment areas as well. This effectively means that Akasa Air will also have a major overlap in terms of the destinations served from both airports in the short and medium-term. The airline has no plans in the foreseeable future to divide operations between the two airports based on the geography of destinations.

"In the short term, I don't see very many unique destinations created out of Navi Mumbai versus Mumbai. But in the medium to long term...certainly you're looking at multiple options," lyer said in response to a question from The Indian Express during a call with reporters.

As part of its broader network strategy, the airline is also set to ramp up to 10 parking bases by the end of financial year 2027, with a focused international expansion into key Middle Eastern and Southeast Asian markets.

"No airline in India will have a larger percentage of its fleet and operations based out of NMIA than Akasa Air. Enhanced connectivity from Navi Mumbai will not only strengthen our network in the western region but also help fuel India's economic engine by improving connectivity, stimulating regional development, and ensuring that the benefits of aviation-led growth reach every corner of the country," said Vinay Dube, founder and CEO of Akasa Air.

During the initial phase, the NMIA will be able to process 20 million passengers and 0.5 million tonnes of freight per annum. In due course of time, it is likely to expand to a capacity of 90 million passengers and 3.2 million tonnes of cargo every year.

AAHL CEO Arun Bansal said that Akasa Air's rapid growth and forward-looking approach makes the airline an ideal partner in NMIA's journey to becoming a key domestic and international hub. "Our collaboration aims to offer a seamless and enhanced travel experience for millions, with NMIA playing a central role in reshaping Mumbai's air connectivity ecosystem," Bansal said.

### Integrated water transport terminal to come up at Targhar

#### ALOK DESHPANDE

MUMBAI, JUNE 6

IN A bid to promote water transport between Mumbai and Navi Mumbai, apart from improving the connectivity to the upcoming Navi Mumbai International Airport (NMIA), the state government has prepared plans to set up an Integrated Inland Water Transport Terminal at Targhar village, which is at a distance of 1.2 kilometres from the upcoming airport at the southern bank of Panvel creek. The terminal will not only facilitate movement of passengers, visitors and employees, but also cargo between south Mumbai and Navi Mumbai.

Earlier this week, City and Industrial Development Corporation (CIDCO) made a presentation of the possible project site to Maharashtra's ports department. As per the presentation, the access to nearly 5 to 7 acres of the site will be made through a proposed coastal road and it will cross Amra Marg (a road near the airport) through an underpass and will reach via service road of Amra Marg. The project would require CRZ clearance. The said coastal road is 7km long (5.8 kilometres for the main alignment and 1.2 km for the airport link) and construction work is likely to be completed by September 2026.

CONTINUED ON PAGE 2

#### Integrated water transport terminal to come up at Targhar

As per the presentation, the distance via waterways to other inland water terminals in proximity to the proposed site is less than other modes of transport. The distance to Gateway of India and new ferry wharf via road is nearly 41 km and 37 km respectively while that via waterway is 24 km and 20 km. The Sassoon Docks and Yogayatan Port via road is 43 km and 24 km which via waterway is 26 km and 10 km, respectively. The proposed terminal also aims to connect Mandwa, Karanja and Rewas terminals which are at 81km, 35 km and 79 km via road. Using waterways, the distance will be reduced to 32 km, 30km and 32 km, respectively. With speed via waterways is 30-40 km per hour, the south Mumbai can be reached from the terminal within 30-40 minutes.

The estimated traffic forecast for the terminal is 1,270 passengers per day initially which is estimated to grow at 14,300 per day in 30-35 years. "Based on traffic forecast, there is demand for development of IWT at Targhar in

Navi Mumbai with development of international airport and integration between various modes of transport," said the official.

The proposed terminal will have 230 metres of water frontage with a capacity of 40 to 80 passenger boats. The Terminal Jetty Apron will have a 30 ft X 750 ft asphalt circulation area (225 square metres) with a large movable gangway for boarding ferries and vessels. A multi-use recreational area (14,000 square metres) will have seating arrangements for locals

and visitors. The Integrated Water Terminal Building (3,000 sq metres) is designed to accommodate peak traffic of 1,800 passengers per hour. The Ground Transportation Area (11,500 sq metres) includes a parking area for cars, taxis, buses and other vehicle circulation, pickup and drop-off facilities. It also has provision for movement of emergency vehicles and fuel ferries.

The proposed site was being used as a fabrication yard for storing construction material, which will need upgrading beThe distance via waterways to other inland water terminals is less than other modes of transport

fore becoming operational. The other terminals and shipyards near the site include Seawoods IWT terminal, rock and reef shipyard and Belapur creek wharf.

"It was a very primary presentation where the idea to promote water transport was discussed. We will get more inputs on this, discussions will be held, and further development of the project will take place," said an official from the CIDCO.

The Maharashtra Maritime Board (MMB) will oversee the construction of the terminal. Ports minister Nitesh Rane, after the meeting on Monday, had said he has directed the officials to prepare a formal proposal and initiate work on acquiring necessary permissions.

Low-cost carrier Akasa Air on Friday announced a tieup with Adani Airport Holdings Ltd. (AAHL) to operate from the conglomerate-run Navi Mumbai airport once it begins operations in late-August.

The city-headquartered airliner will have 15 domestic departures from the airport initially, which will go up to 50 by the end of the winter schedule, its founder and chief executive Vinay Dube said.

A few days ago, larger rival Indigo had announced a similar tie-up to operate from the new airport in the satellite city of Navi Mumbai.

NEW DELHI: Air India and Icelandair, on Monday announced their codeshare partnership, significantly boosting connectivity between India and Iceland, while offering seamless travel options across 15 routes in India and Europe.

The partnership offers seamless travel experience with convenient connections times, unified baggage allowances, and enhanced connectivity through major European hub airports.

Under the agreement, Air India customers will gain seamless access to Icelandair-operated flights to Reykjavik via Air India's European gateways. Air India will add its 'AI' designator code on Icelandair-operated flights between Reykjavik and London Heathrow, Lon-

don Gatwick, Frankfurt, Paris, Amsterdam, Copenhagen, Milan, and Zurich.

Icelandair customers will benefit from convenient connections on Air India-operated flights to key Indian cities. Icelandair will add its 'FI' designator code on Air India-operated flights between Delhi and Amsterdam, Paris, Copenhagen, Frankfurt, London Heathrow; and between Mumbai and Frankfurt, London Heathrow.

Akasa Air on Friday announced its partnership with Adani Airport Holdings Ltd (AAHL) to commence commercial flight operations from the upcoming Navi Mumbai International Airport (NMIA).

A joint statement said Akasa Air will initially operate 100+ weekly domestic departures, scaling up to 300+ domestic and over 50+ international departures weekly in the winter schedule.

As part of its broader network strategy, the airline is also set to ramp up to 10 parking bases by the end of

2026-27, with a focused international expansion into key Middle Eastern and Southeast Asian markets.

Recently, Indigo had also partnered with Adani Group for operating commercial flights from the newly built Navi Mumbai airport.

Vinay Dube, Founder and CEO, Akasa Air said: "Our foray into Navi Mumbai International Airport is a strategic step aligned with Akasa Air's long-term vision to build a future-ready airline that is responsive to the evolving needs of Indian travellers. No airline in India will have a larger percentage of its fleet and operations based out of NMIA than Akasa Air." "Enhanced connectivity from Navi Mumbai

will not only strengthen our network in the western region but also help fuel India's economic engine by improving connectivity, stimulating regional development, and ensuring that the benefits of aviation-led growth reach every corner of the country. This move supports our commitment to supplement existing capacities, unlock new demand centres, and enable sustainable growth," Dube added."NMIA represents the future of Indian aviation, and our presence from the outset aligns with our vision to serve India's emerging demand with agility, accessibility, and customer-first innovation.

## Delhi runway upgrade to hit 114 flights daily

AMIYA KUMAR KUSHWAHA

New Delhi: As many as 114 flights would be cancelled daily at the Delhi airport for three months from June 15 because of a runway upgrade, airport operator DIAL said on Friday.

The Delhi International Airport Limited (DIAL) said the average reduction in daily flights during the period would be around 7.5 per cent, and passengers were being informed about the changes well in advance. It said the decision would cause minimal inconvenience for passengers as traffic remained low during the period.

Around 1,350 flights operate from the Indira Gandhi International Airport daily. According to the proposed schedule, 57 arrival and departure flights will be cancelled daily, and 43 will be rescheduled. The cancellation of flights would impact connectivity to Calcutta, Mumbai, Patna and Guwahati.

Following the adjustments, the number of daily flights on the Calcutta-Delhi route would be reduced from 22 to 21. For Mumbai, the number of daily flights would drop from 56 to 54, and for Chennai, from 20 to 19. DIAL said the Instrument Landing System would be upgraded to make the runway 10/28 CAT III compliant, which would facilitate flight operations at low visibility cenditions during fog.

"We have now worked with" closed for maintenance work.

airlines to collaborate on slot adjustments and to accommodate revised arrival capacity, ensuring minimum passenger inconvenience. And the objective is to ensure optimum use of available runway capacity while maintaining time performance and minimising passenger disruption," DIAL chief executive officer Videh Kumar Jaipuria said.

The new slot plan was finalised after multiple rounds of discussions with airlines, the civil aviation ministry and air traffic control to ensure alignment between the proposed schedule and the adjusted capacity. The airport has four runways and three terminals, of which one is currently closed for maintenance work.

## Rahul needles Modi with 'surrender' barb

#### PHEROZE L. VINCENT

New Delhi: Rahul Gandhi on Friday reiterated the accusation against Prime Minister Narendra Modi of "surrendering" to the diktats of the US by abruptly ending hostilities, with Pakistan.

Rahul's remark at a Congress meeting in Bihar's Rajgir came a day after US President Donald Trump repeated for the eleventh time that he had used tariffs and trade deals as tools to force India and Pakistan to call off the confrontation.

India has maintained that the issue was resolved bilaterally, in line with India's policy against third-party intervention on Kashmir.

"Trump sahab has said 11 times... that I made Narendra Modi surrender. Eleven times in public. Narendra Modi ji is not able to even whimper. Narendra Modi ji is unable to say that Trump is lying, because it is the truth. I knew that the day we put a little pressure, he would surrender (to agreeing to a caste census which he previously opposed)," Rahul said, claiming credit for the Centre's decision to conduct a caste census, a demand that had been doggedly pursued by the Opposition.

Rahul Gandhi addresses the Samvidhan Suraksha Sammelan in Rajgir, Bihar, on Friday. (@INCIndia via PTI)

Last night, Trump repeated his claim of brokering peace in South Asia at a media interaction at the Oval Office.

"I said... we're dealing with you on trade, Pakistan and India. We're not going to deal with you on trade if you go shooting each other and whipping out nuclear weapons that maybe even affect us... I said if you're going to do that, we're not going to do any trade deals. And you know what, I got that war stopped," Trump said.

An aide to Vladimir Putin has confirmed that Trump repeated the claim to the Russian President during a telephone conversation on Wednesday after Ukraine inflicted major drone strikes on Russia. In his speech, Rahul reiterated how Telangana's caste census was better than Bihar's and was framed with inputs from the civil society. He also trained guns on crony capitalism.

"You would have heard the names Ambani-Adani. Ports, airports, whatever they want, how much land they want. They are trying to take Dharavi (the slum in Mumbai).... Lakhs of crores worth of land. All they have is their friendship with Narendra Modi." he said.

The Adani group is "redeveloping" the mega slum with the Maharashtra government, which is expected to cost around 3 lakh crore. The first phase may be launched as early as the end of this year.

# Over 100 flights/day to be cancelled at IGIA for 3-mnth runway upgrade

S LALITHA @ New Delhi

STARING June 15, Delhi's Indira Gandhi International Airport will undergo a major upgrade, resulting in the closure of one of its runways till September 15. A total of 114 daily flights, both incoming and outgoing, will be cancelled during this time. Additionally, 86 arrival and departing flights will be rescheduled daily.

Briefing mediapersons on Friday at the new Udaan Bhavan near Terminal 3, Delhi International Airport Limited CEC Videh Kumar Jaipuriar said, "Delhi airport operates 1,400 flights daily. The 114 flights that will be cancelled represents between 7% and 7.5% of that figure. Passengers will get inconvenienced in the short term but definitely stand to benefit in the long run."

The timing of 43 flights arriving and departing flights have been adjusted from peak hours to non-peak hours.

Major impact on connectivity to key metro and tier-1 cities to and from Delhi have been avoided to maintain network stability and passenger convenience during the runway closure. The CEO highlighted minor reduction of incoming flights from these key cities: two each from Ahmedabad, Bengaluru and Mumbai, one each from Patna, Guwahati, Chennai and Kolkata.

The main aspect in the upgradation involves making one

of the two ends of the runway known as 10/28 into a CAT-III compliant one by upgrading its Instrument Landing System (ILS). "ILS uses radio sig-

nals to provide pilots with precise lateral and vertical guidance on how to approach the runway and allow flights to land in extreme fog conditions. We are readying the runway before the festive season starts," Jaipuriar said.

A new flight schedule for the 90-day period has been prepared in consultation with the Ministry of Civil Aviation, airlines, the DGCA and the Air Traffic Control, he added.

enue, as their topline breached Rs 8,000 crore.

#### **Towards Self-reliance**

According to Gupta, each of Jakson's businesses—distributed energy, solar manufacturing, utility-scale EPC, independent power production, green hydrogen and infra--has its own customer lens and growth blueprint.

The distributed energy business, the group's legacy business, for instance, comprises green gensets and rooftop solar offerings targeted at commercial and decentralised power consumers. These products, Gupta says, are designed to be nearly pollution-free--these gensets "emit air cleaner than the ambient quality". The company also sees growing traction in rooftop solar systems, especially since the launch of the PM Surya Ghar Muft Bijli Yojana.

The second engine of growth is solar manufacturing. Jakson currently has 1.2 GW of solar module capacity and plans to scale that to 5 GW in near future. In parallel, it has decided to enter solar cell manufacturing in a phased manner. The group has secured land for a 3 GW facility and expects to commission it within 18 to 24 months. The eventual goal for solar cell manufacturing capacity is

pegged at 6 GW. The total outlay for cell manufacturing is Rs 3,500 crore, with Rs 1,800 crore being invested in the first phase. This manufacturing prowess would mark a significant step in its backward integration strategy.

Gupta is thinking a step ahead beyond modules and cells. He says that Jakson eventually intends to manufacture wafers, an area currently served by only a handful of players

like Adani. While the wafer initiative is still exploratory, Gupta believes it is a natural progression if India is serious about building a fully self-reliant solar ecosystem.

#### Green Hydrogen

Among Jakson's most forward-looking bets is green hy-

drogen, a sector still in its early commercial stages but one the company sees as a crucial pillar of India's clean energy transition. Gupta acknowledges that green hydrogen is yet to achieve cost parity with grey or blue hydrogen. Still, he is optimistic that parity could be reached within the next three to five years with improving technology and falling costs. The company has set up a 100 MW electrolyser manufacturing facility in Noida, which it plans to expand to 300 MW shortly.

Then there is Jakson Green, the relatively new but fast-growing EPC arm focusing on utility-scale projects, especially in international markets. Gupta notes that three years ago, the group was executing small solar EPC

and technology are no

longer bottlenecks, the

real challenge lies in

talent. Having the right

people in place is a far

more critical resource

today than even funding"

jobs domestically. Today, it is working on 100 to 500 MW projects for marquee clients in six to seven countries.

In the IPP space, Jakson has graduated from executing 20–100 MW projects to building a 1 GW portfolio in partnership with Macquarie's Blue Leaf Energy.

The long-term plan is to reach 5 to 7 GW by 2030, spanning solar, wind, battery storage and pumped hydro. Gupta proudly highlights the quality of PPAs backing these projects, notably the agreements with SECI and NHPC that offer near-zero payment risk.

The fifth and perhaps most striking vertical is Jakson's entry into mainstream infrastructure. Beyond power transmission and substations, the company is now bidding for metro, railway, and water distribution jobs. Gupta reveals that the group is also eyeing transmission projects under India's TBCB model, with a potential investment of Rs 2,000 crore if bids are won.

Meanwhile, its foray into ethanol and biofuels is gaining ground. A 150 KLPD ethanol plant in Madhya Pradesh has been operational for seven months, and Jakson is planning to add five bio-CNG plants.

#### **Balancing Growth and Control**

For FY26, the group has outlined a capital expenditure plan exceeding Rs 6,500 crore. Gupta says the group was once reluctant to take on debt but is now open to leveraging its balance sheet, provided it's done prudently. The company remains debt-light and has had no difficulty attracting capital, thanks to its near 80-year legacy and clean financial record.

For Gupta, the real bottleneck

across the sector lies somewhere else. "While capital and technology are no longer bottlenecks, the real challenge lies in talent. Having the right people in place is a far more critical resource today than even funding," he says.

So, what holds all of this together? Gupta is clear: it's culture. He believes that business success is a by-product of trust-based relationships. "If the foundation is trust, business will follow. Values matter more to me than a few extra crore on the top line," he says.

And yet, the natural question arises. With so many bets across many sectors, can Jakson maintain operational discipline and execution excellence? Gupta believes it can. He argues that each vertical is run as a focused business unit with its leadership and accountability.

In Jakson's case, the bet is that scale will not come at the cost of control. Whether this expansive strategy becomes a lasting moat or a managerial maze will be worth watching in the times ahead.

dependence on imports, and the growing relevance of unmanned aerial systems in modern warfare.

To accelerate the indigenised growth of defence drones in India, policymakers must address several critical questions. How can procurement policies be simplified and made more transparent to ensure faster adoption of Indianmade drones by the armed forces? What measures can be taken to bridge the gap between prototype development and large-scale production, especially for startups and MSMEs? How can India develop a robust ecosystem for drone components-such as engines, sensors, and communication systems-to reduce reliance on foreign suppliers? And finally, what kind of long-term funding, incentives, and export support can be provided to make Indian defence drone manufacturers globally competitive?

#### **Drone Boom**

The Indian Armed Forces operate a mix of imported and indigenous drones. Foreign acquisitions include Israeli-origin drones such as the Harop and Heron. On the domestic front, the Defence Research and Development Organisation (DRDO) has developed systems like the Lakshya target drone and the Rustom series, including Rustom-2 (TAPAS-BH-201), which has achieved notable performance milestones. DRDO's Archer UAV, a weaponised version of Rustom-1, is currently undergoing trials for potential induction.

Private Indian companies are also playing a major role in drone development. Asteria Aerospace, backed by a large Indian conglomerate, is focused on surveillance drones. Tata Advanced Systems has developed the ALS-50 loitering munition, while Adani Defence is manufacturing the SkyStriker drone in collaboration with an international partner. Other key players include IdeaForge, known for tactical surveillance UAVs, and Solar Industries, which has developed the Nagastra loitering munition drone.

India's drone startups—such as idea aForge, Aarav Unmanned Systems, Garuda Aerospace, Tech Eagle, and Zuppa—are now integral to real battlefield deployments, marking a shift towards drones as strategic defence assets. This transition began after India observed their decisive

impact in the Armenia-Azerbaijan and Russia-Ukraine conflicts, reinforcing the importance of drone supremacy in modern warfare.

Sambit P, Co-founder and CTO of IG Drones, noted, "We built our first drone in 7 days and we have delivered to needbased use cases on tight timelines," highlighting their focus on indigenous innovation.

Driven by the 'Make in India' initiative, India's defence manufacturing is surging. In FY 2023–24, indigenous defence production hit Rs 1.27 lakh crore, while exports soared to Rs 23,622 crore. "India is on the cusp of becoming a global drone export hub," says Garuda Aerospace CEO Agnishwar Jayaprakash.

#### **Budget Boost**

India is set to make a "substantial allocation" for deeptech through the Rs 10,000 crore Fund of Funds scheme, Union Commerce Minister Piyush Goyal announced at Startup Mahakumbh 2025. This commitment, backed by strong Defence Ministry budget hikes and preferential procurement policies, is rapidly transforming the drone sector into a cornerstone of India's national security and economic strategy.

Since 2021, over 300 drone startups have emerged, many securing defence contracts under iDEX and Make in India initiatives. "India is ready to become a defence export hub... Our engineers are world class," said Manu Iyer, General Partner at Bluehill.VC.

The Union Budget 2025-26 allocated Rs 6,81,210 crore to defence, which was up 9.53 per cent over the previous fiscal year, and accounted for 13.45 per

cent of the total budget. The PLI scheme for drones received Rs 57 crore, a 7.5 per cent rise.

#### **Export Hub Soon?**

As global defence buyers increasingly turn to India, the critical question is whether the country's startup ecosystem can scale fast enough to meet demand and establish India as a dominant drone export powerhouse. The numbers suggest positive momentum—India's defence exports reached a record Rs 24,000 crore in FY 2024–25, with government ambitions to double that figure to Rs 50,000 crore by 2029. This export drive aligns with India's broader vision of becoming a developed nation and the world's leading defence exporter by 2047.

Yet, despite the encouraging trajectory, defence-tech startups often grapple with harsh operational realities. Innovation is slowed by regulatory roadblocks, protracted procurement cycles, and rigid compliance frameworks. These challenges can act as speed bumps on an otherwise fast-moving highway. Raj Kumar Pandey, CEO of ADSL (Airbornics, JCBL Group), underscores the frustration: "There is often little clarity on what comes next after user validation. We must critically review omitting at least one 'N' from NCNC procedure."

To accelerate momentum, industry stakeholders are urging streamlined export approvals, availability of ITARfree components, bundled service offerings, and dedicated export credit lines for SMEs. These measures are particularly important for unlocking scale in emerging markets across ASEAN and Africa, where buyers demand agility, affordability, and comprehensive solutions. Satyabrata Satapathy, CEO of BonV Aero, remains optimistic: "With these policy adjustments. India could cross \$1 billion in startup-led UAV exports within 3-5 years, cementing its position as a global drone export hub."

needs expand, the capital required to fuel deeptech innovation remains frustratingly out of reach. The sector suffers from long gestation periods, high technical risk, delayed revenue cycles, and uncertain exits—all of which discourage most venture capitalists. In FY 2023–24, India's deeptech sec-

tor raised under USD 200 million, its lowest level in five years, despite robust government backing and increasing international interest.

Zuppa Co-founder Sai Pattabiram characterises this funding drought as the "Death Valley" for deeptech startups. "Most Indian investors are revenue-chasing. They want to see returns in the shortest possible time," he explains. "This is when you need patient capital, and unfortunately, there aren't many investors in India with that temperament."

Nonetheless, there are glimmers of hope. The IPO of ideaForge stands as a shining example that Indian deeptech ventures can, with the right support, successfully scale and even generate shareholder value. It proves that break-through innovation and capital markets success are not mutually exclusive.

For India's drone dream to become a reality, capital must match ambition. "We need to establish defence sandboxes where large enterprises, academia, and startups can co-create," advises Sudhir Rao, Senior Partner at Celesta Capital.

As defence contracts continue to favour large foreign vendors, India's drone startups still remain on the sidelines. The real challenge ahead is transforming this momentum into a lasting strategic and economic shift. With focused policy action and capital support, India's drone sector could soon rise from a promising possibility to a global force.

#### The Big Ask

To boost local drone manufacturing for defence, experts underline repeatedly that India must streamline procurement, ease export regulations, support R&D, and offer incentives for component indigenisation. Additionally, collaboration with Israel and ottler friendly nations providing critical technology transfer, joint ventures, and tactical insights, will also help India in accelerating its own capability and capacity building.

PIETER ELBERS TALKS ABOUT EXPANSION PLANS AND STRATEGY, AND WHY THE CARRIER FORAYED INTO BUSINESS CLASS AFTER 18 YEARS OF OPERATIONS.

BY SOURAV MAJUMDAR AND KARAN DHAR

## As IndiGo tops the valuation charts globally, how big is the future of India's aviation sector?

I joined IndiGo two and half years ago. In my initial conversations with Rahul Bhatia (promoter and MD of IndiGo's parent firm InterGlobe Aviation), he said: "I know the opportunity for India is enormous. But I don't know how enormous."

When I joined in 2022, the mandate was to transform IndiGo into a global aviation giant. Today, India is the fifth-largest economy in the world. By 2027, it will be the third largest. India deserves an airline of a size, scale, and opportunity that is a fair reflection of the country, what it stands for, and what it will be in the future. By that notion, we put a point on the horizon (2030) and launched a strategy towards "new heights and across new frontiers" ... Two years later, people have started seeing us connecting the dots-internationalisation, wide-body [aircraft], stretch products, and loyalty link-up with Accor.

#### How much of this plan has been actioned? How much has been achieved?

There is no end point. If you start somewhere, you put a point on the horizon—2030. But there is no such thing as a finishing line. Big decisions such as ordering A350 aircraft and having a premium product in metro routes have been taken. But we are only getting started with the tougher aspects

such as execution. For example, when it comes to internationalisation, operating flights from Bengaluru or Mumbai to Krabi, Thailand is different from starting operations to Amsterdam and Manchester.

My lesson after two years in India is: go big or go home. That's the philosophy behind IndiGoStretch, which we implemented in 12 months. We will get 45 Stretch planes in one year. A new Stretch plane comes in every week. It usually takes a long time. This is scalability. The strength of IndiGo and its people is that we can scale up quickly. We had 1,600 daily flights when I joined. Today, we have 2,300. 2

#### IndiGo has been a budget carrier for 18 years. Is the trend of premiumisation the reason behind your pivot to business class?

The India of today is different from what it was 18 years ago. India has been evolving and will continue to do so in the next five years. If we are the market leader, we want to be an airline for all business segments. But we do it in a way that is tailor-made. So, you will find our Stretch business products only in sectors where it makes sense. The Delhi-Mumbai Stretch is going very well. It's the busiest route, the others not yet.

Once we start to fly more long-haul and international [routes], you will want to have Stretch on the busiest routes as well (IndiGo's codeshare partners already have business class). There are a lot of foreigners travelling in India who are not familiar with IndiGo. This is an opportunity where this product can be familiarised.

We are developing a lot of partnerships. Japan Airlines has tied up with us in our domestic network. Hence, it is not a change of business model at large. IndiGo will continue to cater to first-time flyers, making a trade-up between a two-day train journey and a two-hour flight. If the price is right, millions of such travellers are waiting.

#### Aspirational India is where the next leg of growth will come from. Do you see a cross-subsidisation in terms of fares?

Not really. [Each domestic flight] has only 12 Stretch seats and the remaining 208 are all economy. India is one of the most valueconscious markets in the world. My belief in our business class is driven by the fact... [that it is] a superior product that is price effective. We have looked at all the elements of a business-class product. You could say, you should have a lounge. But are you ready to pay ₹500-1,000 more to go to the lounge? You may say no. Then, there's the debate around hot meals, an ongoing topic. We have good quality meals. That's it.

Even for the premium product, there is a valueconsciousness deeply rooted in the Indian con-

sumer's mind. Our Stretch product is tailor-made for the Indian market.

#### How has the response been to IndiGoStretch?

We started in mid-November between Delhi and Mumbai. We fly 20 times a day. All of them were operational by the second week of January. Then we started Bengaluru, which is all operational now.

#### Is the value-conscious Indian customer ready for Stretch? Of course! From an airline perspective, 12 seats in

Of course! From an airline perspective, 12 seats in peak hours are like a drop in the ocean. For some sectors, it may take a bit of time, but we are on a journey to make IndiGo a global aviation giant. We have ordered A350s that will come 2027.

Then we will have our own wide-body aircraft. We started the loyalty programme in October 2024. We have 3 million subscribers now. That's faster than anywhere in the world, partly driven by the same value-conscious customer, who is always looking for discounts. We also have a deal with Accor.

#### What are the key pillars you are looking at in IndiGo's

internationalisation journey?
IndiGo went international
in 2012 C, five years after
[it started] operations,
which was the rule then.
The first flights were to
Kuwait, targeting Indian
workers. Today, we have
260 flights a week for the
U.A.E. We started flights
to Central- and Southeast

13

Asia. In 2023, for the first time, we landed in Nairobi (Kenya). We now have a foothold in Africa as well. That's the first pillar: four five-hour flights.

The second pillar is when XLRs (A321XLRs) come in. That will expand our reach to parts of Europe, Asia, etc. These planes can easily make it to Athens, Venice, Bologna, and Seoul. The XLR will also allow us to fly to Bali from Delhi. Currently, we fly to Bali from Bengaluru.

Pillar No. 3 will be when A350s come in. We are accelerating that by taking damp leases for the Boeing 787. Then, the entire world will be a part of our operations. We have announced Manchester and Amsterdam flights this summer.

Are supply constraints in the domestic market giving airlines more pricing power?

Consolidation is happening in all industries across the world. But perhaps due to value consciousness, price sensitiveness. and strong competition, the cycle of airlines coming up and going down has been much faster in India than in the other parts of the world. Today we are in a situation of two large airlines and a couple of relatively young ones. From the perspective of a domestic market, that's probably a more stable setting, and hence, more continuity is guaranteed.

To make India a global aviation giant, you need to have airlines of a particular size. If we want to compete with Singapore Airlines and Emirates, we cannot be a domestic Indian airline. For way too long, international traffic has been outsourced to hubs outside the geographical shores of India. This is a good time for India to start building it. Domestic consolidation creates stability, but it is also a prerequisite to compete internationally.

Are you concerned about the capacity in terms of the runways and the number of flights you have added?

One of the challenges for India is that we collectively build the ecosystem: hardware, people, and regulatory parts. Hardware is airports, runways, taxiways, access to airport. The fact that both Air India and IndiGo have big orders allows us to sit with all the participants in the ecosystem, and say this is where we are heading, let's start planning. Big investments are being made in airports. I am optimistic about the steps taken.

In the regulatory framework, a lot of changes are being made. There were a lot of legacy issues in terms of what rules would apply. I would applaud the initiative of DigiYatra. My ambition is we get it for international travel as well because that is not always the best experience yet. Regulations and framework need to be simplified.

The third is people. India has a young population with an average age of 29. We are creating INDIGO HAS A
FLEET SIZE OF 400;
It operates 2,300
flights daily, connecting 90 domestic
and 40 international
destinations.

THE AIRLINE inducted 58 aircraft in 2024 and flew over 118 million customers in FY25, it has more than 900 aircraft on order.

INDIGO, WHICH started international operations in 2012, launched long-haul flights to Amsterdam and Manchester this year.

THE AIRLINE
employs 60,000
people; around
14.8% of the pilots
deployed are women

jobs in smaller cities. We fly to nine destinations in the Northeast from Guwahati. That's creating jobs. We also have the world's largest percentage of women pilots 5.

With the tailwinds of lower crude oil prices, do you think airfares will come down?

It's a very generic question. With the Mahakumbh, we got questions like airfares are very high. Every Diwali, I know what's coming. Prices go up not only for flights, but also for hotels. In the long run, we buy the same planes, and the same fuel as other parts of the world. We have the same maintenance, in a market which is extremely competitive.

Over time, there should be a correlation between prices and costs. If there is no correlation, companies will run out of business. That's what we have seen in India in the past. If fuel prices go up, over time airfares will rise. If they go down, it will be reflected in airfares. That's the nature of our business.

What kind of IndiGo will we see five years down the line?

You will see an IndiGo that is a proud representation of the nation. IndiGo will operate an incredibly dense domestic network. We currently cover 90 airports. That number will go up. We will build a huge domestic foundation, and from there serve the different parts of the world. The official view is we double in size by 2030.

### Adani Group contributes Rs 74,945 cr in FY25 taxes

#### ♦ Direct payments accounted for Rs 28,720 cr

Mumbai, June 6:

The Adani Group's listed portfolio of companies contributed Rs 74,945 crore to the exchequer in fiscal 2025, marking a 29% jump from Rs 58,104 crore in the previous year, as per a press release on Thursday.

The contribution spans direct, indirect, and other tax-related payments.

Of the total contribution, direct payments accounted for Rs 28,720 crore, while indirect contributions which include taxes and duties collected and paid on behalf of other stakeholders stood at Rs 45,407 crore.

Another Rs 818 crore was made in the form of social security and similar outlays for employees.

"To put it in perspective, Rs 74,945 erere is roughly the cost of building the entire Mumbai Metro network—an infrastructure lifeline for millions of people.

It's also nearly enough to host a modern-day Olympics," said the

press release

Leading contributors to this figure include Adani Enterprises Ltd., Adani Cement Ltd., Adani Ports and Special Economic Zone Ltd., and Adani Green Energy Ltd.,

The total also includes tax paid by NDTV, ACC, and Sanghi Industries, which are subsidiaries held by the seven primary listed firms.

To further support transparency, the group has released a 'Basis of Preparation and Approach to Tax' document on the websites of its listed companies. The report outlines three types of ontributions:

Direct Contributions: Global taxes, duties, and other charges borne directly by Adani companies.

Indirect Contributions: Global taxes and duties collected and remitted on behalf of third parties. Other Contributions: Social security and similar benefits for

Other Contributions: Social security and similar benefits for employees.

The Adani Group said it sees tax transparency as a key component of its Environmental, Social and Governance strategy.

मुंबई : 'आगामी इंग्लंड दौऱ्यावरील पाच सामन्यांच्या कसोटी मालिकेदरम्यान माजी कर्णधार रोहित शर्माची पोकळी मला प्रकर्षाने जाणवेल', असे उद्गार काढले आहेत ते भारतीय कसोटी संघाचा नवा उपकर्णधार ऋषभ पंत याने. इंग्लंडविरुद्धच्या कसोटी मालिकेची सुरुवात २० जूनपासून होईल. इंग्लंडला रवाना होण्यासाठी भारतीय संघ विमानतळावर आल्यानंतर उपस्थित छायाचित्रकारांनी रोहित शर्माबाबत विचारणा केल्यावर पंतने ही प्रतिक्रिया दिली.

कसोटी क्रिकेटमधून निवृत्ती स्वीकारलेल्या विराट कोहली आणि रोहित शर्मा यांच्याविना भारतीय संघ प्रथमच कसोटी मालिकेत भाग घेणार आहे.

'रोहित शर्मा सर किधर है?', असा प्रश्नही पंतला करण्यात आला. यावर त्याची प्रतिक्रिया असते, 'ते बागेत फेरफटका मारत आहेत!'. क्षेत्ररक्षणात चुका करणाऱ्या भारतीय सहकाऱ्यांना रोहित शर्मा चांगलाच फैलावर घेत असे. 'तुमचे लक्ष कुठे आहे? बागेत फिरायला आल्यासारखे निश्चित राहू नका', अशा शब्दांत त्याने दमही भरला होता. याच पार्श्वभूमीवर पंतने गंमत म्हणून संबंधित प्रत्युत्तर दिले.

तुला 'गार्डन'ची आठवण येणार की नाही, असा प्रश्न छायाचित्रकारांनी विचारल्यावरही पंतने तत्काळ उत्तर दिले. 'हो तर आमच्या 'गार्डन'ची खूप आठवण येईल', असे पंत म्हणाला. s

# महत्त्वाकांक्षी सामाजिक योजनेतून

### 'सर्वांसाटी घर' या

जो अखेर प्रत्यक्षात येत आहे, अगदी जशी माननीय पंतप्रधान नरेंद्र मोदी यांच्या 'सर्वांसाठी घर' या धोरणानुसार संकल्पना मांडली गेली होती.

धारावीच्या पुनर्विकासासाठी राज्य सरकारने मास्टर प्लॅनला मंजुरी दिल्यानंतर, 'आशियातील सर्वात मोठी झोपडपट्टी ' असा कलंक मुंबईच्या नकाशावरून पुसला जाणार आहे.

धारावीचे रूपांतर करण्याच्या दिशेने महत्त्वपूर्ण पाऊल उचलत, या दाटीवाटीच्या वसाहतीत नवजीवन निर्माण करण्याचा एक सर्वसमावेशक मास्टर प्लॅन तयार करण्यात आला आहे

हे केवळ नवीन पायाभूत सुविधा उभारण्यापुरते मर्यादित नसून, हरित व अधिक राहण्यायोग्य वसाहत निर्माण करण्याचा दृष्टिकोन आहे.

जरी धारावी पुनर्विकास प्रकल्प (DRP) मुख्यतः अत्यावश्यक पायाभूत सुविधांच्या सुधारणा करण्यावर केंद्रित असला, तरी यामध्ये मोकळ्या जागा समाविष्ट करण्याचा प्रयत्न जाणूनबुजून करण्यात आला आहे. जेणेकरून रहिवाशांना वर्षानवर्षे भोगत आलेल्या संकुचित आणि कढीण परिस्थितीतून दिलासा मिळेल.

गर्दीच्या गुंतागुंतीच्या वस्तीऐवजी एक सळसळत्या उत्साहाचे, सर्वसमावेशक आणि निसर्गसंपन्न शहरी वातावरण निर्माण करण्याची योजना आहे, ' असे या नियोजनाशी परिचित एका सूत्राने सांगितले.

'हा पुनर्विकास आराखडा महाराष्ट्र नेचर पार्कपासून प्रेरणा घेतो, जे मिटी रचनेत निसर्ग आणून निर्माण करणे, ' असे या प्रकल्पाची माहिती असलेल्या एका सूत्राने

#### 'धारावी अधिसूचित धोरणानुसार संकल्पना क्षेत्र (DNA)च्या नव्या मास्टर हा एक ऐतिहासिक पुनर्विकास आहे प्लॅनमध्ये सध्याच्या

या प्रकल्पाशी संबंधित सूत्रांनुसार नदीजवळचे एक समृद्ध मानवनिर्मित वनक्षेत्र आहे. या उपक्रमाचा उद्देश म्हणजे शहराच्या एक राहण्यायोग्य शाश्वत समुदाय सांगितले.

#### सेंट्रल 'हार्ट खुल्या जागांची जोडणी

मोठ्या शहर उद्यानांपासून ते छोट्या मोहल्ला मैदानांपर्यंत एकत्रित व सुसंगत सार्वजनिक व हरित जागा उपलब्ध करून देण्यात येतील. या जागा चालण्याजोग्या असतील आणि धारावीतील प्रत्येक नागरिकासाठी सहज उपलब्ध असतील. यामुळे पर्यावरणीय संतुलन राखले जाईल व यासाठी खुली जीवनमान उंचावेल.

स्पेस' धारावीच्या मध्यभागी एक मोठी खुली जागा तयार केली जाईल जी केवळ धारावीकरांसाठी नव्हे, तर संपूर्ण मुंबईसाठी सण-समारंभ,

#### चालण्यायोग्य व वाहतूक केंद्रित विकास

धारावीमध्ये बहुस्तरीय वाहतूक सुविधा उभारण्यात येणार आहेत. नवीन मेट्रो मार्ग, बस फीडर सेवा, सायकल व पादचारी मार्ग, लहान रस्ते एकमेकांशी जोडले जातील अशी रस्ते संरचना यामुळे नागरिकांना त्यांच्या इच्छित स्थळी पोहोचणे शक्य होईल .

#### बहुपर्यायी वाहतूक केंद्र – मल्टी मॉडेल ट्रान्झिट हब (एमएमटीएच)

धारावीच्या मध्यभागी अशा प्रकारचा पहिलाच ट्रान्झिट हब उभारण्यात येईल जिथे आंतरशहर, अंतर्गत शहर, उपनगरी रेल्वे, मेट्रो, हाय स्पीड रेल्वे, विमानतळ एक्स्प्रेस, बस व अन्य वाहतूक सेवा एकत्रित असतील. प्रवासी येथे आपले सामान तपासणीसाठी ठेवून या केंद्रातील विविध सुविधा उपभोगू शकतील.

#### या ठिकाणी देण्यात येणाऱ्या सुविधा

- २४×७ किरकोळ सेवा उपाहारगृहे, कॅफे व खरेदीसाठी सुविधा
- कार्यालय व हॉटेल स्पेस
- सेंट्रल अव्हेन्यूशी थेट संपर्क

#### सुलभ सामाजिक सुविधा

शाळा, आरोग्यसेवा व समुदाय केंद्रे अशा सुविधा चालण्याच्या अंतरावर असतील (५-१५ मिनिटे). प्रत्येक वसाहतीत सामाजिक व वाहतूक सुविधा जोडून स्वयंपूर्ण केंद्र विकसित केली जातील

आमची पिढी आणि आधीच्या पिढ्या कोणत्याही सुविधांशिवाय जगत होत्या; पण आता आमच्या भावी पिढ्यांना चांगल्या आणि योग्य वातावरणात वाढण्याची संधी आहे.

- श्री. राजू साहेबराव दळवी

धारावीचा पुनर्विकास अत्यंत आवश्यक आहे आणि आम्ही त्याला पूर्णपणे पाठिंबा देतो. कारण, यामुळे आम्हाला उच्च दर्जाच्या सुविधा आणि रोजगाराच्या संधी उपलब्ध होतील.

- संगीता शंकर दळवी

धारावीच्या पुनर्विकासाला विरोध करणाऱ्यांमुळे तिथे राहणाऱ्या लोकांचे खूपू नुकसान करत आहेत. आपल्याला आणि आपल्या मुलांसाठी चांगल्या दर्जाचे जीवनमान आणि चांगल्या संधींची आवश्यकता आहेल.

## नवी मुंबई विमानतळाच्या नामकरणाची अधिसूचना काढा

'लोकनेते दि.बा. पाटील' नामकरणाची मागणी; कामगार नेते भूषण पाटील यांचे २४ जूनपासून जासईत बेमुदत उपोषण

जेएनपीए : पुढारी वृत्तसेवा

दिवंगत लोकनेते दि. वा. पाटील यांचे शिष्य तथा जेएनपीटीचे माजी विश्वस्त, कामगार नेते काँमेड भूषण पाटील हे नवी मुंबई आंतरराष्ट्रीय विमानतळ नामकरण अधिसूचना ताबडतीच काढून सदर विमानतळाला लोकनेते दि. वा. पाटील असे नामकरण करावे, या प्रमुख मागणीसाठी लोकनेते दि. वा. पाटील यांच्या बाराव्या स्मृती दिती १४ जूनपासून जासई येथे बेमुदत उपोषण सुरू करणार आहेत.

दिवंगत लोकनेते दि. वा. पाटील यांचे जासई हे जन्मगाव आहे. या जासई गावात दि.वा. पाटील यांच्या पुतळ्यासमोर जासई हायस्कूल, उरण येथे कॉम्रेड भूषण

पाटील आमरण उपोषणाला बसणार

सन २०२० पासून गेली ५ वर्षे नवी मुंबई, आंतरराष्ट्रीय विमानतळ सर्वपक्षीय कृती समितीतर्फे नवी मुंबई आंतरराष्ट्रीय विमानतळाला दिवंगत लोकनेते दि.बा. पाटील साहेब यांचे

नाव देण्यासाठी आंदोलन चालू आहे. त्यानंतर महाराष्ट्राच्या विधानसभेमध्ये नामकरणवावत दोन वेळा निर्णय घेण्यात आला आहे व तसा आशयाचा ठराव मंजूरीसाठी १६ जुलै २०२२ रोजी कॅद्र सरकारकडे पाठविण्यात आला आहे.  मागण्या २३ जुनपर्यंत मान्य न झाल्यास २४ जुन रोजी सकाळी १० पासून जासई येथे बेमुदत उपोषण करण्यात येणार आहे. कायदा व सुव्यवस्थेचा प्रश्न निर्माण झाल्यास त्याला सर्वस्वी महाराष्ट्र शासन जबाबदार असेल, असा इशारा काँग्रेड भूषण पाटील यांनी प्रशासनाला दिला आहे. मागण्या मान्य झाल्याशिवाय स्वस्थ बसणार नाही, असा आक्रमक पवित्राही त्यांनी घेतला आहे.

त्यानंतर याबाबतीत अनेक पाठपुरावा बैठका झाल्या आहेत. लवकरात लवकर सकारात्मक निर्णय होईल अशी अपेक्षा येथील जनतेला होती. नवी मुंबई आंतरराष्ट्रीय विमानतळाला लोकनेते दिवा पाटील यांचे नाव लागावे यासाठी चातकासारखी जनता वाट पाहत आहे. परंतु आजपर्यंत नामकरणाचा निर्णय मंजूर झाला नाही तसेच नामकरणावावत अधिसूचना (नोटीफिकेशन) काढण्यात आली

नाही.

प्रचंड विलंब झाल्यामुळे येथील जनतेच्या मनात संप्रम, अविश्वास व असंतोष निर्माण झालेला आहे. आता जनतेच्या सहनशक्तिचा अंत झाला आहे. गेल्या १७ एप्रिलला उदघाटन होणार होते ते झाले नाही. त्यानंतर १५ में, जून महिन्यात व आता १५ ऑगस्ट २०२५ रोजी उद्घाटन होणार आहे, अशी माहिती मिळत आहे. अशा वारंवार तारीख पे तारीख होत

आहेत. घोषणांवर घोषणा होत आहेत. आधासन सुद्धा देण्यात येत आहेत. परंतु आजपर्यंत नावाची अधिसूचना निघाली नाही. त्यामुळे नागरिकांमध्ये तीव संतापाची लाट आहे. नवी मुंबई आंतरराष्ट्रीय विमानतळाला दिवंगत लोकनेते दि.बा.पाटील साहेब यांच्या नामकरणांची अधिसूचना ताबडतीय काडण्यात यावी.

# यूपी में निजी कंपनियां करेंगी बिजली सप्लाई!

लखनक। उत्तर प्रदेश में बिजली वितरण की व्यवस्था को और बेहतर बनाने के लिए राज्य सरकार ने बड़ा कदम उठाया है। पूर्वांचल और दक्षिणांचल विद्युत वितरण निगम (डिस्कॉम) के निजीकरण की तैयारी पूरी कर ली गई है। माना जा रहा है कि इस साल जुलाई तक इन डिस्कॉम के निजीकरण के लिए निविदा (टेंडर) जारी कर दी जाएगी। बताया गया है कि अदाणी समूह, टाटा पावर लिमिटेड, ग्रीनको समूह समेत देश के आठ बड़े औद्योगिक घराने इस प्रक्रिया में दिलचस्यी दिखा रहे हैं।

फिलहाल पूर्वांचल और दक्षिणांचल डिस्कॉम 42 जिलों में बिजली वितरण का काम देख रहे हैं। बिजली व्यवस्था

को और दुरुस्त करने के लिए यूपी पावर कॉरपोरेशन लिमिटंड (यूपीपीसीएल) ने इन दोनों निगमों को भंग कर पांच नई कंपनियां बनाने का फैसला लिया है। खास बात यह है कि इन नई कंपनियों में 51 स्त्रीसदी हिस्सेदारी निजी उद्योग समूहों को दी जाएगी। इस प्रक्रिया को आगे बढ़ाने को ग्रांट थॉर्नटन भारत नाम की एक सलाहकार कंपनी को नियुक्त किया है।

িধের চহুর্থ বৃহত্তম অর্থনীতি হিসেবে ভারতকে বিশ্ববাণী এবং বৃহত্তম অর্থনীতির' আসল চেহারা। জাতীয় মঞ্চে প্রদর্শন করা হচ্ছে। প্রায় ৩.৯ ট্রিলিয়ন ডলারের আরও খারাপ দিক হল, এই :

এটি যথাক্রমে মাথাপিছ, ৩.৫৭ লক্ষ টাকা এবং ১০.৩৮ লক্ষ টাকা। সস্তা হয়েছে। বিশ্ব অর্থনীতিতে শীর্ষস্থান অর্জনের ক্ষেত্রে ভারত যে দেশগুলিকে থেকেও অনেক পিছিয়ে রয়েছে।

করে। তারা হলেন আদানি এবং আম্বানির মতো ব্যক্তিদের মালিকানাধীন মুদ্রাস্ফীতি দরিদ্রদের সবচেয়ে বেশি আঘাত করছে। কর্পোরেট হাউস এবং বড বাবসায়ীরা। যদি আমরা এই ১ শতাংশর সম্পদ বাদ দিই, তাহলে ভারতের বাকি ১৪০ কোটি মানুষের জন্য সঞ্চয়—নিজেদের উদ্দেশ্য দ্বারা সমর্থিত, প্রচার দ্বারা সুরক্ষিত এবং উপলব্ধ জিডিপি মারাত্মকভাবে হ্রাস পাবে। যা অবশিষ্ট থাকবে তা হল মিডিয়ার প্রদর্শন দ্বারা পালিশ করা। বেশিরভাগ ভারতীয় এই গল্পের প্রায় ১১৫ লক্ষ কোটি টাকা, যার ফলে প্রতি বছর প্রকৃত মাথাপিছু আয় প্রান্তে রয়ে গেছে। কৃষকরা আত্মহত্যা করে মারা যায়। শ্রমিকরা মাত্র ৮২,০০০ টাকা বা প্রায় ৬,৮০০ টাকা প্রতি মাসে। যদি আমরা মহামারীর সময় খালি পায়ে বাড়ি ফিরে যায়। শিশুরা স্কুল ছেড়ে দেয়। আরও এগিয়ে যাই এবং শীর্ষ ৫ শতাংশ দ্বারা নিয়ন্ত্রিত ৬২ শতাংশ টাকা কর্মক্ষেত্র থেকে নারীরা উধাও হয়ে যায়। তবুও, কিছু নির্বাচিত ব্যক্তি অবশিষ্ট থাকে। যার ফলে প্রতি বছর মাথাপিছু আয় মাত্র ৬৭,০০০ উন্নয়নের মডেল নয়। এটি সংগঠিত অবহেলা এবং ইচ্ছাকৃতভাবে টাকা হবে — প্রতি মাসে ৫,৬০০ টাকারও কম। এর ওপর নির্ভর করে বর্জনের একটি ব্যবস্থা। বেশিরভাগ ভারতীয় বেঁচে থাকে। এটা জনগণের জন্য অর্থনীতি নয় ন্তর এটা মনাফা, জাঁকজমক এবং প্রচারের অর্থনীতি।

করা একই সরকার কীভাবে একই সাথে এবং নির্লজ্জভাবে বিনামূল্যে রেশন বিতরণের কৃতিত্ব নিতে পারে? যদি জিডিপি প্রবৃদ্ধি বাস্তব হয়, তাহলে বিনামূল্যে রেশনের জন্য কারা লাইনে দাঁড়াচ্ছেং হয় দেশ প্রকৃত জাতীয়তাবাদ নিহিত আছে ক্ষুধার্তদের খাওয়ানোর মধ্যে, তাদের

দেশবিরোধী হিসেবে চিহ্নিত করা হয়। কিন্তু আরও যা দেশবিরোধী : অর্থনীতিটি যা আছে তা হল : মূলে ফাঁকা, কেবল শীর্ষে উজ্জ্বল্য এবং সম্পদের প্রচারের মুখে ক্ষুধা নিয়ে প্রশ্ন তোলা, নাকি ক্ষুধাকে সম্পূর্ণরূপে বিচ্ছিন্ন এ বিপজ্জনকভাবে তারা দাবি করেছে। উপেক্ষা করাং বিহাবের একজন অপস্থিতে ভোগা শিশু অথবা

তুলনায় অনেক পিছিয়ে। বিশ্ব ক্ষুধা সূচকে ১২৫ জনের মধ্যে এর মজুদ করে, সেখানে তা ভেঙে পড়ছে। ভারতকে জরুরিভাবে এই শ্রম অংশগ্রহণ বিশ্বের মধ্যে সবচেয়ে কম। বিশ্ব লিঙ্গ বৈষম্য সূচকে সৃষ্টিকারী এবং ন্যায়বিচার, মর্যাদা এবং গণভান্ত্রিক পরিকল্পনার উপর

প্রতিটি সচকেই ভারতের অবস্থান হতাশাজনক। এটি কি 'বিশ্বের চতর্থ

আরও খারাপ দিক হল, এই র্যাঙ্কিং যে ভিত্তিতে ধরা হয় তা . জিডিপি নিয়ে। সরকার দাবি করছে যে সে এক অলৌকিক ঘটনা প্রশ্নবিদ্ধ। ৩.৯ ট্রিলিয়ন ডলারের পরিসংখ্যান বর্তমান মার্কিন ডলারের ঘটিয়েছে। প্রধানমন্ত্রী তার নেতৃত্বে ভারতের উত্থানের কথা প্রতিটি স্তর স্পর্তে নামমাত্র জিডিপির উপর ভিত্তি করে গণনা করা হয়, যা বিনিময় থেকে উচ্চারণ করেন এবং সংবাদমাধ্যমগুলি এই আখ্যানটিকে হারের উপর ব্যাপকভাবে নির্ভরশীল। ভারতীয় টাকা এখন ডলারের শ্বাসকল্পকর শিরোনাম দিয়ে আরও জোরদার করে। কিন্তু এই তুলনায় ৮৩ টাকার কাছাকাছি ঘোরাফেরা করছে — একটি অভূতপূর্ব উদযাপনের মুখোশের পিছনে একটি অনস্বীকার্য বাস্তবতা রয়েছে। এটি নিম্ন। টাকা আরও দুর্বল হলে কী হবে? ডলারের মূল্য ৯০-তে বেড়ে অভিজাতদের দ্বারা এবং তাদের জন্য রচিত একটি প্রবৃদ্ধির গল্প, যখন গেলে? ডলারের পরিপ্রেক্ষিতে ভারতের অর্থনীতির আকার আরো বেশিরভাগ ভারতীয় ক্ষুধা, বেকারত্ব এবং ক্রমবর্ধমান দারিদ্রোর শিকার সংকৃচিত হবে। ফলে, যা প্রচার করা হচ্ছে তা এতই সহজ। এটা কি অর্থনৈতিক শক্তি নাকি পরিসংখ্যানগত কৌশল? যে প্রধানমন্ত্রী একসময় সরকারি জিডিপি পরিসংখ্যান তাদের প্রকাশের চেয়ে বেশি কিছু টাকার মূল্যকে জাতীয় সম্মানের বিষয় বলে অভিহিত করেছিলেন, গোপন করে। ভারতের মাথাপিছু আয় আজ প্রায় ২,৮০০ ডলার;অথবা 🏻 তিনিই আজ নীরব, কারণ বছরের পর বছর এটি হ্রাস পাচ্ছে। উত্থানের বার্ষিক প্রতি ব্যক্তি ২.৩৩ লক্ষ টাকা। ভিয়েতনামের ৪,৩০০ ডলার এবং সায়া তৈরি করতে ব্যবহৃত জিডিপি সংখ্যাটি ভঙ্গর, বিপরীতমুখী এবং চিনের ১২,৫০০ ডলারের সাথে এটি তুলনা করুন। টাকার হিসেবে প্রতিনিধিত্বমূলক নয়। ভারতের অর্থনীতি আরও ধনী হয়নি — এর মুদ্রা

কিন্তু এই প্রতারণা একটি উদ্দেশ্য সাধন করে। এটি সরকারের একসময় তার সমকক্ষ বা এমনকি পিছিয়ে বলে মনে করা হত, তাদের ব্যর্থতাগুলিকে ঢেকে দেয়। এটি বিজেপিকে একটি শিরোনাম দেয়। এটি বন্ধর অনপস্থিতিতে বিজয়ের মায়া প্রদান করে। এটা কোনও কাকতালীয় আরও খারাপ, এই ২.৩৩ লক্ষ টাকার অস্কটি নিজেই একটি বিভ্রম। ঘটনা নয় যে জিডিপি উদযাপন এমন এক সময়ে করা হচ্ছে যখন গ্রামীণ ভারতীয়দের শীর্ষ ১শতাংশ দেশের ৪০ শতাংশ সম্পদের নিয়ন্ত্রণ অর্থনীতি ভেত্তে পড়ছে, বেকারত্ব ব্যাপকভাবে ছড়িয়ে পড়ছে এবং

সত্য হল এটি অন্তর্ভুক্তিমূলক প্রবৃদ্ধি নয়। এটি এমন এক ঘনীভূত বাদ দেই, তাহলে দেশের বাকি অংশের কাছে ৮৯ লক্ষ কোটি টাকা প্রতি কয়েক বছরে তাদের সম্পদ দ্বিগুণ হতে দেখেন। এটি কোনও

ভারত যদি সত্যিই একটি মহান জাতি হতে চায়; গুধুমাত্র একটি বহং জাতি নয়: তাহলে তাকে অবশাই পথ পরিবর্তন করতে হবে। ঋণ যে দেশে ৮০ কোটি মানুষ তাদের দৈনন্দিন জীবনযাপনের জন্য সংস্থাগুলিকে প্রভাবিত করা বা বিশ্ব র্যাঙ্কিয়ে প্রতিযোগিতা করা উচিত বিনামূল্যে রেশন প্রকল্পের উপর নির্ভর করে, সেখানে বিশ্বব্যাপী জিডিপি নয়, বরং নিশ্চিত করা উচিত যে কোনও শিশু ক্ষুধার্ত অবস্থায় ঘুমোরে র্যাঙ্কিং উদযাপন করা একটি অদ্ভূত রসিকতা হয়ে ওঠে। অর্থনীতির গর্ব না, প্রতিটি যুবকের চাকরি থাকবে এবং কোনও ভারতীয়কে ওযুধ এবং খাবারের মধ্যে একটি বেছে নিতে হবে না।

প্রকত দেশপ্রেম নিহিত আছে এই উত্তরের মধ্যে, অন্ধ প্রশংসায় নয়। উজ্জ্বল হচ্ছে, না হয় ক্ষুধার্ত। দুটো তো আর একসাথে হতে পারে না। সংখ্যা খাওয়ানোর মধ্যে নয়। প্রকৃত প্রবৃদ্ধি নিহিত আছে জিডিপি চার্টে যখন এই বৈপরীত্যগুলি তুলে ধরা হয়, তখন প্রশ্নকারীদের নয় বরং মর্যাদার সাথে জীবনযাপনের মধ্যে। ততক্ষণ পর্যন্ত, এই

পরিশেষে, ২০৪৭ সালের মধ্যে প্রধানমন্ত্রী মোদির বহুল প্রচারিত মধ্যপ্রদেশের একজন বেকার স্নাতক কি জিডিপির পরিসংখ্যান খেতে বিকশিত ভারত আমাদের সমাজের দরিদ্রতম অংশের জন্য কী অর্থ পারে? মহারাষ্ট্রের উচ্চ উৎপাদন খরচের কারণে ধ্বংসপ্রাপ্ত একজন বহন করে তা পরোখ করা উচিত। ভারতের তথাকথিত অর্থনৈতিক কৃষক কি সোশ্যাল মিডিয়ার উন্মাদনায় তার পরিবারকে খাওয়াতে উত্থানকে অবশ্যই দেখতে হবে—কিছু লোকের জন্য শিরোনাম এবং সংখ্যাগরিষ্ঠের জন্য কষ্টকর। বৈষম্যকে প্রশস্ত করে, পরিবেশগত আরোর বাইরেও, ভারতের সামাজিক ও মানব উন্নয়ন সূচকণ্ডলি ধ্বংসকে আরও গভীর করে এবং সংখ্যাগরিষ্ঠদের উপেক্ষা করে এমন একটি সংকট প্রকাশ করে। মানব উন্নয়ন সূচকে দেশ ১৩৪তম স্থানে। প্রবৃদ্ধি যা উদযাপন করা যায় না। যে জাতি কোটি কোটি মানুষ খাদ্য রয়েছে, শ্রীলঙ্কা এবং ভিয়েতনামের মতো উন্নয়নশীল অর্থনীতির রেশনের উপর নির্ভর করে এবং মৃষ্টিমেয় কিছু লোক অগ্লীল সম্পদের অবস্থান ১১১তম। ভারতীয় শিশুদের পঁয়ত্রিশ শতাংশ কৃশ । ২৩ একমুখী মডেল পরিত্যাগ করতে হবে এবং একটি নতুন পথ তৈরি কোটিরও বেশি মানুষ এখনও বছমাত্রিক দারিদ্রের মধ্যে বাস করে। নারী করতে হবে — যা ন্যায়সঙ্গত, পরিবেশগতভাবে টেকসই, কর্মসংস্থান ১৪৬ -এর মধ্যে ভারতের অবস্থান ১২৭তম। শিক্ষা, পুষ্টি, স্বাস্থ্য, খাদ্য, ভিত্তি করে। এখন প্রকৃত উন্নয়নের সময়, কোনো মায়া সৃষ্টির জন্য নয়।

### ধারাভি পুনর্বাসনে আদানিদের ৮ হেক্টর জমি,

#### সরব কংগ্রেস

মৃত্বই : এশিয়ার বৃহত্তম বস্তি ধারাভি পুনর্বিকাশ প্রকল্পের জন্য জমি হস্তান্তরের প্রস্তাব অনুমোদন করেছে মহারাষ্ট্র মন্ত্রিসভা। এই প্রকল্পের জন্য দৃশ্ধ উল্লয়ন বিভাগের মালিকানাধীন কুরলায় প্রায় ৮.৫ হেষ্টর জমি বরান্ধ করা হবে। আর সেখানেই আদানি গোষ্ঠী ধারাভির বাসিন্দাদের স্থানান্তরের জন্য এই জমি ব্যবহার করতে পারে বলে মনে করা হছে। এবার সেই আশব্ধায় ধারাভির বাসিন্দাদের স্থানান্ডরের জন্য ৮.০৫ হেক্টর জমি আদানিকে হস্তান্তরের বিরোধিতা করল কংগ্রেস। মুম্বই কংগ্রেসের সভাপতি ত্রবং লোকসভার সাংসদ বর্ষা গায়কোয়াড় বলেন, "এটা আসলে জনগণের সঙ্গে বিশ্বাসঘাতকতা।" তিনি মহারাষ্ট্র সরকারের সমালোচনা করেন।

দিনের বেলাভেও সূর্যের আলো পৌছয় না ঠিক করে। ঘূপচি ঘরে একসঙ্গে ২০ জন মান্ধের বসবাস। পানীর জলের জনাও চলে লড়াই। মুম্বইয়ের ধারাভি বন্তির সেই দৃশ্য বদলাতে চলেছে শীঘ্রই। ধারাভিতে যোগ্য ভাড়াটেদের পুনর্বাসনের জন্য ৫৮ হাজার ৫৩২টি আবাসিক ইউনিট, ১৩,৪৬৮টি বাণিজ্যিক ও শিল্প ইউনিট তৈরি করা হবে। গত বুধবার ধারাভির মাস্টার প্লান অনুমোদন পেয়েছে রাজ্য সরকারের। আর ২৫১.২৪ ছেক্টর চিহ্নিত জায়গার উপর পুনর্নিমাণের একটি সমীকা হয়। যেখানে কতগুলি ছোট প্রাট থাকার জায়গা রয়েছে তা শতিয়ে দেশা হয় । এই প্রকল্পে সরকারের সিদ্ধান্তের প্রশ্ন তলে কংগ্রেস সভাপতি গায়কোয়াড় বলেন, "কুরলা অবস্থান এবং বাস্ততন্ত্রের কারণে গুরুত্বপূর্ণ। স্থানীয়রা এই স্থানে একটি পার্কের দাবি করলেও, বিজেপি সরকার এই এলাকা আদানিকে দিয়েছে। সরকার আদানির জন্য সমস্ত নিয়মকানুন লঞ্জন করছে।" এর আগে, কংগ্রেস নেত্রী ধারাতি পুনর্বিকাশ পরিকল্পনারও বিরোধিতা করেন। তিনি বিষয়টি নিয়ে 'অগণতান্ত্রিক', 'অস্বচ্ছ' এবং নিয়ম লক্ত্যনের অভিযোগ করেছিলেন। এবং দাবি করেছিলেন যে ধারাভির বাসিন্দাদের সঙ্গে এ নিয়ে আলোচনা করা হয়নি। সোমবার তাঁর নেতৃত্বে একটি প্রতিনিধিদল মুখ্যমন্ত্রী দেবেল্র ফড়নবিশের সঙ্গে দেখা করে ধারাভি পুনর্বিকাশ প্রকল্পের মাস্টারপ্ল্যান প্রত্যাহারের দাবি জানিয়েছিলেন। এবার মুখ্যমন্ত্রীর কাছে এই মাস্টার প্ল্যানের উপর একটি জনগুনানি করার দাবি জানান।

# दरकपातीला बाजाराची सलामी

## 'सेन्सेक्स'ची ७४६ अंशांनी जोरदार उसळी

मुंबई, ता. ६ : रिझर्व्ह बँकेने आज अर्धा टक्का व्याजदर कपात करून सुखद धक्का दिल्याने शेअर बाजारांनीदेखील गुंतवणूकदारांना एक टक्का नफा देऊन जोरदार सलामी दिली. उत्साही गुंतवणूकदारांमुळे आज 'सेन्सेक्स' ८२ हजारांच्या वर, तर 'निफ्टी' २५ हजारांच्या वर बंद झाला.

आजच्या तेजीमुळे सर्व गुंतवणूकदारांच्या एकूण संपत्तीचे मूल्य ४४७.५ लाख कोटी रुपयांवरून ४५१ लाख कोटी रुपयांवर गेले. म्हणजे त्यात साडेतीन लाख कोटी रुपये वाढ झाली.

आज व्यवहार सुरू होताना शेअर बाजारांची सुरुवात संथ होती. मात्र, रिझर्व्ह बँक गव्हर्नरने व्याजदर कपातीचा निर्णय जाहीर केल्यावर निर्देशांकाने उसळी मारली आणि दिवसभर 'सेन्सेक्स' ८२ हजारांच्यावर, तर 'निफ्टी' पंचवीस हजारांच्या वरच राहिला. दिवसअखेर 'सेन्सेक्स' ८२,१८८.९९ अंशांवर, तर 'निफ्टी' २५,००३.०५ अंशांवर स्थिरावला.

व्याजदर कपातीचा परिणाम होऊ शकणाऱ्या बँका आणि वित्तसंस्था यांच्या शेअरमध्ये आज जोरदार वाढ झाली. बँक निफ्टी दीड टक्का वाढला, तर निफ्टी पीएसयू बँक अर्घा टक्का आणि निफ्टी खासगी बँकांचा निर्देशांक दोन टक्के वाढला. त्याचबरोबर बांधकाम व्यवसाय कंपन्यांचा निर्देशांकही तब्बल साडेचार टक्के वाढला. वाहननिर्मिती क्षेत्रही दीड टक्का वाढले, तर अन्य अर्थविषयक कंपन्यांचे क्षेत्र १.८ टक्के वाढले. आज केवल निफ्टी मेटल निर्देशांक एक टक्का घसरला, तरीही प्रमुख धातूनिर्मिती कंपन्या नफा दाखवीत होत्या.

अर्थव्यवस्था वाढीला लागावी यासाठी रिझर्व्ह बँकेने दर कपात केल्यामुळे गुंतवणूकदारांचा आत्मविश्वास वाढला आहे. जागतिक अनिश्चित वातावरणातही अजूनही दर कपात होऊ शकेल या विश्वासामुळे गुंतवणूकदार खुशीत आहेत, असे विनोद नायर यांनी सांगितले.

आज निफ्टी मिंड कॅप आणि स्मॉल कॅप निर्देशांक सच्चा टक्का आणि पाऊण टक्का वाढले. आज 'सेन्सेक्स'मध्ये फक्त एअरटेल आणि सनफार्मा किरकोळ घसरले. व्याजदर कपातीमुळे बँक आणि वित्तसंस्थांचे शेअर वाढले. आता पावसाचा परिणाम होणाऱ्या कृषी, ग्रामीण वित्तपुरवठा, दुचाकी कंपन्यांच्या कामगिरीवर सर्वांचे लक्ष राहील. रिझर्व्ह बँकेमुळे सुरू झालेली तेजी आता भारत अमेरिका कराराच्या अपेक्षेत कायम राहील.

- सिद्धार्थ खेमका, मोतीलाल ओसवाल फायनान्थिअल सर्व्हिसेस

त्याव्यतिरिक्त बजाज फायनान्स पाच टक्के, ॲक्सिस बँक तीन टक्के वाढले. इंडसइंड बँक, बजाज फिन्सव्हें, कोटक बँक, एचडीएफसी बँक, स्टेट बँक या शेअरचे भाव एक ते अडीच टक्के वाढले. त्याखेरीज मास्ती, एटर्नल, महिंद्र आणि महिंद्र, टाटा स्टील, अदानी पोर्ट या शेअरचे भावही एक टक्क्यांपेक्षा जास्त वाढले.

## नवी मुंबई हवाई अड्डे से उड़ानों का संचालन होगा; 350 से अधिक फ्लाइट्स की योजना

मुंबई, 6 जून (वि.प्र.)

अकासा एयर, अडानी एयरपोर्ट होल्डिंग्स लिमिटेड (एएएचएल) के सहयोग से आगामी नवी मुंबई अंतर्राष्ट्रीय हवाई अड्डे (एनएमआईए) पर अपनी परिचालन उपस्थिति की घोषणा करने वाली पहली एयरलाइनों में से एक बन गई है. जैसे-जैसे हवाई अड्डे का उद्घाटन नजदीक आ रहा है, अकासा ने शुरुआत में 100 से अधिक साप्ताहिक घरेलू प्रस्थान शुरू करने की योजना बनाई है, जो शीतकालीन कार्यक्रम तक बढ़कर 350 से अधिक साप्ताहिक उड़ानें, घरेलू और अंतर्राष्ट्रीय हो जाएंगी. नवीनतम रिपोर्टों के अनुसार, सार्वजनिक-निजी भागीदारी के माध्यम से विकास के तहत एक ग्रीनफील्ड हवाई अड्डा परियोजना, एनएमआईए का उद्घाटन अगस्त में किया जाएगा.

एनएमआईए की अकासा एयर की नेटवर्क रणनीति में मजबूत घरेलू कनेक्टिविटी और प्रमुख मध्य पूर्वी और दक्षिण पूर्व एशियाई देशों में अनुसूचित अंतर्राष्ट्रीय विस्तार शामिल है. एयरलाइन का लक्ष्य 2027 तक 10 पार्किंग बेस विकसित करना है, जो इसके विकास पथ और क्षेत्रीय विस्तार उद्देश्यों के अनुरूप होगा.

अकासा एयर के संस्थापक और सीईओ विनय दुबे ने कहा, नवी मुंबई अंतर्राष्ट्रीय हवाई अड्डे में हमारा प्रवेश अकासा एयर के दीर्घकालिक दृष्टिकोण के साथ जुड़ा एक रणनीतिक कदम है, जो भविष्य के लिए तैयार एयरलाइन बनाने के लिए है जो भारतीय यात्रियों की बदलती जरूरतों के प्रति उत्तरदायी है. भारत में किसी भी एयरलाइन के बेड़े और संचालन का प्रतिशत अकासा एयर की तुलना में एनएमआईए से बड़ा नहीं होगा.

28 मई को इंडिगो एयरलाइंस ने घोषणा की कि वह एनएमआईए से वाणिज्यिक उड़ानें शुरू करने वाली पहली एयरलाइन होगी. इसके अलावा, एएएचएल के सहयोग से, इंडिगो ने एनएमआईए परिचालन के पहले दिन से ही 15 से अधिक शहरों के लिए 18 दैनिक उड़ानों की योजना बनाई है, तथा विस्तार की योजना पर काम चल रहा है.

## रेपो दर में कटौती से बाजार ने भरी उड़ान

मुंबई, 6 जून (एजेंसियां)। भारतीय रिजर्व बैंक (आरबीआई) के रेपो दर में अप्रत्याशित आधे प्रतिशत की कटौती करने से दर के प्रति संवेदनशील रियल्टी, बैंकिंग, वित्तीय सेवाएं और ऑटो समेत 19 समूहों में हुई जबरदस्त लिवाली की बदौलत शेयर बाजार ने लंबी

- सेंसेक्स ०.९२ प्रतिशत की तेजी के साथ 82,188.९९ अंक पर
- निपटी 1.02 प्रतिशत उछलकर
   25003.05 अंक पर बंद

छलांग लगाई। बीएसई का तीस शेयरों वाला संवेदी सूचकांक सेंसेक्स 746.95 अंक अर्थात 0.92 प्रतिशत की तूफानी तेजी के साथ आठ कारोबारी सत्र के बाद 82 हजार अंक के मनोवैज्ञानिक स्तर के पार 82,188.99 अंक और नेशनल स्टॉक एक्सचेंज (एनएसई) का निफ्टी 252.15 अंक यानी 1.02 प्रतिशत उछलकर 25 हजार अंक के मनोवैज्ञानिक स्तर के ऊपर 25003.05 अंक पर बंद हुआ। इसी तरह बीएसई का मिडकैप 0.91 प्रतिशत मजबूत होकर 46,096.51 अंक और स्मॉलकैप 0.43 प्रतिशत चढकर 53,440.26 अंक हो गया।

इस दौरान बीएसई में कुल 4156 कंपनियों के शेयरों में कारोबार हुआ, जिनमें से 2278 में लिवाली जबकि 1744 में बिकवाली हुई वहीं 134 में कोई बदलाव नहीं

हुआ। इसी तरह एनएसई में कारोबार के लिए रखी गई कुल 2993 कंपनियों के शेयरों में से 1673 में तेजी जबिक 1229 में गिरावट रही वहीं 91 में टिकाव रहा।

आरबीआई गवर्नर संजय मल्होत्रा ने मौद्रिक नीति समिति (एमपीसी) की 55वीं और चालू वित्त वर्ष में एमपीसी की दूसरी तीन दिवसीय द्विमासिक बैठक में लिए गए निर्णयों की जानकारी देते हुए कहा कि पिछले दो बार से रेपो दर में 0.25 प्रतिशत और 0.25 प्रतिशत की कमी की गई थी और अब इसमें 0.50 प्रतिशत की कटौती की जा रही है, जो तत्काल प्रभाव से लागू हो जाएगी। इससे बीएसई के 19 समूहों में जमकर लिवाली हुई। इस दौरान रियल्टी 4.74, वित्तीय सेवाएं 1.79, ऑटो 1.50, बैंकिंग 1.25, कमोडिटीज 0.72, सीडी 1.38, ऊर्ज 0.55, एफएमसीजी 0.19, हेल्थकेयर 0.40, आईटी 0.41, दूरसंचार 0.14, यूटिलिटीज 1.04, कंज्यूमर ड्यूरेबल्स 1.30, धातु 1.56, तेल एवं गैस 0.76, पावर 0.78, टेक 0.30, सर्विसेज 0.42 और फोकस्ड आईटी समृह के शेयर 0.52 प्रतिशत उछल गए।

विश्व बाजार में मिलाजुला रुख रहा। इससे ब्रिटेन का एफटीएसई 0.01, जर्मनी का डैक्स 0.24 और हांगकांग का हैंगसेंग 0.48 प्रतिशत लुढ़क गया वहीं जापान का निक्केई 0.50 और चीन के शंघाई कंपोजिट में 0.04 प्रतिशत की बढ़त रही। जबकि ब्रिटेन के साथ मुक्त व्यापार समझौते (एफटीए) का समापन और अन्य देशों के साथ प्रगति व्यापार गतिविधि का समर्थन करती है।

इस दौरान सेंसेक्स में सन फार्मा और भारती एयरटेल की 0.39 प्रतिशत तक की गिरावट को छोड़कर अन्य कंपनियों में तेजी रही। बजाज फाइनेंस 4.93, एक्सिस बैंक 3.15, मारुति 2.64, इंडसइंड बैंक 2.50, बजाज फिनसर्व 2.36, इटरनल 2.10, महिंद्रा एंड महिंद्रा 2.02, टाटा स्टील 2.01, कोटक बैंक 1.61, टाइटन 1.49, एचडीएफसी बैंक 1.42, एनटीपीसी 1.28 और अडानी पोर्ट्स के शेयर 1.04 प्रतिशत चढ़ गए।
