Adani's Vizhinjam Port Welcomes World's Largest, Eco-friendly Container Ship

PTI

Thiruvananthapuram: Billed as one of the world's largest and most fuel-efficient container ships, MSC Türkiye docked at Vizhinjam International Seaport, operated by Adani Ports and SEZ Ltd (APSEZ), in Kerala on Wednesday.

This is the first time the giant vessel has docked at an Indian port, sources in the know of the development said.

Hailed as a landmark event in India's maritime history, the arrival of MSC Türkiye is seen as a major boost to the Vizhinjam port's growing reputation as a global transshipment hub and highlights its capability to attract ultra-large container vessels (ULCVs) from around the world.

MSC Türkiye, which is run by the Mediterranean Shipping Company (MSC), is a modern engineering marvel. The vessel measures 399.9 metres in length, 61.3 m in width and 33.5 m in depth. The ship can load about 24,346 twenty-foot equivalent units (TEUs), making it one of

the largest container ships ever built. Apart from its immense size, what distinguishes MSC Türkiye is its eco-friendly design. The vessel has been engineered with a priority on fuel efficiency and reducing environmental impacts. Sources said it has a low-carbon footprint per container, which significantly decreases carbon dioxide emissions per tonne of cargo transported.

Flying the Liberian flag, the cargo ship represents a leap forward in sustainable global shipping.

MSC Türkiye's arrival augurs well with the ambitious plan charted out by APSEZ to turn Vizhinjam port, which was founded in 2015 and started operations last year, into a major marine hub worldwide.

Last September, MSC Claude Girardet, a ULCV of the MSC, docked at the Vizhinjam port. The 399.99-m-long, 61.5-m-wide vessel with a container capacity of 24,116 TEUs was the largest container vessel to visit India at that time, which has now been overtaken by MSC Türkiye.

The APSEZ-run deep-sea water port is India's first mega transshipment container terminal. It is clos-

est to the international shipping routes, and centrally located on the Indian coastline. It is just 10 nautical miles (19 km) from the busy east-west shipping channel that connects Europe, the Persian Gulf, Southeast Asia and the Far East.

With a natural depth of 20 m, the port requires minimum dredging and can accommodate some of the world's largest cargo vessels, including ULCVs carrying over 24,000 TEUs.

Vizhinjam port offers large-scale automation for quick turnaround of vessels with state-of-the-art infrastructure to handle Megamax container ships. Its capacity in Phase 1 is 1 million TEUs, with an additional 4.5 million TEUs to be added in subsequent phases.

The Adani Group has a 40-year pact with the Kerala government to develop and operate the Vizhinjam port, with all the phases set for completion in 2028. Once fully operational, it will be capable of handling 50 per cent of India's container transshipment needs, reducing its reliance on other Asian ports such as Dubai, Colombo and Singapore.

MSC Turkiye docks at Vizhinjam

TIMES NEWS NETWORK

T'puram: MSC Turkiye, one of the largest container vessels in the world that can carry 24,300 containers, docked at Vizhinjam International Seaport on Tuesday.

An official said the ship arrived as part of commercial operations and is part of the Jade shuttle service MSC launched. It is not known how many containers the ship will be delivering at Vizhinjam.

The arrival of some of the largest container ships shows that Vizhinjam port is a popular destination for MSC. Earlier, minister of ports VN Vasavan said handling 5 lakh 20-foot equivalent units (TEU) containers is a significant milestone for a new port.

“This achievement was reached by Vizhinjam port in a short period. So far, 501,847 TEU of cargo was moved across 246 ships. The projected annual capacity in the first phase is 10 lakh TEU,” he said.

“Achieving this milestone in such a short time highlights the importance of Vizhinjam port in the global maritime sector and the efficiency of the Adani Vizhinjam Port authorities,” he added.

One of world's largest container ships docks at Vizhinjam port

EXPRESS NEWS SERVICE
THIRUVANANTHAPURAM,
APRIL 9

BILLED AS one of the world's largest and most fuel-efficient container ships, MSC Türkiye, docked at Vizhinjam International Seaport, Wednesday, marking another milestone in the journey of India's first deepwater transshipment port. Hailing the landmark event in the country's maritime history, Kerala Minister for Ports V N Vasavan said that this marks the first-ever docking of the giant container ship at an Indian port as well as in South Asia.

The two-year-old ship, MSC Türkiye measures 399.9 m in length, 61.3 m in width and 33.5 m in depth and is currently sailing under the flag of Liberia. It was received at the seaport with a water salute. The ship can load about 24,346 twenty-foot equivalent units (TEUs), making it one of the largest container ships.

The seaport has already established its presence in the global shipping industry within a few months of commencing commercial operation in December last year after four months of trial

Container ship MSC Türkiye at Vizhinjam port, Wednesday. PTI

run. Port officials said that in the last month itself, the seaport has handled 51 vessels and 1,08,770 TEUs, achieving the highest monthly performance ever.

Last month, the Mediterranean Shipping Company (MSC) had included Vizhinjam seaport in its jade service. MSC MIA, the first mothership under MSC's flagship Jade service, had docked at Vizhinjam last month. Jade service is a key shipping route operated by MSC connecting Asia and Europe, with a call in Vizhinjam, before sailing to the Mediterranean. The arrival Wednesday cements Vizhinjam's role as a key hub in the Asia-Europe shipping route, ushering in a new era of maritime connectivity and economic growth.

alent units (TEUs), making it one of the largest container ships.

The seaport has already established its presence in the global shipping industry within a few months of commencing commercial operation in December

last year after four months of trial run. Port officials said that in the last month itself, the seaport has handled 51 vessels and 1,08,770 TEUs, achieving the highest monthly performance ever.

Last month, the

Mediterranean Shipping Company (MSC) had included Vizhinjam seaport in its jade service. MSC MIA, the first mothership under MSC's flagship Jade service, had docked at Vizhinjam last month. Jade service is a key shipping route operated by MSC connecting Asia and Europe, with a call in Vizhinjam, before sailing to the Mediterranean.

The arrival Wednesday cements Vizhinjam's role as a key hub in the Asia-Europe shipping route, ushering in a new era of maritime connectivity and economic growth. The Rs 7,600-crore transshipment deepwater multipurpose seaport project in Vizhinjam is being executed by Adani Ports and SEZ Pvt Ltd on a design, build, finance, operate and transfer (DBFOT) model.

Vizhinjam is the first international deepwater transshipment port in the Indian subcontinent, with a natural depth of more than 18 m, scalable up to 20 m.

Adani's Vizhinjam Port welcomes arrival of largest-ever container ship in Indian waters

THIRUVANANTHAPURAM,
APRIL 9

In a landmark event for India's maritime industry, Vizhinjam International Seaport, developed and operated by Adani Ports and SEZ Ltd, on Wednesday received MSC Turkiye, one of the world's largest and most sustainable container vessels.

This is the ship's first call at any Indian port. Spanning 399.9 metres in length, 61.3 metres in width, and 33.5 metres in depth, MSC Turkiye boasts a massive capacity of 24,346 twenty-foot equivalent units (TEUs), making it the largest container ship to berth at an

Indian port to date.

Operated by the Mediterranean Shipping Company (MSC) and registered under the Liberian flag, the vessel represents cutting-edge innovation in fuel-efficient, environmentally responsible marine engineering.

This milestone reinforces Vizhinjam's growing status as a premier global transshipment hub, strategically situated just 10 nautical miles (19 km) from the key east-west international shipping route.

The port's natural draft of 20 metres allows it to accommodate ultra-large container vessels (ULCVs) without extensive dredging.

The historic docking fol-

lows a record-setting call by MSC Claude Girardet in September 2024, which held the previous benchmark with its 24,116 TEU capacity. MSC Turkiye now eclipses that record.

Vizhinjam is India's first Mega Transshipment Container Terminal, equipped with advanced automation, state-of-the-art infrastructure, and rapid vessel turnaround capabilities.

Phase 1 currently supports 1 million TEUs, with expansion plans targeting 5.5 million TEUs by 2028.

APSEZ holds a 40-year concession with the Kerala government to develop and operate the port. Once fully operational, Vizhinjam is expected to handle nearly half of India's container transshipment needs, reducing reliance on international ports like Colombo, Singapore, and Dubai.

The arrival of MSC Turkiye affirms APSEZ's commitment to transforming Vizhinjam into a globally competitive maritime hub, enhancing India's logistics capabilities and trade influence on the world stage. **IANIS**

Kerala's pact with Centre for Vizhinjam Port project

THIRUVANANTHAPURAM: The union government, a bank consortium and Adani Ports Pvt Ltd, which manages the Vizhinjam deep-sea port, on Wednesday inked a tripartite Memorandum of Understanding (MoU) for providing Viability Gap Funding (VGF) of Rs 817.80 crore to the project.

Besides that, the Centre and the Kerala government signed an MoU according to which the state will share 20 percent of the revenue it gets from the port with the union government.

The deep-water port has been developed by Adani Ports and Special Economic Zone Ltd (APSEZ), India's largest port developer and part of the Adani Group, under a public-private partnership model at an estimated cost of Rs 8,867 crore.

Speaking on the occasion, state Minister for Ports, VN Vasavan said that the Kerala government has decided to accept the VGF as a loan from the Union government.

He said that the state agreed to accept it as a loan after several pleas to the Centre to provide it as a grant did not yield a result.

"Till now, the Union government had provided VGF as a grant, like it had given to the Tuticorin Port. Our Chief Minister had personally written to the Prime Minister requesting him to provide the amount as a grant. But we have not received any positive reply and in order to avoid further delays, we have decided to take it as a loan," Vasavan said.

VN Vasavan said the Vizhinjam International Seaport Ltd (VISL) is the biggest development dream of the state and the government did not want any delay in completion of the project.

Kochi

World’s largest green ship docks at Kerala port

TRIVANDRUM: MSC Türkiye, recognized as one of the world’s largest and most fuel-efficient container ships, made its inaugural call at the Vizhinjam International Seaport on Wednesday.

The port authorities said this significant event marks the first time this colossal vessel has navigated the waters of South Asia.

Operated by the Mediterranean Shipping Company (MSC), MSC Türkiye is hailed as a marvel of modern engineering.

The 2023-built cargo ship measures 399.9 metres in length, 61.3 metres in width, and 33.5 metres in depth.

With a remarkable capacity to carry approximately 24,346 twenty-foot equivalent units (TEUs), it ranks among the largest container ships ever constructed.

The Vizhinjam International Seaport, managed by Adani Ports and Special Economic Zone (APSEZ), is India’s first mega transshipment container terminal.

This state-of-the-art port is strategically situated as the only transshipment hub in the Indian subcontinent.

It is closest to vital international shipping routes and centrally located along the Indian coastline.

Notably, it lies a mere 10 nautical miles (about 19 kilometres) from the bustling east-west shipping channel that interlinks Europe, the Persian Gulf, Southeast Asia, and the Far East.

The MSC Türkiye, which sails under the flag of Liberia, is particularly distinguished for its eco-friendly design.

It features one of the lowest carbon footprints per container carried, alongside a significant

reduction in CO₂ emissions associated with each transport.

Last September, the MSC Claude Girardet, another ultra-large container vessel from the MSC fleet, made history by docking at the Vizhinjam seaport.

At 399.99 metres in length and 61.5 metres in width, with a capacity of 24,116 TEUs, it was the largest container vessel to visit India so far.

MSC Türkiye lay docked at India's Vizhinjam port on Wednesday.

Even before the official commissioning of the port, the facility in the Kerala state capital showcased impressive operational capabilities, successfully handling five million TEUs and accommodating the berthing of 240 vessels.

Prime Minister Narendra Modi is slated to formally launch the port’s commercial operations later this year, a few months before the crucial state elections.

In March 2025 alone, the port set a remarkable record by handling over 108,000 TEUs from 51 vessels, highlighting its growing importance in regional and global logistics.
