BlackRock picks up nearly a third of Adani's \$1 bn bonds

BlackRock, Inc. has made a big bet on the Adani Group, snapping up nearly a third of about \$1 billion bonds sold by a group promoter entity, marking the first investment in any Adani entity by the world's largest asset manager.

Apart from BlackRock, at least five other top global funds also bought the bonds privately placed by Renew Exim, an Adani Group promoter firm, two people aware of the matter said.

"BlackRock is one of these investors. There are a few European investors as well," one of the two people said on the condition of anonymity, adding that most of the money raised will be utilized for the acquisition of ITD Cementation, while the rest will be used for funding the capex plans of other Adani group firms. Renew Exim DMCC, in October, had proposed to acquire 46.64% in ITD Cementation India, and buy an additional 26% through an open offer.

BlackRock's vote of confidence comes in the backdrop of ongoing litigation in a US court against the conglomerate's promoters over a case of alleged bribery. Adani Green's promoters were indicted in the US last year, over charges that they have denied as baseless and vowed to contest.

"Renew Exim will hold 67.45% in ITD Cementation after the completion of the open offer. The total amount for the acquisition of ITD Cementation would cost around ₹5,000 crore. The proceeds from the latest bond placement by the promoter entity will be used for the expansion of other group companies," said the first person.

At least five other global funds bought the bonds privately placed by an Adani Group firm. AP

Adani Group has planned a ₹5 trillion capex over the next five years. About 85% of this will be for utilities such as green energy, other power generation projects, power transmission projects, airports and ports. The remaining 15% is planned to be spent on metals, materials and mining.

A 31 March report by Mint said Adani Group, whose renewable arm is planning to mobilize a total of \$4-5 billion across FY26, has stated in its recent roadshows that it has deep access to diverse pools of capital, securing large amounts for long durations.

However, as foreign investors started demanding interest rates of 7-9% for the group's bonds following the bribery charges, Adani Group has been attempting to restore the confidence of foreign investors, and preferring to raise capital in the domestic market only.

The two persons said the private placement size is a little under \$1 billion and the bond tenure is over three years, which is considered to be medium-term debt papers.

"Adani stakeholders are see-

ing this as a major move as the entry of BlackRock is now seen as the global investors are not much worried about the DoJ case," said the first person.

On Wednesday, the ITD Cementation open offer was concluded, with 20.81% shares being tendered by the public. On 30 January, the Competition Commission of India (CCI) had approved Adani's proposal to acquire a majority stake in ITD Cementation, which undertakes heavy civil, infrastructure and engineering, procurement and construction business and operating in India and overseas.

"This acquisition marks a significant milestone as it enhances the overall projects execution capabilities and strategically positioning Adani portfolio companies to capitalize on the burgeoning opportunities in the country's booming infrastructure sector," said the second person.

On 3 March, Adani Green Energy refinanced its maiden construction facility, having outstanding debt of \$1.06 billion, with long-term financing, the company said.

Funds managed by BlackRock, the global investment behemoth, emerged as the largest subscribers of the \$750 million private bond issuance by the Adani Group.

The US-based asset manager, overseeing \$12 trillion in assets, has taken on one-third of the \$750 million is-

BlackRock's move marks its first private placement in India's infrastructure sector, a segment the firm is in-

creasingly bullish on. The \$750 million has been raised by Renew Exim, a private group-level entity, to finance the acquisition of ITD Cementation. Aside from BlackRock, five other institutional investors — primarily American and European — also participated in the Adani Group's latest capital raise. These included funds managed by Sona Asset Management.

BlackRock emerges as largest investor in Adani's \$750 million bond issue

PTI

NEW DELHI

Funds managed by BlackRock, the global investment behemoth, emerged as the largest subscribers of the USD 750-million private bond issuance by the Adani Group.

The US-based asset manager, overseeing USD 12 trillion in assets, has taken on one-third of the USD 750 million issuance, which carries a tenure of 3-5 years, sources with direct knowledge of the matter said. This investment comes at

a time when Adani Group officials are under scrutiny following a US Department of Justice (DOJ) indictment in a bribery case in November last year.

BlackRock's move marks its first private placement in India's infrastructure sector -- a segment the firm is increasingly bullish on. "Infrastructure is one of the most exciting long-term investment opportunities, as a number of structural shifts re-shape the global economy," BlackRock Chairman Larry Fink had stated in January 2024, following the

company's USD 12.5-billion acquisition of Global Infrastructure Partners (GIP), a major player in ports, power, and digital infrastructure.

Aside from BlackRock, five other institutional investors -- primarily American and European -- also participated in the Adani Group's latest capital raise. These included

funds managed by Sona Asset Management.

The USD 750 million bond issue of Renew Exim DMCC, a wholly owned offshore entity of the Adani group promoter family, is to be used to finance acquisition of ITD Cementation and other growth avenues.

The Adani Group views the entry of the world's largest investor as a strong vote of confidence, particularly at a time when its fundraising capabilities have been questioned due to the ongoing DOJ investigation.

The \$750 million bond issue of Renew Exim DMCC, a wholly owned offshore entity of the Adani group promoter family, is to be used to finance acquisition of ITD Cementation and other growth avenues.

The Adani Group views the entry of the world's largest investor as a strong vote of confidence, particularly at a time when its fundraising capabilities have been questioned due to the ongoing DOJ investigation.

BlackRock's involvement

also signals that it does not anticipate any significant operational disruptions for the conglomerate stemming from the legal proceedings.

This marks the Adani Group's second private dollar bond issuance. In February, the group raised about \$200 million for its Australian port operations.

The latest raise — almost four times larger — is the most substantial since the DOJ indictment. The \$750 million has been raised by Renew Exim, a private group-level entity, to finance the acquisition of ITD Cementation.

Key Points

- » 'The US-based asset manager has taken on one-third of \$750 mn issuance, which carries a tenure of 3-5 years'
- » BlackRock's move marks its first pvt placement in India's infra sector — a segment the firm is increasingly bullish on
- » 'Infrastructure is one of most exciting long-term investment opportunities, as a number of structural shifts re-shape the global economy'

Last year, the Adani Group announced the purchase of a 46.64 per cent stake in ITD Cementation for Rs 5,888.57 crore from its promoters, aiming to bolster its engineering capabilities in the infrastructure sector.

Renew Exim has since acquired an additional 20.81 per cent through an open offer at Rs 400 per share. ITD Cementation, known for its work on key projects such as Jawaharlal Nehru Port Trust and ports in Tuticorin, Mundra, and Vizhinjam, is seen as a strategic asset for Adani's long-term infrastructure ambitions.

वैश्विक निवेश फर्म ब्लैकरॉक द्वारा प्रबंधित कोष अदाणी समूह की तरफ से जारी 75 करोड़ डॉलर के निजी बॉन्ड के सबसे बड़े ग्राहक बनकर उभरे हैं। मामले के जानकारी सूत्रों ने कहा कि करीब 12 लाख करोड़ डॉलर की संपत्तियों की देखरेख करने वाली अमेरिकी परिसंपत्ति प्रबंधन कंपनी ने 75 करोड़ डॉलर के बॉन्ड निर्गम का एक-तिहाई हिस्सा लिया है। इन बॉन्ड की अवधि तीन से पांच साल की है। ब्लैकरॉक ने अदाणी समूह में यह निवेश ऐसे समय किया है जब कथित तौर पर रिश्त देने के मामले में अमेरिकी न्याय विभाग (डीओजे) के अभियोग के बाद अदाणी समूह के कुछ शीर्ष अधिकारी जांच के दायरे में हैं। ब्लैकरॉक का यह कदम भारत के बुनियादी ढांचा क्षेत्र में उसका पहला निजी निवेश है। निवेश फर्म इस समय बुनियादी ढांचा खंड पर खासा जोर दे रही है। ब्लैकरॉक के चेयरमैन लैरी फिंक ने जनवरी, 2024 में कहा था, बुनियादी ढांचा सबसे रोमांचक दीर्घकालिक निवेश अवसरों में से एक है, क्योंकि कई

संरचनात्मक बदलाव वैश्विक अर्थव्यवस्था को नया आकार देते हैं। कंपनी ने पिछले साल बंदरगाह, बिजली और डिजिटल बुनियादी ढांचे में सक्रिय कंपनी ग्लोबल इन्फ्रास्ट्रक्चर पार्टनर्स (जीआईपी) का 12.5 अरब डॉलर में अधिग्रहण किया था। अदाणी समूह की नवीनतम पूंजी संग्रह पहल में ब्लैकरॉक के अलावा पांच अन्य संस्थागत निवेशकों ने भी शिरकत की। इनमें सोना एसेट मैनेजमेंट द्वारा प्रबंधित कोष भी शामिल थे। अदाणी समूह के प्रवर्तक परिवार के पूर्ण-स्वामित्व वाली इकाई रिन्यू एंजिजम डीएमसीसी की तरफ से जारी 75 करोड़ डॉलर के बॉन्ड का उपयोग आईटीडी सीमेंटेशन के अधिग्रहण और अन्य वृद्धि पहलों के वित्तपोषण के लिए किया जाएगा। अदाणी समूह दुनिया की सबसे बड़ी निवेशक फर्म के प्रवेश को एक मजबूत विश्वास के रूप में देखता है।
