अहमदाबाद, 18 मई (एजेंसियां)। अडानी डिफेंस एंड एयरोस्पेस ने रविवार को देश में स्वदेशी एंटी-सबमरीन वारफेयर सॉल्यूशंस विकसित करने के लिए स्पार्टन (डेलिओन स्पिंग्स एलएलसी) के साथ साझेदारी एग्रीमेंट साइन किया। स्पार्टन, एलिबट सिस्टम्स की कंपनी है, जो एडवांस्ड एंटी-सबमरीन वारफेयर (एडब्ल्यूएस) सिस्टम्स बनाती है।

NEW DELHI: Billionaire Gautam Adani's group has signed a deal with US-based undersea warfare company Sparton to develop electronic sensors and navigation systems that could be used for anti-submarine warfare, the conglomerate said on Sunday.

Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC) to assemble anti-submarine warfare (ASW) solutions for the Indian Navy, it said in a statement.

The partnership aims to localise the assemblage of sonobuoys and other ASW systems in India under the 'Aatmanirbhar Bharat' initiative.

It will be the first private company in India to offer indigenous Sonobuoys solutions to the Indian Navy.

Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli defence electronics company Elbit Systems Ltd.

Prior to the current deal, the Adani Group had in 2018 set up a joint venture partnership with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones.

In 2020, Adani-Elbit announced 'mini' drone missile weapons production.

Adani Group has also partnered with Israel Weapon Industries to manufacture assault weapons, sniper rifles and machine guns.

According to a statement from the Adani Group company on Sunday, this partnership marks a significant step toward localizing the assembly of complex electronic systems and advanced Anti-Submarine Warfare (ASW) solutions for the Indian and global markets.

Adani Defence & Aerospace claimed that it became the first private sector company in India to offer indigenised sonobuoy solutions.

The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and suste-

Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced Anti-submarine warfare systems.

According to a statement from the Adani Group company on Sunday, this partnership marks a significant step toward localizing the assembly of complex electronic systems and advanced Anti-Submarine Warfare (ASW) solutions for the Indian and global markets.

Adani Defence & Aerospace claimed that it became the first private sector company in India to offer indigenised sonobuoy solutions.

The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and suste-

nance for the Indian Navy.

Sonobuoys are mission-critical platforms for enhancing Undersea Domain Awareness (UDA), providing an effective means to detect, locate, and track submarines and other underwater threats. Playing a key role in anti-submarine warfare (ASW) and other naval operations, they support in maintaining naval security and in protecting naval carrier strike groups.

For decades, India has been importing this critical naval capability from global markets, increasing our dependency on foreign original equipment manufacturers (OEMs).

Sparton's ongoing relationship with the Indian Navy, will now facilitate Adani Defence to indigenise the delivery of these solutions that are made in India, for India. Jeet Adani, Vice President of Adani Enterprises, said, "In an increasingly volatile maritime environment, strengthening India's undersea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests. The Indian Navy requires integrated, mission-ready ISR and anti-submarine warfare capabilities, including critical systems like sonobuoys, that are indigenously developed, swiftly deployable, and globally competitive."

The partnership will combine Sparton's pioneering anti-submarine warfare technology with Adani Defence's established expertise in

The agreement positions Adani Defence & Aerospace as the first private company in India to offer indigenous sonobuoy solutions to the Indian Navy

development, manufacturing, and sustenance for the Indian Navy.

Sonobuoys are mission-critical platforms for enhancing undersea domain awareness, providing an effective means to detect, locate, and track submarines and other underwater threats. Playing a key role in anti-submarine warfare and other naval operations, they support in maintaining naval security and in protecting naval carrier strike groups. For decades, India has been importing this critical naval capability from global markets, increasing our

dependency on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiative, Sparton's ongoing relationship with the Indian Navy, will now facilitate Adani Defence to indigenise the delivery of these solutions that are made in India, for India.

Jeet Adani, vice president of Adani Enterprises, said, "In an increasingly volatile maritime environment, strengthening India's undersea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests.

"For decades, India has been dependent on imports for such critical technology. This partnership to bring world-class sonobuoy technology and integrating it with India's defence ecosystem, is a step towards building self-reliant capabilities in this critical domain," Ashish Rajvanshi, CEO, Adani Defence & Aerospace, said.

Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli

defence electronics company Elbit Systems Ltd.

Prior to the current deal, the Adani Group had in 2018 set up a joint venture partnership with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones. In 2020, Adani-Elbit announced 'mini' drone missile weapons

production.

Adani Group has also partnered with Israel Weapon Industries to manufacture assault weapons, sniper rifles and machine guns.

In a statement on Sunday, Adani Defence & Aerospace said it "has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine warfare systems. This partnership marks a significant step toward localising the assembly of complex electronic systems and advanced ASW solutions for the Indian and global markets".

Sonobuoys are mission-critical platforms for enhancing Undersea Domain Awareness (UDA), providing an effective means to detect, locate, and

track submarines and other underwater threats. Playing a key role in anti-submarine warfare (ASW) and other naval operations, they support in maintaining naval security and protecting carrier strike groups.

Sparton manufactures electronic sensor systems, navigation systems, and undersea warfare delivery systems.

"For decades, India has been importing this critical naval capability from global markets, increasing our dependence on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiative, Sparton's ongoing relationship with the Indian Navy will now facilitate Adani Defence to indigenise the delivery of these solutions that are made in India, for India," the statement said.

Adani partners with Sparton to develop anti-submarine warfare solutions

NEW DELHI, MAY 18 /--/ Billionaire Gautam Adani's group has signed a deal with a US undersea warfare company Sparton to develop electronic sensors and navigation systems that could be used for anti-submarine warfare, the conglomerate said on Sunday. Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC) to assemble anti-submarine warfare (ASW) solutions for the Indian Navy, it said in a statement. The partnership aims to localise the assemblage of sonobuoys and other ASW systems in India under the 'Aatmanirbhar Bharat' initiative. It will be the first private company in India to offer indigenous Sonobuoys solutions to the Indian Navy. Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic

systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli defence electronics company Elbit Systems Ltd. Prior to the current deal, the Adani Group had in 2018 set up a joint venture partnership with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones. In 2020, Adani-Elbit announced 'mini' drone missile weapons production. Adani Group has also partnered with Israel Weapon Industries to manufacture assault weapons, sniper rifles and machine guns.

In a statement on Sunday, Adani Defence & Aerospace said it "has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine

warfare systems. This partnership marks a significant step toward localising the assembly of complex electronic systems and advanced Anti-Submarine Warfare (ASW) solutions for the Indian and global markets". The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and sustenance for the Indian Navy. Sonobuoys are mission-critical platforms for enhancing Undersea Domain Awareness (UDA), providing an effective means to detect, locate, and track submarines and other underwater threats. Playing a key role in anti-submarine warfare (ASW) and other naval operations, they support in maintaining naval security and protecting carrier strike groups. Sparton manufactures electronic

sensor systems, navigation systems, and undersea warfare delivery systems. "For decades, India has been importing this critical naval capability from global markets, increasing our dependence on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiative, Sparton's ongoing relationship with the Indian Navy will now facilitate Adani Defence to indigenise the delivery of these solutions that are made in India, for India," the statement said.

Jeet Adani, Vice President of Adani Enterprises, remarked, "In an increasingly volatile maritime environment, strengthening India's undersea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests. The Indian Navy requires integrated,

mission-ready ISR and anti-submarine warfare capabilities, including critical systems like sonobuoys, that are indigenously developed, swiftly deployable, and globally competitive. Adani partners with Sparton to develop anti-submarine warfare solutions

NEW DELHI, MAY 18 /--/ Billionaire Gautam Adani's group has signed a deal with a US undersea warfare company Sparton to develop electronic sensors and navigation systems that could be used for anti-submarine warfare, the conglomerate said on Sunday. Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC) to assemble anti-submarine warfare (ASW) solutions for the Indian Navy, it said in a statement. The partnership aims to localise the assemblage of sonobuoys and other ASW systems in India under the 'Aatmanirbhar Bharat' initiative. It will be the first private company in India to offer indigenous Sonobuoys solutions to the Indian Navy. Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic

systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli defence electronics company Elbit Systems Ltd. Prior to the current deal, the Adani Group had in 2018 set up a joint venture partnership with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones. In 2020, Adani-Elbit announced 'mini' drone missile weapons production. Adani Group has also partnered with Israel Weapon Industries to manufacture assault weapons, sniper rifles and machine guns.

In a statement on Sunday, Adani Defence & Aerospace said it "has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine

warfare systems. This partnership marks a significant step toward localising the assembly of complex electronic systems and advanced Anti-Submarine Warfare (ASW) solutions for the Indian and global markets". The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and sustenance for the Indian Navy. Sonobuoys are mission-critical platforms for enhancing Undersea Domain Awareness (UDA), providing an effective means to detect, locate, and track submarines and other underwater threats. Playing a key role in anti-submarine warfare (ASW) and other naval operations, they support in maintaining naval security and protecting carrier strike groups. Sparton manufactures electronic

sensor systems, navigation systems, and undersea warfare delivery systems. "For decades, India has been importing this critical naval capability from global markets, increasing our dependence on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiative, Sparton's ongoing relationship with the Indian Navy will now facilitate Adani Defence to indigenise the delivery of these solutions that are made in India, for India," the statement said.

Jeet Adani, Vice President of Adani Enterprises, remarked, "In an increasingly volatile maritime environment, strengthening India's undersea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests. The Indian Navy requires integrated,

mission-ready ISR and anti-submarine warfare capabilities, including critical systems like sonobuoys, that are indigenously developed, swiftly deployable, and globally competitive. अदाणी डिफेंस की स्मार्टन के साथ साझेदारी, नौसेना की बढ़ेगी ताकत भारत में ही होगा सोनोबॉयज का उत्पादन

■ दिल्ली, न्यूज एजेंसियां. समंदर में भारत की ताकत में इजाफा होने वाला है. समुद्री युद्ध क्षमता को मजबूत करने के लिए एक बड़ा कदम उठाया गया है. अदाणी समूह की शीर्ष कंपनी अदाणी एंटरप्राइजेज की सहायक कंपनी अदाणी डिफेंस एंड एयरोस्पेस ने अमेरिका की कंपनी स्मार्टन के साथ साझेदारी की है. यह कंपनी एलबिट सिस्टम्स की सहायक कंपनी है. यह एंटी-सबमरीन वॉरफेयर (एसडब्ल्यू) सिस्टम बनाने की दमिगज है. इस साझेदारी से भारत में ही सोनोबॉयज का उत्पादन होगा. सोनोबॉयज एक तरह के इलेक्ट्रॉनिक

सिस्टम होते हैं. इनका इस्तेमाल पनडुब्बियों का पता लगाने और उन्हें ट्रैक करने के लिए किया जाता है. यह भारत के निजी क्षेत्र के लिए पहली बार है. इस समझौते का लक्ष्य भारत में ही आधुनिक एसडब्ल्यू

सॉल्यूशंस को बनाना है. इससे विदेशी सामान पर निर्भरता कम होगी. यह कदम सरकार की 'आत्मनिर्भर भारत' और 'मेक इन इंडिया' योजनाओं के साथ मेल खाता है. इससे एक महत्वपूर्ण क्षेत्र में देश की क्षमता बढ़ेगी. अदाणी एंटरप्राइजेज के वाइस प्रेसिडेंट जीत अदाणी ने कहा कि यह विकास भारत की समुद्री तैयारी के लिए बहुत जरूरी है. उन्होंने कहा, 'एक अस्थिर समुद्री माहौल में भारत की समुद्री युद्ध क्षमता को मजबूत करना सिर्फ रणनीतिक प्राथमिकता नहीं है, बल्कि देश की सुरक्षा और राष्ट्रीय हितों के लिए जरूरी है.'

ડિફેન્સ એન્ડ એરોસ્પેસ ભારતમાં સ્વદેશી સોનોબ્યુઓસ ઉપાયો ઓફર કરનારી ભારતના ખાનગી ક્ષેત્રની પ્રથમ કંપની બનીને ભારતના આત્મ નિર્ભર તરફના પ્રયાણમાં યોગદાન આપવાના તેના સંકલ્પને અંકીત કરે છે. આ ભાગીદારી ભારતીય નૌકાદળ માટે વિકાસ, ઉત્પાદન અને નિર્વાહમાં અદાણી સંરક્ષણની સ્થાપિત કુશળતા સાથે સ્પાર્ટનની અગ્રણી એન્ટી સબ મરીન વોરફેર ટેકનોલોજીને જોડશે. સોનોબ્યુઓસ એ અન્ડરસી ડોમેન અવેરનેસ (યુડીએ) ને વધારવા માટે એક મિશન-ક્રિટિકલ પ્લેટફોર્મ છે, જે સબમરીન અને અંડરવોટર અન્ય ધમકીઓને શોધવા અને તેનો પીછો કરવા માટે અસરકારક માધ્યમ પુરું પાડે છે. એન્ટિ-

સબમરીન વોરફેર (એએસડબ્લ્યુ) અને અન્ય નૌકા કામગીરીમાં મુખ્ય ભૂમિકા ભજવતી આ સિસ્ટમ નૌકા સુરક્ષા જાળવવામાં અને નૌકા કાફલા ઉપર ત્રાટકતા જૂથો સામે સુરક્ષિત રાખવામાં ટેકો આપે છે.

વૈશ્વિક બજારોમાંથી આ નિર્ણાયક નૌકા ક્ષમતાની ભારત દાયકાઓથી આયાત કરવા સાથે વિદેશી OEM પરનું આપણું અવલંબન વધારી રહી છે. 'આત્મ નિર્ભર ભારત' અને 'મેક ઇન ઇન્ડિયા'ની પહેલ સાથે જોડાયેલા સ્પાર્ટનના ભારતીય નૌકાદળ સાથેના ધનિષ્ઠ સંબંધો હવે ભારતમાં બનેલા આ ઉકેલોની ડિલિવરીને સ્વદેશી કરવા માટે અદાણી ડિફેન્સને સવલત આપશે.

અદાણી ડિફેન્સ એન્ટરપ્રાઇઝના વાઇસ પ્રેસિડેન્ટ, જીત અદાણીએ આ અંગે ટિપ્પણી કરી જણાવ્યું હતું કે, "વધુને વધુ અસ્થિર અને પ્રતિકૂળ દરિયાઈ હવામાનમાં ભારતની અન્ડરસી યુદ્ધ ક્ષમતાઓને મજબૂત બનાવવી એ ફક્ત વ્યુહાત્મક અગ્રતા નથી, પરંતુ આપણા દેશના સાર્વભૌમત્વ અને રાષ્ટ્રીય હિતોની સુરક્ષા

માટે અનિવાર્ય છે. ભારતીય નૌકાદળ માટે એક સંકલિત મિશન-રેડી આઈએસઆર અને સબમરીન વિરોધી યુદ્ધ ક્ષમતાઓ જરૂરી છે, જેમાં સોનોબ્યુઓસ જેવી જટિલ સિસ્ટમ્સનો સમાવેશ થાય છે, જે સ્વદેશી રીતે વિકસિત, ઝડપથી તહેનાત કરી શકાય તેમજ વૈશ્વિક સ્તરે સ્પર્ધાત્મક છે. સ્પાર્ટન સાથેની આ ભાગીદારી મારફત સ્વદેશી સોનોબ્યુઓસ ઉપાયો ઓફર કરનારી અદાણી ડિફેન્સ એન્ડ એરોસ્પેસ ભારતની સર્વ પ્રથમ ખાનગી કંપની બની છે. ભારતમાં ડિઝાઇન, વિકસિત અને વિતરિત કરવામાં આવેલી વિશ્વ-કક્ષાની ક્ષમતાઓ સાથે ભારતના સશસ્ત્ર દળોને સશક્ત બનાવવાની અમારા સમૂહની દ્રષ્ટિને આ પહેલ ભારત અને વિશ્વ સમક્ષ પ્રતિબિંબિત કરે છે. એમ તેમણે કહ્યું હતું.

અદાણી ડિફેન્સ અને એરોસ્પેસના સીઈઓ આશિષ રાજવંશીએ કહ્યું હતું કે દાયકાઓથી ભારત આવી જટિલ ટેકનોલોજીની આયાત ઉપર નિર્ભર રહ્યું છે. વિશ્વ કક્ષાની સોનોબ્યુઓસ ટેકનોલોજી લાવવા અને

તેને ભારતની સંરક્ષણ ઇકોસિસ્ટમ સાથે સંકલિત કરવા માટે આ જટિલ ડોમેનમાં આપણી ક્ષમતાઓને આત્મનિર્ભર બનાવવા તરફનું આ ભાગીદારી એક કદમ છે.

સ્પાર્ટન ડેલિઓન સિંગ્રસ એલએલસીના સીઈઓ અને પ્રેસિડેન્ટ ડોમેની બોહનએ ઉમેર્યું હતું કે સ્પાર્ટન પાસે સમસ્યા હલ કરવા, આધુનિક ઇજનેરી અને અમેરિકાના શ્રેષ્ઠ દરિયાઈ સંરક્ષણ ઉકેલોના ઉત્પાદન માટે લાંબો અનુભવ અને વારસો છે. અમારી સફળ નિવેડી એન્ટી સબમરીન વોરફેર ((ASW) ટેકનોલોજીને ભારતમાં લાવવા માટે અદાણી ડિફેન્સ અને એરોસ્પેસ સાથે ભાગીદારી કરવાનું અમોને ગૌરવ છે. આ ભાગીદારી અમોને સ્થાનિક કક્ષાએ એસેમ્બલી કરવા, ઉચ્ચ તકનીકી કુશળતા પ્રસ્થાપિત કરવા અને અને ભારતીય નૌકાદળની જરૂરિયાતોને અનુરૂપ વિશ્વસનીય એન્ટી સબમરીન વોરફેર ઉપાયો પહોંચાડવા માટે અમોને સક્ષમ બનાવશે.

એમ તેમણે કહ્યું હતું. અદાણી ડિફેન્સ અને એરોસ્પેસના સીઈઓ આશિષ રાજવંશીએ કહ્યું હતું કે દાયકાઓથી ભારત આવી જતીલ ટેકનોલોજીની આયાત ઉપર નિર્ભર રહ્યું છે. વિશ્વ કક્ષાની સોનોબ્યુઓસ ટેકનોલોજી લાવવા અને તેને ભારતની સંરક્ષણ ઇકોસિસ્ટમ સાથે સંકલિત કરવા માટે આ જટિલ ડોમેનમાં આપણી ક્ષતાઓને આત્મનિર્ભર બનાવવા તરફનું આ ભાગીદારી એક કદમ છે.

આ સહયોગ સાથે અદાણી ડિફેન્સ એન્ડ એરોસ્પેસ ભારતમાં સ્વદેશી સોનોબ્યુઓસ ઉપાયો ઓફર કરનારી ભારતના ખાનગી સેક્ટરની પ્રથમ કંપની બનીને ભારતના આત્મ નિર્ભર તરફના પ્રયાણમાં યોગદાન આપવાના તેના સંકલ્પને અંકીત કરે છે. આ ભાગીદારી ભારતીય નૌકાદળ માટે વિકાસ, ઉત્પાદન અને નિર્વાહમાં અદાણી સંરક્ષણની સ્થાપિત કુશળતા સાથે સ્પાર્ટનની અગ્રણી એન્ટી સબ મરીન વોરફેર ટેકનોલોજીને જોડશે.

સોનોબ્યુઓસ એ અન્ડરસી ગ્રેમેન અવેરનેસ (યુડીએ) ને વધારવા માટે એક મિશન-ક્રિટિકલ પ્લેટફોર્મ છે, જે સબમરીન અને અંડરવોટર અન્ય પદ્ધતિઓને શોધવા અને તેનો પીછો કરવા માટે અસરકારક માધ્યમ પુરું પાડે છે. એન્ટિ-સબમરીન વોરફેર (એએસબી) અને અન્ય નૌકા કામગીરીમાં મુખ્ય ભૂમિકા ભજવતી આ સિસ્ટમ નૌકા સુરક્ષા જાળવવામાં અને નૌકા કાકલા ઉપર ત્રાટકતા

'આત્મ નિર્ભર ભારત' અને 'મેક ઇન ઇન્ડિયા'ની પહેલ સાથે જોડાયેલા સ્પાર્ટનના ભારતીય નૌકાદળ સાથેના ઘનિષ્ઠ સંબંધો હવે ભારતમાં બનેલા આ ઉકેલોની ડિલિવરીને સ્વદેશી કરવા માટે અદાણી ડિફેન્સને સવલત આપશે.

અદાણી એન્ટરપ્રાઇઝના વાઇસ પ્રેસિડેન્ટ, જીત અદાણીએ આ અંગે ટિપ્પણી કરી જણાવ્યું હતું કે, "વધુને વધુ અસ્થિર અને પ્રતિકુળ દરિયાઈ હવામાનમાં ભારતની અન્ડરસી યુદ્ધ ક્ષમતાઓને મજબૂત બનાવવી એ ફક્ત વ્યુહાત્મક અગ્રતા નથી, પરંતુ આપણા દેશના સાર્વભૌમત્વ અને રાષ્ટ્રીય હિતોની સુરક્ષા માટે અનિવાર્ય છે. ભારતીય નૌકાદળ માટે એક સંકલિત મિશન-રેડી આઈએસઆર અને સબમરીન વિરોધી યુદ્ધ ક્ષમતાઓ જરૂરી છે, જેમાં સોનોબ્યુઓસ જેવી જટિલ સિસ્ટમ્સનો સમાવેશ થાય છે, જે સ્વદેશી રીતે વિકસિત, ઝડપથી તહેનાત કરી શકાય તેમજ વૈશ્વિક સ્તરે સ્પર્ધાત્મક છે. સ્પાર્ટન સાથેની આ ભાગીદારી મારફત સ્વદેશી સોનોબ્યુઓસ ઉપાયો ઓફર કરનારી અદાણી ડિફેન્સ એન્ડ એરોસ્પેસ ભારતની સર્વ પ્રથમ ખાનગી કંપની બની છે. ભારતમાં ડિજિટલ ગુરુત્વ

વિશ્વ-કક્ષાની ક્ષમતાઓ સાથે ભારતના સશસ્ત્ર દળોને સશક્ત બનાવવાની અમારા સમૂહની દ્રષ્ટિને આ પહેલ ભારત અને વિશ્વ સમક્ષ પ્રતિબિંબિત કરે છે. એમ તેમણે કહ્યું હતું.

ADANI Defence and Aerospace on Sunday said it has signed a collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine warfare (ASW) systems. This marks a significant step toward localising the assembly of complex electronic systems and advanced ASW solutions for the Indian and global markets.

With this collaboration, Adani Defence and Aerospace becomes the first private sector company in India to offer indigenised sonobuoy solutions, underscoring its commitment to bolstering the nation's self-reliance.

"In an increasingly volatile maritime environment, strengthening India's under-sea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests," said Jeet Adani, Vice President of Adani Enterprises.

According to him, the Indian Navy requires integrated, mission-ready ISR and anti-submarine warfare capabilities, including critical systems like sonobuoys, that are in-

digenously developed, swiftly deployable, and globally competitive.

"Through this partnership with Sparton, Adani Defence and Aerospace becomes the first private company in India to offer indigenised sonobuoy solutions, enabling access to advanced technologies while fostering a future-ready, self-reliant defence ecosystem. This initiative reflects our Group's vision of empowering India's armed forces with world-class capabilities that are designed, developed, and delivered in India, for India and the world," Jeet Adani added.

The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and sustenance for the Indian Navy.

Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton, a group company of Elbit Systems, aimed at localising the assembly of complex electronic systems and advanced anti-submarine warfare (ASW) solutions for the Indian and global markets, a statement said.

Sonobuoys are mission-critical platforms that enhance undersea domain awareness, and are used to detect, locate and track submarines and other underwater threats.

For decades, India has been importing this vital naval capability from global markets, leading to increased dependence on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiatives, Sparton's ongoing relationship with the Indian Navy will now enable Adani Defence to indigenise the delivery of these solutions that are made in India for India, the release said.

"In an increasingly volatile maritime environment, strengthening India's undersea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests," said Jeet Adani, Vice-President of Adani Enterprises.

"Sparton has a long legacy of problem-solving, advanced engineering and manufacturing of America's best maritime defence solutions," said Donnelly Bohan, President and CEO of Sparton DeLeon Springs LLC.

Apollo in talks to invest \$750 mn in Adani's Mumbai Airport bonds

DEV CHATTERJEE
Mumbai, 18 May

US-based financial services giant Apollo Global Management is in advanced talks to invest \$750 million in bonds to be issued by Mumbai International Airport Limited (MIAL), according to people familiar with the matter.

The investment is expected to come through Apollo's insurance arm, which is actively targeting high-quality infrastructure assets in India.

The bond issuance is part of a broader fundraising initiative by Adani Airport Holdings Limited (AAHL), which operates seven airports across India.

In a separate deal, AAHL is also looking to raise an additional \$750 million in loans from international banks, sources said.

The MIAL bond transaction is likely to close in the coming weeks and has attracted interest from multiple US-based financial institutions, led by Apollo. This points to sustained investor appetite for Indian infrastructure credit, particularly in the airport sector.

Apollo declined to comment on the deal. The Adani group also did not respond to an email request for comment.

Proceeds from the AAHL loan facility will be used for capital expenditure and to refinance dollar-denominated debt maturing in September, sources said.

In April, a consortium of global lenders extended \$750 million to a family investment vehicle of the Adani group for the acquisition of ITD Cementation.

Adani, Sparton ink deal to manufacture Sonobuoy systems

Billionaire Gautam Adani's group subsidiary Adani Defence & Aerospace has entered into a binding collaboration agreement with Sparton (DeLeon Springs LLC), a subsidiary of Elbit Systems known for its advanced Anti-Submarine Warfare (ASW) systems, the company said on Sunday. This partnership aims to manufacture sophisticated electronic and ASW systems in India for domestic and international markets. Through this alliance, Adani Defence & Aerospace becomes the first private Indian firm to offer indigenously developed sonobuoy solutions. Sonobuoys are specialised, deployable sonar systems designed to detect and monitor underwater activity, particularly submarines.

HIMANSHU THAKUR

BlackRock contributed \$250 million to that round, according to banking sources.

"Despite challenges, the group continues to attract marquee US investors. Strong ratings and predictable cash flows have helped bring in long-term capital," said a banker involved in the process.

AAHL's current airport portfolio in-

cludes Mumbai, Ahmedabad, Mangalore, Jaipur, Lucknow, Guwahati, and Trivandrum. Its greenfield Navi Mumbai Airport project is scheduled to commence operations in the next quarter. The company is eyeing an initial public offering in the next 2-3 years, once the Navi Mumbai facility stabilises, and other revenue streams mature.

Parent company Adani Enterprises Ltd. has announced capital expenditure plans totaling ₹1.32 trillion (\$15.8 billion) for FY25-FY27. This includes ₹47,000 crore for renewables, ₹44,000 crore for airports, ₹19,000 crore for roads, and ₹16,000 crore for a greenfield PVC project.

According to Care Ratings, financial closures have been secured for most of these projects, including the PVC facility, as the group continues to adopt a phased, modular funding strategy.

Across its 12 listed entities, the Adani Group aims to invest \$100 billion by 2030 in sectors such as ports, roads, airports, and cement. The group is prioritising greenfield development while selectively pursuing M&A opportunities where valuations are favourable.

The FY25 results affirm Adani Enterprises' incubation strategy for scaling core infrastructure businesses, Group CFO Jugeshinder "Robbie" Singh said on a recent analyst call. In 2026, AEL plans to deploy over ₹36,000 crore, including ₹10,500 crore for airports, ₹5,500 crore for renewable energy, ₹6,200 crore for road infrastructure, and ₹9,000 crore for petrochemical ventures.

enous Sonobuoys solutions to the Indian Navy.

Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli

defence electronics company Elbit Systems Ltd.

Prior to the current deal, the Adani Group had in 2018 set up a joint venture partnership with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones. In 2020, Adani-Elbit announced 'mini' drone missile weapons

production.

Adani Group has also partnered with Israel Weapon Industries to manufacture assault weapons, sniper rifles and machine guns.

In a statement on Sunday, Adani Defence & Aerospace said it "has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine warfare systems. This partnership marks a significant step toward localising the assembly of complex electronic systems and advanced ASW solutions for the Indian and global markets".

Sonobuoys are mission-critical platforms for enhancing Undersea Domain Awareness (UDA), providing an effective means to detect, locate, and

track submarines and other underwater threats. Playing a key role in anti-submarine warfare (ASW) and other naval operations, they support in maintaining naval security and protecting carrier strike groups.

Sparton manufactures electronic sensor systems, navigation systems, and undersea warfare delivery systems.

"For decades, India has been importing this critical naval capability from global markets, increasing our dependence on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiative, Sparton's ongoing relationship with the Indian Navy will now facilitate Adani Defence to indigenise the delivery of these solutions that are made in India, for India," the statement said.

Adani Defence joins Sparton to indigenise anti-submarine warfare solutions for India

**AHMEDABAD, MAY 18**

Adani Defence and Aerospace on Sunday said it has signed a collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine warfare (ASW) systems. This marks a significant step toward localising the assembly of complex electronic systems and advanced ASW solutions for the Indian and global markets.

With this collaboration, Adani Defence and Aerospace becomes the first private sector company in India to offer indigenised sonobuoy solutions, underscoring its commitment to bolstering the nation's self-reliance.

"In an increasingly volatile maritime environment, strengthening India's undersea warfare capabilities is not merely a strategic priority but an imperative for

safeguarding sovereignty and national interests," said Jeet Adani, Vice President of Adani Enterprises.

According to him, the Indian Navy requires integrated, mission-ready ISR and anti-submarine warfare capabilities, including critical systems like sonobuoys, that are indigenously developed, swiftly deployable, and globally competitive.

"Through this partnership with Sparton, Adani Defence and Aerospace becomes the first private company in India to offer indigenised sonobuoy solutions, enabling access to advanced technologies while fostering a future-ready, self-reliant defence ecosystem. This initiative reflects our Group's vision of empowering India's armed forces with world-class capabilities that are designed, developed, and delivered in India, for India and the world," Jeet Adani

added.

The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and sustenance for the Indian Navy.

Sonobuoys are mission-critical platforms for enhancing Undersea Domain Awareness (UDA), providing an effective means to detect, locate, and track submarines and other underwater threats. Playing a key role in anti-submarine warfare (ASW) and other naval operations, they support in maintaining naval security and in protecting naval carrier strike groups.

Ashish Rajvanshi, CEO, Adani Defence and Aerospace, said: "For decades, India has been dependent on imports for such critical technology. This partnership to bring world-class sonobuoy technology and integrating it with India's defence ecosystem is a step towards building self-reliant capabilities in this critical domain."

For decades, India has been importing this critical naval capability from global markets, increasing our dependency on foreign OEMs.

Billionaire Gautam Adani to develop electronic sensors and navigation systems that could be used for anti-submarine warfare, the conglomerate said on Sunday.

Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC) to assemble anti-submarine warfare (ASW) solutions for the Indian Navy, it said in a statement.

The partnership aims to localise the assemblage of sonobuoys and other ASW systems in India under the 'Aatmanirbhar Bharat' initiative.

It will be the first private company in India to offer indigenous Sonobuoys solu-

tions to the Indian Navy.

Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli defence electronics company Elbit Systems Ltd.

Prior to the current deal, the Adani Group had in 2018 set up a joint venture partnership with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones. In 2020, Adani-Elbit announced 'mini' drone missile weapons production.

Adani Group has also partnered with Israel Weapon Industries to manufacture assault weapons,

sniper rifles and machine guns.

In a statement on Sunday, Adani Defence & Aerospace said it "has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine warfare systems. This partnership marks a significant step toward localising the assembly of complex electronic systems and advanced Anti-Submarine Warfare (ASW) solutions for the Indian and global markets".

The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and sustenance for the Indian Navy.

Adani Defence signs pact with Sparton to indigenise ASW

Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton, a group company of Elbit Systems, aimed at localising the assembly of complex electronic systems and advanced anti-submarine warfare (ASW) solutions for the Indian and global markets, a statement said.

Sonobuoys are mission-critical platforms that enhance undersea domain awareness, and are used to detect, locate and track submarines and other underwater threats.

For decades, India has been importing this vital naval capability. Aligned with the ‘Aatmanirbhar Bharat’ and ‘Make in India’ initiatives, Sparton’s relationship with the Navy will now enable Adani Defence to indigenise the delivery of

these solutions, per the release. “Strengthening India’s undersea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests,” said Jeet Adani, Vice-President of Adani Enterprises.

Prior to the current deal, the Adani Group had in 2018 set up a joint venture with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones. In 2020, Adani-Elbit announced "mini" drone missile weapons production.

Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton, a group company of Elbit Systems, aimed at localising the assembly of complex electronic systems and advanced anti-submarine warfare (ASW) solutions for the Indian and global markets, a statement said. Sonobuoys are mission-critical platforms that enhance undersea domain awareness, and are used to detect, locate and track submarines and other underwater threats. For decades, India has been importing this vital naval capability from global markets, leading to increased dependence on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiatives, Sparton's ongoing relationship with the Indian Navy will now enable Adani

Defence to indigenise the delivery of these solutions that are made in India for India, the release said. Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton, a group company of Elbit Systems, aimed at localising the assembly of complex electronic systems and advanced anti-submarine warfare (ASW) solutions for the Indian and global markets, a statement said.

Sonobuoys are mission-critical platforms that enhance undersea domain awareness, and are used to detect, locate and track submarines and other underwater threats.

For decades, India has been importing this vital naval capability from global markets, leading to increased dependence on foreign OEMs. Aligned with the 'Aatmanirbhar Bharat' and 'Make in India' initiatives, Sparton's ongoing relationship with the Indian Navy will now enable Adani Defence to indigenise the delivery of these solutions that are made in India for India, the release said.

"In an increasingly volatile maritime environment, strengthening India's undersea warfare capabilities is not merely a strategic priority but an imperative for safeguarding sovereignty and national interests," said Jeet Adani, Vice-President of Adani Enterprises.

"Sparton has a long legacy of problem-solving, advanced engineering and manufacturing of America's best maritime defence solutions," said Donnelly Bohan, President and CEO of Sparton DeLeon Springs LLC.

Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli defence electronics company Elbit Systems Ltd.

The Adani Group in 2018 set up a JV with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones.

Adani, Sparton ink deal to manufacture Sonobuoy systems

Billionaire Gautam Adani's group subsidiary Adani Defence & Aerospace has entered into a binding collaboration agreement with Sparton (DeLeon Springs LLC), a subsidiary of Elbit Systems known for its advanced Anti-Submarine Warfare (ASW) systems, the company said on Sunday. This partnership aims to manufacture sophisticated electronic and ASW systems in India for domestic and international markets. Through this alliance, Adani Defence & Aerospace becomes the first private Indian firm to offer indigenously developed sonobuoy solutions. Sonobuoys are specialised, deployable sonar systems designed to detect and monitor underwater activity, particularly submarines.

Adani-Sparton to develop anti-submarine warfare solutions

PRESS TRUST OF INDIA ■ New Delhi

Billionaire Gautam Adani's group has signed a deal with a US undersea warfare company Sparton to develop electronic sensors and navigation systems that could be used for anti-submarine warfare, the conglomerate said on Sunday. Adani Defence & Aerospace has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC) to assemble anti-submarine warfare (ASW) solutions for the Indian Navy, it said in a statement. The partnership aims to localise the assemblage of sonobuoys and other ASW systems in India under the 'Aatmanirbhar Bharat' initiative.

It will be the first private company in India to offer indigenous Sonobuoys solutions to the Indian Navy. Headquartered in De Leon Springs, Florida, Sparton develops, produces and supplies electronic systems to support undersea warfare for the US Navy and allied military forces. The firm was, in December 2020, acquired by Israeli defence electronics company Elbit Systems Ltd.

Prior to the current deal, the Adani Group had in 2018 set up a joint venture partnership with Israeli weapons giant Elbit Systems to manufacture lethal Hermes 900 drones. In 2020, Adani-Elbit announced 'mini' drone missile weapons production.

Adani Group has also partnered with

Israel Weapon Industries to manufacture assault weapons, sniper rifles and machine guns. In a statement on Sunday, Adani Defence & Aerospace said it "has signed a binding collaboration agreement with Sparton (DeLeon Springs LLC), a group company of Elbit Systems and a leading provider of advanced anti-submarine warfare systems. This partnership marks a significant step toward localising the assembly of complex electronic systems and advanced Anti-Submarine Warfare (ASW) solutions for the Indian and global markets".

The partnership will combine Sparton's pioneering ASW technology with Adani Defence's established expertise in development, manufacturing, and sustenance for the Indian Navy.

Sonobuoys are mission-critical platforms for enhancing Undersea Domain Awareness (UDA), providing an effective means to detect, locate and track submarines and other underwater threats. Playing a key role in anti-submarine warfare (ASW) and other naval operations, they support in maintaining naval security and protecting carrier strike groups.

Sparton manufactures electronic sensor systems, navigation systems and undersea warfare delivery systems.

For decades, India has been importing this critical naval capability from global markets, increasing our dependence on foreign OEMs.
