**Mumbai:** India's top private thermal power producer, Adani Power, is exploring options of investing ₹20,000 crore to set up a coal-fired ultra-supercritical thermal power plant in Bihar, Pranav Adani, director at Adani Enterprises, said at the Bihar Business Connect Summit Friday.

"We are also exploring investment avenues in Bihar's energy sector. Our plan is to invest around ₹20,000 crore to set up an ultra-supercritical thermal power plant," Pranav Adani said.

He added that the company expects such a massive project to open up at least 12,000 jobs in the pre-commissioning phase — and also lead to around 1,500 skilled jobs during the operational phase.

## Powering Up Bihar

Coal for the plant may come from Jharkhand and West Bengal

Adani's Bihar capacity is likely to be a **1,600 MW (2×800 MW)** greenfield ultra-supercritical thermal power plant

The Group also plans to invest **₹2,100 cr** to manufacture and install over **2.8 million smart meters** to automate power-consumption-monitoring in five cities of the state — **Siwan, Gopalganj, Vaishali, Saran, and Samastipur**

Adani Enterprises houses the group's incubation projects before they are transferred to operating companies. Adani Power is targeting to double its thermal power capacity to 30.67 GW by 2029-30 from the 15 GW currently.

Adani did not specify the capacity of the power plant it may set up in Bihar but sources said it could be a 1,600 MW (2×800 MW) greenfield ultra-supercritical thermal power plant like the company is building at Mirzapur, Uttar Pradesh.

Although Bihar doesn't have coal

mines, neighbouring states of Jharkhand and West Bengal produce ample coal.

Adani added that in three sectors, logistics, gas distribution, and agri-logistics, Adani group has invested around ₹850 crore, creating 25,000 direct and indirect jobs.

"We are now going to invest another ₹2,300 crore in these sectors. This investment will not only massively increase our warehousing and handling capacity and expand our presence in the EV, city gas

distribution, and compressed biogas space but will also generate an additional 27,000 direct and indirect local job opportunities," added Adani.

The group has already started work on its greenfield cement plant at Warisaliganj and now plans to invest another ₹2,500 crore in Bihar to set up a cement manufacturing capacity of 10 MMTA in multiple phases, creating at least 9,000 direct and indirect jobs in the state.

Pranav Adani added that the group was working closely with the state government to potentially invest another ₹1,000 crore in developing strategic infrastructure in the state, like Gati Shakti Railway Terminals, ICDs (Inland Container Depots) and Industrial Warehousing Parks.

The Group also plans to invest ₹2,100 crore to manufacture and install over 2.8 million smart meters to automate power-consumption-monitoring in five cities — Siwan, Gopalganj, Vaishali, Saran, and Samastipur — and this will generate at least 4,000 local jobs in this technology segment, Adani said.

# बिहार में बड़ा निवेश करेगा अदाणी समूह

भाषा

पटना, 20 दिसंबर

उद्योगपति गौतम अदाणी की अगुआई वाला अदाणी समूह बिहार में अत्याधुनिक बिजलीघर स्थापित करने के साथ सीमेंट उत्पादन क्षमता बढ़ाने, खाद्य प्रसंस्करण और लॉजिस्टिक क्षेत्र में करीब 28,000 करोड़ रुपये का निवेश करेगा। अदाणी एंटरप्राइजेज के निदेशक प्रणव अदाणी ने यहां वैश्विक निवेशक सम्मेलन 'बिहार बिजनेस कनेक्ट' को संबोधित करते हुए यह घोषणा की।

अदाणी समूह आक्रामक रूप से बिहार में कारोबार को आगे बढ़ाने की रणनीति पर काम कर रहा है। समूह एक तरफ अपने मुख्य कारोबार का विस्तार कर रहा है जबकि दूसरी तरफ उसे नये अवसरों की तलाश भी है। प्रणव अदाणी ने कहा, 'हम बिहार के ऊर्जा क्षेत्र में निवेश के रास्ते भी तलाश रहे हैं। हमारी योजना अत्याधुनिक बिजलीघर स्थापित

करने की है। इसके लिए हम लगभग 20,000 करोड़ रुपये का निवेश करेंगे।' अदाणी ने कहा, 'हमें उम्मीद है कि इस परियोजना के क्रियान्वयन-पूर्व चरण में करीब 12,000 नौकरियां सृजित होंगी जबकि परिचालन शुरू होने पर लगभग 1,500 कुशल रोजगार पैदा होंगे।' हालांकि उन्होंने प्रस्तावित बिजलीघर की क्षमता और उसकी जगह के बारे में जानकारी नहीं दी। लेकिन 'अल्ट्रा सुपरक्रिटिकल प्लांट' यानी अत्याधुनिक बिजलीघर 1,980 मेगावाट क्षमता के हो सकते हैं। ये संयंत्र बिजली उत्पादन करने के लिए कोयले का इस्तेमाल करते हैं।

बिहार में वर्तमान में बिजली उत्पादन क्षमता की कमी है। इसकी क्षमता 6,400 मेगावाट है जबकि मांग 8,000 मेगावाट से अधिक है। ऐसे में प्रस्तावित संयंत्र न केवल राज्य में बिजली की मांग और आपूर्ति के अंतर को पाटने में मदद करेगा बल्कि पड़ोसी राज्यों को भी बिजली की आपूर्ति करेगा।

## Bihar has potential to become major growth engine: Minister

PTI ■ PATNA

**B**ihar Industries and Tourism Minister Nitish Mishra on Friday asserted that the state is poised to play a key role in the country's growth engine, as he announced a record Rs 1.8 lakh crore investments across sectors, more than triple the amount received at its maiden investor meet last year.

Detailing the investment proposals received at the end of the two-day 'Bihar Business Connect 2024' investor summit, Mishra said several memorandums of understanding (MoUs) entailing investment of over Rs 1.8 lakh crore have been signed. Sun Petrochemicals will invest Rs 36,700 crore in renewable energy, including pump hydro and solar plants. Adani Group is looking to invest Rs 20,000 crore in setting up an ultra-supercritical thermal power plant. Besides, the group also announced investment towards expanding the cement capacity as well as in

the warehousing and logistics sector.

At the summit, leading companies such as NHPC (Rs 5,500 crore for renewable energy sector), SLMG Beverages (Rs 3,000 crore for food processing sector), Shree Cements (Rs 800 crore in general manufacturing category), and Haldiram Snacks Pvt Ltd (Rs 300 crore for food processing sector) also inked

MoUs with the state.

"The state government is committed to develop Bihar into a major destination for investment in the country. I express my heartfelt gratitude to all those who participated and became a part of this new journey of Bihar... I am fully confident that Bihar has the potential to become a major growth engine of the country. We signed MoUs

with different investors worth Rs 1.80 lakh crore in different sectors... It's a huge achievement for Bihar," Mishra said. "Our Prime Minister Narendra Modi has already said that Bihar is advancing... We are moving ahead strongly in that direction," he asserted.

Speaking on the occasion, Deputy Chief Minister Vijay Kumar Sinha said Bihar is the "land of history and future of the country".

"After Independence, large investments were made in Jamshepur (which was then a part of united Bihar) and Rohtas. Bihar has always been providing an industrial base," Sinha said.

"Today, Bihar is also working in the field of exploration of heavy mines and minerals... In Jamui and Rohtas, Gaya and Jehanabad," he added.

Bihar Chief Minister, Nitish Kumar, who was scheduled to address the concluding day of the summit, could not attend the event due to illness, officials said.

The state's Energy Minister Bijendra Prasad Yadav, however, read out a message on behalf of the CM.

"The Bihar government has made several policies for development of industries. It is a matter of happiness that now you (investors) are working towards the development of Bihar. I am confident that people of the state will receive the benefits of the environment that is being created for industrial development in the state," the chief minister's message said.

Bandana Preyashi, Secretary, Industries Department, said compared to last year, the state received significantly more investment proposals in the 2024 summit.

"Last year, the sum was Rs 53,000 crore. Investments will be made in food processing and general manufacturing, health, information technology, logistics, plastics and rubber, real estate, renewable energy, textiles, leather and hospitality and skill development sectors," she said.

# Adanis win Dharavi redevelopment case

## OUR SPECIAL CORRESPONDENT

**Mumbai:** The Bombay High Court has upheld the Maharashtra government's decision to award the Dharavi slum redevelopment project in Mumbai to Adani Properties Pvt Ltd (APPL).

A division bench of Chief Justice D.K. Upadhyaya and Justice Amit Borkar on Friday dismissed a petition filed by UAE-based Seclink Technologies Corp (Seclink) which had emerged as the highest bidder in the tender for the project that was floated in 2018 but subsequently scrapped.

The court said: "The grounds urged in support of the petition lack force and, accordingly, the challenge to the impugned action on the part of the authorities, whereby the earlier tender process was cancelled and fresh tender process has been resorted to, fails."

It was on November 11, 2018 that the Devendra Fadnavis-led BJP government had issued the Dharavi Re-

development Project (DRP) tender. Subsequently, in 2019, the state government signed an MoU with Indian Railways for the inclusion of 45 acres of railway land in the Mahim-Matunga area.

In March that year, the CEO of the Dharavi Redevelopment Project (DRP) had written a letter to the Seclink Consortium informing it that they were the preferred bidder. Seclink had put in a bid for ₹7,200 crore.

However, the state government decided to seek fresh bids after the state's advocate general (AG) said the inclusion of the railway land amounted to a substantial change in tender conditions.

On November 28, 2019, the Uddhav Thackeray-led MVA government assumed office and, in October 2020, the state cabinet accepted advice of the Committee of Secretaries (COS) and cancelled the 2018 tender.

In November 2020, the state government issued a GR confirming the cancellation of the 2018 tender and announced

Dharavi. File picture

plans to seek fresh bids for the project. This prompted Seclink to file a writ petition in the High Court challenging the decision.

In October 2022, the Maharashtra government led by Eknath Shinde issued a fresh tender for the project. When the bids were opened in December, APPL was declared as the preferred bidder based on its offer of ₹5,069 crore.

### Funds for Bihar

The Adani group is planning to invest about ₹20,000 crore to set up an ultra-super critical thermal power plant in Bihar.

Outlining the group's investment plans at the 'Bihar

Business Connect 2024', Adani Enterprises director Pranav Adani said: "We intend to invest ₹2,500 crore in Bihar to set up a cement manufacturing capacity of 10 million tonnes per annum in multiple phases; this has the potential to create at least 9,000 direct and indirect jobs."

The cement plant will come up in Warisaliganj.

Adani did not give any further details on the power plant.

Adani Enterprises has already invested around ₹850 crore in three sectors: logistics, gas distribution and agri-logistics, creating about 25,000 direct and indirect jobs.

"We are now going to invest another ₹2,300 crore in these sectors."

Adani said the conglomerate was also looking to invest another ₹1,000 crore in strategic infrastructure, like Gati Shakti Railway Terminals and ICDs (Inland Container Depots).

It plans to invest ₹2,100 crore in a smart metering project.

# बिहार को लेकर निवेशकों ने जताया भरोसा राज्य को 1.81 लाख करोड़ रुपए के निवेश प्रस्ताव मिले

नई दिल्ली, 20 दिसंबर (भाषा)।

बिहार को लेकर बदलते नजरिये के बीच निवेशकों ने अपना पूरा भरोसा जताया है। अडाणी समूह, सन पेट्रोकेमिकल्स और कई अन्य कंपनियों ने शुक्रवार को बिहार में अक्षय ऊर्जा से लेकर सीमेंट, खाद्य प्रसंस्करण और विनिर्माण जैसे क्षेत्रों में रिकार्ड 1.81 लाख करोड़ रुपए का निवेश करने की प्रतिबद्धता जताई।

राज्य ने अपने दूसरे निवेशक सम्मेलन 'बिहार बिजनेस कनेक्ट, 2024' में 423 कंपनियों के साथ निवेश प्रतिबद्धताओं पर हस्ताक्षर किए। बिहार के उद्योग और पर्यटन

मंत्री नीतीश मिश्रा ने कहा कि 2023 में हुए पहले निवेशक सम्मेलन में 50,300 करोड़ रुपए के निवेश प्रस्ताव मिले थे। मिश्रा ने कहा कि हमने आज 1.8 लाख करोड़ रुपए से अधिक के निवेश से संबंधित समझौता ज्ञापनों (एमओयू) पर हस्ताक्षर किए हैं। इस संख्या का मिलान किया जा रहा और यह आंकड़ा बढ़ सकता है।
