Investors will not face red tapes: Vijayan at summit

KOCHI: Kerala chief minister Pinarayi Vijayan said that his administration, over the past few years, has made strides in simplifying procedures and formulating essential policies to make the state investor-friendly as he inaugurated the two-day Invest Kerala Global Summit (IKGS) in Kochi on Friday.

Over 3,000 delegates participated in the summit organised by the state government in its bid to attract investments and business proposals in a range of sectors from AI and robotics, Ayurveda, tourism, medical devices and bio-tech, maritime to agro food-processing and logistics.

"The government understands that it has a great role to play as a facilitator and a catalyst. We have taken a holistic view and are paying equal attention to all matters from policy formulation to last-mile implementation. We have ensured that no investor coming to Ker-

ala will have to face the cobweb of procedural delays and meet the barriers of red tape," the chief minister said.

One of those steps, he said, was providing entrepreneurs under MSME sector acknowledgement certificate from the online KSWIFT portal to begin their business. The licences

need to be obtained within a period of next three years and six months, he said.

Among other measures were implementing recommendations from the Report of the External Committee on Legislative Reforms, providing skill-training sessions under K-DISC and ASAP, recognising access to

internet as a right and providing connections to BPL families and launching science parks to foster research and innovation.

In the most recent budget, the CM said, an announcement was made to ensure that no investor returns from the state without investing citing non-availability of land.

"Government will take special initiatives to make required land available to them. We have a scheme of land pooling for making the same available for prospective investors," said CM Vijayan.

The chief minister cited the state's top ranking on the ease of doing business index, the 16% growth in employment as per PLFS data, profitability of several PSUs, the operationalization of the Vizhinjam transshipment port and the substantial growth in the state's startup space as examples of its potential for attracting investments.

"Kerala's investment scenario is on the cusp of history. We are witnessing progress and change for the better," he said.

Union minister of commerce and industries Piyush Goyal and Union minister for skill development and entrepreneurship Jayant Chaudhary pledged the support of the Union government to the state's investment and industrialisation goals.

"Look at what all Kerala offers to investors, be it in the spheres of tourism, manufacturing or logistics. Kerala is at the forefront of development in every sphere," Goyal said.

On the first day of the event, Karan Adani, MD of Adani Ports and SEZ Limited, said his group will invest ₹30,000 crore in the state in the next five years including ₹20,000 crore in the Vizhinjam project where it has a stake.

The Adani Group will also expand the capacity of the Trivandrum International Airport from 4.5 million to 12 million passengers through an investment of ₹5500 crore, he said at the investment summit.

Besides, a logistics and e-commerce hub will also be developed in Kochi, he added.

In next 5 years, Adani Group plans to invest ₹30,000 crore in Kerala

SOUMYARENDRA BARIK
KOCHI, FEBRUARY 21

THE ADANI Group plans to invest Rs 30,000 crore in Kerala over the next five years, with a particular focus on the state's port and airport infrastructure, a top official said Friday.

The investments would include Rs 5,500 crore to expand operations of the Thiruvananthapuram airport and an additional Rs 20,000 crore investment in the Vizhinjam port aimed at turning the facility into one of the largest transshipment ports in the world, said Karan Adani, managing director, Adani Ports and SEZ, during his address at the Invest Kerala Global Summit.

The ports-to-energy conglomerate will also invest in a logistics and e-commerce hub in the city of Kochi, and the group's cement-handling capacity in the city Kochi will also be scaled up, Adani said.

Adani Group plans to invest in an array of projects in Kerala ranging from Thiruvananthapuram airport to Vizhinjam port.

Express File

The investments in Thiruvananthapuram airport will expand the facilities to handle 12 million passengers from the present 4.5 million passengers annually, he said.

"Under the leadership of Chief Minister Pinarayi Vijayan and former Chief Minister the late Oommen Chandy, the Vizhinjam port works have pro-

gressed steadily. Vizhinjam made history by docking the largest container ship with 24,000 containers recently," he said.

The Kerala government is organising the two-day summit in a bid to attract domestic and internal investors in the state, with a particular focus on tourism, food processing, health innova-

tions, fintech, aerospace, defence, and sustainable technologies.

With the summit, the state is also making an attempt at shunning its old image of being a destination that may not have been the friendliest to big businesses. Organised by the Kerala government's industries department, the event is scheduled to have 28 sessions that will be attended by representatives from six countries. More than 3,000 people are attending the conference.

"The changes we have brought about now are not incremental but substantial... We have ensured that no investor coming to Kerala will have to face the cobweb of procedural delays and meet the barriers of red tape. We have made major strides in simplifying procedures as regards investments, said Chief Minister Pinarayi Vijayan.

The Adani Group has unveiled an ambitious plan to invest ₹30,000 crore in the state over the next five years, aiming to significantly enhance the state's infrastructure. Karan Adani, Managing Director of Adani Ports and Special Economic Zone, announced this substantial commitment during the inaugural session of the Invest Kerala Global Summit 2025 in Kochi on Friday.

A major portion of this investment, amounting to ₹20,000 crore, is designated for the Vizhinjam International Seaport in Thiruvananthapuram. This infusion aims to develop the port into the largest transshipment

hub in the region. The Vizhinjam port, strategically located near international shipping routes, has already seen an initial investment of ₹5,000 crore from the Adani Group.

The port commenced trial operations in July 2024 and has handled over 100,000 twenty-foot equivalent units and 46 ships during this period. Full-scale commercial operations are slated to begin next month, with the second and third phases expected to be completed by 2028, expanding the port's capacity to 3 million TEUs.

In addition to the port development, the Adani Group plans to invest ₹5,500 crore to expand the Thiruvananthapuram International Airport. This pro-

Pinarayi highlights the State's strides in simplifying investment procedures at the Invest Kerala Global Summit; setting aside differences, Opposition parties put up a united face at the event

Kerala Chief Minister Pinarayi Vijayan said here on Friday that the Left Democratic Front government ensured that no investor coming to Kerala would have to face the "cobweb of procedural delays and meet the barriers of red tape".

"Kerala's investment scenario is on the cusp of history. We have made major strides in simplifying procedures with regard to investments," the Chief Minister said in his inaugural address at the two-day Invest Kerala Global Summit.

"It is at this juncture that this summit is taking place, bringing together global investors, visionaries in the field, experts, and policy-makers, aiming to explore the investment potential of Kerala, and witness our initiatives towards building an investor-friendly architecture in the State," Mr. Vijayan said.

The Chief Minister cited the Kerala Micro, Small, Medium Enterprises Facilitation Act, 2019 as an example of simplification of pro-

cedures under which MSMEs can start by obtaining an acknowledgement certificate from the online K-SWIFT portal. Necessary licences need to be obtained within a period of next three years and six months, he said.

The CM said the government has focused a lot on the development of transport infrastructure. The State, despite its fiscal constraints, contributed 25% of the cost for land acquisition for widening of National Highway 66. It took all steps to get approvals of the Centre for railway development necessary for running high speed trains, he said.

"In the past eight years, Kerala has witnessed establishment of 6,200 start-ups with an investment of ₹5,800 crore, creating 62,000 employment opportunities. We aim to establish 15,000 start-ups and create one lakh employment opportunities by 2026," Mr. Vijayan said.

The rival political fronts in the State put up a united face at the summit as they voiced support for boosting industrial growth in Kerala.

The Opposition had contested the government's investment claims days ahead of the much-hyped event. However, the differences were set aside as

heavyweights in the Bharatiya Janata Party-led National Democratic Alliance, including Union Ministers Piyush Goyal and Nitin Gadkari, and Leader of the Opposition V.D. Satheesan spoke in one voice for the State's progress.

Land wouldn't be a concern: CM

The CM tried to allay fears of unavailability of land, saying the government has declared that no investor will return without investing due to non-availability of land, and highlighted the land pooling system the government has devised. Saying that Kerala's investment scenario was on the cusp of history, the CM asserted that debate and criticism should be aimed at achieving progress, and not the other way round, alluding to the recent controversy triggered following Congress MP Shashi Tharoor's article praising Kerala's achievements

that appeared in this newspaper last week.

"When criticism becomes the end and not the means to achieving improvement, it ceases to be constructive," Pinarayi said, adding, "Nevertheless, tangible achievements speak for themselves and with information at their disposal, the public can appreciate the progress achieved by the state."

Pinarayi said Kerala was witnessing progress and change for the better in its investment arena. "It is at this juncture that this summit is taking place, bringing together global investors, visionaries in the field, and experts and policy-makers, with the aim to explore Kerala's investment potential," he said.

"The share of the manufacturing sector in gross state value added, which was 9.8% in 2014-15, has risen to 11.5% in 2023-24," Pinarayi said. Besides developing infrastructure, the government has given high priority to providing uninterrupted electricity by expediting completion of power highways, said the CM. "Let me share with happiness and pride that Kerala is a state without power cuts," he said.

'Vizhinjam Port will turn Kerala into a new Singapore'

AGENCIES

KOCHI, 21 FEBRUARY

On the opening day of the Invest Kerala Global Summit (IKGS) 2025, which got underway here on Friday, the fast nearing completion of Vizhinjam Port -- being built by the Adani Ports -- was the key point of discussion by the participants who pointed out that the upcoming seaport will turn Kerala into a new Singapore.

The IKGS is being organised by the state-run Kerala State Infrastructure Development Corporation (KSIDC), along with the Kerala government.

A panel discussion titled 'Kerala - a Small World of Big Opportunities' that was led by Amitabh Kant -- one of the most popular bureaucrats in the southern state, was also held during which several key issues were discussed.

Kant, during the panel discussion, pointed out that the mega port project could well turn Kerala a new Singapore.

Kant, who is also a former NITI Ayog chairman, and someone who knows the state like the back of his palm, was largely instrumental in coining the term 'God's Own Country' for Kerala, when he headed the Tourism Department.

Ashwani Gupta, Whole-Time Director and CEO of Adani Ports and Special Economic Zone Limited, who was part of the discussion pointed out that

the impact of the upcoming port will be beneficial for the entire country as around 90 per cent of the trade in the country happens through ports.

"With Vizhinjam port strategically placed as it lies close to the international sea route, the business that this port will bring is going to be done at a reduced time and the cost advantage also will be there," said Gupta.

In his address, KSIDC Chairman C. Balagopal said Kerala's Gross State Domestic Product (GSDP) has doubled every 6-7 years since 2000. "Strategic investments, sustainable initiatives in major sectors, connectivity and a thriving entrepreneurial ecosystem are the key enablers for growth. "During the period from 1950-70, land reforms created an equitable society and distributed economic power. From 1980-90, the state was able to build a productive workforce and a high human development index. Focus on IT happened during 1990-2000, with the birth of three IT.

'Invest Kerala Global Summit' to boost Tourism, Startup Sectors

FOCUS

P. Sreekumaran

The 'Invest Kerala Global Summit' to be held in Kochi, Kerala is expected to give a booster shot to the State's economic activities.

The two-day Summit, to be held on February 21 and 22, will be inaugurated by Chief Minister Pinarayi Vijayan. State Industries Minister P. Rajiv will preside over the summit. Central Ministers like Surplus Transport Minister Nitin Gadkari (Online), Union Commerce Minister Piyush Goel and Skill Development Minister Jayant Choudhury will also participate in the Summit which is expected to attract over 2500 investors, and prominent business magnates from all over the world.

In a heart-warming development, leader of the opposition (LoP) and senior Congress leader from Kerala V. D. Satheesan, a prominent critic of the Left Democratic Front (LDF) Government, will attend the Summit. Satheesan, noted businessman M. A. Yusufali, Adani Ports MD Karan Adani and Confederation of Indian Industries (CII) President Sanjiv Puri will speak on the occasion. A special attraction will be a 40-member delegation from Australia led by the Australian Consul General.

Incidentally, Kerala has emerged as the top state in the ease of doing business. This is a remarkable achievement considering the fact that the State was occupying only

the 28th position sometime back. The feat earned high praise from Congress leader Shashi Tharoor. In an article in the New Indian Express, Tharoor lavished fulsome praise on the LDF Government for achieving 'staggering growth' in the Start-up sector. Borrowing Kerala's tagline for tourism promotion, Tharoor noted that God's Own Country was no more the Devil's Own Playground for business and the State had reasons 'to celebrate.'

The Summit is all set to give a big boost to the Start-up ecosystem which is making big strides in Kerala. A separate section to explore the possibilities of ensuring more investments in the startup sector will also be there. As a part of this, the inaugural day will witness a session on "nurturing the future of startups and innovation".

The Summit will also see separate sessions to attract greater investments in the tourism sector too. In a significant step, the State Government has decided in principle to grant industry status to the tourism sector. An immediate upshot of the decision will

be more investment in and development of the tourism sector, which contributes around 10 per cent of the Gross Domestic Product (GDP) of the State.

The tourism sector, it may be mentioned, provides employment to 5 to 10 lakh people directly and 20 lakh people indirectly. The sector has been in the doldrums since 2018 what with a slew of natural calamities – two floods in 2018 and 2019, two waves of Covid-19 outbreaks, and, last but not the least, the disastrous Wayanad landslides in 2024 which claimed over 250 lives.

Despite the announcement of a rejuvenation package in the wake of the Covid-19 pandemic and infusion of more capital, arrival of foreign tourists to the State is yet to gather momentum, having slipped from 11.9 lakh in 2019 to 6.5 lakh in 2023.

The only saving grace is that domestic tourism has witnessed a surge. Meanwhile, senior vice-president of the Indian Association of Tour Operators (IATO), E. M.

Najeeb has welcomed the move to grant industry status to tourism. The move will ensure a slew of benefits to the tourism industry, including power tariffs, water tariffs and property taxes at industry rates, compared to the present commercial rate.

This will, in the long term, result in more investments and jobs in the sector. The Indian Institute of Management (IIM-K) has achieved another milestone with its Post Graduate Programme in Business Leadership making its debut in the Financial Times (FT) Global MBA Rankings 2025. IIM Kozhikode has secured the 86th rank globally, making it the highest new entrant in this year's rankings.

The rankings are evaluated in the criteria such as salary growth, value for money and excellence of research. The State took a significant industry-friendly step with the Cochin Shipyard Ltd. (CSL) and A. P. Moller-Maersk (Maersk) signing a Memorandum of Understanding (MoU) to explore collaboration opportunities in ship repair, maintenance and building activities in India.

The first Maersk vessel repair at CSL, will mark the beginning of a long-term collaborative relationship. The partnership signifies a significant milestone in CSL's journey as the leading ship repairer in India. (IPA)

Adani Group to invest ₹30,000 crore in Kerala in the next 5 years: Karan Adani

KOCHI, FEB 21

ADANI Ports and SEZ Ltd MD Karan Adani on Friday announced that the Adani Group will invest Rs 30,000 crores in Kerala in the next five years, including in the Vizhinjam port, in increasing the capacity of the Thiruvananthapuram Airport, and setting up a logistics hub, among other projects.

"Kerala is emerging as a model of development and progress, and we at the Adani Group are honoured to be part of this journey," Karan Adani said in his address at the inaugural session of the two-day Invest Kerala Global Summit, which began here on Friday.

"Kerala's global trade legacy dates back centuries. The ancient port of Muziris was a vital hub connecting Rome, Egypt, and China, making

Kerala a centre for spice and gold trade. Today, Vizhinjam continues this rich tradition,

placing India at the heart of global commerce. At the

Adani Group, we are proud to contribute to this new era. Our journey with Vizhinjam port began in 2015, under the leadership of late Oommen Chandy and today under Pinarayi Vijayan's leadership, it is becoming a reality," he added.

"Vizhinjam is strategically located along the world's busiest shipping lanes, even before commissioning, made history by docking the largest container vessel to ever touch the Indian shores, with a capacity of

24,000 containers."

The Adani Ports and SEZ Ltd MD said that the Adani Group has already invested Rs 5,000 crore in Vizhinjam and is committing an additional investment of Rs 20,000 crore.

"This is not only India's first transshipment hub, but our vision is to make Vizhinjam the largest transshipment port in this part of the region," he said.

Karan Adani also said that they will be expanding the Thiruvananthapuram International Airport from a capacity of 4.5 million to 12 million passengers, with Rs 5,500 crore. "We will also be setting up a Logistics and E-Commerce hub in Kochin, and also increase our cement capacity in Kochin," he said. -IANS

KERALA'S INDUSTRIAL POLICY: DRIVING INNOVATION, SUSTAINABILITY AND INCLUSIVE GROWTH

As the state prepares for the Invest Kerala Global Summit 2025,, the policy is set to take center stage in attracting global investors

By Ruhail Amin

Kerala is making bold strides toward becoming a hub for responsible and sustainable industrial investments. As the state prepares for the Invest Kerala Global Summit 2025, scheduled for February 21-22 in Kochi, the policy is set to take center stage in

attracting global investors, industry leaders and policymakers to explore opportunities in one of India's most promising industrial destinations.

Expanding Beyond Traditional Sectors

Kerala has long been recognized for its strengths in tourism, healthcare and education. However, the government is now focused on expanding into high-tech manufacturing and knowledge-based industries. The objective is to create an investment-friendly environment that supports both large-scale industrial projects and micro, small, and medium enterprises (MSMEs), which play a crucial role in the state's economy.

Kerala is prioritizing industries such as aerospace and defense, artificial intelligence, robotics, biotechnology, electric vehicles, food

processing, graphene, green energy, medical equipment, nanotechnology and renewable energy.

Investment Incentives and Business-Friendly Reforms

To ensure a conducive investment climate, the state is rolling out a range of incentives and support mechanisms. A significant benefit for investors is the full reimbursement of State Goods and Services Tax (SGST) for eligible industries. Subsidies are being provided for obtaining international standard certifications such as ISO and FDA approvals, which will enable businesses to scale in global markets. Kerala has also introduced progressive land reforms to simplify the acquisition and development of industrial land. By enhancing the ease of doing business with streamlined

regulatory processes, a single-window clearance system, and digital integration of approvals, the state is facilitating faster industrial growth.

Infrastructure Development and Smart Industrial Cities

Kerala is heavily investing in infrastructure to support industrial expansion. One of the flagship projects under the policy is the Palakkad Industrial Smart City, which spans 1,710 acres and is designed to attract high-tech manufacturing and industrial clusters specializing in medical devices, automation, and precision engineering. The Digital Science Park in Thiruvananthapuram is another ambitious initiative that focuses on fostering innovation in artificial intelligence, robotics and sustainable materials.

Connectivity and logistics are critical to Kerala's industrial success. The Vizhinjam Deep-Sea Port, developed by the Adani Group, is set to be a game-changer for the state's trade and export potential. Strategically located along an international maritime route, it will reduce shipping times and improve access to global markets. With four international airports operational and a fifth one in development, Kerala is ensuring seamless global connectivity.

Industrial Growth Beyond Urban Centers

A key aspect of the Industrial Policy is ensuring industrial growth beyond Thiruvananthapuram and Kochi. The government is creating several industrial clusters outside the major urban centers, ensuring a decentralized model of economic development. The Palakkad Industrial Corridor is being developed as a

major manufacturing hub, while northern Kerala is emerging as a center for innovation and technology. By promoting industrial clusters in tier-2 and tier-3 cities, the state aims to generate employment opportunities across different regions and reduce economic disparities.

Sustainability at the Core of Industrial Development

Sustainability is a cornerstone of Kerala's industrial strategy. The state has always been a champion of environmental conservation, and the new policy reinforces this by integrating green practices into industrial planning. Incentives are being offered to companies adopting energy-efficient technologies, water conservation measures and waste management systems.

The Rise of Startups and MSMEs in Kerala

One of the most significant aspects of Kerala's industrial evolution

has been the rise of MSMEs and startups. The state has witnessed a surge in entrepreneurship, with innovative ventures emerging in fields such as biotechnology, fintech and artificial intelligence. Kerala's startup ecosystem is now one of the most vibrant in India, supported by incubation centers, government-backed funding programs and industry-academic collaborations.

Empowering Women Entrepreneurs

The state has implemented dedicated schemes to encourage female-led businesses, offering financial incentives and incubation support. Women currently account for 37% of the workforce in the MSME sector, with plans to push this figure beyond 50% in the coming years. The introduction of Pink Industrial Parks, exclusively for women entrepreneurs, is a major step in this direction, providing customized support structures to facilitate their success in manufacturing and service industries.

Kerala's Roadmap for an Industrial Future

As Kerala embarks on this new industrial journey, it is redefining what it means to be an investment-friendly state. Kerala's Industrial Policy, coupled with the upcoming Invest Kerala Global Summit 2025, signals a clear intent to position Kerala as a preferred global investment destination. With a strong focus on innovation, sustainability, and inclusivity, the state is creating an industrial ecosystem that is not only future-ready but also deeply rooted in its values of social and environmental responsibility.

અદાણી જૂથ કેરળની રાજધાની તિરુવનંતપુરમમાં એરપોર્ટનું સંચાલન કરી રહ્યું છે. અદાણી જૂથ રાજ્યમાં તેની સિમેન્ટ ઉત્પાદન શમતાનો વિસ્તાર કરશે તેમજ લોજિસ્ટિક્સ અને ઈ-કોમર્સ સેન્ટર વિકસાવશે.

ગૌતમ અદાણીનું જૂથ વિઝિજીમ પોર્ટ વિકસાવી રહ્યું છે અને તે પહેલાથી જ રૂ. ૫,૦૦૦ કરોડનું રોકાણ કરી ચૂક્યું છે. કણ અદાણીએ જણાવ્યું હતું કે જૂથ રૂ. ૫,૫૦૦ કરોડના રોકાણ સાથે તિરુવનંતપુરમ એરપોર્ટની શમતા વાર્ષિક ૪૫ લાખ મુસાફરોથી વધારીને ૧.૨ કરોડ મુસાફરો કરશે. તેમણે કહ્યું કે કોચીમાં લોજિસ્ટિક્સ અને ઈ-કોમર્સ સેન્ટર પણ આપવામાં આવશે. આ સિવાય કોચીમાં સિમેન્ટ ઉત્પાદન શમતા વધારવામાં આવશે. એકદરે,

અદાણી જૂથ આગામી પાંચ વર્ષમાં અહીં વધુ રૂ. ૩૦,૦૦૦ કરોડનું રોકાણ કરશે.

અદાણી પોર્ટફોલિયો, ભારતના સૌથી મોટા ઈન્ફ્રાસ્ટ્રક્ચર જૂથે ડિસેમ્બર ૨૦૨૪ના રોજ પૂરા થતા ૧૨ મહિના માટે રૂ. ૮૬,૭૮૮ કરોડનો તેનો અત્યાર સુધીનો સૌથી વધુ ટ્રેઈલિંગ ટુવેલ્થ મંચ (TTM) EBITDA નોંધાવ્યો છે. વાર્ષિક ધોરણે ૧૦.૧%નો વધારો થયો છે, જ્યારે અગાઉની આવકને બાદ કરીએ તો આ વધારો ૨૧.૩% થયો છે.

કંપનીના જણાવ્યા અનુસાર માત્ર

ડિસેમ્બર ક્વાર્ટર (Q3FY25)માં EBITDA ૧૭.૨% વધીને રૂ. ૨૨,૮૨૩ કરોડ થયો છે. અદાણી એન્ટરપ્રાઈઝ હેઠળ ઉભરતા વ્યવસાયો જેમ કે સીર અને પવન ઉત્પાદન, એરપોર્ટ અને અન્ય ઈન્ફ્રાસ્ટ્રક્ચર વ્યવસાયોએ જૂથના વિકાસમાં મહત્વની ભૂમિકા ભજવી છે.

കൊച്ചി ▶ കേരളത്തിൽ അടുത്ത അഞ്ച് വർഷത്തിനുള്ളിൽ 30,000 കോടി രൂപയുടെ നിക്ഷേപം നടത്തുമെന്ന് പ്രമുഖ വ്യവസായി ഗൗതം അദാനിയുടെ മകനും അദാനി പോർട്ട്സ് ആൻഡ് എസ്.ഇ.സെഡ്. ലിമിറ്റഡ് മാനേജിങ് ഡയറക്ടറുമായ കരൺ അദാനി. 'ഇൻവെസ്റ്റ് കേരള' ആഗോള ഉച്ചകോടിയിലായിരുന്നു അദ്ദേഹത്തിന്റെ പ്രഖ്യാപനം.

തിരുവനന്തപുരം വിമാനത്താവളത്തിന്റെ പ്രവർത്തന വിപുലീകരണത്തിനായിരിക്കും ഇതിൽ 5,500 കോടി രൂപ ചെലവിടുക. തിരുവനന്തപുരം വിമാനത്താവളത്തിന്റെ ശേഷി പ്രതിവർഷം 45 ലക്ഷത്തിൽനിന്ന് 1.2 കോടി യാത്രികരിലേക്ക് ഉയർത്തും. വിഴിഞ്ഞം തുറമുഖ വികസനത്തിനായി 20,000 കോടി രൂപയുടെ അധിക നിക്ഷേപം നടത്തും. വിഴിഞ്ഞത്ത് ഇതിനോടകം 5,000 കോടി രൂപയുടെ നിക്ഷേപം അദാനി ഗ്രൂപ്പ് നടത്തിയിട്ടുണ്ട്.

ലോകത്തിലെ ഏറ്റവും തിരക്കേറിയ കപ്പൽ പാതയിലാണ് വിഴിഞ്ഞം തുറ

മുഖം സ്ഥിതി ചെയ്യുന്നത്. തുറമുഖം കമ്മീഷൻ ചെയ്യുന്നതിന് മുൻപുതന്നെ 24,000 കണ്ടെയ്നറുകൾ വഹിക്കാൻ ശേഷിയുള്ള ഏറ്റവും വലിയ കണ്ടെയ്നർ കപ്പൽ ഇന്ത്യയിലാദ്യമായി വിഴിഞ്ഞത്ത് എത്തിയിരുന്നുവെന്നും ഇതിലൂടെ തുറമുഖം ചരിത്രം സൃഷ്ടിച്ചെന്നും അദ്ദേഹം പറഞ്ഞു. ഇന്ത്യയിലെ ആദ്യത്തെ ട്രാൻസ്ഷിപ്പ്മെന്റ് ഹബ്ബെന്നതു മാത്രമല്ല, രാജ്യത്തെ ഏറ്റവും വലിയ ട്രാൻസ്ഷിപ്പ്മെന്റ് തുറമുഖമാക്കി വിഴിഞ്ഞത്തെ മാറ്റാനാണ് ലക്ഷ്യമിടുന്നതെന്നും കരൺ അദാനി പറഞ്ഞു.

ഉമ്മൻചാണ്ടി സർക്കാരിന്റെ കാലത്താണ് അദാനി ഗ്രൂപ്പ് വിഴിഞ്ഞം പദ്ധതിക്കായി കേരളത്തിലേക്ക് വന്നത്. പിന്നാലെ വിജയൻ സർക്കാരിൽനിന്ന് ഇപ്പോൾ മികച്ച പിന്തുണയാണ് ലഭിക്കുന്നതെന്നും അദ്ദേഹം ചൂണ്ടിക്കാട്ടി.

കൊച്ചിയിൽ ലോജിസ്റ്റിക്സ് ആൻഡ് ഇ-കൊമേഴ്സ് ഹബ്ബും അദാനി ഗ്രൂപ്പ് സ്ഥാപിക്കും. കൊച്ചിയിലെ സിമന്റ് സംഭരണശേഷി വർദ്ധിപ്പിക്കാൻ പദ്ധതിയുണ്ടെന്നും കരൺ അദാനി പറഞ്ഞു.
