Despite Trump remark, Apple seems to be pushing forward with Make-in-India plan

Suraksha P & Dia Rekhi

Bengaluru | Chennal; Last week, US President Donald Trump said he told Apple CEO Tim Cook: "I don't want you building in India."

That remark, made during Trump's visit to Qatar's Doha, doesn't seem to have swayed the iPhone maker much from its plans to do just that. Cook has said that most of the iPhones that will be sold in the US will be made in India rather than China and the company seems to be pushing for

The world's largest electronics manufacturer is investing \$2.56 billion in its Devanahalli plant. Spread across Doddagollahalli and Chapparndahalli villages in Devanahalli taluk, it's 34 km from Bengaluru's Kempegowda International Airport. While Foxconn invested around Rs 3,000 crore in phase 1 (2023-24), the anticipated investment in the second phase (2026-27) is a similar amount. The manufacturing target is likely to be about 100,000 iPhones by December this year. The dorms can house about 30,000 employees, making it the single largest such facility in India.

India-B'desh trade curbs: Imports of readymade garments to bear brunt

India has disallowed import of readymade garments (RMG) from Bangladesh via its land ports even as there are no curbs through the Nhava Sheva and Kolkata seaports.

Imports of other products has been stopped via India's land custom stations and integrated check points. The move came after Dhaka, under Muhammad Yunus, imposed trade restrictions on Indian exports to Bangladesh and a transit fee on Indian goods moving through the country. As on March 31, 2024, India had 12 operational land ports, of which six were with Bangladesh. Two of these — Dawki and Sabroom — became operational in 2023 and 2024, respectively.

In FY24, nearly 52% of total imports from Bangladesh into India came via land ports. 92% of all imports from Dhaka took place via Petrapole, South Asia's largest land port. The share of RMG made of cotton and man-made fibres accounted for 44% of India's imports from Bangladesh through Petrapole in FY24.

Azure Power explores green energy JV

Aman Malik

NEW DELHI

a zure Power Global Ltd is looking for a joint venture partner to operate some of its renewable energy assets in India, a person aware of the matter told VCCircle, as it attempts to recover from a bribery scandal and other governance issues.

The company, which is majority owned by Canadian pension funds Caisse de dépôt et placement du Québec (CDPQ) and the Ontario Municipal Employees Retirement System (OMERS), is seeking to form a JV for assets totalling about 950 MW, the person said, asking not to be identified.

The person, a senior industry executive, said this capacity includes 300MW of operational assets and 650MW of projects in the pipeline, add-

It seeks a joint venture partner for around 950MW of renewable assets, including 650MW under development.

ing Azure Power approached several companies for a deal. "They approached us as well.

They were looking at a 50-50 JV or some other structure. But we declined," he said without elaborating further.

Although he did not disclose any financial details, back-ofthe-envelope calculations

show 950MW capacity may be valued at ₹5,2005,700 crore. A detailed questionnaire sent

to Azure Power executives, and principal shareholder CDPQ went unanswered. CDPQ owns a 53% stake in it.

The firm's website showed it has a pan India portfolio of 4.3GW, of which 3GW is operational and 1.2GW contracted and awarded capacity, which includes 967MW for which a letter of allotment was issued but no power purchase agreement has been signed yet.

Azure Power and CDPQ are in the news for all the wrong reasons. Last November, three CDPQ staff, including a former India head were indicted along with billionaire Gautam Adani and four others by US prosecutors for a role in what might have been a multi-million dollar bribery and fraud scandal.

VCCircle also reported that OMERS, which holds a little over 21% in the beleaguered green energy firm, might have been looking to exit. In March 2024, Mint reported Azure is exploring a stake sale to a strategic partner, even a complete sale but nothing has fructified. In fact, in 2019 there had been some speculation that CDPQ could exit the company along with some other investors.

Turkey's Celebi says India's withdrawal of clearance hurting biz

The court asked

security clearance

Priyanka Gawande priyanka.gawande@livemint.com MUMBAI

elebi Aviation Holding, a Turkish ground handling and cargo operator, told the Delhi High Court (HC) on Wednesday that India's decision to scrap the firm's security clearance was against the principles of natural justice, and that the move had affected its business operations in the country.

It said that its business contracts with airports across India are now being cancelled, after the government last week scrapped the firm's security clearance citing national security risks.

"Our (Celebi's) business and contracts have been affected," said senior counsel Mukul Rohatgi, who is representing the Turkish company in the matter. Rohatgi argued that the

government's move was in violation of the 'principles of natural justice'.

India on 15 May withdrew the security clearance of Celebi's Indian airport services arm, citing national security risks and halting its operations at nine airports, including Delhi and Mumbai. The decision came amid growing demand for boycotting the firm headquartered in Istanbul, Turkey—a country that sided with Pakistan in the recent escalation of tensions with India.

The government revoked the clearance after Turkey publicly backed Pakistan and criticized India's strikes on terror camps during Operation Sindoor, launched in retaliation to the deadly Pakistan-sponsored terror attack on 22 April in Jammu and Kashmir's Pahalgam that killed 26 tourists.

The government, however, stood its ground, asserting that it had the powers to revoke security clearances and it does not need to assign any reasons while protecting the national security and sovereignty of the country.

"No opportunity of hearing given. It was a bolt from the blue, Without hearing, without notice, without reason...,"

Rohatgi said.

Arguing on behalf of the government, solicitor general Tushar Mehta contended that it is dealing with the most 'delicate' subject of civil aviation and

aviation and national security and sovereignty of the nation.

The court, however, asked the government to demonstrate genuine apprehensions in revoking the firm's security clearance licence. The matter will be taken up for hearing today.

The company's over 10,000 employees have been temporarily transferred to Air India SATS Airport Services (AI SATS), AI Airport Services (AI ASL) and Bird Group. For an extended version of

IndiGo logs best-ever Q4 profit after soaring Mahakumbh sales

SWARAJ BAGGONKAR Mumbai, May 21

INTERGLOBE AVIATION, WHICH runs India's largest carrier IndiGo, posted its best-ever March quarter profits, riding on robust demand for the Mahakumbh festival. With plane seats in short supply, fares in February had soared. The Gurugram-based company recorded a consolidated net profit of ₹3,068 crore in Q4FY25, a 62% jumpyear on year (y-o-y). It also beat the consensus estimates from Bloomberg of ₹2,574 crore.

Pieter Elbers, CEO, IndiGo, said demand had been good in the fourth quarter as had the execution "with Mahakumbh obviously helping".

IndiGo's Q4 consolidated revenue from operations jumped 24%(y-o-y) to ₹22,152 crore, beating the estimate of ₹21,887 crore. The number of passengers carried during the quarter increased 20% y-o-y to 31.9 million while the available seat kilometres (ASK) increased by 21% to 42.1 billion. The airline's yield increased by 2.4% to ₹5.32 and load factor improved by 1.1 points to 87.4%.

IndiGo has guided for the induction of one plane every week which will help the airline keep pace with

FLYING HIGH

the growing traffic. "We are expecting the Airbus XLRs to come within this financial year, perhaps even before the end of this calendar year. These will come in two-cabin configuration," Elbers added.

The company also noted that the response to its business class offering has been 'good' on all the sectors it has offered. "We have seen fairly good performance in the Delhi-Mumbai sector. It is important that we create good market awareness on this product. The response has been very good on the Bangkok route as well," Elbers added.

IndiGo is launching its 'Stretch'

business class product on 40 of its Airbus A321neo aircraft. Of these 16 aircraft are already in use. Delhi-Bengaluru, Delhi-Chennai and Delhi-Hyderabad routes have seen business class being offered by the airline.

As of March 31, IndiGo had a total cash balance of ₹48,170 crore, comprising ₹33,153 crore of free cash and ₹15,017 crore of restricted cash.

IndiGo was among the airlines impacted by the closure of Pakistan airspace and the closure of a number of India airports in the current quarter. Two international routes — Tashkent and Almaty — have been suspended by the airline out of the

total 41 that it operates. "There are 30-35 flights where the average flying time has increased in the range of 20 mins. We will reinstate Tashkent and Almaty when the Pakistan airspace reopens. Out of the 32 airports closed, 11 were served by IndiGo with total cancellations of 170 flights a day," Elbers added.

IndiGo CEO says lease deal with Turkish firm as per rules

SWARAJ BAGGONKAR Mumbai, May 21

LOW-COST CARRIER INDIGO is compliant with all the regulatory framework and regulations for using aircraft leased from its long-time partner Turkish Airlines, said CEO Pieter Elbers on Wednesday, adding that it is for the government to decide on renewal of leases.

Companies from Turkey operating in India have been at the receiving end of a consumer backlash in the wake of increased tension between India and Pakistan. Last week regulatory body Bureau of Civil Aviation Security revoked the security clearance of Turkish firm Celebi Airport Services, a ground handling company.

Recent reports stated that the Centre is not keen on extending IndiGo's lease agreement with Turkish Airlines, which allows the Indian carrier to operate on the Mumbai-Delhi-Istanbul route. The agreement is set to expire on May 31.

IndiGo operates two Boeing 777s, leased from Turkish Airlines, running direct flights to Istanbul having over 500 seats each. It also offers codeshare seats to more than 40 points in Europe and the US through its partnership with the Turkish carrier.

"It is important to recognise that the operation to Istanbul is in the context of the air service agreement between India and Turkey. Indigo is fully compliant with the regulatory framework and regulations which are there. We have thousands of customers booked mostly beyond Istanbul," said Elbers.

Why security nod was withdrawn for Celebi

he Bureau of Civil Aviation
Security had on May 15
withdrawn security clearance
for Turkiye's airport
ground-handling firm Celebi citing
national security concerns. However,
the bureau is yet to give details of the
concerns. The action was seen as a direct
fallout of Turkiye's support for Pakistan
following India's military action against
terrorist infrastructure in Pakistan that
came after the terror attack in Pahalgam,
J&K on April 22.

What does Celebi do?

Celebi provided passenger and cargo ground-handling services to airlines at nine airports in the country, including Delhi, Mumbai, Bengaluru and Hyderabad. In Delhi, it also ran the cargo terminal. It handled about 160 flights daily at the 9 airports.

Celebi has been present in India for more than a decade.

Celebi Aviation Holding, the Turkiye based parent company, was founded as a ground-handling firm in 1958 and now additionally offers allied services such as cargo and warehouse services, bridge operations, lounge services and general aviation which includes parking, towing and cleaning of aircraft.

What is Celebi's response to the

government's move?

Celebi Aviation Holding's group CEO Dave Dorner is understood to have met Civil Aviation Ministry officials last week, likely to dissuade them from taking action. The CEO of their India operations had also written to the Mumbai airport insisting that the company had no political affiliation with

"Our business in India is truly an Indian business headed and managed by Indian citizens. All our investments were made through Foreign Investment Promotion Board clearances as per FDI norms and none of the board directors are Turkish nationals as is being alleged. We are security-cleared by the relevant regulatory bodies in India," Tauseef Khan, the CEO of its ground-handling operations in India, wrote in a letter to Mumbai International Airport.

Under what law did the government withdraw security?

Under India's Aircraft Rules of 1937, Rule no. 92 – relating to 'Aerodromes' – indicates that ground-handling companies require a security clearance from the government to operate in airports.

India's Aircraft Security Rule no. 11 states: No aerodrome or aircraft operator can commence operations without obtaining security clearance and approval of security arrangements from the Director General, ensuring safety and security compliance. As per

UNDER LENS. In India, Celebi provided ground-handling services at 9 airports

Rule no. 12, the Director-General holds the authority to suspend, cancel, or impose conditions on security clearances and programmes in cases of non-compliance or national security concerns.

Does Celebi have any political affiliation?

There were also reports that Turkish president Erdogan's daughter Sumeyye was part owner in the parent company. However, the company had 'categorically' rejected "the false claim being propagated around Turkish president Erdogan's daughter Sumeyye being a part owner in the company".

"For the record and in line with complete transparency, there is no one named Sumeyye owning any shareholding in the parent organisation. The Turkish shareholding is solely limited to members of the founding Celebioglu family; Mr. Can Celebioglu and Ms. Canan Celebioglu (each holding 17.5%), nor any individuals with the same.... Both siblings have no political affiliations or associations of any kind," according to the statement.

What is the diplomatic relationship between Pakistan and Turkiye? Not only did Pakistan use Turkish drones against India in the recent conflict between the two countries, but Turkiye has in the past also commented on the issue of Kashmir.

When Turkiye's President Recep Tayyip Erdogan visited Pakistan in February, he had said that the Kashmir issue ought to be resolved through dialogue between India and Pakistan, with "due consideration for the aspirations of the Kashmiri people".

Are similar curbs by India against other foreign companies likely? Action against other Turkish companies or offerings look likely. For example, Himachal chief minister Sukhvinder Singh Sukhu says he will seek a ban on the import of Turkish apples.

In the past, India had banned several Chinese apps such as TikTok and CamScanner, following the skirmish between Indian and Chinese soldiers in Galwan. By inference it is likely that India would seek to ban or withdraw authorisation to operate in India for companies from countries that the government perceives as inimical to the country's interests.

2 die as high-mast electric pole, tree fall on them in different parts of city

TIMES NEWS NETWORK

New Delhi: Two people, including a differently-abled individual, died after a high mast electric pole and a tree fell on them in separate parts of the city.

A tragic incident occurred on Wednesday evening when a high-beam electricity pole collapsed during a thunderstorm on Lodhi Road, resulting in the death of a differentlyabled man. According to police, the incident took place at around 7.50 pm near the Lodhi Road flyover. The victim, who was passing through the area on a tricycle, was struck by the falling pole amid heavy winds and rain. He sustained severe injuries and was immediately rushed to hospital by ambulance. Despite efforts by medical personnel, the man was declared dead shortly after arrival. His identity is yet to be confirmed.

A police team, along with the crime investigation team, promptly reached the scene to secure the area.

In another tragic incident, a 22-year-old man lost

his life after a tree fell on him in the D Block area of Gokulpuri, north-east Delhi. Police reported that they received a distress call at around 8.15 pm on Wednesday, notifying them of the incident caused by strong winds and adverse weather conditions. The local police station team quickly responded to the scene.

Upon arrival, they discovered that the fallen tree had trapped two motorcycles and one person underneath it. The man was found with seve-

re injuries and was promptly rushed to Guru Teg Bahadur (GTB) hospital by the PCR team. Unfortunately, despite the efforts to save him, doctors at the hospital declared him dead after examining his injuries. The deceased has been identified as Azhar, a 22-year-old resident of Vijay Mohalla, Maujpur, Delhi. Authorities have initiated a legal investigation into the incident.

A 55-year-old was injured after an awning of a juice shop fell in Kashmere Gate on Wednesday. Meanwhile, a police machan fell in east Delhi's Shakurpur area, and no one was injured in the incident.

Municipal Corporation of Delhi received three complaints related to damage caused by uprooted trees due to rainfrom Chittaranjan Park, Pitampura and Krishna Nagar. Officials claimed that upon receiving complaints, the staff swung into action.

Meanwhile, traffic was affected in the city due to the storm. According to traffic police, traffic was affected in the carriageway from Kodia Pul towards Chatta Rail due to a tree getting uprooted. Traffic was also disrupted on Mathura Road in the carriageway from Neela Gumbad towards Ashram.

In a statement, BSES said, the storm led to instances of power disruption in parts of the city, primarily due to uprooted trees and branches falling on electricity cables. BSES said its quick response teams were promptly deployed to attend to complaints. In most cases, power supply was restored swiftly, it said.

Delhi's weather does a quick flip: From 50°C to hailstorm

New Delhi: As Wednesday wore on, there was severe thermal distress, with the heat index or the feels-like temperatures reaching 50.2 degrees Celsius at noon. There was a surprise late the evening, however, when dust-laden winds approaching 79kmph brought heavy rainfall and hailstorm in various areas in the city. But the respite wasn't without its own distress: two people were killed, over 50 trees uprooted or damaged and motorists faced a harrowing time due to traffic gridlocks.

The extreme weather condition, which started around 8pm, was due to a southward-moving convection. It lasted less than an hour, but in that hour Safdarjung, the base weather station, recorded 12.1mm of rainfall, Mayur Vihar 13.5mm, Pitampura 5mm and Palam, 2.1mm.

IMD had issued a yellow alert in expectation of strong gusts and thunderstorms, but till darkness fell, the city remained nastily hot and humid. Two people were killed. Due to the squalls, the fire service received at least 25 calls of fallen or damaged trees till 9pm. As usual, both road and air traffic were affected by the squall. At least 10 flights were diverted to Jaipur and Mumbai, while over 50 flights were delayed. Delhi Metro services were also impacted.

AS PART OF AIRLINE'S INTERNATIONALISATION STRATEGY

IndiGo to fly thrice weekly to Manchester, Amsterdam from Mumbai starting early July

SUKALPSHARMA

NEW DELHI, MAY 21

INDIGO WILL start operating flights to Manchester and Amsterdam from Mumbai from early July, marking the long-haul debut for India's largest airline that has been making concerted efforts to rapidly expand its international network and go beyond short-haul international routes. While Manchester and Amsterdam are the initial long-haul routes for IndiGo, the airline is understood to be evaluating multiple other key long-haul markets in Europe and beyond to expand its international footprint.

The carrier's Mumbai-Manchester service will start on July 1, and the Mumbai-Amsterdam service will begin on July 2. Both will be thrice weekly services and will be operated with the wide-body Boeing 787-9 aircraft that the carrier has taken on damp

lease from Norse Atlantic Airways. IndiGo has opened bookings for these services with one-way fares starting at Rs 24,499 for Manchester and Rs 26,999 for Amsterdam.

The aircraft that will operate these flights have 56 business class seats, marketed as IndiGoStretch seats, in a 2x3x2 configuration, while the economy cabin consists of 282 seats in a 3x3x3 configuration. In a first for IndiGo, the airline will offer complimentary hot meals to all flyers on these flights, which is a departure from its model of paid meals. As the airline's regular fleet does not have ovens on board, it serves only cold meals and instant meals prepared with hot water.

Over the past few months, IndiGo signed agreements with Norse Atlantic Airways to damp lease a total of six Boeing 787-9 Dreamliner aircraft, one of which is already operating on its Delhi-Bangkok route. These aircraft will support IndiGo's debut into the European market, starting with Manchester and Amsterdam, while the airline awaits the delivery of its A321XLR planes from this year and A350-900 aircraft from 2027 onwards.

As part of its "internationalisation strategy", IndiGo plans to induct extra-long-range narrowbody Airbus A321 XLR aircraft and wide-body Airbus A350 planes to operate medium- and long-range international flights. The carrier evidently does not want to wait for these aircraft to further fuel its international expansion, and therefore decided to enter the long-haul market using dampleased planes. The airline is understood to be in the market for more wide-body leasing opportunities.

'UP TO GOVT TO DECIDE ON TURKISH AIRCRAFT LEASES'

Turkish Airlines partnership 'fully compliant' with govt rules: IndiGo CEO

SUKALPSHARMA

NEW DELHI, MAY 21

AMID THE backlash in India over Turkey's support for Islamabad in the India-Pakistan conflict, India's largest airline IndiGo on Wednesday said that the carrier's codeshare partnership with Turkish Airlines and the operation of damp-leased wide-body jets between the two countries are fully compliant with all Indian rules and regulations, and are strictly within the framework of the India-Turkey bilateral air services agreement.

On the upcoming renewal of the damp lease arrangement, IndiGo CEO Pieter Elbers said that it is for the Indian government to decide, and the airline will have fallback plans in case of changes in the current arrangement.

There have been calls from some quarters in India for IndiGo to end its relationship with Turkish Airlines, including its damp lease of two wide-body jets of the Istanbul-based carrier, with which IndiGo operates its flights to Istanbul from Delhi and

Mumbai. These planes are highdensity Boeing 777 aircraft with over 500 seats apiece, allowing IndiGo to carry significantly more passengers that what its regular narrow-body aircraft can carry. The codeshare agreement also enables the Indian carrier to offer connections to over 40 destinations in Europe and North America on the Turkish Airlines network via Istanbul.

The lease arrangement is ending this month, and the airlines cannot go ahead with a renewal unless New Delhi greenlights it. Following India's decision to cancel the security clearance of Turkey-headquartered airport ground handling major Celebi, speculation is rife that the IndiGo-Turkish Airlines damp lease renewal may not receive a favourable decision from the government.

The past few days have seen a growing clamour for a boycott of Turkey and review of Turkish firms' presence in India in the wake of Operation Sindoor. Apart from Ankara's open support for Islamabad in the recent India-Pakistan military, widespread use of Turkish drones by Pakistan in operations against India has added to the disapproval for Turkey in India.

The flights between India and Turkey are governed and are within the framework of the air service agreement between the two nations. Two, the operations which are taking place are fully compliant and in line, not only with the regulatory framework, but also with all the rules and regulations from the (Indian) government...We still have lots and lots of Indian customers booked on these flights, mostly connecting over at Istanbul and flying to other parts of the world for their travel needs," Elbers said in an investor call on Wednesday.

"On the (damp lease) renewal, that's up to the government to decide. We have had this operation in place for some time now. It has served the Indian customers well... The government has a view on what is the overall landscape and the overall setting and the holistic picture, and we operate within that guidance and framework," Elbers added.

In response to a question on IndiGo's options if the damp lease arrangement with Turkish Airlines is not renewed beyond May, Elbers said: "As a good airline, we make sure that we have fallback plans in case of changes. And I think we have demonstrated that over the last years, be it domestic, be it International... We'll deal with it, and we adjust our network accordingly".

In the past, IndiGo has operated its flights to Istanbul from Delhi and Mumbai using its narrow-body Airbus A320neo and A321neo aircraft whenever the Boeing 777 jets faced technical issues or the lease arrangement was not in place. For instance, for about two weeks in November, IndiGo operated its Turkey flights using narrow-body aircraft as the process for renewal of the damp lease of the Boeing 777 planes was underway at the time.

'Captain' to 'new Kerala architect': Buoyed by CPM pitch, Vijayan steps up 2026 run

SHAJU PHILIP

THIRUVANANTHAPURAM, MAY

WITH KERALA headed to the Assembly elections in less than a year, the ruling CPI(M)-led LDF has year, the fulling Cri[M]-led (LD) flab started gearing up for the high-stakes battle with the Opposition Congress-led UDF, projecting Chief Minister Pinarayi Vijayan as the "architect of new Kerala".

In May 2021, Viiayan had created history as the first incumbent CM in the history of Kerala to have assumed office for a second con-secutive term after leading the LDF to a resounding victory. Stepping up its 2026 poll prepa rations, the CPI(M), in its public outreach, has been showcasing Thudarum (will continue) On the occasion of the fourth

anniversary of his government 2.0, which was marked on Tuesday, Vijayan, 79, has been touring all 14 districts of the state, meeting people from dif-ferent walks of life. In his interactions with them, he has been highlighting his government's various schemes and initiatives while responding to their queries and suggestions.

Last Saturday. Viiavan held a meeting in Thiruvananthapuram with several professionals from different sectors to hear their

views on development. The CPI(M) stalwart met prominent persons from the Scheduled Caste (SC) and Scheduled Tribe (ST) communi-ties on Sunday in Palakkad. On Monday, Vijayan had a meeting

with leading faces from various cultural fields in Thrissur. Along with these interactions, the CM has also been holding high-level regional meetings in different parts of the state, atdifferent parts of the state, at-tended by Cabinet ministers and senior officials, to review the progress of various projects. In all recent public meetings of the CPI(M) and its allies, their

leaders have been making a common refrain that a "Nava Kerala (new Kerala)" has risen during the Vijayan regime. In the 2021 Assembly polls,

the CPI(M)'s campaign had pro-jected Vijayan as "Kerala's Captain" for steering the state

Congress, the CPI(M) has flagged the development issue as its key plank, building a campaign around Kerala "before and after 2016 (the year when the Vijayan government 1,0 was formed)* while projecting Vijayan as the leader "who delivered many de-velopment projects reckoned as impossible over the years". On May 2, Prime Minister Narendra Modi inaugurated the

Rs 8,800-crore Vizhinjam International Deepwater International

Multipurpose Seaport in Kerala. Speaking at the function there, Vijayan called the port's commis sioning "Kerala's dream come true", saying "what was deemed impossible once has now become a reality after decades of uncertainty". Last week, addressing an LDF rally in Thrissur, Vijayan also played up the same theme. "The creation of new Kerala is not a con-cept, it is a reality. Mega projects, which had been abandoned dur-ing the previous UDF regime, had been executed," he claimed, referbeen executed, nectained, refer-ring to projects including the National Highway widening, GAIL, pipeline and the Edamon-Kochi power transmission that, he added, gained momentum after the LDF government took charge

Although Vijayan's first stint as the CM was hit by various alleged scams including the 2020 gold scams including the 2020 gold smuggling case, his second tenure has not seen any major scandal so far. In the Kerala CP(M), Vijayan is still considered by many as "the final word" on organisational matters too. The party has made it clear that he will again spear-

head the LDF's campaign in the upcoming polls. Vijayan's task is cut out as the LDF is set to face a formidable challenge from the UDF. In the 2024 Lok Sabha polls, the UDF bagged 18 seats out of 20 as against just one seat of the LDF, with the BJP managing to win its first-ever seat in the state.

During the CPI(M)'s 24th Party Congress in Madurai last month,

the party gave Vijayan an exemp-tion from the 75-year age limit norm, naming him as a member of the Politburo as well as the

of the Politburo as well as the Central Committee. Following his election as the new CPI(M) general secretary then, M A Baby, when asked if Vijayan would lead the party in the 2026 Kerala polls, told re-porters: "Pinarayi Vijayan nowis the leader of the Left Front in Kerala. He is the Chief Minister. Wijayan pharplay will lead the left Wijayan will lead the left Wijayan be wijayan lead Wijayan will lead the left Wijayan will l Viiavan naturally will lead the Left Front in terms of its political and organisational campaign. Why are you discussing with such cu-riosity now the question of who will be the Chief Minister in the event we retain power? When it comes, we will decide. We will make a good decision."

Virtually no disclosure at SEBI helm, tackling this head on: new chief

GEORGE MATHEW, HITESH VYAS & SANDEEP SINGH

MUMBAI, MAY 21

THERE WAS "virtually no public disclosure" for those at the helm of market regulator Securities and Exchange Board of India, not even meeting "minimal expectations", new chief of SEBI Tuhin Kanta Pandey told *The Indian Express*.

This candid admission comes within three months of his taking over the charge at SEBI from Madhabi Puri Buch whose controversial three-year term ended in February. She and her husband Dhaval Buch had faced allegations that they held investments in offshore funds, in

TUHIN KANTA PANDEY SEBI CHAIRMAN

which associates of Adani Group Chairman Gautam Adani's brother, Vinod Adani, had also invested. The Buchs had denied these allegations.

While taking charge at SEBI, he said, there was a "narrative" about conflict of interest at the

helm of SEBI, and this had to be tackled "head-on". "If you have a problem and there are questions, you need to answer in a systematic way," Pandey said.

SEBI then set up an independent committee to look into the aspects of conflict of interest and suggest a framework that can be implemented after due discussion. When the framework gets ready, it will also really "put to rest this narrative that - we have to hide", Pandey said.

When the Hindenburg allegations first surfaced, SEBI had defended its chairperson and said the regulator has adequate internal mechanisms for addressing issues relating to conflict of interest, which include a disclosure framework and provision for recusal.

On August 10, 2024, the US-based research firm alleged that "it suspects SEBI's unwillingness to take meaningful action against suspect offshore shareholders in the Adani Group may stem from Sebi Chairperson's complicity in using the exact same funds used by Vinod Adani, brother of Gautam Adani." Quoting "whistle-blower documents", it had alleged, "SEBI's Chairperson had a stake in obscure offshore entities used in Adani money siphoning scandal." The conflict of interest in

SEBI raised questions about integrity and the Chairperson's conduct, in a way denting the image of the stock market regulator.

"In terms of conflict of interest, whenever you see the 2008 document that we had for the chairman and the board, and then there are employee regulations, I found there was virtually no public disclosures," Pandey said. "The conflict of interest in SEBI's case is much wider. It's a very difficult concept also. Like, how are you? Where is your thing? What is family? Where does it extend? Because virtually the listed companies are everywhere," he said.

Pandey also advocated a proper recusal process and said, "If SEBI officers are working, then where should they recuse and where should they not recuse? If you say that my cousin's son and others are working or employed somewhere, I will not write orders. Is it okay? So, you have to be really defining and clearly saying where the recusal will come, how the recusal will be recorded, and how the recusal will be maintained? So, what we have suggested is that let an independent committee, which has got eminent people from different sides."

"I had promised that we will set up a committee and a (highlevel) committee (to review conflicts of interest of SEBI's board members) has been constituted. They are already working quite hard, they had meetings and are taking inputs and working on those. So, in the next three months they will have the report," he said.

"If you see the constitution of the committee, they are very wellmeaning people, with a lot of experience in others, and they can actually dependently assess by taking a larger public opinion and best practices," Pandey said. "They can just look at it and suggest a framework. This framework then comes to the board and our board takes a view, and we will implement that framework. It will help in various ways, not only this organisation, but will also really put to rest this narrative that - we have to hide," he said. "What we have to hide, we should hide in a manner which is actually sort of mandated, means while you are investigating, you have to be hiding and you have to reveal only when your investigation is complete," Pandey said. "But in terms of conflicts also, what is to be reported, what is not to be reported to whom to be reported, how is to be reported - this framework needs clarity. Otherwise, there will be confusion," Pandey said.

Civic body proposes 64 slum redevelopment projects on its own plots across 11 wards

PRATIP ACHARYA MUMBAI, MAY 21

THE BRIHANMUMBAI Municipal Corporation (BMC) has floated an Expression of Interest (EoI) for slum development scheme on 64 civic plots across 11 wards in Mumbai on the lines of the Dharavi Redevelopment Project (DRP) — the ambitious project undertaken by the state government, in collaboration with the Adain

group, for development of the

slums in Dharavi.

Slum development schemes are real estate projects aimed at transforming slum clusters to high-rises with the dual aim of providing housing to eligible slum dwellers as well as selling flats for revenue generation. The

rehabilitation (rehab) to sale ratio is determined by factors such as the existing development plan, floor space index (FSI) regulations, and the specific project's design. Rehab tenements are built for eligible slum dwellers, while sale tenements are for the open market to help subsidize the rehabilitation costs.

On March 28, the state government announced the development of 228 slums across the Mumbai Metropolitan Region (MMR). This project would be initiated by local civic authorities and planning bodies such as the BMC, Thane Municipal Corporation (TMC), CIDCO and Mumbai Metropolitan Regional Development Authority. Out of the 228 projects, BMC will be responsible for executing 64 projects.

The contractors appointed for the project will be executing all responsibilities, such as survey of slums, planning and preparation of the project, securing permission and noobjection certificate, construction of the tenements as well as their maintenance post construction. Furthermore, the BMC's EoI also states that the civic authorities will only appoint developers who have prior knowledge of executing projects related to slum and housing rehabilitation.

"The plots identified were already reserved for executing various government schemes. As a result, developing these plots will not only promote the government's objective of housing for all but will also create amenities such as open spaces and parking lots. Since these plots are entirely owned by the civic body, the chances of facing any legal hurdle are minimum," said a civic official.

"The developers for each project will be set up via tendering module and proper public consultation will be carried out before going ahead," the official added.

Meanwhile, the BMC's move has invited criticism from political quarters. Samajwadi Party (SP) MLA Rais Shaikh said the BMC doesn't have experience of successfully executing slum rehabilitation projects and that such projects focus on specificarea development instead of cluster development.

He further pointed out that the BMC has not even been able to redevelop schools under its own jurisdiction.

"The responsibility for these 64 SRA projects now lies with the municipal administration, which has previously failed to redevelop its own schools. The poor deserve ownership housing, and the civic administration must show flexibility to make this possible. Since the land for these 64 SRA projects belongs to the BMC, the civic body must ensure that these projects are not stalled like the Dharavi redevelopment due to misguided policies," Shaikh said.

IndiGo to fly thrice weekly to Manchester, Amsterdam from Mumbai starting early July

SUKALPSHARMA

NEW DELHI, MAY 21

INDIGO WILL start operating flights to Manchester and Amsterdam from Mumbai from early July, marking the long-haul debut for India's largest airline that has been making concerted efforts to rapidly expand its international network and go beyond short-haul international routes. While Manchester and Amsterdam are the initial long-haul routes for IndiGo, the airline is understood to be evaluating multiple other key long-haul markets in Europe and beyond to expand its international footprint.

The carrier's Mumbai-Manchester service will start on July 1, and the Mumbai-Amsterdam service will begin on July 2. Both will be thrice weekly services and will be operated with the wide-body Boeing 787-9 aircraft that the carrier has taken on damp

lease from Norse Atlantic Airways. IndiGo has opened bookings for these services with one-way fares starting at Rs 24,499 for Manchester and Rs 26,999 for Amsterdam.

The aircraft that will operate these flights have 56 business class seats, marketed as IndiGoStretch seats, in a 2x3x2 configuration, while the economy cabin consists of 282 seats in a

3x3x3 configuration. In a first for IndiGo, the airline will offer complimentary hot meals to all flyers on these flights, which is a departure from its model of paid meals. As the airline's regular fleet does not have ovens on board, it serves only cold meals and instant meals prepared with hot water.

Over the past few months, IndiGo signed agreements with Norse Atlantic Airways to damp lease a total of six Boeing 787-9
Dreamliner aircraft, one of which
is already operating on its DelhiBangkok route. These aircraft will
support IndiGo's debut into the
European market, starting with
Manchester and Amsterdam,
while the airline awaits the delivery of its A321XLR planes from
this year and A350-900 aircraft
from 2027 onwards.

As part of its "internationalisation strategy", IndiGo plans to induct extra-long-range narrow-body Airbus A321 XLRaircraft and wide-body Airbus A350 planes to operate medium- and long-range international flights. The carrier evidently does not want to wait for these aircraft to further fuel its international expansion, and therefore decided to enter the long-haul market using dampleased planes. The airline is understood to be in the market for more wide-body leasing opportunities.

Surge in Indian tourists to South Asia

Why Vietnam, Bali & Indonesia are the new vacation hotspots

The pleasant route plans of Indian visitors have altered in recent years. During the initial vacations, they were more drawn to places like Europe and Thailand, Cambodia, America. Indonesia (particularly Bali), Vietnam, and other adjacent locations are now attracting Indian travellers. These are culturally diverse and economically vibrant place. Data also shows that it has become a new trend, so this is not just a conjecture. Recent data indicates that travel from India to these South Asian nations has increased significantly.

India's Ministry of Tourism and travel websites like Makemytrip and Cleartrippredict that by 2025, there will be 5 crore Indian visitors visiting abroad each year, up from just 2.7 crore in 2019. Nearly twice as many Indian visitors are travelling to these South Asian nations for a lovely vacation. The Vietnam Tourism Department (VNAT) reports that in 2023, there were 248% more Indian visitors to Vietnam.

These South Asian nations are well-liked because of their close proximity and improved air connections. Because India is physically close by, these locations are quite handy. Hanoi, Ho Chi Minh City, Danang, Bali, and Jakarta may be reached in two to four hours by direct flight from places like Delhi, Mumbai, Bangalore, and Kolkata.

These trips are now even more affordable thanks to low-cost carriers likeIndiGo, Vietjet Air, and Airasia. Now people can fly overseas for the same price as a traveler travelling to Kashmir. These nations' visa-friendly regulations are the second major factor. Vietnam has made e-visas available to Indian nationals. Indian travellers can obtain a visa upon arrival in Thailand, Bangkok, and Indonesia. Additionally, the procedure is fairly straightforward, and very few paperwork are required. These South Asian nations, by the way, are more cost-effective for fantastic experiences like those in Europe and

America, and the experience is just as amazing here.

These nations provide excellent experiences at affordable prices and are more cost-effective than Europe. Average daily costs per person to visit these locations; 5-Star Hotel/Night in Vietnam costs between Rs. 4,000 and Rs. 6,000; Food between Rs. 200 and Rs. 500. And the prices in Bali range from Rs. 5,000 to Rs. 8,000; and for Food Rs. 300 to Rs. 600, all of which are within the means of the average Indian. In addition to being tourist-friendly, these trips are also very significant because of the human element of life and the emotional ties of the locals.

A recent poll of Indian travellers reveals that they increasingly give priority to local tourism destinations. Popular local dishes like Hanoi Ka Pho and Bali Nasi Goreng are popular among tourists from India. Moreover, today's youth finds more beautiful locations & places in these places to post on Facebook &Instagram. Adventure

tourism includes activities like paragliding, deep sea diving, speed boat ride, cruising, and trekking in Sapa are much liked sports activities. For Indian visitors, even riding the cable car in Danang offers a good genuine adventure.

India's expanding middle class is eagerly looking to neighbouring South Asian locations as their main choice for satisfying their yearning for having an international experiences with small budgets. Vietnam's and Indonesia's tourism authorities are also promoting Indian population. Indian food and destination wedding packages, among other things, are now reasonably priced, and they have begun putting up brochures also in Hindi.

Not only this has became a current trend, but the growing number of Indian visitors to South Asian nations like Vietnam, Thailand, Bali, and Indonesia also reflects a shift in traveler attitudes. These days, Indian tourists are picking affordable, culturally diverse, and spiritually harmonious like locations in an effort to connect lively. Finally, South Asia awaits you whether you are travelling alone, on a honeymoon, or with family and friends. (Views of the author are personal)

PLOTS TO BE ALLOTTED ON FREEHOLD BASIS

About 12 acres of land in New Town set to go under the hammer

SOUMYADIP MULLICK

KOLKATA: To be used for both residential and commercial purposes, the state government is set to send about 12 acres of land in New Town, Rajarhat, spread across Action Area II and III, under the hammer for allotment on a freehold basis.

Sources in West Bengal Housing Infrastructure Development Corporation (WBHIDCO) confirmed that bids are being invited for e-auction to allot the plots in New Town. In Action Area III in New Town, 9 acres of land will be allotted on a freehold basis for residential/commercial/mixed used purposes. The starting bid price is fixed at Rs 356.40 crore.

In Action Area II, 2.428 acres of land will be allotted for the same purposes. The starting bid price has been fixed at Rs 115.38 crore. Also, 1.034 acres will also go under the hammer in Action Area II. The starting bid price has been fixed at Rs 65.52 crore.

WBHIDCO sources said around 12,000 dwelling units have already been constructed in New Town and a further 16,000 dwelling units are under construction. It is expected that the town shall have around 2,00,000 dwelling units catering to the housing needs of the planned population in due course.

The town has already attracted investments from leading players such as TCS, WIPRO, DLF, Ambuja, Bengal Unitech etc. With completion of the balance infrastructure development over the next 2-3 years, the area is expected to be one of the most soughtafter investment regions in the proximity of Kolkata. A Bengal Silicon Valley Tech Project is also coming up for over 200 acres of land.

A real estate consultant said outright sales are preferred by buyers seeking investment opportunities but a mixed development by combining apartment development on larger plots with outright sales of smaller plots will help diversify revenue streams.

Real estate experts believe Rajarhat's rise as Kolkata's top residential hub is not a coincidence but a result of its strategic location, affordable housing options and the investment potential. Sources said that the IT hubs are also a factor why many professionals in the sector are choosing to live in Rajarhat. Homebuyers are preferring Rajarhat more so due to the planned development which includes wide roads, planned layouts, and ample green spaces.

WINDS UP TO 79 KM/H LASH DELHI, ROADS FLOODED, TREES UPROOTED

OUR CORRESPONDENT

NEW DELHI: A sudden hailstorm coupled with intense rain and winds gusting up to 79 km/h swept through Delhi and the National Capital Region late Wednesday, leading to widespread disruption in transport services, uprooting trees, and leaving several parts of the city waterlogged.

The downpour followed an extremely humid and sweltering day, where the "feels like" temperature reached 50.2°C, driven by high humidity and intense sunshine. According to the India Meteorological Department (IMD), the maximum temperature reached 40.7°C, marginally above the seasonal norm, while the minimum was recorded at 30.2°C — the highest of the season so far.

Flight operations at Indira Gandhi International Airport were hit hard as gusty winds and low visibility conditions led to multiple

delays and diversions.

"Due to heavy rains and strong wind shear, at least 10 flights had to be diverted, mostly to Jaipur, and one to Mumbai," said an airport official familiar with the situation. In addition, over 50 flights were delayed between 7:45 pm and 8:45 pm.

Airlines took to social

media to inform passengers about potential delays and cancellations. IndiGo posted on X that "flight schedules are currently impacted due to the heavy rains and thunderstorm sweeping across Delhi, Chandigarh, and Kolkata." Air India and SpiceJet also issued alerts warning travellers of weather-related disruptions in Delhi.

Hailstorm

In a nowcast issued late evening, the IMD reported that convective activity had shifted south and eastward, covering parts of South Delhi and Noida. It predicted that the weather system would move out of Delhi within the hour. The agency also noted a rapid temperature drop of 14°C at Palam as the storm progressed.

Strong winds battered several parts of the city, with Safdarjung recording the highest wind speed at 79 km/h. Other locations such as Palam, Pragati Maidan, and Pitampura reported wind speeds ranging between 65 and 78 km/h.

Rainfall data from the IMD showed that Safdarjung received 12.2 mm of rain between 5:30 pm and 8:30 pm. Mayur Vihar logged 13 mm, while Pitampura recorded 5 mm during the same window.

The storm's impact was visible across Delhi. According to the New Delhi Municipal Council's Integrated Command and Control Centre (ICCC), 25 complaints of fallen trees were received. Areas affected included high-profile zones such as Rajaji Marg, Teen Murti Road, Pandit Pant Marg, and Tughlaq Road. Alerts also came from Mahatma lyotiba Phule Marg and Bhagwan Dass Road.

"Tree branches were scattered across roads, and in some cases, full-grown trees had fallen, blocking access," said an NDMC staff member involved in the overnight clearance operations.

A large billboard collapsed near the Laxmi Nagar red light on Vikas Marg, while waterlogging was reported near Akshardham Flyover, under Tilak Bridge at ITO, and along Sikandra Road. The Delhi Traffic Police issued alerts for multiple affected stretches. "Traffic is affected on Mathura Road from Neela Gumbad towards Ashram due to tree uprooting opposite P S Nizamuddin," read one of its posts on social media.

The IMD attributed the storm to a cyclonic circulation over Haryana, embedded within a larger trough extending from Punjab to Bangladesh. "Moisture from both the Arabian Sea and Bay of Bengal is feeding into this system, creating favourable conditions for intense weather events," the department stated.

The storm is likely to be fol-

lowed by another round of dust and thunderstorms on Friday, with wind speeds projected to reach 50 km/h. Thursday, however, is expected to remain dry, with a forecast of partly cloudy skies and a maximum temperature of around 40°C. The Air Quality Index (AQI)

The Air Quality Index (AQI) in Delhi stood at 213 at 4 pm on Wednesday, placing it in the 'poor' category, according to the Central Pollution Control Board. While the rain might offer temporary respite from pollutants, sustained improvement remains uncertain.

IndiGo expands ops in Europe; launches direct flight to Manchester, Amsterdam

ARSHAD KHAN @ New Delhi

STARTING July 1, 2025, IndiGo will become the only airline to offer non-stop service between Mumbai and Manchester (UK). The following day, July 2, 2025, the carrier will expand further into Europe with its inaugural nonstop Mumbai-Amsterdam flight. Both routes will operate three times weekly on IndiGo's Boeing 787-9 Dreamliner aircraft. In a first for the airline, passengers on these flights will enjoy complimentary hot meals and beverages.

Meanwhile, Interglobe Aviation Ltd, the parent company of IndiGo, also reported a profit of ₹3,067.5 crore for the quarter ended March on the back of strong domestic travel demand. The company had posted a net profit of ₹1894.8 crore in the year-ago period.

Pieter Elbers, CEO of IndiGo said their long-haul foray marks a pivotal moment in In-

diGo's global expansion journey. "We look forward to a strong and synergistic partnership with Manchester airport, to be able to serve our customers well. This significant step underscores our commitment to becoming an airline of truly global scale and stature and contributing towards transforming India into a global aviation hub," added Elbers.

Manchester Airport Manag-

ing Director Chris Woodroofe said that this route (Mumbai-Manchester) makes them the only Northern airport with a direct connection to India and cements their position as one of Europe's best-connected airports. Gurugram-based Indi-Go's European flights from Mumbai come as Pakistan's airspace closure forces Indian airlines to take longer routes from Delhi, increasing operational costs. Operating from Mumbai is likely to save IndiGo time and fuel IndiGo said this is the start of an exciting new chapter in their growth journey with Amsterdam and Manchester being the initial longhaul destinations.

Rural India can lead the biodiversity revolution

ith its rich biodiversity, deep-rooted farming traditions, and a population that still lives close to the land, rural India holds the key to reversing India's biodiversity crisis and achieving true sustainable development. As the world observes International Day for Biological Diversity (IDB), the spotlight turns toward the communities that have long lived in harmony with nature and the urgent need to empower them as agents of ecological change.

As we near the 2030 deadline for the Sustainable Development Goals and the Kunming-Montreal Global Biodiversity Framework (KMGBF), it becomes increasingly clear that rural India is not only central to India's biodiversity agenda — it could well be the catalyst that tips the scales.

Biodiversity is far more than an environmental concern; it is the foundation of life. It supports our food systems, sustains livelihoods, regulates the climate, purifies water, and provides protection against natural disasters. The rapid loss of species and ecosystems, both globally and in India, is not just a tragedy for nature - it is a threat to human survival and wellbeing. The KMGBF calls for a global transformation:

a new way of living that restores the balance between people and the natural world. In India, this transformation is most possible and most needed-in our villages and agricultural farm-

lands. The legacy of the Green Revolution, while pivotal in addressing food shortages in post-independence India, also set farmers on a path heavily reliant on chemical fertilisers, pesticides, monoculture crops, and genetically modified seeds. Over time, this model has led to soil degradation, declining biodiversity, water stress, and increased input costs - leaving many smallholders vulnerable. As the ecological costs of this type of farming become more evident, the need of the hour is to re-educate and enable farmers helping them reconnect with time-tested traditional methods that work with nature, not against it. Natural farming, agroecology, and organic tech-

niques offer a path toward regeneration. And it's not a case of 'easier said than done. Rural India is home to nearly two-thirds of the country's population and the majority of its agricultural production. For centuries, Indian farmers and indigenous communities have worked with, rather than against, nature. They've practised traditional farming systems that nurture biodiversity-rotating crops, saving seeds, maintaining mixed farming systems, and using organic inputs long before they were branded as "sustainable." These time-tested approaches offer valuable solutions to today's challenges - if only we can help our farmers remember them and adopt them.

By building on these traditions and expanding nature-friendly practices like agroecology, organic farming, and natural farming, India can move toward a truly sustainable agri-food system-one that supports biodiversity instead

of depleting it. And yet, this transition requires more than just technical changes. It demands a shift in how we value and support rural communities. Farmers must be recognised not only as food producers but as stewards of biodiversity. Their knowledge must be respected, their leadership encouraged, and their work made economically viable.

This moment also calls for greater synergy between poli-

cy and practice. India's National Biodiversity Strategies and Action Plans have an opportunity to meaningfully integrate the ambitious targets of the Kunming-Montreal Global Biodiversity Framework (KMGBF) while aligning with national and state-level development priorities. Government support will continue to play a crucial role-through enabling policies, incentives, training, and infrastructure. Just as vital, however, is the active engagement of civil society, CSR bodies, local institutions, and farmers themselves, who bring invaluable on-ground experience and insight. By working together across sectors, we can co-create solutions that are both locally rooted and globally relevant.

As the 2030 deadline looms, the need for action is urgent. But there is still time to rewrite the story. The International Day for Biological Diversity reminds us to recognise that India's future lies not in distant boardrooms or global summits-but in its villages, fields, and forests. Here, harmony with nature is a way of life-waiting to be recognised, revitalised, and scaled for a better tomorrow.

Plan for futuristic transport in Dharavi

FPJ News Service

MUMBAI

Dharavi, which is said to be Asia's big slum cluster, is seemingly all set to become a revamped neighbourhood, which is easily accessible from any mode of transport plying in the city. Although the proposal is yet to get an official nod, the plan is to turn Dharavi, which is in the process of a massive redevelopment, into a multi-modal transport hub.

Sources familiar with the project said that plans are in motion to equip Dharavi with a Metro interchange station – an extension of line 11 – linking all existing Metro corridors. The multi-modal hub is being planned at the intersection of Metro 11 and key city roads, integrating rail, metro, feeder buses and even nonmotorised transport like cycling and walking routes.

Dharavi has a unique transit crossroads, with east-west and north-south corridors intersecting, making it an ideal location for a city-level transport interchange. It is near Metro 3, Western and Central Railways and also within three km of the upcoming bullet train project.

"There is a proposal to build a Dharavi Central metro station which could become the key east-west-north-south connector and the main interchange point for commuters using different modes of transport," a source said. It's being planned as a multi-level

station and if it comes through, it will completely change how people move across the city, the person added.

To realise the vision, feeder bus routes are also being planned, connecting local neighbourhoods with Metro and train stations. "The aim is to bring all of this together – Metro, buses, trains – and make Dharavi a shining example of what inclusive, sustainable and future-ready transport looks like," the source said.

"With the population density expected to rise postredevelopment, improving public transport here isn't just important – it's essential. The proposed extension of Metro II into Dharavi is expected to elevate the neighbourhood into a transit-oriented development, making public transport more accessible than ever before," the source said.

The person continued, "This won't just be a Metro station. It will be a place where people can switch between different kinds of transport smoothly, linking Dharavi with the rest of Mumbai and significantly enhancing lastmile connectivity."

The redevelopment plan reportedly places mobility at the heart of its design, using Dharavi's central location to its advantage. Historically, what has been a traffic bottleneck is set to become a model of efficient, integrated urban transport.

overhead electricity cables, affecting areas like Bawana, Narela, Civil Lines, and Burari. Tata Power-DDL and BSES Rajdhani Power Ltd reported outages, with Tata Power-DDL suspending supply in some zones as a safety measure against electrocution. LIFTING INDIA'S TRADE WINGS

S K Pradhan

ndia's air cargo sector is on a growth trajectory, handling an estimated 3.66 million tonnes (mnt) of cargo in FY2024-25, with international freight accounting for 62 per cent of the total volume. International cargo volumes have surged, reaching approximately 1,95,000 tonnes per month in early 2025, a 13 per cent increase from 2019 levels. This recovery from the pandemic era underscores India's integration into global supply chains. E-commerce has emerged as a dominant force, now constituting one-third of air cargo volumes, up from 10 per cent in 2017, fuelled by consumer demand for rapid deliveries. Pharmaceutical exports, valued at \$2.31 billion in 2024, rely heavily on-air transport for time and temperature-sensitive goods, while the UDAN 'Krishi Udan' initiative has boosted perishable goods transport, handling over 2,54,000 tonnes in FY2021-22. These trends highlight a shift toward high-value, time-sensitive cargo, positioning India as a key player in global logistics.

Factors driving growth

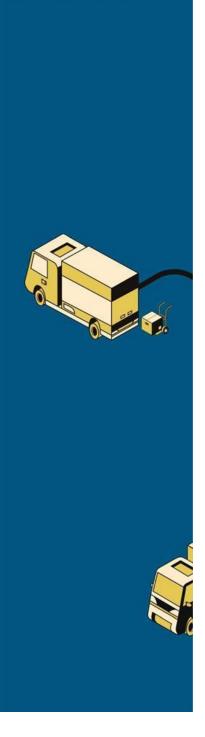

The e-commerce boom, driven by increasing internet penetration and consumer expectations for quick delivery, has made air cargo a critical logistics component. Manufacturing growth, particularly in electronics and pharmaceuticals, is supported by government initiatives like the Production Linked Incentive (PLI) scheme, which have spurred electronics exports by 27 per cent to \$22 billion in FY2024-25. Infrastructure upgrades at major airports and the expansion of Tier 2 airports under the UDAN scheme have enhanced capacity and connectivity. Government policies, including the National Logistics Policy and PM Gati Shakti, aim to streamline logistics, while the "China plus One" strategy has positioned India as an alternative manufacturing hub, attracting foreign investment and boosting exports. These drivers collectively underscore India's rising prominence in global trade.

Major cargo hubs in India

India's air cargo operations are concentrated in several key hubs, each specializing in specific kind of cargo. Delhi's Indira Gandhi International Airport (IGIA) leads, handling over Imnt annually, serving as the primary gateway for international freight. Mumbai's Chhatrapati Shivaji Maharaj International Airport (CSMIA) processed approximately 8,22,963 tonnes, primarily pharmaceuticals

and engineering goods. Bengaluru's Kempegowda International Airport (KIA) handled 4,39,495 tonnes, specializing in perishables and electronics, with a 17 per cent growth in 2024. Hyderabad's Rajiv Gandhi International Airport (RGIA) managed 1,49,812 tonnes, known for pharmaceutical exports. Chennai and Kolkata also contribute significantly, with Chennai majorly handles automotive freight and Kolkata is into specialty cargo. Adani Group airports collectively handled over Imnt, reflecting substantial private investment in infrastructure. Top exporters include electronics and pharmaceutical firms, while importers focus on high-tech components and perishables

High-performing airports

The major hubs-Delhi, Mumbai, Bengaluru, Chennai, Hyderabad and Kolkata-dominate cargo handling, accounting for nearly 75 per cent of India's air cargo movement, Delhi's IGIA stands out for its advanced facilities and connectivity, while Mumbai benefits from its strategic location as a trade hub. Bengaluru's focus on perishables and electronics, coupled with a 23per cent growth in international cargo in 2024, highlights its rising prominence. Hyderabad's digital customs systems enhance efficiency for pharmaceutical exports. These airports are supported by investments in modern cargo terminals and cold chain facilities, ensuring they meet global standards.

Rise of tier 2 airports

Tier 2 and regional airports are

increasingly vital, decentralizing cargo operations and supporting regional economies. Airports like Coimbatore, with a 99.8 per cent growth in cargo volumes, Amritsar (77.8 per cent) and Imphal (59.5 per cent) are emerging as key players, driven by exports of textiles, engineering goods and agricultural produce, among others. The UDAN scheme has improved connectivity, enabling these airports to handle niche and regional cargo, reducing congestion at major hubs. For instance, Coimbatore's textile exports and Amritsar's agricultural shipments benefit from enhanced air links. This decentralization fosters inclusive growth and strengthens India's logistics network, with potential to further boost air cargo volumes.

Cargo mix

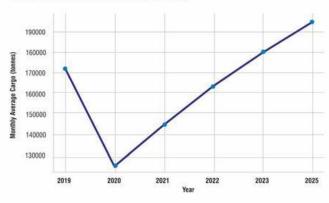

The cargo mix has shifted

significantly, reflecting modern supply chain priorities. Electronics now account for 30 per cent of air cargo, pharmaceuticals 22 per cent and perishables 18 per cent, with traditional bulk commodities on a decline. This shift is driven by the need for just-in-time delivery and high value of these goods. For example, electronics exports under PLI schemes have surged, while pharmaceuticals augmented as these require temperature-controlled transport. Perishables, supported by Krishi Udan, cater to global demand for Indian agricultural products. Future growth potential is strong, with projections estimating cargo volumes could reach 5.8mnt by 2029 and 10mnt by 2030.

Role of technology

Technology is revolutionising India's air cargo sector. Digital tools like e-Sanchit enable paperless customs clearance and blockchain ensures secure and transparent transactions. Artificial intelligence (AI) boosts predictive analytics for demand forecasting and better preparedness, and the Internet of Things (IoT) facilitates real-time shipment tracking. Sustainability initiatives such as solar-powered cargo terminals and electric ground vehicles address environmental concerns. These advancements enhance operational efficiency and align with global standards, making India's air cargo

sector more competitive.

Challenges

Despite its growth, the sector faces several challenges. Regulatory inconsistencies across States and agencies complicate operations, delaying clearances. Infrastructure bottlenecks such as limited apron space and aging warehouses hinder efficiency at some airports. Rising carbon emissions pose environmental challenges with pressure to adopt greener practices. Skill shortages in cargo handling and logistics management limit scalability and cybersecurity risks grow with increased digitalisation. Addressing these issues is critical to sustaining growth and meeting global expectations.

Geopolitical impact

Geopolitical tensions, trade disputes and conflicts affecting key shipping routes, and has disrupted global supply chain as a result increasing dependence on air cargo. The Red Sea crisis in 2023 led to an 18 per cent rise in international cargo volumes in H2 FY2024, as shippers sought alternatives to disrupted sea routes. Similar disruptions could drive short-term demand for air freight, though they may also raise costs and complicate logistics planning. Simultaneously, the Russia-Ukraine war and related sanctions have kept global energy prices high, increasing

airlines' fuel bills and operating costs. Trade disputes and export controls also add uncertainty for air export volumes.

Domestic Indian airlines operate very few large freighters, only narrow-body freighters in domestic fleets, limiting belly and cargo-only capacity. In addition, some airports, even big ones, still face slot constraints and incomplete infrastructure such as cargo aprons or warehousing during peak season. Regulatory issues like complex customs procedures on exports and past night-curfew restrictions have improved but not vanished.

Disruptions & future trends Emerging technologies like drones for last-mile delivery sustainable aviation fuels (SAF) and advanced air mobility are set to transform the sector. India's strategic location between Europe, Asia and Africa positions it as a potential transshipment hub but this requires significant investments in infrastructure and regulatory alignment. The India Air Cargo Outlook 2025-2029 projects annual growth of 6-9 per cent, with cargo volumes reaching 5-5.8 mn tonnes by 2029. Expanded freighter operations and greener practices will further shape the sector's future.

Ascent as cargo hub

India is strategically positioned to become a global air cargo hub by 2030, leveraging its geographic location and rising economic stature. Key enablers include infrastructure upgrades, regulatory simplification, workforce development, sustainability, and digital innovation. Airports are expanding, cargo terminals are being modernized, and streamlined policies aim to reduce operational friction. Training programs are preparing a skilled logistics workforce, while ecofriendly technologies and Sustainable Aviation Fuel (SAF) initiatives support environmental goals.

Digitalisation is enhancing efficiency and transparency, making Indian operations globally competitive. Policy frameworks like the National Logistics Policy and Free Trade Agreements further strengthen the growth environment.

Looking ahead, transformative trends like Advanced Air Mobility (AAM), with drones and electric Vertical Take-Off and Landing (eVTOL) aircraft, promise to revolutionize last-mile delivery, especially in remote areas. States like Maharashtra and Telangana are leading pilot projects. Blockchain-enabled digital trade lanes will enhance end-to-end supply chain visibility, while AI-powered demand forecasting tools optimize real-time responsiveness. India's emergence as a transshipment hub in the Indo-Pacific. fuelled by China Plus One strategies positions it as a vital link in global trade.

In this exclusive interview
Bernard Lee,
Regional General
Manager for South
Asia & Oceania,
shares insights
into how Etihad is redefining air freight in India.

"Strong partnerships and innovation drive our India strategy"

What key factors drive India's importance for Etihad Cargo, and how do you anticipate volumes evolving in 2025–26?

India has been a strategic market for Etihad Cargo for over 20 years, and our footprint now spans II cities that collectively represent approximately 90-95% of the nation's GDP. This strong geographic spread, from tier-one metros to tier-two cities such as Jaipur, Calicut and Trivandrum, enables us to serve a wide array of regional economic hubs. Our presence is underpinned by a mix of widebody and narrowbody aircraft. Widebodies cater to major cities, while narrowbodies serve emerging markets, ensuring

both optimal capacity and high yield management. India's cargo volumes continue to grow at doubledigit rates year-on-year, and we expect this positive trend to persist through 2025-26. This is being driven by rising demand across key verticals such as pharmaceuticals, high-value electronics, perishables and India Post mail shipments. With new business onboarded in these areas and consistently strong load factors across our flights we forecast robust growth in the coming year. The driving force behind India's continued importance to us is a diverse and highyielding product mix. Etihad Cargo has developed a suite of specialized

offerings, including PharmaLife, SecureTech and FreshForward, that allow us to optimize both revenue and operational efficiency while meeting evolving customer needs.

► Handling over 46,000 tonnes annually from India and doubling PharmaLife volumes, how do you address key challenges for India's pharma, electronics, and perishables sectors? We've made significant progress in strengthening our vertical offerings through customer engagement and regional activation. In the past year, we conducted dedicated PharmaLife roadshows in Hyderabad and Delhi, and will soon expand these to Mumbai, Ahmedabad, and

once again Hyderabad. These are complemented by our participation in leading industry forums and direct outreach by our global product leads to educate the market on our capabilities. PharmaLife, in particular, has seen 100 per cent growth over the past two years, and with continued investments, such as cool dollies and the opening of Abu Dhabi's new stateof-the-art terminal, our handling infrastructure has become a strong differentiator. These enhancements ensure temperature integrity and reduce risk across the supply chain. SecureTech has also proven highly effective in handling high-value electronics,

with consistent customer feedback validating the strength of our service. As India ramps up domestic production of electronics, especially in segments like smartphones, we see SecureTech as a major growth engine for Etihad Cargo.

For perishables, we've adapted our strategy to enable uplift via narrowbody aircraft from tier-two and tier-three cities. A recent success was the uplift of over 4,000 kilos of perishables from Kolkata to Abu Dhabi, a record-setting load for a narrowbody from that station. This flexibility has allowed us to maximize our network potential and cater to seasonal and regional demands more effectively.

Can you outline your current and planned capacity or network expansions—such as additional freighter services, belly-hold increases, or new routes—to support India's trade growth over the next two years?

At present, Etihad Cargo does not operate scheduled freighter services to India. However, we remain agile and responsive to market demand through ad-hoc freighter deployments. These are approved based on strong business cases submitted to our network planning team.

We currently operate at least one charter or ad-hoc freighter per month and, for May, we already have multiple freighter flights scheduled. While there are no immediate plans to introduce scheduled freighters, we are closely monitoring market trends and stand ready to scale up as demand stabilizes. As for new routes, any strategic expansions, whether via freighters or belly-hold capacity, will align with overall demand trends, customer requirements and network priorities. While we cannot disclose specifics at this time, our approach remains flexible, data-led and opportunity-driven.

What key infrastructure upgrades, policy reforms or stakeholder collaborations should India prioritise to transform airports like Mumbai, Delhi and Bengaluru into world-class air cargo gateways? India's major airports are undergoing transformative upgrades and we are encouraged by the progress. Bengaluru has already begun implementing infrastructure improvements that are streamlining cargo flows, while Mumbai and Delhi are making similar strides. In parallel, the development of new airports, such as Navi Mumbai and Noida International Airport, is a

positive indicator of India's long-term commitment to strengthening its logistics capabilities. Stakeholder collaboration is also improving. We maintain close ties with airport authorities and ground handlers, which allows us to anticipate and adapt to infrastructure changes. Continued investment in cargo terminals, automation, cold chain infrastructure and multimodal connectivity will be critical for achieving global standards Are there any

Are there any additional key issues or points regarding air cargo movement in the region that you would like to highlight?

India's air cargo ecosystem is currently in a positive, collaborative phase. We are seeing stronger partnerships with airport authorities and ground handlers such as WFS and Menzies, with a shared focus on operational efficiency and innovation. Bonded trucking and inter-airport connectivity are also gaining traction, enabling a more seamless cargo experience across the country. The appetite for innovation, combined with a customer-first mindset across the ecosystem, positions India as a rapidly maturing market for global air cargo players like Etihad.

के लिए डायवर्ट किया गया, लेकिन विमान में ईंधन अधिक होने से लैंडिंग में समय लगा। करीब 2.30 घंटे बाद फ्लाइट बैंकॉक लैंड हो सकी। इसके बाद एयरलाइन ने यात्रियों को दूसरे विमान से जयपुर भेजा। ऐसे में फ्लाइट रात 10:10 की बजाय देर रात 1:15 बजे जयपुर पहंची।

इधर, एयरपोर्ट से बुधवार को कोलकाता की फ्लाइट रद्द रही। इसकी वजह से कोलकाता से जयपुर और फिर जयपुर से कोलकाता जाने वाले करीब 165 यात्रियों को परेशानी का सामना करना पडा।

Ambuja Cements empowers Didiya Kalan farmers with water harvesting solutions, enabling year-round cultivation

BR Team Jaipur

Ambuja Cements, the cement and building material company of the diversified Adani Portfolio, as part of its CSR, continues to strengthen rural livelihoods in Marwar Mundwathrough watersmart interventions. In Didiya Kalan village, the journey of a farming couple Bau Devi and Ganpatram reflects this impact. Once limited to seasonal crops and dependent on labor

wages due to lack of irrigation, the family's circumstances changed after

adopting water conservation solutions with support from Ambuja Cements.

The couple first benefited from a rooftop rainwater harvesting system (RRWHS), which eased access to clean drinking water. In 2023, they built a 1,782 cubic meter farm pond to store rainwater for irrigation. This enabled them to expand cultivation beyond the monsoon and plan high-value cumin farming during the dry season. Additionally, by selling surplus water, they earned Rs. 15,000 in extra incomemarking a shift towards financial stability.

This initiative adds to Ambuja Cements broader efforts in the region, where hundreds of RRWHS units and farm ponds have enhanced water security. Today, Bau Devi and Ganpatram look forward to doubling their income and reducing their reliance on manual labor-proving how water stewardship can transform lives and unlock year-round farming potential.

तुर्कीच्या सेलीबी नास कंपनीतील कामगारांना लवकरच इंडो थाई कंपनीत सामावून घेणार

मुंबई, दि. २१ (प्रतिनिधी) – पहलगाम हल्ल्यानंतर भारत सरकारने पािकस्तानला मदत करणाऱ्या तुर्कीच्या कंपन्यांवर बंदी घातली आहे. याचा पिरणाम छत्रपती शिवाजी महाराज आंतरराष्ट्रीय विमानतळावर ग्राऊंड हॅण्डलिंगचे काम करणाऱ्या तुर्कीच्या 'सेलेबी नास' कंपनीचा सुरक्षा परवाना रद्द करण्यात आला. त्यामुळे या कंपनीतील ३७०० कामगारांवर बेरोजगारीची कुन्हाड कोसळली. मात्र भारतीय कामगार सेनेच्या प्रयत्नामुळे या कामगारांचे भविष्य आता सुरक्षित झाले असून त्यांना 'सेलेबी नास'च्या जागी येणाऱ्या इंडो थाई कंपनीत सध्या मिळत असलेल्या वेतनावर सामावून घेण्यात येणार आहे. त्यामुळे या कर्मचाऱ्यांना भारतीय कामगार सेनेचे आभार मानले आहेत.

ધારાવીના સમગ્ર રહેવાસીઓને સાંકળી લેતી ચોજના

ધારાવી બહારની તમામ જમીનના પ્લોટ માટે આયોજનના સિદ્ધાંતો સમાન ▶ મેટ્રો લાઈન એક્સટેન્શન બાબત સરકાર સાથે ચર્ચા ▶ બસ રૂટને પ્લોટ ફાળવવા અંગે વિચારણા

મુંબઈઃ અપાત્ર રહેવાસીઓના પુનર્વસન માટે ધારાવીની બહાર ફાળવવામાં આવેલા તમામ પ્લોટના પોતાના સ્વતંત્ર માસ્ટરપ્લાન હશે.

જોકે, આ બધા પ્લોટને ધારાવી નોટિફાઇડ એરિયા (ડીએનએ)ના માસ્ટરપ્લાન સાથે જોડી દેવામાં આવશે. એશિયાના સૌથી મોટા અને ભારતના સૌથી અનોખા ઝૂંપડપટ્ટી પુનર્વિકાસ પ્રોજેક્ટમાં ટાઉન પ્લાનિંગનો આ સૌથી મુળભૃત સિદ્ધાંત છે.

આ સંદર્ભે ધારાવી માસ્ટરપ્લાનથી માહિતગાર સૂત્રોએ જણાવ્યું હતું કે 'આ માર્ગદર્શક સિદ્ધાંતે ધારાવી અને અન્ય પ્લોટ માટે વિકાસ અને સ્થાનાંતરણને આકાર આપવામાં મદદ કરી છે. ધારાવીને એક મોડલ શહેરી વિસ્તારમાં રૂપાંતરિત કરવાની એક સારી રીતે વિચારેલી યોજના છે જે તેના રહેવાસીઓ અને તમામ મુંબઈવાસીઓને વધુ સારી રહેવાની ક્ષમતા અને ગૌરવ પ્રદાન કરે છે. ધારાવી માસ્ટરપ્લાનથી પરિચિત સૂત્રએ જણાવ્યું હતું કે, અન્ય તમામ પ્લોટ માટે પણ આ જ પ્રકારનું આયોજન અપનાવી ધારાવીના રહેવાસીઓનું પુનર્વસન કરવામાં આવશે.'

સૂત્રએ એમ પણ જણાવ્યું હતું કે 'તમામ પ્લોટને ચાલવા યોગ્ય અને વિવિધ વપરાશના વિસ્તાર તરીકે ડિઝાઇન કરવામાં આવી રહ્યા છે. લોકોની આવનજાવન સરળ રહે એ માટે કેટલાક માર્ગ જોડાણોનું પણ આયોજન કરવામાં આવી રહ્યું છે.'

જાહેર પરિવહન માટે મેટ્રો લાઇન એક્સટેન્શન જેવી દરખાસ્તો અંગે સરકાર સાથે ચર્ચા થઇ રહી છે. ફાળવવામાં આવેલા પ્લોટ પર બસ રૂટ પણ વિચારણા હેઠળ છે. આ ઉપરાંત ઇલેક્ટ્રિક રિક્ષા, ઇ-સાઇકલ, ઈ-સ્કૂટર્સ અને આવન જાવન માટે અન્ય વાહનોની વ્યવસ્થાનું પણ આયોજન કરવામાં આવી રહ્યું છે.

ધારાવી મુંબઈ શહેરની મધ્યમાં આવેલું છે, જેની આસપાસ રેલવે લાઈન અને એક્સપ્રેસ–વે આવેલા છે. વિસ્તારના મહત્ત્વના કારણે બહારગામથી રોજગાર માટે શહેરમાં આવતા કામદારો એને વિશેષ પ્રાધાન્ય આપે છે અને એની ડિમાન્ડ પણ ખાસ્સી છે. રેલવે સ્ટેશનનો નજીક હોવાને કારણે દૈનિક વેતન મેળવવા કામ કરતા હજારો કામદારોને મુસાફરી કરવામાં આસાની રહે છે. 'રેલવે પરિવહન ધારાવી અને મુંબઈના રહેવાસીઓની જીવાદોરી હોવાથી માસ્ટરપ્લાન હાલના રેલવે નેટવર્ક સાથે સારી રીતે સંકલન કરી શકે એ રીતે તૈયાર કરવામાં આવી રહ્યો છે.''

આ માસ્ટરપ્લાનનો ઉદેશ તમામ આવશ્યક સુવિધાઓ ડીએનએ (ધારાવી નોટીફાઈડ એરિયા)ની અંદર ૪૦૦ મીટર-૫૦૦ મીટર ઘરો અથવા ઓફિસની અંદર સ્થિત કરવાનો છે. સૂત્રોએ આપેલી જાણકારી અનુસાર 'આમ કરવાથી સુવિધાઓને વધુ સુલભ તો બનશે જ, પરંતુ નિકટતાને કારણે મુસાફરી વધુ સુરક્ષિત બનાવશે.

धारावीत मुंबईचे पहिले 'मेट्रो इंटरचेंज स्टेशन' होणार

पुनर्विकासात मल्टी-मॉडेल ट्रान्सपोर्ट हब उभारण्याची योजना

लोकमत न्यूज नेटवर्क

मुंबई: धारावी पुनर्विकास प्रकल्पांतर्गत मुंबईच्या वाहतूक व्यवस्थेलाही बळकटी देण्याचा प्रयत्न केला जाणार आहे. त्या दृष्टीने पावले टाकली जात आहेत. या वाहतूक व्यवस्थेत एक बहुविध परिवहन केंद्र (मल्टी-मॉडेल ट्रान्सपोर्ट हब) उभारण्याची योजना आहे. त्यानुसार धारावीत मुंबईचे पहिले 'मेट्रो इंटरचेंज स्टेशन' उभारण्याच्या हालचाली सुरू झाल्या आहेत. हे स्थानक सर्व मेट्रो मार्गासह भविष्यातील योजनांना उपयुक्त ठरणार आहे.

धारावी पुनर्विकास प्रकल्पाच्या मास्टर प्लानसह विविध योजनांची माहिती आता उघड होत आहे. त्यानुसार, धारावी पुनर्विकास योजनेत विविध पायाभूत सुविधांशी संबंधित अनेक कल्याणकारी योजनांचा समावेश केला आहे. मुंबईच्या वाहतूक व्यवस्थेला नवा चेहरा मिळू शकेल, असे बहुविध परिवहन केंद्र (मल्टी-मॉडेल ट्रान्सपोर्ट हब) उभारण्याची योजना आहे. प्रकल्पाशी संबंधित सूत्रांनी दिलेल्या माहितीनुसार, धारावीमध्ये मुंबईचे पहिले आणि एकमेव मेट्रो इंटरचेंज स्थानक उभारण्याच्या हालचाली सुरू आहेत.

बहुस्तरीय स्थानक

धारावी सेंट्रल मेट्रो स्टेशन उभारण्याचा प्रस्ताव आहे. पूर्व-पश्चिम आणि उत्तर-दक्षिण प्रवास करणाऱ्या नागरिकांसाठी मुख्य इंटरचेंज पॉइंट (वाहतूक बदल स्थानक) म्हणून याचा वापर होईल. हे स्थानक मल्टी-लेव्हल म्हणजे बहस्तरीय असेल.

आदर्श वाहतूक मॉडेल

स्थानिक परिसरांना मेट्रो आणि रेल्वे स्थानकांशी जोडणाऱ्या फीडर बस रूट्सचीही (स्थानिक जोड बस मार्ग) आखणी केली जात आहे. याचा फायदा प्रवाशांना होईल. मेट्रो, बस, रेल्वे सर्व एकत्र जोडून धारावीला वाहतूक मॉडेल बनवणे, हे प्रकल्पाचे उद्दिष्ट आहे.

'लास्ट माईल कनेक्टिव्हिटी'

- धारावी भाग हा वाहतुकीच्या दृष्टीने महत्त्वाच्या ठिकाणी आहे. येथे पूर्व-पश्चिम आणि उत्तर-दक्षिण मार्ग एकत्र येतात. त्यामुळे वाहतूक इंटरचेंजसाठी हे उत्तम ठिकाण आहे. हे स्थानक मेट्रो ३, पश्चिम आणि मध्य रेल्वे तसेच मुंबई-अहमदाबाद बलेट टेनजवळ आहे.
- भेट्रो लाईन १९ चा विस्तार धारावीत झाल्यास हा परिसर वाहतूक केंद्रित विकास (ट्रान्झिट-ओरिएंटेड) डेव्हलपमेंट म्हणून विकसित होईल. ज्यामुळे स्थानिकांसाठी मेट्रो आणि सार्वजनिक वाहतूक सुलभ होईल.
- बहुविध परिवहन केंद्रात मेट्रो लाईन ११ आणि महत्त्वाच्या शहर मार्गाच्या संगमावर स्थानक उभारण्यात येईल. यामध्ये रेल्वे, मेट्रो, फीडर बस, सायकलिंग आणि चालण्यासाठी जागा असेल. यामुळे 'लास्ट माईल कनेक्टिव्हिटी' चांगली होईल.

દર વર્ષે ર૩ મેના રોજ ઉજવાતો વિશ્વ કાચબા દિવસ એક વાર્ષિક તહેવાર જેવો

વર્લ્ડ ટર્ટલ ડેઃ કાચબાઓના સંરક્ષણ અને સંવર્ધન માટે અદાણી પોર્ટનું ખાસ ચોગદાન

વડોદરા, 'IICN ઢાગ ''અંટે

IUCN દ્વારા "સંવેદનશીલ" પ્રજાતિઓની સાર સંભાળ

દર વર્ષે ૨૩ મેના રોજ ઉજવાતો વિશ્વ કાચબા દિવસ એક વાર્ષિક તહેવાર જેવો છે. કાચબા પ્રજાતિઓના સંરક્ષણ તેમજ સંવર્ધન વિશે જાગૃતિ ફેલાવવાના હેતુથી દુનિયાભરમાં તેની ઉજવણી કરવામાં આવે છે. દરિયાકિનારે આવતા કાચબાઓના સંરક્ષણ માટે અદાણી પોર્ટ ખુબ જ કાળજી લઈ રહ્યું છે. તાજેતરમાં પ્રાપ્ત માહિતી અનુસાર અદાણી પોર્ટે કાચબા પ્રજાતિઓને બચાવવા માટે વિવિધ પહેલ અને કરી આગોતરા પગલાંઓ લીધા છે.

ઓડિશાના દરિયાકાંઠે રહેતી તમામ દરિયાઈ કાચબા પ્રજાતિઓને IUCN હારા "સંવેદનશીલ" જાહેર કરવામાં આવી છે. અદાણી પોર્ટ દ્વારા ઓલિવ લપ્તપ્રાય રિડલી પ્રજાતિઓના રક્ષણ માટે વ્યાપક ઉચ્ચસ્તરીય વ્યહરચનાની પહેલનો કરવામાં આવી છે. કાચબાના સંરક્ષણ માટે અદાણી ધામરા બંદરનું યોગદાન ઉલ્લેખનીય છે. જેમાં તેમની સંવનનથી લઈને જીવનરક્ષા સુધીના તમામ પાસાઓ આવરી લેવાયા છે.

કાચબાના સંરક્ષણ માટે ધામરા બંદર અને ટાઉનશીપ વિસ્તારમાં ખાસ ડિઝાઇન કરાયેલ "ડાર્ક સ્કાય

ફ્રેન્ડલી" લાઇટ્સ લગાવવામાં આવી છે. કાચબાની હિલચાલ સુરક્ષિત રાખવાના હેતુથી બંદર અને ૈંઝદ્ર ના કાચબા સંરક્ષણ નિષ્ણાતો સાથે પરામર્શ કરીને તેની ડિઝાઇન કરવામાં આવી છે. વળી ડ્રેજિંગ કરતી વેળાએ કાચબાઓને કોઈ નુકશાન ન થય તે માટે ટ્રેલર સક્શન હોપર ડ્રેજર (TSHD) નો ઉપયોગ કરવામાં આવે છે.

અદાષ્ટ્રી પોર્ટદ્વારા કાચબાઓના સ્થળાંતર દરમિયાન પેટ્રોલિંગ માટે વન વિભાગને દરિયાઈ ટ્રોલર પૂરું પાડવામાં આવે છે. બંદર વિસ્તાર અને નેવિગેશન ચેનલ કાચબા મંડળી વિસ્તારની બહાર રાખવામાં અવ્યા છે. તો માછીમાર બોટ્સના પ્રવેશને રોકવા સીમાંકન માટે પુરતી મદદ પૂરી પાડવામાં આવી રહી છે. એટલુ જ નહીં, બંદર વિસ્તાર અને તેની નેવિગેશન ચેનલને કાચબા મંડળ વિસ્તારની બહાર રાખવામાં અવ્યો છે.

માછીમાર સમુદાયોમાં

કાચબાઓના સંવર્ધન માટેની જાગૃ તિ અત્યંત જરૂરી છે. તે ઉદ્દેશને ધ્યાનમાં રાખી મેંગ્રોવ અને કાચબા સંરક્ષણ માટે માછીમાર સમુદાયોમાં જાગૃતિ કાર્યક્રમ યોજવા સહાય પૂરી પાડવામાં આવે છે. ૨૦૨૪-૨૫દરમિયાન ગહીરમાથા ખાતે લગભગ ૬.૦૪ લાખ ઓલિવ રિડલી દરિયાઈ કાચબાના રહેઠાણો નોંધાયા હતા.

IUCNની ભલામણોના આધારે લાઇટિંગ અને ડ્રેજિંગ પ્રોટોકોલનું પાલન કરવામાં આવે છે. "ડાર્ક સ્કાય ફ્રેન્ડલી" લાઇટ્સની ખાસ ડિઝાઇનથી સમુદ્ર તરફ અને કાચબા મંડળ વિસ્તારમાં ઝગઝગાટ પ્રસારિત થતો નથી,, તેથી કાચબાઓના આવાગમનમાં પણ અવરોધ થતો નથી. વળી કાચબાઓના સંવનન, મંડળ, માળો અને ઇંડામાંથી બહાર નીકળવાના સમયગાળા દરમિયાન પોર્ટ સરકાર સાથે સહયોગી પ્રયાસો કરે છે.

આ સહયોગ સાથે અદાણી ડિફેન્સ એન્ડ એરોસ્પેસ ભારતમાં સ્વદેશી સોનોબ્યુઓસ ઉપાવો ઓફર કરનારી ભારતના ખાનગી શેવની પ્રથમ કંપની બનીને ભારતના આત્મ નિર્ભર તરફના પ્રયાણમાં યોગદાન આપવાના તેના સંકલ્પને અંકીત કરે છે. આ ભાગીદારી ભારતીય નીકાદળ માટે વિકાસ, ઉત્પાદન અને નિર્વાદમાં અદાણી સંસ્થાવની સ્થાપિત કુરાળતા સાથે સ્પાર્ટનની અગ્રણી એન્ટી સભ મરીન વોરફેર ટેકનોલોજીને જોડશે.

અદાણી એન્ટરપ્રાઈઝના વાઈસ પ્રેસિડેન્ટ, જીત અદાણીએ આ અંગે ટિપ્પણી કરી જણાવ્યું હતું કે, "વધુને વધુ અસ્થિર અને પ્રતિકૃળ દરિયાઈ હવામાનમાં ભારતની અન્ડરસી યુદ્ધ શમતાઓને મજબૂત બનાવવી એ ફક્ત વ્યૂહાત્મક અગ્રતા નથી, પરંતુ આપણા દેશના સાર્વભોમતુ અને રાષ્ટ્રીય હિતોની સુરક્ષા માટે અનિવાર્ય છે. ભારતીય નીકાદળ માટે એક સંકલિત મિશન-રેડી આઇએસઆર અને સભમરીન વિરોધી યુદ્ધ સમતાઓ જરૂરી છે, જેમાં ધમકીઓને શોધવા અને તેનો પીછો સોનો બ્યુઓસ જેવી જટિલ માટે અમોને સક્ષમ બનાવશે

અદાર્ણી વિવાદમાં કોંગ્રેસના પ્રહાર ભારતનું સૌથી મોટું કોભાંડ છુપાવવા સરકારના પ્રયાસ

અદાણી જૂથે પોતાની જ કંપનીમાં બેનામી રોકાણ માટે બનાવેલા મોરેશિયસના બે ફંડને સેબીની નોટિસઃ જયરામ રમેશ

(સંપૂર્ણ સમાચાર સેવા) નવી દિલ્હી, તા.૨૧: અદાણી જૂથ દ્વારા ભારતનું સૌથીમોટું કૌભાંડ આચરવામાં આવ્યું હોવાનો આક્ષેપ કોંગ્રેસે કર્યો છે. કોંગ્રેસના મહાસચિવ

જયરામ રમેશે કહ્યુ હતું કે, ડબલ એન્જિનની મોદાણી કથા હજુ ચાલુ જ છે. સેબી (સિક્યુરિટીઝ એન્ડ એક્સચેન્જબોર્ડ ઓફ ઇન્ડિયા) દ્વારા અદાણી જૂથના શેર ધરાવનાર બે ઓફશોર કંડ્સને દંડ સાથે નોટિસ અપાઈ છે. મોરેશિયસ સ્થિત આ બંને કંડ્સ મારફતે અદાણી જૂથ દ્વારા પોતાની જ કંપનીઓમાં બેનામી રોકાણ થઈ રહ્યું છે. સેબી અથવા અદાણી જૂથ દ્વારા જયરામ રમેશના આક્ષેપો અંગે કોઈ ખુલાસો થયો નથી. કોંગ્રેસના મહાસચિવ જયરામ રમેશે કહ્યું હતું કે, સેબીએ મોરેશિયસ સ્થિત ઈલારા કેપિટલ સંચાલિત બે ઓફશોર કંડ્સ (ઈલારા ઇન્ડિયા અપોર્ચ્યુનિટીસ કંડ અને વેસ્પારા ફંડ) પાસે શેર હોલ્ડિંગ માહિતી માગી છે. માહિતી ન અપાય તો દંડ સાથે લાઈસન્સ રદૃ

કરવાની નોટિસ સેબી દ્વારા અપાઈછે. એક્સ પ્લેટફોર્મ પર રમેશે પોસ્ટમાં જણાવ્યું હતું કે, અદાણીના બેનામી રોકાણો માટે આ બે ફંડનો ઉપયોગ થતો હતો.

અદાણીએ પોતાની જ કંપનીમાં રોકાણ માટે ઓફશોર ફંડ ઊભા કરી સેબીના નિયમોનો ભંગ કર્યો છે. આ બંને ફંડ દ્વારા સેબી સમક્ષ ભૂલ સ્વીકાર્યા વગર ટોકન ફી ભરી સેટલમેન્ટ કરવા રજૂઆત થઈ હોવાનો દાવો કરતા રમેશે જણાવ્યુ હતું કે, ડિસેમ્બર ૨૦૨૨માં ઇન્ડિયા અપોર્ચ્યુનિટીસ ફંડે અદાણી જૂથની ત્રણ કંપનીમાં ૯૮.૭૮ ટકા અને વેસ્પારા ફંડે જૂન ૨૦૨૨માં ૯૩.૯ ટકા રોકાણ કરેલુ હતું. સેબીના આ પગલાથી તપાસમાં પ્રગતિ થઈ હોવાનો ભાસ થઈ શકેછે, પરંતુ સુપ્રીમ કોર્ટે બે મહિનામાં તપાસ પૂરી કરવા નિર્દેશ આપ્યા હતા. આમ છતાં, 'મોદાણી'ના લાભ માટે તપાસને બે વર્ષથી ખેંચવામાં આવી રહી છે.

ટર્નીંગ પોઈન્ટઃ અદાણી વિદ્યામંદિરે અસંખ્ય વિદ્યાર્થીઓનું ભાવિ ઉજવળ બનાવ્યું!

અમદાવાદ

અદાણી વિદ્યામંદિર અમદાવાદ (AVMA) ના વિદ્યાર્થીઓ સતત નવો ઈતિહાસ લખી રહ્યા છે. પ્રતિભાશાળી પણ આર્થિક રીતે વંચિત વિદ્યાર્થીઓ મફત, ઉચ્ચ-ગુણવત્તાયુક્ત શિક્ષણ મેળવી દેશ-દુનિયામાં નવી ઓળખ ઉભી કરી રહ્યા છે. ૨૦૨૫ની CBSE ધોરણ ૧૨ ની પરીક્ષાઓમાં ૯૭.૮% જેટલા ઉચ્ચ સ્કોર અને ૧૦૦% પરિશામ હાંસલ કરી વિદ્યાર્થીઓએ ન માત્ર ચમત્કાર સજયાં છે. પરંતુ વિપરીત પરિસ્થિતીઓનો સામનો કરી ઉજવળ ભવિષ્ય માટેની કેડી કંડારી છે.અદાણી ગ્રુપના ચેરમેન ગૌતમ અદાણીએ વિદ્યાર્થીઓની સિદ્ધિઓની ઉજવશી કરતા કહ્યું, ×કોઈ ફી નહીં! કોઈ મર્યાદા નહીં! ૧૦૦% CBSE પરિણામો સાથે ભારતની ટોચની શાળાઓમાં સ્થાન મેળવતી છફસ્છએ સાબિત કર્યું છે કે જ્યારે વિશ્વાસને તક મળે છે. ત્યારે ચમત્કાર સર્જાય છે! સ્વર્ણિમ સફળતા હાંસલ કરનારા આ સિતારાઓની વાત ઉડીને આંખે વળગે તેવી છે.

અદાણી વિદ્યામંદિર અમદાવાદની માર્મી જગાણીએ CBSE ધોરણ X બોર્ડની પરીક્ષામાં ૯૭% ગુણાંક મેળવી સ્વર્ણિમ સફળતા હાંસલ કરી છે. વળી એથ્લેટિક્સમાં રાજ્ય સ્તરે શાળાનું प्रतिनिधित्व इरी रमतगमत प्रत्येना જુસ્સાને ઉજાગર કર્યો છે. આર્થિક પડકારોનો સામનો કરી રહેલા પરિવારમાંથી આવતી મામીએ શિક્ષણ અને એથ્લેટિક્સ બને ક્ષેત્રે નામ રોશન કર્યું છે. રત્નકલાકાર પિતાની પુત્રીએ સટીક માર્ગદર્શન અને સખત મહેનતના જોરે સાચા અર્થમાં ઓલરાઉન્ડર હોવાનું પ્રેરક ઉદાવરણ પુરુ પાડ્યું છે.

સિક્ચોરિટી ગાર્ડનો આદિત્ય સોનાનો

AVMAના વિદ્યાર્થી આદિત્ય પરમારે ધોરણ X બોર્ડ પરીક્ષામાં ૯૫.૪% ગુણાંક મેળવી અસાધારણ બુદ્ધિપ્રતિભા દર્શાવી છે. આર્થિક વિષમતાઓનો સામનો કરતા પરિવારે વિદ્યામંદિરમાં પ્રવેશ મેળળ્યો

રત્નકલાકારનું અના ઓલરાઉન્ડર ત્યારે આ જવલંત સફળતાની કાલ્પના પણ નહોતી કરી. શિક્ષકોના માર્ગદર્શન અને સમર્થનથી આદિત્યની શૈક્ષણિક પ્રતિભા ખીલી ઉઠી. સર્વાંગી વિકાસની તકો પુરી પાડીતી શાળાએ તેની પ્રતિભા પોષવામાં મુખ્ય ભૂમિકા ભજવી છે. આદિત્યના પિતા સુરક્ષા ગાર્ડની ફરજ બજાવે છે પણ તેનું સપનું એન્જિનિયર બનવાનું છે.

તેજસ્વી તન્વીનું ઝળકયું તકદીરા

રત્નકલાકાર પિતાની દિકરી તવી અંતાળાએ ધોરણ દસની બોર્ડ પરિક્ષાઓમાં ૯૫. ર% ગુણાંક મેળવી ઉત્કૃષ્ટ સ્થાન મેળવ્યું છે. અને તે પણ રાષ્ટ્રીયસ્તરની રમતવીર તરીકે અસામાન્ય પ્રદર્શન સાથે. મર્યાદિત સાધનો પણ ઉચેરા સપનાઓ સાથે અંતાલા પરિવારે AVMAમાં મુકેલા ભરોસાએ તનવીનું તકદીર બદલ્યું. રોલ મોડેલ સમાન તન્વીની વાર્તા સંતુલન, હિંમત અને સુસંગતતાની છે. શૈક્ષણિક શ્રેષ્ઠતા સાથે રાષ્ટ્રીય સ્તરે રમતગમતનું સંચાલન કરવું એ કોઈ નાની સિદ્ધિ નથી." તન્વીનું સ્વપ્ર આંતરાષ્ટ્રીય એચ્લેટિક્સ સ્પર્ધાઓમાં ભારતનું પ્રતિનિધિત્વ કરવાનું છે.

અદાણી વિવાદમાં કોંગ્રેસના પ્રહાર

ભારતનું સોથી મોટું કોભાંડ છુપાવવા સરકારના પ્રયાસ

નવી દિલ્હી, તા.૨૧ અદાણી જૂથ દ્વારા ભારતનું સૌથી મોટું કૌભાંડ આચરવામાં આવ્યું હોવાનો આક્ષેપ કોંગ્રેસે કર્યો છે.

કોંગ્રેસના મહાસચિવ જયરામ રમેશે કહ્યુ હતું કે, ડબલ એન્જિનની મોદાણી કથા હજુ ચાલુ જ છે. સેબી (સિક્યુરિટીઝ એન્ડ એક્સચેન્જ બોર્ડ ઓફ ઇન્ડિયા) દ્વારા અદાણી જૂથના શેર ધરાવનાર બે ઓફશોર ફંડ્સને દંડ સાથે નોટિસ અપાઈ છે.

મોરેશિયસ સ્થિત આ બંને ફંડ્સ મારફતે અદાણી જૂથ દ્વારા પોતાની જ કંપનીઓમાં બેનામી રોકાણ થઈ રહ્યું છે. સેબી અથવા અદાણી રૂપ દ્વારા જયરામ રમેશના આક્ષેપો અંગે કોઈ ખુલાસો થયો નથી.કોંગ્રેસના મહાસચિવ જયરામ રમેશે કહ્યું હતું કે, સેબીએ મોરેશિયસ સ્થિત ઈલારા કેપિટલ સંચાલિત બે ઓફશોર

અદાણી જૂથે પોતાની જ કંપનીમાં બેનામી રોકાણ માટે બનાવેલા મોરેશિયસના બે ફંડને સેબીની નોટિસ : જયરામ રમેશ

કંડ્સ (ઈલારા ઈન્ડિયા અપોર્ચ્યુનિટીસ કંડ અને વેસ્પારા કંડ) પાસે શેર હોલ્ડિંગ માહિતી માગી છે. માહિતી ન અપાય તો દંડ સાથે લાઈસન્સ રદ કરવાની નોટિસ સેબી દ્વારા અપાઈ છે. એક્સ પ્લેટફોર્મ પર રમેશે પોસ્ટમાં જણાવ્યું હતું કે, અદાણીના બેનામી રોકાણો માટે આ બે કંડનો ઉપયોગ થતો હતો. અદાણીએ પોતાની જ કંપનીમાં રોકાણ માટે ઓફશોર કંડ ઊભા કરી સેબીના નિયમોનો ભંગ કર્યો છે. આ બંને ફંડ દ્વારા સેબી સમક્ષ ભૂલ સ્વીકાર્યા વગર ટોકન ફી ભરી

સેટલમેન્ટ કરવા રજૂઆત થઈ હોવાનો દાવો કરતા રમેશે જણાવ્યુ હતું કે, ડિસેમ્બર ૨૦૨૨માં ઈન્ડિયા અપોર્ચ્યુનિટીસ ફંડે અદાણી જૂથની ત્રણ કંપનીમાં ૯૮.૭૮ ટકા અને વેસ્પારા ફંડે જૂન ૨૦૨૨માં ૯૩.૯ ટકા રોકાણ કરેલુ હતું. સેબીના આ પગલાથી તપાસમાં પ્રગતિ થઈ હોવાનો ભાસ થઈ શકે છે, પરંતુ સુપ્રીમ કોર્ટે બે મહિનામાં તપાસ પૂરી કરવા નિર્દેશ આપ્યા હતા. આમ છતાં, 'મોદાણી'ના લાભ માટે તપાસને બે વર્ષથી ખેંચવામાં આવી રહી છે.

IUCN દારા "સંવેદનશીલ" પ્રજાતિઓની સાર સંભાળ

વર્લ્ડ ટર્ટલ ડેઃ કાચબાઓના સંરક્ષણ અને સંવર્ધન માટે અદાણી પોર્ટનું ખાસ યોગદાન

ઓડિશાના દરિયાકાંઠે રહેતી તમામ દરિયાઈ કાચબા પ્રજાતિઓને IUCN દ્વારા "સંવેદનશીલ" જાહેર કરવામાં આવી છે. અદાણી પોર્ટ દ્વારા લુપ્તપાય ઓલિવ રિડલી પ્રજાતિઓના રક્ષણ માટે વ્યાપક ઉચ્ચસ્તરીય વ્યૂહરચનાની પહેલનો કરવામાં આવી છે. કાચબાના સંરક્ષણ માટે અદાણી ધામરા બંદરનું યોગદાન ઉલ્લેખનીય

છે. જેમાં તેમની સંવનનથી લઈને જીવનરત્ના સધીના તમામ પાસાઓ આવરી લેવાયા છે. કાચબાના સંરક્ષણ માટે ધામરા બંદર અને ટાઉનશીપ વિસ્તારમાં ખાસ ડિઝાઇન કરાયેલ "ડાર્ક સ્કાય ફ્રેન્ડલી" લાઇટસ લગાવવામાં આવી છે. કાચબાની હિલચાલ સુરક્ષિત રાખવાના હેતુથી બંદર અને IUCN ના કાચબા સંરક્ષણ નિષ્ણાતો સાથે પરામર્શ કરીને તેની ડિઝાઇન કરવામાં આવી છે. વળી ડેજિંગ કરતી વેળાએ કાચબાઓને કોઈ નુકશાન ન થય તે માટે ટ્રેલર સકશન હોપર ડ્રેજર (TSHD) નો ઉપયોગ કરવામાં આવે છે.

અદાણી પોર્ટ દ્વારા

કાચબાઓના સ્થળાંતર દરમિયાન પેટ્રોલિંગ માટે વન વિભાગને દરિયાઈ ટ્રોલર પુરું પાડવામાં આવે છે. બંદર વિસ્તાર અને નેવિગેશન ચેનલ કાચબા મંડળી વિસ્તારની બહાર રાખવામાં આવ્યા છે. તો માછીમાર બોટ્સના પ્રવેશને રોકવા સીમાંકન માટે પુરતી મદદ પુરી પાડવામાં આવી રહી છે. એટલુ જ નહીં, બંદર વિસ્તાર અને તેની નેવિગેશન ચેનલને કાચબા મંડળ વિસ્તારની બહાર રાખવામાં આવ્યો છે. માછીમાર સમુદાયોમાં કાચબાઓના સંવર્ધન માટેની જાગૃતિ અત્યંત જરૂરી છે. તે ઉદ્દેશને ધ્યાનમાં રાખી મેંગ્રોવ અને કાચબા સંરક્ષણ માટે માછીમાર સમુદાયોમાં જાગૃતિ કાર્યક્રમ યોજવા સહાય પૂરી પાડવામાં આવે છે. ૨૦૨૪-૨૫ દરમિયાન ગહીરમાથા ખાતે લગભગ ૬.૦૪ લાખ ઓલિવ રિડલી દરિયાઈ કાચબાના રહેઠાણો નોંધાયા હતા.

 सिडकोचे संकेत : नवी मुंबई विमानतळासाठी विविध मार्गांची उभारणी

नवी मुंबई, २१ मे (आ.प्र.):

नवी मुंबई विमानतळ टर्मिनलपर्यंत प्रवाशांना थेट पोहचता यावे, यासाठी सिडको आणि राष्ट्रीय महामार्ग प्राधिकरण (एनएचएआय) उत्तम दळणवळणाची सुविधा उभारत असून, त्याचे काम अंतिम टप्प्यात आहे. पुढील काही दिवसांत हा मार्ग विमान प्रवाशांसाठी खुला होणार असल्याचे संकेत सिडकोने दिले आहेत.

विमानतळाला पश्चिमेकडून दळणवळणाची सुविधा प्रदान करण्यासाठी विकसित करण्यात येत असलेल्या पश्चिम प्रवेश आंतरबदलाचे काम जूनपर्यंत पूर्ण होणे अपेक्षित असल्याचे सिडकोने स्पष्ट केले. यामुळे आम्रमार्ग आणि उलवे सागर किनारी मार्ग येथून विमानतळाकडे ये-जा करणारी वाहतूक सुरळीत होईल.

सिडकोतर्फे काही कनेक्टिव्हिटी प्रकल्प हाती घेण्यात आले आहेत. अटल सेतू ते विमानतळादरम्यान कनेक्टिव्हिटी निर्माण करण्यासाठी उलवे किनारी मार्ग नियोजित आहे. आम्र मार्ग (राष्ट्रीय महामार्ग ३४८ ए) आणि उलवे किनारी मार्ग येथून विमानतळाकडे ये-जा करणारी वाहतूक सुरळीत चालावी, यासाठी एमजेपीआरसीएलच्या प्रकल्पांतर्गत विमानतळ पश्चिम प्रवेश आंतरबदल मार्गाचा समावेश करण्यात आला आहे. जूनच्या पहिल्या आठवड्यापर्यंत पश्चिम आंतरबदल मार्ग पूर्णतः कार्यान्वित होऊन वाहतुकीस खुला होणे अपेक्षित आहे.

परिपूर्ण कनेक्टिव्हिटी लाभावी यासाठी सिडकोतर्फे अनेक कनेक्टिव्हिटी प्रकल्प हाती घेण्यात आले आहेत. त्यासाठी मुख्य प्रवेशमार्गांची नवी मुंबई आंतरराष्ट्रीय विमानतळास थेट जोडणी होणार आहे. पश्चिम प्रवेश आंतरबदल आणि पूर्व प्रवेश आंतरबदल हे त्यांपैकी महत्त्वाचे प्रकल्प आहेत.

या कनेक्टिव्हिटी प्रकल्पांमुळे संपूर्ण मुंबई महानगर प्रदेशातून विमानतळाकडे होणारी वाहतूक सुरळीत पार पडणार आहे, असे सिडकोचे उपाध्यक्ष तथा व्यवस्थापकीय संचालक विजय सिंघल यांनी सांगितले.
