Net Up 85%

Mumbai: Adani Green Energy on Thursday posted an 85% rise in its consolidated net profit for the third quarter ended December to ₹474 crore from ₹256 crore a year earlier.

Total income increased 1.6% year on year to ₹2,630 crore for the quarter while revenue from power supply rose 13% to ₹1,993 crore. Ebitda from power supply was up 13% on year to ₹1,848 crore. “Strong revenue, Ebitda, and cash profit growth are primarily backed by robust greenfield capacity addition of 3.1 GW and consistent plant performance,” the company said.

It said its energy sales increased by 23% on year, propelled by the robust capacity additions and strong operational performance. Its operational capacity expanded by 37% YoY to 11,609 MW, with greenfield additions.

The company's scrip ended at ₹1,021.45 on the BSE on Thursday, down 0.84% from its previous close. — **Our Bureau**

Adani Green net soars 85% on higher revenues

Adani Green Energy Ltd (AGEL) on Thursday posted over 85 per cent rise in consolidated net profit to ₹474 crore for December quarter on the back of higher revenues from power supply.

The company had logged a net profit of ₹256 crore in the year-ago period, according to a BSE filing.

Revenue from power supply rose to ₹1,993 crore in the quarter from ₹1,765 crore in the same period year ago.

"We are steadily developing the world's largest RE plant in Khavda, Gujarat as well as large-scale plants in Rajasthan and other sites, supported by well-aligned transmission planning."

"Our updated strategy now includes largescale deployment of Battery Energy Storage Systems (BESS), given significant cost declines in last few quarters," Chief Executive Officer Amit Singh said in a statement.

BESS can be deployed relatively quickly and will be crucial in grid integration, supporting rapid renewable growth and complementing the company's existing solar, wind and hydro pumped storage projects, Singh said.

Operational capacity of the company increased by 37 per cent Y-o-Y (year-on-year) to 11,609 megawatt (Mw) with new addition of 3,131 Mw power plants.
