Adani Group Expects Profitability to Rise in FY26 on the Back of New Biz

Group to increase capex in the current fiscal from last year's record high, bets big on green energy

Nikita Periwal

Mumbai: The Adani Group is targeting a 20% year-on-year growth in its earnings before interest, tax, depreciation and amortisation (Ebitda) in this financial year. The growth in Ebitdatoabout₹1.10 lakh crore will come from the incremental cash flows in its airport in Navi Mumbai, the green energy business and copper smelter, said a senior executive.

Of this, about ₹4,000-4,500 crore of Ebitda is expected to come from the green energy business. The conglomerate's Ebitda in 2024-25-while at an all-time high of ₹89,806 crore-increased 8.2% year-on-year, its slowest pace of growth in at least five years. Between 2020-21 and 2023-24, Ebitda increased between 18-45%

The Gautam Adani-owned group plans to increase its capital expenditure by about 10% this fiscal to ₹1.40-1.45 lakh crore, and large part of the funds will go into Adani Green, Adani Power, Adani Energy Solutions and Adani Ports and Special Economic Zone

With the 30% growth in net debt outpacing a single-digit rise in Ebitda, the group's net debt to Ebitda ratio rose to 2.63 times at the end of 2024-25 from 2.19 times at the end of 2023-24. This was even as the group's cost of debt fell to a four-year low of 7.9% during the fiscal.

EBITDA JOURNEY

The slower growth in Ebitda in 2024-25 happened as contribution from the group's largest segment-utility-was lower than in the previous

year. In 2024-25, the Adani Group got nearly half of its Ebitda from its utility businesses, with Ebitda from this segment falling more than 2% year-on-year to ₹43,375 crore.

Adani Power, Adani Green Energy, Adani Total Gas and Adani Energy Solutions are part of the company's utility businesses portfolio. While the Ebitda from Adani Power was down 15% year-on-year, that of Adani Total Gas rose just 1% during the year.

Ebitda from the existing businesses of its flagship firm Adani Enterprises fell 6.5% to ₹7,231 crore during

The Adani Group generated more than four-fifths of its operating profit from its core infrastructure businesses during the year. These businesses -which include transport, utility and the infrastructure business of Adani Enterprises-saw a 9.3% growth in their Ebitda to ₹73,931 crore.

The group's cash balance at the end of the March quarter stood at ₹53,843 crore, down from ₹59,805 crore a year ago. The group had a liquidity cover of more than 21 months at the end of March 2025, down from 30 months a year ago.

The Rising North East Inves-

tors Summit aims to highlight the North-east region as a land of opportunity, to attract global and domestic investment, and to bring together key stakeholders, investors, and policymakers on a single platform.

Union communications and development of North-eastern region Jyotiraditya Scindia said in New Delhi that the ministry has secured investment proposals worth ₹4.22 lakh crore by conducting nine domestic roadshows across key cities, organised ambassadors' meet with over 75 countries. and facilitated six state-level roundtables along with six sec tor-specific interactions, according to media reports.

The summit entails a series of roadshows, and states'

roundtables, including ambassadors' meetings and bilateral chambers meetings organized by the central government with active support from the state governments of the North-eastern region.

The summit will include ministerial sessions, businessto-government sessions, business-to-business meetings, presentation by startups, and exhibitions of policy and related initiatives taken by the governments

central ministries for investment promotion.

Reliance Group is likely to announce investments both from Reliance Jio and Reliance Retail in the Northeastern states.

In February Adani, Reliance and Tata Group had announced investments in Assam. While Adani and Reliance groups had committed to invest ₹50,000 crore each. Tata was looking to invest close to ₹27,000 crore in Assam.

The company has also filed se-parate petitions against Mumbai International Airport (MIAL). Celebi's local unit filed a writ petition under Article 226 of the Indian Constitution. An indivi-dual or a company can approach the High Court under Article 226 of the Coestitution for individu of the Constitution for judicial intervention in ensuring funda-

mental rights.
An email query to Celebi remained unanswered till press time.

The Turkish company has filed a similar plea in the Delhi HC challenging the government's decision to revoke its security clearance. Solicitor General Tushar Mehta, appearing for the government, defended the move by citing national security concerns. "We are dealing with the most delicate subject of civil aviation and the sovereignty of the nation," Mehta said, referencing a letter from the Ministry of Civil Aviation. He said the ministry retains the exclusive right to revoke licences The Turkish company has filed clusive right to revoke licences without assigning reasons under certain circumstances

Mehta on Thursday told the Delhi HC that it is impossible for the government to give an opportunity of hearing or reasons for revoking the security clearance in an unprecedented situation when the country is under a security threat.
He told the HC that Celebi's re-

presentation was duly considered and the revocation order was passed the next day. Mehta also contended that the-

se ground and cargo handling companies have access to crucicompanies have access to cruci-al airport and passenger data and thus revocation becomes necessary. "There is computer data which also includes VIP details, which aircraft is lan-ding, etc. They have full access to all these details."

Mumbai: The Adani Group is targeting a 20% year-on-year growth in its earnings before interest, tax, depreciation and amortisation (Ebitda) in FY26. The growth in Ebitda to around ₹1.10 lakh crore will come from incremental cash flows from its airport in Navi Mumbai, the green energy business, and copper smelter, a senior group official said.

Of this, about ₹4,000–4,500 crore of Ebitda will come from the green energy business itself. The conglomerate's Ebitda in FY25—while at an all-time high of ₹89,806 crore—grew 8.2% compared to the year before, its slowest pace of growth in at least five years. Between FY21 and FY24, Ebitda of the Adani portfolio grew between 18-45%.

The Gautam Adani-owned group will also increase its capital expenditure for the current fiscal by around 10% to ₹1.40-1.45 lakh crore, and a large part of the funds will go into Adani Green, Adani Power, Adani Energy Solutions, and Adani Ports and Special Economic Zone.

In FY25, the group's capital expenditure of ₹1,26,000 crore was at an all-time high. This was reflected in the gross assets of the group as well, which rose to ₹6.10 lakh crore during the year, up by more than a fourth from ₹4.83 lakh crore in FY24.

Adani to Announce ₹20k cr N-E Investments

Mumbai: Adani Group is likely to announce an investment of ₹20,000 crore in the north-eastern region on Friday, according to sources. The announcement will be made at the Rising Northeast Investors Summit to be held in New Delhi on Friday and Saturday. PM Narendra Modi will inaugurate the summit.

The Adani Group is slated to announce investments in the thermal power sector, where it aims to set up a 3200 MW plant in Assam, and transmission operations. It may also announce investments in green energy, apart from setting

up renewable energy capacity. The group is also weighing options to set up nuclear power plants in the region, sources said.

The summit aims to highlight the

North East region as a land of opportunity, and bring together key stakeholders, investors and policymakers. Industry

bigwigs such as Mukesh Ambani and Gautam Adani will be among those present, according to sources.

The RIL group is likely to announce investments by Reliance Jio and Reliance Retail.

Minister for communications and

development of north-eastern region Jyotiraditya Scindia said the ministry has secured investment proposals worth ₹4.22 lakh crore by conducting nine domestic roadshows. It has also organised ambassadors' meet with over 75 countries, and facilitated six state-level roundtables along with six sector-specific interactions.

In February, Adani, Reliance and Tata groups had announced investments in Assam. While Adani and Reliance groups had committed to invest Rs 50,000 crore, Tata had promised to invest close to Rs 27,000 crore in Assam.—Our Bureau

Celebi Moves HC on Security Clearance Withdraw

Maulik Vyas

Mumbai: Ground-handling service provider Celebi NAS Airport Services India Pvt has approached the Bombay High Court, challenging the revoca-

cess after the company's Turkish origins came under scrutiny. The firm had moved Delhi High Court earlier.

As per the court website, apart from the central government, the local subsidiary of

tion of security clearance ac- the Turkish company has also made the Director General of Civil Aviation, the Bureau of Civil Aviation Security and the Airport Authority of India respondents to the matter.

The company has also filed separate petitions against Mumbai International Airport (MIAL).

Celebi's local unit filed a writ petition through advocate Ma-yank Samuel under Article 226 of the Indian Constitution: Typically, an individual or a company can approach the

High Court under Article 226 of the Indian Constitution for judicial intervention in ensuring fundamental rights

On May 16, MIAL said IndoThai, which is currently operating at nine airports across India, 'has been appointed as the

interim ground handling provider at CSMIA for the next three months, effective immediately'

An email query to Celebi remained unanswered until the publication of this report. A day after the Centre revoked security clearance access of Turkey-based Celebi, Indian firm Indothai has been given the charge of handling the staff and assets at the Mumbai airport.

Adani Group Expects Earnings to Surge this Yr

Co targets a 20% year-on-year growth in Ebitda in current fiscal

Nikita Periwal

Mumbai: The Adani Group is targeting a 20% yearon-year growth in its earnings before interest, tax, depreciation and amortisation (Ebitda) in the current fiscal. The growth in Ebitda to around ₹1.10 lakh crore will come from incremental cash flows from its airport in Navi Mumbai, the green energy business, and copper smelter, a senior group official said.

Of this, about ₹4,000-4,500 from the green energy busi-

ness itself. The conglomerate's Ebitda in FY25-while at an all-time high of ₹89,806 crore-grew 8.2% compared to the year before, its slowest pace of growth in at least five years. Between FY21 and FY24, Ebitda of the Adani portfolio grew between 18-45%

The Gautam Adani-owned group will also increase its capital expenditure for the current fiscal by around 10% to ₹1.40-1.45 lakh crore, and a large part of crore of Ebitda will come thefunds will go into Adani Green, Adani Power, Adani Energy Solutions, and Adani Ports and Special Economic Zone.

In FY25, the group's capital expenditure of ₹1,26,000 crore was at an all-time high. This was reflected in the gross assets of the group as well, which rose to ₹6.10 lakh crore during the year, up by more than a fourth from ₹4.83 lakh crore in FY24.

Of the total gross assets, three-fourths have been added in the last six years alone, and the group intends to add assets worth ₹1.5 lakh crore this year. The addition to assets in one year was nearly equivalent to what it had in FY19, the official said.

The Adani Group's gross debt rose to ₹2,90,409 crore at the end of fiscal 2025 from ₹2,41,836 crore a year

PORT OF CALL The operator of storage tanks at major ports has good growth potential, especially once it cuts debt using IPO proceeds

The Tank is Half Full at Aegis Vopak, it may Fill up in Time

Ranjit Shinde

ET Intelligence Group: Aegis Vopak Terminals (AVTL), which operates liquid and gas storage tank terminals across major ports in India, plans to raise ₹3,500 crore through fresh equity to repay debt and to fund capital expenditure. AVTL is a joint venture between Aegis Logistics, which owns 50.1%, and the Netherlands-based Vopak, which holds 47.4%. After the IPO, the promoter group holding will fall to nearly 87% from the current 97.4%.

A higher interest outgo impacted net profit of the company in the past. This will change for the better once it repays debt by using the IPO proceeds worth ₹2,015.9 crore. The utilisation of the existing capacities is likely to improve as the number of customers increases. In addition, it is in the process of expanding terminal capacity across ports, which is expected to improve future profit.

These factors indicate a high growth potential even though the financial performance in the past three years may look subdued. Given these factors, investors with a High Potential

higher risk appetite may consider the IPO for the long term.

Established in 2022, the company is the country's largest third-party owner and operator of storage tanks with 70,800 tonnes of capacity for liquified petroleum gas (LPG) and 1.5 million cubic meters for liquid products such as petroleum, vegetable oil, lubricant and other chemicals as of December 2024. It operates 20 tank terminals at six ports including Kandla, Pipa-

vay, JNPT, Mangalore, Kochi, and Haldia. Once the new capacities at Mangalore port and Pipavav port become operational, the LPG capacity will increase to 200,800 tonnes.

For AVTL, FY23 was the first full year of operations. In FY24, revenue increased by 59% year-on-year to ₹561.8 crore. Net profit was ₹86.5 crore compared with a net loss of ₹0.8 crore.

The operating margin before depreciation and amortisation (Ebitda margin) improved by 590 basis points to 70.8%. In the nine months to December 2024, revenue rose by 23.6% year-on-year to ₹464.1 crore while net profit grew by 154.9% to ₹85.9 crore. The Ebitda margin expanded by 650 basis points to 73.6%. Net debt reduced to ₹1,717.4 crore from ₹2,301.4 crore in December 2023.

The company does not have any pure-play listed peer. Its valuation looks skewed given its growth phase and the impact of interest outgo on net profit.

In FY24, interest formed 59% of operating margin. Once the debt is repaid, the valuation is expected to normalise. At the upper end of the price band, the company's enterprise value (EV) is 49 times Ebitda. The average multiple for the port sector is at around 26.

IndiGo's shaky Q1 a one-off blip

Harsha Jethmalani harsha j@htlive.com

nterGlobe Aviation Ltd (IndiGo) landed smoothly in the March quarter. A demand surge, led largely by the Mahakumbh festivities in January-February, helped the airline's capacity, measured by available seat kilometers (ASK), increase by 21% year-on-year.

Yields, a measure of pricing, were better than expected, up 2.4% at 35.32. Lower operating costs and benign jet fuel expenses translated into Ebitdar—a key metric for airlines—rising almost 60% on-year to about 36,950 crore, ahead of the consensus estimate. Ebitda is earnings before interest, tax, depreciation, amortisation and lease rentals.

But IndiGo investors may have to buckle up for some turbulence in the June quarter (QI of FY26). Due to the closure of Pakistan's airspace, IndiGo had to suspend flights to Almaty and Tashkent. The impact will also be felt on several routes and daily flights, which may lead to additional flying time of 20-30 minutes.

Cancellations in May weighed on

passenger volumes and pricing. If capacity outpaces demand, yields may come under pressure in QI.

Ánalysts at Jefferies India said the negative impact on travel demand in Ql could be a one-off blip. Also, softer crude prices will help the airline ride out near-term demand weakness. Jefferies raised its earnings per share estimate by about 6% on a lower crude estimate of \$72 per barrel, to be offset by expected weakness in QL

IndiGo is hoping for some recovery in travel booking trends and yields in June but refrained from giving yield guidance.

"We expect the overall pricing environment to remain stable with yields of \$5.1 over the next two years as the aviation market is now a duopoly with limited threat of predatory pricing," PL Capital said in a report.

The airline guided for mid-teen capacity growth for Ql. It maintained early double-digit capacity growth guidance for FY26. Aircraft additions

as well as new routes are expected to contribute.

IndiGo added three destinations to domestic network and seven to its margin-accretive international network. The company had 91 domestic destinations and 40 international in FY25. It expects 40% contribution of international ASK by 2030 from 30% now.

Also, IndiGo announceddirect flights

to Amsterdam and Manchester from Mumbai starting July, According to Nuvama Research, wide-body longhaul direct flights on these routes may be risky for IndiGo.

Wide-body aircraft are large commercial airplanes made for long-duration flights. Nuvama said low-cost long-haul operations have yielded mixed results globally. Also, it cautioned that competition is relatively higher on international routes.

Still, IndiGo's efforts to deepen its international presence, increased thrust on "IndiGoStretch," a premium seating option, and declining

grounded aircraft count are seen as margin levers.

In FY26, IndiGo expects the cost per available seat kilometer (CASK) ex-fuel to be little changed. This would be driven by expected cost escalations for airport rentals and maintenance, offset by the scaling down of damp-leases. CASK-ex fuel was ₹3.2 in FY25, up from ₹2.66 in FY24.

The IndiGo stock hit a 52-week high of 3.5,665.50 on 19 May following the easing of India-Pakistan tensions and is now only 3% shy of this peak. Investors can hardly complain, with the shares having gained 21% so far in 2025. The potential softness in QI may be a short-term hurdle.

'Absolute power with govt to protect nation'

Govt to HC: Ground handling firms' access to airport, aircraft is risky

Priyanka Gawande & Daanish Anand

MUMBAI/NEW DELHI

he Union government clarified before the Delhi High Court (HC) on Thursday that it has 'plenary' (absolute) powers to protect the nation's national security.

The government's comments come on a petition filed by Celebi, a Turkish ground and cargo handling company, which challenged the government's move to revoke its security clearance licence. Solicitor general Tushar Mehta, appearing on behalf of the government, said, "Plenary powers rest with the government to avoid any potential threat to the country. Ground handling companies have access to the entire airport and aircraft. Hence, the director general of BCAS can use his sai generis powers to eliminate the immediate threat."

Mehta's comments follow Turkey's recent publicly shown support for Pakistan, while there are serious cross-border tensions between India and Pakistan.

Following this, on 15 May, the director general of the Bureau of Civil Aviation Security (BCAS) immediately scrapped Celebi's security licence, citing concerns surrounding the country's national security and sovereignty. Mehta further argued, "One thing is clear, if it's not plenary power, then a hearing has to be provided and rea-

sons have to be recorded." However, the country sometimes faces a situation that is so unprecedented that neither an opportunity of hearing is possible because the delay itself might defeat the object of the act, nor is it possible to give reasons for the revocation

because again it defeats the purpose of the action, Mehta said. Adding that this is when 'plenary' power comes in.

The solicitor general's remarks follow Celebi's allegations that it was never allowed an opportunity for a hearing before the government revoked its security licence, citing security concerns, The mat-

ter will be taken up for hearing on Friday.

Further, Mehta also informed the court that the Turkish firm has direct access to aircraft. It (Çelebi) also has access to computer data, including the VIP movement and flight movement of both domestic and international flights, hinting that this can concern the security of aviation and Mukul Rohatgi, who is representing the company in the matter. The senior counsel argued that the government's move was in violation of the principles of natural justice.

The government, however, stated that having plenary powers allows it to revoke any licence without assigning any reasons.

media regarding the company's ownership and opera-

tions in India. The company is 65% owned by international institutional investors from across Canada, the US, the UK, Singapore, the United Arab Emirates, and Western Europe," said the company in a media statement.

Adani Ports to raise up to ₹6,000 crore

PRESS TRUST OF INDIA New Delhi, May 22

ADANI PORTS AND Special Economic Zone (APSEZ) on Thursday said its board has approved a proposal to raise up to ₹6,000 crore by issuing debentures on a private placement basis for capex and refinancing of existing debt.

APSEZ, in a regulatory filing, said its board in a meeting held on Thursday gave its in-principle approval for issuance of non-convertible debentures for capex/refinancing of existing

debt and general corporate purpose for an aggregate amount not exceeding ₹6,000 crore in one or more tranches on a private placement basis. The type of securities proposed to be issued are secured, rated, listed, redeemable, and non-convertible debentures through private placement. APSEZ, part of the globally diversified Adani Group, is the largest port developer and operator in India with seven strategically located ports and terminals on the west coast and eight ports and terminals on the East coast.

Centre defends Celebi move, cites 'unprecedented' threat

PRESS TRUST OF INDIA New Delhi, May 22

THE CENTRE ON Thursday defended its decision to revoke the security clearance to Turkey-based aviation ground handling company Celebi without warning, given the "unprecedented" threat to aviation security.

Appearing before Justice Sachin Datta, solicitor general Tushar Mehta said during "unprecedented" times, giving a hearing or reasons before taking action defeats the purpose and in matters of national security, "either we do something or we don't" but there was "nothing in between".

Celebi Airport Services India and Celebi Delhi Cargo Terminal Management India have moved court against the Centre's move. The Bureau of Civil Aviation Safety (BCAS) on May 15 revoked the security clearance, days after Turkey backed Pakistan and condemned India's strikes on terror camps in the neighbouring country.

Mehta said the petitioners were involved in ground and cargo handling, having access to aircraft and screening of cargo in several airports which also handled VIP movements, prompting authorities to invoke their "plenary powers" under the relevant law to take action.

"The court is dealing with a suigeneris situation where there is a potential threat to the country's civil aviation security at various airports..., Mehta said. With respect to the petitioners' objection to the Centre furnishing some

"inputs" to court in a sealed cover, he said national security concerns outweighed the right to know. The court would continue the hearing on May 23.

Celebi subsidiary moves Bombay HC

A Celebi subsidiary has moved the Bombay High Court against the revocation of its security clearance and subsequent termination of its contract with the Mumbai International Airport Limited (MIAL). Three petitions were filed on Wednesday by Celebi Nas Airport Services India, which operated at the Mumbai airport, challenging the Centre's decision to revoke the security clearance and contract termination.

Adani Group Ebitda in FY25 at record ₹90K cr

PRESS TRUST OF INDIA New Delhi, May 22

ADANI GROUP'S PORTFOLIO companies posted their highest-ever pre-tax profit (Ebitda) of about ₹90,000 crore in the fiscal year ended March 31 and had a cash bal-

ance to cover 21 months of debt servicing, the ports-to-energy conglomerate said on Thursday.

The Ebitda has more than tripled in six years — from ₹24,870 crore in 2018-19 to ₹89,806 crore in 2024-25 (April 2024 to March 2025).

Ebitda grew by 8.2% from ₹82,976 crore in FY24 to ₹89,806 crore in FY25, with a 6-year (FY19-FY25) compounded annual growth rate (CAGR) of 24%.

Net profit for 2024-25 came in at ₹40,565 crore and has seen a sixyear CAGR of 48.5%.

Gross assets have increased to ₹609,133 lakh crore, with a 6-year CAGR of over 25%, the conglomerate said in a press statement.

The group, which is on a massive spending spree from airports to renewable energy parks, saw gross debt climb to ₹2.9 lakh crore from ₹2.41 crore in FY24. After considering ₹53,843 crore of cash balance, the net debt was ₹2.36 lakh crore in FY25.

The group said that cash balances provide liquidity cover for 21 months of debt servicing obligations.

"ROA in FY25 reached 16.5%, one of the highest amongst infrastructure players globally," it said. "Prudent capital allocation has led to steady return on asset (ROA) at 16%, showcasing no compromise on ROA to achieve high growth."The accelerated profit growth has reduced leverage — net debt-to-Ebitda is down from 3.8x in FY19 to 2.6x in FY25. Cash balance of ₹53,843 crore represents 18.5% of gross debt.

"A key highlight of FY25 is the continued industry-beating ROA of 16.5%, which is amongst the highest in any infrastructure business globally, underpinning the attractive asset base and the execution capabilities of the Adani Portfolio to continuously churn out the best quality assets across sub-sectors," said Jugeshinder 'Robbie' Singh, group CFO, Adani Group.

Adani Group said 82% of the Ebitda is contributed by the highly stable 'core infrastructure' platform, lending a high level of stability and visibility.

The Adani Group reported record earnings before interest, taxes, depreciation and amortisation (EBITDA) of ₹89,806 crore, an 8.2 per cent year-on-year growth during FY25.

Terming FY25 as a "landmark year", the Group said about 82 per cent of the EBITDA was contributed by the highly stable 'core infrastructure' platform, comprising of utility (Adani Green Energy, Adani Power, Adani Energy Solutions and Adani Total Gas), transport (APSEZ) and Adani Enterprises Ltd's incubating infrastructure business.

ings improvement with milestone achievement in FY25, the company stated, adding that nearly 90 per cent of the EBITDA is now generated from assets with domestic ratings of 'AA-' and above, as compared to 63 per cent and 48 per cent, two and six years ago, respectively.

The "consistently improving ratings have led to declining cost of debt, it stated in a results and credit compendium of all listed entities across Adani Portfolio for FY25. The average cost of debt declined below 8 per cent for the first time in FY25. It stood at 7.9 per cent in FY25, as against 9 per cent in FY24, and 10.3 per cent in FY19.

"In line with our conservative credit policies, sufficient liquidity is maintained across portfolio companies to cover debt servicing requirements for at least the next 12 months. As on March

31, 2025, Adani Portfolio had a cash balance of ₹53,843 crore, representing 18.5 per cent of gross debt, and is sufficient to cover 21 months of debt servicing requirements comfortably above our stated 12 months+1 day of debt servicing policy," it

"A key highlight of FY25 is the continued industry-beating return on assets of 16.5 per cent, which is amongst the highest in any infrastructure business globally, underpinning the attractive asset base and the execution capabilities of the Adani Portfolio to continuously churn out the best quality assets across sub sectors," said GCFO Jugeshinder Singh.

CASH FLOWS

Driven by strong operating leverage across businesses, the group's cash after tax (CAT) increased by 13.6 per cent to ₹66,527 crore, while the profit after tax also rose to an all-time high of ₹40,565 crore.

Higher cash flows helped record asset addition of ₹1.26 lakh crore — the highest in the history of Adani Portfolio, taking the total gross assets to ₹6.1 lakh crore. Three-fourths of this was added in the past six years, the company added.

Pakistan's trade hit as India bans transshipment via its ports

Abhishek Law Subramani Ra Mancombu

New Delhi/ Chennai

Pakistan's exports and imports are facing a major problem as India is refusing transshipment of cargoes emanating from Karachi or Qasim, or the South Asia Pakistan Terminal, into any of its ports.

This has led to most of the shipping lines suspending direct services of mother vessels to and from Pakistan and deploying feeder vessels to Pakistani ports and terminals, media reports from Islamabad said.

A shipping company official from Mumbai confirmed that ships that have visited Pakistan are not being allowed into any Indian port for security reasons. The reverse is also happening. This has resulted in shipping lines cancelling direct vessels, leading to a delay in shipments and increased costs. The problem for Pakistan's

trade is that India's Mundra port is used mainly for shipments to Europe. Pakistan has been denied access now.

EMERGENCY LEVY

Shipping companies are now using Colombo, Salalah and Jebel Ali transshipment terminals to send consignments to Pakistan. Adding to Islamabad's woes, shipping companies have begun to levy emergency operational surcharges.

"Insurance charges have increased for vessels heading to Pakistani ports. Parties that enter into any shipping deal with Pakistani sellers are demanding bank guarantees. These are adding to their woes," said a trader.

"Pakistan's exports and imports are in a state of jeopardy. The impact of supply chain disruptions from energy to agri inputs, including water, is likely to create deep socio-economic fault lines," said New Delhi-based trade analyst S Chandrasekaran.

Pakistan's economy,

TRADE WINDS. Pakistan's shipping woes are expected to give India an edge in the rice market, in particular. India's basmati prices have increased by 20% in the past few weeks RLOOMBERG

which is already reeling, will likely face issues in import of key equipment, raw materials and machinery, while export of grains and textiles are likely to be affected.

This comes at a time when its rupee is depreciating against the dollar. This week, it dropped to PKR 282.77 against the dollar, compared with PKR 280.79 on April 30.

EDGE FOR INDIAN RICE

Chinese shipping firms, such as COSCO and OOCL, have suspended their operations after India's action against terror camps in Pakistan on May 7, but COSCO was set to resume operations from Hong Kong to Karachi on Thursday. India's action has now led to a backlog of export containers at various terminals in Pakistan.

A Karachi port note said there were 2-3 day delays under the general category, as log and rice vessels had queued up in good numbers. For vessels with priority anchoring, the delay is one day.

"Delays may vary at short notice in the coming days, depending on fresh declarations being made for arrival," the note said.

Pakistan's shipping woes are expected to give India an edge in the rice market, in particular.

"Indian basmati prices have increased by 20 per cent in the past few weeks, following the dispute with Pakistan," said New Delhibased exporter Rajesh Jain Paharia. India's basmati rice prices, which were ruling around \$850 a tonne, have now increased to \$1,050-1,100 a tonne free-on-board. Pakistan is quoting the fragrant variety at \$1,075.

अदाणी समह ने मार्च 2025 में समाप्त वित्त वर्ष के दौरान रिकॉर्ड आय दर्ज की और समेकित एबिटा 89.806 करोड़ रुपये तक पहुंच गया। मुख्य बुनियादी ढांचा क्षेत्रों में निरंतर विस्तार और इसके पोर्टफोलियो में अधिक परिचालन नकदी की आवक से ऐसा हुआ। समृह ने मीडिया को दिए बयान में कहा कि उसकी सुचीबद्ध कंपनियों द्वारा वित्त वर्ष 2024 में दर्ज 82,976 करोड़ रुपये की तुलना में समृह का एबिटा 8.2 प्रतिशत बढा। करने वाले समृह ने 1.26 लाख करोड़ रुपये के पुंजीगत व्यय की भी

सूचना दी। यह अब तक का सबसे अधिक है और अगले छह साल के दौरान उसकी 100 अरब डॉलर का भारी निवेश करने की योजना है। यह निवेश इस बात को दर्शाता है कि समृह दीर्घावधि वाली बुनियादी ढांचा परिसंपत्तियों के निर्माण पर ध्यान केंद्रित कर रहा है, जिनमें अक्षय ऊर्जा परियोजनाएं, पारेषण नेटवर्क, बंदरगाह और तांबा गलाने वाली नई इकाई शामिल है।

वर्ष के दौरान परिसंपत्तियों पर रिटर्न 16.5 प्रतिशत रहा। इसके बारे में कंपनी ने कहा कि यह इसे वैश्विक स्तर पर सबसे बेहतर प्रदर्शन करने वाले बनियादी ढांचा ऊर्जा और लॉजिस्टिक से लेकर कारोबारों में शामिल करता है। समृह सीमेंट और खनन क्षेत्र में कारोबार की सकल संपत्ति वित्त वर्ष 2019 के बाद से 25 प्रतिशत से ज्यादा की चक्रवृद्धि वार्षिक दर से बढकर 6.1

लाख करोड़ रुपये (71.2 अरब डॉलर) तक पहुंच गई है।

अपनी वृद्धि के साथ-साथ समृह ने अपना कर्ज भी कम कर दिया है। शुद्ध ऋण-एबिटा अनुपात घटकर 2.6 गुना रह गया जो वित्त वर्ष 2019 में 3.8 गुना था। नकदी दमदार बनी हुई है और नकदी शेष 53,843 करोड़ रुपये (6.3 अरब डॉलर) है, जो सकल ऋण की लगभग 18.5 प्रतिशत है। बयान में कहा गया है कि उधार लेने की औसत लागत भी पहली बार आठ प्रतिशत से नीचे आ गई।

Turkish firm moves HC over security clearance revocation

Swati.Deshpande @timesofindia.com

Mumbai: Days after moving the Delhi High Court, a ground handling services subsidiary of a company headquarteredin Türkiye

Celebi NAS Airport Services India Pvt Ltd — on Wednesday approached the Bombay High Court against the revocation of its security clearance.

Celebi Airport Services India and Celebi Delhi Cargo Terminal Management India petitioned the Delhi High Court against the security clearance revocation and cancellation of contracts by the Delhi airport operator.

Last Thursday, the Bureau of Civil Aviation Security (BCAS), citing national security concerns, revoked the security clearance granted to Celebi Airport Services. The action came following Türkiye's support of Pakistan in its recent hostilities with India. The company filed petitions to also challenge the consequential termination of its contract with the Mumbai International Airport Limited (MIAL). It filed three petitions, challenging the Centre's decision, claiming they were arbitrary and illegal. It wants the HC to quash and set aside the revocation of its security clearance. As interim relief, it

Celebi has sought a stay or suspension of security clearance order

wants a stay or suspension of the Centre's administrative decision on security clearance. Such clearance is granted by the Bureau of Civil Aviation Security (BCAS) under the Ministry of Civil Aviation of India.

When the matter is heard soon, it will plead for interim orders to restrain MIAL from taking any final decision on the tenders issued on May 17 for the selection of a new ground handling agency for these services. The revocation order, enforced with immediate effect, meant airlines that had given ground handling contracts to Celebi would be hit with flight delays. Ground handling companies carry out security-sensitive jobs such as loading and unloading of bags, cargo, cleaning aircraft, fuelling, and passenger check-in. However, the govt worked with airport operators and appointed ground handling companies on an interim basis. At Mumbai airport, for instance, Indo Thai Airport Services—a certified ground handler currently operating at nine airports across India—was appointed within 24 hours of the BCAS order.

Meanwhile, the Union govtopposed on Thursday Celebi's plea, telling the Delhi High Court that revoking its security clearance was not an example of govt "carte blanche". "This is not a carte blanche or a Brahmastra that everything stops. Judicial review is available to the petitioner," solicitor-general of India Tushar Mehta said before the single judge bench of Justice Sachin Datta.

Termination of contract: Celebi moves Bombay HC

MUMBAI: The Indian subsidiary of Turkish ground-handling firm Celebi Aviation Holding on Wednesday approached the Bombay high court to challenge the Indian government's revocation of its security clearance, which resulted in the termination of its agreement at Mumbai's Chhatrapati Shivaji Maharaj International Airport (CSMIA). Celebi Nas Airport Services India has filed an arbitration petition urging the court to issue directions to restrain the airport authorities from appointing a new company in its place.

The petition was filed days after the Mumbai International Airport Limited (MIAL), which operates CSMIA, terminated its agreement with Celebi and appointed Kolkata-based firm Indo Thai Airport Services on a temporary basis for three months until it finalises a longterm partner.

CSMIA was among several airports across the country that terminated their agreements with Celebi earlier this month. This was after the Bureau of Civil Aviation Security (BCAS) revoked the Turkish firm's security clearance.

Meanwhile, the Centre told the Delhi high court on Thursday that the security clearance of Celebi Airport Services was cancelled due to a potential threat to the country's airports under the prevailing circumstances in the country. It also said that disclosing the reasons behind the government's actions would have "defeated the purpose" of the very action sought to be taken.

MUMBAI: The Indian subsidiary of Turkish ground-handling firm Celebi Aviation Holding on Wednesday approached the Bombay high court to challenge the Indian government's revocation of its security clearance, which resulted in the termination of its agreement at Mumbai's Chhatrapati Shivaji Maharaj International Airport (CSMIA).

Celebi Nas Airport Services India has filed an arbitration petition urging the court to issue directions to restrain the airport authorities from appointing a new company in its place.

The petition was filed days after the Adani Group-led Mumbai International Airport Limited (MIAL), which operates CSMIA, terminated its agreement with Celebi and appointed Kolkata-based firm Indo Thai Airport Services on a temporary basis for three months until it finalises a long-term partner.

firm's security clearance, effectively barring it from continuing its operations in Indian airports. The decision, according to BCAS, was taken in view of "national interests".

While the official reasons were not detailed, the move follows heightened diplomatic tensions. Turkey had recently backed Pakistan and condemned India's counter-terrorism strikes in Pakistan and Pakistan-occupied Kashmir following the Pahalgam terror attack in April.

In response to the revocation, Celebi's Indian subsidiary issued a statement distancing itself from political or national affiliations. "We are not a Turkish organisation by any standard and adhere fully to globally accepted practices of corporate governance, transparency, and neutrality, with no political affiliations or links to any foreign government or individuals," the company

Celebi filed three separate

lawsuits, two of which challenged MIAL's revocation of its contract on the grounds of security clearance. The third plea is filed against BCAS, which states that the agency's decision was procedurally erroneous.

On May 16, Celebi had filed a similar petition in the Delhi high court, even as aviation officials said airport operations nationwide continued without disruption as alternative arrangements were implemented.

In its plea, the company had said that the BCAS's decision to revoke its clearance by merely citing national security, without specific justification, was "vague" and "unsustainable in law."

Celebi Aviation has had a significant presence in India's aviation sector. Since entering the Indian market via Mumbai airport, the company has expanded to nine airports across the country. These include major hubs such as Mumbai, Delhi, Bengaluru,

Hyderabad, Chennai, Cochin, Kannur, Goa, and Ahmedabad. The firm's Indian operations cover a wide range of services, including passenger assistance, flight operations, cargo handling, warehouse management, and bridge operation services.

Billionaire Gautam Adaniowned conglomerate, with interests stretching from ports to green energy, is steadily regaining creditor confidence following a US Department of Justice indicted Adani over an alleged bribery plot in November.

The bilateral loan is the group's first from a global bank since the indictment, one of the person said.

Last month, the group raised about \$750 million through an offshore private placement bond to fund an acquisition of a construction firm. BlackRock Inc. subscribed to about a third of the issuance.

Separately, the conglomerate is in talks with foreign banks including Barclays Plc, First Abu Dhabi Bank PJSC and Standard Chartered Bank Plc for a \$750 million loan for its airport subsidiary.

Representatives for Adani and his companies recently met US administration officials to discuss potentially dismissing crimial charges levied against him in the bribery probe, Bloomberg reported earlier this month.

NEW DELHI, MAY 22

TURKEY-HEADQUARTERED airport ground handling services major Celebi has moved the Bombay High Court against the revocation of its security clearance by the Centre and the consequent termination of its contracts with Mumbai International Airport Ltd (MIAL), the operator of Mumbai's Chhatrapati Shivaji Maharaj International Airport. The lawsuits — three in total — have been filed by the Celebi's subsidiary Celebi Nas Airport Services India, which operated at the Mumbai airport.

The lawsuits follow a case filed by two other Celebi subsidiaries — Celebi Airport Services India and Celebi Delhi Cargo Terminal Management India — before the Delhi High Court against the security clearance revocation and the resultant cancellation of Celebi contracts by the Delhi airport operator. The matter is being heard by the Delhi High Court.

"Now, regarding our Mumbai operations; our subsidiary Celebi Nas Airport Services India Pvt Ltd ('Celebi Nas') in which our Company holds 59 per cent of the capital filed three different lawsuits before the High Court of Judicature at Bombay, Mumbai on 21.05.2025," parent company Celebi Hava Servisi said in a regulatory filing in Turkey on Thursday.

The three cases include a law-

Adani Group reports EBITDA of ₹89,806 crore driven by growth in core infra sectors

STATESMAN NEWS SERVICE

NEW DELHI, 22 MAY

Adani Group has reported a consolidated EBITDA of Rs 89,806 crore in its Annual Results for the Financial Year 2025. The company said that the growth is driven by growth in core infrastructure sectors and higher operating cash flows across its portfolio.

EBITDA was up 8.2 per cent compared to Rs 82,976 crore reported by group listed companies in FY24, said Adani in a statement.

Adani's core infrastructure businesses contributed 82 per cent of total ebitda. In the utility segment, Adani Green Energy increased its operational capacity by 30 per cent year-on-year, while Adani Power reported a 20 per cent rise in electricity generation.

The conglomerate reported a capital expenditure at its highest of Rs 1.26 trillion and said it plans to invest \$100 billion in the next six years.

"The investments will reflect the group's focus on building long-term infrastructure assets, including renewable energy projects, transmission networks, ports, and a new copper smelter facility," it said.

Jugeshinder Robbie' Singh, CFO, Adani Group said, "A key highlight of FY25 is the continued industry-beating Return on Assets of 16.5 per cent, which is amongst the highest in any infrastructure business globally, underpinning the attractive asset base and the execution capabilities of the Adani Portfolio to continuously churn out the best quality assets across sub sectors."

"Additionally, we have undertaken various initiatives related to governance and ESG, viz. Tax Transparency report released by all portfolio companies," he added.

Dhamra Port proposes Turtle & Crocodile Research Centre

STATESMAN NEWS SERVICE

BHADRAK, 22 MAY:

As part of conservation efforts, Dhamra Port has submitted a proposal for establishing an "Olive Ridley Turtle and Estuarine Crocodile Research Centre" at Dhamra in partnership with the state government.

Turtles play a key role in maintaining biodiversity as they impact both marine and terrestrial ecosystems. With focus on their conservation, steps are being taken at the global scale to plan effective intervention and mitigate the impact of climate change, pollution and loss of habitat for the species. Every year, May 23 is celebrated as World Turtle Day

In fact, sea turtles have

been termed "keystone species", meaning, they are an important part of the environment and also influence other species around them.

But threats like pollution, loss of habitat, climate change, illegal trade and poaching, have put many turtle species on the brink of extinction, raising concerns over how to protect and nurture them. Around the world, experts are working to find ways to save turtles through targeted intervention, community engagement and support from authorities.

In Odisha, mass nesting events of Olive Ridley turtles have been recorded, especially in Gahirmatha Marine Sanctuary and Rushikulya beaches. Olive Ridley sea turtles are listed as "vulnerable"in the International Union for Conservation of Nature(IUCN)Red Data Book, And Gahirmatha's closeness to Dhamra Port, operated by the Adani Ports and Special Economic Zone (APSEZ), makes the conservation efforts extremely critical for the species.

Over the years, several measures have been implemented around the port area. Dark sky-friendly lighting system has been installed in the port and nearby township to minimise glare towards the sea. This was developed in consultation with IUCN turtle conservation experts and helps facilitate safe movement of turtles in their congregation areas.

Dhamra Port undertakes

collaborative efforts with the government during the mating, congregation, nesting and hatching seasons and seaworthy trawlers are provided to the local forest department for patrolling so that the reptiles can be monitored. The port area and navigation channels are away from the turtle congregation zones and buoys are given to fishing boats in an effort to prevent them from entering critical zones, Regular drives are conducted for the local communities to raise awareness about turtle conservation.As part of compliance to IUCN recommendations, dredging protocols are specially designed in the area. In 2024-25 season, nearly 6.04 lakh Olive Ridley turtles nesting at Gahirmatha

Officers of the Special Investigation and Intelligence Branch (SIIB) of the Airport Special Cargo of Mumbai Customs on Wednesday arrested a Borivali resident for allegedly importing MDMA drugs through an import parcel.

According to the Customs sources, on February 20, 2024, based on specific intelligence, an import parcel having a Borivali address was examined, resulting in the recovery of 972 grams of MDMA.

A controlled delivery in respect of the said parcel was attempted by a team of SIIB officers at the Borivali address on February 27, 2024. However, the delivery could not be completed as the person who resided at the said address refused to accept the parcel, stating that he had not ordered it and that the parcel did not belong to him.

During the investigation, the SIIB officers suspected that IR Memon, son of the person who refused to accept the parcel, might have used his father's name to book the said parcel, as he was previously involved in a case Investigation is at a preliminary stage, and efforts are being made to apprehend other associates

related to the possession of 700 grams of Ganja (Marijuana).

"Later, Memon's statement was recorded and he knowledge about the parcel, revealing that he had provided details of his father to his Nigerian friend Ekene Eze. Memon said that a friend of Eze was expected to send MDMA concealed in garments and a phone. He was told that he would be given a handsome money for aiding in this work," said a Customs official.

"Investigation in the case is at a very preliminary stage, and efforts are being made to apprehend other associates of the accused. The complete nexus of the persons involved in crime is to be revealed," the official added.

Advocate Birendra Yadav argued for Memon in the court, following which Memon was granted judicial custody by the court.

Saving the Last Shells: New Hope for Endangered Turtles

PBD BUREAU

DHAMRA, MAY 22

FOR over 200 million years, turtles have traversed both land and sea, surviving mass extinctions and playing a vital role in maintaining ecological balance. These ancient reptiles are considered "keystone species," meaning they significantly influence the ecosystems they inhabit and the species around them.

However, modern threats such as pollution, habitat loss, climate change, illegal trade, and poaching have pushed many turtle species to the brink of extinction. In response, global efforts are intensifying, with targeted conservation strategies, community involvement, and support from governments and organizations.

In India, turtles are

found across diverse habitats, including the Western Ghats, the Northeast, and the coastal regions of Gujarat and Odisha. Odisha, in particular, is globally recognized for the mass nesting (arribada) of Olive Ridley sea turtles, especially along the Gahirmatha Marine Sanctuary and Rushikulya beaches. These turtles are classified as "Vulnerable" in the IUCN Red List, and their conservation has become even more critical due to the proximity of the Gahirmatha nesting grounds to Dhamra Port, operated by Adani Ports and Special Economic Zone (APSEZ).

Over the years, several conservation measures have been implemented around the port. These include the installation of dark sky-friendly lighting systems in both the port and nearby township,

designed in consultation with IUCN turtle conservation experts to reduce light pollution and protect turtle nesting and migration patterns.

From November to May each year, Olive Ridley turtles migrate to Odisha's coast for nesting. During this period, Dhamra Port collaborates with the state government in a variety of conservation initiatives. Sea-worthy trawlers are provided to the local forest department for patrolling, ensuring that turtle congrega-

tions are closely monitored. The port's navigation channels are deliberately situated away from turtle congregation zones, and buoys are distributed to fishing boats to help prevent intrusion into critical habitats. Awareness campaigns are regularly conducted in local communities to promote conservation practices.

In alignment with IUCN guidelines, specialized dredging protocols have also been implemented to minimize ecological disruption. During the 2024–25 nesting season, approximately 6.04 lakh Olive Ridley turtles nested at Gahirmatha — a significant indicator of conservation progress.

Furthering its commitment, Dhamra Port has submitted a proposal to establish an "Olive Ridley Turtle and Estuarine Crocodile Research Centre" in partnership with the Government of Odisha.

Turtles are essential to both marine and terrestrial biodiversity. As the world marks World Turtle Day on May 23, global and local conservation efforts remain vital in combating the adverse effects of climate change, pollution, and habitat degradation. Ensuring the survival of these remarkable creatures is not just an environmental priority it is a legacy for future generations.

high growth."

The accelerated profit growth has reduced leverage - net debt-to-EBITDA is down from 3.8x in FY19 to 2.6x in FY25. Cash balance of Rs 53,843 cr represents 18.5 per cent of gross debt.

"A key highlight of FY25 is the continued industry-beating Return on Assets of 16.5 per cent, which is amongst the highest in any infrastructure business globally, underpinning the attractive asset base and the execution capabilities of the Adani Portfolio to continuously churn out the best quality assets across sub sectors," said Jugeshinder 'Robbie' Singh, Group CFO, Adani Group.

"Additionally, we have undertaken various initiatives related to governance and ESG, viz., tax transparency report released by all portfolio companies, in addition to all the other initiatives introduced over the past years, resulting in industry-best ESG scores and performance by international ESG rating agencies."

Adani Group said 82 per cent of the EBITDA is contributed by the highly stable 'core infrastructure' platform, lending a high level of stability and visibility.

Adani's 'core infrastructure' platform comprises utility (Adani Green Energy, Adani Power, Adani Energy Solutions, and Adani Total Gas), transport (Adani Ports and SEZ), and Adani Enterprise Ltd's incubating infrastructure businesses.

Cash after tax (CAT) or fund flow from operations (FFO) increased to Rs 66,527 crore, up 13.6 per cent, driven by strong operating leverage across businesses.

Higher cashflows helped record asset addition of Rs 1.26 lakh crore - the highest in the history of Adani Portfolio, taking the total gross assets to Rs 6.1 lakh crore. Three-fourths of this was added in the past six years.

Prudent capital allocation, complemented by strong execution, has helped Adani Portfolio consistently achieve industry-leading Return on Asset of over 15 per cent in each of the past six years, it said adding ROA for FY25 was 16.5 per cent -- one of the highest globally in the infrastructure sector.

"High growth in profits has led to a sharp reduction in the leverage of portfolio companies - portfolio-level net debt to EBITDA has reduced from 3.8x in FY19 to as low as 2.6x now," the statement said.

Robust financial performance across businesses has resulted in consistent ratings improvement with milestone achievement in FY25. Nearly 90 per cent of EBITDA is now generated from assets with domestic ratings of 'AA-' and above, as compared to 63 per cent and 48 per cent two and six years ago, respectively.

As a result, the cost of debt for FY25 was 7.9 per cent against 9 per cent in FY24 and 10.3 per cent in FY19.

IndiGo expands in Europe, launches direct flights to Manchester and Amsterdam

Starting 1st July 2025, IndiGo will become the only airline to offer non-stop service between Mumbai and Manchester, UK. The following day, 2nd July 2025, the carrier will expand further into Europe with the launch of its inaugural non-stop Mumbai-Amsterdam flight. Both routes will operate three times a week using IndiGo's Boeing 787-9 Dreamliner aircraft. For the first time, passengers on these longhaul flights will be offered complimentary hot meals and beverages.

Meanwhile, InterGlobe Aviation Ltd, the parent company of IndiGo, reported a profit of Rs 3,067.5 crore for the quarter ending March, driven by robust domestic travel demand. This marks a significant increase compared to the Rs 1,894.8 crore net profit recorded in the same quarter last year.

Pieter Elbers, Chief Executive Officer of IndiGo. described the airline's longhaul foray as a pivotal moment in its global expansion strategy. "We look forward to a strong and synergistic partnership with Manchester Airport, enabling us to serve our customers well. This significant step underscores our commitment to becoming an airline of truly global scale and stature, and to contributing towards transforming India into a global aviation hub," he said.

Chris Woodroofe, Managing Director of Manchester Airport, welcomed the new route, stating that it makes Manchester the only airport in the North of England with a direct connection to India. "This cements our position as one of Europe's best-connected airports," he added.

Based in Gurugram, IndiGo's choice to operate European flights from Mumbai comes at a time when Pakistan's airspace closure continues to impact flight paths from Delhi, resulting in longer routes and higher operational costs. Mumbai-based operations are expected to save the airline both time and fuel.

IndiGo stated that this is

the beginning of an exciting new chapter in its growth journey, with Amsterdam and Manchester serving as its initial long-haul destinations. "With the introduction of more Boeing 787-9 aircraft from Norse, and the arrival of IndiGo's A321XLRs starting this year, followed by the A350s from 2027, a new era will begin-enabling the airline to offer longhaul services with IndiGo's unique value proposition," the statement said. On the Mumbai-Amsterdam route, Elbers noted that the airline is "stretching its wings further" to enhance accessibility and convenience for customers travelling to Europe for leisure, business, and education.

BE it the English, the Portuguese or the French, European colonists made an indelible mark in the evolution of the food Indians eat today. The Portuguese, in particular, have major contributions to Indian food along the West coast. They introduced the potato, cauliflower, okra, pineapple, papaya, cashew nut and tomato; these ingredients now form an intrinsic part of the cuisines of various Indian communities. Mumbai (with Bassein or Vasai, as the main port) experienced several changes under their rule, and the East Indian community is a living testament to history, preserving centuries'-old traditions while

adapting to the modern world. Often referred to as the original inhabitants of the cluster of Bombay's islands, the community had access to local produce as well as imports. Since Vasai was a major trading port, it welcomed Arab, Greek, Persian and Roman traders. Over time, East Indians of this region were introduced to Portuguese cooking techniques and ingredients. The cuisine

thrive today, thanks to several chefs and caterers who call the many East Indian (erstwhile) villages in Mumbai their home. Chefs Michael Swamy and

Altamsh Patel will offer a modern representation of Indo-Portuguese cooking with Saudade and Spice: East Indian Food Memories, a three-day pop-up at Hilton Mumbai International Airport, Swamy, who is also a food and travel photographer, and food stylist, has authored books including The East Indian Kitchen. The menu includes dishes such as khimad, a rustic spiced gin drink; risoles or pastry filled with mushroom and vegetables or prawns; coastal green masala smoked prawns, and breads such as fugias and chitaps among other dishes. There are many options for vegetarians too. "The menu includes bhujing, where smoked chicken is grilled on a tandoor and served with a biryani made from poha. Adani Group's portfolio firms posted the highestever pre-tax profit (EBIT-DA) of about ₹90,000 crore in fiscal year ended March 31 and had a cash balance to cover 21 months of debt servicing, the ports-to-energy conglomerate said on Thursday.

Earnings before interest, taxes, depreciation, and amortisation (EBITDA) more than tripled in six years – from ₹24,870 crore in 2018-19 to ₹89,806 crore in 2024-25 (April 2024 to March 2025).

EBITDA grew by 8.2% from ₹82,976 crore in FY24 to ₹89,806 crore in FY25, with a six-year (FY19-FY25) compounded annual growth rate (CAGR) of 24%.

Adani Group's net debt stood at ₹2.36 lakh crore in FY25.

Net profit for 2024-25 came in at ₹40,565 crore with sixyear high CAGR of 48.5%.

Gross assets rose to ₹6,09,133 lakh crore, with a 6-year CAGR of over 25%.

The group gross debt rose to ₹2.9 lakh crore from ₹2.41 crore in FY24. After ₹53,843 crore cash balance, the net debt was ₹2.36 lakh crore in FY25.

Adani Electricity empowers its 'Power Warriors' with advanced mobile thermal imaging tools

MUMBAI, MAY 22

As Mumbai's energy demand grows rapidly, Adani Electricity has taken a major step toward enhancing power reliability by equipping its frontline teams — "Power Warriors" — with advanced mobile infrared (IR) imaging tools.

These compact, smartphone-enabled devices are transforming how power infrastructure is monitored and maintained across the city.

Mumbai's fast-paced redevelopment and climate shifts place growing pressure on power assets like transformers, switchgear, and distribution panels.

To stay ahead of potential faults, Adani Electricity has rolled out mobile thermal imaging devices that allow on-the-spot detection of equipment stress or overheating—often before any outward sign of failure appears.

"Our field teams can

now identify and address developing issues during their first site visit — preventing power interruptions before they happen," said the company.

With this innovation, the teams can detect and act on faults instantly and there is no need for return visits or delays.

Potential failures are caught early, ensuring power remains stable even during peak loads. Consumers experience fewer unplanned outages and faster resolution of service issues. Field decisions are data-driven, visual, and shared in real-time across teams.

An Adani Electricity spokesperson said, "This shift marks a transition from reactive maintenance to a predictive model. The new IR tools are being fully integrated into Adani Electricity's digital operations platform".

"Soon, every thermal image captured in the field will trigger intelligent workflows, using AI and machine learning to flag issues, allocate resources, and track trends across the grid. This creates a virtuous loop—smarter diagnostics, faster interventions, and stronger system resilience," the spokesperson added.

Adani Electricity's vision is to deliver a power supply that's not just reliable but anticipates challenges before they reach your doorstep.

By giving field teams cutting-edge tools to act faster and smarter, we're reinforcing our promise to every Mumbaikar — a city that stays switched on, no matter what, the company said. IANS

and "01" for the port, on December 2024

Vizhinjam addresses a critical gap in India's maritime infrastructure. Approximately 75% of India's container cargo is currently transshipped through foreign ports like Colombo, Singapore and Dubai, incurring additional costs of \$80-100 per container and annual revenue losses of \$200-220 million. By providing a domestic transshipment hub, Vizhinjam is expected to reduce logistics costs for Indian manufacturers by 30-40%, enhance trade competitiveness, and eliminate reliance on foreign ports

UNNIKRISHNAN

estled along the southern coast of Kerala, the Vizhinjam International Seaport Limited (VISL) stands as a monumental achievement in the country's maritime infrastructure. As India's first deep-water transshipment port, Vizhinjam is poised to transform the nation's role in global trade, reduce logistical costs and establish a new benchmark for port-led eco-

nomic development. The idea of developing a deep-water port at Vizhinjam dates back to the early 20th century, with the region's mari-time trade history traceable to second century BC. The port's strategic location, just 10 nautical miles from the crucial east-west shipping channel connecting Europe, the Persian Gulf, and the Far East, has long been recognised as a natural advantage. However, it was not until 2004 that the Kerala government formally set up Vizhin-

jam International Seaport Limited (VISL) as a special-purpose vehicle(SPV) to spearhead this ambitious project. Fully owned by the

state government, VISL was tasked with developing a greenfield port to serve as India's first deep-water transshipment hub. Adani Group

was selected as the concessionaire and an agreement was signed on August 17, 2015. The major work on the ground started after the LDF came to power in 2016.

Vizhinjam's location is its greatest asset. Positioned at 8°21'N and 77°0'E, the port lies just 10 nautical miles from the busy international shipping route, offering minimal deviation for large vessels. The natural depth of 18 metres close to the shore eliminates the need for capital dredging,. Additionally, the port's curvilinear coastline mitigates tsunami impacts.

and minimal littoral drift reduces maintenance dredging requirements. These natural advantages enable Vizhinjam to accommodate ultra-large container ships, including those with capacities exceeding 18,000 TEUs, positioning it as a future-ready hub.

> Vizhinjam's strategic location on the east-west shipping channel positions it to compete with international hubs like Colombo and Singapore. Its capacity to handle Megamax container ships and its scalable infrastructure ensure longterm relevance in global trade. Additionally, Vizhinjam is expected to boost India's blue economy, create over 5,500 direct jobs (67% from Kerala), and foster port-led development through logistics centers, free trade zones, and warehousing facilities. Notably, the port employs India's first women crane operators, marking a step toward gender inclusivity in maritime operation

Adani Group's portfolio companies posted their highestever pre-tax profit (EBITDA) of about Rs 90,000 crore in the fiscal year ended March 31 and had a cash balance to cover 21 months of debt servicing, the ports-to-energy conglomerate said on Thursday.

The Earnings Before Interest, Taxes, Depreciation, and Amortisation (EBITDA) has more than tripled in six years - from Rs 24,870 crore in 2018-19 to Rs 89,806 crore in 2024-25 (April 2024 to March 2025). EBITDA grew by 8.2 per

cent from Rs 82,976 crore in FY24 to Rs 89,806 crore in FY25, with a 6-year (FY19-FY25) Compounded Annual Growth Rate (CAGR) of 24 per cent

Net profit for 2024-25 came in at Rs 40,565 crore and has seen a six-year CAGR of 48.5 per cent.

Gross Assets have increased to Rs 609,133 lakh crore, with a

6-year CAGR of over 25 per cent, the conglomerate said in a press statement.

The group, which is on a massive spending spree from airports to renewable energy parks, saw gross debt climb to Rs 2.9 lakh crore from Rs 2.41 crore in FY24. After considering Rs 53,843 crore of cash balance, the net debt was Rs 2.36 lakh crore in FY25.

The group said that cash balances provide liquidity cover for 21 months of debt servicing obligations.

"ROA in FY25 reached 16.5 per cent, one of the highest amongst infrastructure players globally," it said.

Dear Folks

ndia stands at a pivotal moment in its energy journey, with rapid digitization driving an exponential rise in data consumption and, consequently, energy demand. Our cover story this issue dives deep into the booming data center industry, which is set to consume 2–3% of India's total power by 2030. In an exclusive interview, Rajesh Nair, CEO of GreenGrid Data Infra, shares, "Sustainable energy integration is no longer optional. We're investing in solar and hybrid solutions to meet our 24/7 uptime without compromising climate goals."

Our Industry Focus explores India's broader energy transition from fossil-heavy generation to renewables-led growth. A recent report by NITI Aayog highlights India's ambitious push to reach 500 GW of non-fossil fuel capacity by 2030.

In our Press Release Spotlight, ReNew Power's announcement of a 1 GW solar-storage hybrid project signals confidence in India's clean energy market. Similarly, AdaniConneX has committed to 100% renewable-powered data centers by 2027.

We invite industry leaders, innovators, and policymakers to join us in this dialogue. Let's shape a resilient, clean energy future together.

India is undergoing a digital revolution. With the proliferation of smartphones, rapid internet penetration, government-led digital initiatives, and the expansion of digital businesses, the country is generating and consuming an unprecedented amount of data. As a result, data centres the backbone of digital infrastructure are emerging as a vital industry with tremendous growth potential.

A data centre is a facility that centralizes an organization's IT operations and equipment for storing, processing, and disseminating data and applications. With the exponential growth in digital services, the demand for data centres in India is skyrocketing. This article explores the emerging data centre opportunity in India, examining market drivers, key players, policy frameworks, investment trends, challenges, and the future outlook.

1. Market Landscape

Current Scenario

India's data centre industry is currently valued at around USD 6.4 billion (as of 2023) and is expected to grow at a CAGR of 15-20%, reaching USD 12 billion by 2027. The country has around 870+ MW of data centre capacity and is expected to add over 1,300 MW of capacity by 2027.

Key Locations

India's data centre growth is concentrated in specific urban hubs due to favorable infrastructure:

- Mumbai: Financial capital and undersea cable landing point.
- Chennai: Gateway to Southeast Asia; ideal for submarine cable connections.
- Bangalore: Tech hub with strong enterprise demand.
- Hyderabad & Delhi-NCR:
 Emerging hubs due to enterprise and cloud service providers.

2. Drivers of Growth

Digital India and Government Initiatives

The Government of India's Digital India programme has significantly boosted data creation. With initiatives like DigiLocker, UMANG, and Aadhaar, the government has digitized citizen services, generating massive data stored and accessed via data centres.

Data Localization Mandates

India's proposed Data Protection
Bill requires certain data types to be
stored locally. This regulation has
pushed both domestic and foreign
companies to set up local data
centres to comply with the law.
Cloud and OTT Boom

The rise of cloud computing and over-the-top (OTT) media platforms like Netflix, Amazon Prime, and YouTube has led to increased demand for local data hosting. Major cloud service providers like AWS, Microsoft Azure, and Google Cloud are aggressively expanding their footprint in India.

5G Rollout

The launch of 5G networks is expected to catalyze the need for edge data centres that are closer to end users, enabling low-latency applications like gaming, augmented reality, and autonomous vehicles

E-commerce and Fintech Expansion

Digital commerce platforms and fintech companies require robust, secure, and scalable data infrastructure. As these sectors grow, so does the need for dedicated and high-capacity data centres.

3. Investment Landscape

Domestic Players

• Reliance Jio: Partnering with Microsoft to set up data centres across India.

ICOVER STORY

- Adani Group: Planning to invest over USD 10 billion in data centre parks.
- CtrlS: Operates Asia's largest Tier-4 data centre in Hyderabad.

Global Investors and Hyperscalers

- Amazon Web Services (AWS): Announced USD 4.4 billion investment in Indian infrastructure by 2030.
- Google: Has launched cloud regions in Delhi and Mumbai.
- Microsoft: Plans to set up its largest data centre region in Hyderabad.

Real Estate and Infrastructure Players

- Hiranandani Group (Yotta): Building data centre parks in Mumbai and Chennai.
- Brookfield and Blackstone: Investing in data centre assets as part of their India real estate strategy.
- 4. Policy and Regulatory Framework

Data Centre Policy

The National Data Centre Policy, proposed by the Ministry of Electronics and Information Technology (MeitY), aims to provide:

- Infrastructure status to data centres.
- · Single-window clearances.
- Incentives like subsidized power and land.
- · Support for renewable energy use.

State-Level Incentives

Several Indian states are also rolling out their data centre policies:

- Maharashtra: Offers incentives for land, electricity, and stamp duty.
- Uttar Pradesh: Providing capital subsidies and exemption from electricity duty.
- Tamil Nadu & Telangana: Fast-tracking approvals for data centre infrastructure.

41 | May 2025 | www.industrialoutlook.in

ICOVER STORY

Data Protection Legislation

The Digital Personal Data Protection Act, 2023 mandates responsible data processing and storage. While it does not strictly enforce localization, it encourages building trusted data infrastructure domestically.

5. Technological Trends

Hyperscale Data Centres

These are massive facilities designed for scalability, often exceeding 10 MW in capacity. They are typically used by tech giants like AWS, Microsoft, and Meta.

Edge Data Centres

With increasing IoT and 5G use cases, there is a shift toward smaller data centres located close to the data source to reduce latency.

Green Data Centres

Sustainability is becoming critical. Data centres are shifting to renewable energy sources, efficient cooling systems, and green building certifications to reduce environmental impact.

AI and Automation

Al is being deployed for energy optimization, predictive maintenance, and improved security in data centres, enhancing efficiency and reducing downtime.

6. Challenges

Despite the opportunities, the sector faces several challenges:

Power Availability and Cost

Data centres are energy-intensive. Inconsistent power supply, high electricity tariffs, and limited access to renewable energy are key constraints.

Infrastructure Bottlenecks

Many regions still lack robust digital and physical infrastructure, including high-speed fiber connectivity and reliable power back-up.

High Capital Investment

Setting up a data centre requires substantial upfront investment in land, technology, cooling systems, and security. This can be a barrier for smaller players.

Regulatory Uncertainty

While policies are evolving, the lack of a finalized national data centre policy and ambiguity around data localization can deter investment

Environmental Concerns

Cooling and energy consumption are raising concerns about the environmental impact of large-scale data centres, pushing for greater sustainability compliance.

42 | May 2025 | www.industrialoutlook.in

7. The Role of Renewable Energy

Power is the single largest cost component for a data centre, often accounting for 40-60% of operating expenses. With increasing emphasis on ESG (Environmental, Social, and Governance) goals, there is a growing shift towards green data

India's abundant solar and wind energy potential is being tapped:

- Adani and Reliance are building renewable-powered data centres.
- Yotta Infrastructure claims its data centre in Navi Mumbai is powered 100% by green energy.
- Policies offering open access to renewable energy are encouraging data centre companies to sign long-term power purchase agreements (PPAs) with green power developers.

8. Future Outlook

India's data centre market is poised for rapid and sustained growth over the next decade. Key trends likely to shape the future include:

Rising Demand from AI and Big Data

With increasing AI workloads and big data analytics, enterprises need

more storage and computing power, which will accelerate data centre capacity addition.

Public-Private Partnerships (PPPs)

Collaborations between governments and private players will be crucial to creating the infrastructure needed for large-scale data centre parks.

Interconnection and Submarine Cables

To enhance global connectivity, India needs more submarine cable landing stations and internet exchange points, particularly in Chennai and Mumbai.

India as an APAC Data Hub

India is uniquely positioned to serve as a regional data hub due to its geographic location, large user base, and fast-growing digital economy.

The digital revolution has firmly taken root in India. With over a billion people increasingly connected via smartphones, affordable data, and a burgeoning online economy, India is witnessing an unprecedented surge in digital consumption. At the heart of this transformation lies the silent engine powering it all: data centres. These facilities, often hidden behind high-security walls and humming with servers, are now emerging as some of the most vital infrastructure assets in the country. As we stand at the intersection of policy shifts, technological advances, and rising digital demand, India finds itself on the brink of a data centre boom that presents a golden opportunity for growth, investment, and innovation

The Rise of Data in the Indian Landscape

India's data explosion is fueled by several factors. The widespread adoption of smartphones, the introduction of affordable 4G and now 5G networks, and a population that is rapidly going digital for everything from education and healthcare

to banking and entertainment have all contributed to an exponential increase in data generation. India is currently one of the world's largest consumers of data, and the numbers continue to rise. Every second, petabytes of data are being created, accessed, and stored.

In addition, government initiatives like Digital India, Smart Cities, and Aadhaar-based services are actively pushing digitization across all sectors. These programs, while democratizing access to services, have also increased the demand for localized and secure data storage. In this scenario, data centres are no longer just support infrastructure; they are becoming the backbone of India's digital economy.

The Economic Case for Data Centres

Data centres are capital-intensive but yield high returns in terms of long-term infrastructure and digital sovereignty. They provide the processing power, storage, and networking capabilities that make digital services seamless and accessible. Beyond serving the tech giants, data centres support a wide array of industries from banking and insurance to retail, manufacturing, and education.

With India projected to become a \$1 trillion digital economy by 2026, the case for investing in data centres has never been stronger. Global technology companies are increasingly looking at India not just as a market, but as a base for regional operations. This has led to a significant influx of foreign direct investment into the data centre space, with giants like Amazon Web Services, Microsoft, and Google committing billions of dollars to build infrastructure.

Policy Push and Regulatory Tailwinds

Recognizing the strategic importance of data centres, both central and state governments are stepping up. The Government of India has

ICOVER STORY

proposed a National Data Centre Policy aimed at providing infrastructure status to data centres, which would facilitate easier access to credit, land, and power. States like Maharashtra, Tamil Nadu, Uttar Pradesh, and Telangana have already unveiled their own data centre policies, offering incentives such as subsidized land, power tariff rebates, and exemption from stamp duty.

Moreover, the Personal Data Protection Bill and other regulatory frameworks are nudging companies to host their data within the country. These regulations are aimed at ensuring data sovereignty and security, and in doing so, are creating a regulatory environment conducive to the growth of local data infrastructure.

India's Geographic and Strategic Advantage

India enjoys a unique geographic advantage. Positioned at the cross-roads of global data traffic routes, the country is well-placed to serve not just its own digital needs but also act as a regional data hub for Southeast Asia, the Middle East, and Africa. Coastal cities like Mumbai and Chennai already host undersea cable landing stations, making them ideal locations for hyperscale data centres.

Additionally, the availability of skilled IT professionals, relatively lower operating costs, and a strong startup ecosystem further bolster India's appeal as a data centre destination

Sustainability and the Future of Green Data Centres

However, the expansion of data centres comes with its own set of challenges. Chief among them is the environmental impact. Data centres are notoriously energy-hungry, with cooling systems alone accounting for a significant portion of energy consumption. In a world increasing-ly conscious of climate change, sustainability is not just an option

43 | May 2025 | www.industrialoutlook.in

but a necessity.

Fortunately, India is also one of the world's leading producers of renewable energy. By leveraging solar and wind power, data centres can transition to greener operations. Companies like Adani and Hiranandani have already committed to building green data centres powered entirely by renewable sources. This shift not only addresses environmental concerns but also aligns with India's broader commitment to achieving net-zero emissions by 2070.

Emergence of Tier-II and Tier-III Cities

While Mumbai, Bengaluru, Chennai, and Hyderabad continue to dominate the data centre landscape, Tier-II and Tier-III cities are also beginning to attract attention. Cities like Pune, Nagpur, Jaipur, and Kochi offer lower land and operational costs and are witnessing improved connectivity infrastructure. This decentralization is not only easing the load on metro cities but also creating new opportunities in less developed regions, fostering balanced regional development.

Job Creation and Skill Development

The rise of the data centre industry is also a significant employment generator. From civil engineers and electricians to network administrators and cybersecurity experts, the ecosystem demands a diverse skill set. According to estimates, the industry could generate over 1 million direct and indirect jobs in

the coming decade.

Educational institutions and vocational training centres are beginning to align their curricula to match industry needs. Collaborations between tech companies and academic institutions can play a crucial role in preparing India's workforce for this data-driven future.

Challenges to Overcome

Despite the positive momentum, several challenges remain. Land acquisition can be a lengthy and bureaucratic process, especially in urban areas. Power availability, particularly uninterrupted and clean power, is another constraint. There is also the issue of data security, with increasing instances of cyber-attacks and breaches world-

Moreover, the legal and regulatory landscape around data storage, privacy, and cross-border data flows is still evolving. Uncertainty in these areas can potentially deter foreign investment and delay project execution.

Conclusion

The data centre industry represents one of the most promising digital infrastructure opportunities in India. As data becomes the "new oil," India is well-positioned to be a global refinery processing, storing, and distributing digital assets across the world.

With supportive policies, growing demand, increasing investments,

ICOVER STORY

and a strong technological ecosystem, India's data centre market is moving toward maturity. Addressing challenges around power, sustainability, and regulatory clarity will be key to unlocking the sector's full potential.

The next decade could witness India evolving into a global data power-house, and data centres will be the pillars of this transformation. For investors, developers, and policy-makers, the opportunity is not just emerging it is accelerating.

The data centre boom in India is not a fleeting trend but a structural transformation that is here to stay. As digital services continue to permeate every aspect of life and business, the demand for robust and scalable data infrastructure will only intensify. With the right mix of policy support, investment incentives, technological innovation, and a skilled workforce, India can position itself as a global leader in the data centre domain.

This is a golden opportunity not just for investors and tech companies but also for the government, educational institutions, and the youth of the country. By embracing this digital future, India has the chance to not only meet its own burgeoning data needs but also to serve as the digital nerve centre of the world.

The coming decade could well be remembered as the era when India established itself not just as the world's back office, but as its digital backbone.

सेलेबी की अनुषंगी कंपनी ने अनुबंध रद्द करने के खिलाफ हाई कोर्ट में याचिका दी

मुंबई, (भाषा)। हवाई अड्डे पर जमीनी रखरखाव करने वाली तुर्किये की प्रमुख कंपनी सेलेबी की अनुषंगी ने अपनी सुरक्षा मंजूरी रह करने और मुंबई इंटरनेशनल एयरपोर्ट लिमिटेड (एमआईएएल) के साथ अपने अनुबंध को समाप्त करने के खिलाफ मुंबई उच्च न्यायालय का दरवाजा खटखटाया है। मुंबई हवाई अड्डे पर परिचालन करने वाली सेलेबी नैस एयरपोर्ट सर्विसेज इंडिया ने बुधवार को तीन याचिकाएं दायर की, जिसमें सुरक्षा मंजूरी रह करने और अनुबंध समाप्ति के केंद्र के फैसलों को चुनौती दी गई है।याचिकाओं में केंद्र सरकार के फैसलों को रह करने की मांग करते हुए कहा गया है कि ये फैसले मनमाने और गैरकानुनी है।

सेलेबी के पास सेलेबी नैस एयरपोर्ट सर्विसेज

इंडिया प्राइवेट लिमिटेड की 59 प्रतिशत हिस्सेदारी है। याचिका में भारत के नागर विमानन मंत्रालय के तहत नागर विमानन सुरक्षा ब्यूरो (बीसीएएस) द्वारा दी गई सुरक्षा मंजूरी रह करने के प्रशासनिक निर्णय को निलंबित और निरस्त करने की मांग की गई है।इसमें एमआईएएल द्वारा ब्रिज माउंटेड इंद्रिपमेंट सर्विस एग्रीमेंट और कंसेशन एग्रीमेंट तथा जमीनी रखरखाव सेवाओं की समाप्ति के आदेश को भी रह करने की मांग की गई है।अंतरिम राहत के रूप में, सेलेबी ने उच्च न्यायालय से इन सेवाओं के लिए नई जमीनी रखरखाव एजेंसी के चयन के लिए 17 मई को जारी निविदाओं पर कोई भी अंतिम निर्णय लेने से एमआईएएल को रोकने की मांग की है।

'पावर वॉरियर्स' को नई ताकत, अदाणी इलेक्ट्रिसटी ने दिए एडवांस थर्मल इमेजिंग टूल

आज समाज नेटवर्क

मुंबई। मुंबई में लगातार बढ़ती ऊर्जा मांग को ध्यान में रख. अदाणी इलेक्टिसटी ने अपनी फ्रांटलाइन टीम 'पावर वॉरियर्स' को एडवांस मोबाइल इंफ्रारेड (आईआर) इमेजिंग ट्ल से सुसज्जित किया है। यह बिजली आपूर्ति के प्रति विश्वसनीयता बढाने की दिशा में उठाया गया एक बडा कदम माना जा रहा है। ये कॉम्पैक्ट, स्मार्टफोन-इनेबल्ड डिवाइस शहर भर में पावर इंफ्रास्ट्रकर निगरानी और रखरखाव के तरीके को बदल रहे हैं। मुंबई के तेजी से हो रहे पुनर्विकास और जलवाय परिवर्तन ने टांसफार्मर, स्विचिगवर और डिस्टिब्यशन पैनल जैसी पावर एसेट्स पर दबाव बढ़ा दिया है। संभावित खराबियों से पहले ही सतर्क रहने के उद्देश्य से अदाणी इलेक्टिसिटी ने मोबाइल थर्मल इमेजिंग डिवाइस की शरूआत की है, जो इक्विप्मेंट स्ट्रेस या ओवरहीटिंग का तुरंत पता लगा सकते हैं। कंपनी ने कहा, "हमारी फील्ड टीम अब अपने पहले साइट विजिट के दौरान ही पैदा होने वाली नई समस्याओं की पहचान कर तुरंत समाधान कर सकती है। हमारी टीम बिजली की रुकावटें आने से पहले

ही इसे रोक सकती है।"इस इनोवेशन के साथ हमारी टीम फॉल्ट का तुरंत पता लगा सकती है और उसे ठीक कर सकती है, जिसके लिए दोबारा विजिट करने या देर होने जैसी परेशानियां भी नहीं आएंगी। फॉल्ट आने से पहले ही इसका समय रहते पता लगाने और समाधान करने से पीक लोड के दौरान भी बिजली की परेशानी नहीं आएगी। कस्टमर्स को अनियमित बिजली कटौती का सामना नहीं करना पड़ेगा और इससे सर्विस से जुड़ी परेशानियों का भी त्रंत समाधान हो सकेगा। फील्ड निर्णय डेटा-डिवन और विज्ञअल होते हैं। साथ ही टीम के सदस्यों के बीच रियल टाइम में शेयर भी किए

जाते हैं। अदाणी इलेक्ट्रिसटी के प्रवक्ता ने कहा, "यह बदलाव रिएक्टिव मेंटेनेंस (प्रतिक्रियात्मक रखरखाव) से प्रिडिक्टिव मॉडल (समस्या से पहले समाधान) में बदलाव को दशार्ता है। नए आईआर टल अदाणी इलेक्टिसिटी के डिजिटल ऑपरेशन प्लेटफॉर्म में पूरी तरह से इंटीग्रेट किए जा रहे हैं।" प्रवक्ता ने कहा, "जल्द ही, फील्ड में कैप्चर की गई हर थर्मल इमेज एआई और मशीन लर्निंग का इस्तेमाल कर इंटेलिजेंट वर्कफ्लो को टिगर करेगी। इससे समस्याओं को पहचाना जा सकेगा, संसाधनों को आवंटित किया जा सकेगा और ग्रिड में रुझानों को टैक किया जा सकेगा।

तुर्किये की कंपनी की सुरक्षा मंजूरी रद्द करने का कारण बताना जरूरी नहीं : केंद्र

हाईकोर्ट में दिया जवाब-राष्ट्रीय सुरक्षा की स्थितियों में नहीं दे सकते नोटिस

अमर उजाला ब्यूरो

नई दिल्ली। दिल्ली समेत कई भारतीय हवाई अइडों पर जमीनी रख-रखाव व ढुलाई परिचालन का कामकाज देखने वाली तुर्किये की कंपनी सेलेबी की सुरक्षा मंजूरी रद्द करने का मामला अब अदालत की चौखट तक पहुंच चुका है। कंपनी ने सुरक्षा मंजूरी रद्द करने को दिल्ली हाईकोर्ट में चुनौती दी है। सॉलिसिटर जनरल तुषार मेहता ने कहा कि राष्ट्रीय सुरक्षा के मद्देनजर सरकार के पास यह अधिकार है कि वह बिना चेतावनी सुरक्षा मंजूरी रद्द कर सकती है।

मेहता ने कहा, सरकार को कंपनी के साथ विवरण साझा करने की जरूरत नहीं है। भारतीय अदालतें पहले भी मान चुकी हैं कि कुछ मामलों में राष्ट्रीय सुरक्षा की चिंताएं निष्पक्षता की आवश्यकता से अधिक महत्वपूर्ण हो सकती हैं। इस मामले में प्राकृतिक न्याय के सिद्धांतों का पालन करने की जरूरत नहीं है। मेहता ने कहा, राष्ट्रीय सुरक्षा के मामलों में अधीक्षण की पूर्ण शक्ति का प्रयोग किया जा सकता है।

इन कंपनियों के पास महत्वपूर्ण एयरपोर्ट और यात्री डाटा तक पहुंच है, जिसमें वीआईपी विवरण भी शामिल है। मेहता ने जस्टिस सचिन दत्ता को सीलबंद लिफाफे में कुछ विवरण सौंपे हैं। जस्टिस दत्ता ने सेलेबी की तरफ से पेश वरिष्ठ अधिवक्ता मुकुल रोहतगी से पूछा कि क्या कानूनन उन्हें सामग्री प्रदान करना अनिवार्य है।

रोहतगी ने जवाब दिया कि वह कारणों की प्रति नहीं मांग रहे, बल्कि उचित सुनवाई का अवसर और नोटिस की मांग कर रहे हैं। अब मामले की शुक्रवार को सुनवाई होगी।

सेलेबी ने आदेश को दिल्ली हाईकोर्ट में दी चुनौती

सेलेबी ने सुरक्षा मंजूरी रद्द होने के बाद भारत सरकार के इस फैसले को दिल्ली हाईकोर्ट में चुनौती दी है। सेलेबी ने कहा कि सुरक्षा मंजूरी रद्द करने का कोई कारण नहीं बताया गया और न ही इसकी पूर्व सूचना दी गई। सुनवाई का कोई मौका नहीं दिया। यह सार्वजनिक धारणा के कारण किया गया, क्योंकि यह कंपनी की तुर्किये की है। सेलेबी ने दिल्ली हाईकोर्ट में दाखिल याचिका में केंद्र से आदेश को रदद करने की मांग की है।

सहायक कंपनी ने भी दाखिल की बॉम्बे हाईकोर्ट में याचिका

मुंबई। सेलेबी की सहायक कंपनी सेलेबी नैस एयरपोर्ट सर्विस इंडिया प्राइवेट लिमिटेड ने अपनी सुरक्षा मंजूरी रद्द करने और मुंबई अंतरराष्ट्रीय एयरपोर्ट लिमिटेड (एमआईएएल) के साथ अपने अनुबंध को समाप्त करने के खिलाफ बॉम्बे हाईकोर्ट में तीन याचिकाएं दाखिल की हैं। केंद्र के फैसले को मनमाना और अवैध बताते हुए इसे रद्द करने की मांग की गई है। याचिका में एमआईएएल की ओर से ब्रिज माउंटेड इक्विपमेंट सर्विस एग्रीमेंट और कंसेशन एग्रीमेंट एवं ग्राउंड हैंडिलंग सेवाओं की समाप्ति को भी रदद करने की मांग की गई है। एजेंसी

भारत ने क्यों उठाया कदम?

ऑपरेशन सिंदुर के दौरान पाकिस्तान ने तुर्किये के ड्रोन और दूसरे हथियारों का इस्तेमाल भारत पर हमले के लिए किया था। इसको लेकर भारत में तुर्किये के खिलाफ आक्रोश हैं और लोग उसके बहिष्कार की मांग कर रहे हैं। इसी के बाद सुरक्षा कारणों के मदुदेनजर भारत सरकार ने 15 मई को अचानक सेलेबी एयरपोर्ट सर्विसेज इंडिया प्राइवेट लिमिटेड की सुरक्षा मंजूरी को तत्काल प्रभाव से रदद की थी। ब्यरो ऑफ सिविल एविएशन सिक्योरिटी के आदेश में कहा गया था कि यह काम राष्ट्रीय स्रक्षा के चलते किया गया। सेलेबी दिल्ली के अलावा मुंबई, हैदराबाद, बंगलुरू, केरल और गोवा में हवाई अडडों पर रख-रखाव और माल ढ्लाई परिचालन का कामकाज देखती है।

चौतरफा बिकवाली से शेयर बाजार में भूचाल

- सेंसेक्स ०.७९ प्रतिशत का गोता लगाकर 80,951.9९ अंक पर
- निफ्टी 0.82 प्रतिशत की गिरावट लेकर 24609.70 अंक पर बंद

मुंबई, 22 मई (एजेंसियां)। अमेरिकी राष्ट्रपति डोनाल्ड ट्रम्प के कर और व्यय विधेयक से अमेरिका के सार्वजनिक ऋण में भारी बढोतरी होने तथा ईरान और इजराइल के बीच तनाव बढ़ने की आशंका से विश्व बाजार में आई गिरावट से हतोत्साहित निवेशकों की स्थानीय स्तर पर हुई चौतरफा बिकवाली से आज शेयर बाजार में भूचाल आ गया। बीएसई का तीस शेयरों वाला संवेदी सूचकांक सेंसेक्स 644.64 अंक यानी 0.79 प्रतिशत का गोता लगाकर नौ कारोबारी सत्र के बाद 81 हजार अंक के मनोवैज्ञानिक स्तर के नीचे 80,951.99 अंक और नेशनल स्टॉक एक्सचेंज (एनएसई) का निफ्टी 203.75 अंक अर्थात 0.82 प्रतिशत की गिरावट लेकर 25 हजार अंक के मनोवैज्ञानिक स्तर से नीचे 24609.70 अंक पर बंद हुआ। हालांकि बीएसई की मझौली और छोटी कंपनियों के शेयरों में मिलाजुला रुख रहा। इससे मिडकैप 0.33 प्रतिशत उतरकर 44,638.43 अंक रह गया जबकि स्मॉलकैप 0.17 प्रतिशत बढ़कर 51,289.32 अंक हो गया।

इस दौरान बीएसई में कुल 4086 कंपनियों के शेयरों में कारोबार हुआ, जिनमें से 2178 में गिरावट जबिक 1741 में तेजी रही वहीं 167 में कोई बदलाव नहीं हुआ। इसी तरह एनएसई में कारोबार के लिए रखी गई कुल

2949 कंपनियों के शेयरों में से 1582 में बिकवाली जबकि 1275 में लिवाली हुई वहीं 92 में टिकाव रहा।

विश्लेषकों के अनुसार, अमेरिकी राष्ट्रपति डोनाल्ड ट्रम्म के कर और व्यय विधेयक को लेकर नए संदेह खड़े हो गए हैं। विशेषज्ञों का मानना है कि इस विधेयक के लागू होने से अमेरिका के पहले से ही भारी कर्ज में और बढोतरी हो सकती है, जिससे आर्थिक विकास की गित और धीमी पड़ सकती है। निवेश सलाह देने वाली कंपनी जियोजित इन्वेस्टमेंट लिमिटेड मुख्य निवेश रणनीतिकार डॉ. वी. के. विजयकुमार ने कहा कि वैश्विक वित्तीय बाजारों में फिलहाल हल्का जोखिम देखा जा रहा है, जो सोना और बिटकॉइन जैसी वैकल्पिक परिसंपत्तियों की मजबूती में स्पष्ट रूप से परिलक्षित हो रहा है। इसका मूल कारण अमेरिका का बढ़ता राजकोषीय घाटा माना जा रहा है, जिसे बाजार लगातार अस्थिरता का संकेत मान रहा है।

इसी तरह निफ्टी भी 80 अंक उतरकर 24,733.95 अंक पर खुला और सत्र के दौरान 24,737.50 अंक के उच्चतम जबिक 24,462.40 अंक के निचले स्तर पर रहा। अंत में पिछले सत्र के 24,813.45 अंक की तुलना में 0.82 प्रतिशत का गोता लगाकर 24,609.70 अंक पर बंद हुआ।

इस दौरान सेंसेक्स में अल्ट्रासिम्को, भारती एयरटेल और इंडसइंड बैंक की 1.82 प्रतिशत तक की तेजी को छोड़कर अन्य 27 कंपनियों में गिराबट रही। नुकसान उठाने वाली कंपनियों में महिंद्रा एंड महिंद्रा 2.59, बजाज फिनसर्व 1.80, टेक महिंद्रा 1.77, पावरग्रिड 1.74, आईटीसी 1.58, रिलायंस 1.36, हिंदुस्तान यूनिलीवर1.36, एनटीपीसी 1.33, मारुति 1.32, टीसीएस 1.30, नेस्ले इंडिया 1.26, टाटा मोटर्स 1.24, इंफोसिस 1.21 और एलटी 1.08 प्रतिशत शामिल रही।

साथ ही टाइटन 0.92, एचसीएल टेक 0.85, एक्सिस बैंक 0.82, बजाज फाइनेंस 0.64, एशियन पेंट 0.55, अडानी पोर्ट्स 0.54, सन फार्मा 0.52, इटरनल 0.35 के शेयर कमजोर रहे।

अस्थिरतेत लाभांशाचा दिलासा

भांडवली गुंतवणूकदारांना आकर्षून घेण्याची कंपन्यांमध्ये स्पर्धा

म. टा. खास प्रतिनिधी, मुंबई

राष्ट्रीय शेअर बाजार आणि मुंबई शेअर बाजार या दोन्ही महत्त्वाच्या शेअर बाजारांत गेल्या काही दिवसांपासून मोठ्या प्रमाणावर चढउतार दिसून येत आहे. असे असतानाही भांडवली गुंतवणूकदारांना आपल्याकडे आकर्षून घेण्यात कंपन्या यशस्वी झालेल्या दिसत आहेत. गुंतवणूकदार टिकून राहावा यासाठी अनेक कंपन्यांनी चालू (मे) महिन्यात मोठ्या प्रमाणावर लाभांशांचे वाटप केले आहे.

गुंतवणूकदारांना प्रतिसमभाग लाभांश देण्यात सर्वच क्षेत्रांतील कंपन्या आघाडीवर आहेत. इन्फोसिस, ओरॅकल फायनान्शियल सर्व्हिसेस, एबीबी इंडिया यांसारख्या कंपन्यांनी चांगले लाभांश देऊ केले आहेत. भारत-पाकिस्तान यांच्यात अशांतता असताना समभागांवर मिळणारा लाभांश हा भांडवली लाभ कमावण्याचा मोठा स्रोत म्हणून समोर आला आहे.

देवनारला २ वर्षांत बायोगॅस प्रकल्प

मृंबई (प्रतिनिधी) :

शहरात तपार होणाऱ्या कपन्याची विल्हेवाट लावण्यसाठी सध्या मुंबई महापालिकेकडे केवाठ कांजुरमार्ग व देवनार असे दोनच डण्पिंग प्राउंड आहेत. मुंबईमध्ये दररेज निर्माण होणाऱ्या एकण सुमारे साढे सहा हजार मेट्रिक टन कचन्यापैको ६०० मेट्रिक टन कचरा देवनार डांग्येग प्राउडवर तर सुमारे पाच हजार मेट्रिक टन कचरा कांजुरमार्ग डांग्यंग ग्राउंडचर जातो. देवनार येथील हम्पिंग ग्राउंडवर दोन वर्षात बायोगॅस प्रकल्प उपारम्यात येगार आहे. महापालिकेच्या अखल्पारीत देवनार येथील भूखंड सवलतीच्या दरात भाडेपट्ट्यान महानगर गॅस कंपनीला देग्याचा निर्णय राज्य सरकारने पेत्रल आहे.

देवनार येथील कचराभूमीवर येत्या दोन वर्षात वायोगीस प्रकल्प उभारण्यात येगार असून त्याकरीता महानगर गॅस कंपनीला कचराभूमीवर काही पूपाग २० वर्षांसाठी पांडवाने देण्यात येणार आहे. या जागेवर कंपनीच्या वतीने एक हजार मेट्टीक टन कथन्यपासून वायोगीस निर्मिती केली जागार आहे. मुंबई महापातिकेच्या अखल्यारीत देवनार येथील भूखंड सवलतीच्या दरात भाडेपद्रयाने महानगराँस अंपनीला देण्याबाबतचा निर्णय राज्य सरकारने घेतला आहे. त्यामुळे तब्बल १८ एकर क्षेत्रफळाची १३२ कोटीची जमीन कंपनीला केवळ १४ लाख रुपयांत

प्रतिदिन १८ टन बायोगॅसची निर्मिती

- कंपनीला मिळणारे वार्षिक उत्पन्न ७३ कोटी ६५ लाख
- मूनागावी एकूण किमत १३२ कोटी ४२ लाख ६२ हजार ९७६ रुपये २० वर्षांकरिता एकक्षित भुईमाडे - १४ लाख ५६ हजार रुपये

असा असेत प्रकल्प - टप्पा १- टप्पा २

- क्षमता- ५०० मेट्रिक टन प्रतिदिन ५०० मेट्रिक टन प्रतिदिन
- क्षेत्रपात- १० एकर भाउतली खर्च- ३०० कोटी- ३१५ कोटी • बायोगॅस निर्मिती- १८ टन प्रतिदिन

दिली जाणार आहे. तर कंपनीच्या तर, कांजुरमार्ग डम्पिंग वार्डड खर्पाने मोफत कचन्याची विल्हेवाट लावली जागार आहे. या जागेवर कंपनीकडून एक हजार मेट्टिक टन कंपन्यापसून बायोगीस निर्मिती केली जागार आहे. तर, कंपनीच्या खर्चाने मोकत पेबील कचन्याची विल्डेबाट लावली जाईल, देवनार इमिंग साइंडच्या अभिनेपैकी ११० हेक्टर जमीन ही धारावी पुनविकास प्रकल्पासाठी देण्यात येणार आहे. त्याकरिता या जमिनीवरील जुना कथरा साफ करण्यात येगार आहे.

संरक्षित वनक्षेत्र घोषित केल्पामुळे ही दोनी डॉम्पंग प्राइंड पालिकच्या हातून जागार आहेत.

मुंबां महापालिका व महानगर गेंस यांच्यत १००० मेट्रिक टन प्रतिदिन बायोगीस कचन्याचस्न प्रकल्पाबाबत जून २०२३ मध्ये सामंत्रस्य करार झाला होता. हा प्रकल्प दोन राज्यांत उधारण्यात येणार आहे. पाचशे मेट्रिक टन प्रतिदिन असी या दोनी प्रकल्यांची प्रत्येकी धमता असेल. पहिल्या

एवर्डी जमीन व दुसऱ्या टप्प्यासाठी ४०,४६८ ची. मी जमीन २५ वर्षांसाठी दिली जागार आहे. त्यापैकी परिल्या राण्यांची जमीन उपलब्ध असून, तिथे लगेचय काम गुरू होक शकणर आहे. दोन वर्षात हा प्रकल्प उभारण्याचे लक्ष आहे. तर, दुसऱ्या राज्यातील जीमनीवरील जुना कचरा साफ करून दिली जाणार असल्याची मारिती पत्तिकेच्या अधिकाऱ्यांनी दिली. त्यामुळे दररोज निर्माण होणाऱ्या कचन्यावर प्रक्रिया करण्यासाठी प्रकल्प कृते उभागयचा असा प्रश्न मुंबई महापालिकेपुढे होता. त्यातच आता देवनारच्या कचराभूमीपैको एकुण १८ एकर जागा ही महानगर गेंस कंपनीला वायोगेंस प्रकल्पामती मवलवीच्य दशत देण्याचा निर्णय राज्य मंत्रिमंडळाने मंगळवारी पेतला आहे. त्यामुळे रोजच्या सुमारे साडेसहा हजार मेट्रिक टन कचन्यांपैकी एक हजार मेंट्रिक टन कचन्याची विल्डेवाट लावण्याचा मार्ग मोकता होगार आहे. यामध्ये प्रामुख्याने कंपनीला मिळणारे वार्षिक उत्पन्न ७३ कोटी ६५ लाख इतके असगार आहे. तसेच भूबागाची पकृण किमत १३२ कोटी ४२ लाख ६२ हाजार ९७६ रूपये इतकी आहे. तसेन २० वर्षांकरिता पक्षित या भूखंडाचे भूरंभाडे हे १४ लाख ६५ हजार रूपये इतके असणार आहे. त्यामुळे एकंदरच हा खायोगीस प्रकल्प देवनार ला २ वर्षात होणार असल्याने कचरा विल्डेकटाची समस्या सुरुपार आहे.

करार रद्द झाल्याने तुर्की कंपनी कोर्टात

लोकमत न्यूज नेटवर्क

मुंबई : छत्रपती शिवाजी महाराज आंतरराष्ट्रीय विमानतळाचे संचालक असलेल्या मुंबई इंटरनॅशनल एअरपोर्ट लि. (एमआयएएल) सोबतचे करार रद्द केल्याच्या विरोधात विमानतळ ग्राऊंड हॅंडलिंग सेवा देणारी तुर्की कंपनी 'सेलेबी'ने उच्च न्यायालयात याचिका दाखल केली आहे.

सेलेबीच्या उपकंपनी असलेल्या

सेलंबी नॅस एअरपोर्ट सर्व्हिसेस इंडियाने या तीन याचिका दाखल केल्या आहेत. सेलंबीच्या इतर दोन उपकंपन्या सेलंबी एअरपोर्ट सर्व्हिसेस इंडिया आणि सेलंबी दिल्ली कार्गो टर्मिनल मॅनेजमेंट इंडिया यांनी दिल्ली

करार रद्द केल्याविरोधात यापूर्वीच दिल्ली हायकोर्टात धाव घेतली आहे. एमआयएएलने नव्या एजन्सीसाठी सुरू केलेली निविदा प्रक्रिया थांबविण्याची मागणीही त्यांनी केली आहे.

विमानतळावरील

मुख्यालय फक्त तुर्कीत!

भारत-पाक संघर्षात तुर्कीने पाकिस्तानचे समर्थन केले. पाकिस्तानला ड्रोनही पुरविले. या पार्श्वभूमीवर भारतीय विमान वाहतूक सुरक्षा नियामक संस्था बीसीएएसने गेल्या गुरुवारी राष्ट्रीय सुरक्षेचे कारण देत तत्काळ सेलेबीची सुरक्षा मंजुरी रह्न केली. त्यानुसार सेलेबीबरोबरील करार रह्न करण्यात आले. मात्र कंपनीने म्हटले की, कोणत्याही मानकांनुसार, कंपनी तुर्कीची नसून तिचे मुख्यालय तुर्कीमध्ये आहे.

पडपट्टी ते स्मार्ट सिटी परिवर्तनात भारत देणार जगाला दिशा

डॉ. अजित चंद्रन पर्यावरणतज्ज्ञ

लोकमत न्यूज नेटवर्क

मुंबई : आंतरराष्ट्रीय नाणेनिधीच्या (आयएमएफ) नुकत्याच प्रकाशित झालेल्या सर्वेक्षणानुसार भारताने जपानसारख्या प्रगत देशाला मागे टाकत जगातील चौथ्या क्रमांकाची सर्वात मोठी अर्थव्यवस्था म्हणून आपले स्थान कायम औद्योगिकीकरणाने तरुणांनी शहरांची वाट धरल्याने तेथे वस्ती दाटीवाटीची होऊन पायाभूत सुविधांवर यायला लागला आणि

शहरीकरणाच्या नव्या समस्या निर्माण झाल्या. त्यातलीच एक प्रमुख समस्या म्हणजे शहरांमधील झोपडपट्ट्या.

आजही देशभरातील सुमारे ६ कोटी जनता स्वच्छ पाणी, स्वतंत्र शौचालय यांसारख्या मूलभूत सुविधांपासून वंचित

शहरांमधील प्रत्येक ६ नागरिकांपैकी एक नागरिक हा झोपडपड़ीमध्ये राहत आहे. हा विरोधाभास कमी करण्यासाठी सरकार धारावी पुनर्विकासासारख्या प्रकल्पांमधन विकासाचे 'नवे मॉडेल' जगासमोर आण् इच्छिते आहे.

धारावी पुनर्विकास प्रकल्पासमोरील आव्हाने

धारावी पुनर्विकासात कोणालाही वगळले जाणार नसुन सर्वांना हक्काचे घर मिळणार आहे. पात्र / अपात्र असा मर्यादित विचार न करता थारावीबाहेरील पुनर्वसनातही दर्जेदार आरोग्य सुविधा, आर्थिक स्वातंत्र्य आणि सामाजिक सलोखा या बाबी लक्षात घेणे गरजेचे आहे.

पुनर्विकास प्रकल्पासाठी वापरल्या जाणाऱ्या देवनार डम्पिंग ग्राउंडच्या जागेवरून मतमतांतरे आहेत. डम्पिंग ग्राउंडचे रूपांतर राहण्यायोग्य जागेत करण्यासाठी शास्त्रीय उपाययोजनांचा वापर आवश्यक आहे. मिथेन वायु, भराव यांसह वेळोवेळी पर्यावरणविषयक निरीक्षण अशा विविध पातळ्यांवर काम करणे

धारावीत तुंबलेली गटारे, सांडपाण्याची गळती आणि दुषित पाण्यामुळे टायफॉइड, कॉलरा यांसारखे आजार होतात. पुनर्विकासात हे लक्षात ठेवणे गरजेचे आहे. रेन वॉटर हार्वेस्टिंग, मॅलनिस्सारण केंद्र, पर्जन्यजलवाहिन्यांचे जाळे उभारणे

धारावीतील कुंभारकाम, चर्मोद्योग, वस्त्रोद्योग आणि पुन:प्रक्रिया केंद्रांचे पुनर्वसन करताना रोजगार आणि पुरवठा साखळी यांना कोणतीही बाधा होणार नाही, याची विशेष काळजी ध्यावी लागेल.

लोकाभिमुख विकास साधला जाईल

- कोणत्याही पुनर्विकास प्रकल्पात जनतेला केवळ लाभार्थी म्हणून न पाहता त्यांना प्रकल्पाचे भागीदार म्हणून सामावून घ्यायला हवे. नियोजनात जनतेचे मत विचारात घेणे आवश्यक आहे.
- तकार निवारण यंत्रणा अत्यावश्यक आहे. 🕄 जीआयएस, कृत्रिम बुद्धिमत्ता (एआय) यांसारख्या तंत्रज्ञानाचा वापर प्रभावीपणे करून स्थानिकांना प्रकल्पाची अद्ययावत माहिती वेळोवेळी द्यायला हवी. यातूनच लोकाभिमुख विकास साधला जाईल.
- पब्लिक प्रायव्हेट पार्टनरशिप (पीपीपी) मॉडेलचा वापर हा जनहितासाठी व्हायला हवा. निविदा, लेखापरीक्षण यातील पारदर्शकतेतून पुनर्विकास प्रकल्पाला जनमानसात स्थान मिळू शकते.
- धारावी पुनर्विकास प्रकल्प शहरी पुनर्विकासाची श्रि धारावा पुनावकार प्रमान ।
 एक लिटमस टेस्ट आहे. ही चाचणी यशस्वी झाली तर शहरी पुनर्विकासाचा एक नवा अध्याय लिहिला जाईल. सर्वांगीण विकासाची संधी देऊन झोपडपद्रचांचा कायापालट करणारे 'धारावी मॉडेल' जगभरात राबविले जाईल.

शताब्दीनगरमधील घरांचा ताबा रखडला, धारावीकरांचा मोर्चा

मुख्य कार्यकारी अधिकारी दालनात ठिय्या आंदोलन

लोकमत न्यूज नेटवर्क

मुंबई: धारावीतील शताब्दीनगर येथे राहणाऱ्या अनेक रहिवाशांची घरे बांधून तयार आहे. मात्र, घरांचा ताबा देण्यास म्हाडा दिरंगाई करत आहे. याबाबत ठोस आश्वासन मिळेपर्यंत इथून जाणार नाही, अशी भूमिका घेत मुंबई काँग्रेसच्या अध्यक्षा खा. वर्षा गायकवाड यांनी धारावी पुनर्वसन प्रकल्पाचे (डीआरपी) मुख्य कार्यकारी अधिकारी एस.व्ही.आर. श्रीनिवास यांच्या दालनात गुरुवारी ठिय्या आंदोलन केले.

शताब्दीनगरमधील पूर्ण असलेल्या घरांचा ताबा हक्कदारांना देण्यासाठी अनेकदा डीआरपीचे सीईओ श्रीनिवास यांच्याकडे तक्रारी दाखल करण्यात आल्या होत्या. मात्र, त्यावर निर्णय न घेता गेल्याच आठवड्यात रहिवाशांच्या घरांवर नोटीस चिकटविण्यात आल्या होत्या. यामध्ये त्यांना पुन्हा पात्रता सर्व्हेत सहभागी होण्यास सांगण्यात आले होते. विकासकाच्या फायद्यासाठी मूळ

येत्या ४८ तासांमध्ये निर्णय घेण्याचे आश्वासन

महाडा व डीआरपी यांच्यात चर्चा करून ४८ तासांमध्ये निर्णय घेऊन कागदपत्र वगैरे काही बाबी तपासून घरांच्या चाव्या दिल्या जातील, असे आश्वासन डीआरपीकडून देण्यात आले आहे. ४८ तासानंतर काही झाले नाही तर पुन्हा रस्त्यावर उतरू.

उ वर्षांपूर्वीच येथील ३५० घरें तयार झाली आहेत. मात्र, अदानीकडून म्हाडाला पैसे येणे बाकी असल्यामुळे घरांचा ताबा दिला गेला नाही. हा धारावीकरांसाठी मोठा धडा आहे. ही लढाई सुरूच रहाणार असून धारावीकरांना संघर्ष आता आपल्या हातात घ्यावा लागणार आहे, असे खा. गायकवाड यांनी सांगितले.

हक्कदारांना त्यांच्या घरांपासून वंचित ठेवण्यासाठी ही सगळी कारवाई मुद्राम केली जात असल्याचा आरोप करत खा. गायकवाड यांच्या नेतृत्वाखाली धारावीकरांनी म्हाडा भवनातील डीआरपी कार्यालयावर मोर्चा काढला. यावेळी आमदार डॉ. ज्योती गायकवाड. आ. अस्लम शेख उपस्थित होते.

બીજા સ્ટેશન સાથે ધારાવી મુખ્ય મેટ્રો ઈન્ટરચેન્જ બનશે

અમારા પ્રતિનિધિ તરફથી મુંબઈ, તા. ૨૨ : ધારાવી જે પહેલાંથી જ નિર્માણાધીન મેટ્રોલાઈન–૩ (કોલાબા – બીકેસી - આરે) દ્વારા મેટો નેટવર્કનો ભાગ છે, તે ટુંક સમયમાં બીજા મેટ્રો સ્ટેશન સાથે એક મુખ્ય ઈન્ટરચેન્જ બની શકે છે.

ધારાવી રિડેવલપમેન્ટ પ્રોજેક્ટ (ડીઆરપી)ના ભાગ ૩પે મેટ્રોલાઈન-૧૧ (વડાલા -સીએસએમટી)ને ધારાવી સધી લંબાવવાની યોજના બનાવવામાં આવી રહી છે, જે એક મહત્ત્વપૂર્ણ મેટ્રો ઈન્ટરચેન્જ માટેનો પાયો નાખશે, જેનાથી સમગ્ર મુંબઈમાં પૂર્વ-પશ્ચિમ અને ઉત્તર-દક્ષિણ કનેક્ટિવિટી વધારી શકે છે.

બે સ્ટેશનો હશે, જેમાં એક સાયન ખાતે હશે.

સૂત્રોએ જણાવ્યું હતું કે, મેટોલાઈન-૧૧ને વડાલાથી પશ્ચિમ તરક લંબાવવામાં આવે તેવી શક્યતા છે. જેથી ધારાવીમાં હાલના મેટોલાઈન-૩ સ્ટેશન સાથે જોડાઈ શકે.

મુંબઈ મેટો રેલ કૉર્પોરેશન લિમિટેડ (એમએમઆરસીએલ) જે મેટ્રો-૩ પ્રોજેક્ટનું અમલીક્સ્ણ કરી રહી છે. તેને વડાલાથી હતાત્મા ચૌક સુધી ભાયખલા થઈને ચાલતી મેટ્રોલાઈન-૧૧ जनाववा भारे पश नियुक्त કરવામાં આવી છે. ૧૬,૦૦૦ કરોડ રૂપિયાના ખર્ચે તૈયાર થયેલો

ધારાવી સુધીના વિસ્તરણમાં આ પ્રોજેક્ટ હાલમાં આયોજનના તબક્કામાં છે.

> વર્ષોથી ધારાવીમાં યોગ્ય કનેક્ટિવિટીનો અભાવ છે. અહીં મેટો હબનો અર્થ એ છે કે, શહેરમાં નોકરીઓ, કૉલેજો અને હૉસ્પિટલો સધીની પહોંચ અહીંના નાગરિકો માટે સરળ બનશે.

> મેટ્રો ઈન્ટરચેન્જ હબ તરીકે ધારાવી શહેર માટે એક કેન્દ્રીય ગતિશીલતા કેન્દ્ર તરીકે સેવા આપશે.

> ધારાવી સેન્ટલ મેટો સ્ટેશન બનાવવાનો પ્રસ્તાવ છે, જે બધી દિશાઓના મુસાફરો માટે મુખ્ય ઈન્ટરચેન્જ પોઈન્ટ બની શકે છે. એમ આ પ્રોજેક્ટ સાથે સંકળાયેલાં સૂત્રોએ જણાવ્યું હતું.

विमानन सुरक्षा के लिए 'अभूतपूर्व' खतरे को देखते हुए बिना किसी चेतावनी के तुर्किये की सेलेबी कंपनी को दी गई सुरक्षा मंजूरी रद्द की गई। केंद्र सरकार ने वृहस्पतिवार को उच्च न्यायालय में अपने फैसले का बचाव करते हुए यह दलील दी।

न्यायमृतिं सचिन दत्ता की पीठ के समक्ष केंद्र का पक्ष रखते हुए सॉलिसिटर जनरल तुषार मेहता ने कहा, ''अभृतपूर्व समय में कार्रवाई करने से पहले सुनवाई या कारण बताने से उद्देश्य नष्ट हो जाता है और राष्ट्रीय सुरक्षा के मामलों में, या तो हम कुछ करते हैं या नहीं करते हैं, लेकिन बीच में कुछ नहीं है।'' सेलेबी एयरपोर्ट सर्विसेज इंडिया प्राइवेट लिमिटेड और सेलेबी दिल्ली कार्गों टर्मिनल मैनेजमेंट इंडिया प्राइवेट लिमिटेड ने केंद्र के कदम के खिलाफ अदालत का दरवाजा खटखटाया है।

नागरिक उड्डयन सुरक्षा व्यूरो (बीसीएएस) ने 15 मई को सुरक्षा मंजूरी रह

कर दी थी। इससे कुछ दिन पहले तुर्किये ने पाकिस्तान का समर्थन किया था और पड़ोसी देश में आतंकवादी शिविरों पर भारत के हमलों की निंदा की थी।

मेहता ने कहा कि याचिकाकर्ता जमीनी और कार्गो संचालन में शामिल थे, तथा कई हवाई अड्डों पर विमानों तक उनकी पहुंच थी और कार्गों की जांच भी करती थी, जो वीआईपी आवागमन को भी संभालते थे, जिसके कारण अधिकारियों को कार्रवाई करने के लिए संबंधित कानून के तहत अपनी 'पूर्ण शक्तियों' का प्रयोग करना पड़ा।

मेहता ने कहा, ''न्यायालय एक ऐसी अनोखी स्थिति से निपट रहा है, जहां विभिन्न हवाई अड्डॉ पर देश की नागरिक उड्डयन सुरक्षा को संभावित खतरा है... जब देश को कभी-कभी ऐसी स्थिति का सामना करना पड़ता है, जो इतनी अभूतपूर्व होती हैं कि न तो सुनवाई का अवसर संभव होता है, क्योंकि देरी से ही कार्रवाई का उद्देश्य विफल हो सकता है और न ही कार्रवाई के लिए कारण बताना संभव होता है, क्योंकि इससे फिर से कार्रवाई का उद्देश्य विफल हो जाता है, तब पूर्ण शक्तियां आती हैं।"

उन्होंने कहा, ''सुरक्षा मंजूरी देते समय पूर्ण शक्ति बरकरार रखी जाती है। जमीनी संचालन अनुबंध किसी भी समय रह किया जा सकता है।'' मेहता ने कहा कि पक्षों के बीच हुए समझौते में अधिकारियों को सुरक्षा मंजूरी रह करने का अधिकार दिया गया था और याचिकाकर्ताओं ने इसे स्वीकार किया था। केंद्र द्वारा सीलबंद लिफाफे में अदालत को कुछ 'सूचनाएं' उपलब्ध कराने पर याचिकाकर्ताओं की आपित के संबंध में उन्होंने कहा कि राष्ट्रीय सुरक्षा की चिंताएं जानने के अधिकार से अधिक महत्वपूर्ण हैं।

અમદાવાદ પાસપોર્ટ ઓફિસના ડિસ્પેચ ડિપાર્ટમેન્ટના બારકોડિંગ સિસ્ટમમાં ખામી સર્જાતા ૧,૮૦૦ પાસપોર્ટ અટવાચા

(અમારા પ્રતિનિધિ તરફથી)

અમદાવાદ: શહેરના ગુલબાઈ ટેકરા વિસ્તારમાં આવેલી પ્રાદેશિક પાસપોર્ટ કચેરીમાં તાજેતરમાં નવું વર્ઝન અમલી બનાવવામાં આવ્યું હતું. જે બાદ તેના ડિસ્પેચ ડિપાર્ટમેન્ટના બારકોર્ડિંગ સિસ્ટમમાં ટેકિનકલ ખામી સર્જાતા ૧૮૦૦ પાસપોર્ટ અટવાયા હતા. જે અરજદારોએ તત્કાલ પાસપોર્ટ માટે અરજી કરી હતી તેમને પણ ચારથી પાંચ દિવસે પાસપોર્ટ મળ્યા હતા. જેના કારણે ઓન એરાઇવલ વિઝા લઇ ફરવા જનારા અરજદારો મુશ્કેલીમાં મુકાયા હતા.

સૂત્રોના જણાવ્યા મુજબ, ડિસ્પેચ વિભાગ સ્પીડ પોસ્ટ મારફતે પાસપોર્ટ મોકલે છે. પાસપોર્ટનું નવું વર્ઝન અપડેટ થઈ રહ્યું છે ત્યારે ૧૮૦૦ જેટલા અરજદારોના પાસપોર્ટના કવર પર એડ્રેસ બારકોડ લગાવાયા હતા. જેમાં ભૂલ જણાઈ હતી. જેના કારણે અરજદારોના સાચા સરનામે પાસપોર્ટ ડિસ્પેચ થયા નહોતા. અરજદારો પાસપોર્ટ સ્ટેટસ ચેક કરતા હતા ત્યારે અમદાવાદના બદલે બહાર ગામનું બતાવતા હતા, જેથી તેઓ પણ મૂંઝાયા હતા.

સૂત્રોના કહેવા પ્રમાણે, પોસ્ટ વિભાગે ૧૮૦૦ પાસપોર્ટ અમદાવાદ પ્રાદેશિક પાસપોર્ટ ઓફિસ ખાતે મોકલી આપ્યા હતા અને તેના પર સાચું સરનામું છે કે નહીં તે ચેક કરવામાં આવી રહ્યું છે. પાસપોર્ટ કચેરીના ડિસ્પેચ ડિપાર્ટમેન્ટની બારકોર્ડિંગ સિસ્ટમમાં ટેકનિકલ ખામી સર્જાતાં અનેક લોકોએ તેમના વિદેશ પ્રવાસ કેન્સલ અથવા રિશિડ્યુલ કરવાની ફરજ પડી હતી.

मिठागर जिमनीगवरून काँग्रेसचा दुटप्पीपणा

सत्तेत असताना मांडलेल्या पर्यायाला आता विरोध

मुंबई, दि. २२ : विशेष प्रतिनिधी

धारावी पुनर्वसनासाठी मिठागर जमिनीचा वापर करण्यास काँग्रेसने केलेला विरोध हा निव्यळ राजकीय दुटप्पीपणाचा सर्वोत्तम नमुना आहे. सता असताना हा पर्याय काँग्रेसनेच मांडला होता. मात्र, आता सत्तेपासून दूर असल्यामुळे ही अत्यंत मयादित संसाधन कविस हा पर्याय नाकारत आहे. मुंबई कविसच्या अध्यक्षा आणि खा. वर्षा गायकवाड आणि आ. ज्योती गायकवाड यांनी अलीकडे धारावीकरांसाठी फक्त 'इन-सिटू पुनर्वसन'च हवे, अशी मागणी केली आहे. मात्र, या मागणीच्या विरोधात तथ्य आणि इतिहास हा स्वतः कप्रिसच्या कारकिर्दीतच सापडलो. दि, ४ फेब्रुवारी २००४ रोजी काँग्रेसच्या नेतृत्वाखालील महाराष्ट्र सरकारने काइलेल्या शासकीय निर्णयात स्पष्ट नमूद केले होते की, धाराबीतील कुटुंबापैकी जर एकाहन अधिक पात्र सदस्य असतील किंवा जानेअभावी 'इन-सिटू पुनर्वसन' शक्य नसेल, तर त्यांचे पुनर्वसन मिठागरे (सॉल्ट पॅन) आणि अन्य शासकीय जमिनींवर केले जाईल. इतकेच नयहे, तर दि. २७ सप्टेंबर २०११ रोजी मुंबईत झालेल्या 'शहरी गरिबी निर्मूलन' व 'राजीव आवास योजना' विषयक राष्ट्रीय परिषदेत काँग्रेसचे वरिष्ठ नेते आणि तत्कालीन मुख्यमंत्री पृथ्वीराज चव्हाण यांनी स्वतः

मिठागर अमिनीचा वापर करण्याचा मुद्रा गांडला होता. त्यावेळी त्यांनी असे स्पष्टपणे म्हटले होते की, "मुंबईत जमीन आहे, जर 'सॉल्ट पॅन जमिनी' विकासासाठी खुल्या केल्या, तर मुंबईवरील जमीन तजाव काही अंशी कमी होईल."

'प्रेस इन्फॉर्मेशन ब्युरो'च्या अधिकृत वेबसाईटवर ही माहिती उपलब्ध आहे. आज या इतिहासाकडे काँग्रेसचे नेते पाठ निशवत आहेत. धारावीसारख्या दाट वस्ती असलेल्या भागात जिथे दहा लाखांहून अधिक नागरिक राहतात. तेथे सवीना फक्त मूळ जागीच पुनर्वसित करणे भौगोलिकदृष्ट्या शक्य नाही. त्यामुळे मिठागर जमीन आणि इतर शासकीय जमिनींचा पर्याय हा आवश्यकव आहे. माञ्ज, गायकवाड भगिनी सत्तेबाहेर असताना लोकामावना भडकवण्याचा प्रयत्न करीत आहेत. हे करत असताना त्यांनी स्वतःच्या पक्षाच्या धोरणांना व इतिहासालाही नाकारले असल्याचे वरील उदाहरणातून स्पष्ट दिसते आहे.

अडाणी पोर्ट्स को 1289 करोड़ का ग्लोबल लोन मिला भ्रष्टाचार मामले में क्लीन चिट के बाद पहला लोन

नई दिस्त्री। गौतम अडाणी की कंपनी अडाणी पोर्ट्स एंड स्पेशल इकोनॉमिक जोन को सिंगापुर की डीबीएस रूप से 150 मिलियन डॉलर (करीब 1289 करोड़ रूपए) का लोन मिला है। ब्लूमबर्ग की रिपोर्ट के मुताबिक यह लोन 4 साल के लिए लिया गया है।भ्रष्टाचार मामले में क्लीन चिट मिलने के अडाणी रूप की किसी कंपनी को मिलने वाला ये पहला ग्लोबल लोन है। कंपनी इस कर्ज का इस्तेमाल कैपिटल एक्सपेंडिचर के लिए करेगी।

6 हजार करोड़ के लोन के लिए बातचीत कर रही कंपनी

अदाणी ग्रूप अपने एयरपोर्ट बिजनेस के लिए बार्कलेज, फर्स्ट अबु धाबी बैंक और स्टैंडर्ड चार्टर्ड से 750 मिलियन डॉलर (करीब 6450 करोड़ रुपए) के लोन पर भी बातचीत कर रहा है।

पिछले महीने कंपनी ने 750 मिलियन डॉलर का बॉन्ड इश्यू करके

एक कंस्ट्रक्शन कंपनी को खरीदा था। इस बॉन्ड में ब्लैकरॉक जैसी दिग्गज कंपनी ने भी निवेश किया था।

रिश्चत मामले में अडाणी को क्लीन चिट मिली थी

इससे पहले अडाणी ग्रूप के चेयरमैन गौतम अडाणी और भतीजे सागर अडाणी के खिलाफ भ्रष्टाचार के आरोपों पर अमेरिकी जस्टिस डिपार्टमेंट की जांच में कोई सबूत नहीं मिले थे। अडानी ग्रीन एनर्जी ने बयान में कहा कि चेयरमेन सहित कंपनी के टॉप अधिकारियों की स्वतंत्र जांच में कोई अनियमितता नहीं मिली।

दरअसल, नवंबर 2024 में अडाणी समेत 8 लोगों पर सरकारी अधिकारियों को 250 मिलियन डॉलर यानी करीब 2,029 करोड़ रुपए की रिश्वत देने का आरोप लगाया गया था।

अडाणी ग्रुप की कंपनी अडाणी पोर्ट्स एंड स्पेशल इकोनॉमिक जोन ने वित्त वर्ष 2024-25 की चौथी तिमाही में 8,770 करोड़ रुपए की कुल कमाई की है। यह पिछले साल के मुकाबले 21.81त्र ज्यादा है। पिछले साल की समान तिमाही में कंपनी ने 7,200 करोड़ रुपए की कमाई की थी।

कुल कमाई में से कर्मचारियों की सैलरी, टैक्स, कच्चे माल की कीमत जैसे खर्चे निकाल दें तो कंपनी के पास 3,014 करोड़ रुपए शुद्ध मुनाफें (कंसॉलिडेटेड नेट प्रॉफिट) के रूप में बचे। सालाना आधार (2024 के जनवरी-मार्च) पर यह 47.74 प्रतिशत ज्यादा रहा। वहीं, पिछली तिमाही यानी अक्टूबर-दिसंबर के मुकाबले यह 20 प्रतिशत बढ़ा है।

तुर्किये की कंपनी बॉम्बे हाईकोर्ट पहुंची

मुंबई, एजेंसी। हवाई अड्डे पर जमीनी रखरखाव करने वाली तुर्किये की प्रमुख कंपनी सेलेबी की अनुषंगी ने अपनी सुरक्षा मंजूरी रद्द होने और मुंबई इंटरनेशनल एयरपोर्ट लि. (एमआईएएल) के साथ अनुबंध समाप्त होने के खिलाफ बॉम्बे हाईकोर्ट का दरवाजा खटखटाया है।

मुंबई हवाई अड्डे पर परिचालन करने वाली सेलेबी नैस एयरपोर्ट सर्विसेज इंडिया ने बुधवार को तीन याचिकाएं दायर कीं। याचिकाओं में केंद्र सरकार के फैसलों को रह करने की मांग करते

सरकार ने फैसले का बचाव किया

नई दिल्ली, प्रमुख संवाददाता। दिल्ली हाईकोर्ट ने गुरुवार को नागरिक उड्डयन सुरक्षा ब्यूरो द्वारा अपनी सुरक्षा मंजूरी रद्द करने के खिलाफ सेलंबी एयरपोर्ट सर्विसेज की याचिका पर विस्तार से सुनवाई की। केंद्र का प्रतिनिधित्व कर रहे सॉलिसिटर जनरल तुषार मेहता ने तर्क दिया कि सरकार की पूर्ण अधीक्षण शक्तियां राष्ट्रीय और हवाईअड्डे की सुरक्षा पर लागू होती हैं। उन्होंने मामले को सुई जेनेरिस स्थिति बताया, जिसमें कई हवाईअड्डों पर संभावित खतरों के कारण सावधानीपूर्वक न्यायिक समीक्षा की आवश्यकता है।

हुए कहा गया है कि ये मनमाने और गैरकानुनी हैं।

सेलंबी के पास के पास 59% हिस्सेदारी: असेलंबी के पास सेलंबी नैसएयरपोर्ट सर्विसेज इंडिया प्रालि. की 59 प्रतिशत हिस्सेदारी है। मालूम हो कि भारत-पाक संघर्ष के दौरान तुर्किये ने पाकिस्तानको समर्थनदिया था, जिससे उसके खिलाफ भारत में हो रही तीखी प्रतिक्रिया के बीच, विमानन सुरक्षा नियामक बीसीएएस ने पिछले सप्ताह 'राष्ट्रीय सुरक्षा' के आधार पर सेलेबी की भारतीय इकाई की सुरक्षा मंजूरी तत्काल प्रभाव से रह कर दी थी।

मुंबई, एजेंसी। हवाई अड्डे पर जमीनी रखरखाव करने वाली तुर्कियेकी प्रमुख कंपनी सेलेबी की अनुषंगी ने अपनी सुरक्षा मंजूरी रद्द होने और मुंबई इंटरनेशनल एयरपोर्ट लि. (एमआईएएल) के साथ अनुबंध समाप्त होने के खिलाफ बॉम्बे हाईकोर्ट का दरवाजा खटखटाया है।

मुंबई हवाई अड्डे पर परिचालन करने वाली सेलेबी नैस एयरपोर्ट सर्विसेज इंडिया ने बुधवार को तीन याचिकाएं दायर कीं। याचिकाओं में केंद्र सरकार के फैसलों को रह करने की मांग करते

सरकार ने फैसले का बचाव किया

नई दिल्ली, प्रमुख संवाददाता। दिल्ली हाईकोर्ट ने गुरुवार को नागरिक उड्डयन सुरक्षा ब्यूरो द्वारा अपनी सुरक्षा मंजूरी रद्द करने के खिलाफ सेलेबी एयरपोर्ट सर्विसेज की याचिका पर विस्तार से सुनवाई की। केंद्र का प्रतिनिधित्व कर रहे सॉलिसिटर जनरल तुषार मेहता ने तर्क दिया कि सरकार की पूर्ण अधीक्षण शक्तियां राष्ट्रीय और हवाईअड्डे की सुरक्षा पर लागू होती हैं। उन्होंने मामले को सुई जेनेरिस स्थित बताया, जिसमें कई हवाईअड्डों पर संभावित खतरों के कारण सावधानीपूर्वक न्यायिक समीक्षा की आवश्यकता है।

हुए कहा गया है कि ये मनमाने और गैरकाननी हैं।

सेलंबी के पास के पास 59% हिस्सेदारी: असेलंबी के पास सेलंबी नैसएयरपोर्ट सर्विसेज इंडिया प्रालि. की 59 प्रतिशत हिस्सेदारी है। मालूम हो कि भारत-पाक संघर्ष के दौरान तुर्किये ने पाकिस्तान को समर्थन दिया था, जिससे उसके खिलाफ भारत में हो रही तीखी प्रतिक्रिया के बीच, विमानन सुरक्षा नियामक बीसीएएस ने पिछले सप्ताह 'राष्ट्रीय सुरक्षा' के आधार पर सेलेबी की भारतीय इकाई की सुरक्षा मंजूरी तत्काल प्रभाव से रह कर दी थी।

दिल्ली की 11 फ्लाइट जयपुर डायवर्ट, 5 उड़ान घंटों लेट

जयपुर का मौसम बिगड़ा तो चंडीगढ की फ्लाइट दिल्ली भेजी

जयपुर मौसम खराब होने से बुधवार देर शाम दिल्ली की 11 फ्लाइट्स डायवर्ट होकर जयपुर पहुंची तो रात को जयपुर की फ्लाइट को दिल्ली डायवर्ट किया गया। एयर इंडिया की चेन्नई, मुंबई, कोलकाता, अकासा एयर की हैदराबाद, इंडिगो की अहमदाबाद, कोलकाता,

लखनऊ, मुंबई, चेन्नई और बेंगलुरु से दिल्ली आई फ्लाइटें जयपुर आई। इंडिगो की चंडीगढ़ से जयपुर आ रही फ्लाइट तेज आंधी के कारण दिल्ली डायवर्ट कर दी गई। वहीं, जयपुर एयरपोर्ट पर इंडिगो की जयपुर-कोलकाता फ्लाइट 3:40 घंटे, जयपुर-अहमदाबाद फ्लाइट 1:15 घंटे, जयपुर-अहमदाबाद फ्लाइट 1:25 घंटे और जयपुर-दिल्ली फ्लाइट 50 मिनट

लेट रवाना हुई। दिल्ली गई फ्लाइट देर रात करीब साढ़े तीन बजे जयपुर पहुंची। इस दौरान यात्रियों को दिल्ली एयरपोर्ट पर परेशानी का सामना करना पड़ा।

चंडीगढ़ और गाजियाबाद की फ्लाइट रद्दः गुरुवार को संचालन कारणों के चलते इंडिगो की जयपुर-चंडीगढ़ फ्लाइट और एयर इंडिया एक्सप्रेस की जयपुर-गाजियाबाद फ्लाइट को रद्द किया गया।

विमानतळ करार रद्द करण्याविरोधात तुर्कस्तान कंपनी उच्च न्यायालयात

• मुंबई : मुंबई आंतरराष्ट्रीय विमानतळ लिमिटेडशी विमानतळ ग्राऊंड हॅडलिंग सेवा पुरवण्याशी संबंधित करार आणि सुरक्षा मंजुरी रद्द करण्याच्या केंद्र सरकारच्या निर्णयाविरोधात तुर्कस्तानातील प्रसिद्ध सेलेबी कंपनीच्या उपकंपनीने उच्च न्यायालयात धाव घेतली.

मुंबई विमानतळावर कार्यरत असलेल्या सेलेबी नास एअरपोर्ट सर्व्हिसेस इंडियाने केंद्र सरकारच्या निर्णयाला विविध तीन याचिकांतन आव्हान दिले आहे. केंद्र सरकारचा निर्णय मनमानी आणि बेकायदेशीर असल्याचा दावा करून तो रद्द करण्याची प्रमुख मागणी कंपनीने केली आहे. या याचिकांवर शुक्रवारी तातडीची सुनावणी होण्याची शक्यता आहे. सेलेबी नास एअरपोर्ट सर्व्हिसेस इंडियाचे ५९ टक्के भांडवल सेलेबीकडे आहे. भारतीय नागरी विमान वाहतुक मंत्रालयांतर्गत नागरी उड्डाण सुरक्षा विभागातर्फे दिली जाणारी सरक्षा मंजरी रह करण्याचा प्रशासकीय

प्रकरण काय?

भारताने पाकिस्तानविरुद्ध 'ऑपरेशन सिंदुर' राबवल्यानंतर तुर्कस्थानने पाकिस्तानला पाटिंबा दर्शवला होता. त्या पार्श्वभूमीवर भारताच्या विमान वाहतूक सुरक्षा नियामक विभागाने राष्ट्रीय सुरक्षेच्या कारणास्तव सेलेबीच्या भारतीय शाखा असलेल्या सेलेबी एअरपोर्ट सर्व्हिसेस इंडियाची सुरक्षा मंजुरी रद्द केली. हा निर्णय सेलेबीच्या भारतातील इतर सहयोगी किंवा उपकंपन्यांना देखील लागू केल्यामुळे भारतातील विविध विमानतळांवर सेवा देणाऱ्या सेलेबीच्या उपकंपन्यांशी केलेले करार रद्द करण्यात आले . त्या निर्णयाला कंपनीने उच्च न्यायालयात आव्हान दिले आहे .

निर्णय रद्द करावा. तसेच याचिकेवर ऑतिम निकाल दिला जाईपर्यंत या निर्णयाला स्थगिती देण्याची मागणी कंपनीने केली आहे.
