# Group Refinances \$750 M Debt of Mumbai Airport Unit

Mumbai: Adani Airports Holdings (AAHL) has secured a \$750-million refinance of debt at Mumbai International Airport (MIAL) backed by international funds such as Apollo, BlackRock and Standard Chartered, people aware of the matter told ET.

The deal refinances an older senior secured private placement note taken from Apollo in 2022. The new notes maturing in July 2029 are priced at 6.9%. This will be India's first investment graderated private bond issuance in the airport infrastructure sector. The transaction structure also allows the operator to raise an additional \$250 million if requi-

red. Sources said the company may look at other investors to raise cheaper funds for the remaining \$250 million.

One of the main lenders has been Athene, an Apollo unit. Other major lenders included Black-

Rock-managed funds, Standard Chartered, Metlife, FWD Insurance, among others.

As the new notes are investment grade, the covenants are also lighter, according to sources. "We expect MIAL's bond holders to benefit from a robust cash flow waterfall mechanism and covenants that restrict cash upstreaming to shareholders and limit debt," as per Fitch Ratings.

## AAHL Refinances \$750 m Debt of Mumbai Airport

Mumbai: Adani Airports Holdings (AAHL) has secured a \$750-million refinance of debt at Mumbai International Airport (MIAL), backed by international funds such as Apollo, BlackRock and Standard Chartered, people aware of the matter told ET.

The deal refinances an older senior secured private placement note taken from Apollo in 2022. The new notes maturing in July 2029 are priced at approximately 6.9%. This will be India's first investment grade (IG) rated private bond issuance in the airport infrastructure sector. The transaction structure also allows the operator to raise an additional \$250 million if required. Sources said that the company may look at other investors to raise cheaper funds for the remaining \$250 million.

One of the main lenders has been Athene, an Apollo unit. Other major lenders included Black-Rock-managed funds, Standard Chartered, Metlife, FWD Insurance among others. As the new notes are investment grade, the covenants are also lighter, according to sources.

"We expect MIAL's bond holders to benefit from a robust cash flow waterfall mechanism and covenants that restrict cash

upstreaming to shareholders and limit debt," according to Fitch Ratings.

The move comes at a time when Adani Airports is pushing ahead with the airport's modernization and expansion programme. The funding provides financial flexibility to support these plans while addressing existing debt obligations.

Apollo, in a statement, said the deal builds on its "strong existing partnership with Adani" and delivers a "high-grade capi-

tal solution to MIAL." Mumbai Inter-

of Adani Enterprises. MIAL is a public-private partnership (PPP) between AAHL, which holds a 74% stake, and the Airports Authority of India, which holds remaining 26%.

"This successful issuance validates the strength of the Adani Airports' operating platform, the robust fundamentals of Mumbal International Airport, and our commitment to sustainable infrastructure development," said Arun Bansal, CEO, Adani Airports Holdings.—Our Bureau

## Adani group eyes 100 Gw power capacity by 2030

Plans 10Gw integrated solar module manufacturing facility by FY27

#### PRACHI PISAL

Mumbai, 24 June

Adani Group aims to set up 100 Gw of power capacity by 2030 as part of its \$100 billion investment plans that will "break all records", said the airports-to-energy conglomerate on Tuesday.

Adani Green, the group's renewables company, aims to achieve 50 Gw (gigawatt) of capacity and thermal power producer Adani Power 31 Gw. The rest of the capacity will come from pumped hydropower.

As of FY25, the group's thermal power capacity stood at 16.6 Gw and renewable capacity at almost 15.2 Gw.

"Our capital investment across businesses is set to break all records. These are not just investments in our group, but investments in the possibilities for doing our part to build India's infrastructure," said Gautam Adani, chairman of Adani Group, at its annual general meeting.

The group will invest \$15-20 billion annually in its companies, including airports. Adani Energy Solutions has got transmission orders of around ₹44,000 crore in FY25 and is executing ₹13,600 crore worth of smart metering projects.

Adani New Industries, which integrates renewable energy, hydrogen electrolyser and downstream anchor projects, aims to expand its solar module manufacturing lines and is expected to have a 10 GW integrated solar module manufacturing facility by FY27.

The ports business handled 450 million metric tonnes (mt) of cargo in FY25, and the group is creating a transport utility by venturing into marine, trucking, warehousing, and freight forwarding.

"In line with the Prime Minister's Gati Shakti Mission, our logistics assets are

powering MSME exports and reducing friction to increase India's global competitiveness," said Gautam Adani.

Adani Ports aims to handle 1 billion tonnes per annum of cargo by 2030, with a planned capital expenditure of ₹50,000 crore between FY25 and FY30. Its domestic capacity stands at 633 mtpa and operates overseas ports in Haifa (Israel), Dar es Salaam Port (Tanzania), Abbot Point (Australia) and Colombo West International Terminal (Sri Lanka).

#### Global turbulence

"The world around us has changed dramatically over the past 12 months. Over 60 nations went to the polls. Borders were redrawn, alliances tested, and economies shaken. In the Middle East, war continued to cast shadows on energy and logistics. In Europe, economic confidence stumbled. The United States had its own challenges. And yet, in the middle of all this noise, India stood apart and grew faster than any other major nation," Adani said.

"When it comes to Adani Defence – Operation Sindoor called, and we delivered. Our drones became the eyes in the skies as well as the swords of attack, and our anti-drone systems helped protect our forces and citizens. As I have always believed — we don't operate in safe zones. We operate where It matters — where India needs us the most."

The group's natural resources business produced 47 million tonnes of coal and iron ore in FY25 and is estimated to achieve over 30 per cent growth by FY26.

For its cement business, the group achieved 72 per cent of its targeted capacity of 140 million tonnes per annum (mtpa) in FY25.

It crossed the 100 mtpa mark during the year, with the full target expected by FY27-28.

In FY25, Adani Airports handled 94 million passengers and completed the first test flight at the greenfield Navi Mumbai Airport, worth \$2.1 billion.

#### Data centres, Dharavi project

Gautam Adani said India needs to stay competitive and secure while building data centres.

"We have projects exceeding hundreds of MW in various stages of construction with the global hyperscalers – and have also launched gigawatt-scale renewablepowered data centre campuses across multiple states."

A dani Group has raised around \$750 million from global investors led by Apollo Global Management Inc. to refinance existing debt for India's second largest airport.

Mumbai International Airport Ltd (MIAL), a unit which operates Chhatrapati Shivaji Maharaj International Airport in Mumbai, will use the proceeds to refinance debt raised in 2022, the New York-based alternative asset manager said in a statement. The structure also allows for up to \$250 million in additional funding for capital expenditure and capacity expansion needs.

The bonds will offer about 6.9% over the four-year tenor, with the pricing linked to a gauge of US treasuries with a similar term, according to people familiar with the matter, who asked not to be identified because the matter is confidential.

#### **ADANI AIRPORT HOLDINGS**

(AAHL), the country's second largest airport operator (by passengers serviced) will be the first of the several subsidiaries to get demerged from parent Adani Enterprises, a senior official said on Tuesday.

Speaking to shareholders at the 33rd annual general meeting of Adani Enterprises, its CFO, Jugeshinder Singh said, "The asset that could be ready for a potential demerger under our risk and governance guidelines, most likely would be airports."

With seven airports under operation, including international airports at Mumbai, Ahmedabad and Lucknow and an eighth under construction which is at Navi Mumbai, AAHL is just behind GMR Airports, the country's largest airport operator.

"From our own assessment, we think that this would be ready (for demerger) by 2027-28. However, these decisions are left to the boards of the respective companies and of the management at that point in time," Singh added.

The Adani Group had earlier spoken about raising capital for AAHL through an initial public offering. AAHL, which holds controlling equity in unlisted companies that manage and run its airports, is a 100% subsidiary of Adani Enterprises.

"(The airports business) is also one of the assets that

On Tuesday, AAHL said it secured \$1 billion financing through a project finance structure for the Mumbai International Airport (MIAL).

The transaction involves issuance of \$750 million notes maturing in July 2029 which shall be used for refinancing. The financing structure also includes provision to raise an additional \$250 million.

"This framework will provide enhanced financial flexibility for the capital expenditure programme of MIAL for development, modernisation, and capacity enhancement," AAHL said in a release.

The transaction was led by Apollo-managed funds, with participation from a syndicate of leading institutional investors and insurance companies, which included Black-Rock-managed funds, Standard Chartered among others.

AAHL served 94 million passengers in FY25, a growth of 7% compared to FY24.

It aims to nearly triple its passenger handling capacity to 300 million per annum by 2040 from 110 million currently through a phased development plan.

During FY25, AAHL saw a 27% jump in revenues to ₹10,224 crore while earnings before interest, tax, depreciation and amortisation rose 43% to ₹3,480 crore, as compared to FY24.

Its income before tax was a loss of ₹5 crore, a reduction of 93% compared to FY24. The Financial Express • 25 Jun • Adani Group • Adani Airports Holdings Ltd. (AAHL) + 6 Adani targets \$15-20-bn capex a year

## dani targets \$15-20-bn capex a year

RAGHAVENDRA KAMATH Mumbai, June 24

THE ADANI GROUP plans to ramp up its capital expenditure across businesses and invest \$15-20 billion annually over the next five years, its chairman Gautam Adani said on Tuesday.

In FY25, the group's capex stood at over \$14.65 billion, or ₹1.26 lakh crore. "Even in a year of turbulence, we saw recordbreaking revenue, unprecedented growth and historic profitability," he said at the group's annual general meeting.

On the energy front, he said the group expects to have a combined generation capacity of 100 GW from its thermal, renewable and pumped hydro units by 2030. In his address, Adani referred to a recent indictment by the US authorities and said, "The facts are that no one from the Adani Group has been charged with violating the FCPA (Foreign Corrupt Practices Act of the US) or conspiring to obstruct GAUTAM ADANI, CHAIRMAN, ADANI GROUP

## Adani aims \$15-bn capex a year

IN TERMS OF consolidated numbers, the group's revenues grewby 7%, Ebitda by 8.2%, and net debt-to-Ebitda ratio remained at 2.6x, he said.

On Tuesday, all Adani Group listed stocks ended higher, with Ambuja Cements surging 4%, Sanghi Industries 3.08%, Adani Green Energy 2.78%, Adani Ports 2.58%, and Adani Energy 1.70%.

Record earnings from the businesses ranging from seaports to airports, renewable energy parks to data centres, cement to gas and electricity have built India's largest infrastructure group that not only exists just to serve the markets but to serve the nation's destiny, he said.

Adani said they will open the Navi Mumbai airport later this year with an initial passenger capacity of 20 million. It will subsequently have a capacity of 90 million passengers, giving it a 35% share in the country's airport passenger traffic.

Adani Power crossed 100 billion units of generation - a scale he said never before matched by any private sector company. It is now well on track to reach 31GW capacity by 2030, he said. Adani Energy Solutions handled smart metering, high-voltage links and is keeping India's grids future-ready, he said, adding that it secured close to ₹44,000 crore in transmission orders and is executing 13,600 crore worth of smart metering projects.

Adani New Industries is building electrolyzers and solar modules at global scale, aligned

with the country's green goals. It is on track to expand its solar module manufacturing lines and will have a 10GW integrated solar module manufacturing facility in place by the next financial year, he said.

On the group's cement business, Adani recalled the group's promise — made during its acquisition of Holcim's India cement business two-and-a-halfyears ago — todouble capacity to 140 million tonne per annum (MTPA) by FY27-28, and said it had achieved 72% of the target and crossed 100 MTPA in capacity.

Adani said his group has launched gigawatt-scale renewable energy-powered data centre campuses across multiple states. The company also has projects exceeding hundreds of MW in various stages of construction with global hyperscalers.

On the group's Dharavislum redevelopment project, Adani said one million people will move from narrow lanes of Dharavi to a township that will feature spacious layouts, dual toilets, open spaces, schools, hospitals, transit hubs, and parks.

## 100 अरब डॉलर का निवेश करेगा अदाणी समूह

प्राची पिसाल मुंबई, 24 जून

वाणी समूह का इरादा साल 2030 तक 100 गीगावॉट बिजली क्षमता स्थापित करने का है। यह 100 अरब डॉलर की उन निवेश योजनाओं का हिस्सा है, जो 'सभी रिकॉर्ड तोड़ देगा।' हवाई अड्डों से लेकर ऊर्जा तक के कारोबार से जुड़े समूह ने आज यह जानकारी दी।

समूह की अक्षय ऊर्जा क्षेत्र की कंपनी अदाणी ग्रीन का लक्ष्य 50 गीगावॉट क्षमता हासिल करना है और ताप बिजली उत्पादक अदाणी पावर का लक्ष्य 31 गीगावॉट क्षमता हासिल करना है। शेष क्षमता जलविद्युत से आएगी। वित्त वर्ष 25 तक समूह की ताप बिजली क्षमता 16.6 गीगावॉट जबकि अक्षय ऊर्जा क्षमता करीब 15.2 गीगावॉट थी।

अदाणी समूह के चेयरमैन गौतम अदाणी ने वार्षिक आम बैठक में कहा, 'विभिन्न कारोबारों में हमारा पूंजी निवेश सभी रिकॉर्ड तोड़ने वाला है। ये केवल हमारे समूह में निवेश नहीं हैं, बल्कि भारत के बुनियादी ढांचे के निर्माण में अपनी भूमिका निभाने की संभावनाओं में निवेश हैं।'

समृह हवाई अड्डॉ समेत अपनी कंपनियों में सालाना 15 से 20 अरब डॉलर का निवेश करेगा। अदाणी एनर्जी सॉल्यूशंस को वित्त वर्ष 25 में करीब 44,000 करोड़ रुपये के पारेषण ऑर्डर मिले हैं और वह 13,600 करोड़ रुपये की स्मार्ट मीटिरिंग परियोजनाओं को लागू कर रही है। अक्षय ऊर्जा, हाइड्रोजन इलेक्ट्रोलाइजर और डाउनस्ट्रीम ऐंकर परियोजनाओं को जोड़ने वाली अदाणी न्यू इंडस्ट्रीज का लक्ष्य अपनी सोलर मॉड्यूल विनिर्माण लाइनों का विस्तार करना है। उम्मीद है कि वित्त वर्ष 27 तक उसके पास 10 गीगावॉट की एकीकृत सोलर मॉड्यूल विनिर्माण सुविधा होगी।

वित्त वर्ष 25 में बंदरगाह कारोबार ने 45 करोड़ टन कार्गों का प्रबंधन किया

और समूह समुद्री, ट्रकिंग, वेयरहाउसिंग और फ्रेंट फॉरवर्डिंग में प्रवेश करके परिवहन उपयोगिता का निर्माण कर रहा है। गौतम अदाणी ने कहा, 'प्रधानमंत्री के गति शक्ति मिशन के अनुरूप हमारी लॉजिस्टिक परिसंपत्तियां एमएसएमई निर्यात को बढ़ावा दे रही हैं और भारत की वैश्वक प्रतिस्पर्धी क्षमता बढ़ाने के लिए दिक्कतें कम कर रही हैं।'

अदाणी पोट्सं का लक्ष्य वित्त वर्ष 25 और वित्त वर्ष 30 के बीच 50,000 करोड़ रुपये के नियोजित पूंजीगत व्यय के साथ साल 2030 तक हर वर्ष एक अरब टन कार्गों का प्रबंधन करना है। इसकी घरेलू क्षमता सालाना 63.3 करोड़ टन है और वह हाइफा (इजरायल), दार एस सलाम पोर्ट (तंजानिया), ऐबट पॉइंट (ऑस्ट्रेलिया) और कोलंबो वेस्ट इंटरनैशनल टर्मिनल (श्रीलंका) में विदेशी बंदरगाहों का संचालन करती है।

समूह के प्राकृतिक संसाधन कारोबार ने वित्त वर्ष 25 में 4.7 करोड़ टन कोयला और लौह अयस्क का उत्पादन किया तथा वित्त वर्ष 26 तक 30 प्रतिशत से अधिक की वृद्धि हासिल करने का अनुमान है। सीमेंट कारोबार के मामले में समूह ने वित्त वर्ष 25 में सालाना 14 करोड़ टन की अपनी क्षमता का 72 प्रतिशत हासिल किया। उसने साल के दौरान सालाना 10 करोड़ टन का आंकड़ा पार कर लिया और वित्त वर्ष 27 से 28 तक पूरा लक्ष्य हासिल होने की उम्मीद है।

वित्त वर्ष 25 में अदाणी एयरपोर्ट्स ने 9.4 करोड़ यात्रियों को संभाला और 2.1 अरब डॉलर की लागत से बने नवी मुंबई एयरपोर्ट पर पहली परीक्षण उड़ान को

अंजाम दिया। यह हवाई अड्डा इस साल के उत्तरार्ध में शुरू होने की उम्मीद है। इसकी शुरुआती क्षमता दो करोड़ यात्रियों की होंगी जो बढ़कर नौ करोड़ हो जाएगी। इससे कंपनी को भारत के हवाई अड्डे यात्री यातायात में 35 प्रतिशत हिस्सेदारी मिल जाएगी। गौतम अदाणी ने कहा कि डेटा सेंटर बनाते समय भारत को प्रतिस्पर्धी और सुरक्षित रहने की जरूरत है। उन्होंने मुंबई में धारावी पनर्विकास परियोजना (डीआरपी) को समूह की सबसे परिवर्तनकारी परियोजना बताया। 95,790 करोड़ रुपये की यह परियोजना धारावी झोंपड़पट्टी के लगभग 10 लाख निवासियों का पुनर्वास करेगी और इसे अदाणी समृह तथा राज्य के स्लम पुनर्वास प्राधिकरण के संयुक्त उद्यम के जरिये पुरा किया जा रहा है।

The Adani group plans capital expenditure ranging between \$15 billion and \$20 billion a year over the next five years, billionaire Gautam Adani said, in his first appearance before shareholders since the US Department of Justice indicted him in November.

The group, with interests in seaports to power generation, will see a new airport begin operations in a Mumbai suburb later this year, Adani told shareholders at the annual meeting of flagship Adani Enterprises Ltd. on Tuesday. The group will also get a 10 GW integrated solar module plant operational by the next fiscal year, while targeting 100 GW of capacity across thermal and renewable energy by 2030, he said.

The investment push is aimed at showing that business is on the rebound from the second major scandal that hit the group in two years. Adam, which had tried to rebuild investor confidence after Hindenburg Research alleged stock manipulation and accounting

fraud in 2023, faced a fresh setback last year when federal prosecutors in the US indicted him and his aides as part of a bribery plot.

While the group has denied Adani or his aides tried to pay more than \$250 million in bribes to Indian government officials to win contracts for Adani Green Energy Ltd, the allegations nevertheless caused a series of setbacks.

Kenya cancelled \$2.6 billion worth of airport and power transmission contracts after the US case became public, and Adani pulled out of a loan deal with an American agency to fund a port terminal in Sri Lanka. TotalEnergies SE had also suspended fresh investments in its partnership with Adani, while the Indian group's unit decided to exit its joint venture with Wilmar International Ltd. by selling its shares to the Singaporean JV partner.

In signs that business was getting back to a semblance of normality, the group's airport unit secured \$750 million in funding, with option for \$250 million more, from investors led by Apollo Global Management Inc. to refinance existing

debt for India's second largest airport in Mumbai. Earlier this month, the tycoon traveled to China to meet industrial equipment manufacturers, in possibly his first overseas trip since the US indictment and a sign growth focus is no longer just inward.

Addressing the shareholders virtually, Adani reiterated that no one from the Adani Group have been charged with violating the Foreign Corrupt Practices Act in the US, interpreting it as vindication of the conglomerate's governance and compliance standards.

MUMBAI, JUNE 24

THE ADANI Group on Tuesday announced a mega annual capital expenditure (capex) plan of \$15-20 billion (Rs 1,30,000-1,73,000 crore) in various businesses in the next five years.

"Our capital investment across businesses is set to break all records," Adani Group chairman Gautam Adani said at the annual general meeting of Adani Enterprises. "We anticipate an annual capex spend of \$15-20 billion for the next 5 years," he said.

Adani also said no one from the Adani Group has been charged with violating the FCPA (Foreign Corrupt Practices Act) or conspiring to obstruct justice in the US. He said Adani Green is building the world's largest renewable energy park — right here in India and visible even from space. "From Khavda to the world, our target of 50 GW by 2030 is proof that scale and sustainability can coexist. In fact, when we combine our ther-

mal, renewable and pumped hydro generation capacities, we expect to have a 100 GW capacity by 2030." he said.

Adani said the Navi Mumbai airport will open later this year with an initial passenger capacity of 20 million, of what will then become a 90 million passenger airport, giving a 35 per cent share of India's airport passenger traffic. Ahead of the AGM, Adani Airports Holding Ltd (AAHL) said it has secured \$1 billion in project finance for the Mumbai International Airport Ltd (MIAL), which operates the Chhatrapati Shivaji Maharaj International Airport (CSMIA). On allegations about charges made by the US Department of Justice and the Securities and Exchange Commission relating to Adani Green Energy, Gautam Adani said, "the facts are that no one from the Adani Group has been charged with violating the FCPA (Foreign Corrupt Practices Act) or conspiring to obstruct justice."

## MARKETS TRIM GAINS OVER TENSIONS IN MIDDLE EAST

APRESS TRUST OF INDIA 
Mumbai

Paginty benchmarks Sensex and Nifty on Tuesday gave up most of their sharp intra-day gains due to the emergence of profit-taking as investors turned cautious amid reports of a ceasefire violation between Iran and Israel.

In the morning trade, markets bounced back sharply, mirroring a rally in global peers and a steep decline in crude oil prices amid hopes of a potential de-escalation in the Middle East conflict.

After surging 1,121.37 points or 1.36 per cent to 83,018.16 in intra-day trade, the 30-share Sensex later trimmed most of its gains as reports surfaced of the ceasefire plan faltering. But, the benchmark still managed to settle in the green, climbing 158.32 points or 0.19 per cent to 82,055.11.

As many as 2,662 stocks advanced and 1,339 declined while 143 remained unchanged on the BSE. On similar lines, the 50-share Nifty rose 72.45 points or 0.29 per cent to end at 25,044.35. The index fell from an intra-day high of 25,317.70. "Initial gains in the domestic market, driven by the ceasefire announcement and sharp drop in crude prices, were short-lived as renewed geopolitical tensions in the Middle East unsettled investor sentiment.

"Adding to the uncertainty

was heightened volatility due to expiry day dynamics. Although the market attempted to break out of its recent consolidation range, persistent global risks continue to impede momentum," Vinod Nair, Head of Research, Geojit Investments Limited, said.

From the Sensex constituents, Adani Ports, Tata Steel, Kotak Mahindra Bank, UltraTech Cement, Bajaj Finserv and Titan were among the biggest gainers.

In contrast, Power Grid, Trent, NTPC, Maruti, HCL Tech and Bharat Electronics were among the laggards.

Shares of crude oil sensitive sectors — oil marketing companies, aviation, paints and adhesives — jumped on Tuesday after a sharp correction in Brent crude oil prices.

The stock of Hindustan Petroleum Corporation Ltd jumped 3.24 per cent, Indian Oil Corporation rallied 2.04 per cent and Bharat Petroleum Corporation Ltd went up by 1.92 per cent on the BSE.

Shares of InterGlobe Aviation edged higher by 2.55 per cent and SpiceJet rallied 2.15 per cent.

Kansai Nerolac Paints advanced by 1.82 per cent, Shalimar Paints rallied by 1.80 per cent, Asian Paints went up by 0.48 per cent and Indigo Paints (0.38 per cent).

"It turned out to be an eventful day for market participants, as the benchmark index witnessed sharp swings in both directions before finally closing with marginal gains. Initially, sentiment was buoyed by reports of a potential ceasefire between Iran and Israel, along with a sharp decline in crude oil prices.

"However, concerns resurfaced in the latter half following reports of a possible ceasefire violation by Iran, which led to a pullback and erased most of the early gains. Eventually, the Nifty ended with marginal gains," Ajit Mishra — SVP, Research, Religare Broking Ltd, said. The BSE smallcap gauge climbed 0.71 per cent and the midcap index rose 0.54 per cent.

Among BSE sectoral indices, services jumped 2.13 per cent, telecommunication (1.13 per cent), commodities (1.12 per cent), metal (0.96 per cent), financial services (0.81 per cent), bankex (0.72 per cent) and auto (0.62 per cent). On the other hand, IT, oil & gas, teck and BSE Focused IT were the laggards.

"Indian equity benchmarks pared early gains on Tuesday after fresh geopolitical tensions emerged. Investors are now watching oil prices and geopolitical cues closely. A sustained spike in crude could cap any near-term upside in equities despite otherwise supportive domestic fundamentals," Gaurav Garg, Analyst, Lemonn Markets Desk, said.

All of the 10 listed Adani group stocks ended higher on Tuesday, with Ambuja Cements surging 4 per cent, on a day when the group conducted its annual general meeting.

The Adani Group also plans to invest a record \$ 15-20 billion across businesses over 'the next five years to chart out the next phase of growth, Chairman Gautam Adani said on Tuesday as he touted the conglomerate's strong balance sheet and robust business to shrug off relentless scrutiny it faces.

Meanwhile, Adani Group has raised \$ 1 billion from global investors led by New Yorkbased Apollo Global Management to refinance existing debt for its Mumbai airport.

Mumbai International Airport Ltd (MIAL), a unit which operates India's second largest airport, will use the proceeds to refinance debt raised in 2022, it said in a statement.

dani Group has raised \$ 1 billion from global investors led by New York-based Apollo Global Management to refinance existing debt for its Mumbai airport. Mumbai International Airport Ltd (MIAL), a unit which operates India's second largest airport, will use the proceeds to refinance debt raised in 2022, it said in a statement.

"The transaction involves issuance of \$750 million notes maturing July 2029 which shall be used for refinancing. The financing structure also includes provision to raise an additional \$ 250 million, resulting in total financing of \$1 billion," the group said. This, it said, will provide enhanced financial flexibility for the capital expenditure program of MIAL for development, modernisation, and

capacity enhancement. The bonds will offer about 6.9 per cent over the four-year tenor.

MIAL is managed by Adani Airport Holdings Ltd (AAHL), a subsidiary of group's flagship firm Adani Enterprises Ltd. AAHL holds 74 per cent stake in MIAL and the remaining 26 per cent is held by Airports Authority of India abesides Apollo, other lenders include Metlife Inc, BlackRock Inc and Hong Kong-based FWD Insurance.

"This is India's first investment grade (IG) rated private bond issuance in the airport infrastructure sector," the statement said.

"The transaction was led by Apollo-managed funds, with participation from a syndicate of leading institutional investors and insurance companies which included BlackRock-managed funds, Standard Chartered among others, underlining global confidence in India's infrastructure opportunity and Adani Airports' operating platform," it added. With eight airports in its management and development portfolio, AAHL is India's largest airport infrastructure company, accounting for 23 per cent of passenger footfalls and 30 per cent of India's air cargo traffic.

AAHL also holds 74 per cent in Mumbai International Airport Ltd, which in turn holds 74 per cent in Navi Mumbai International Airport Ltd. Backed by MIAL's stable asset base and cash flows and operational excellence, the notes are expected to be rated BBB-or stable.

"AAHL remains committed to a long-term vision of transforming the airports infrastructure through continued investments in modernisation, capacity expansion, digitisation, and technology integration," it said. adani

The Adani Group plans to invest \$15-20 billion a year across businesses over the next five years to chart out the next phase of growth, Chairman Gautam Adani said on Tuesday as he touted the conglomerate's strong balance sheet to shrug off US indictment.

The group is eyeing 100 gigawatt of renewable and conventional electricity generation capacity by 2030 and will use record earnings to expand the empire that ranges from seaports to airports, renewable energy parks to data centres, cement to gas and electricity.

ally, he referred to recent indictment by the US authorities in an alleged bribery scheme to win lucrative renewable energy supply contracts, saying no one from Adani Group has been charged with violating US Foreign Corrupt Practices Act (FCPA) or conspiring to obstruct justice.

Just as the group scripted a comeback post-Hindeburg through a mix of trimming of debt, cutting back on the founder's pledged shares, bringing in both promoter and marquee investor equity, and refocusing attention on the group's core businesses,

the conglomerate was hit by US authorities charging Adani and his close associates of allegedly paying bribes to secure Indian power supply contracts and misleading US investors during fund raises.

**NEW DELHI, JUNE 24** 

Adani Group's airport arm has secured USD 1 billion in financing from global investors to fund construction of the Mumbai International Airport, the conglomerate said on Tuesday.

"The transaction was led by Apollo-managed funds, with participation from a syndicate of leading institutional investors and insurance companies which included BlackRock-managed funds, Standard Chartered among others, underlining global confidence in India's Infrastructure opportunity and Adani Airports' oper-

ating platform," it said in a statement.

Adani Airports Holdings Limited (AAHL), a whollyowned subsidiary of Adani Enterprises Ltd and India's largest private airport operator, raised USD 1 billion through a project finance structure for its Mumbai International Airport Ltd (MIAL).

The transaction in-

volves issuance of USD 750 million notes maturing July 2029 which shall be used for refinancing. The financing structure also includes provision to raise an additional USD 250 million, resulting in total financing of USD 1 billion.

"This framework will provide enhanced financial flexibility for the capital expenditure program of MIAL for development, modernisation, and capacity enhancement," the company said in a statement. This is India's first investment grade (IG) rated private bond issuance in the airport infrastructure sector.

# Adani Group to invest \$100 billion over next 5 years: Gautam Adani

PTI NEW DELHI

The Adani Group plans to invest USD 15-20 billion a year across businesses over the next five years to chart out the next phase of growth, Chairman Gautam Adani said on Tuesday as he touted the conglomerate's strong balance sheet to shrug off US indictment. The group is eyeing 100 gigawatt of renewable and conventional electricity generation capacity by 2030 and will use record earnings to expand the empire that ranges from seaports to airports, renewable energy parks to data centres, cement to gas and electricity.

"In terms of consolidated

numbers, at the group-level, revenues grew by 7%, EBITDA by 8.2%, and our net debt-to-EBITDA ratio remained healthy at 2.6x. Total revenues were Rs 2,71,664 crore and our adjusted EBITDA was Rs 89,806 crore," he said.

Adani, Asia's second-richest person said the objective of his conglomerate is not to just build businesses — it is to create new possibilities. "Not just to serve markets — but to Adani Power crossed 100 billion units of generation and is on track to reach 31 GW capacity by 2030

serve our nation's destiny. Not to chase valuation. But build valuation — brick by brick." "And in this context, our capital investment across businesses is set to break all records. We anticipate an annual capex spend of USD 15-20 billion for the next 5 years. These are not just investments in our group, but investments in the possibilities for doing our part to build India's infrastructure," he said.

#### Mumbai Airport expansion: Adani raises \$1 bn from global investors

Adani Airports Holdings Limited (AAHL), a wholly owned subsidiary of Adani Enterprises Ltd has successfully secured \$1 billion financing through a project finance structure for its Mumbai International Airport Ltd (MIAL). This is India's first investment-grade private bond issuance in the airport industry. The financing framework to support MIAL's modernization, capacity expansion, and sustainability initiatives-most notably, its commitment to achieving net zero emissions by 2029. "This successful issuance validates the strength of the Adani Airports' operating platform, the robust fundamentals of MIAL, and our commitment to sustainable infrastructure development. With participation from Apollo-managed funds and leading institutional investors, we are proud to deepen our access to global pools of capital. Our ability to secure one of the largest private investment-grade project finance issuances demonstrates our commitment to financial discipline, capital efficiency and long-term value creation," said Arun Bansal, CEO, AAHL.

Adani Airports Holdings Ltd. (AAHL), a wholly owned subsidiary of Adani Enterprises Ltd. said it has secured \$1 billion financing through a project finance structure for revamp of the Mumbai International Airport Ltd. (MIAL).

The transaction involves issuance of \$750 million notes maturing July 2029, which will be used for refinancing.

The financing structure also includes provision to raise an additional \$250 million, resulting in total financing of \$1 billion, the company said.

"This framework will provide enhanced financial flexibility for the capital expenditure program of MIAL for development, modernization, and capacity enhancement," it added. The transaction was led by Apollo-managed funds, with participation from a syndicate of leading institutional investors and insurance companies which included BlackRockmanaged funds, Standard Chartered among others.

This issuance follows AAHL's \$750 million financing from a consortium of global banks.

Meanwhile, Adani Group Chairman Gautam Adani said the group plans to invest \$15-20 billion a year across businesses over the next five years to chart out the next phase of growth.

# Adani to spend ₹2,000 cr on skill varsity, finishing school

RAVI RANJAN PRASAD MUMBAI, JUNE 24

Adani Group chairman Gautam Adani announced ₹2,000 cr investment to build skill university and finishing school in Mundra to create an industry ready workforce.

Addressing the annual general meeting of group companies. Adani lauded role played by Adani Defence in Operation Sindoor. "Our drones

became the eyes in the skies as well as the swords of attack, and our antidrone systems helped protect our forces and citizens," Adani said.

"Over one million people will move from narrow lanes to a township that will feature spacious layouts, dual toilets, open spaces, schools, hospitals, transit hubs and parks," Adani said about development of Dharavi, Asia's largest slum.

Navi Mumbai airport being developed by Adani Airports will become operational later this year, he said. "This airport will open with an initial passenger capacity of 20 million, will then become a 90 million passenger airport, giving us 35 per cent share of India's airport passenger traffic," he said.

## Adani Group raises \$1 bn to refinance existing debt for Mumbai Int'l Airport

NEW DELHI: Adani Group has raised \$1 billion from global investors led by New York-based Apollo Global Management to refinance existing debt for its Mumbai airport.

Mumbai International Airport Ltd (MIAL), a unit which operates India's second largest airport, will use the proceeds to refinance debt raised in 2022, it said in a statement.

"The transaction involves issuance of \$750 million notes maturing July 2029 which shall be used for refinancing. The financing structure also includes provision to raise an additional \$250 million, resulting in total financing of \$1 billion," the group said.

This, it said, will provide enhanced financial flexibility for the capital expenditure program of MIAL for development, modernisation, and capacity

enhancement. The bonds will offer about 6.9 per cent over the four-year tenor.

MIAL is managed by Adani Airport Holdings Ltd (AAHL), a subsidiary of group's flagship firm Adani Enterprises Ltd. AAHL holds 74 per cent stake in MIAL and the remaining 26 per cent is held by Airports Authority of India.

Besides Apollo, other lenders include Metlife Inc, BlackRock Inc and Hong Kong-based FWD Insurance. "This is India's first investment grade (IG) rated private bond issuance in the airport infrastructure sector," the statement said.

"The transaction was led by Apollo-managed funds, with participation from a syndicate of leading institutional investors and insurance companies which included BlackRockmanaged funds, Standard Chartered among others, underlining global confidence in India's infrastructure opportunity and Adani Airports' operating platform," it added.

With eight airports in its management and development portfolio, AAHL is India's largest airport infrastructure company, accounting for 23 per cent of passenger footfalls and 30 per cent of India's air cargo traffic.

AAHL also holds 74 per cent in Mumbai International Airport Ltd, which in turn holds 74 per cent in Navi Mumbai International Airport Ltd. PII Millenniumpost • 25 Jun • Adani Group • Adani Airports Holdings Ltd. (AAHL) + 6 Adani Group to invest \$15 20 bn across bizs in 5 yrs: Gautam Adani

## The Adani Group chairman said the drones and anti-drone systems made by his conglomerate played a frontline role in Operation Sindoor

#### **OUR CORRESPONDENT**

NEW DELHI: The Adani Group plans to invest a record \$15-20 billion across businesses over the next five years to chart out the next phase of growth, Chairman Gautam Adani said on Tuesday as he touted the conglomerate's strong balance sheet and robust business to shrug off relentless scrutiny it faces.

Record earnings from the businesses ranging from seaports to airports, renewable energy parks to data centres, cement to gas and electricity has built India's largest infrastructure group that not only exists just to serve the markets but to serve the nation's destiny, he said while addressing the group's annual general meeting virtually.

"In terms of consolidated numbers, at the group-level, revenues grew by 7 per cent, EBITDA by 8.2 per cent, and our net debt-to-EBITDA ratio remained healthy at 2.6x. Total revenues were Rs 2,71,664 crore and our adjusted EBITDA was Rs 89,806 crore," he said.

Adani said the objective of his conglomerate is not to just build businesses — it is to create new possibilities. "Not just to serve markets — but to serve our nation's destiny. Not to chase valuation. But build valuation — brick by brick."

Adani Group Chairman Gautam Adani

'These are not just investments in our group, but investments in possibilities for doing our part to build India's infra'

"And in this context, our capital investment across businesses is set to break all records. We anticipate an annual capex spend of \$15–20 billion for the next 5 years. These are not just investments in our group, but investments in the possibilities for doing our part to build India's infrastructure," he said.

Talking of business performance, Adani said the group's electricity generation unit, Adani Power crossed 100 billion units (BU) of generation and is on track to reach 31 GW capacity by 2030.

### **Key Points**

- » The loitering munitions produced by Adani Defence conducted precision strikes while its counter-drone units protected Indian assets
- » The group's electricity generation unit, Adani Power crossed 100 BU of generation and is on track to reach 31 GW capacity by 2030
- » Adani New Industries is building electrolysers and factories to produce 10 GW of solar modules by next fiscal

Renewable energy arm, Adani Green is building the world's largest renewable energy park at Khavda in Gujarat with a target of 50 GW by 2030. "In fact, when we combine our thermal, renewable and pumped hydro generation capacities, we expect to have a 100 GW capacity by 2030," he said.

The group's electricity transmission unit, Adani Energy Solutions handled smart metering, high-voltage links and secured close to Rs 44,000 crore in transmission orders and is executing Rs 13,600 crore worth of smart metering projects.

Clean energy vertical, Adani New Industries is building electrolysers and factories to produce 10 GW of solar modules by the next financial year. While Adani Ports handled a record 450 million tonnes of cargo, natural resources produced by the group touched a record 47 million tonnes of coal and iron ore and is on track to achieve over 30 per cent growth by FY26.

"Two and a half years ago, when we acquired Holcim's India cement business, we had made a bold commitment — to double our capacity to 140 million tonnes per annum by FY27-28. Today, I am proud to share that we have already achieved 72 per cent of that target and crossed the 100 million tonnes milestone," he said.

Adani Airports handled record 94 million passengers in FY25 and has completed the first test flight at the greenfield Navi Mumbai Airport, which will open later this year with an initial passenger capacity of 20 million.

Adani said his group has launched gigawatt-scale renewable energy-powered data centre campuses across multiple states.

On city gas business, Adani Total Gas now serves 1 million piped natural gas customers and runs 3,400 EV charging stations across 22 states.

"But perhaps our most transformative project is unfolding in Dharavi -- Asia's largest slum, now being reimagined as India's most ambitious urban rehabilitation project," he said.

Further, Adani said the drones and anti-drone systems made by his conglomerate played a frontline role in Operation Sindoor - the precision counter terror strike launched by the Indian Armed Forces in direct retaliation for the brutal Pahalgam terror attack.

The loitering munitions produced by Adani Defence conducted precision strikes while its counter-drone units protected Indian assets from retaliatory threats.

"Our drones became the eyes in the skies as well as the swords of attack, and our antidrone systems helped protect our forces and citizens," he said.

Developed in partnership with Alpha Design Technologies (26 per cent owned by Adani Defence) and Israel's Elbit Systems, the SkyStriker loitering munition or kamikaze drones can carry 5-10 kg warheads, fly silently at low altitudes up to 100 km, and precisely strike targets. "As I have always believed - we don't operate in safe zones. We operate where it matters - where India needs us the most," Adani said.

## Adani eyes \$75-100bn capex

New Delhi: The Adani Group plans to invest \$15-20 billion a year across businesses over the next five years to chart out the next phase of growth, Gautam Adani said on Tuesday as he touted the conglomerate's strong balance sheet to shrug off US indictment.

Record earnings from businesses ranging from seaports to airports, renewable energy parks to data centres, cement to gas and electricity have built India's largest infrastructure group, he said.

Addressing the group's annual general meeting (AGM) virtually, he referred to a recent indictment by the US authorities in an alleged bribery scheme to win lucrative renewable energy supply contracts, saying no one from Adani Group has been charged with violating the US

Foreign Corrupt Practices Act (FCPA) or conspiring to obstruct justice.

Despite all the noise, "the facts are that no one from the Adani Group has been charged with violating the FCPA or conspiring to obstruct justice," he said.

"In terms of consolidated numbers, at the group-level, revenues grew by 7 per cent, EBITDA by 8.2 per cent, and our net debt-to-EBITDA ratio remained healthy at 2.6x. Total revenues were ₹2,71,664 crore and our adjusted EBITDA was ₹89,806 crore," he said.

"Our capital investment across businesses is set to break all records. We anticipate an annual capex spend of \$15-20 billion for the next 5 years. These are not just investments in our group, but us doing our part to build India's infrastructure," he added.

#### Airport funding

Adani Group has raised \$1 billion from global investors led by New York-based Apollo Global Management to refinance existing debt for its Mumbai airport.

Mumbai International Airport Ltd (MIAL), a unit which operates India's second-largest airport, will use the proceeds to refinance debt raised in 2022, it said in a company statement.

#### Stocks surge

All Adani group listed stocks ended higher on Tuesday, with Ambuja Cements surging 4 per cent, on a day when the group conducted its annual general meeting.

In a stock exchange notification, Ambuja Cement on Tuesday said that it has successfully commissioned 2.4 million ton per annum (MTPA) brownfield expansion of its cement unit in Sankrail, Bengal.

With commissioning of this unit, Ambuja Cement's capacity has increased to 102.95 MTPA.
