अंबानी, अदाणी के बीच दूसरी बार व्यावसायिक करार, ईंधन विपणन के लिए हाथ मिलाया

नयी दिल्ली, 25 जून। मुकेश अंबानी और गौतम अदाणी ने एक-दूसरे के ईंधन खुदरा नेटवर्क का लाभ उठाकर वाहन ईंधन बेचने के लिए साझेदारी की है। यह दो अरबपति उद्योगपतियों के बीच दूसरा व्यावसायिक सहयोग है। ब्रिटेन की बीपी के साथ अंबानी का ईंधन उद्यम जियो-बीपी, अदाणी टोटल गैस लिमिटेड (एटीजीएल) की सीएनजी खुदरा दुकानों पर पेट्रोल और डीजल डिस्पेंसर स्थापित करेगा।

बुधवार को जारी संयुक्त बयान के अनुसार, अंबानी का ब्रिटेन की बीपी के साथ ईंधन उद्यम- जियो-बीपी, अदाणी टोटल गैस लिमिटेड (एटीजीएल) की सीएनजी खुदरा दुकानों पर पेट्रोल और डीजल डिस्पेंसर

लगाएगा। इसके साथ ही, अदाणी समूह और फ्रांस की टोटल एनर्जीज का शहरी गैस वितरण संयुक्त उद्यम डू एटीजीएल, जियो बीपी के ईंधन स्टेशनों पर सीएनजी डिस्पेंसर लगाएगा। इस साझेदारी के तहत समूह की मौजूदा और भविष्य की, दोनों इकाइयां आएंगी। जियो-बीपी के पास देशभर में 1,972 पेट्रोल पंप हैं, जबकि एटीजीएल 34 भौगोलिक क्षेत्रों में 650 सीएनजी स्टेशनों का नेटवर्क संचालित करती है।

बयान के अनुसार अदाणी टोटल गैस लिमिटेड (एटीजीएल) और जियो-बीपी (रिलायंस बीपी मोबिलिटी लिमिटेड के परिचालन ब्रांड) ने आज (बुधवार) भारतीय

उपभोक्ताओं के लिए वाहन ईंधन खुदरा अनुभव को फिर से परिभाषित करने के लिए एक समझौते पर हस्ताक्षर करने की घोषणा की।

इसमें कहा गया, इस साझेदारी के तहत, चुनिंदा एटीजीएल ईंधन

आउटलेट जियो-बीपी के उच्च प्रदर्शन वाले तरल ईंधन (पेट्रोल और डीजल) की पेशकश करेंगे, जबकि चुनिंदा जियो-बीपी ईंधन आउटलेट एटीजीएल के अधिकृत भौगोलिक क्षेत्रों (जीए) के भीतर एटीजीएल के

सीएनजी डिस्पेंसर को एकीकृत करेंगे। इस प्रकार परिवहन उपभोक्ताओं को उच्च गुणवत्ता वाले ईंधन की आपूर्ति बढ़ाई जाएगी।

हाल के महीनों में यह दूसरी बार है जब देश के दो प्रमुख अरबपति उद्योगपति एक साथ आए हैं। पिछले साल मार्च में, दोनों ने मध्यप्रदेश में एक बिजली परियोजना के लिए अपने पहले सहयोग के लिए समझौते पर हस्ताक्षर किए थे। अंबानी की कंपनी रिलायंस ने मध्यप्रदेश में अदाणी पावर की परियोजना में 26 प्रतिशत हिस्सेदारी खरीदी थी और संयंत्र की 500 मेगावाट बिजली का खुद इस्तेमाल करने के समझौते पर हस्ताक्षर किए थे।

Ambani, Adani join hands for fuel marketing

PNS ■ NEW DELHI

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks -- marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL -- the equal city gas joint venture of Adani Group and TotalEnergies of France -- will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel

retail experience for Indian consumers.

"Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had

signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use.

Adani and Ambani, both hailing from Gujarat, have often been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years.

With Ambani's interests spanning oil and gas to retail

The partnership will cover both group's existing as well as future outlets. Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas

and telecom and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

Adani is building mega renewable energy parks and has also ventured into solar modules and wind turbine manufacturing. Ambani's Reliance, too, is building four gigafactories at Jamnagar in Gujarat -- one each for solar panels, batteries, green hydrogen, and fuel cells.

tone..." according to Bajaj Broking market commentary.

Ambani, Adani join hands for fuel marketing

PNS ■ NEW DELHI

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks -- marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL -- the equal city gas joint venture of Adani Group and TotalEnergies of France -- will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel

retail experience for Indian consumers.

"Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had

signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use.

Adani and Ambani, both hailing from Gujarat, have often been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years.

and telecom and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

Ambani, Adani tie up for fuel retail

Mumbai: Mukesh Ambani and Gautam Adani on Wednesday announced a partnership for fuel retailing to leverage each other's filling station networks. This is the second business collaboration between the two groups, after Reliance acquired stake in an Adani Power project in Madhya Pradesh last year.

Under the pact, select fuel outlets of Adani Total Gas (ATGL) will sell Jio-bp's high-performance petrol and diesel, and its CNG dispensing units will be installed at the latter's fuel outlets. The agreement covers both existing and future outlets of both partners. ATGL — a joint venture of the Adani Group and TotalEnergies — is a city gas distribution player and operates a network of around 650 CNG stations, while Jio-bp has a network of around 2,000 outlets. Jio-bp is a JV between Reliance Industries and bp.

Ambani, Adani join hands for fuel marketing

PRESS TRUST OF INDIA ■ New Delhi

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists. Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dis-

pensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday. The partnership will cover both group's existing as well as future outlets. Jio-bp owns 1,972 petrol pumps across

the country while ATGL operates a network of 650 CNG stations in 34 geographical areas. 'Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel retail experience for Indian consumers. "Under this partnership, select ATGL

fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said. Markets log gains for 2nd day; Sensex, Nifty surge on global rally

PRESS TRUST OF INDIA ■
Mumbai

Benchmark indices Sensex and Nifty surged nearly 1 per cent on Wednesday, powered by widespread buying and a positive trend in global equities amid easing tensions in the Middle East following a ceasefire between Iran and Israel.

Besides, intense buying market heavyweights HDFC Bank, Infosys and Reliance Industries supported domestic equities, traders said.

Extending its previous day's rally, the 30-share Sensex jumped 700.40 points or 0.85

per cent to settle at 82,755.51. During the day, it surged 760.8 points or 0.92 per cent to 82,815.91.

As many as 2,821 stocks advanced while 1,207 declined and 134 remained unchanged on the BSE.

Similarly, the wider gauge NSE Nifty climbed 200.40 points or 0.80 per cent to 25,244.75.

"Benchmark indices extended their winning streak for a second consecutive session on Wednesday, closing decisively in the green as investor sentiment got a boost from the Israel-Iran ceasefire, which alleviated geopolitical over-

hang. The Nifty kicked off trade on a buoyant note, subsequently oscillated in a narrow band with a positive undertone...," according to Bajaj Broking market commentary.

From the Sensex pack, Titan, Mahindra & Mahindra, Infosys, Power Grid, Tata Consultancy Services and Bharti Airtel were among the major gainers.

On the other hand, Bharat Electronics, Kotak Mahindra Bank and Axis Bank were the laggards.

"Markets maintained their positive tone and gained nearly a per cent, supported by favourable global cues. A

strong handover from the US markets triggered a gap-up start, which was further fuelled by buying interest in select heavyweight stocks," Ajit Mishra — SVP, Research, Religare Broking Ltd, said.

Meanwhile, Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL).

Ambani, Adani join hands for fuel marketing

PRESS TRUST OF INDIA ■ New Delhi

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists. Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dis-

pensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday. The partnership will cover both group's existing as well as future outlets. Jio-bp owns 1,972 petrol pumps across

the country while ATGL operates a network of 650 CNG stations in 34 geographical areas. 'Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel retail experience for Indian consumers. "Under this partnership, select ATGL

fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said. This is the second time in recent months that the rival billionaires have come together.

Markets log gains for 2nd day; Sensex, Nifty surge on global rally

PRESS TRUST OF INDIA ■
Mumbai

Benchmark indices Sensex and Nifty surged nearly 1 per cent on Wednesday, powered by widespread buying and a positive trend in global equities amid easing tensions in the Middle East following a ceasefire between Iran and Israel.

Besides, intense buying market heavyweights HDFC Bank, Infosys and Reliance Industries supported domestic equities, traders said.

Extending its previous day's rally, the 30-share Sensex jumped 700.40 points or 0.85

per cent to settle at 82,755.51. During the day, it surged 760.8 points or 0.92 per cent to 82,815.91.

As many as 2,821 stocks advanced while 1,207 declined and 134 remained unchanged on the BSE.

Similarly, the wider gauge NSE Nifty climbed 200.40 points or 0.80 per cent to 25,244.75.

"Benchmark indices extended their winning streak for a second consecutive session on Wednesday, closing decisively in the green as investor sentiment got a boost from the Israel-Iran ceasefire, which alleviated geopolitical over-

hang. The Nifty kicked off trade on a buoyant note, subsequently oscillated in a narrow band with a positive undertone...," according to Bajaj Broking market commentary.

From the Sensex pack, Titan, Mahindra & Mahindra, Infosys, Power Grid, Tata Consultancy Services and Bharti Airtel were among the major gainers.

On the other hand, Bharat Electronics, Kotak Mahindra Bank and Axis Bank were the laggards.

"Markets maintained their positive tone and gained nearly a per cent, supported by favourable global cues. A

strong handover from the US markets triggered a gap-up start, which was further fuelled by buying interest in select heavyweight stocks," Ajit Mishra — SVP, Research, Religare Broking Ltd, said.

Meanwhile, Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL).

Mumbai/New Delhi: Adani Total Gas and Reliance BP Mobility have formed an alliance to offer their respective fuels at each other's retail outlets, marking another collaborative venture between two of India's prominent conglomerates, Adani and Reliance. Previously, Reliance Industries acquired a 26% stake in Adani Power's subsidiary, Mahan Energy, for Rs 50 crore.

The latest collaboration enables Adani Total Gas to sell Reliance BP's petrol and diesel at their stations, while Reliance BP will distribute Adani's CNG at their outlets. This arrangement plugs gaps in both companies' fuel distribution networks.

► From P 1

Adani Total manages 650 CNG stations nationwide, while also offering compressed biogas, EV charging facilities and LNG for transportation. Reliance BP has a larger network of 2,000 retail outlets dispensing liquid fuel, complemented by EV charging services at select locations and convenience stores.

A joint statement said they would make their respective fuels available at "select outlets". Adani Total will install CNG dispensing units at Reliance BP outlets, while Reliance BP will "integrate Adani Total's CNG dispensing units, within Adani Total's authorised geographical areas". This means that Adani Total will set up CNG dispensing units at Reliance BP stations in areas where the former has the licence to sell CNG fuel. Reliance BP's outlets are operated under the Jio-BP brand.

The agreement covers current and future outlets of both companies. Last year, RIL acquired a minority stake in Mahan to align with rules that mandate a 26% ownership for captive users. This secured a 20-year power supply from Mahan.

Reliance, owned by Mukesh Ambani, operates in oil and gas, retail, telecom and financial services sectors. Adani, controlled by Gautam Adani, has interests in airports, seaports and cement. Their business paths have intersected recently in media, clean energy, data centres and petrochemicals.

In 2022, a firm with connections to Ambani sold interests in news broadcaster NDTV to Adani, marking the latter's first big play in the media sector and creating competition with Ambani's Network 18. While RIL dominates petrochemicals, Adani Petrochemicals is building a petrochemical facility in Mundra, Gujarat.

Adani Total Gas Ltd and Reliance Industries Ltd arm Jio-bp have partnered to sell auto fuel across select outlets, the firms said in a statement on Wednesday.

Select ATGL outlets will sell Jio-bp's petrol and diesel, and the Jio-bp outlets will integrate ATGL's compressed natural gas (CNG) dispensing units, the statement said.

"This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," said Suresh P. Manglani, executive director and CEO of Adani Total Gas.

This is the second time the rival billionaires have partnered, after Reliance acquired a 26% stake in an Adani Power project in Madhya Pradesh in March 2024.

"We are united by a shared vision to offer our customers a superior selection of high-quality fuels," said Sarthak Behuria, chairman of Jio-bp.

Nirav Karkera, the head of research at Fisdom, said, "The collaboration between RIL and the Adani Group is expected to be highly synergistic, offering

significant operating leverage through their combined physical presence. By providing complementary products, the partnership aims to deliver a more comprehensive customer experience. In a sector largely dominated by state-run entities, this alliance positions both groups advantageously."

The agreement covers the partners' existing and future outlets. Adani Total Gas has 650 CNG operating stations, and Jio-bp has 2,000 outlets.

"ATGL stands to benefit from the extensive Jio-BP fuel station network, while Jio-BP

can expand its pincode-level reach through ATGL's infrastructure in a cost-efficient manner. The partnership is likely to be accretive for both players, enabling better margin management through station-level cost synergies," said Karkera.

Adani Total Gas is a joint venture (JV) between Adani Group and French multinational Total Energies. The firm distributes natural gas to households, industries, commercial customers, and motorists. It also offers compressed biogas, electric vehicle charging, and liquefied natural gas for the transport segment.

Ambani, Adani join hands in second business partnership

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists. Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday. The partnership will cover both group's existing as well as future outlets. Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas. This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Adani Total Gas, Jio-bp Join Hands to Cross Sell Fuels at Retail Outlets

Partnership will allow cos to leverage each other's infra and improve customer offerings

Mumbai: The Adani Group and Reliance Industries on Wednesday announced a partnership for distribution of fuel. While select outlets of the Adani Group's Adani Total Gas will offer Jio-bp's petrol and diesel, certain Jio-bp stations will install Adani Total's CNG dispensing units, as per the agreement.

This is the second major collaboration between the two industrial giants.

In March last year, Mukesh Ambani's Reliance Industries had acquired a 26% stake in Adani Power's Mahan Energen for ₹50 crore, securing 500 MW of captive power from a 600 MW Madhya Pradesh plant under a 20-year agreement.

While Adani Total manages about 650 CNG stations, Jio-bp operates around 2,000 retail outlets. The partnership is expected to provide consumers access to high-quality fuels.

The arrangement will be applicable to both existing and future retail outlets operated by the two companies.

"It is our shared vision to provide a complete range of high-quality fuels at our outlets," Suresh P Manghani, the chief executive officer at Adani Total Gas, was quoted in a release as saying. "This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," he said.

BIG COLLABORATION

This deal is the second major collaboration between the two conglomerates after RIL acquired 26% stake in Adani Power's Mahan Energen for ₹50 crore

in Ahmedabad, Vadodara, Faridabad, Khurja and several districts in Assam, Chhattisgarh, and Madhya Pradesh.

This allows Adani Total to reach 34 geographical areas, with another 19 areas covered through Indian Oil Adani Gas (IOAGPL), a 50:50 CGD joint venture between Indian Oil and the company.

Jio-bp, a joint venture between Reliance Industries and UK oil giant British Petroleum established in February 2011, manages around 2,000 fuel retail outlets across the country.

Mumbai/New Delhi: Adani Total Gas and Reliance BP Mobility have formed an alliance to offer their respective fuels at each other's retail outlets, marking another collaborative venture between two of India's prominent conglomerates, Adani and Reliance. Previously, Reliance Industries acquired a 26% stake in Adani Power's subsidiary, Mahan Energy, for Rs 50 crore.

The latest collaboration enables Adani Total Gas to sell Reliance BP's petrol and diesel at their stations, while Reliance BP will distribute Adani's CNG at their outlets. This arrangement plugs gaps in both companies' fuel distribution networks.

Adani Total manages 650 CNG stations nationwide, while also offering compressed biogas, EV charging facilities and LNG for transportation. Reliance BP has a larger network of 2,000 retail outlets dispensing liquid fuel, complemented by EV charging services at select locations and convenience stores.

A joint statement said they would make their respective fuels available at “select outlets”. Adani Total will install CNG dispensing units at Reliance BP outlets, while Reliance BP will “integrate Adani Total’s CNG dispensing units, within Adani Total’s authorised geographical areas”. This means that Adani Total will set up CNG dispensing units at Reliance BP stations in areas where the former has the licence to sell CNG fuel. Reliance BP’s outlets are operated under the Jio-BP brand.

The agreement covers current and future outlets of both companies. Last year, RIL acquired a minority stake in Mahan to align with rules that mandate a 26% ownership for captive users. This secured a 20-year power supply from Mahan.

Reliance, owned by Mukesh Ambani, operates in oil and gas, retail, telecom and financial services sectors. Adani, controlled by Gautam Adani, has interests in airports, seaports and cement. Their business paths have intersected recently in media, clean energy, data centres and petrochemicals.

In 2022, a firm with connections to Ambani sold interests in news broadcaster NDTV to Adani, marking the latter’s first big play in the media sector and creating competition with Ambani’s Network 18. While RIL dominates petrochemicals, Adani Petrochemicals is building a petrochemical facility in Mundra, Gujarat.

Mumbai: Mukesh Ambani and Gautam Adani on Wednesday announced a partnership for fuel retailing to leverage each other's filling station networks. This is the second business collaboration between the two groups, after Reliance acquired stake in an Adani Power project in Madhya Pradesh last year.

Under the pact, select fuel outlets of Adani Total Gas (ATGL) will sell Jio-bp's high-performance petrol and diesel, and its CNG dispensing units will be installed at the latter's fuel outlets. The agreement covers both existing and future outlets of both partners. ATGL — a joint venture of the Adani Group and TotalEnergies — is a city gas distribution player and operates a network of around 650 CNG stations, while Jio-bp has a network of around 2,000 outlets. Jio-bp is a JV between Reliance Industries and bp.

Adani, Ambani JVs in fuel retail alliance

Mumbai/New Delhi: Adani Total Gas and Reliance BP Mobility have formed an alliance to offer their respective fuels at each other's retail outlets, marking another collaborative venture between two of India's prominent conglomerates, Adani and Reliance. Previously, Reliance Industries acquired a 26% stake in Adani Power's subsidiary, Mahan Energy, for Rs 50 crore.

The latest collaboration enables Adani Total Gas to sell Reliance BP's petrol and diesel at their stations, while Reliance BP will distribute Adani's CNG at their outlets. This arrangement plugs gaps in both companies' fuel distribution networks.

PLUGGING GAPS

> Adani Total Gas operates a network of **650 CNG stations** while Reliance BP Mobility's **2,000 pumps** sell petrol and diesel

> Select Adani Total outlets will offer Reliance BP's petrol & diesel, while some Reliance BP outlets will integrate Adani Total's CNG dispensing units

> The agreement covers both existing and future outlets of both parties

PSU oil companies follow a similar practice in various cities, particularly Delhi, where CNG retailers have installed dispensing units at petrol pumps.

► Adani cos' outlets, P 19

Fuels to be available at select Reliance, Adani cos' outlets

► From P 1

Adani Total manages 650 CNG stations nationwide, while also offering compressed biogas, EV charging facilities and LNG for transportation. Reliance BP has a larger network of 2,000 retail outlets dispensing liquid fuel, complemented by EV charging services at select locations and convenience stores.

A joint statement said they would make their respective fuels available at “select outlets”. Adani Total will install CNG dispensing units at Reliance BP outlets, while Reliance BP will “integrate Adani Total’s CNG dispensing units, within Adani Total’s authorised geographical areas”. This means that Adani Total will set up CNG dispensing units at Reliance BP stations in areas where the former has the licence to sell CNG fuel. Reliance BP’s outlets are operated under the Jio-BP brand.

The agreement covers current and future outlets of both companies. Last year, RIL acquired a minority stake in Mahan to align with rules that mandate a 26% ownership for captive users. This secured a 20-year power supply from Mahan.

Reliance, owned by Mukesh Ambani, operates in oil and gas, retail, telecom and financial services sectors. Adani, controlled by Gautam Adani, has interests in airports, seaports and cement. Their business paths have intersected recently in media, clean energy, data centres and petrochemicals.

In 2022, a firm with connections to Ambani sold interests in news broadcaster NDTV to Adani, marking the latter’s first big play in the media sector and creating competition with Ambani’s Network 18. While RIL dominates petrochemicals, Adani Petrochemicals is building a petrochemical facility in Mundra, Gujarat.

Select ATGL outlets will sell Jio-bp's petrol and diesel, and the Jio-bp outlets will integrate ATGL's compressed natural gas (CNG) dispensing units, the statement said.

"This partnership will enable us to leverage each other's infra-

structure, thus enhancing customer experience and offerings," said Suresh P. Manghani, executive director and CEO of Adani Total Gas.

This is the second time the rival billionaires have partnered, after Reliance acquired a 26% stake in an Adani Power project in Madhya Pradesh in March 2024.

"We are united by a shared vision to offer our customers a superior selection of high-quality fuels," said Sarthak Behuria, chairman of Jio-bp.

Nirav Karkera, the head of

research at Fisdom, said, "The collaboration between RIL and the Adani Group is expected to be highly synergistic, offering significant operating leverage through their combined physical presence. By providing complementary products, the partnership aims to deliver a more com-

prehensive customer experience. In a sector largely dominated by state-run entities, this alliance positions both groups advantageously."

The agreement covers the partners' existing and future outlets. Adani Total Gas has 650 CNG operating stations, and Jio-bp has 2,000 outlets.

"ATGL stands to benefit from the extensive Jio-BP fuel station network, while Jio-BP can expand its pincode-level reach through ATGL's infrastructure in a cost-efficient manner. The partnership is likely to be accre-

tive for both players, enabling better margin management through station-level cost synergies," said Karkera.

Adani Total Gas is a joint venture (JV) between Adani Group and French multinational Total Energies. The firm distributes natural gas to households, industries, commercial customers, and motorists. It also offers compressed biogas, electric vehicle charging, and liquefied natural gas for the transport segment.

Ambani, Adani Partner to Use Each Other's Fuel Network

Ambani, Adani Partner to Use Each Other's Fuel Network

New Delhi: Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets. Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel retail experience for Indian consumers."

"Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use.

Adani and Ambani, both hailing from Gujarat, have often been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years. With Ambani's interests spanning oil and gas to retail and telecom and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments. **PTI**

NEW DELHI: Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks -- marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL -- the equal city gas joint venture of

Adani Group and TotalEnergies of France -- will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing

of an agreement to redefine the auto fuel retail experience for Indian consumers.

"Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In

March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh. Ambani's firm Reliance had picked up a 26% stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use.

With Ambani's interests spanning oil and gas to retail and tele-

com and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

Adani is building mega renewable energy parks and has also ventured into solar modules and wind turbine manufacturing. Ambani's Reliance, too, is building four gigafactories at Jamnagar in Gujarat -- one each for solar panels, batteries, green hydrogen, and fuel cells.

Mumbai/New Delhi: Adani Total Gas and Reliance BP Mobility have formed an alliance to offer their respective fuels at each other's retail outlets, marking another collaborative venture between two of India's prominent conglomerates, Adani and Reliance. Previously, Reliance Industries acquired a 26% stake in Adani Power's subsidiary, Mahan Energy, for Rs 50 crore.

The latest collaboration enables Adani Total Gas to sell Reliance BP's petrol and diesel at their stations, while Reliance BP will distribute Adani's CNG at their outlets. This arrangement plugs gaps in both companies' fuel distribution networks. PSU oil companies follow a similar practice in various cities, where CNG retailers have installed dispensing units at petrol pumps.

While select outlets of the Adani Group's Adani Total Gas will offer Jio-bp's petrol and diesel, certain Jio-bp stations will install Adani Total's CNG dispensing units, as per the agreement.

This is the second major collaboration between the two industrial giants.

In March last year, Mukesh Ambani's Reliance Industries had acquired a 26% stake in Adani Power's Mahan Energen Ltd. for ₹50 crore, securing 500 MW of captive power from a 600 MW Madhya Pradesh plant under a 20-year agreement.

While Adani Total manages about 650 CNG stations, Jio-bp operates around 2,000 retail outlets. The partnership is expected to provide consumers access to high-quality fuels.

The arrangement will be applicable to both existing and future retail outlets operated by the two companies.

"It is our shared vision to provide a complete range of high-quality fuels at our outlets," Suresh P Manglani, the chief executive officer at Adani Total Gas, was quoted in a release as saying. "This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," he said.

Adani Total, a natural gas distribution joint venture by Adani and TotalEnergies, is a leading gas distribution company in the country with a strong presence in Ahmedabad, Vadodara, Faridabad, Khurja and several districts in Assam, Chhattisgarh, and Madhya Pradesh.

This allows Adani Total to reach 34 geographical areas, with another 19 areas covered through Indian Oil Adani Gas Pvt Ltd (IOAGPL), a 50:50 CGD joint venture between Indian Oil and the company.

Ambani, Adani Partner to Use Each Other's Fuel Network

New Delhi: Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets. Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel retail experience for Indian consumers."

"Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use.

Adani and Ambani, both hailing from Gujarat, have often been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years. With Ambani's interests spanning oil and gas to retail and telecom and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments. Mumbai: The Adani Group and Reliance Industries on Wednesday announced a partnership for distribution of fuel. While select outlets of the Adani Group's Adani Total Gas will offer Jio-bp's petrol and diesel, certain Jio-bp stations will install Adani Total's CNG dispensing units, as per the agreement.

This is the second major collaboration between the two industrial giants.

In March last year, Mukesh Ambani's Reliance Industries had acquired a 26% stake in Adani Power's Mahan Energen Ltd. for ₹50 crore, securing 500 MW of captive power from a 600 MW Madhya Pradesh plant under a 20-year agreement.

While Adani Total manages about 650 CNG stations, Jio-bp operates around 2,000 retail outlets. The partnership is expected to provide consumers access to high-quality fuels.

The arrangement will be applicable to both existing and future retail outlets operated by the two companies.

"It is our shared vision to provide a complete range of high-quality fuels at our outlets," Suresh P Manglani, the chief executive officer at Adani Total Gas, was quoted in a release as saying. "This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," he said.

Adani Total, a natural gas distribution joint venture by Adani and TotalEnergies, is a leading gas distribution company in the country with a strong presence in Ahmedabad, Vadodara, Faridabad, Khurja and several districts in Assam, Chhattisgarh, and Madhya Pradesh.

This allows Adani Total to reach 34 geographical areas, with another 19 areas covered through Indian Oil Adani Gas Pvt Ltd (IOAGPL), a 50:50 CGD joint venture between Indian Oil and the company.

अंबानी-अदाणी समूह साथ पेट्रोल-सीएनजी बेचेंगे

नई दिल्ली, एजेंसी। अदाणी टोटल गैस (एटीजीएल) और रिलायंस वीपी मोबिलिटी लिमिटेड के ऑपरेटिंग ब्रांड जियो-वीपी ने बुधवार को वाहन ईंधन बेचने के लिए बड़ी व्यावसायिक साझेदारी की। दोनों कारोबारी घराने अब एकसाथ मिलकर पेट्रोल, डीजल और सीएनजी की बिक्री करेंगे।

दोनों कंपनियों ने इसको लेकर करार पर हस्ताक्षर किए। इस समझौते में दोनों भागीदारों के मौजूदा और भविष्य

के पेट्रोल और सीएनजी स्टेशन शामिल हैं। इसके अनुसार, अदाणी टोटल गैस के चुनिंदा स्टेशन पर जियो-वीपी के पेट्रोल और डीजल की बिक्री की जाएगी। वहीं, जियो-वीपी की ओर से एटीजीएल की सीएनजी खुदरा दुकानों पर पेट्रोल और डीजल डिस्पेंसर लगाए जाएंगे। जियो-वीपी के पास देशभर में 1,972 पेट्रोलपंप हैं, जबकि एटीजीएल 650 सीएनजी स्टेशन का नेटवर्क संचालित करती है।

जियो मेरी जिंदगी का सबसे बड़ा जोखिम था: अंबानी

रिलायंस इंडस्ट्रीज के अध्यक्ष और प्रबंध निदेशक मुकेश अंबानी ने कहा है कि टेलीकॉम सेक्टर की जियो में बड़े पैमाने पर निवेश करना उनके करियर का 'सबसे बड़ा जोखिम' था। उस समय कई विश्लेषकों को इसकी सफलता पर संदेह था। उनका कहना था कि भारत इतनी उन्नत डिजिटल तकनीक के लिए तैयार नहीं है। यहां एक साक्षात्कार में मुकेश अंबानी ने यह बातें कही। उन्होंने कहा कि अगर जियो में निवेश किसी वजह से अपेक्षित लाभ नहीं भी दे पाता, तब भी यह भारत को डिजिटल बनाने की दिशा में बड़ा कदम तो जरूर माना जाता। रिलायंस जियो में निवेश का फैसला आसान नहीं था।

આ ભાગીદારીનો ઉદ્દેશ્ય

AGTL પાસે 650 CNG, Jio-BP પાસે 1972 પેટ્રોલ પંપ

AGTL પાસે 650 CNG છે Jio-BP પાસે 1972 પેટ્રોલ પંપ છે. AGTLએ અદાણી ગ્રુપ અને ટોટલ એનર્જીઝ વચ્ચેનું સંયુક્ત સાહસ છે. તે દેશની અગ્રણી શહેર ગેસ વિતરણ કંપની છે. તે રહેણાંક, કોમ. અને ઈન્ડસ્ટ્રીયલ ગ્રાહકોને પાર્થપ દ્વારા કુદરતી ગેસ પૂરો પાડે છે અને લગભગ 650 CNG સ્ટેશનોનું નેટવર્ક ચલાવે છે. તે CBG, EV ચાર્જિંગ અને LNG જેવા વિકલ્પો રજૂ કરે છે.

Billionaires Ambani and Adani join hands for fuel marketing

While Ambani's Jio-bp will set up petrol and diesel dispensers at CNG outlets of Adani Total Gas, ATGL will put up CNG dispensing units at Jio-bp's fuel pumps

NEW DELHI

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas JV of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday. The partnership will cover both group's existing as well as future outlets. Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel retail experience for Indian consumers. Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels, while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires

Ambani

- Focus: Oil and gas to retail and telecom

- Eyeing setting up renewable electricity capacity at Kavada

Adani

- The company is also building the world's largest solar park with 30 gigawatts capacity

have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Adani and Ambani, both hailing from Gujarat, have often been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years. With Ambani's interests spanning oil and gas to retail

and telecom and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where they have announced multi-billion investments. The duo's proposed cumulative investment of \$30 billion (Rs 2.23 lakh crore) is likely to shake up the 15-year-old renewable energy ecosystem in India, and will

go across every form of renewable energy, be it solar, wind, hybrid or even hydrogen.

Adani is building mega renewable energy parks and has also ventured into solar modules and wind turbine manufacturing. Ambani's Reliance, too, is building four gigafactories at Jamnagar in Gujarat — one each for solar panels, batteries, green hydrogen, and fuel cells. **PTI**

Jio was biggest risk of my life: Ambani

NEW DELHI

Billionaire industrialist Mukesh Ambani described his 2016 return to the telecom industry with Reliance Jio as the "biggest risk" of his life, saying that even if analysts' predictions of financial failure had come true, it would still have been worth it for the role it played in transforming India digitally. In an interview with McKinsey & Co, the richest Asian said RIL was investing its own billions of dollars in rolling out 4G mobile networks — which some analysts thought might not work out financially as India was not ready for the most advanced digital technology. **PTI**

ईंधन बिक्री के लिए अंबानी और अदाणी ने मिलाया हाथ

नई दिल्ली, प्रेटर: देश के दो सबसे बड़े कारोबारी गौतम अदाणी और मुकेश अंबानी एक बार फिर साथ आए हैं। दरअसल, अदाणी की कंपनी अदाणी टोटल गैस लिमिटेड (एटीजीएल) और मुकेश अंबानी की कंपनी रिलायंस बीपी मोबिलिटी के ब्रांड जियो-बीपी ने आपस में हाथ मिलाया है। दोनों कंपनियां मिलकर ईंधन की बिक्री को बढ़ाएंगी।

भारत का ईंधन बाजार बहुत तेजी से बढ़ रहा है। यह लगभग 150 अरब डालर का है। इस साझेदारी से एटीजीएल के कुछ पंप पर जियो-बीपी का पेट्रोल और डीजल मिलेगा। वहीं, जियो-बीपी के कुछ पेट्रोल पंप पर एटीजीएल के सीएनजी स्टेशन लगाए जाएंगे। यह सुविधा एटीजीएल के तय किए गए इलाकों में ही मिलेगी। जियो-बीपी के पास 1,972 पेट्रोल पंप हैं, जबकि एटीजीएल 650 सीएनजी स्टेशन संचालित करती है। पिछले वर्ष मार्च में दोनों ने एक विद्युत परियोजना के लिए समझौता किया था।

Ambani, Adani join hands for fuel marketing

Press Trust of India

feedback@livemint.com

NEW DELHI: Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks -- marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL -- the equal city gas joint venture of

Adani Group and TotalEnergies of France -- will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing

of an agreement to redefine the auto fuel retail experience for Indian consumers.

"Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In

March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh. Ambani's firm Reliance had picked up a 26% stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use.

Adani and Ambani, both hailing from Gujarat, have often been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years.

With Ambani's interests spanning oil and gas to retail and tele-

com and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

Adani is building mega renewable energy parks and has also ventured into solar modules and wind turbine manufacturing. Ambani's Reliance, too, is building four gigafactories at Jamnagar in Gujarat -- one each for solar panels, batteries, green hydrogen, and fuel cells.

Ambani, Adani tie up for fuel retail

Under the pact, select fuel outlets of Adani Total Gas (ATGL) will sell Jio-bp's high-performance petrol and diesel, and its CNG dispensing units will be installed at the latter's fuel outlets. The agreement covers both existing and future outlets of both partners. ATGL — a joint venture of the Adani Group and TotalEnergies — is a city gas distribution player and operates a network of around 650 CNG stations, while Jio-bp has a network of around 2,000 outlets. Adani Total Gas Ltd and Reliance Industries Ltd arm Jio-bp have partnered to sell auto fuel across select outlets, the firms said in a statement on Wednesday.

Select ATGL outlets will sell Jio-bp's petrol and diesel, and the Jio-bp outlets will integrate ATGL's compressed natural gas (CNG) dispensing units, the statement said.

"This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," said Suresh P. Manghani, executive director and CEO of Adani Total Gas.

This is the second time the rival billionaires have partnered, after Reliance acquired a 26% stake in an Adani Power project in Madhya Pradesh in March 2024.

"We are united by a shared vision to offer our customers a superior selection of high-quality fuels," said Sarthak Behuria, chairman of Jio-bp.

Nirav Karkera, the head of research at Fisdom, said, "The collaboration between RIL and the Adani Group is expected to be highly synergistic, offering

significant operating leverage through their combined physical presence. By providing complementary products, the partnership aims to deliver a more comprehensive customer experience. In a sector largely dominated by state-run entities, this alliance positions both groups advantageously."

The agreement covers the partners' existing and future outlets. Adani Total Gas has 650 CNG operating stations, and Jio-bp has 2,000 outlets.

"ATGL stands to benefit from the extensive Jio-BP fuel station network, while Jio-BP can expand its pincode-level reach through ATGL's infrastructure in a cost-efficient manner. The partnership is likely to be accretive for both players, enabling better margin management through station-level cost synergies," said Karkera.

Adani Total Gas is a joint venture (JV) between Adani Group and French multinational TotalEnergies. The firm distributes natural gas to households, industries, commercial customers, and motorists. It also offers compressed biogas, electric vehicle charging, and liquefied natural gas for the transport segment.

Mumbai: Mukesh Ambani and Gautam Adani on Wednesday announced a partnership for fuel retailing to leverage each other's filling station networks. This is the second business collaboration between the two groups, after Reliance acquired stake in an Adani Power project in Madhya Pradesh last year.

Under the pact, select fuel outlets of Adani Total Gas (ATGL) will sell Jio-bp's high-performance petrol and diesel, and its CNG dispensing units will be installed at the latter's fuel outlets. The agreement covers both existing and future outlets of both partners. ATGL — a joint venture of the Adani Group and TotalEnergies — is a city gas distribution player and operates a network of around 650 CNG stations, while Jio-bp has a network of around 2,000 outlets. Jio-bp is a JV between Reliance Industries and bp.

Ambani, Adani to disrupt fuel market

Rival billionaires are joining forces to challenge the dominance of IOC, BPCL, and HPCL which control over 90% petrol pumps

PTI
NEW DELHI

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas. "Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced the signing of an agreement to redefine the auto fuel retail experience for Indian consumers. Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units,

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in MP.

within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use. Adani and Ambani, both hailing from Gujarat, have often

been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years.

With Ambani's interests spanning oil and gas to retail and telecom and Adani's focus on infrastructure spanning seaports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

The two had come face-to-face during an auction of the 5G spectrum. While Ambani bid for airwaves to sustain his telecom business, Adani's entry had surprised

many. He, however, ended up buying a small quantum of spectrum which he later traded with Bharti Airtel.

Ambani and Adani are coming together to challenge the dominance of state-owned retailers in the fuel retailing space. State-owned Indian Oil Corporation (IOC), Bharat Petroleum Corporation Ltd (BPCL) and Hindustan Petroleum Corporation Ltd (HPCL) control over 90 per cent of 97,366 petrol pumps in the country. PSUs are also a dominant player in city gas. The joint statement said ATGL is India's leading city gas distribution (CGD) player.

Adani Total Gas Ltd and Reliance Industries Ltd arm Jio-bp have partnered to sell auto fuel across select outlets, the firms said in a statement on Wednesday.

Select ATGL outlets will sell Jio-bp's petrol and diesel, and the Jio-bp outlets will integrate ATGL's compressed natural gas (CNG) dispensing units, the statement said.

"This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," said Suresh P. Manghani, executive director and CEO of Adani Total Gas.

This is the second time the rival billionaires have partnered, after Reliance acquired a 26% stake in an Adani Power project in Madhya Pradesh in March 2024.

"We are united by a shared vision to offer our customers a superior selection of high-quality fuels," said Sarthak Behuria, chairman of Jio-bp.

Nirav Karkera, the head of research at Fisdom, said, "The collaboration between RIL and the Adani Group is expected to be highly synergistic, offering

significant operating leverage through their combined physical presence. By providing complementary products, the partnership aims to deliver a more comprehensive customer experience. In a sector largely dominated by state-run entities, this alliance positions both groups advantageously."

The agreement covers the partners' existing and future outlets. Adani Total Gas has 650 CNG operating stations, and Jio-bp has 2,000 outlets.

"ATGL stands to benefit from the extensive Jio-BP fuel station network, while Jio-BP can expand its pincode-level reach through ATGL's infrastructure in a cost-efficient manner. The partnership is likely to be accretive for both players, enabling better margin management through station-level cost synergies," said Karkera.

Adani Total Gas is a joint venture (JV) between Adani Group and French multinational TotalEnergies. The firm distributes natural gas to households, industries, commercial customers, and motorists. It also offers compressed biogas, electric vehicle charging, and liquefied natural gas for the transport segment.

Jio-bp is a JV between RIL and British energy firm bp.

Rival billionaires are joining forces to challenge the dominance of IOC, BPCL, and HPCL which control over 90% petrol pumps

PTI
NEW DELHI

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas. "Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced the signing of an agreement to redefine the auto fuel retail experience for Indian consumers. Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units,

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in MP.

within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use. Adani and Ambani, both hailing from Gujarat, have often

been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years.

With Ambani's interests spanning oil and gas to retail and telecom and Adani's focus on infrastructure spanning seaports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

The two had come face-to-face during an auction of the 5G spectrum. While Ambani bid for airwaves to sustain his telecom business, Adani's entry had surprised

many. He, however, ended up buying a small quantum of spectrum which he later traded with Bharti Airtel.

Ambani and Adani are coming together to challenge the dominance of state-owned retailers in the fuel retailing space. State-owned Indian Oil Corporation (IOC), Bharat Petroleum Corporation Ltd (BPCL) and Hindustan Petroleum Corporation Ltd (HPCL) control over 90 per cent of 97,366 petrol pumps in the country. PSUs are also a dominant player in city gas. The joint statement said ATGL is India's leading city gas distribution (CGD) player.

Adani Total Gas Ltd and Reliance Industries Ltd arm Jio-bp have partnered to sell auto fuel across select outlets, the firms said in a statement on Wednesday.

Select ATGL outlets will sell Jio-bp's petrol and diesel, and the Jio-bp outlets will integrate ATGL's compressed natural gas (CNG) dispensing units, the statement said.

"This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," said Suresh P. Manghani, executive director and CEO of Adani Total Gas.

This is the second time the rival billionaires have partnered, after Reliance acquired a 26% stake in an Adani Power project in Madhya Pradesh in March 2024.

"We are united by a shared vision to offer our customers a superior selection of high-quality fuels," said Sarthak Behuria, chairman of Jio-bp.

Nirav Karkera, the head of research at Fisdom, said, "The collaboration between RIL and the Adani Group is expected to be highly synergistic, offering

significant operating leverage through their combined physical presence. By providing complementary products, the partnership aims to deliver a more comprehensive customer experience. In a sector largely dominated by state-run entities, this alliance positions both groups advantageously."

The agreement covers the partners' existing and future outlets. Adani Total Gas has 650 CNG operating stations, and Jio-bp has 2,000 outlets.

"ATGL stands to benefit from the extensive Jio-BP fuel station network, while Jio-BP can expand its pincode-level reach through ATGL's infrastructure in a cost-efficient manner. The partnership is likely to be accretive for both players, enabling better margin management through station-level cost synergies," said Karkera.

Adani Total Gas is a joint venture (JV) between Adani Group and French multinational TotalEnergies. The firm distributes natural gas to households, industries, commercial customers, and motorists. It also offers compressed biogas, electric vehicle charging, and liquefied natural gas for the transport segment.

Jio-bp is a JV between RIL and British energy firm bp.

Ambani, Adani to disrupt fuel market

Rival billionaires are joining forces to challenge the dominance of IOC, BPCL, and HPCL which control over 90% petrol pumps

PTI
NEW DELHI

Mukesh Ambani and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks — marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL — the equal city gas joint venture of Adani Group and TotalEnergies of France — will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-bp owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas. "Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced the signing of an agreement to redefine the auto fuel retail experience for Indian consumers. Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units,

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in MP.

within ATGL's authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use. Adani and Ambani, both hailing from Gujarat, have often

been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years.

With Ambani's interests spanning oil and gas to retail and telecom and Adani's focus on infrastructure spanning seaports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

The two had come face-to-face during an auction of the 5G spectrum. While Ambani bid for airwaves to sustain his telecom business, Adani's entry had surprised

many. He, however, ended up buying a small quantum of spectrum which he later traded with Bharti Airtel.

Ambani and Adani are coming together to challenge the dominance of state-owned retailers in the fuel retailing space. State-owned Indian Oil Corporation (IOC), Bharat Petroleum Corporation Ltd (BPCL) and Hindustan Petroleum Corporation Ltd (HPCL) control over 90 per cent of 97,366 petrol pumps in the country. PSUs are also a dominant player in city gas. The joint statement said ATGL is India's leading city gas distribution (CGD) player.

retail services

ENS ECONOMIC BUREAU @ New Delhi

ADANI Total Gas Ltd. (ATGL), led by billionaire Gautam Adani, and Jio-bp, the fuel retailing brand backed by Mukesh Ambani's Reliance Industries, have announced a strategic partnership to deliver fuel options to domestic consumers.

Under the agreement, selected ATGL fuel outlets will offer Jio-bp's high-performance petrol and diesel, while selected fuel stations will integrate ATGL's CNG (compressed gas) dispensing units. The collaboration will be implemented within ATGL's authorised geographical areas (GAs), in line with regulatory guidelines. The agreement covers both existing and upcoming outlets of the two companies. ATGL currently operates a network of about 650 CNG stations, while Jio-bp has a network of 2,000 fuel retail outlets across the country.

"We are united by a shared vision to offer our customers a superior selection of high-quality fuels. Jio-bp has been committed to delivering an exceptional customer experience, and this partnership allows us to leverage each other's strengths to enhance the value we provide to India," said Sarthak Behuria, chairman, Jio-bp. ATGL, a joint venture between Adani Group and TotalEnergies, is a leading player in India's city gas distribution (CGD) sector, supplying natural gas to households, commercial establishments, industries, and vehicles. It offers compressed biogas (CBG), EV-charging, and LNG solutions for the transportation sector.

Ambani, Adani join hands for automotive fuel marketing in second biz partnership

NEW DELHI, JUN 25

MUKESH AMBANI and Gautam Adani have partnered to sell automotive fuels by leveraging each other's fuel retail networks -- marking the second business collaboration between the two billionaire industrialists.

Ambani's fuel venture with UK's BP, Jio-bp, will set up petrol and diesel dispensers at CNG retail outlets of Adani Total Gas Ltd (ATGL). Alongside, ATGL -- the equal city gas joint venture of Adani Group and TotalEnergies of France -- will put up CNG dispensing units at Jio-bp's fuel pumps, according to a joint statement on Wednesday.

The partnership will cover both group's existing as well as future outlets.

Jio-BP owns 1,972 petrol pumps across the country while ATGL operates a network of 650 CNG stations in 34 geographical areas.

"Adani Total Gas Ltd (ATGL) and Jio-bp (operating brand of Reliance BP Mobility Ltd) today (Wednesday) announced signing of an agreement to redefine the auto fuel retail experience for Indian consumers.

"Under this partnership, select ATGL fuel outlets will offer Jio-bp's high-performance liquid fuels (petrol and diesel), while select Jio-bp fuel outlets will integrate ATGL's CNG dispensing units, within ATGL's

authorised geographical areas (GA), thus enhancing the supply of high-quality fuels to transport consumers," the statement said.

This is the second time in recent months that the rival billionaires have come together. In March last year, the two had signed the pact for their first-

ever collaboration for a power project in Madhya Pradesh.

Ambani's firm Reliance had picked up a 26 per cent stake in Adani Power's project in MP and signed to use the plants' 500 MW of electricity for captive use.

Adani and Ambani, both hailing from Gujarat, have often been pitted against each other in business. The two have also been jostling for the title of Asia's richest person for the last few years.

With Ambani's interests spanning oil and gas to retail

and telecom and Adani's focus on infrastructure spanning sea ports to airports, coal and mining, they rarely crossed each other's path except in the clean energy business where the two have announced multi-billion investments.

Adani is building mega renewable energy parks and has also ventured into solar modules and wind turbine manufacturing.

Ambani's Reliance, too, is building four gigafactories at Jamnagar in Gujarat -- one each for solar panels, batteries, green hydrogen, and fuel cells.

Reliance is also eyeing setting up renewable electricity capacity at Gujarat's Kavada, the arid land bordering

Pakistan where Adani is also building the world's largest solar park with 30 gigawatts capacity.

The two had come face-to-face during an auction of the 5G spectrum airwaves. While Ambani bid for airwaves to sustain his telecom business, Adani's entry had surprised many. Adani, however, ended up buying a small quantum of spectrum which he later traded with Bharti Airtel.

While Ambani has been in the media space since 2014 with news channels such as CNBC-TV18, CNN-News18, and entertainment channels like Colors, Adani only recently followed in his footsteps. Adani's entry was facilitated when a close associ-

ate of Ambani sold out a firm to give him controlling stake in NDTV.

Ambani and Adani are coming together to challenge the dominance of state-owned retailers in the fuel retailing space. State-owned IOC, Bharat Petroleum Corporation Ltd (BPCL) and Hindustan Petroleum Corporation Ltd (HPCL) control over 90 per cent of 97,366 petrol pumps in the country. PSUs are also a dominant player in city gas.

The joint statement issued on Wednesday said ATGL is India's leading city gas distribution (CGD) player, serving natural gas to households, industries, commercial customers, and motorists.

Ambani, Adani join hands for fuel marketing in 2nd biz partnership

**Reeba Zachariah
& Sanjay Dutta** | TNN

Mumbai/New Delhi: Adani Total Gas and Reliance BP Mobility have formed an alliance to offer their respective fuels at each other's retail outlets, marking another collaborative venture between two of India's prominent conglomerates, Adani and Reliance. Previously, Reliance Industries acquired a 26% stake in Adani Power's subsidiary, Mahan Energy, for Rs 50 crore.

The latest collaboration enables Adani Total Gas to sell Reliance BP's petrol and diesel at their stations, while Reliance BP will distribute Adani's CNG at their outlets. This arrangement plugs gaps in both companies' fuel distribution networks.

PSU oil companies follow a similar practice in various cities, particularly Delhi, where CNG retailers have installed dispensing units at petrol pumps.

► **Continued on P 15**

Fuels to be available at select Reliance, Adani cos' outlets

► Continued from P 1

Adani Total manages 650 CNG stations nationwide, while also offering compressed biogas, EV charging facilities and LNG for transportation. Reliance BP has a larger network of 2,000 retail outlets dispensing liquid fuel, complemented by EV charging services at select locations and convenience stores.

A joint statement said they would make their respective fuels available at “select outlets”. Adani Total will install CNG dispensing units at Reliance BP outlets, while Reliance BP will “integrate Adani Total’s CNG dispensing units, within Adani Total’s authorised geographical areas”. This means that Adani Total will set up CNG dispensing units at Reliance BP stations in areas where the former has the licence to sell CNG fuel. Reliance BP’s outlets are operated under the Jio-BP brand.

The agreement covers current and future outlets of both companies. Last year, RIL acquired a minority stake in Mahan to align with rules that mandate a 26% ownership for captive users. This secured a 20-year power supply from Mahan.

Reliance, owned by Mukesh Ambani, operates in oil and gas, retail, telecom and financial services sectors. Adani, controlled by Gautam Adani, has interests in airports, seaports and cement. Their business paths have intersected recently in media, clean energy, data centres and petrochemicals.

In 2022, a firm with connections to Ambani sold interests in news broadcaster NDTV to Adani, marking the latter’s first big play in the media sector and creating competition with Ambani’s Network 18. While RIL dominates petrochemicals, Adani Petrochemicals is building a petrochemical facility in Mundra, Gujarat.

Adani Total Gas Ltd and Reliance Industries Ltd arm Jio-bp have partnered to sell auto fuel across select outlets, the firms said in a statement on Wednesday.

Select ATGL outlets will sell Jio-bp's petrol and diesel, and the Jio-bp outlets will integrate ATGL's compressed natural gas (CNG) dispensing units, the statement said.

"This partnership will enable us to leverage each other's infrastructure, thus enhancing customer experience and offerings," said Suresh P. Manghani, executive director and CEO of Adani Total Gas.

This is the second time the rival billionaires have partnered, after Reliance acquired a 26% stake in an Adani Power project in Madhya Pradesh in March 2024.

"We are united by a shared vision to offer our customers a superior selection of high-quality fuels," said Sarthak Behuria, chairman of Jio-bp.

Nirav Karkera, the head of research at Fisdom, said, "The collaboration between RIL and the Adani Group is expected to be highly synergistic, offering

significant operating leverage through their combined physical presence. By providing complementary products, the partnership aims to deliver a more comprehensive customer experience. In a sector largely dominated by state-run entities, this alliance positions both groups advantageously."

The agreement covers the partners' existing and future outlets. Adani Total Gas has 650 CNG operating stations, and Jio-bp has 2,000 outlets.

"ATGL stands to benefit from the extensive Jio-BP fuel station network, while Jio-BP can expand its pincode-level reach through ATGL's infrastructure in a cost-efficient manner. The partnership is likely to be accretive for both players, enabling better margin management through station-level cost synergies," said Karkera.

Adani Total Gas is a joint venture (JV) between Adani Group and French multinational Total Energies. The firm distributes natural gas to households, industries, commercial customers, and motorists. It also offers compressed biogas, electric vehicle charging, and liquefied natural gas for the transport segment.

Ambani, Adani tie up for fuel retail

Mumbai: Mukesh Ambani and Gautam Adani on Wednesday announced a partnership for fuel retailing to leverage each other's filling station networks. This is the second business collaboration between the two groups, after Reliance acquired stake in an Adani Power project in Madhya Pradesh last year.

Under the pact, select fuel outlets of Adani Total Gas (ATGL) will sell Jio-bp's high-performance petrol and diesel, and its CNG dispensing units will be installed at the latter's fuel outlets. The agreement covers both existing and future outlets of both partners. ATGL — a joint venture of the Adani Group and TotalEnergies — is a city gas distribution player and operates a network of around 650 CNG stations, while Jio-bp has a network of around 2,000 outlets. Jio-bp is a JV between Reliance Industries and bp.
