London: Adani Green Energy Gallery draws 7L visitors to Science Museum

MPOST BUREAU

NEW DELHI: "The Energy Revolution: The Adani Green Energy Gallery" at the Science Museum in London, the UK, in the first year of its setting up saw 7 lakh visitors exploring revolutionary technologies that can make a low-carbon future a reality, the firm said on Wednesday.

The new gallery, sponsored by Adani Green Energy Ltd (AGEL) and curated by the Science Museum, was inaugurated on March 26, 2024 by Gautam Adani, Chairman, Adani Green Energy. The gallery, to which entry is free, explores how renewable energy can help tackle climate change.

"The gallery explores how the world can generate and use energy more sustainably to urgently decarbonise to limit climate change," it said in a

Gautam Adani

statement, adding 700,000 visitors came to the gallery within one year of setting up.

Over the last one year, the gallery has hosted over 40 curator-led tours for various organisations, the Climate Change Committee, the Met Office, the World Energy Council, Univer-

science and several UK Government departments.

"These tours have provided in-depth insights into the rapid energy transition and decarbonisation efforts needed to combat climate change," it said, adding the gallery won the prestigious 2024 Brick Awards in the innovation category for its low-carbon brick bench exhibit.

It is the world's first 100 per cent hydrogen-fired brick at the gallery in the form of a unique, one-of-a-kind bench.

The exhibition displays opportunities for how the world can generate and use energy more sustainably to limit climate change, highlighting a possible future for low carbon brick manufacturing as they demonstrate between 81-84 per cent less carbon emissions from three firings vs natural gas.

NEW DELHI

'THE Energy Revolution: The Adani Green Energy Gallery' at the Science Museum in London, the UK, in the first year of its setting up saw 7 lakh visitors exploring revolutionary technologies that can make a low-carbon future a reality, the firm said on Wednesday.

The new gallery, sponsored by Adani Green Energy Ltd (AGEL) and curated by the Science Museum, was inaugurated on March 26, 2024 by Gautam Adani, Chairman, Adani Green Energy.

The gallery, to which entry is free, explores how renewable energy can help tackle climate change. "The gallery explores how the world can generate and use energy more sustainably to urgently decarbonise to limit climate change," it said in a state-

ment, adding 700,000 visitors came to the gallery within one year of setting up. Over the last one year, the gallery has hosted over 40 curator-led tours for various organisations, the Climate Change Committee, the Met Office, the World Energy Council, Universcience and several UK Government departments.

"These tours have provided in-depth insights into the rapid energy transition and decarbonisation efforts needed to combat climate change," it said, adding the gallery won the prestigious 2024 Brick Awards in

the innovation category for its low-carbon brick bench exhibit. It is the world's first 100 per cent hydrogen-fired brick at the gallery in the form of a unique, one-of-a-kind bench.

The exhibition displays opportunities for how the world can generate and use energy more sustainably to limit climate change, highlighting a possible future for low carbon brick manufacturing as they demonstrate between 81-84 per cent less carbon emissions from three firings vs natural gas. The Energy Revolution: The Adani Green Energy Gallery recently updated a unique decarbonisation tracker exhibit that shows the carbon intensity of Britain's electricity supply by tracking how many grams of carbon dioxide (CO2) were released into the atmosphere for every unit of electricity supplied in each of the years shown.

साइंस म्यूजियम : लंदन में स्थित अदाणी ग्रीन एनर्जी गैलरी में एक वर्ष में आए 7 लाख से ज्यादा विजिटर्स

बिजनेस रेमेडीज
नई दिल्ली/आईएनएस

लंदन के साइंस म्यूजियम में स्थित 'द एनर्जी रिवोल्यूशन : अदाणी ग्रीन एनर्जी गैलरी' के ऑपरेशन शुरू करने के पहले वर्ष में करीब सात लाख विजिटर्स आए हैं। यह जानकारी अदाणी ग्रुप की कंपनी ने बुधवार को दी।

अदाणी ग्रीन एनर्जी गैलरी का उद्देश्य उन विकल्पों की खोज करना है, जो ऊर्जा पैदा करने, कार्बन उत्सर्जन कम करने और जलवायु परिवर्तन से लड़ने में सहायक हों। अदाणी ग्रीन एनर्जी लिमिटेड (एजीईएल) द्वारा प्रायोजित और साइंस म्यूजियम द्वारा क्यूरेट की गई इस गैलरी का उद्घाटन पिछले साल 26 मार्च को अदाणी समूह

के अध्यक्ष गौतम अदाणी ने किया था। अदाणी ग्रुप की कंपनी ने बयान में कहा कि गैलरी में यह बताया गया है कि जलवायु परिवर्तन को सीमित करने के लिए विश्व किस प्रकार अधिक स्थायी तरीके से ऊर्जा का उत्पादन और उपयोग कर सकता है, जिससे कार्बन उत्सर्जन को तत्काल कम किया जा सके।

गैलरी ने पिछले वर्ष विभिन्न

संगठनों के लिए 40 से अधिक क्यूरेटर-नेतृत्व वाले टूर की मेजबानी की, जिनमें जलवायु परिवर्तन समिति, मेट ऑफिस, विश्व ऊर्जा परिषद, यूनिवर्सिटी और कई यूके सरकारी विभाग शामिल थे।

गैलरी ने अपनी कम कार्बन वाली ईंट बेंच प्रदर्शनी के लिए इनोवेशन श्रेणी में प्रतिष्ठित '2024 ब्रिक अवार्ड्स' भी जीता है। अदाणी ग्रीन एनर्जी

गैलरी ने हाल ही में एक यूनिट डीकार्बोनाइजेशन ट्रैकर को प्रदर्शनी में अपडेट किया है, जो प्रत्येक वर्ष में आपूर्ति की गई बिजली की प्रत्येक यूनिट के लिए वायुमंडल में कितने ग्राम कार्बन डाइऑक्साइड (सीओ₂) उत्सर्जित हुई, इसका पता लगाकर ब्रिटेन की बिजली आपूर्ति की कार्बन तीव्रता को दर्शाता है। यह एक निःशुल्क गैलरी है जो 'दिखाती है कि कैसे भूत, वर्तमान और भविष्य मानव कल्पना और इनोवेशन द्वारा आकार लेते हैं और साथ ही इसमें बताया गया है कि कैसे हम सभी को अपने ऊर्जा भविष्य को निर्धारित करने में भूमिका निभानी है।' अदाणी ग्रीन एनर्जी, अदाणी ग्रुप की कंपनी है जो कि रिन्यूएबल एनर्जी सेक्टर में कार्य करती है।--आईएनएस
