Adani Gas Q4 Net Falls 10% Amid Rising Costs

Our Bureau

Mumbai: Adani Total Gas (ATGL) has reported a 10% drop in quarterly profit after tax (PAT), largely due to a rise in the price at which it had to purchase gas. For the March quarter, profit after tax stood at ₹149 crore compared with ₹165 crore a year ago. For FY25, PAT was down by 1% at ₹648 crore compared with ₹653 crore in FY24. Revenue from operations in the March quarter was up by 15% from a year ago to ₹1,448 crore. Revenue was up on account of higher volume, mainly in the compressed natural gas (CNG) segment. For FY25, revenue was up by 12% to ₹5,398 crore. "In the year, Team ATGL has continued its thrust to expand access to PNG and CNG to large masses. ATGL has now expanded its infrastructure across CGD, close to 1 million PNG consumers and 647 CNG stations," said Suresh P Manglani, executive director and chief executive of ATGL.

Adani-Total Gas Q4 net sees 10% dip

NEW DELHI

ADANI-TOTAL Gas Ltd, the city gas joint venture of Adani group and Total-Energies of France, on Monday reported a 10 per cent drop in its fourth quarter net profit on higher cost of gas while the revenue soared 15 per cent.

Net profit of Rs 149 crore in January-March - the fourth quarter of April 2024 to March 2025 fiscal year - compared with Rs 165 crore earnings in the same period of the previous year, according to a company statement. Revenue from operations was up 15 per cent at Rs 1,448 crore.

Margins hit as natural gas price soared 27%

The margins were impacted as the cost of natural gas - which is converted

into CNG for sale to automobiles and piped to household kitchens for cooking - soared 27 per cent as the firm had to replace reduction in cheaper domestically produced fuel (called APM gas) with higher-priced gas.

The company added 42 new CNG stations to take the total strength to 647. Domestic piped natural gas users rose to 9.62 lakh after addition of 1.42 lakh in the year. After including its joint ventures, the firm had a combined CNG network of 1,072 and 1.14 million piped natural gas users.

Adani Total Gas FY25 net profit down 1.9%

TIMES NEWS NETWORK

Ahmedabad: Adani Total Gas Ltd (ATGL) on Monday reported a consolidated net profit after tax (PAT) of Rs 654 crore for FY25, marginally lower by 1.9% year-on-year against Rs 667.5 crore in FY24. The company's revenue from operations rose 12% to Rs 5,398 crore, driven by higher volumes in the CNG segment despite rising natural gas costs during the financial year.

On the financial front, EBITDA for FY25 stood at Rs 1,167 crore, up 1% year-on-year, even as cost pressures from reduced allocation of lower-cost APM gas impacted margins. Revenue for Q4FY25 grew 15% year-on-year to Rs 1,448 crore, with a PAT of Rs 149 crore. During FY25, ATGL expanded its CNG network to 647 stations, adding 100 new stations over the year. PNG home connections grew to 9.63 lakh households, with 40,991 connections added during the fourth quarter alone.

Informist
NEW DELHI

Adani Total Gas Ltd. reported a year-on-year decline in its consolidated net profit for the second straight quarter owing to a double-digit increase in total expenses for the March quarter. The Ahmedabad-based city gas distributor reported a consolidated net profit of INR 1.5 billion for the March quarter, 8% lower compared with INR 1.7 billion in the base quarter. In the preceding quarter, the company's profit was INR 1.4 billion, and was down 20% on year.

The company's consolidated revenue from operations for the March quarter was INR 14.5 billion, up 16%

The company's consolidated revenue from operations for the March quarter was ₹14.5 billion

year on year. Its other income was INR 82.2 million, down from INR 150 million a year ago. Adani Total Gas' total expenses for the reporting quarter was INR 12.6 billion, up 21% on year, but up only 3.9% sequentially. The overall expenses saw a sharp increase primarily due to a 28% on year increase in the cost of natural gas and traded items for the March quarter to INR 9 billion. Sequentially, this cost grew only 2%.

10% drop in Adani-Total Gas Q4 net profit

Margins hit as natural gas price soared 27%

NEW DELHI: Adani-Total Gas Ltd, the city gas joint venture of Adani group and TotalEnergies of France, on Monday reported a 10 per cent drop in its fourth quarter net profit on higher cost of gas while the revenue soared 15 per cent.

Net profit of Rs 149 crore in January-March - the fourth quarter of April 2024 to March 2025 fiscal year - compared with Rs 165 crore earnings in the same period of the previous year, according to a company statement. Revenue from operations was up 15 per cent at Rs 1,448 crore.

The margins were impacted as the cost of natural gas - which is converted into CNG for sale to automobiles and piped to household kitchens for cooking - soared 27 per cent as the firm had to replace reduction in cheaper domestically produced fuel (called APM gas) with higher-priced gas.

The company added 42 new CNG stations to take the total strength to 647. Domestic piped natural gas users rose to 9.62 lakh after addition of 1.42 lakh in the year. After including its joint ventures, the firm had a combined CNG network of 1,072

and 1.14 million piped natural gas users. It also had 3,401 EV charging points installed across 26 states and Union Territories. "Recently, with effect from April 16, 2025, while APM allocation of natural gas for CNG (Transport) has been reduced from 51 per cent (of the requirement) to 37 per cent, it has been replaced with (higher priced) new well gas (NWG) / intervention gas and the combined volume allocation of APM and NWG for CNG effective April 16 is at 65 per cent (of the total requirement)," the firm said. During the year, Adani-Total Gas Ltd (ATGL) continued its thrust to expand access of piped natural gas and CNG to large masses, said Suresh P Manglani, ED & CEO of ATGL.

On renewable energy sourcing, the firm has set up a compressed biogas plant at Barsana which converts agri and other waste into gas.

Adani Total Gas clocks 15 pc operational revenue growth in Q4, volume up 13 pc

AHMEDABAD, APRIL 28

India's leading energy transition company Adani Total Gas Limited (ATGL) on Monday reported strong results, with revenue from operations increasing by 15 per cent at Rs 1,448 crore in Q4 FY25.

For the entire FY25, operational revenue rose by 12 per cent on account of higher volume, primarily on CNG segment.

The volume went up 13 per cent in Q4 FY25 and 15 per cent year-on-year in FY25. The company earned a consolidated PAT of Rs 155 crore in Q4. In the January-March period, the company added 42 new CNG stations to reach 647, while expanding PNG home connections to 9.63 lakh, adding 40,991 new households.

It expanded its footprint to 3,401 installed electric vehicle (EV) charging points across 26 states/UTs.

"During the year, Team ATGL has continued its thrust to expand access of PNG and CNG to large masses. ATGL has now expanded its infrastructure across CGD (close to 1 million PNG consumers and 647 CNG stations)," ATGL ED and CEO, Suresh P. Manglani, said.

ATGL has maintained

momentum of delivering robust operational and infrastructure performance with a 15 per cent year-on-year increase in volume, accelerating operations excellence supported by digitalisation, which has contributed to maintaining EBITDA of Rs 1,167 crore, despite challenges faced by the CGD sector on domestic gas allocation, Manglani added.

Furthermore, ATGL made significant progress in its new sustainable businesses. In e-mobility, 3,401 charging points have been installed, out of which 2,338 EV charging points are energised.

In Biomass, besides stabilising CBG production at the Barsana plant, "we have launched the brand 'Harit Amrit' for the sale of an organic fertiliser. We have commissioned our first LNG station in Tiruppur.

All the above efforts are in line with our commitment to spearhead India's energy mobility transition journey with a customer-centric approach and continue to have sustainable growth," Manglani noted.

The average supply of APM-based natural gas for CNG (T) segment during the quarter was at 49 per cent, and the combined volume allocation for APM and New Well Gas (NWG)/Intervention Gas for CNG was at 56 per cent, informed the company. With effect from April 16, 2025, while APM allocation of natural gas for CNG (T) has been reduced from 51 per cent to 37 per cent, it has been replaced with New Well Gas (NWG)/Intervention Gas and the combined volume allocation of APM and NWG for CNG at 65 per cent.
