Adani arm earmarks ₹16K-18K-cr capex for FY26

RAGHAVENDRA KAMATH
Mumbai, April 27

ADANI ENERGY SOLUTIONS (AESL) is looking to incur a capex of around ₹16,000-18,000 crore in FY26, chief executive officer Kandarp Patel said during a post-earnings call. Of this, the company will invest ₹12,000-13,000 crore in transmission, ₹4,000 crore in smart meters, and ₹1,600 crore in distribution.

The company had incurred a capex of ₹11,444 crore in FY25.

Patel said the transmission project pipeline remains strong with ₹54,000 crore worth of inter state transmission system (ISTS) projects

Adani Energy Solutions CEO Kandarp Patel said the transmission project pipeline remains strong

in bid-out stage. "Going forward, we expect states to also augment transmission capacity to absorb the renewable power which the ISTS

projects will bring. Maharashtra will need to invest ₹1.5 lakh crore over next 10 years in transmission and many such projects are expected to come under tariff-based competitive bidding route, which we will bid for," he said.

FY25 saw unprecedented transmission bidding activity worth ₹1.62 lakh crore, in which AESL bagged a market share of 28% by winning 7 projects worth ₹44,000 crore. Patel said 15 under-implementation projects would add ₹8,260 crore to annual revenue once delivered over next 2-4 years.

In FY26, the firm is looking to deliver seven projects.

In distribution, the firm will participate in UP's discom privatisation drive and the bidding process will open soon. In smart meters, it has an existing order book of 22.8 million across 5 state discoms with over ₹27,195-crore revenue potential.

Adani Green first firm to turn water-positive

Adani Green has become the world's first and the only pure-play renewable independent power producer with over 10 GW capacity to become water-positive, according to a spokesperson. AGEL achieved this a year ahead of its FY26 target.

Adani Green surpasses \$1 bn in EBITDA

HANS BUSINESS
HYDERABAD

ADANI Green Energy Ltd (AGEL) on Monday posted robust FY25 results, surpassing \$1 billion in EBITDA, as operational renewable energy (RE) capacity grew a healthy 30 per cent to 14.2 GW (year-on-year), which continues to be India's largest.

The Adani Group company reported greenfield addition of 3.3 GW in FY25, India's highest ever by any RE firm, and contributed 16 per cent of nationwide utility-scale solar and 14 per cent of wind installations last fiscal.

Energy sales were up by 28 per cent (on-year) to 27,969 million units, equivalent to half of Singapore's annual power consumption, according to the company.

While revenue growth increased by 23 per cent YoY to Rs 9,495 crore, EBITDA growth rose by 22 per cent to Rs 8,818 crore, which is an industry-leading EBITDA margin of 91.7 per cent.

Adani Green Energy Executive Director Sagar Adani said: "We are playing a pivotal role in India's renewable energy growth, which

Its renewable energy capacity up 30% to 14.2 GW, energy sales rose by 28% year-on-year in FY25

is evident from our historic 3.3 GW greenfield capacity addition in FY25."

"We contributed 16 per cent to the nation's utility-scale solar and 14 per cent to wind energy additions, setting new benchmarks for rapid, large-scale renewable energy deployment. We are progressing well to develop the world's largest renewable energy plant of 30 GW by 2029 at Khavda, Gujarat, having operationalised 4.1 GW of solar and wind capacity within two years of commencing construction," Sagar Adani informed.

He further stated that the company delivered a high solar capacity utilisation fac-

tor (CUF) of 32.4 per cent in Q4 FY25.

"This underscores the site's high resource potential harnessed by deploying advanced technologies such as bifacial n-type modules, horizontal single-axis trackers (HSAT), and waterless robotic cleaning systems. Aligned with our circular economy framework, we achieved water positivity across our entire operational portfolio ahead of our FY26 target, a testament of our commitment to achieve the ESG objectives," Sagar Adani noted. According to the company, its cash profit surged 22 per cent YoY to Rs 4,871 crore in FY25.
