Adani Green hits 12GW milestone

RAGHAVENDRA KAMATH
Mumbai, February 28

ADANI GREEN ENERGY (AGEL), the renewable energy arm of the Adani Group, on Friday announced that it has surpassed a record 12,000 megawatts, or 12 gigawatts, of operational capacity. The company claims to be the first and only renewable energy firm in India to achieve this milestone.

Sumant Sinha-led ReNew is the second-largest renewable energy company in the country, with an operational portfolio of nearly 11,000 MW, evenly split between solar and wind power. Tata Power Company follows with 6,700 MW of renewable energy capacity, accounting for 43% of its of its total capacity.

JSW Energy has an operational green energy capacity of 4,700 MW.

AGEL's operational portfo-

Operational portfolio includes 8,347.5 MW of solar, 1,651 MW of wind and 2,259.6 MW of wind-solar hybrid capacity

lio of 12,258.1 MW comprises 8,347.5 MW of solar, 1,651 MW of wind and 2,259.6 MW of wind-solar hybrid capacity. This achievement underscores AGEL's commitment to delivering 50,000 MW of green power by 2030, the company said.

Adani Green hits 12 GW, eyes 50 GW clean energy by 2030

Press Trust of India

feedback@livemint.com

NEW DELHI: Adani Green Energy (AGEL) on Friday said its total operational renewable energy generation capacity has increased to 12,258.1 MW with the commissioning of an additional 275 MW of solar power project at Khavda, Gujarat.

"Adani Green Energy Twenty Five A Ltd, wholly-owned step down subsidiary of the company has operationalized an incremental 275 MW of solar power project at Khavda, Gujarat," a regulatory filing said.

According to the statement, with the commissioning of this plant, Adani Green Energy's total operational renewable energy generation capacity has increased to 12,258.1 MW.

Based on the relevant clearances, it was decided on February 27, 2025 to operationalize the plant and commence power generation from February 28, 2025, it added.

According to a company

AGEL's operational renewable energy capacity has reached 12,258 MW.

REUTERS

statement, AGEL, India's largest renewable energy (RE) company has surpassed a record 12,000 megawatts (MW) of operational portfolio.

AGEL is the first and only renewable energy company in India to reach this landmark.

AGEL's 12,258.1 MW portfolio consists of 8,347.5 MW solar, 1,651 MW wind and 2,259.6 MW wind-solar hybrid capacity.

The milestone underscores AGEL's commitment to deliver 50,000 MW of clean, affordable and reliable power by 2030.

The 12,258.1 MW operational portfolio will power more than 6.2 million homes and avoid about 22.64 million tonnes of CO2 emissions annually.

The emissions avoided were equivalent to carbon sequestered by 1,078 million trees, the company said.

The company said that its over 12GW RE capacity represents about 10 per cent of India's installed utility-scale solar and wind capacity and is contributing over 13% of India's utility-scale solar installations.

Adani Green Energy is developing the world's largest renewable energy plant of 30,000 MW on the barren waste land at Khavda in Kutch, Gujarat.

Built across 538 sq kms, it is five times the size of Paris and almost as large as Mumbai city. Once complete, it will be the planet's largest power plant across all energy sources.

Adani Green shoots past record 12,000 MW renewable energy capacity

AHMEDABAD, FEBRUARY 28

Adani Green Energy Limited (AGEL), India's largest renewable energy company, on Friday surpassed a record 12,000 megawatts (MW) operational portfolio with the commissioning of an additional 275 MW solar capacity at the world's largest renewable energy plant at Khavda in Gujarat. AGEL is the first renewable energy company in India to reach this landmark. The 12,258.1 MW portfolio consists of 8,347.5 MW solar, 1,651 MW wind and 2,259.6 MW wind-solar hybrid capacity, according to an AGEL statement.

"The milestone underscores AGEL's commitment to deliver 50,000 MW of clean, affordable and reliable power by 2030. The 12,258.1 MW operational portfolio will power more than 6.2 million homes and avoid about 22.64 million tonnes of CO2 emissions annually. The emissions avoided are equivalent to carbon sequestered by 1,078

million trees," the company said. Adani Green Energy's 12,258.1 MW contribution is the largest greenfield expansion in India's RE sector which represents about 10 per cent of India's installed utility-scale solar and wind capacity. This also constitutes over 13 per cent of India's utility-scale solar installations.

Adani Green Energy is developing the world's largest renewable energy plant of 30,000 MW on the barren waste land at Khavda in Gujarat's Kutch region. Built across 538 sq kms, the area of the project is five times the size of Paris and almost as large as Mumbai city. Once complete, it will

be the planet's largest power plant across all energy sources, the company said.

AGEL has operationalised a cumulative capacity of 2,824.1 MW renewable energy at Khavda so far. The accelerated progress at Khavda underscores AGEL's commitment to India's goal of 500 GW non-fossil fuel capacity by 2030, the company statement said. Work at Khavda continues at a fast pace, with AGEL leveraging the project execution capabilities of Adani Infra, the manufacturing expertise of Adani New Industries Limited, the operational excellence of Adani Infrastructure Management Services Ltd. and the robust supply chain of our strategic partners, the statement said.

AGEL is recording the fastest greenfield renewable energy capacity addition in India and the rapid progress at Khavda and other project sites will sustain the growth momentum, the statement added.

एजीईएल की अक्षय ऊर्जा क्षमता बढ़ी

नई दिल्ली। अदाणी ग्रीन एनर्जी (एजीईएल) ने शुक्रवार को कहा कि गुजरात के खावड़ा में 275 मेगावाट की अतिरिक्त सौर ऊर्जा परियोजना के चालू होने से उसकी कुल परिचालन अक्षय ऊर्जा उत्पादन क्षमता बढ़कर 12,258.1 मेगावाट हो गई है। एजीईएल ने शेयर बाजार को दी सूचना में बताया, कंपनी की पूर्ण स्वामित्व वाली अनुषंगी कंपनी अदाणी ग्रीन एनर्जी ट्वेंटी फ़ाइव ए लिमिटेड ने गुजरात के खावड़ा में 275 मेगावाट की अतिरिक्त सौर ऊर्जा परियोजना का संचालन शुरू कर दिया है।
