₹5,000-CRORE NCD OFFER

LIC Subscribes to Full Adani Ports Issue

Shilpy Sinha

Mumbai: State-run Life Insurance Corporation of India subscribed to the entire ₹5,000-crore non-convertible debenture (NCD) issue of Adani Ports and Special Economic Zone underscoring sustained efforts by India's largest private port operator to refinance short-term debt with longer-tenor borrowings at lower rates.

The 15-year bond, carrying a coupon of 7.75%, was issued on Thursday. It marks one of the longest-duration domestic issuances by the Adani Group in recent months.

LIC, which currently owns 8.06% of Adani Ports, was the sole investor, said people familiar with the matter. Proceeds from the issue will be used for capital expenditure, refinancing existing debt and general corporate purposes.

The Gautam Adani-led conglomerate is actively pursuing moves to extend debt maturity profile and lock in lower borrowing costs. The group's average cost of funds fell to 7.92% in FY25 from 9.02% in the previous fiscal year, aided by a mix of strategic refinancing.

"This deal shows LIC is taking large exposure to corporate bonds," said the head of fixed income at a domestic brokerage, requesting anonymity.

LIC had ₹80,000 crore invested in corporate bonds as of FY25-end. Adani Ports is continuously exploring ways to replace high-cost debt. The company has increasingly turned to long-tenor instruments to trim interest burden and improve cash flow visibility. Spokespersons for LIC and Adani Ports did not respond to requests for comment. As of March 31, Adani Ports' net debt stood at ₹36,422 crore, with Ebitda at ₹20,471 crore, and a net debt-to-Ebitda ratio of 1.78x — improving from 2.3x in FY24. The company — with a cargo handling capacity of 633 million metric tonnes — handled 450 MMT last fiscal.

LIC picks up Adani Ports' entire ₹5K cr issue

ANJALI KUMARI & SUBRATA PANDA

Mumbai, 29 May

State-owned Life Insurance Corporation (LIC) on Thursday entirely subscribed to the ₹5,000 crore bond issue of Adani Ports and Special Economic Zone (APSEZ) at a coupon rate of 7.75 per cent, said sources privy to the development.

APSEZ tapped the domestic capital market on Thursday to raise ₹5,000 crore through 15-year bonds. This was its largest ever rupee-denominated bond issue and also its first 15-year bond sale.

"There was only one bid from LIC and it was a pre-approved, privately negotiated transaction. No other bids were received, and since it wasn't a

market-based issuance, there was no green shoe option either," said a source aware of the development, adding that it's possible that the company was concerned about having to offer a higher coupon rate had it come to the broader market.

"And the tenure was quite long, which typically doesn't attract banks. Perhaps other insurance firms or provident funds could have participated, but Adani approached only LIC for this transaction," the person added.

The proceeds of the bond issuance will be used by the company to refinance/ repayment/ prepayment of its

existing debt obligation. Additionally, it will be used for capital expenditure towards the development of the port and its related infrastructure.

"Adani Ports, India's largest private port operator, has raised ₹5,000 crore through a 15-year domestic bond issuance at 7.75 per cent-- marking its longest-tenor and largest rupee debt deal to date. Such extended tenors are rare for private issuers in India's bond market, where issuances typically cap at 10 years. The coupon, priced approximately 126 bps above comparable government securities, reflects strong and increasing investor

appetite amid favourable market conditions," said Venkatakrishnan Srinivasan, founder and managing partner of Rockfort Fincap LLP.

APSEZ operates 15 domestic ports/terminals with international presence at four global ports/terminals. Along with its port operations, it has its wide logistics network and offers various port-based marine services to its owned ports/terminals.

Emails sent to Adani Group and LIC did not elicit a response.

According to a note by domestic rating agency Crisil, APSEZ's bank loan facilities and non-convertible debentures have been rated "AAA" while its commercial papers have been rated A1+.

Life Insurance Corporation of India is the sole buyer in Adani Ports & Special Economic Zone Ltd's record 50-billion-rupee (\$585 million) bond sale, according to people familiar with the matter.

The company will issue a 15-year bond with a coupon of 7.75%, the people said, asking not to be identified as the information is private. The firm will use the proceeds for capital expenditure and refinancing existing dollar debt, they said.

Investment by India's largest state-owned insurer in the rupee bond shows investors are steadily regaining confidence in the conglomerate after US Department of Justice indicted billionaire Gautam Adani over an alleged bribery plot in November, charges the group has denied.

Long-tenor bond issuances by private companies are not very common in India. Adani Ports' offering makes it a good fit for LIC as Indian insurers seek long-term investment opportunities to meet their similar nature liabilities. This is the firm's largest rupee deal and the first since January 2024, data compiled by Bloomberg show. Reuters reported about LIC buying Adani Ports debt on Thursday.

AHMEDABAD

ADANI Ports and Special Economic Zone Ltd (APSEZ) on Friday said it has successfully raised Rs 5,000 crore through a 15-year Non-Convertible Debenture (NCD).

“This isn’t merely a financing exercise; it’s a proactive execution of a meticulously developed Capital Management Plan for APSEZ, focused on maintaining conservative leverage, extending the debt maturity profile, lowering cost, and diversifying funding sources. This plan is designed to support APSEZ with its long-term vision to become the world’s largest integrated transport utility,” said Ashwani Gupta, Whole-time Director and CEO, APSEZ.

Adani Ports has set a target of handling 1 billion tonnes of cargo by FY30, more than 2x the FY25 number. Beyond its port operations, the company has also laid out ambitious plans to expand its logistics and marine businesses.

The proceeds will fund a proposed buyback of APSEZ’s US Dollar bonds,

pending board approval on May 31 2025. A full subscription would extend the average debt maturity significantly longer — from 4.8 years to 6.2 years.

With consistently improv-

ing debt repayment timelines and the cost of capital, APSEZ gains greater access to patient capital and higher liquidity, crucial for long-term planning and large-scale projects.

NEW DELHI

Adani Ports and Special Economic Zone Ltd (APSEZ), India's largest integrated transport utility, on Friday said it has raised Rs 5,000 crore in its largest ever domestic bond issue.

APSEZ raised the fund through a 15-year Non-Convertible Debenture (NCD) from Life Insurance Corporation of India (LIC), the firm said in a statement.

NCDs were raised at a competitive 7.75 per cent per annum coupon rate.

"Backed by APSEZ's strong financials and a 'AAA/Stable' domestic credit rating, the

issue locked in a competitive coupon rate of 7.75 per cent p.a. and was fully subscribed by LIC. The debentures will be listed on the BSE," it said.

The issue shows APSEZ's deep access to long-term capital from diversified sources at attractive pricing and significantly enhances APSEZ's debt maturity profile.

"The transaction highlights APSEZ access to domestic markets for its longest tenure issuance till date, and one of the

longest in Indian capital markets history," the statement said. "The proceeds will fund a proposed buyback of APSEZ's US Dollar bonds, pending board approval on May 31, 2025." NCDs were raised at a competitive 7.75 per cent per annum coupon rate.

"Backed by APSEZ's strong financials and a 'AAA/Stable' domestic credit rating, the issue locked in a competitive coupon rate of 7.75 per cent p.a. and was fully subscribed by LIC. The debentures will be listed on the BSE," it said.

The issue shows APSEZ's deep access to long-term capital from diversified sources at attractive pricing and significantly enhances APSEZ's debt maturity profile.

"The transaction highlights APSEZ access to domestic markets for its longest tenure issuance till date, and one of the longest in Indian capital markets history," the statement said. "The proceeds will fund a proposed buyback of APSEZ's US Dollar bonds, pending board approval on May 31, 2025."

A full subscription would extend the average debt maturity significantly longer - from 4.8 years to 6.2 years.

"This isn't merely a financing exercise; it's a proactive execu-

tion of a meticulously developed capital management plan for APSEZ, focused on maintaining conservative leverage, extending the debt maturity profile, lowering cost, and diversifying funding sources. This plan is designed to support APSEZ with its long-term vision to become the world's largest integrated transport utility," APSEZ CEO Ashwani Gupta said.

APSEZ has set a target of handling 1 billion tonnes of cargo by FY30, more than 2x the FY25 number. Beyond its port operations, the company has also laid out ambitious plans to expand its logistics and marine businesses. The board of APSEZ is scheduled to meet on May 31 to consider a US dollar bond buyback.

In FY25, the company reported an EBITDA (earnings before interest, taxes, depreciation, and amortisation) of

Rs 20,471 crore, marking a 19 per cent increase year-on-year. As a result, its net debt-to-EBITDA ratio declined to 1.8x - the lowest in the past decade. This performance comes despite ongoing capital expenditure across its network of 18 ports and terminals, including the launch of Vizhinjam in Kerala - India's first global transshipment port - and a new terminal in Colombo, Sri Lanka.

"With consistently improving debt repayment timelines and the cost of capital, APSEZ gains greater access to patient capital and higher liquidity, crucial for long-term planning and large-scale projects. Moreover, it also offers financial flexibility for inorganic opportunities and enables reallocation of resources towards innovation, technology upgrades, and enhancing operational efficiencies," the statement added.

LIC sole buyer in Adani Ports' record rupee bond sale

The Rs 5,000-cr issue offers 15-year bond with a coupon of 7.75%

BLOOMBERG

Life Insurance Corporation of India is the sole buyer in Adani Ports & Special Economic Zone Ltd's record Rs 5000-crore (\$585 million) bond sale, according to people familiar with the matter.

The company will issue a 15-year bond with a coupon of 7.75%, the people said, asking not to be identified as the information is private. The firm will use the proceeds for capital expenditure and refinancing existing dollar debt, they said.

Investment by India's largest state-owned insurer in the rupee bond shows investors are steadily regaining confidence in the conglomerate after US Department of Justice indicted billionaire Gautam Adani over an alleged bribery plot in November, charges the

group has denied.

Long-tenor bond issuances by private companies are not very common in India. Adani Ports' offering makes it a good fit for LIC as Indian insurers seek long-term

investment opportunities to meet their similar nature liabilities. This is the firm's largest rupee deal and the first since January 2024, data compiled by Bloomberg show.

Reuters reported about LIC buying Adani Ports debt earlier on Thursday.

Representatives for the Adani Group and LIC didn't immediately reply to emails seeking comments.

Separately, Adani Ports recently raised about \$150 million through a bilateral loan from DBS Group Holdings Ltd. Last month, the group raised about \$750 million through an offshore private placement bond to fund an acquisition of a construction firm. BlackRock Inc. subscribed to about a third of the issuance.

अदाणी पोर्ट्स ने बॉन्ड के जरिये 5,000 करोड़ रुपये जुटाए

नई दिल्ली (भाषा)। अदाणी पोर्ट्स एंड स्पेशल इकोनॉमिक जोन लिमिटेड (एपीएसईजेड) ने घरेलू बॉन्ड के जरिए 5,000 करोड़ रुपये जुटाए हैं। यह कंपनी का अबतक का सबसे बड़ा घरेलू बॉन्ड निर्गम है। एपीएसईजेड ने शुक्रवार को एक बयान में कहा कि उसने भारतीय जीवन बीमा निगम (एलआईसी) से 15 साल के गैर-परिवर्तनीय डिबेंचर (एनसीडी) के जरिए यह कोष जुटाया है। एनसीडी को 7.75 प्रतिशत सालाना की प्रतिस्पर्धी कूपन दर (ब्याज) पर जुटाया गया।

बयान के अनुसार, "एपीएसईजेड की मजबूत वित्तीय स्थिति और 'एएए/स्थिर' घरेलू साख रेटिंग के समर्थन से, यह निर्गम 7.75 प्रतिशत सालाना की प्रतिस्पर्धी कूपन दर पर बंद हुआ और एलआईसी से पूरा अभिदान मिला। डिबेंचर बीएसई में सूचीबद्ध किए जाएंगे।"

यह निर्गम एपीएसईजेड की आकर्षक मूल्य पर विविध स्रोतों से दीर्घकालिक पूंजी तक गहरी पहुंच को दर्शाता है तथा एपीएसईजेड की ऋण परिपक्वता प्रोफाइल को महत्वपूर्ण रूप से बढ़ाता है।
