In Dharavi They Stitch Dreams of Building Another Mumbai

Redevelopment project may include a commercial business district to boost growth

Kailash Babar

Mumbai: The redevelopment of Dharavi, Asia's largest slum, is expected to include an exclusive commercial business district adding a significant business and employment component to one of the most complex urban transformation efforts globally.

A substantial portion of the nearly 600-acre prime land in the heart of the country's financial capital will be earmarked for commercial development, with the intent to create a central business district (CBD) designed to attract companies from various sectors. This district is expected to include Grade-A office spaces, high-street retail, co-working hubs, hotels, and support infrastructure, according to people familiar with the planning process.

"The commercial zone will be carved out of land that is not reserved for residential rehabilitation. This will also help in upgrading existing businesses operating in Dharavi ushering them into formal economy. The intent is to grow the Dharavi economy by at least 3X," said one of the persons mentioned above.

The inclusion of this commercial

area is aimed at creating a self-sustaining economic engine within Dharavi, while also providing long-term revenue streams to fund other components of the nearly ₹96,000-crore redevelopment project.

The Dharavi Redevelopment Project, awarded to Adani Group through a specially formed joint venture company with the state government, aims to rehabilitate more than one million residents and regularise over 12,000 commercial units currently operating in the unorganised sector.

The plan is to deliver integrated development that combines formal housing, upgraded civic infrastructure, social amenities, and structured commercial spaces.

The business district component is being designed to both accommodate existing small businesses within Dharavi and attract new commercial tenants to the area.

"A hybrid integrated approach is being considered, where portions of the commercial inventory may

If executed well, this component could recast Dharavi as a mixed-use urban business precinct, experts say

be leased to large corporations, while designated spaces could be offered to small-scale industrial and retail businesses that are already part of Dharavi's economy," said another person mentioned earlier.

The upcoming multi-modal transport integration is expected to further support the viability of the commercial hub. The Mumbai Metropolitan Region Development Authority (MMRDA), now appointed as the nodal agency for the adjoining multi-modal transit hub (MMTH), is working to integrate Dharavi with major railway lines, metro corridors, and arterial roads.

The proposed commercial district is expected to benefit significantly from this connectivity, making it attractive to businesses lo-

oking for centrally located office and retail space.

Experts believe that this commercial component, if executed well, could redefine Dharavi's perception from an informal settlement into a mixed-use urban business precinct. "For the commercial zone to succeed, it must be integrated with the city's infrastructure and be positioned competitively with other business districts. Its success can create a new benchmark for urban redevelopment," said another person familiar with the city's infrastructure planning.

Work on initial phases of the redevelopment project including surveys, resettlement planning, and infrastructure design, is currently underway.

Mumbai: The redevelopment of Dharavi, Asia's largest slum, is expected to include an exclusive commercial business district adding a significant business and employment component to one of the most complex urban transformation efforts globally.

A substantial portion of the nearly 600-acre prime land in the heart of the country's financial capital will be earmarked for commercial development, with the intent to create a central business district (CBD) designed to attract companies from various sectors. This district is expected to include Grade-A office spaces, high-street retail, co-working hubs, hotels, and support infrastructure, according to people familiar with the planning process.

"The commercial zone will be carved out of land that is not reserved for residential rehabilitation. This will also help in upgrading existing businesses operating in Dharavi ushering them into formal economy. The intent is to grow the Dharavi economy by at least 3X," said one of the persons mentioned above.

The inclusion of this commercial area is aimed at creating a self-sustaining economic engine within Dharavi, while also providing long-term revenue streams to

fund other components of the nearly ₹96,000-crore redevelopment project.

The Dharavi Redevelopment Project, awarded to Adani Group through a specially formed joint venture company with the state government, aims to rehabilitate more than one million residents and regularise over 12,000 commercial units currently operating in the unorganised sector.

The plan is to deliver integrated development that combines formal housing, upgraded civic infrastructure, social amenities, and structured commercial spaces. The business district component is being designed to both accommodate existing small businesses within Dharavi and attract new commercial tenants to the area.

"A hybrid integrated approach is being considered, where portions of the commercial inventory may be leased to large corporations, while designated spaces could be offered to small-scale industrial and retail businesses that are already part of Dharavi's economy," said another person mentioned earlier.

ET's email query to Navbharat Mega Developers (NMDPL), the SPV undertaking the project, remained unanswered.

The upcoming multi-modal transport integration is expected to further support the viability of the commercial hub.

Mumbai

FOR A THIRD TIME BMC extends deadline for Deonar waste bioremediation

EXPRESS NEWS SERVICE
MUMBAI, JUNE 29

FOR THE third time, the Brihanmumbai Municipal Corporation (BMC) has extended its deadline for the Rs 2,368 crore tender to appoint a contractor to carry out bioremediation of 185 lakh tonnes of waste and reclaim 110 hectare of land at the Deonar dumpsite over a period of three years.

Bioremediation is a process involving treating garbage with the help of natural elements like air, sunlight, and microorganisms. Over time, as the biodegradable waste decomposes, the remaining non-biodegradable extracts are either recycled or treated artificially. The process of bioremediation is proposed at the Deonar dumpsite, which is among one of the sites that have been selected by the state government for constructing housing tenements for the Dharavi Redevelopment Project (DRP) – a venture steered by the Adani group and Maharashtra government's Slum Rehabilitation Authority (SRA).

Earlier on May 14, the civic body had floated a tender inviting bidders to clear the Deonar dumpsite through bioremediation with a deadline of June 3, which was later extended to June 23 and further, revised to July 1. On Saturday, for the third time in a month, the BMC has

again extended the deadline for the bidders to July 4.

In the revised corrigendum, the civic body has revised the conditions, permitting a price escalation of five percent after two years.

According to officials, the deadline has been revised owing to extension requested by bidders amid several concerns. For the record, at least 23 bidders had come forward and expressed interest during a pre-bid meeting convened earlier.

"Primarily, there are two major concerns which have been raised by the bidders. Firstly, the concerns pertain to the price as there was no provision for price escalation in the initial tender clause. Furthermore, many interested bidders had requested allocation of more time to collect and submit the documents. Another reason is the unique nature of the work stipulated in the tender, wherein nearly 2 crore metric tonnes of legacy waste has to be cleared over a period of three years," said a civic official. "This is our final corrigendum, following which no other extensions will be granted."

According to the civic data, of the 1.85 crore metric tonnes of waste which is currently stacked at the dumpsite, nearly 48 percent comprises construction debris, 41 percent is inert waste while 10 percent is accounted for by dry, miscellaneous waste.

अदानीवर एवढे प्रेम?

लालबाग : धारावी पुनर्विकासाठी कुर्ला मदर डेअरीची साडेआठ हेक्टर जमीन अदानीच्या घशात घालण्याचा निर्णय मंत्रिमंडळाने घेतला. या निर्णयाला अनेक वर्षांपासून अनेकांचा विरोध होता. यापूर्वीही महायुती सरकारने मुंबईतील अनेक मोक्याच्या जागा अदानीला देण्याचा निर्णय घेतलेला आहे. सरकारला अदानीशिवाय दुसरा कोणीच कसा मिळत नाही? तुमचे हे प्रेम फक्त अदानी नावाच्या उद्योगपतीवरच का?

- अरुण पां. खटावकर

Criticizing the government's repeated favoritism, Arun Pan. Khataavkar questioned why only Adani is chosen for key Mumbai projects like Dharavi redevelopment and Kurla Mother Dairy land. He alleged that strategic assets are being handed to one industrialist, asking if the government sees no other capable option beyond Adani.

कचरासफाईच्या निविदेला तिसऱ्यांदा मुदतवाढ

देवनारसंबंधी मुंबई महापालिकेचा निर्णय

लोकसत्ता प्रतिनिधी

मुंबई : देवनार कचराभूमीवरील अनेक वर्षांपासूनचे कचऱ्याचे डोंगर साफ करण्यासाठी मुंबई महापालिकेने मागवलेल्या निविदा भरण्यासाठी तब्बल तिसऱ्यांदा मुदतवाढ देण्यात आली आहे. आता निविदाकारांना ४ जुलैपर्यंत निविदा भरता येणार असून ८ जुलै रोजी वित्तीय लिफाफा उघडला जाईल. त्यानंतर या कामासाठी कंत्राटदार निश्चितीची प्रक्रिया पार पाडली जाणार आहे.

देवनार कचराभूमीची जागा धारावी पुनर्विकास प्रकल्पासाठी देण्याकरिता तेथील अनेक वर्षांपासूनचे कचऱ्याचे डोंगर हटवून जमीन रिकामी करण्याचे आदेश राज्य सरकारने मुंबई महापालिकेला दिले. त्यानंतर जुना कचरा हटवण्यासाठी मुंबई महापालिकेने मे महिन्यात निविदा मागवल्या. ही निविदा भरण्यासाठी आधी ३ जूनपर्यंतची मुदत देण्यात आली होती. मात्र त्यानंतर तीनवेळा

कामाचे स्वरूप

- एकूण जुन्या कचऱ्याचे अंदाजित वजन - १८५ लाख मेट्रिक टन
- एकूण व्यास जागा - ११० हेक्टर
- कचरा हटवण्यासाठी एकूण अंदाजित खर्च - २,३६८ कोटी
- कंत्राट कालावधी - तीन वर्षे (पावसाळ्यासहित)
- दरदिवशी कचऱ्याची विल्हेवाट - २३ हजार मेट्रिक टन
- दर दिवशी वाहनांची ये जा - १२०० प्रतिदिन

मुदतवाढ देण्यात आली असून आता ४ जुलैला अंतिम मुदत संपणार आहे.

पूर्वबोली बैठकीत या कामासाठी २१ कंपन्यांनी रस दाखवला होता. निविदा भरण्यासाठी व कागदपत्रे जमवण्यासाठी इच्छुक निविदाकारांनी वेळ वाढवून मागितल्यामुळे निविदेची मुदत वाढवण्यात आल्याचे पालिकेच्या अधिकार्यांनी सांगितले.

धारावी पुनर्विकास प्रकल्पासाठी झोपडपट्टी पुनर्वसन प्राधिकरणाने संपूर्ण मुंबईत विविध ठिकाणच्या जागांची मागणी केली आहे. प्रकल्पातील अपात्र रहिवाशांना सामावून घेण्यासाठी सरकार विविध ठिकाणची जमीन ताब्यात घेत आहे. देवनार कचराभूमीची १२४.३ एकर जागाही या प्रकल्पासाठी देण्याचा निर्णय सहा महिन्यांपूर्वी झाला आहे. मात्र तेथे गेल्या सुमारे शंभर वर्षांपासून साठलेल्या जुन्या कचऱ्यावर शास्त्रोक्त प्रक्रिया करून ही जमीन रिकामी करून देण्याची मागणी धारावी पुनर्विकास प्रकल्प प्राधिकरणाने केली आहे. कचऱ्याची विल्हेवाट लावण्याची जबाबदारी मुंबई महापालिकेवर टाकण्यात आली असून महसूल व वन विभागाने पालिका आयुक्तांना पत्र लिहून ही जमीन रिकामी करण्याची विनंती फेब्रुवारी महिन्यात केली होती. मुलुंडप्रमाणेच देवनारमधील कचऱ्याच्या विल्हेवाटीसाठी बायोमायनिंगचा प्रकल्प असणार आहे.

The BMC has extended the Deonar waste tender deadline to July 1, with contractor selection on July 7. The project aims to clear 5 lakh metric tonnes of century-old waste from 5 hectares for Dharavi redevelopment. A bioremediation model, like Mulund's, will be used to scientifically process the waste.
