Dharavi project seeks exemptions on GST, staircase, open space rules

VALLABH OZARKAR Mumbai, June 1

FROM TAX EXEMPTIONS to waivers on charges for any deficiencies in staircase and open space rules, the Dharavi redevelopment project has sought several key exemptions that are pending government

approval.

These, along with other issues awaiting clearance, were flagged in a presentation by the Navbharat Mega Developers Private Limited (NMDPL) the special purpose vehicle (SPV) set up through a joint venture between Adani Properties Private Limited (80%) and the state government's Slum Rehabilitation Authority (20%) to execute the redevelopment project - during a high-level review meeting chaired by Chief Minister Devendra Fadnavis on May 28 at which the project master plan was cleared.

When contacted, a senior official with the housing department said while these pending issues are yet to be cleared by various departments, they are not a part of the master plan. "The pending issues raised are important for the project, and the respective departments will follow their procedures and take a final decision," the official said.

According to NMDPL, these pending approvals are required to unlock land, complete legal formalities, reduce upfront costs, and proceed with housing and infrastructure components of the plan.

LAND STATUS SUMMARY

Land parcel	Area*	Status
Dharavi Core Area**	269.3	Awaiting measurement by SLR
Kurla Dairy	21	In possession; sub-lease pending
Jamasp Salt Pan, Mulund	58.5	42.5 acres in possession
Aksa & Malvani pending	140	GR issued; demand notice
Deonar	124.3	Allocation underway
Arthur & Jenkins Salt Works	197.4	Transfer pending

**This is a net usable area of 108 ha out of the total 251 ha

*Area in acre

Total allotted area: **810.5 acre**Possession (as of May 2025): ~ **63.5 acre**

These include land transfers, waivers on tax and staircase/ open space premium, regulatory relaxations that would help NMDPL carry out the redevelopment, rehabilitate slum dwellers and utilise the land parcels - including Kurla Dairy land, Jamasp Salt Pan in Mulund, Aksa and Malvani, Deonar, and Arthur & Jenkins Salt Works, accumulating to over 800 acres -- that have been allocated for rehabilitation of ineligible residents of Dharavi.

While the master plan envisages construction of 58,532 residential units and 13,468 commercial and industrial units on 47.2 hectares of the existing Dharavi area for the rehabilitation of eligible residents, the NMDPLwill utilise around 541 acres of land allotted to it across the city (outside of Dharavi) for construction of rental housing for ineligible residents.

Besides, another 47.95 hectares of the gross area of 251 hectares have been earmarked for commercial development.

The developer has flagged at least eight key issues awaiting government approval — across departments including housing, urban development, revenue and finance — and requested that the decisions be

finalised by July to maintain project momentum. The project is scheduled to be completed by 2032.

Reimbursement of state GST

NMDPLhas requested final notification for reimbursement of State GST (SGST) paid on construction for 15 years in rehabilitation and 5 years in commercial units. This will help it to avail Input tax credit on the construction of rehabilitation as well as commercial units.

GST exemption on 'pure services'

The proposal asks the state to consider the functions of the redevelopment project under Article 243W of the Constitution, enabling exemption from 18% GST on "pure services" like consultancy, project management and design (fees).

Waiver on staircase, open space premiums

A government Resolution waiving or capping charges on the developer for staircase and open space deficiencies is pending with the Urban Development Department since January this year. These premiums or charges are applied when buildings/ projects have less open space or staircase area than required by rules. Waiving or reducing these charges would help lower the overall project cost.

Dharavi 'landowners' form last line of resistance

Bella Jaisinghani & Aaliyah Berchman

Mumbai: Swathes of cottage industries across the 600-acre spread of Dharavi are opposing the ongoing eligibility survey for commercial and residential resettlement. Residents and workshop owners—approximately 15,000 in number—are still holding out, reluctant to allow surveyors inside or provide documentary proof of ownership, fearing they will be displaced or their claims for more rehab space will not be upheld.

Last week, the state govt reported that its door-to-door survey is meeting with resistance from mainly three quarters, namely Compound 13, Kumbharwada and "slum encumbered private landowners". Interestingly, Compound 13 is a misnomer, there is no locality by that name. It is, in fact, a cluster of scrap recycling units near Mahim (East) railway station, known locally as Sanaullah and Shakir compounds among other lanes.

TOI visited the enclaves where redeve-

Govt's eligibility survey has made the least progress in three pockets including "slum encumbered private landowners"

lopment is being proposed through a joint venture of the state and the Adani group. Artisans and businessmen admitted they have shut their doors to surveyors. "Firstly the 'paatra-apaatra' (eligibility) survey is being conducted by the builder's men. Some govt officials occasionally accompany them, but they just stand by That itself is a warning bell. After all, it is in the builder's interest to declare most of us 'apaatra' (ineligible) for rehabilitation," said a scrap dealer in Shakir Compound.

The two-feet wide alleys of Dharavi house separate layouts of pottery, plastic and metal recycling, textile and zari units. Steep iron staircases lead to upper storeys that have been perilously added on. Workshops too have gone vertical with extended families building taller slums. "We now dry our pottery on the third storey terrace not the open ground," said Nathalal Chauhan, an old hand in Kumbharwada. "Some potters are resisting the survey because people are telling them they can get a better deal with other developers," he said. But he concedes that they need to allow surveyors to measure their premises. "You cannot claim to own 3,000 or 5,000 sq ft yet decline to show them the area you occupy," he said.

▶'No transparency in process', P 2

SENSITIVE TO LIVELIHOODS

OF DHARAVIKARS

The Dharavi redevelopment project is carrying out

the biggest ever survey in SRA's history, and it's now in its final stretch. Over

1 lakh tenements have already been numbered,

and household surveys have been completed for more than 80,000

The survey is being done by DRP officials, with the

tenements.

No transparency in redevpt process, say Dharavi traders resisting surveys

Bella Jaisinghani & Aaliyah Berchman

Mumbai: The apparent lack of transparency in the Dharavi redevelopment process has resulted in resistance to the eligibility surveys being carried out, especially in the narrow alleys that are home to many cottage industries.

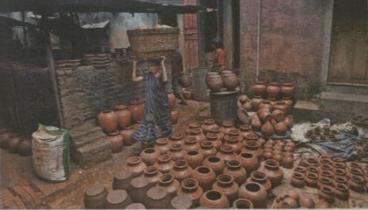

"I stand with both, my brothers and with the builder whose men visit me frequently. My fellow potters on 13 acres of Kumbharwada should not fear. Yes, they should have been consulted, I agree," says Nathalal Chauhan, an old hand in the Kumbharwada enclave. "On the other hand," he adds, "the survey will be smooth if they allow officials to enter their premises and measure the space they claim toown." He says that is the best way to legitimise their claims for more rehab space.

However, an elderly scrap dealer in Shakir Compound in Mahim, which houses a cluster of scrap recycling units, does not share Chau-han's confidence. He says the surveyors, who represent the builder more than the state, have a vested interest in undermining their eligibility. "The fewer people to rehouse, the better. At least if BMC were conducting the assess-ment, we would feel confi-dent. We could also source official documents or records that were found wanting. But with a powerful builder, one missing paper or wrongly filled document involves risk-ingour future," he said.

Abdullah Rehan, a professional whose family has lived in Dharavi for three genera tions, said, "We have received nothing in writing from the govt stipulating what kind of homes or spaces we will re-ceive under redevelopment. As owners of factories and houses, we must be informed and consulted about the detailed plan." Rehan hails from a family which has made its wealth from the vast recycling indust thrives in Dharavi. industry

Another potter, Abbas Galwani, said, "My grandfa-ther settled here in 1906. The British govt had given this

SURVEYORS REPRESENT BUILDER, HAVE VESTED INTERESTS'

WHAT'S AT STAKE: Dharavi is a melting pot of multiple cottage industriesfrom leather and textiles to pottery and papads-each trade helmed by a specific community. The state govt recently said its eligibility survey has met with resistance mainly in three enclaves

land to potters on a 150-year lease. What will happen once the lease ends? Neither the art and culture." govt nor developer is giving us in writing where we will be rehoused and the area to be allotted. Therefore, the re-

sistance to the survey. If you displace all these indigenous

cottage industries, you will

be doing disservice to India's

However, sources in the know of the project said, "Around 1 lakh tenements have been numbered in the survey, which is almost coming to an end. In fact, the household survey has been completed for more than 80,000 tenements. There are only 15,000-odd residents who have not done so. Should the welfare of over 1 lakh people be sacrificed for the sake of these few? Did the resistant communities speak to those who showed faith in the survey?"

Denying lack of transparency, the sources said the tender document specifies all the rehabilitation details for various constituents. "Also, were the residents consulted the previous four times that rede velopment was proposed for Dharavi? Why are they raising this question only now when the project is actually taking off?" they said.

Usage of fungible FSI

Usage of fungipite FSI
The developer has sought approval to use 35% fungible floor space index (FSI) to increase the size of renewal tenements (units inside Dharavi) beyond the standard 405 sq ft. As housing societies demand more than the minimum 405 sq ft. the SFV proposes using 35% fungible FSI to accommodate 400 sq. it, the SFV proposes using 35% fungible FSI to accommodate additional area, subject to viabil-ity, A proposal on this was sent in March this year. "By letter dated 23.10.2023 and 18.06.2024, housing depart-ment was asked to provide clarity con the carmer area of present less."

(on the carpet area of renewal ten-ements)," the NMDPL has said.

So far, meetings have been held with the 18 housing societies inside Dharavi, and the developer has said the residents have been demanding a higher carpet area. As per regulations, the minimum carpet area is 405 sq ft.

Sub-leasing rights

Sub-leasing rights
The NMDPL has sought sub-leasing rights to transfer devel-oped units on 21 acres of Kurfa
Dairy land to societies/ end users.
It has said that implementation of
the project on land given via gov-ernment resolutions of the rev-ernment resolutions of the rev-ernment developments can-not be undertaken without such sub-lease.

Delay in land

possession

possession
Although a government resolution for allocation of 140 acres in Alssa and Malvani areas was issued in October 2024 and measurement was completed in January 2025, the NMDPL has said the Collector has not issued a payment demand notice, halting the possession of land.

Delay in land demarcation

The NMDPL has said the demarcation of core Dharaviland by the superintendent of land records has been pending for over nine months even as reminders were sent in April and May. It points out that the process is crit-ical for plotting, layout design, and planning approvals.

Stamp duty exemption

The NMDPL has requested a waiver of stamp duty charges on long-term land leases, particularly those with central agencies like Railways, as government projects may be exempted from stamp duty under certain rules.

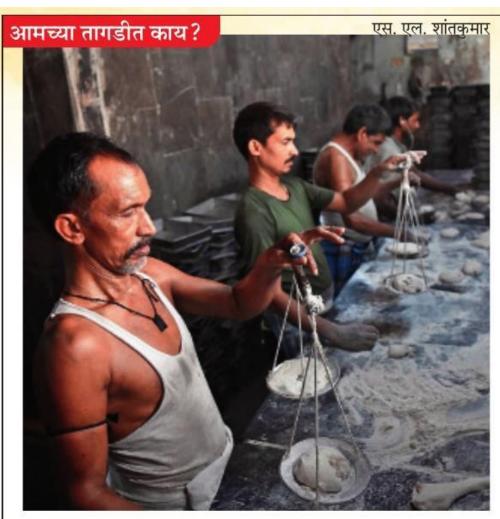

Meanwhile, Rajendra Korde, president of the Dharavi Residents. Association, said the number of new units being constructed was far lower than the number of evisting units. He said surveys should first be conducted properly and every tenant should be considered eligible. Korde also demanded that the project master plan should be made public, and suggestions/ objections should be taken from the residents. According to the eligibility criteria for the redevelopment project, ground-floor residents who settled in Dharavi before January 1, 2000. and get a 350 sq ft house within Dharavi free of cost those who settled between January 1, 2000, and January 1, 2011, can get a 300 sq ft house outside Dharavi Morte Sz 51 lakh under the Pradhan Mantri Awas Yojana (PMAY). Residents of typee-floor structures built before November 15, 2022, and ground-floor structures built between January 1, 2011, and November 15, 2022, and ground-floor structures built before November 15, 2022, will be offered rental accommodation outside Dharavi. They can also opt for a 'hire-purchase' scheme for 300 sq ft houses. president of the Dharavi Residents Association, said the number of

Delhi

महाराष्ट्र के मुख्यमंत्री देवेंद्र फडणवीस ने धारावी पुनर्विकास परियोजना पाइवेट लिमिटेड (डीआरपीपीएल) के हितधारकों के साथ बैठक के बाद धारावी बस्ती के पुनर्विकास के लिए मास्टर प्लान को मंजूरी दे दी।

धारावी मास्टर प्लान को मंजूरी, विरोध में निवासी

आमिर अंसारी

ज्य सरकार द्वारा जारी की गई धारावी पुनर्विकास परियोजना के मास्टर प्लान में कहा गया है कि मौजूदा धारावी क्षेत्र में पात्र किरायेदारों के पुनर्वास के लिए 58,532 आवासीय इकाइयां और 13,468 वाणिज्यिक और औद्योगिक इकाइयां बनाई जाएंगी। मंजूरी देते हुए फडणवीस ने कहा, "धारावी को इसकी मूल अवधारणा को संरक्षित करते हुए पर्यावरण के अनुकूल और एकीकृत तरीके से विकसित किया जाना चाहिए।" उन्होंने कहा कि परियोजना की सर्वोच्च प्राथमिकता स्थानीय कारीगरों और छोटे पैमाने पर व्यवसाय चलाने वालों का पुनर्वास होना चाहिए।

धारावी पुनर्विकास योजना (डीआरपी) अदाणी ग्रंप और महाराष्ट्र सरकार के बीच एक जॉइंट वेंचर है, जिसका उद्देश्य एशिया की सबसे वडी झुगी बस्ती का पुनर्विकास करना है। इसमें लगभग 60,000 परिवार रहते हैं। हालांकि, इस परियोजना का विरोध हो रहा है क्योंकि निवासियों ने धारावी में छोटे पैमाने के विनिर्माण और औद्योगिक इकाइयों के अस्तित्व को लेकर चिंता जताई है। मुख्यमंत्री कार्यालय के अनुसार, पात्र लाभार्थियों को पुनर्विकसित क्षेत्र में जगह दी जानी चाहिए और पुनर्वास की अवधारणा में धारावी की मुल व्यावसायिक पहचान को बनाए रखना चाहिए। इसके लिए संबंधित एजेंसियों को स्थानीय लोगों को विश्वास में लेकर विकास कार्य करना चाहिए।

नाराज क्यों हैं धारावी के लोग

धारावी मास्टर प्लान को मंजूरी दिए जाने पर प्रतिक्रिया देते हुए अधिकार कार्यकर्ताओं ने पूछा कि क्या सरकार पुनर्वासित किए जाने वाले लोगों के साथ योजना पर चर्चा करेगी। वकील और

कार्यंकर्ता सागर देवरे ने द हिंदू अखवार से कहा, "नागरिकों को वताया जाना चाहिए कि उनका पुनर्वास कहां किया जाएगा। लोगों से आपितयां या सुझाव लिए जाने चाहिए, जो नहीं किए गए हैं। इसलिए, यह स्पष्ट नहीं है कि उनका पुनर्वास कहां किया जाएगा।" उन्होंने कहां कि 1,200 एकड़ जमीन डेवलपर को दे दी जाएगी, जबकि निवासियों को यह स्पष्ट नहीं है कि कौन-कौन अनिधकृत कब्जेदार माना जाएगा।

धारावी पुनर्विकास समिति के अध्यक्ष राजेंद्र कोडें ने इंडियन एक्सप्रेस अखवार से कहा, "धारावी में एक लाख ग्राउंड फ्लोर स्ट्रक्चर हैं, जिनके निवासी पुनर्वास के लिए पात्र हैं। इसके अलावा, कम से कम 115-2 लाख किरायेदार हैं जो दूसरी और तीसरी मंजिल पर रहते हैं। अगर पात्र किरायेदारों के लिए केवल 72,000 इकाइयां हैं, तो क्या वे वाकी 30,000 किरायेदारों को पुनर्वास के लिए अयोग्य घोषित करने जा रहे हैं? क्या उनका सर्वेक्षण सही है? क्या उन्होंने सर्वेक्षण पूरा कर लिया है?"

धारावी की नई पहचान

लगभग 72,000 नए आवासों की योजना बनाई गई है, जिसमें घर, वाणिज्यिक दुकानें और छोटे उद्योगों के लिए जगह शामिल होंगी। हालांकि, पात्र निवासियों की संख्या की पुष्टि करने के लिए एक उचित सर्वेक्षण अभी भी चल रहा है। कुंभारवाड़ा और निजी स्वामित्व वाली झुग्गी भूमि जैसे कुछ क्षेत्रों ने डोर-टु-डोर सर्वे कार्य का विरोध किया है। मास्टर प्लान के अनुसार, विकास के लिए उपलब्ध कुल 108 199 हेक्टेयर उपयोग योग्य क्षेत्र में से 47 120 हेक्टेयर धारावी के किरायेदारों के पुनर्वास के लिए है, 10 188 हेक्टेयर अतिरिक्त सुविधाओं जैसे संग्रहालयों, हॉस्टल और कम्युनिटी हॉलों के लिए, 2 196 हेक्टेयर उपयोगिता के लिए और वाकी 47 195 हेक्टेयर भूमि है जिसे एसपीवी एनएमडीपीएल द्वारा बाजार में विक्री के लिए डेवलेप किया जाएगा।

झग्गी वस्ती होने के वावजूद, धारावी को एक महत्वपूर्ण ओद्योगिक क्षेत्र माना जाता है, जहां कई तरह के छोटे से लेकर मध्यम स्तर के सेक्टर हैं और यह शहर के नियात ढांचे का एक अनिवार्य हिस्सा है। मास्टर प्लान में मौजूदा विनिर्माण और खुदरा उद्योगों के पुनर्वास की भी परिकल्पना की गई है। पुनविंकास का नेतृत्व एक स्पेशल पर्पज व्हीकल (एसपीवी), नवभारत मेगा डेवलपर्स प्राइवेट लिमिटेड (एनएमडीपीएल) द्वारा किया जा रहा है, जिसका गठन महाराष्ट्र सरकार के स्लम पुनर्वास प्राधिकरण (एसआरए) और अदाणी समृह के धारावी पुनर्विकास परियोजना प्राइवेट लिमिटेड (डीआरपीपीएल) के बीच एक संयुक्त उद्यम के माध्यम से किया गया है। इस परियोजना का उद्देश्य जनवरी 2032 तक धारावी को एक आधुनिक और अच्छी तरह से विकसित शहरी स्थान में बदलना है। लेकिन स्थानीय लोग इसका कड़ा विरोध कर रहे हैं। (साभार- दवायर)
