Jr NTR and Prashanth Neel kick off *NTR31* with serious seaside prep

After wrapping up his Bollywood debut with *War 2* alongside Hrithik Roshan, Jr NTR is now gearing up for his next high-octane project, *NTR31*, helmed by *KGF* and *Salaar* director Prashanth Neel. As anticipation builds around the collaboration, a new picture shared by the makers has sent fans into a frenzy.

The photo, posted by the official handle of NTRNeel, captures Jr NTR and Prashanth Neel in an intense discussion by the seashore. Captioned, "Two MASS ENGINES ready to wreck it all from tomorrow," the post hints at the explosive cinematic experience the duo is set to deliver. While Neel appears focused and composed, what truly caught fans' attention was Jr NTR's dramatic physical transformation. Dressed casually, the actor appeared significantly leaner and more chiseled than before—fueling widespread speculation online.

Rumours began circulating that the *Devara* star might have used Ozempic, a drug often associated with rapid weight loss. However, Jr NTR's team was quick to dismiss the claims, clarifying that the actor has adopted a strict new fitness routine, which includes consuming just one meal a day.

This upcoming film, *NTR31*, marks one of the most eagerly awaited pan-Indian collaborations, blending Jr NTR's mass appeal with Neel's larger-than-life action storytelling. Backed by Mythri Movie Makers, NTR Arts, and T-Series, the film promises to be a game-changer in Indian cinema.
