The announcement has already sent waves of excitement across the film industry and among fans, marking the beginning of a collaboration that promises to deliver something truly spectacular.

Hombale Films has emerged as a formidable name in Indian entertainment, known for creating content-driven, high-impact blockbusters like KGF Chapter 1 & 2, Salaar: Part 1 – Ceasefire, and Kantara. With each film, they have pushed the envelope in terms of storytelling, scale, and production values, setting new standards for pan-India cinema. Now, by teaming up with Hrithik Roshan, they are taking their vision to the next level.

Founder Vijay Kiragandur shared his excitement about the partnership, stating, “Very happy with this collaboration. At Hombale Films, our purpose is to tell stories that inspire and transcend boundaries. Partnering with Hrithik Roshan is a step forward in realizing that vision, crafting a film where intensity meets imagination on a grand scale. We are committed to delivering an experience that is both powerful and timeless.”

230 acres, includes the construction of 13 to 14 film studios, an underwater shooting facility, post-production centers, a cinema museum, and a dedicated film institute. This phase will see an initial investment of ₹1,510 crore.

The film institute will occupy a massive 3 lakh square feet and offer professional courses in acting, editing, VFX, scriptwriting, mass communication, and more. It also includes a film festival zone, guest accommodations, and a grand convention center with a capacity of 10,000 people.

The ambitious project is expected to generate over five lakh jobs, with special emphasis on training and employing youth from Uttar Pradesh, especially from the Yamuna Expressway region.

However, the project has encountered planning challenges. YEIDA has flagged issues such as alterations in green zone layouts and inclusion of commercial spaces. The consortium has been instructed to revise its plans and obtain necessary clearances, including fire safety and structural approvals.
