Rural areas avail over 75 pc cancer treatments under PMJAY: Minister

NEW DELHI

RURAL areas in the country have availed over 75 per cent cancer treatments under the government's Pradhan Mantri Jan Arogya Yojana (PM-JAY), Union Health Minister JP Nadda has informed.

Nadda stated in the Parliament that the Ayushman Bharat health insurance scheme has enabled more than 68 lakh cancer treatments worth over Rs 13,000 crore across the country.

Of these, more than 4.5 lakh treatments worth over Rs 985 crore were undertaken for "targeted therapies" against cancer. About 76.32 per cent of beneficiaries were from rural areas.

The minister also mentioned about the recently rolled out nationwide screening drive for the management and prevention of non-communicable diseases, like diabetes, hypertension and cancers. The nationwide campaign, valid till March 31, aims to achieve 100 per cent screening of people aged 30 years and above. It is being conducted across Ayushman Arogya Mandir facilities and other healthcare institutions under the NP-NCD framework.

The PMJAY scheme provides treatment for several cancers, including of breast, oral and cervical.

It also provides more than 200 packages with more than 500 procedures of medical oncology, surgical oncology, radiation oncology and palliative medicine.

Of these, 37 packages are related to targeted therapies such as chemotherapy for CA Breast, metastatic melanoma, chronic myeloid leukaemia, Burkitt's Lymphoma, and lung cancer, the minister informed.

Those suffering from cancer and are below the poverty line can also avail of one-time financial assistance of up to Rs 15 lakh, provided under the Health Minister's Cancer Patient Fund (HMCPF).

FITBIT

UPAVISTHA VIRABHADRASANA I WHEEL (SEATED WARRIOR POSE I WHEEL)

This is a modified, and challenging variation practised with the support of a wheel. This hip opener can be done by beginners as well as intermediate level students. It requires the right method of placing the sit bones on the wheel and then gradually moving into the hip opening that stretches the hamstrings, groins, inner thighs, calves, tissues at the ankle joints and opens the pelvic and hip muscles. Included in core strengthening and sculpting, it may be of interest to young women and teens, especially for those who are dancers or into sports.

STEPS

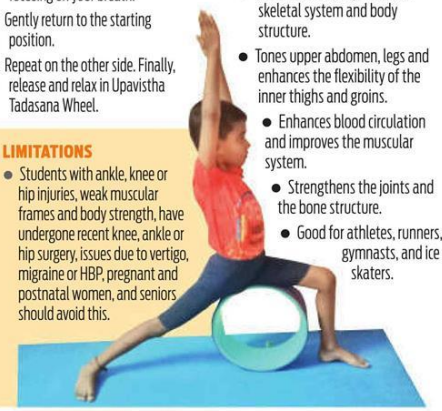

- Sit on the yoga wheel, staying connected to your breath, grounding the feet, extending spine, and placing your hands on the knees for about four to six breaths.
- Exhale, hold the wheel from the sides, just below your hips.
- Ground the front foot (keeping the leg at 90 degrees), the left sit bone on the wheel, the back foot at 45 degrees.
- Activate your core muscles to stabilise your pelvis and prevent your lower back from arching.
- Slowly lean back, keeping your spine straight and your hips square.
- Engage your back muscles to maintain a stable and supported posture.
- Inhale, bring the arms up towards the sky, keeping the palms facing each other.
- Bring your awareness to your breathing. Inhale stretching the arms, exhale, ground the hips downwards. Adjust the back foot to go deeper in the hip opening.
- Now the body may move; bring stability in the upper body to support the lower body, and vice versa. Breathe deep and soft.
- Hold the pose for a comfortable duration, focusing on your breath.
- Gently return to the starting position.
- Repeat on the other side. Finally, release and relax in Upavistha Tadasana Wheel.

LIMITATIONS

- Students with ankle, knee or hip injuries, weak muscular frames and body strength, have undergone recent knee, ankle or hip surgery, issues due to vertigo, migraine or HBP, pregnant and postnatal women, and seniors should avoid this.

BENEFITS

- Stretches the hips, hamstrings, pelvic muscles and spine.
- Strengthens the core, back and quadriceps muscles.
- Strengthens and stretches the muscles of the upper back.
- Helps open and strengthen the hips.
- Improves focus and concentration.
- Promotes a stronger connection between the mind and body.
- Improves balance and flexibility in the spine, shoulders, and chest.
- Builds stamina and endurance.
- Helps release stress and tension in the body.
- Warrior poses can boost confidence.
- Strengthens the legs, ankles and knees.
- Helps bring flexibility to the body.
- Pelvic muscles are actively involved, increasing hip flexibility.
- Removes excess fat, tones the legs and sides of the hips.
- Keeps the chest and torso in a stable position.
- Improves the lung capacity, expanding the chest.
- Cultivates a strong muscular-skeletal system and body structure.
- Tones upper abdomen, legs and enhances the flexibility of the inner thighs and groins.
- Enhances blood circulation and improves the muscular system.
- Strengthens the joints and the bone structure.
- Good for athletes, runners, gymnasts, and ice skaters.

How can I track if I am getting fit without being obsessed with my weight

Page no	Language	Article Dimension	Supplement	Position	AVE	Circulation
2	English	273	N/A	Middle Center	131035	300K

Wanitha Ashok is a Fit India Movement Ambassador and celebrity fitness coach

How can I track if I am getting fit without being obsessed with my weight?

I'm glad you are aware that being obsessed with weight is not good. It's a disorder that can ruin one's health. Focus on progression, not perfection and don't weigh yourself too frequently. Measure progress in body measurements such as waist circumference, hip-to-waist ratio, and body fat percentage. This helps track changes in the body composition.

ASK AN XPERT

- Taking progress photos every four weeks helps to stay motivated and see changes in muscle tone and sculpting.
- Fitness assessment tests such as push-ups, planks, squats, and cardiovascular endurance tests help check improvement in fitness levels.
- Document your workouts — duration, weight lifted and reps. Track changes in your cardiovascular fitness using a heart rate monitor. The aim is to decrease the resting heart rate.
- Pay attention to how you feel — increased energy levels, improved mood, better sleep quality and reduced stress levels are signs of progress.
- Fitness is a lifelong journey and it's essential to focus on the progression and benefits it offers.

Patanjali scientists' research on Renogrit among top 100 papers of 2024 in Scientific Reports

STATESMAN NEWS SERVICE
NEW DELHI, 18 MARCH

Inspired by the vision of Yoga guru Baba Ramdev and driven by evidence-based Ayurvedic research, scientists at Patanjali have achieved a significant milestone as their research paper on the herbal formulation Renogrit has been recognised among the top 100 research papers of 2024 in the prestigious *Scientific Reports* journal, part of the globally renowned Nature Portfolio publication.

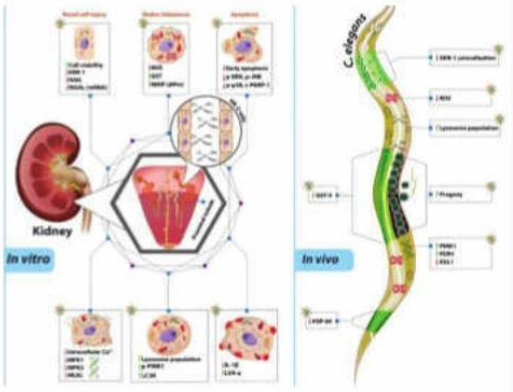

With an Impact Factor of 3.8, *Scientific Reports* ranks as the fifth most-cited journal worldwide. The study on Renogrit has already been downloaded 2,568 times, highlighting the increasing global interest in Ayurvedic medicines as not only effective therapeutic solutions but also as a subject of scientific exploration.

The research underscores how a simple herbal formulation can combat severe diseases without adverse side effects, reinforcing Ayurveda's scientific credibility on an international scale.

Patanjali's Ayurvedic formulation, Renogrit, has demonstrated its potential not only in repairing kidney damage caused by the allopathic anti-cancer drug, cisplatin but also in alleviating oxidative stress on kidney cells.

On this occasion, Acharya Balkrishna, who was also part of the research team, stated that the success of Renogrit is a significant step in establishing the scientific credibility of Ayurveda on a global scale. It demonstrates that when ancient wisdom is tested on modern scientific parameters, it yields groundbreaking results.

Patanjali's Ayurvedic formulation, Renogrit, has demonstrated remarkable potential in mitigating kidney damage caused by cisplatin, a widely used anti-cancer drug.

On this occasion, Acharya Balkrishna, who was also part of the research team, stated that the success of Renogrit is a significant step in establishing the scientific credibility of Ayurveda on a global scale. It demonstrates that when ancient wisdom is tested on modern scientific parameters, it yields groundbreaking results.

The study revealed that Renogrit not only repairs cisplatin-induced nephrotoxicity but also alleviates oxidative stress on kidney cells. This groundbreaking discovery paves the way for integrating Ayurvedic medicine with modern therapeutic approaches to enhance patient outcomes.

Conducted by a team of scientists including Acharya Balkrishna, Vivek Gohel, Nishit Pathak, Monali Joshi, Rani Singh, Ankita Kumari, Rishabh Dev, and Anurag Varshney, the research focused on the pharmacological effects of Renogrit on cisplatin-induced nephrotoxicity.

The study utilized human renal proximal tubular (HK-2) cells and the Caenorhabditis elegans model to examine the protective effects of the herbal formulation.

Renogrit was effective in regulating renal injury markers such as KIM1, NAG levels, and NGAL mRNA expression.

The formulation helped in reducing oxidative stress by controlling reactive oxygen species (ROS) generation and GST levels.

It improved mitochondrial function by stabilizing mitochondrial membrane potential and regulating SKN1 and HSP60 expression.

Renogrit modulated key cell death pathways, including apoptosis, necroptosis, mitophagy, and inflammation.

Importantly, while protecting kidney cells, Renogrit did not interfere with the anti-cancer effects of cisplatin on cancer cells, making it a viable candidate for adjunctive therapy.

मोटापा घटाने के लिए कालमेघ

कालमेघ का पानी पीने से मेटाबॉलिक रेट में वृद्धि होती है, जिससे वजन घटाने में मदद मिलती है।

ऐसे कई पेड़-पौधे हैं, जिनमें औषधीय गुण होते हैं। ऐसा ही एक पौधा है कालमेघ। इसका स्वाद कड़वा होता है। इसमें पाए जाने वाले तत्व पेट से जुड़ी कई बीमारियों, सर्दी-जुकाम, बुखार और रोग प्रतिरोधक क्षमता को बढ़ाने में मदद करते हैं। कालमेघ की पत्तियों से बना काढ़ा खून में इन्सुलिन की मात्रा को बढ़ाकर मधुमेह को नियंत्रित

करने में मदद करता है। कालमेघ का पानी पीने से मेटाबॉलिक रेट में बढ़ोतरी होती है। मेटाबॉलिज्म बढ़ने से फैट बर्न तेजी से होता है, जिससे वजन घटाने में मदद मिलती है। इसके अलावा कालमेघ का पानी पेट से जुड़ी समस्याएं, जैसे- एसिडिटी, अपच और कब्ज को भी दूर करता है। इसके अलावा यह त्वचा पर होने वाली फुंसियों, मुंहासे, जलन, रूखेपन और चर्म रोग, जैसे- दाद एवं खुजली में भी लाभ पहुंचाता है। कालमेघ की पत्तियों से बने काढ़े में हेपटोप्रोटेक्टिव और हेपटोस्टिमुलेटिव तत्व होते हैं, जो आपके लिवर को सुचारू रूप से कार्य करने में मदद करता है। कालमेघ के पौधे में एंटी-क्लॉटिंग गुण होते हैं, जो कि खून के प्रवाह को सुचारू रखने में मदद करते हैं। इससे दिल की बीमारियों का जोखिम भी कम हो जाता है।

क्या कहते हैं विशेषज्ञ

यदि कालमेघ को सही तरीके और खुराक में लिया जाए तो यह फायदा करती है, लेकिन इसका अधिक सेवन नुकसान पहुंचा सकता है। इसलिए सेवन से पहले आयुर्वेद चिकित्सक की सलाह लें।

-डॉ. राजीव पुंडीर

PGI switches to online indenting system today for 'transparency'

EXPRESS NEWS SERVICE
CHANDIGARH, MARCH 19

IN LIGHT of an Ayushman Bharat scheme fraud recently coming to the fore, the Post Graduate Institute of Medical Education and Research (PGIMER) in Chandigarh has issued a circular, stating that the existing manual indenting system for material procurement will be switched to online on Thursday, officials said.

The new system will begin at Block C — male medical ward, female medical ward, gynaecology ward, gynaecology triage, renal transplant surgery ICU, CLR, BMT HDU, RICU and LICU, and AKU — of Nehru Hospital from March 20 onwards, they said. SOPs have also been issued to guide healthcare staff about the usage of the system smoothly.

The move is part of the institute's digital expansion plan, aimed at improving the operational efficiency, officials added.

Under the existing system, departments manually create and submit requests for goods or services for Ayushman Bharat, HIMCARE, CGHS beneficiaries — which are reviewed and approved through a manual workflow, often involving paper-based forms and physical signatures. The Ayushman Bharat scheme provides free treatment and medicines up to Rs 5 lakh per year. For medicines above Rs 2,000, patients need a doctor's prescription in the indent book with stamps from the doctor, nursing officer, Ayushman counter, and dispensary. These are then provided for free at Amrit Pharmacy.

The Chandigarh PGIMER, in coordination with AMRIT Pharmacy, had recently reported the misuse of a stolen indent book and counterfeit stamps to divert medication for the Ayushman Bharat beneficiaries.

फर्जीवाड़े के खुलासे के बाद पीजीआई में बदली व्यवस्था

आयुष्मान-हिमकेयर की दवाएं आज से ऑनलाइन ही मिलेंगी

संवाद न्यूज एजेंसी

चंडीगढ़। आयुष्मान भारत योजना के तहत मरीजों के इलाज के नाम पर करोड़ों के फर्जीवाड़ा के खुलासे के बाद पीजीआई ने मरीजों की दवा देने की व्यवस्था बदल दी है। अब आयुष्मान और हिमकेयर की दवाइयां अमृत फार्मेसी से ऑनलाइन मि लें गी । पीजीआई ने इस बारे में निर्देश जारी कर दिए हैं। कैशलेस स्कीम व्यवस्था वीरवार से ही शुरू हो जाएगी।

अमर उजाला इंपैक्ट

डॉक्टर को दवाइयों के साथ उसकी मात्रा भी लिखना अनिवार्य होगा। कैशलेस स्कीम के तहत ड्यूटी पर तैनात कर्मचारी उसी समय कंफर्म कर देगा कि दवाई उपलब्ध है या नहीं। 24 घंटे जो ड्यूटी देंगे उनकी यूनिक आईडी भी जनरेट की जाएगी। यही लोग दवाइयां का लेन-देन कर सकेंगे। स्वास्थ्य मंत्रालय ने एक सप्ताह के अंदर इस बारे में पीजीआई से जवाब भी मांगा था। पीजीआई ने पांच डॉक्टरों की कमेटी बनाई थी।

यह कमेटी मामले की जांच कर रही है। आयुष्मान भारत योजना के तहत 5 लाख रुपये तक मुफ्त इलाज का प्रावधान है। आयुष्मान भारत योजना के तहत मरीजों को दवाइयां देने का अनुबंध पीजीआई ने अमृत फार्मेसी को दिया है। पीजीआई के डॉक्टर मरीज का उपचार कर दवाइयां लिखकर भेजते हैं। दवाइयों के बिल पास करवाकर अमृत फार्मेसी आयुष्मान विभाग से पैसा लेता है। बता दें अमर उजाला ने 9 10 मार्च के अंक में खबर प्रकाशित की थी। इसके बाद पीजीआई प्रशासन ने सख्त कदम उठाते हुए यह व्यवस्था कर दी है।

आयुष्मान भारत के नाम पर पीजीआई में करोड़ों का घोटाला, लाखों की दवा बरामद

बिल पर दवा का नाम लिखकर लगा रहे फर्जी मुहर
करोड़ों की दवा बाजार में बेच सरकार को लगाई चपत

ऐसे हुआ था मामले का खुलासा

एक्सक्लूसिव

बाजार में सस्ते दाम पर दवा बेच देते

फर्जी मुहरों के लिए मैसर्स किसने दिए

मरीजों का खून लेता था डाटा

इन सवालों के जवाब बाकी

10 मार्च को प्रकाशित खबर।

हिमकेयर में भी हुआ था करोड़ों रुपये का घोटाला

पीजीआई में आयुष्मान भारत के नाम पर करोड़ों के घोटाले के बाद क्राइम ब्रांच ने हिमाचल की हिमकेयर योजना में भी लाखों रुपये की फर्जीवाड़े का खुलासा सामने आया था। क्राइम ब्रांच ने मुख्य आरोपी बलराम की पूछताछ के बाद पीजीआई में डाटा ऑपरेटर के तौर पर तैनात कपिल को गिरफ्तार किया था। दरअसल, जो मरीज इलाज के लिए कार्ड बनवाता था आरोपी डेटा के हिसाब से मरीजों का नाम लिखकर आयुष्मान विभाग की मुहर लगाकर सेम कॉपी फर्जी तैयार कर लेता था। इसके बाद उस कार्ड पर लाखों की दवाइयां लेकर सस्ते रेट में बेच देता था।

पी.जी.आई. | हिमकेयर कर्मचारी की गिरफ्तारी के बाद सी.एच.जी.एस. के कैशलैस इलाज भी किया गया फुलप्रूफ

आयुष्मान के बाद अब हिमकेयर और सी.एच.जी.एस.भी ऑनलाइन

चंडीगढ़, 19 मार्च (अधीर रोहाल): हिमाचल सरकार की कैशलैस इलाज की योजना हिमकेयर के कर्मचारी की गिरफ्तारी के बाद अब लाभ लेने का माडल भी ऑनलाइन कर दिया है।

सबसे पहले पी.जी.आई. में आयुष्मान योजना में घोटाला और धोखाधड़ी सामने आने के बाद चंडीगढ़ पुलिस की क्राइम ब्रांच ने बलराम की गिरफ्तारी की थी। इसके बाद 12 मार्च को हिमकेयर कर्मचारी को गिरफ्तार किया गया था। उसकी गिरफ्तारी से पहले पी.जी.आई. प्रशासन ने 9 मार्च को सिर्फ आयुष्मान योजना के तहत मैनुअल कैशलैस इलाज का माड्यूल बदलने का फैसला किया था। अब बुधवार को पी.जी.आई. प्रशासन ने हिमाचल की हिमकेअर और केंद्र की सैंट्रल गवर्नमैंट हैल्थ स्कीम यानी सी.एच.जी.एस. के माड्यूल को भी मैनुअल से ऑनलाइन कर दिया है।

पंजाब केसरी ने 17 मार्च को आयुष्मान भारत के घोटाले में हिमकेअर कर्मचारी कपिल की गिफ्तारी को लेकर खबर प्रकाशित की थी। अब बुधवार को पी.जी.आई. प्रशासन ने तीनों योजनाओं को नए तैयार ऑनलाइन इनडैंटिंग सिस्टम के दायरे में लाने की घोषणा की है। मरीजों के लिए ऑनलाइन माड्यूल को वीरवार को नेहरू हॉस्पिटल के सी.ब्लॉक से लांच किया जा रहा है।

ऐसे हुआ सारा घपला

आयुष्मान भारत योजना के तहत कैशलेस इलाज में धोखाधड़ी और घोटाला पी.जी.आई. के यूरोलॉजी डिपार्टमैंट में भर्ती मरीज के इलाज के नाम पर फर्जीवाड़ा सामने आया। पी.जी.आई. स्टाफ द्वारा पकड़े आरोपी बलराम से डॉक्टरों और नर्सिंग ऑफिसर की नकली मोहरें और इनडैंट बुक मिली थीं। बलराम को पुलिस के हवाले कर दिया गया। जांच सैक्टर-11 थाने से क्राइम ब्रांच को गई तो बलराम से पूछताछ के बाद अब हिमकेयर कर्मचारी कपिल को 12 मार्च को गिरफ्तार किया गया। फिर आयुष्मान के बाद हिमकेअर में भी घपले की आशंका सामने आई तो अब तीनों योजनाओं को मैनुअली मिलने वाले कैशलेस ईलाज को ऑनलाइन कर दिया गया है।

तीनों योजनाओं का कैशलैस इलाज अब ऐसे मिलेगा ऑनलाइन

बुधवार को तीनों योजनाओं के तहत ऑनलाइन कैशलेस ईलाज के लिए स्टैंडर्ड ऑपरेटिंग सिस्टम जारी कर दिया। इस सिस्टम के तहत पहले डॉक्टर या नर्स क्लीनिक्ल एरिया में दाखिल मरीज के लिए ऑनलाइन इनडैंट तैयार करेंगे।

पहले चरण पर हॉस्पिटल एडमिनिस्ट्रेशन सिस्टम पर जाकर सर्जिकल स्टोर या फार्मेसी पर जाएंगे। यहां रिमार्क्स सैक्शन में मरीज का नाम, कैशलेस स्कीम, सी.आर. नंबर लिखेंगे। फिर ईलाज के लिए लिखे सामान और क्वांटिटी को दर्ज किया जाएगा। इस तरह ऑनलाइन इनडैंट तैयार होने के बाद 24 घंटे ऑप्रेट होने वाले काऊंटर पर पहुंच जाएगा। यहां इनडैंट में लिखी दवाव सर्जिकल सामान में उस समय उपलब्ध न होने वाली और अमृत फार्मेसी पर उपलब्ध आइटम के आगे एंट्री की जाएगी। इनडैंट की पी.डी.एफ. फाइल तैयार कर ऑप्रेटर डैजिगनेटेड मेल आई.डी. से संबंधित कैशलेस स्कीम के सैल की मेल आई.डी पर भेजेगा। सैल के मेल आई.डी पर बैठा व्यक्ति लाभार्थी की पतात्रता को कनफर्म कर ईलाज के लिए मंजूर राशि लिख पुष्टि के साथ मेल वापस भेज देगा।

24 घंटे चलने वाला सैंट्रलाइज्ड सैल मेल को अमृत फार्मेसी को भेज देगा। अमृत फार्मेसी से व्यक्ति इनडैंट में मंजूर सामान को पैक कर मरीज के बैड तक पहुंचाएगा और रिसीव करने वाले अटैंडेंट का फोन नंबर और मेल आई.डी. लिखेगा। इसके बाद अमृत फार्मेसी इन दवाओं का बिल री-इम्बर्समैंट के लिए भेजेगी।

'औषधीय खेती को लेकर जागरूक करें'

सैक्टर-26 निटर में आयुष मंत्रालय द्वारा आयोजित रीजनल बायर सेलर मीट सम्पन्न

सैक्टर-26 के निटर में आयोजित कार्यक्रम में मुख्य वक्ता और किसान बातचीत करते हुए। राणा

चंडीगढ़, 19 मार्च (आशीष): सैक्टर-26 के निटर में आर.सी.एफ.सी.एन.आर.-1, आयुष मंत्रालय द्वारा आयोजित रीजनल बायर सेलर मीट सम्पन्न हो गई।

दो दिवसीय मीट में विशेषज्ञों की चर्चा के दौरान निष्कर्ष निकला की मौजूदा दौर में परम्परागत फसलों से हटकर औषधीय पौधों की खेती लाभकारी विकल्प बनकर उभर रही है। देश और विदेश में औषधीय पौधों की मांग तेजी से बढ़ रही है। ऐसे में किसानों के लिए सुनहरा अवसर है कि बाजार की मांग और वैज्ञानिक तरीकों को ध्यान में रखते हुए औषधीय फसलों की खेती करें। डॉ. अरुण चंदन का कहना है कि औषधीय खेती को बढ़ावा देने के लिए किसानों को जागरूक किया जाना चाहिए और उन्हें नवीनतम तकनीकों से प्रशिक्षित किया जाना चाहिए। इसके साथ ही, औषधीय पौधों के विपणन और प्रसंस्करण के लिए भी सुविधाएं बढ़ाई जानी चाहिए।

हॉलिस्टिक हिमालय के सी.ई.ओ. मोहम्मद रियाज ने अपने संस्थान के मिशन के बारे में बताया वह चक्र हीलिंग व गट ब्रेन एक्सिस पर विस्तार पूर्वक चर्चा की। शिवकुमार मौर्य ने किसानों की ओर से हर संभव प्रयास करने की बात की इसी बीच हिमालय में पाए जाने वाले बरस के फूलों को किस तरह अच्छे स्तर पर पर्यावरण का हनी किए बिना एकत्र करने की विधि भी बताई।

कोविड के बाद औषधीय पौधों की मांग में भारी इजाफा

कोविड के पश्चात औषधीय पौधों की मांग में भारी इजाफा हुआ है। सर्पगंधा, तुलसी, गिलोय, शतावरी, ब्राह्मी, कालमेघ, लेमन ग्रास, सहजन, कौंच आदि जैसे औषधीय पौधे न केवल रोग प्रतिरोधक क्षमता बढ़ाने में सहायक हैं, बल्कि इनके औद्योगिक और घरेलू उपयोग भी लगातार बढ़ रहे हैं।

आयुर्वेद में काम करने 'जीवनपर्यंत उपलब्धि पुरस्कार' प्रदान

महाराष्ट्र के मोहन नारायण तांबे सहित देश के कई गणमान्य सम्मानित

नई दिल्ली, 18 मार्च (वार्ता)

आयुर्वेद के क्षेत्र में अनुकरणीय कार्य करने के लिए राष्ट्रीय आयुर्वेद विद्यापीठ (आरएवी) ने राजस्थान के प्रो. बनवारीलाल गौर, जम्मू-कश्मीर के प्रो. कुलवंत सिंह, महाराष्ट्र के वैद्य मोहन नारायण तांबे और ओडिशा के डॉ. बिधुभूषण नंदा को जीवनपर्यंत उपलब्धि पुरस्कार से सम्मानित किया है.

केंद्रीय आयुष मंत्री गणपतराव प्रतापराव जाधव ने आरएवी के 28 वें दीक्षांत और शिष्योपनयन संस्कार समारोह में यह पुरस्कार अर्पित किये. इसके साथ ही गुणवत्तापूर्ण शिक्षा को बढ़ावा देने और आयुर्वेद को वैश्विक बनाने के लिए विद्यापीठ ने आयुर्वेद शिक्षा और अभ्यास में उच्च मानकों के लिए एक अंतरराष्ट्रीय और 6 राष्ट्रीय संस्थानों को मान्यता भी दी. सोमवार देर शाम आयोजित एक समारोह में देश भर से 100 से अधिक गुरुओं और 120 शिष्यों को भी सम्मानित किया गया. केंद्रीयमंत्री ने आयुर्वेद में उल्लेखनीय योगदान के लिए राजस्थान के जयपुर के प्रो. बनवारीलाल गौर, जम्मू कश्मीर के प्रो. कुलवंत सिंह, महाराष्ट्र के सतारा के वैद्य मोहन नारायण तांबे और ओडिशा में ढेंकनाल के डॉ. बिधुभूषण

नंदा को जीवनपर्यंत उपलब्धि पुरस्कार प्रदान किए.

कार्यक्रम के दौरान हिमाचल प्रदेश के कांगड़ा से सांसद वैद्य राजीव भारद्वाज, राजस्थान के जयपुर से वैद्य मीता कोटेचा और प्रोफेसर संजीव शर्मा, उत्तराखंड से प्रोफेसर अरुण कुमार त्रिपाठी, नई दिल्ली से डॉ. जी प्रभाकर राव, उत्तर प्रदेश के वाराणसी से प्रोफेसर लक्ष्मण सिंह, महाराष्ट्र से वैद्य आशुतोष गुप्ता, वैद्य उर्मिला ए. पिटकर और वैद्य नितिन एम कामत, कर्नाटक से वैद्य शैलजा उप्पिनाकुदरु, मध्य प्रदेश से वैद्य विनोद कुमार वैरागी, पश्चिम बंगाल से वैद्य तुहिन कांति को पुरस्कार दिया गया.

'आयुष्मान' लागू करने के लिए 10 अप्रैल को समझौता होगा

अच्छी खबर | 2

नई दिल्ली,प्र.सं। दिल्ली और केंद्र सरकार के बीच 10 अप्रैल को एक महत्वपूर्ण समझौता ज्ञापन पर हस्ताक्षर किए जाएंगे। इसके तहत राजधानी में आयुष्मान भारत- प्रधानमंत्री जन आरोग्य योजना को लागू किया जाएगा।

दिल्ली के स्वास्थ्य मंत्री पंकज सिंह ने मंगलवार को यह जानकारी दी। उन्होंने कहा कि सरकार का लक्ष्य है कि समझौते के एक महीने के भीतर एक लाख लोगों को इस योजना के तहत पंजीकृत किया जाए। इसके लिए सरकार एक व्यापक अभियान चलाएगी, ताकि अधिक से अधिक गरीब और जरूरतमंद लोग इसका लाभ उठा सकें।

160 मोहल्ला क्लीनिक बंद होंगे : स्वास्थ्य मंत्री ने बताया कि दिल्ली में 160 मोहल्ला क्लीनिक जो किराए के भवनों में चल रहे थे और ठीक से काम नहीं कर रहे थे, उन्हें बंद किया जाएगा। सरकार अब अपनी सरकारी जमीन पर नए स्वास्थ्य केंद्र खोलने की योजना बना रही है, जिससे लोगों को बेहतर चिकित्सा सविधाएं मिल सकें।

आयुर्वेदातील 'अग्नि' विषयावर हवी मार्गदर्शक तत्त्वे

राष्ट्रीय परिसंवादात मान्यवरांची मागणी

नाशिक, दि. १८ : प्रतिनिधी

''आयुर्वेदातल्या 'अग्नि' या मूलभूत संकल्पनेवर महत्त्वपूर्ण संदर्भांचा विचार केला जावा. काही मार्गदर्शक तत्त्वांची आखणी केली जावी,'' अशी मागणी 'आयुर्वेद व्यासपीठ नाशिक' आणि 'आयुर्वेद सेवा संघ' आयुर्वेद महाविद्यालय यांच्या संयुक्त विद्यमाने आयुर्वेदातील 'अग्नि अन्वेषण' या विषयावर आयोजित एकदिवसीय राष्ट्रीय परिसंवादात केली गेली. 'देशस्थ ऋग्वेदी संस्था' कार्यालयात नुकताच हा परिसंवाद पार पडला. परिषदेत प्रमुख अतिथी म्हणून नाशिकमधील प्रख्यात गॅस्ट्रोएन्ट्रोलॉजिस्ट सर्जन डॉ. संदिप सबनीस तसेच 'आयुर्वेद सेवा संघ', आयुर्वेद महाविद्यालयाचे प्राचार्य वैद्य विनय सोनंबेकर आदि उपस्थित होते.

परिसंवादाच्या उद्घाटन सोहळ्यात डॉ. संदिप सबनीस यांनी अग्निचा विचार आधुनिक शास्त्राशी कसा संलग्नित आहे, मधुमेहासारख्या आजारात पचन संस्थेतील विकृती यांचा संबंध नवीन संशोधनातून कसा पुढे येत आहे, यावर मार्गदर्शन केले. तसेच, वैद्य विनय सोनंबेकर यांनी आयुर्वेद शास्त्रातील 'अग्नि' या विषयावर काही मार्गदर्शक तत्त्वे या निमित्ताने तयार व्हावीत, असे सर्व वैद्यांना आवाहन केले. कार्यक्रमाचे प्रास्ताविक आयुर्वेद व्यासपीठ नाशिक शाखेचे अध्यक्ष वैद्य सौरभ जोशी यांनी केले. या परिसंवादामध्ये बोलते म्हणून वैद्य अभय कुलकर्णी यांनी आयुर्वेदातील अग्निचे विविध संदर्भ शास्त्रशुद्ध पद्धतीने मांडले. अनिरुद्ध कुलकर्णी यांनी 'पंचभौतिक चिकित्सा आणि अग्नि' विचार या विषयावर संबोधन केले. पुष्कर वाघ यांनी विशिष्ट व्याधीमध्ये अग्निचा विचार करून औषधी चिकित्सा कशी करावी, याबद्दल मार्गदर्शन केले आणि कीर्ती देव यांनी त्वचा विकारामध्ये जठराग्निचे महत्त्व वर्णन केले.

'आयुर्वेद सेवा संघा'चे अध्यक्ष आशुतोष यार्दी, केंद्रीय आयुर्वेद व्यासपीठाच्या अध्यक्षा रजनी गोखले, पंकज दीक्षित, प्रज्ञा कुलकर्णी, शीतल घरहाण, संतोष पाठक, अनिल नांदोडे, प्रदीप गवळी, अक्षया रानडे, सुमेधा पाठक, मृदुला दीक्षित, कमलेश महाजन, प्रीती त्रिवेदी, महेश्वर तारगे, गायत्री ताजने आणि नीलम गोखले यांच्या संयोजन समितीने या राष्ट्रीय परिषदेच्या यशस्वीतेसाठी परिश्रम घेतले.

A two-day Regional Buyer-Seller Meet in the Medicinal Plants held in Chandigarh

Chandigarh(R N Khera): A two-day "Regional Buyer-Seller Meet" commenced on Tuesday at the National Institute of Technical Teachers Training and Research (NITTTR), Sector 26, Chandigarh. The event was organized by RCFC NR-1, NMPB, Ministry of AYUSH, Government of India, focusing on industry insights, market overview, and opportunities in the field of medicinal plants. During the first session, Dr. Arun Chandan (Regional Director, RCFC NR-1) shed light on the major challenges, opportunities, and supply chain dynamics within the medicinal plant industry. Dr. Jitendra Sodhi (CMD, Ayush Herbs) and Dr. JP Singh (Shri Dhanwantri Herbals) also shared their insights. In the next session, Nityanandam Shri discussed marketing strategies and market access within the medicinal industry in detail. Subsequently, Mahesh Kilnot (Trimbakeshwar Braj Kishan Producer Company Limited) shared his experiences in medicinal plant cultivation. Industry representatives also deliberated on sourcing quality medicinal plants and the purchasing process. The organizers stated that this meeting marked a milestone in fostering new business relations and opportunities in the medicinal plant sector. The event provided a common platform for farmers, entrepreneurs, and marketing experts, facilitating concrete steps towards improving medicinal plant trade and quality.

ADHO MUKHA SVANASANA VARIATION – FEET IN AIR

(DOWNWARD-FACING DOG POSE VARIATION – FEET IN AIR AERIAL) HANDS BEHIND BACK INTERLOCKED)

This is an intermediate-level arm-balancing pose. It is a variation of the base pose, Downward-Facing Dog Pose Aerial. The difference between the base pose and this variation is that in the base pose, the legs are placed on the ground or mat, whereas in this variation, the legs are lifted. Lifting the feet off the ground with arm support and additional hammock support makes it easier for practitioners. Variations of the Hammock Pose require tremendous core and arm strength.

STEPS

- Start by spreading a yoga mat on the floor for extra support. Stand behind the hammock and adjust it so that it reaches your hip joint.
- Stand in Tadasana with the hammock in front for four breaths. Place the middle part of the hammock on your hip joint. Lift your arms with an inhale and bend forward with an exhale. Make necessary adjustments to get into the Downward-Facing Dog Pose Aerial. Take three deep breaths here.
- Engage your core and press your palms firmly on the mat. Lift your left leg with an inhale, and slowly exhale. Again, inhale and lift your right leg. If confident, lift both legs with an inhale and hold this position for four breaths. To release, take a deep breath and gently bring your legs down with an exhale.
- Once again, inhale and return to Tadasana. Repeat the pose and hold it for a longer duration if possible.
- Relax in Three-Part Breath Mountain Pose for six to eight breaths.

BENEFITS

- Stretches and strengthens the muscles of the upper body.
- Provides a good stretch for the arms, shoulders, core, and back muscles.
- Stretches the front part of the lower body, including the quadriceps and shin muscles.
- Helps build stamina and strength, preparing practitioners for advanced-level arm balance poses.
- Placing the legs on and off the floor with inhalation and exhalation increases lower body flexibility.
- It improves hip mobility, making it easier to practise poses like Bakasana (Crow Pose), Handstand Pose, and their variations. It also encourages blood flow towards the brain.
- Controlled breathing allows people to balance and hold the pose for longer.
- Stimulates various organs and systems, such as the digestive, respiratory, circulatory, and nervous systems.
- Supports improved lung capacity and digestion.
- Regular practice promotes emotional stability.
- Helps practitioners handle challenging situations with composure and tranquillity.

LIMITATIONS

- People with injuries in the wrists, arms, shoulders, spine, hips, or knees should avoid this pose.
- Those with conditions such as carpal tunnel syndrome, tennis elbow, vertigo, migraine, epilepsy, high blood pressure, or heart conditions should refrain from practising this pose.
- Seniors and pregnant women should avoid this pose.
- Yoga teachers need to guide practitioners on when to inhale, exhale, and lift their legs.

FITBIT

TRI PADA ADHO MUKHA SVANASANA PADA AERIAL

(THREE-LEGGED DOWNWARD-FACING DOG POSE – AERIAL VARIATION)

This is a beginner-level aerial prone pose, a variation of Three-Legged Downward-Facing Dog Pose. Here, the hammock provides additional stability, enhances core engagement for balance, and deepens the stretch by supporting and elevating the extended leg. It offers unique benefits. The element of suspension increases the challenge, requiring greater core engagement and balance. The feeling of being suspended in the air fosters a sense of playfulness and freedom, making it a mentally refreshing practice.

STEPS

- Place a yoga mat underneath the hammock. Securely set up your aerial yoga hammock.
- Stand facing away from the hammock, with it positioned behind you at hip height. Align yourself in the Three-Legged Downward-Facing Dog Pose. Inhale deeply through your nose, expanding your chest.
- Exhale and bend forward at the hips, allowing your torso to fold forward while keeping your hands on the mat. Step your left foot back, extending it straight behind you and pressing it firmly into the ground.
- Place your right foot into the hammock. Inhale deeply and lift your right leg upward, straight and engaging the muscles.
- Exhale and press your hands firmly into the mat, stretching your spine and reaching your hips towards the ceiling. Maintain a steady breathing rhythm.
- Hold the pose for six to eight breaths or as long as comfortable.
- Gently release the hammock from your foot and return to the starting position.
- Repeat the pose, this time placing your left foot in the hammock.
- Finally, bend your knees into Vajrasana and relax in Prasarita Balasana for six to eight breaths.

BENEFITS

- Stretches the leg muscles and activates the joints of the hips, knees, and ankles.
- Stretches the psoas and abdominal muscles.
- Enhances balance and stability, which are key elements of this pose.
- Improves body awareness, helping to prevent injury and prepare for more advanced poses.
- Encourages a strong, aligned spine, hips, and shoulders.
- Promotes blood flow in the opposite direction, calming the nervous system and keeping the brain both relaxed and energised.
- Builds stamina and fosters confidence and trust.
- Regular practise can help with headaches or even migraines.
- Increases blood circulation to the heart.
- Supports the functioning of the soleus muscles.
- Included in yoga for teenagers, helping to develop stability and strength in the hips, shoulders, core, and back.
- Beneficial for women experiencing menopause, easing discomfort caused by hormonal imbalances.
- Suitable for seniors when introduced gradually, starting with a preparatory version of the Three-Legged Downward-Facing Dog Pose.

LIMITATIONS

- Should be avoided by individuals with injuries to the knees, hamstrings, ankles, or hips, as well as those recovering from recent surgery, experiencing muscle weakness, or with general frailty.
- Not recommended for pregnant women in their third trimester, or individuals with high blood pressure, migraines, epilepsy, or vertigo-related conditions.
- When practising this mini vinyasa flow, it is essential to stay mindful of both breath and body movement.

Ayushmann Khurrana named Fit India Icon by Union Sports Ministry

Actor Ayushmann Khurrana has been named the official Fit India Icon by Dr Mansukh Mandaviya, Union Minister of Labour and Employment, Youth Affairs and Sports. He joins Prime Minister Narendra Modi's Fit India Movement, which aims to make fitness an integral part of every Indian's life. He was named the Fit India Icon at the inaugural ceremony of the first ever Fit India Carnival in Delhi on Sunday where he was felicitated by the Union Minister.

The actor wants to inspire Indians to prioritise their health. He said, "I am honoured to be named a Fit India Icon. When your health is good, all the challenges in life seem manageable. A healthy nation is a wealthy nation. When we are healthy, we are more productive, prosperous and contribute to nation building. I thank our Prime Minister Narendra Modi ji for this incredible initiative, and Union Sports Minister Dr Mansukh bhai for his creative ways in advancing the movement." HTC

MINISTER: OVER 68 LAKH CANCER TREATMENTS DONE UNDER PMJAY

New Delhi: More than 68 lakh cancer treatments worth over Rs 13,000 crore have been performed under the Ayushman Bharat health insurance scheme, with 75.81 per cent of them undertaken in rural areas, Union Health Minister J P Nadda said in Rajya Sabha on Tuesday. Of these, more than 4.5 lakh treatments worth over Rs 985 crore were undertaken for "targeted therapies" against cancer, with 76.32 per cent of their beneficiaries coming from rural areas, Nadda said responding to a question in Parliament. The benefits, he said, were accorded under the Centre's Pradhan Mantri Jan Arogya Yojana (PMJAY). **PTI**

The US must steer clear of deal-breakers in trade talks

Page no	Language	Article Dimension	Supplement	Position	AVE	Circulation
12	English	440	N/A	Bottom Left	110123	45K

The US must steer clear of deal-breakers in trade talks

ABHIJIT DAS

is an expert on international trade issues.

Although these are early days in the negotiations for a multi-sectoral bilateral trade agreement (BTA) between India and the US, the final outcome is already being envisaged as the 'mother of all deals' and a 'grand trade deal.' Both countries are expected to negotiate hard for finalizing an agreement that maximizes benefits for their respective stakeholders. Apart from tariff-related issues, how the US addresses India's concerns on agriculture and affordable access to medicines could ultimately determine the success or failure of these negotiations. What could be the non-tariff related demands of the US in these two areas and what are India's sensitivities?

US commerce secretary Howard Lutnick has articulated America's demand that India must open up its agricultural sector to imports from the US. While this would involve issues related to tariffs and possibly import quotas, the US could also take forward its objective of seeking changes in India's minimum support price (MSP) scheme, especially for rice.

The 2024 *National Trade Estimate Report on Foreign Trade Barriers* brought out by the United States Trade Representative (USTR) includes the following: "India's excessive subsidization through market-price support has gone far beyond its domestic food security needs and has helped India secure its place as the top global exporter of rice, accounting for more than 40% of global rice exports in recent years." This view has been echoed in a recent submission to the USTR on 11 March 2025 by the USA Rice Federation, an advocacy group for all segments of the US rice industry.

Both the *National Trade Estimate Report* and submission by the USA Rice Federation seek to ultimately dismantle the MSP scheme for rice under implementation by India. Further, the USA Rice Federation views this as an opportunity to increase American rice exports to developing countries by $54 million each year. This advocacy group has urged the Trump administration to "include the rice industry's priorities in any comprehensive trade arrangements."

If the Trump administration yields to the interest of this lobby group and includes the issue of MSP in the BTA negotiations with India, it could become a potential deal-breaker. Given the crucial role played by India's MSP scheme in meeting the food security needs of hundreds of millions of citizens who are poor and hungry, New Delhi would find it almost impossible to meet such US demands.

Turning to the issue of access to medicines, the US *National Trade Estimate Report* has highlighted the "restriction on patent-eligible subject matter in Section 3(d) of the Indian Patents Act and its impacts." What is this issue? What are the commercial objectives being pursued by the US? And what could be the implications if India is required to comply with Washington's demands on it in BTA negotiations?

A deal with India could be lost if the US insists on moves that injure our food security and healthcare

Under the current rules of the Agreement on Trade-Related Aspects of Intellectual Property Rights at the World Trade Organization, generic versions of patented medicines can be introduced in the market only after their 20-year period of patent protection is over. As most generic medicines cost a fraction of the original patented product, timely availability of the former has become pivotal in making healthcare affordable for the poor and middle class in most countries.

To continue making large profits, manufacturers of patented medicines in the US have prevailed upon their government to negotiate provisions in trade agreements that delay the entry of generics to the market beyond the formulations' 20-year patent period. These stratagems, commonly referred to as 'evergreening of patents,' compel patients to pay exorbitantly high prices for patented drugs even beyond the original 20-year period of patent protection, after which generics ought to reach the market. Section 3(d) of the Indian Patents Act has been effective in slamming the brakes on some of these patent evergreening strategies, thereby facilitating the timely market entry of generics.

In addition to seeking changes in Section 3(d) of the Indian Patents Act, US manufacturers of patented medicines can be expected to make a strong pitch for the BTA to include other provisions that would in effect undermine India's generic drug producers. Overall, a weakening of India's generics industry will enhance the windfall profits of patent monopolies in the US, but also result in a surge in the cost of healthcare and burn a big hole in the pockets of the poor and sick in India. Further, some of the flagship initiatives of the central government, such as Jan Aushadhi Kendra and Ayushman Bharat, could be substantially undermined and rendered ineffective.

In conclusion, if the US gives primacy to patents over patients, it will result in a negotiating deadlock. As will be the case if it seeks to use BTA negotiations to undermine the food security needs of hundreds of millions of Indians just to add a few million dollars to its earnings from rice exports.

One can only hope that the US administration will display the requisite wisdom to desist from pushing these sensitive issues in BTA negotiations with India. If not, the vision of a 'grand trade deal' could quickly turn into a negotiating nightmare.

These are the author's personal views.

TRI PADA ADHO MUKHA SVANASANA PADA AERIAL

(THREE-LEGGED DOWNWARD-FACING DOG POSE – AERIAL VARIATION)

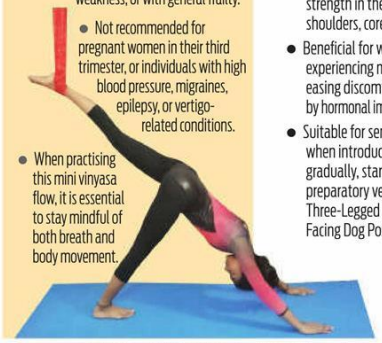

This is a beginner-level aerial prone pose, a variation of Three-Legged Downward-Facing Dog Pose. Here, the hammock provides additional stability, enhances core engagement for balance, and deepens the stretch by supporting and elevating the extended leg. It offers unique benefits. The element of suspension increases the challenge, requiring greater core engagement and balance. The feeling of being suspended in the air fosters a sense of playfulness and freedom, making it a mentally refreshing practice.

STEPS

- Place a yoga mat underneath the hammock. Securely set up your aerial yoga hammock.
- Stand facing away from the hammock, with it positioned behind you at hip height. Align yourself in the Three-Legged Downward-Facing Dog Pose. Inhale deeply through your nose, expanding your chest.
- Exhale and bend forward at the hips, allowing your torso to fold forward while keeping your hands on the mat. Step your left foot back, extending it straight behind you and pressing it firmly into the ground.
- Place your right foot into the hammock. Inhale deeply and lift your right leg upward, straight and engaging the muscles.
- Exhale and press your hands firmly into the mat, stretching your spine and reaching your hips towards the ceiling. Maintain a steady breathing rhythm.
- Hold the pose for six to eight breaths or as long as comfortable.
- Gently release the hammock from your foot and return to the starting position.
- Repeat the pose, this time placing your left foot in the hammock.
- Finally, bend your knees into Vajrasana and relax in Prasarita Balasana for six to eight breaths.

LIMITATIONS

- Should be avoided by individuals with injuries in the knees, hamstrings, ankles, or hips, as well as those recovering from recent surgery, experiencing muscle weakness, or with general frailty.
- Not recommended for pregnant women in their third trimester, or individuals with high blood pressure, migraines, epilepsy, or vertigo-related conditions.
- When practising this mini vinyasa flow, it is essential to stay mindful of both breath and body movement.

BENEFITS

- Stretches the leg muscles and activates the joints of the hips, knees, and ankles.
- Stretches the psoas and abdominal muscles.
- Enhances balance and stability, which are key elements of this pose.
- Improves body awareness, helping to prevent injury and prepare for more advanced poses.
- Encourages a strong, aligned spine, hips, and shoulders.
- Promotes blood flow in the opposite direction, calming the nervous system and keeping the brain both relaxed and energised.
- Builds stamina and fosters confidence and trust.
- Regular practice can help with headaches or even migraines.
- Increases blood circulation to the heart.
- Supports the functioning of the soleus muscles.
- Included in yoga for teenagers, helping to develop stability and strength in the hips, shoulders, core, and back.
- Beneficial for women experiencing menopause, easing discomfort caused by hormonal imbalances.
- Suitable for seniors when introduced gradually, starting with a preparatory version of the Three-Legged Downward-Facing Dog Pose.

आयुष्मान से 68 लाख लोगों का कैंसर इलाज, 75% लाभार्थी ग्रामीण इलाकों के

भास्कर न्यूज | नई दिल्ली

केंद्र सरकार की आयुष्मान भारत योजना के तहत अब तक 68 लाख लोगों के कैंसर का इलाज किया जा चुका है। इसपर 13 हजार करोड़ से ज्यादा खर्च हुए हैं। केंद्रीय स्वास्थ्य मंत्री जेपी नड्डा ने मंगलवार को संसद में यह जानकारी दी। उन्होंने बताया कि इनमें से 75.81% लाभार्थी ग्रामीण इलाकों के हैं। देशभर में 22 नए एम्स में कैंसर के इलाज के लिए सेंटर स्थापित किए गए हैं।

नड्डा ने संसद को बताया कि इस योजना में जन औषधि स्टोरों और 217 अमृत फार्मेसियों के माध्यम से ब्रांडेड दवाओं की कीमत से 50% से 80% कम कीमत पर जेनेरिक दवाओं की बिक्री हो रही है।

- केंद्रीय गृह राज्य मंत्री नित्यानंद राय ने लोकसभा में जानकारी दी कि बीएसएफ ने 2024 में 294 ड्रोन जब्त किए हैं। उन्होंने बताया कि ड्रोन-आधारित तस्करी को रोकने के लिए एंटी-ड्रोन सिस्टम तैनात किए गए हैं।
- नित्यानंद राय ने कहा, महाकुम्भ 2025 के दौरान हुई भगदड़ को लेकर केंद्र सरकार के पास कोई आधिकारिक आंकड़ा उपलब्ध नहीं।
- कृषि राज्य मंत्री भगीरथ चौधरी ने बताया कि केंद्र सरकार खरीफ के लिए किसानों को उच्च गुणवत्ता वाले ब्रीडर बीज जल्द उपलब्ध कराने के लिए कदम उठा रही है। चौधरी ने कहा, 2014 के बाद से अब तक 11.85 लाख क्विंटल ब्रीडर बीज का उत्पादन किया गया है। वहींए 537 किस्में चरम जलवायु परिस्थितियों के लिए विशेष रूप से विकसित की गई हैं।

Embattled CrossFit begins search for new owner

PIC: GETTY IMAGES

CrossFit, the crisis-riddled fitness company, is for sale again.

It comes against the backdrop of several tumultuous years for the fitness brand, a scandal at the CrossFit Games, a significant drop in registrations and deepening financial concerns. The company plans to "review a wide range of buyers", according to an email.

Lost appeal

"This moment of transition comes with significant opportunity," CrossFit CEO Don Faul said. "I'm excited by the potential this holds for the future of our affiliate business and CrossFit overall."

CrossFit was created in the 1990s by Greg Glassman as a training programme focused on high-intensity workouts. The regimen exploded in popularity in the 2000s, growing to include more than 14,000 global affiliates.

In 2020, Glassman stepped down from his role after he was excoriated for his comments about the murder of George Floyd. He also faced accusations of sexual harassment, which he denied. He sold the company to a Boston-based investment firm and Eric Roza, a tech entrepreneur.

The company has undergone a number of leadership changes since Glassman's departure.

Tragic death

Last year, Lazar Dukic, a 28-year-old Serbian athlete, drowned during the swimming portion of a workout at the CrossFit Games, an international competition that draws some of the world's fittest competitors. The event resumed the next day.

Many members and affiliates have tried to distance themselves from CrossFit in recent years while still maintaining its popular fitness routines, dropping the company's name from their businesses.

Govt: 68L cancer cases treated under PMJAY, 76% of them in rural areas

TIMES NEWS NETWORK

New Delhi: More than 68 lakh cancer treatments worth over Rs 13,000 crore have been performed under the Ayushman Bharat health insurance scheme, with 76% of them undertaken in rural areas, Union health minister **J P Nadda** said on Tuesday.

Of these, more than 4.5 lakh treatments worth over Rs 985 crore were undertaken for "targeted therapies" against cancer, with 76% of their beneficiaries coming from rural areas, Nadda said responding to a question in Parliament. The benefits, Nadda said, were accorded under the Centre's Pradhan Mantri Jan Arogya Yojana (PMJAY).

In PMJAY, treatment for several types of cancers, including breast, oral and cervical, is provided under more than 200 packages with more than 500 procedures of medical oncology, surgical oncology, radiation oncology and palliative medicine.

Of these, 37 packages are related to targeted therapies such as chemotherapy for CA Breast, metastatic melanoma, chronic myeloid leukaemia, Burkitt's Lymphoma, and CA Lung, the minister informed. Those suffering from cancer and below the poverty line can also avail themselves of one-time financial assistance of up to Rs 15 lakh, provided under the Health Minister's Cancer Patient Fund (HMCPF).

The minister said that the scheme provides for the sale of generic medicines at 50-80% price of branded medicines through Jan Aushadhi Stores and the 217 AMRIT Pharmacies. A total of 289 oncology drugs are given at half the market price. Nadda said that the govt had in the budget announced it would set up 200 daycare cancer centres at district hospitals in 2025-26.

In addition, 19 state cancer institutes and 20 tertiary cancer care centres have been set up in different parts of the country to provide advanced cancer care.

Digital disease surveillance system a model for other countries: Anupriya Patel

She highlighted India's commitment to strengthening global pandemic preparedness and response efforts

Digital Disease Tracking

- Global health emergency frameworks
- Global pandemic preparedness
- Establishment of the pandemic fund
- $12 mn to support its sustained functioning

NEW DELHI

INDIA's digital disease surveillance system is a model for other countries wanting to boost their health infrastructure, said Union Minister of State for Health and Family Welfare Anupriya Singh Patel on Monday.

She said this while inaugurating the three-day QUAD workshop on pandemic preparedness for the Indo-Pacific Region.

The workshop, jointly organised by the Ministry of Health and Family Welfare and the Ministry of External Affairs, aims to strengthen global health emergency frameworks, enhance preparedness and resilience to health threats, and ensure coordinated responses to evolving pandemics as well as the implementation of the One Health approach. It also addresses human, animal, and environmental health through a multisectoral lens.

"India's digital disease surveillance system offers a valuable model for other countries seeking to strengthen their public health infrastructure," said Patel.

She added that "the rise of emerging and re-emerging health threats in recent times underscores the critical necessity of strengthened preparedness, enhanced surveillance, and well-coordinated international response mechanisms to safeguard global health security."

Patel also highlighted India's commitment to strengthening global pandemic preparedness and response efforts.

"India contributed $10 million towards the establishment of the pandemic fund which was specially conceptualised for fighting pandemics," the MoS said, adding the country has "further pledged an additional $12 million to support its sustained functioning".

> The country has established a comprehensive health emergency coordination framework, strategically focused on preparedness, response, and resilience-building, to create a resilient and pandemic-ready healthcare system
> – *Anupriya Singh Patel, Union Minister of State for Health and Family Welfare*

Further, the country has established a comprehensive health emergency coordination framework, strategically focused on preparedness, response, and resilience-building, to create a resilient and pandemic-ready healthcare system, Patel said.

For this several key initiatives have been set up such as the Integrated Disease Surveillance Program (IDSP), National One Health Programme for Prevention and Control of Zoonosis, and National Vector Borne Disease Control and Prevention (NVBDCP). Patel also stated that India has led digital health initiatives, leveraging technology to improve health access, and outcomes, and create sustainable, data-driven systems.

"These efforts are central to building a health system capable of addressing both current as well as future health and climate challenges," she said.

The Union Minister highlighted that India's harnessing of digital technology in healthcare through initiatives like the Ayushman Bharat Digital Mission (ABDM) and tools like the CoWIN platform, eSanjeevani, National Telemedicine Service, Tele-MANAS to manage mental health diseases, and the Ni-Kshay portal for tracking monitoring and management of Tuberculosis patients.

Prof. Ajay Kumar Sood, Principal Scientific Advisor, emphasised the need to strengthen regional health networks and prepare for zoonotic diseases, especially for countries with a significant livestock sector.

Par panel recommends single independent drug controller for AYUSH

New Delhi : A parliamentary committee has recommended the consolidation of all AYUSH drug-related standard-setting processes under a single independent drug controller in alignment with the Drugs and Cosmetics Act, 1940, and its associated rules.

To achieve this, the ministry should establish a streamlined and inclusive mechanism that actively involves stakeholders in the development of pharmacopoeial standards, ensuring greater efficiency and uniformity, said the Parliamentary Standing Committee on Health and Family Welfare in a report presented in the Rajya Sabha this week.

Additionally, the Pharmacopoeia Commission for Indian Medicine & Homoeopathy (PCIM&H) and Central Council for Research in Ayurvedic Sciences (CCRAS) may come together to coordinate and collaborate in this initiative, the committee emphasised in its 165th report on "Demands for Grants 2025-26 (Demand No. 4) of Ministry of Ayush".

This will enhance the scientific testing and evaluation of a larger number of ASU&H (Ayurveda, Siddha, Unani, and Homoeopathy) drug samples to ensure safety, efficacy, and quality, strengthening the foundation of research and standardisation in the sector.

The committee flagged that the state-wise reach of Arogya Fair/Ayurveda Parv is less compared to the size of India with its 28 states and eight Union Territories.

It recommended that the reach should cover 50 per cent of Indian states in the coming year and eventually all of the country in the near future to propagate the Ayush System for the prevention and treatment of common ailments.

It recommended that the ministry leave no stone unturned in efficiently and effectively implementing the IEC (Information, Education, and Communication) Scheme, thus generating awareness amongst the common masses, especially in rural, urban slum, hilly and tribal areas.

The committee also took note of the financial and physical performance made under the international cooperation scheme with respect to budgetary allocation and set objectives.

It recommended that going forward communication should be made with first-world countries like the UK and the US for promoting AYUSH among the Indian diaspora as well as their native citizens.

Underlining the potential in promoting AYUSH-related healthcare travel to India, the panel said that the Ministry has to chalk out strategies to vigorously promote the AYUSH system of medicine in international markets, and support investment and exchange of exports to boost Ayush products in the global market.

"The Ayush Ministry should keep the consideration that Ayush Vision@2047 has a target to enhance the contribution of the Ayush Sector up to 7.7 per cent of GDP," it said.

It suggested that the strategic course of action -- viz. road shows abroad, CMEs for the foreign audience, familiarisation trips, strategic marketing communication through a professional agency, collateral audio-video content and social media marketing -- can further be taken up by the Ministry for the achievement of the Mission Objective of the scheme.

The committee also recommended that the ministry give equitable impetus to all sub-components of the capacity building and continuing medical education (CME) in Ayush under the Ayurgyan Scheme.

Underlining the vital role of research and innovation in Ayush Drugs for prioritised diseases, the committee recommended collecting data on safety, standardisation and quality control for Ayush products and practices in order to develop evidence-based support on the efficacy of Ayush drugs and therapies.

In order to inculcate scientific aptitude and expertise relating to Ayush systems, the ministry should chalk out a strategy for the development of potential human resources and their management in the Ayush system, the report said.

The committee reiterated its recommendation that the outcome of the research scheme should successfully demonstrate the effectiveness of Ayush systems and the novel technology successfully developed out of such research and development must harness the potential of Ayush in the interest of public health delivery.

Further, noting that the scheme is one of the most significant schemes under AYUSH, the panel recommended extending it in financial years beyond 2025-26 with adequate budgetary allocation.

The committee expressed happiness and welcomed the laying of the foundation of a WHO Global Traditional Medicine Centre (GTMC) at Jamnagar, Gujarat and said that increasing collaboration with WHO in the Ayush Sector is significant in the global acceptance of traditional medicine and Ayush healthcare.

Such events will certainly help with the rapid growth of traditional medicine and healthcare.

It recommended that steps be taken on priority to complete the project early and make the GTMC functional.

2-day farmer training at Patanjali Research

AGENCIES

Haridwar, March 17: A two-day event on the topic "Regional Training for Development of Agricultural Entrepreneurship in Cultivation of Medicinal Plants" sponsored by the National Medicinal Plants Board (NMPB) Scheme under the Ministry of AYUSH, Government of India was organized in the auditorium of Patanjali Research Foundation in collaboration with Patanjali Research Foundation

and Patanjali University. In this program, emphasis was laid on conservation of medicinal plants, plantation and conservation of their natural species, as well as promotion of conservation through development of herbal gardens.

The program started with lighting of lamps. Swami Ramdev Ji and Pujya Bal Krishna Ji welcomed the guests by presenting shawls and garlands. Divided into four sessions, this conference was attended by farmers and agricultural experts of national and regional level, who succeeded in presenting the ancient Sanjeevani of Uttarakhand on the global stage.. The farmers present were guided on agriculture related topics.

दो हजार में बिकता था पीजीआई में आए हिमकेयर के मरीज का डेटा

आयुष्मान भारत के नाम पर करोड़ों के घोटाले के बाद एक और खुलासा

मुख्य आरोपी बलराम से पूछताछ के बाद क्राइम ब्रांच ने नेहरू अस्पताल के डेटा ऑपरेटर कपिल को किया गिरफ्तार

संवाद न्यूज एजेंसी

चंडीगढ़। पीजीआई में आयुष्मान भारत के नाम पर करोड़ों रुपये के घोटाले के बाद अब हिमाचल की हिमकेयर योजना में भी फर्जीवाड़े का खुलासा हुआ है। योजना के तहत इलाज कराने आने वालों का डेटा दो हजार रुपये प्रति मरीज के हिसाब से बेचा जाता था।

यह खुलासा क्राइम ब्रांच के सामने पीजीआई के कर्मचारी कपिल ने किया है। वह पीजीआई के नेहरू अस्पताल में डाटा ऑपरेटर है। पीजीआई के डॉक्टरों की मुहरें और आयुष्मान भारत के फर्जी बिल व इंडेंट बिल के साथ पकड़े गए कांगड़ा के रमन से पूछताछ के बाद क्राइम ब्रांच ने पहले बलराम व अब कपिल को गिरफ्तार किया है।

मुहर लगा तैयार कर लेता था फर्जी कॉपी: अमर उजाला ने 9 मार्च को आयुष्मान भारत के नाम पर पीजीआई में करोड़ों का घोटाला, लाखों की दवा बरामद शीर्षक से खबर प्रकाशित की थी। इसमें बताया था कि आरोपी बलराम आयुष्मान के तहत पीजीआई में इलाज करवाने आने वाले मरीजों का डेटा चोरी करता था। आरोपी आयुष्मान विभाग की मुहर लगाकर सेम कॉपी फर्जी तैयार कर लेता था।

अब तक इस मामले में हो चुकी हैं तीन गिरफ्तारियां, कपिल से क्राइम ब्रांच कर रही है पूछताछ

ऐसे हुआ था मामले का खुलासा

फरवरी में कांगड़ा निवासी आरोपी रमन अमृत फार्मेसी में पीजीआई के नाम पर आयुष्मान भारत के बिल पर दवा का नाम लिखकर फर्जी नर्सिंग मुहर लगाकर 60 हजार रुपये की दवाएं लेने गया। उसे दवा मिल गई, बिल भी पास हो गया, लेकिन बिल पर किसी और डिपार्टमेंट के डॉक्टर की मुहर लगी थी। पीजीआई के सुरक्षाकर्मियों ने उसे पकड़कर पीजीआई चौकी के हवाले कर दिया। उसके कब्जे से आठ मुहरें, आयुष्मान भारत के फर्जी बिल और एक इंडेंट बुक बरामद हुई थी। सेक्टर-11 थाना पुलिस ने आरोपी रमन को गिरफ्तार कर लिया। इसके बाद केस की जांच क्राइम ब्रांच को ट्रांसफर हो गई।

कपिल की पत्नी करती है पीजीआई में काम

क्राइम ब्रांच की प्रारंभिक पूछताछ में सामने आया है कि गिरफ्तार किए गए तीसरे आरोपी कपिल की पत्नी पीजीआई की पूअर पेशेंट सेल में कार्यरत है। पूछताछ के दौरान कुछ ऐसे तथ्य भी सामने आए हैं, जिनसे कपिल की पत्नी की भूमिका भी संदिग्ध मानी जा रही है। ऐसे में अब गहन जांच की जा रही है कि जिन मरीजों का डेटा बेचा गया है, क्या वे पूअर पेशेंट सेल में उपचार कराने तो नहीं आए थे। इस जांच के लिए रिकॉर्ड को कब्जे में लिया गया है।

अमर उजाला फॉलोअप

हिमाचल में 23 हजार मरीजों के नाम पर आयुष्मान फर्जीवाड़े की जांच की आंच चंडीगढ़ तक पहुंची

चंडीगढ़ के निजी अस्पतालों में भी कागजों में किया मरीजों का इलाज

हरीश कोचर

चंडीगढ़। हिमाचल प्रदेश में करीब 23 हजार फर्जी आयुष्मान कार्ड के जरिये कागजों में ही मरीजों का इलाज किया गया। इस फर्जीवाड़े में ईडी की जांच जा रही है। इस जांच की आंच चंडीगढ़ के भी कुछ निजी अस्पतालों के अलावा पीजीआई तक पहुंच गई है।

ईडी की जांच टीमों ने फर्जी आयुष्मान के अलावा हिमाचल की हिमकेयर स्वास्थ्य योजना के भी काफी कार्ड बरामद किए हैं। कुछ दिन पहले ईडी की जांच टीमों ने चंडीगढ़ में इस फर्जीवाड़े पर रेड भी की थी। जल्द ही हिमाचल के विभिन्न जिलों सहित चंडीगढ़ के निजी अस्पताल संचालकों की भी मुश्किलें बढ़ने वाली है।

ईडी की जांच में सामने आया कि श्री बांके बिहारी अस्पताल, फोर्टिस अस्पताल हिमाचल हेल्थकेयर प्राइवेट लिमिटेड, सिटी सुपर स्पेशियलिटी अस्पताल, श्री बालाजी अस्पताल, श्री हरिहर अस्पताल, सूद नर्सिंग होम, नीलकंठ अस्पताल और उनके प्रमुख प्रबंधन संचालकों में डॉ. विजेंद्र मिन्हास, रघुबीर सिंह बाली, डॉ. प्रदीप मक्कड़, डॉ. राजेश शर्मा, मनीष भाटिया, डॉ. मनोज सूद और डॉ. हेमंत कुमार द्वारा इस फर्जीवाड़े को अंजाम दिया गया। ईडी की टीम की ओर से इन निजी अस्पताल संचालकों के खिलाफ केस दर्ज किया गया। जांच में 373 फर्जी आयुष्मान कार्डों की पहचान की गई है, जिनमें आयुष्मान कार्ड लाभार्थियों को इलाज के नाम पर सरकार से प्रतिपूर्ति के लिए करीब 40.68 लाख रुपये का दावा किया गया था। लेकिन जब ईडी की टीमों ने मरीजों के दिए गए पतों पर पहुंचकर जांच की तो उन्होंने आयुष्मान कार्ड के होने या उसकी जानकारी होने से ही मना कर दिया।

हिमाचल सहित चंडीगढ़ में रेड में 88 लाख की नकदी मिली

जांच में सामने आया कि इलाज के नाम पर करीब 25 करोड़ रुपये का लेन-देन हुआ है। वहीं, जब कुछ समय पहले ईडी ने हिमाचल सहित चंडीगढ़ के निजी अस्पताल व दो आवास व कुछ निजी दफ्तरों में रेड की तो 88 लाख रुपये की नकदी, चार बैंक लॉकर और 140 संबंधित बैंक खाते मिले, जिनमें फर्जी बिलों के जरिये पैसे ट्रांसफर हुए। इसके अलावा इन अस्पताल संचालकों की अचल और चल संपत्तियों सहित बैंक पासबुक, मोबाइल फोन/आईपैड, हार्ड डिस्क और पेन ड्राइव सहित 16 डिजिटल डिवाइस भी जब्त किए। इन डिवाइस की जांच में अस्पतालों द्वारा फर्जी बिलों का सारा डाटा सहित करीब 23 हजार मरीजों के लिए 21 करोड़ रुपये के लेन-देन शामिल था।

पीजीआई में फर्जी हिमकेयर कार्ड के जरिये हुआ फर्जीवाड़ा, ईडी जल्द करेगी बड़ा खुलासा

पीजीआई में भी हिमकेयर कार्ड के जरिये हिमाचल के रहने वाले मरीजों का पांच लाख रुपये तक का निशुल्क इलाज किया जा है। यहां फर्जी हिमकेयर कार्ड के जरिये बिल तैयार कर पास करवाने के लिए सरकार के पास भेजे जाते थे और फिर पैसा आने के बाद उन कार्डों को खत्म कर दिया जाता था। इस मामले में ईडी की जांच में जल्द ही बड़े खुलासे होने वाले है।

FITBIT

GOMUKHASANA A

(COW FACE POSE A)

This is a variation of Gomukhasana (Cow Face Pose). In fact, the Shoelace Pose is a warm-up, transit and preparation to this pose. This pose is a foundation pose to Gomukhasana Variation Pada. It comes from the traditional Ashtanga Yoga and requires intense hip flexibility same as the Uddiyana Bandha and Jalandhara Bandha (Chin Lock). It can be a good cooling-down pose for advanced hip-opening poses. Importantly, a lot of calves and hamstring stretches are needed to be done before this practice to avoid cramps in the legs. Both knee and ankle rotations are compulsory warm-ups that need to be done to release stiffness and enable ease.

STEPS

- Sit in Dandasana (Staff Pose).
- Place your palms on the floor, bend the left leg at the knee, and place your left foot near the right buttocks. Breathe.
- Raise the right leg bending at the knee and place the right thigh over the left thigh and bring the right foot close to the left buttocks.
- Make sure both knees are one above the other or and balance the body.
- Going backward, gently sit on the heels, keeping the spine erect.
- Breathe, engage the core and maintain the Uddiyana Bandha pose. Roll the shoulders back, interlock the fingers and place the locked palms on the right knee.
- Slightly bring the body forward in a slanting position and keep the chin down. This is the final pose.
- To release, look up, bring the head to a neutral position, and inhale. Release the Uddiyana Bandha pose, interlocked fingers and legs, and relax in Dandasana Hands Back Knees Bent.
- Realign in Dandasana. Now practise the same on the other side.
- Release and relax in Dandasana Hands Back Knees Bent.

LIMITATIONS

- Students who have ankle, knee, and wrist injuries, or have undergone recent knee, hip, and spine surgeries, or are struggling with pelvic stiffness, acute arthritis of knee and ankle joints, athletes with quadriceps and hamstring injuries, and pregnant women after first semester, must avoid this.
- Postnatal women can practise this after the initial four weeks.

BENEFITS

- Tones the IT band, quadriceps, hamstrings, calves, torso, lower body and the inner thighs.
- Strengthens the ankle, spine and heel joint.
- Stretches the cervical spine and neck muscles.
- Helps students with the art of holding the breath, increasing lung capacity, and diaphragm's elasticity.
- Heals knee injuries, provided it is not a ligament tear.
- Cures initial stages of arthritis-knees.
- Posture correction is effective.
- Cures ailments related to urogenital system like infertility, erectile dysfunction, urinary-incontinence, polycystic ovaries and inflamed prostate glands.
- Enhances blood circulation to the digestive system.
- Burns fat in the tummy area.
- Stimulates the Muladhara, Sacral and Manipura Chakras.
- Balances the Throat Chakra and removes any lethargy or negative thinking process.
- Nabi chakra stimulation enhances the prana flow by detoxification.

Life, Uninterrupted

PRACHI SATRAWAL

Dr Varun Veer's LifeYoga Centre in Delhi nurtures an entire ecosystem of mindfulness

IN a city like Delhi, where clean air is a luxury and outdoor yoga feels like a dare, the LifeYoga Centre emerges as a sanctuary for the soul. Nestled in the heart of Chanakyapuri, the capital's bustling diplomatic enclave, this meditative retreat seamlessly blends ancient wisdom with modern design, offering a refuge from the chaos of urban life. Designed by Studio Lotus, the centre, which opened in 2023, spans three levels, each thoughtfully crafted to guide visitors deeper into mindfulness.

At the helm is Dr Varun Veer. "Yoga has been my family tradition," he says. "My father, an Ayurveda acharya, introduced me to yoga at the age of nine." With a PhD in yoga and decades of global teaching experience, Dr Varun returned to India from Hong Kong with a mission: to create the world's best yoga centre, rooted in wisdom yet tailored to modern lifestyles. In a world filled with uncertainty, yoga offers a structured path — a beginning, a plan, and an end.

To decompress & discover

The moment you step into LifeYoga, you are greeted by a restrained palette of warm neutrals and earthy tones, a deliberate design choice to evoke a sense of calm. The ground floor houses a reception area that flows into a retail zone and 'Eleved,' a restaurant serving Ayurveda-inspired cuisine. However, the real magic of the centre lies upstairs, where the main yoga studio, conceptualised as a conservatory, is bathed in soft, diffused light from overhead skylights. Hot yoga panels double as lighting reflectors, creating an evenly-lit space that feels both expansive and intimate.

Dr Varun explains the philosophy behind the design: "The intent was that whenever a student enters, they should feel two things — peace of mind and joy, which are increasingly scarce in today's world. My brief to the architect was minimalism, or *rikt ta* — emptiness. Until your body and heart are empty, *shunyata* (tranquillity) cannot be achieved. The mind remains busy unless it finds that emptiness."

The studios, named Ekam, Dvey, Trini, Chaturi, and Pancha in Sanskrit, are versatile spaces with collapsible walls, accommodating groups ranging from five to fifty. The basement, with its naturally lower light levels, is dedicated to slower, meditative practices. Here, therapeutic lighting enhances focus and relaxation. Integrated, adjustable lighting systems allow for a well-lit atmosphere or a dim, gentle ambience, depending on the practice. Even the air-conditioning is discreet, with low-velocity ducts ensuring no drafts disrupt your flow.

The centre's meticulous attention to air quality is another standout feature. Beyond the studios, finer details like camphor lamps, salt crystals, and the restaurant's fresh, organic produce contribute to a holistic experience. Sabeena Awasthi, a regular visitor for the past nine months remarked, "This is an experience, what they have opened here is beautiful."

Dr Varun recalls one student, a deep-sea diver from Germany, who shared how LifeYoga evoked a sensation akin to the ocean's depths: "Below a certain level, you're completely disconnected from the world due to the atmospheric pressure. Yoga, here, gives me the same feeling."

> Yoga, Sanskrit, naturopathy — these belong to everyone, but their roots are in India
>
> Dr Varun Veer, LifeYoga Centre

LifeYoga's programming is as diverse as its design. Over 20 types of classes are offered daily, from Ashtanga and Vinyasa to aerial and wall rope yoga. Their app facilitates booking classes at convenience. "We start at 6:30 in the morning and go till nine at night," Dr Varun says.

For Anubhav Anusha, a 37-year-old biotechnologist who runs a diagnostics company for infectious diseases, doing yoga is a first. "I joined for a two-week programme, intending to spend three months in India and three in France. But since I joined, I haven't left the country or travelled anywhere. I spend around three hours here every day," he says.

Do aesthetics play a role in yoga practice? "As one reaches higher levels of awakening, the body becomes more sensitive. Art and decor become important in maintaining that sensitivity and calm. The warmth of the centre facilitates the calming of the mind, heart, and body," he says.

A growing community

The centre boasts a robust membership base of over 750 individuals. As yoga continues to evolve, shifting between tradition and contemporary adaptation, Dr Varun is clear that "Yoga is not necessarily about seeking God. We don't mix yoga and religion. A city yoga centre is different from an ashram, and practices vary accordingly".

It is worth pondering: what if modern yoga is neither entirely spiritual nor purely secular, but something more elusive — a practice whose allure stems from its in-between nature? Oscillating between the tranquility of a sacred retreat and the utility of a fitness studio, yoga sometimes drapes itself in mystique, other times in pragmatism. Perhaps this fluidity — experienced each time practitioners unroll their mats — is the essence of yoga itself.

PGI data operator arrested in Ayushman Yojana scam

RAHUL SAHDEV
CHANDIGARH

The investigation into the scam and fraud of crores of rupees in the cashless treatment of Ayushman Yojana at Chandigarh PGI has now reached the Himcare scheme. Chandigarh Crime Branch has arrested Himcare's data operator Kapil in this case.

Earlier, the police had caught an accused named Balram, after whose arrest the case was transferred to the Crime Branch. Initially, a case of taking out medicines and surgical items by committing fraud in the Ayushman scheme had come to light.

Himcare's data operator is also involved in the scam

Balram said that Himcare's data operator Kapil was also involved in the scam. If the scam is confirmed in the Himcare scheme as well, then the Himachal Pradesh government may have to make changes in the module of this scheme.

For the first time, the role of a PGI employee came to the fore

Police investigation revealed that Kapil worked as a data operator at the Himcare Yojana counter in Nehru Hospital.

This is the first time that the involvement of an employee working inside PGI has come to light in this scam. The accused Balram who was arrested earlier was not an employee of PGI.

'Yogotsav' event held in National Institute of Ayurveda

TDG NETWORK
PANCHKULA

The National Institute of Ayurveda, Panchkula, organized the 'Yogotsav' countdown event for International Day of Yoga (IDY) 2025 on March 17, under the directions of the Ministry of AYUSH, in collaboration with Morarji Desai National Institute of Yoga, New Delhi. This event marked 96 days remaining until IDY 2025 and aimed to promote the importance of yoga in daily life.

The event was conducted under the directives of Vice-Chancellor Prof. Sanjeev Sharma, Dean Prof. Gulab Chand Pamnani, and Dean-in-Charge Prof. Satish Gandharve. The event was graced by Ashwini Sharma, Co-State In-charge & Yoga Instructor, Yuva Bharat Unit, Chandigarh, Patanjali Yogpeeth, Haridwar, and Gaurav Kumar Garg, DMS, as chief guests.

The event was conducted under the directives of Vice-Chancellor Prof. Sanjeev Sharma, Dean Prof. Gulab Chand Pamnani, and Dean-in-Charge Prof. Satish Gandharve.

The program commenced with the lighting of the ceremonial lamp, followed by the chanting of Patanjali Vandana by Dr. Shinsha P., Medical Officer. Pooja Hasan, Assistant Professor, Department of Swasthavritta & Yoga, extended a warm welcome to all the dignitaries. Prof. Satish Gandharve provided insights into the background and significance of yoga.

The Common Yoga Protocol (CYP) session was led by Shri Ashwini Sharma, accompanied by Ishwar Datt Joshi, Yoga Instructor & Member, Yuva Bharat Unit, Panchkula, and Jitendra, a national-level yoga athlete, who demonstrated various yoga practices. More than 100 participants, including faculty members, staff, students, and health seekers, actively participated in the session. Additionally, Shri Jitendra inspired participants with his demonstration of advanced yoga postures.

At the end of the program, all guests were felicitated. Gaurav Kumar Garg, DMS, delivered the closing remarks, emphasizing the importance of consistent yoga practice. The event concluded with a vote of thanks by Aparna Dilip, Assistant Professor, Department of Kaumarbhritya, followed by the Naional Anthem, marking the completion of the event.

GOMUKHASANA A

(COW FACE POSE A)

This pose is a Gomukhasana (Cow Face Pose) variation. The Shoelace Pose warms up and prepares for Gomukhasana and is foundational for Gomukhasana Variation Pada. It comes from the traditional Ashtanga Yoga and requires intense hip flexibility same as the Uddiyana Bandha and Jalandhara Bandha (Chin Lock). It can be a good cooling-down pose for advanced hip-opening poses. Importantly, a lot of calves and hamstring stretches are needed to be done before this pose to avoid cramps in the legs. Both knee and ankle rotations are compulsory warm-ups that need to be done to release stiffness and enable ease.

STEPS

- Start in Dandasana with palms on the floor. Bend your left knee and position your left foot near your right buttock. Breathe.
- Bend your right knee, cross your right thigh over your left, and bring your right foot close to your left buttock. Ensure both knees are stacked one above the other, and balance your body.
- Gently move back, sit on your heels, with an erect spine. Breathe, engage your core, and maintain Uddiyana Bandha. Roll your shoulders back, interlock your fingers, and place your interlocked palms on your right knee. Lean forward slightly, chin down. This is the final pose.
- To release, look up, return your head to a neutral position, and inhale. Release Uddiyana Bandha, unlock your fingers, straighten your legs, and relax in Dandasana (Hands Back, Knees Bent).
- Repeat the same on the other side. Release and relax in Dandasana (Hands Back, Knees Bent).

LIMITATIONS

- Those who have ankle, knee, and wrist injuries, or have undergone recent knee, hip, and spine surgeries, or those struggling with pelvic stiffness, acute arthritis of knee and ankle joints, athletes with quadriceps and hamstring injuries, and pregnant women after first semester, must avoid this pose.
- Postnatal women can practise this pose after four weeks.

BENEFITS

- Tones the IT band, quadriceps, hamstrings, calves, torso, lower body and the inner thighs.
- Strengthens the ankles, spine, and heel joints.
- Stretches the cervical spine and neck muscles.
- Helps with breath control, increasing lung capacity, and improving diaphragm elasticity.
- May support knee injury recovery, excluding ligament tears and early-stage knee arthritis.
- Can support urogenital system health, including infertility, erectile dysfunction, urinary incontinence, polycystic ovaries, and inflamed prostate glands.
- Enhances blood circulation to the digestive system.
- Burns fat in the abdominal area.
- Stimulates the Muladhara, Sacral, and Manipura Chakras
- Balances the Throat Chakra and removes lethargy or negative thinking process.
- Nabi chakra stimulation enhances the prana flow by detoxification.

Full-body splits: A great way to flex your muscles

Page no	Language	Article Dimension	Supplement	Position	AVE	Circulation

ISTOCKPHOTO

Full-body splits: A great way to flex your muscles

Full-body workouts, thrice a week, may be the formula for stronger muscles

Pulasta Dhar
feedback@livemint.com

Gym splits—the method that helps you train different muscle groups on different days—can be personally tailored, or one can just follow a popular split like the push-pull-legs system. It is not necessary, however, to follow any one split religiously. You could choose a single muscle split once you have mastered enough exercise variations and built strength. You could drop a cardio routine at the start, the end or in between your split, or you could follow something more advanced like the French contrast method, where one explosive exercise is followed by a mirroring hypertrophy version of the same exercise. Among all these options, the one that tends to go under the radar a bit is the full-body split—where you train your full body every day. A video by fitness trainer Jeremy Ethier, in which he speaks of new research on the efficacy of doing a full body workout every gym day, is quite compelling. In it Ethier ranks all the splits with the help of Eric Trexler, a researcher in human movement science. "Unlike the 3-day push-pull-legs workout split, which hits each muscle just once per week, the full-body split trains every muscle 3 times per week," Ethier writes in his blog.

A paper titled, *The Resistance Training Dose-Response: Meta-Regressions Exploring The Effects Of Weekly Volume and Frequency On Muscle Hypertrophy And Strength Gain*, published in October 2024, states that resistance training can boost muscle strength by an additional 50%. Ethier makes it simpler to understand. "So, if your bench went from 100lb (45kg) to 150lb (68kg) on the push-pull-legs split, switching to full-body could push it to 175lb (79kg) in the same time."

A full-body workout is great for beginners as it helps them train every muscle

But there is a caveat. This split does not provide too big a boost when it comes to muscle growth. So, it is ideal for beginners and/or those who are getting back to a fitness routine after a break. Here are a few full body workout splits that you can try for a few weeks and see the change. It's always good to keep refreshing your split.

The first one is Ethier's own three-day full-body split, which starts off with an incline bench press, followed by a barbell back squat, chest-supported dumbbell rows, leg curls, lying incline bicep curls, and then overhead triceps extensions.

Fitness trainer and expert Jeff Nippard, who has more than 6.5 million YouTube followers, has a similar split to Ethier's but he adds a couple of different muscle groups to his workout. An example of what he does is: weighted pull-ups, humble-row, leg press, standing calf raises, cable upright rows and hammer curls. His other muscle group suggestion for a split is: chest, back, legs, biceps, triceps, delts, and abs.

Trainer Mike Thurston also has a full-body split. His workout also begins with an incline bench press and a chest supported row. It is followed by lateral raises, hitting the deltoid muscles. Next, he next moves on to the quads (his preference is the pendulum squat), then the hamstrings, and glutes with the Bulgarian split squat. This is an extremely well-rounded split. Most of these exercises have a couple of warm-up sets, 12-15 reps in the main sets, with two to three minutes of rest in between.

ENERGIZE YOUR WORKDAY - HARNESSING YOGA AND PRANAYAMA FOR PROFESSIONALS

TDG NETWORK
NEW DELHI

In today's fast-paced world, work has become an essential part of our daily routine. With most of us spending long hours at desks in front of computers, office life often takes a toll on our physical and mental health. From back pain and eye strain to stress and anxiety, the consequences of a sedentary lifestyle are well documented. However, amidst the demanding schedules and constant pressure to perform, yoga and pranayama have emerged as powerful tools to combat the negative impacts of office life.

Yoga, a physical, mental, and spiritual practice that originated in India thousands of years ago, is now widely recognized as a holistic approach to improving well-being. Pranayama, the practice of controlling breath, is a core aspect of yoga and is especially beneficial in helping manage stress and maintain mental clarity. Together, yoga and pranayama offer an array of health benefits that can improve both physical and mental aspects of office work.

THE NEED FOR YOGA AND PRANAYAMA IN OFFICE LIFE

Modern office life often leads to an imbalance in our physical and mental health. Prolonged sitting, repetitive tasks, and high-pressure work environments can result in various health issues, including:

Physical Strain: Sitting for extended periods can lead to poor posture, back pain, neck stiffness, and headaches. The lack of movement can also contribute to weight gain and poor circulation.

Mental Stress: Tight deadlines, constant multitasking, and long working hours can cause high levels of stress and anxiety. The continuous pressure to meet expectations often leads to burnout, affecting both work and personal life.

Decreased Productivity: Stress and physical discomfort can significantly impact focus, concentration, and overall productivity. Employees may struggle to stay motivated or engaged, leading to a decline in performance.

Lack of Relaxation: A lack of mental relaxation and downtime leads to fatigue, which diminishes creativity and problem-solving abilities.

Incorporating yoga and pranayama into office life addresses these issues by promoting relaxation, improving focus, and enhancing physical well-being.

THE BENEFITS OF YOGA IN THE OFFICE

Improved Posture and Flexibility: Yoga helps in stretching and strengthening muscles that may become stiff from sitting in one position for too long. Regular practice of yoga poses such as the cat-cow stretch, shoulder shrugs, and seated forward bends helps in improving posture, reducing the risk of back pain, and alleviating discomfort caused by sitting.

Incorporating simple yoga stretches throughout the day, even at your desk, can increase mobility, prevent muscle strain, and reduce stiffness, especially in the neck, shoulders, and lower back areas.

Enhanced Breathing and Reduced Stress: Deep breathing exercises are at the core of yoga. In an office setting, this becomes essential as shallow breathing often accompanies stress and tension. Yoga encourages slow, deep, and mindful breathing, which triggers the body's relaxation response. By practicing yoga poses combined with deep breathing, individuals can activate the parasympathetic nervous system, which reduces stress and promotes mental clarity.

Increased Energy and Focus: One of the most immediate benefits of yoga is its ability to enhance energy levels. A few minutes of yoga poses or breathing exercises can boost circulation and oxygen flow to the brain, which helps improve concentration, alertness, and overall mental clarity. This makes it easier to focus on tasks and improve productivity during the workday.

Mental Clarity and Emotional Balance: Yoga has a profound impact on mental health. It encourages mindfulness, which involves staying present in the moment and focusing on the breath or the movement. By practicing mindfulness, employees can manage distractions more effectively and develop emotional resilience, which helps in dealing with the daily stresses of office life.

Regular yoga practice also helps in cultivating a positive mindset by releasing negative emotions such as anger, frustration, and anxiety. This emotional balance can improve interpersonal relationships in the workplace, leading to better collaboration and communication.

THE ROLE OF PRANAYAMA IN OFFICE LIFE

Pranayama, often referred to as the "art of controlled breathing," involves various techniques designed to regulate and control the breath. It is one of the most important aspects of yoga and is known for its positive impact on both physical and mental health. The practice of pranayama can be easily incorporated into office life, offering a quick and effective way to manage stress, improve concentration, and enhance overall well-being.

Stress Reduction: Pranayama helps in activating the body's relaxation response by slowing down the breath and reducing the production of stress hormones. Techniques like Nadi Shodhana (alternate nostril breathing) and Ujjayi (victorious breath) help calm the nervous system, reduce anxiety, and create a sense of inner peace. When practiced during stressful moments, pranayama can bring immediate relief and restore a sense of calm.

Improved Focus and Concentration: Breathing exercises like Kapalbhati (skull shining breath) and Bhastrika (bellows breath) help increase oxygen levels in the body, leading to better brain function. These pranayama techniques stimulate the mind, increase mental clarity, and improve focus. By practicing pranayama in the office, employees can sharpen their concentration and enhance productivity, especially during tasks that require sustained focus.

Increased Vitality: Pranayama helps to increase the flow of oxygen throughout the body, which enhances energy levels and combats fatigue. By consciously controlling the breath, individuals can improve circulation, increase lung capacity, and boost overall vitality. This results in a reduction in fatigue and an overall sense of rejuvenation, making it easier to maintain energy throughout the workday.

Emotional Stability: Pranayama techniques promote emotional balance by regulating the autonomic nervous system. This helps in reducing mood swings, irritability, and emotional stress. In a work environment, where conflicts and pressures can create emotional upheavals, pranayama can help individuals maintain a calm and composed state of mind.

INTEGRATING YOGA AND PRANAYAMA INTO OFFICE LIFE

Despite the numerous benefits of yoga and pranayama, it is essential to create an environment that supports their integration into office life. Here are some practical ways employees and organizations can incorporate yoga and pranayama into daily office routines:

Short Yoga Breaks: Setting aside 5-10 minutes every few hours for a quick yoga session can go a long way in improving physical well-being. Simple stretches like neck rolls, shoulder shrugs, wrist stretches, and seated spinal twists can alleviate stiffness and tension. Employees can also take a break to practice deep breathing exercises to help calm the mind and refocus.

Mindful Breathing Sessions: Organizing short breathing sessions during work breaks can help employees release stress and improve concentration. Practices like Nadi Shodhana (alternate nostril breathing) or Ujjayi (victorious breath) can be done in a quiet space or even at one's desk to restore calm and mental clarity.

Yoga and Pranayama Workshops: Organizations can invite certified yoga instructors to conduct workshops or sessions for employees. These workshops can focus on teaching simple yoga poses, stretches, and pranayama techniques that can be practiced in the office to relieve stress, improve posture, and increase energy levels.

Creating a Wellness Space: If possible, organizations can set up a small wellness area in the office where employees can practice yoga or meditation during their breaks. This space can include yoga mats, cushions, and a calming atmosphere conducive to relaxation and mindful breathing.

Encouraging a Holistic Approach to Well-being: Employers can promote the importance of work-life balance and holistic well-being by encouraging employees to engage in yoga and pranayama outside of work hours as well. Corporate wellness programs can include yoga classes or mindfulness meditation sessions that employees can attend after work or during lunch breaks.

Incorporating yoga and pranayama into office life offers numerous benefits, from improving physical health to enhancing mental clarity and emotional well-being. By providing employees with the tools to manage stress, improve focus, and stay physically active, organizations can create a healthier and more productive work environment.

Yoga and pranayama are simple, effective, and easily adaptable practices that can be done with minimal space and time commitment. With consistent practice, employees can experience increased energy, reduced stress, and improved overall health, ultimately leading to enhanced productivity and satisfaction in both their personal and professional lives. In the modern workplace, integrating yoga and pranayama is not just a trend—it is a powerful solution for maintaining a balanced, healthy, and thriving work environment.

Delhi High Court permanently restrains infringement of Himalaya's 'Liv.52' trademark, imposes Rs 30.91 lakh in costs and damages

TDG NETWORK
NEW DELHI

Further, the court noted that LIV is an essential feature of Himalaya's mark and that the impugned mark does not sufficiently distinguish itself from Himalaya's mark.

The Delhi High Court in the case Himalaya Global Holdings Ltd. And Anr vs. Rajasthan Aushdhalaya Private Limited And Anr observed and has issued a permanent injunction which being in favour of the personal care and herbal health company Himalaya Global Holdings Ltd against trademark infringement of its 'Liv.52' products used for liver care by manufacturers and sellers of infringing 'Liv-333' goods.

The bench headed by Justice Mini Pushkarna in the case remarked that as the goods are medicinal products, the risk of deception among consumers, medical practitioners and pharmacists must be examined with greater caution as any confusion could have serious consequences for public health.

The court observed that, 'Considering the goods in question are medicinal products, even a minimal degree of confusion can have serious consequences for public health, as mistaken identity of the products may lead to adverse medical effects or improper treatment and that the risk of deception must be assessed with greater caution, and the defendants' unauthorised use of the impugned mark cannot be permitted, as it creates a likelihood of confusion among consumers, medical practitioners, and pharmacists.'

In the present matter, the plaintiff i.e., Himalaya Global Holdings Ltd filed a suit against manufacturer Rajasthan Aushdhalaya Private Limited i.e., the defendant no. 2 and sellers i.e., defendant no. 1 of the capsules and tonic under the Liv-333 mark.

The plaintiff stated that its product under the mark 'Liv.52' is a natural remedy for improving liver function and is sold under the 'HIMALAYA' trademark.

It has been submitted by Himalaya before the court that it came across several infringing products on various e-commerce websites such as Amazon, Flipkart, JioMart and IndiaMart. It stated that upon conducting online searches, it came across an invoice of the defendants dated 23 April 2015, which showed commercial use of the impugned Liv-333 mark.

On May 24, 2024, the court in the case issued an ex-parte ad-interim injunction, where the defendants were restrained from dealing in goods and packaging bearing the infringing mark.

The court proceeded with a summary judgment under Order 8 Rule 10 of Civil Procedure Code, CPC.

The court also noted that the sales figures furnished by the defendants indicate that they continued to sell products under the impugned Liv-333 mark, despite the a d-interim injunction against them.

The court stated that the defendants have clearly infringed upon the LIV mark by adding 333 to it.

Further, the court noted that LIV is an essential feature of Himalaya's mark and that the impugned mark does not sufficiently distinguish itself from Himalaya's mark.

The court stated that, 'The use of the term "LIV" as the essential element in both marks creates a high degree of similarity, leading to a likelihood of confusion among consumers. The mere addition of the numeral "333" does not alter the overall impression of the mark, as the primary and most recognizable component remains identical.'

The court in the case observed and has issued a permanent injunction which being in Himalaya, wherein it restrained the defendants from dealing in goods with the infringing mark.

The court observed that the defendants received undue commercial benefit from the unauthorized use of the impugned mark and continued to sell it despite the injunction order.

Backache and exercise: How movement can relieve and prevent pain

TDG NETWORK
NEW DELHI

Back pain is one of the most common health issues worldwide, affecting millions of people each year. It can be acute or chronic, and it can occur at any age, often resulting in decreased quality of life, limited mobility, and discomfort. Whether the pain is caused by poor posture, muscle imbalances, overexertion, or a sedentary lifestyle, back pain can be both physically and mentally exhausting. Thankfully, regular exercise has been shown to be one of the most effective ways to alleviate and prevent back pain. In this article, we will explore the relationship between back pain and exercise, and how incorporating specific exercises into your daily routine can help manage or even eliminate the pain.

Understanding Back Ache

Before diving into the benefits of exercise, it's essential to understand the causes of back pain. The spine is a complex structure made up of vertebrae, muscles, ligaments, tendons, and nerves, all of which work together to allow for movement, stability, and flexibility. When one or more of these structures become damaged, inflamed, or overused, back pain can occur.

SOME OF THE MOST COMMON CAUSES OF BACK PAIN INCLUDE:

Poor Posture: Poor posture, particularly when sitting for prolonged periods (such as sitting at a desk), can lead to strain on the spine. Slouching or hunching can cause tension in the back muscles and lead to misalignment of the spine, ultimately resulting in pain.

Muscle Imbalances: Weak or tight muscles in the back, abdomen, and hips can contribute to back pain. When certain muscles are too weak or too tight, they fail to support the spine properly, leading to discomfort.

Herniated Discs: A herniated disc occurs when one of the rubbery cushions between the vertebrae in the spine (known as discs) bulges or ruptures. This can put pressure on nearby nerves and lead to pain, tingling, or numbness.

Sedentary Lifestyle: A lack of physical activity can contribute to the weakening of muscles, particularly the muscles that support the spine. This leads to a higher risk of experiencing back pain.

Overuse or Injury: Overexertion or injury, such as lifting heavy objects improperly, can strain the muscles and ligaments of the back and cause acute pain.

Age-Related Changes: As we age, the spine undergoes natural changes, such as the degeneration of the intervertebral discs and the loss of muscle mass. These changes can increase the likelihood of experiencing back pain.

How Exercise Helps Relieve and Prevent Back Ache

Exercise is a proven and highly effective method for relieving and preventing back pain. By strengthening the muscles that support the spine, improving flexibility, and increasing overall mobility, regular exercise helps to reduce the risk of injury and chronic pain. Let's look at how different forms of exercise can help address back pain:

1. STRENGTHENING EXERCISES

One of the most important factors in preventing and alleviating back pain is strengthening the muscles that support the spine. This includes muscles in the lower back, abdomen, hips, and pelvis. When these muscles are strong, they provide better support and stability for the spine, reducing the risk of pain and injury.

SOME EFFECTIVE STRENGTHENING EXERCISES FOR THE BACK INCLUDE:

Planks: Planks are an excellent exercise for engaging the core muscles, including the abdominals, obliques, and lower back muscles. A strong core provides support to the spine and helps reduce strain on the lower back.

Bridges: This exercise targets the glutes, lower back, and hamstrings. It helps to strengthen the muscles that support the pelvis and lower spine, which can alleviate lower back pain.

Bird-Dog: This exercise involves extending one arm and the opposite leg while maintaining a neutral spine. It strengthens the lower back and improves stability.

Superman: The Superman exercise helps strengthen the muscles in the lower back, glutes, and shoulders, improving posture and supporting the spine.

2. STRETCHING AND FLEXIBILITY EXERCISES

Tight muscles, particularly in the back, hamstrings, and hips, are common contributors to back pain. Stretching and flexibility exercises help to lengthen the muscles, relieve tension, and improve range of motion. When muscles are flexible, they are less likely to become strained or injured.

SOME BENEFICIAL STRETCHING EXERCISES INCLUDE:

Cat-Cow Stretch: This dynamic stretch helps to mobilize the spine and stretches the back muscles, promoting flexibility and reducing stiffness.

Child's Pose: This yoga pose helps to stretch the lower back, hips, and thighs, releasing tension in the spine.

Hamstring Stretch: Tight hamstrings can contribute to lower back pain, so stretching the hamstrings regularly can help prevent discomfort. This can be done by gently stretching one leg at a time while lying on your back or standing.

Hip Flexor Stretch: Tight hip flexors are another common cause of back pain. Stretching the hip flexors can help to alleviate pressure on the lower back and improve posture.

3. LOW-IMPACT AEROBIC EXERCISES

Aerobic exercise is essential for overall health, and it can also play a key role in managing back pain. Low-impact activities such as walking, swimming, or cycling help to improve circulation, reduce inflammation, and maintain muscle strength without putting excess strain on the back.

Walking: Walking is a simple yet effective way to keep the body moving while promoting good posture. It encourages the natural alignment of the spine and helps to relieve stiffness.

Swimming: Swimming is a low-impact activity that can provide an excellent full-body workout. The buoyancy of the water supports the body, reducing the strain on the spine while allowing for effective movement and stretching.

Cycling: Stationary cycling or outdoor biking is another low-impact activity that can help build strength in the lower back and core muscles. It's important to ensure proper posture while cycling to prevent further strain on the back.

4. POSTURE CORRECTION AND ERGONOMIC EXERCISES

Poor posture is one of the leading causes of back pain. Incorporating posture correction exercises into your routine can help you maintain a neutral spine and prevent discomfort caused by misalignment. These exercises aim to strengthen the muscles that support good posture and teach the body how to move properly.

Wall Angels: Wall angels help improve posture by strengthening the muscles in the upper back, shoulders, and neck, which are often affected by slouching or poor posture.

Chin Tucks: This exercise helps to align the neck and spine by strengthening the muscles in the neck and upper back. It is particularly helpful for individuals who spend long hours sitting at a desk.

Seated Rows: This exercise strengthens the muscles of the upper back, which can help correct slouching and improve overall posture.

5. YOGA AND PILATES

Yoga and Pilates are both excellent forms of exercise for relieving back pain and improving flexibility, strength, and posture. Yoga focuses on breathing, flexibility, and gentle stretching, while Pilates emphasizes core strength and alignment.

Yoga: Specific yoga poses, such as Downward Dog, Cobra, and Sphinx, are known to relieve back tension, stretch tight muscles, and improve spinal alignment. Yoga also encourages deep breathing, which can help reduce stress, a known contributor to muscle tension.

Pilates: Pilates exercises target the core muscles and focus on controlled movement and alignment. Pilates is particularly effective for strengthening the lower back and abdominal muscles, providing better support for the spine.

HOW TO START EXERCISING FOR BACK PAIN RELIEF

If you suffer from back pain, it's important to start slowly and gradually increase the intensity of your exercises. Here are some tips to help you get started:

Consult a Healthcare Professional: Before beginning any exercise program, especially if you have chronic or severe back pain, it's important to consult with a healthcare professional or physical therapist to ensure that the exercises are appropriate for your specific condition.

Focus on Consistency: To experience lasting relief, consistency is key. Aim to incorporate back-friendly exercises into your routine 3-5 times per week.

Warm-Up and Cool Down: Always start with a gentle warm-up to prepare your muscles for exercise, and finish with a cool-down and stretches to promote flexibility and reduce muscle soreness.

Listen to Your Body: Pay attention to how your body responds to each exercise. If you experience sharp or worsening pain, stop immediately and consult a healthcare professional.

Back pain can be debilitating, but with the right approach, it can be managed or even prevented. Regular exercise, including strengthening, stretching, and low-impact aerobic activities, plays a vital role in maintaining a healthy spine and reducing discomfort. Whether you're dealing with acute back pain or simply want to prevent it from occurring, incorporating back-friendly exercises into your daily routine can improve your overall health and well-being. By strengthening the muscles that support the spine, improving flexibility, and adopting better posture, exercise offers a holistic and effective solution to managing back pain.

GOMUKHASANA A (COW FACE POSE A)

Page no	Language	Article Dimension	Supplement	Position	AVE	Circulation
2	English	702	City Express	Top Right	701707	177.8K

FITBIT

GOMUKHASANA A

(COW FACE POSE A)

This is a variation of Gomukhasana (Cow Face Pose). In fact, the Shoelace Pose is a warm-up, transit and preparation to this pose. This pose is a foundation pose to Gomukhasana Variation Pada. It comes from the traditional Ashtanga Yoga and requires intense hip flexibility same as the Uddiyana Bandha and Jalandhara Bandha (Chin Lock). It can be a good cooling-down pose for advanced hip-opening poses. Importantly, a lot of calves and hamstring stretches are needed to be done before this practice to avoid cramps in the legs. Both knee and ankle rotations are compulsory warm-ups that need to be done to release stiffness and enable ease.

STEPS

- Sit in Dandasana (Staff Pose).
- Place your palms on the floor, bend the left leg at the knee, and place your left foot near the right buttocks. Breathe.
- Raise the right leg bending at the knee and place the right thigh over the left thigh and bring the right foot close to the left buttocks.
- Make sure both knees are one above the other or and balance the body.
- Going backward, gently sit on the heels, keeping the spine erect.
- Breathe, engage the core and maintain the Uddiyana Bandha pose. Roll the shoulders back, interlock the fingers and place the locked palms on the right knee.
- Slightly bring the body forward in a slanting position and keep the chin down. This is the final pose.
- To release, look up, bring the head to a neutral position, and inhale. Release the Uddiyana Bandha pose, interlocked fingers and legs, and relax in Dandasana Hands Back Knees Bent.
- Realign in Dandasana. Now practise the same on the other side.
- Release and relax in Dandasana Hands Back Knees Bent.

BENEFITS

- Tones the IT band, quadriceps, hamstrings, calves, torso, lower body and the inner thighs.
- Strengthens the ankle, spine and heel joint.
- Stretches the cervical spine and neck muscles.
- Helps students with the art of holding the breath, increasing lung capacity, and diaphragm's elasticity.
- Heals knee injuries, provided it is not a ligament tear.
- Cures initial stages of arthritis-knees.
- Posture correction is effective.
- Cures ailments related to urogenital system like infertility, erectile dysfunction, urinary-incontinence, polycystic ovaries and inflamed prostate glands.
- Enhances blood circulation to the digestive system.
- Burns fat in the tummy area.
- Stimulates the Muladhara, Sacral and Manipura Chakras.
- Balances the Throat Chakra and removes any lethargy or negative thinking process.
- Nabi chakra stimulation enhances the prana flow by detoxification.

LIMITATIONS

- Students who have ankle, knee, and wrist injuries, or have undergone recent knee, hip, and spine surgeries, or are struggling with pelvic stiffness, acute arthritis of knee and ankle joints, athletes with quadriceps and hamstring injuries, and pregnant women after first semester, must avoid this.
- Postnatal women can practise this after the initial four weeks.

LifeYoga's facade

Dr Varun Veer (centre), co-founder of LifeYoga, with his team

Mandana stone flooring with lime and cow dung plastered walls

Sunlight and green shade of the foliage peeping into the studio

Dr Varun Veer's LifeYoga Centre at Malcha Marg nurtures an entire ecosystem of mindfulness. It's a Delhi gym whose design is aligned to its programming.

LIFE, UNINTERRUPTED

PRACHI SATRAWAL

IN a city like Delhi, where clean air is a luxury and outdoor yoga feels like a dare, the LifeYoga Centre emerges as a sanctuary for the soul. Nestled in the heart of Chanakyapuri, the capital's bustling diplomatic enclave, this meditative retreat seamlessly blends ancient wisdom with modern design, offering a refuge from the chaos of urban life. Designed by Studio Lotus, the centre, which opened in 2023, spans three levels, each thoughtfully crafted to guide visitors deeper into mindfulness.

At the helm is Dr Varun Veer. "Yoga has been my family tradition," he says. "My father, an Ayurveda acharya, introduced me to yoga at the age of nine." With a PhD in yoga and decades of global teaching experience, Dr Veer returned to India from Hong Kong with a mission: to create the world's best yoga centre, rooted in wisdom yet tailored to modern lifestyles. In a world filled with uncertainty, yoga offers a structured path—a beginning, a plan, and an end.

To decompress, discover

The moment you step into LifeYoga, you are greeted by a restrained palette of warm neutrals and earthy tones, a deliberate design choice to evoke a sense of calm. The ground floor houses a reception area that flows into a retail zone and 'Eleved,' a restaurant serving Ayurveda-inspired cuisine. However, the real magic of the centre lies upstairs, where the main yoga studio, conceptualised as a conservatory, is bathed in soft, diffused light from overhead skylights. Hot yoga panels double as lighting reflectors, creating an evenly lit space that feels both expansive and intimate.

Dr Veer explains the philosophy behind the design: "The intent was that whenever a student enters, they should feel two things—peace of mind and joy, which are increasingly scarce in today's world. My brief to the architect was minimalism, or rikt ta—emptiness. Until your body and heart are empty, shunyata (tranquillity) cannot be achieved. The mind remains busy unless it finds that emptiness."

The studios, named Ekam, Dvey, Trini, Chaturi, and Pancha in Sanskrit, are versatile spaces with collapsible walls, accommodating groups ranging from five to fifty. The basement, with its naturally lower light levels, is dedicated to slower, meditative practices. Here, therapeutic lighting enhances focus and relaxation. Integrated, adjustable lighting systems allow for a well-lit atmosphere or a dim, gentle ambience, depending on the practice. Even the air-conditioning is discreet, with low-velocity ducts ensuring no drafts disrupt your flow. "Yoga, Sanskrit, naturopathy—these belong to everyone, but their roots are in India," says Dr Veer.

For 26-year-old Arushi Arora, who recently returned from her second master's degree in London and is on the cusp of launching her own venture, LifeYoga became a grounding force during a transitional phase. "I was into Pilates, strength training, and gym workouts, but I noticed my cortisol levels rising. I needed something to centre me. I had practised yoga before but wanted to return to it to manage stress," she explains.

In cities that are frequently overwhelmed with noise or leave one feeling disconnected, discovering a quiet space for yoga is priceless. Unfolding a mat in a peaceful environment yields far greater benefits than attempting it amid the frenzy of daily commotion. "From one of the studios, you can see the sun rising through the trees—a special sight in this city," adds Arora.

The centre's meticulous attention to air quality is another standout feature. Beyond the studios, finer details like camphor lamps, salt crystals, and the restaurant's fresh, organic produce contribute to a holistic experience. Sabeena Awasthi, a regular visitor for the past nine months remarked, "This is an experience, what they have opened here is beautiful." Dr Veer recalls one student, a deep-sea diver from Germany, who shared how LifeYoga evoked a sensation akin to the ocean's depths: "Below a certain level, you're completely disconnected from the world due to the atmospheric pressure. Yoga here gives me the same feeling."

Yoga, Sanskrit, naturopathy — these belong to everyone, but their roots are in India

Dr Varun Veer, LifeYoga Centre

Flexibility for modern lifestyles

LifeYoga's programming is as diverse as its design. With over 20 types of classes offered daily, from Ashtanga and Vinyasa to aerial and wall rope yoga, there's something for everyone. "When you think of yoga, you think of calmness. But here, you get the best of both worlds—power yoga, breathwork, meditation and more. The Yoga Nidra class has been transformative for my sleep issues," adds Arora.

The LifeYoga app facilitates booking classes at convenience. "We start at 6:30 in the morning and go till 9 at night," Dr Veer explains. Class fees start at ₹1,980 for a drop-in session.

For Anubhav Anusha, a 37-year-old biotechnologist who runs a diagnostics company for infectious diseases, this is the first time she is doing yoga. "I joined for a two-week programme, intending to spend three months in India and three in France. But since I joined, I haven't left the country or travelled anywhere. I spend around three hours here every day," he says.

Do aesthetics play a role in yoga practice? Anusha says, "As one reaches higher levels of awakening, the body becomes more sensitive. Art and decor become important in maintaining that sensitivity and calm. The warmth of the centre facilitates the calming of the mind, heart, and body."

A growing community

The centre boasts a robust membership base of over 750 individuals. As yoga evolves, shifting between tradition and contemporary adaptation, Dr Veer is clear that "yoga is not necessarily about seeking God. We don't mix yoga and religion. A city yoga centre is different from an ashram, and practices vary accordingly".

It is worth pondering: what if modern yoga is neither entirely spiritual nor purely secular, but something more elusive—a practice whose allure stems from its in-between nature? Oscillating between the tranquillity of a sacred retreat and the utility of a fitness studio, yoga sometimes drapes itself in mystique, other times in pragmatism. Perhaps this fluidity—experienced each time as practitioners unroll their mats—is the essence of yoga itself.

AYUSHMAN FRAUD: ANOTHER PGIMER STAFFER HELD

Page no	Language	Article Dimension	Supplement	Position	AVE	Circulation

AYUSHMAN FRAUD: ANOTHER PGIMER STAFFER HELD

CHANDIGARH: A month after launching an investigation into the Ayushman Bharat scheme fraud at PGIMER, the Chandigarh crime branch has arrested Kapil, a data entry operator at the Himcare counter (for Himachal patients) in Nehru Hospital. Kapil is the first PGIMER insider to be arrested in this case. With this, three persons have been arrested so far.

The fraud surfaced when Balram, another accused, was arrested for fraudulently taking medicines and surgical supplies. During interrogation, he named Kapil, officials said. The police are investigating Kapil's role in manipulating records and facilitating fraudulent withdrawals.

The investigation began after PGIMER security personnel caught 25-year-old Raman from Kangra, HP, on February 18 while he was attempting to fraudulently obtain ₹60,000 worth of medicines from an AMRIT pharmacy (government initiative for subsidised medicines, equipment) using a fake stamp. An indent book from the urology department and eight counterfeit stamps were recovered. According to the police, the fraudulently obtained medicines were sold to private medical stores.

Under the Ayushman Bharat scheme, eligible families receive free treatment and medicines up to ₹5 lakh per year. For medicines costing above ₹2,000, patients require a doctor's prescription in the indent book, verified with stamps from the doctor, nursing officer, Ayushman counter and dispensary—a process the accused had allegedly manipulated to execute the fraud. According to investigating officials, fraud worth ₹5-crore has surfaced in this case so far. HTC

PGI healthcare fraud expands to Himcare: Data operator held

TIMES NEWS NETWORK

Chandigarh: The ongoing multi-crore fraud involving the Ayushman Bharat cashless treatment scheme at Chandigarh PGI has now extended to the Himcare scheme, prompting the arrest of Kapil, a data operator working at the Himcare counter in Nehru Hospital. Kapil is the first insider from PGI to be arrested in connection with this growing scam.

The fraud was detected after the arrest of Balram, who was found to be misusing Ayushman Bharat benefits by illegally withdrawing medicines and surgical items. The case was then handed over to the Crime Branch for a more thorough investigation. During interrogation, Balram implicated Kapil in the scam, leading to his arrest.

The police are now delving deeper into the involvement of both Kapil and Balram to determine if their fraudulent activities were limited to the Ayushman Bharat scheme or if they also exploited the Himcare scheme, which provides health benefits to residents of Himachal Pradesh. If fraud within Himcare is confirmed, it could lead to significant policy reforms regarding the scheme's operations in Himachal Pradesh.

The Crime Branch is actively investigating the scale of the fraud, the total amount embezzled, and the role played by Kapil in facilitating the scam with Balram. As the investigation progresses, more arrests are expected as authorities work to uncover the full extent of the healthcare fraud network operating within the PGI system.
