We're all tired of ads—targeted, random, pop-up, autoplay, or whatever other form they take when we are online. As advertising creeps deeper into digital life, technology geeks, privacy enthusiasts and digital rebels are fighting back, a bit like that episode of *Black Mirror*. With sophisticated but free-to-use ad blockers and VPN settings, they are shaping a parallel version of the internet, one where attention isn't for sale at every blink. **Shephali Bhatt** meets the people checking out of the ad-verse by installing browser extensions, privacy guards, VPN services. The future of the attention economy may no longer belong to platforms, but to individuals reclaiming control over what gets their time.

A solid choice as a
budget smartphone

There's one smartphone brand that has flown under the radar, quietly releasing new models with low-key marketing for more than a year. Going by market data, Motorola, now under the tutelage of Lenovo, is a winner with its mid-range smartphones propelling the company's market share. The Motorola Edge 60 Fusion is one of the new releases, and **Sahil Bhalla** used the breezy, no-frills smartphone for a few months. Priced from ₹22,999 onwards, it has a significantly improved OLED display (with Gorilla Glass 7 protection), a larger battery capacity, increased storage, a refreshed chipset, and faux vegan leather finishes in three colours, making it a solid choice as a good budget smartphone.

Apart from discipline, it's dedication to working out twice a day that separates many professional athletes from the rest of us. And a growing tribe of regular runners and amateur sportspersons are adopting this twice-a-day workout routine to become fitter and better at their chosen sport. This two-sessions-a-day structure helps with skill, strength, endurance and stamina as well as recovery. While double sessions might be tempting for those who find their progress plateauing, it is important to be aware of one's own fitness levels, recovery needs, daily routine, nutrition and sleep before jumping into it. **Shrenik Avlani** explains everything you need to know about the twice-a-day fitness trend.

Meet Dutch football
legend Ruud Gullit

The Champions League final is a while away but all the semi-finalists this year were a surprising mix of teams that worked through their adversities and found their identities over the course of the season. It's been a season that Dutch football legend Ruud Gullit describes as thrilling, since he admires teams that play attacking football. Gullit, who once formed a part of a fearsome attacking trio with Marco Van Basten and Frank Rijkaard, is a staunch advocate of "Total Football", the flowing, attack-minded, space-exploiting mode of play. In an exclusive interview with **Rudranell Sengupta**, Gullit breaks down the Champions League semi-finals and discusses the return of football DNA.

मोटोरोला ने भारत में लांच किया एज 60 प्रो

नई दिल्ली, 4 मई (एजेंसी): अग्रणी एआई स्मार्टफोन ब्रांड मोटोरोला ने एज 60 सीरीज में एक नया स्मार्टफोन मोटोरोला एज 60 प्रो लॉन्च किया है। यह फोन बेहतरीन फीचर्स से लैस है। इसका प्री-ऑर्डर 30 अप्रैल से शुरू हो गया है। मोटो एआई के साथ मोटोरोला एज 60 प्रो, स्मार्टफोन एआई को बिल्कुल नए स्तर पर ले जाता है। इसमें 'नेक्स्ट मूव' नाम का फीचर है, जो स्क्रीन पर चल रही चीजों-जैसे कोई रेसिपी या ग्रुप चैट को पहचानता है और अगले स्टेप का सुझाव देता है। यह उन लोगों के लिए खास है, जो पहली बार एआई का अनुभव लेना चाहते हैं।

मोटोरोला का स्मार्ट कनेक्ट फीचर भी अब एआई के साथ पहले से बेहतर हो गया है। आप चाहें तो फोन को लैपटॉप या टैबलेट से कनेक्ट करें और मल्टीटास्किंग के लिए हब व्यू का इस्तेमाल करें। मोटोरोला एज 60 प्रो का क्वाड-कर्व्ड डिजाइन फोन को हाथ में पकड़ने में बेहद आरामदायक बनाता है। आगे का कर्व्ड ग्लास पीछे की ओर बिना किसी रुकावट के जुड़ता है, जिससे इसका लुक न सिर्फ प्रीमियम, बल्कि ट्रेंडी लगता है। पैनटोन कलर इंस्टीट्यूट के साथ साझेदारी में बनाए गए तीन आकर्षक रंग- पैनटोन शैडो, डैजलिंग ब्लू और स्पार्कलिंग ग्रेप हर पसंद को ध्यान में रखकर चुने हैं।

MOTOROLA JUST UNVEILED the edge 60 pro in the country priced at ₹29,999. Speaking at the launch of the new phone, TM Narasimhan, managing director, Motorola India, broke down the brand's recent performance in the Indian smartphone category. "At the end of the day, the consumers decide a brand's market share. So, what we have done is listen to the consumer and give them what they want," he said.

Listening to the consumer seems to be paying off. As per CyberMedia Research, the Lenovo-owned brand has posted double-digit growth in six of the past seven quarters, with the only exception being Q2 of CY23.

The Indian smartphone market is estimated to be around \$40 billion, growing at a CAGR of 6-7% as per Statista. Narasimhan says that the brand's ambition is to make its way into the top three by 2026. To that end, the brand has taken a few bold steps. The first is in the area of design, where Motorola has partnered with Pantone, a provider of professional colour standards. The partnership has helped the brand identify colours and designs that are trendy, says Narasimhan.

The second area is in the user interface and user experience, where Motorola has leveraged AI to create a proactive smartphone experience than reactive. It has also launched Smart Connect that allows Motorola users to achieve seamless connectivity between their phones and Windows PC.

Narasimhan says that these steps have played a key role in pushing Motorola's market share from a mere 2.4% in the last quarter of CY23 to reach 7.8% in the last quarter of CY24 (International Data Corporation). While it does sell online on Flipkart, Motorola also has close to 60,000 retailers offline to ensure it can reach out to consumers where

Motorola launches edge 60 pro in India

EOI CORRESPONDENT

SILIGURI, MAY 3/--/Motorola added yet another smartphone to their edge 60 lineup with the launch of the motorola edge 60 pro. The device comes with the segment's only 50MP + 50MP+ 50X (Telephoto) advanced AI camera, the segment's most personalized and contextual on-device AI experience with dedicated AI key and the world's most immersive 1.5K True Colour Quad- Curved display. Additionally, the motorola edge 60 pro also features world's highest battery rating after receiving DXOMARK's Gold Label certification - boasting a 6000mAh battery, with 90W TurboPower Charging and 15W wireless charging. Further the device is powered by the incredibly powerful and AI enabled Mediatek Dimensity 8350 Extreme Processor.

Introducing the segment's most personalised and contextual AI, the motorola edge 60 pro is powered by moto AI. It works its magic behind the scenes to deliver a smarter, more intuitive way to interact and engage for the users with Smart Connect with AI, which was announced earlier in the year; transforms a simple voice or text command like, "show me this on my TV," into streaming an app to a larger display, mirroring the phone to a PC or tablet, or activating a hub view for multitasking.

T.M. Narasimhan, Managing Director, Motorola India said "At Motorola, we are committed to pushing the boundaries of innovation while staying deeply connected to the evolving needs of our consumers. With the launch of the motorola edge 60 pro, we are proud to introduce a device that brings together a revolutionary, contextually aware and personalised AI experience through moto AI, an unparalleled imaging experience and flagship graded display, battery, performance and durability."

HERE'S HOW MOTOROLA IS SCRIPTING A COMEBACK IN THE MARKET

CHRISTINA MONIZ

MOTOROLA JUST UNVEILED the edge 60 pro in the country priced at ₹29,999. Speaking at the launch of the new phone, TM Narasimhan, managing director, Motorola India, broke down the brand's recent performance in the Indian smartphone category. "At the end of the day, the consumers decide a brand's market share. So, what we have done is listen to the consumer and give them what they want," he said.

Listening to the consumer seems to be paying off. As per CyberMedia Research, the Lenovo-owned brand has posted double-digit growth in six of the past seven quarters, with the only exception being Q2 of CY23.

The Indian smartphone market is estimated to be around \$40 billion, growing at a CAGR of 6-7% as per Statista. Narasimhan says that the brand's ambition is to make its way into the top three by 2026. To that end, the brand has taken a few bold steps. The first is in the area of design, where Motorola has partnered with Pantone, a provider of professional colour standards. The partnership has helped the brand identify colours and designs that are trendy, says Narsimhan.

The second area is in the user interface and user experience, where Motorola has leveraged AI to create a proactive smartphone experience than reactive. It has also launched Smart Connect that allows Motorola users to achieve seamless connectivity between their phones and Windows PC.

Narasimhan says that these steps have played a key role in pushing Motorola's market share from a mere 2.4% in the last quarter of CY23 to reach 7.8% in the last quarter of CY24 (International Data Corporation). While it does sell online on Flipkart, Motorola also has close to 60,000 retailers offline to ensure it can reach out to consumers where

identify what they want across different price ranges and created differentiation in each price segment," he remarks.

Prabhu Ram, VP, Industry Research Group, CyberMedia Research, says its focus on aesthetics, combined with sturdy hardware, clean and intuitive software, purposeful AI features, has resonated strongly with younger, always-on users. "Its 53% YoY growth in the first quarter of this year highlights the strength of its value proposition, particularly in the mid-premium and premium segments," adds Ram.

Rutu Mody-Kamdar, founder of Jigsaw Brand Consultants, observes that Motorola's comeback has been a classic example of strategic restraint and cultural timing. "The brand has struck the right balance between functionality and aspiration, especially with models that offer high-end features without the inflated price tag," she says.

Meet Dutch football
legend Ruud Gullit

The Champions League final is a while away but all the semi-finalists this year were a surprising mix of teams that worked through their adversities and found their identities over the course of the season. It's been a season that Dutch football legend Ruud Gullit describes as thrilling, since he admires teams that play attacking football. Gullit, who once formed a part of a fearsome attacking trio with Marco Van Basten and Frank Rijkaard, is a staunch advocate of "Total Football", the flowing, attack-minded, space-exploiting mode of play. In an exclusive interview with **Rudraneel Sengupta**, Gullit breaks down the Champions League semi-finals and discusses the return of football DNA.

HERE'S HOW MOTOROLA IS SCRIPTING A COMEBACK IN THE MARKET

CHRISTINA MONIZ

MOTOROLA JUST UNVEILED the edge 60 pro in the country priced at ₹29,999. Speaking at the launch of the new phone, TM Narasimhan, managing director, Motorola India, broke down the brand's recent performance in the Indian smartphone category. "At the end of the day, the consumers decide a brand's market share. So, what we have done is listen to the consumer and give them what they want," he said.

Listening to the consumer seems to be paying off. As per CyberMedia Research, the Lenovo-owned brand has posted double-digit growth in six of the past seven quarters, with the only exception being Q2 of CY23.

The Indian smartphone market is estimated to be around \$40 billion, growing at a CAGR of 6-7% as per Statista. Narasimhan says that the brand's ambition is to make its way into the top three by 2026. To that end, the brand has taken a few bold steps. The first is in the area of design, where Motorola has partnered with Pantone, a provider of professional colour standards. The partnership has helped the brand identify colours and designs that are trendy, says Narsimhan.

The second area is in the user interface and user experience, where Motorola has leveraged AI to create a proactive smartphone experience than reactive. It has also launched Smart Connect that allows Motorola users to achieve seamless connectivity between their phones and Windows PC.

Narasimhan says that these steps have played a key role in pushing Motorola's market share from a mere 2.4% in the last quarter of CY23 to reach 7.8% in the last quarter of CY24 (International Data Corporation). While it does sell online on Flipkart, Motorola also has close to 60,000 retailers offline to ensure it can reach out to consumers where

The brand has phones that start as low as ₹6,999, going all the way up to ₹89,999 and Narasimhan says the bulk of the sales comes from the mid-segment or the ₹10,000 to ₹35,000 range.

"We are a Gen Z focussed brand. We have tried to identify what they want across different price ranges and created differentiation in each price segment," he remarks.

Prabhu Ram, VP, Industry Research Group, CyberMedia Research, says its focus on aesthetics, combined with sturdy hardware, clean and intuitive software, purposeful AI features, has resonated strongly with younger, always-on users. "Its 53% YoY growth in the first quarter of this year highlights the strength of its value proposition, particularly in the mid-premium and premium segments," adds Ram.

Rutu Mody-Kamdar, founder of Jigsaw Brand Consultants, observes that Motorola's comeback has been a classic example of strategic restraint and cultural timing. "The brand has struck the right balance between functionality and aspiration, especially with models that offer high-end features without the inflated price tag," she says.

How to check out
of the ad-verse

We're all tired of ads—targeted, random, pop-up, autoplay, or whatever other form they take when we are online. As advertising creeps deeper into digital life, technology geeks, privacy enthusiasts and digital rebels are fighting back, a bit like that episode of *Black Mirror*. With sophisticated but free-to-use ad blockers and VPN settings, they are shaping a parallel version of the internet, one where attention isn't for sale at every blink. **Shephali Bhatt** meets the people checking out of the ad-verse by installing browser extensions, privacy guards, VPN services. The future of the attention economy may no longer belong to platforms, but to individuals reclaiming control over what gets their time.

■ जलतेदीप, नई दिल्ली

मोबाइल टेक्नोलॉजी और इनोवेशन में दुनिया की अग्रणी कंपनी और भारत में अग्रणी एआई स्मार्टफोन ब्रांड मोटोरोला ने आज अपनी एज 60 सीरीज में एक नया स्मार्टफोन मोटोरोला एज 60 प्रो लॉन्च किया है। यह फोन बेहतरीन फीचर्स से लैस है - जैसे सेगमेंट का इकलौता 50 एमपी + 50 एमपी + 50 एक्स (टेलीफोटो) एआई कैमरा सिस्टम, एक खास एआई की, और सबसे पर्सनल और स्मार्ट ऑन-डिवाइस एआई अनुभव। इसके अलावा, इसमें दुनिया का सबसे इमर्सिव 1.5 के टू कलर क्राइ-कर्व्ड डिस्प्ले दिया गया है। मोटोरोला एज 60 प्रो को डीएक्सओमार्क से गोल्ड लेबल प्रमाणन मिला है, जिससे यह फोन दुनिया की सर्वोच्च बैटरी रेटिंग पाने वाला डिवाइस बन गया है। इसमें 6000 एमएच की दमदार बैटरी, 90 डब्ल्यू टर्बोपावर चार्जिंग और 15 डब्ल्यू वायरलेस चार्जिंग की सुविधा दी गई है। यह

स्मार्टफोन मीडियाटेक डाइमेंसिटी 8350 एक्सट्रीम प्रोसेसर से चलता है, जो तेज परफॉर्मेंस और एआई से भरपूर अनुभव देता है। एआई का नया अनुभव मोटो एआई के साथ मोटोरोला एज 60 प्रो, स्मार्टफोन एआई को बिल्कुल नए स्तर पर ले जाता है। यह फोन पर्दे के पीछे चुपचाप काम करता है, ताकि आपको हर काम आसान, तेज और समझदारी से पूरा करने में मदद मिल सके। इसमें 'नेक्स्ट मूव' नाम का फीचर है, जो आपकी स्क्रीन पर चल रही चीजों -

जैसे कोई रेसिपी या ग्रुप चैट - को पहचानता है और अगले स्टेप का सुझाव देता है। यह उन लोगों के लिए शानदार है, जो पहली बार एआई का अनुभव लेना चाहते हैं। इसके अलावा दो और बेहतरीन फीचर हैं: फ्लैलिस्ट स्टूडियो, जो आपके स्क्रीन पर दिख रही मूड के हिसाब से एकदम सही म्यूजिक फ्लैलिस्ट बना देता है। इमेज स्टूडियो, जो आपके आईडिया को तस्वीरों, अवतार, स्टिकर या वॉलपेपर में बदल देता है।

MOTOROLA LAUNCHES EDGE 60 PRO IN INDIA WITH TRUE FLAGSHIP GRADE AI EXPERIENCE, SEGMENT'S ONLY 50MP + 50MP+ 50X AI CAMERA SYSTEM, WORLD'S MOST IMMERSIVE 1.5K TRUE COLOUR QUAD-CURVED DISPLAY, 6000MAH BATTERY WITH WORLD'S HIGHEST BATTERY RATING ON DXOMARK

Bengaluru: Motorola, a global leader in mobile technology and innovation and India's leading AI smartphone brand added yet another disruptive smartphone to their edge 60 lineup with the launch of the "motorola edge 60 pro". The device comes with the segment's only 50MP + 50MP+ 50X (Telephoto) advanced AI camera, the segment's most personalized and contextual on-device AI experience with dedicated AI key and the world's most immersive 1.5K True Colour Quad- Curved display. Additionally, the motorola edge 60 pro also features world's highest battery rating after receiving DXOMARK's Gold Label certification - boasting a 6000mAh battery, with 90W TurboPower Charging and 15W wireless charging. Further the device is powered by the incredibly powerful and AI enabled Mediatek Dimensity 8350 Extreme Processor.

Introducing the segment's most personalised and contextual AI, the motorola edge 60 pro is

powered by moto AI. It works its magic behind the scenes to deliver a smarter, more intuitive way to interact and engage for the users with:

Next move, which recognizes what's on a user's screen, such as a recipe or group chat, and offers helpful next steps in real time. Next move is ideal for those who are new to AI experiences and want to explore. The same goes for:

- Playlist Studio, which curates the perfect playlist based on one's screen, so the right vibe is always achieved.
- Image Studio, which uses generative AI creation and editing capabilities to turn ideas into images, avatars, stickers and wallpapers.

Smart Connect with AI, which

was announced earlier in the year, transforms a simple voice or text command like, "show me this on my TV," into streaming an app to a larger display, mirroring the phone to a PC or tablet, or activating a hub view for multitasking.

Designed to enhance everyday tasks, moto ai makes everything from capturing the perfect photo to organizing notifications smarter and more personal. Under three core pillars—Create, Capture, and Assist—moto ai empowers users in meaningful ways. In Create, features like AI Image Studio and AI Playlist Studio unlock a new level of creativity and personal expression. Capture brings powerful AI to the camera system for intelligent image enhancements. Assist features such as Pay Attention- which listens, transcribes, and summarizes audio in the background—Remember This, Recall, and Journal help users remember, organize, and revisit important information and with Catch Me Up, they get a concise

summary of missed updates.

With the launch of the motorola edge 60 pro, Motorola redefines the smartphone experience by integrating powerful AI, both through moto ai and collaborations with Perplexity, Microsoft, and Google. Users can choose their preferred AI assistant for smarter, more flexible support. Motorola also becomes the first to bring Perplexity AI to smartphones, offering three months of Perplexity Pro for free. Microsoft Copilot is now embedded via moto ai for real-time assistance, while Google Gemini adds smart trip planning, live conversations, and three months of Gemini Advanced with 2TB cloud storage. Powered by Hybrid AI architecture, the Edge 60 Pro uses Meta's Llama and Google's Imagen 3 and Gemini 2 models to deliver faster, safer, and more personalized experiences—both on-device and on the cloud. The motorola edge 60 pro takes smartphone photography to the next level with powerful AI features.

मोटोरोला ने भारत में लॉन्च किया एज 60 प्रो – असली फ्लैगशिप एआई अनुभव के साथ, 29,999 रुपये से शुरू

मंच मंथन, आशीष श्रीवास्तव, नई दिल्ली। मोबाइल टेक्नोलॉजी और इनोवेशन में दुनिया की अग्रणी कंपनी और भारत में अग्रणी एआई स्मार्टफोन ब्रांड मोटोरोला ने आज अपनी एज 60 सीरीज़ में एक नया स्मार्टफोन मोटोरोला एज 60 प्रो लॉन्च किया है। यह फोन बेहतरीन फीचर्स से लैस है – जैसे सेगमेंट का इकलौता 50एमपी + 50एमपी + 50एक्स (टेलीफोटो) एआई कैमरा सिस्टम, एक खास एआई की, और सबसे पर्सनल और स्मार्ट ऑन-डिवाइस एआई अनुभव। इसके अलावा, इसमें दुनिया का सबसे इमर्सिव 1.5K टूकलर क्राड-कवर्ड डिस्प्ले दिया गया है।

मोटोरोला एज 60 प्रो को

DXOMARK से गोल्ड लेबल प्रमाणन मिला है, जिससे यह फोन दुनिया की सर्वोच्च बैटरी रेटिंग पाने वाला डिवाइस बन गया है। इसमें 6000mAh की दमदार

बैटरी, 90W टर्बोपावरज़ चार्जिंग और 15W वायरलेस चार्जिंग की सुविधा दी गई है। यह स्मार्टफोन मीडियाटेक डाइमेंसिटी 8350 एक्सट्रीम प्रोसेसर से चलता है, जो तेज़ परफॉर्मंस और एआई से भरपूर अनुभव देता है।

एआई का नया अनुभव- मोटो एआई के साथ मोटोरोला एज 60 प्रो, स्मार्टफोन एआई को बिल्कुल नए स्तर पर ले जाता है। यह फोन पर्दे के पीछे चुपचाप काम करता है, ताकि आपको हर काम आसान, तेज़ और समझदारी से पूरा करने में मदद मिल सके। इसमें 'नेक्स्ट मूव' नाम का फीचर है, जो आपकी स्क्रीन पर चल रही चीज़ों – जैसे कोई रेसिपी या ग्रुप चैट – को पहचानता है और अगले स्टेप का सुझाव देता है। यह उन लोगों के लिए शानदार है, जो पहली बार एआई का अनुभव लेना चाहते हैं।

इसके अलावा दो और बेहतरीन फीचर हैं-प्लेलिस्ट

स्टूडियो, जो आपके स्क्रीन पर दिख रही मूड के हिसाब से एकदम सही म्यूजिक प्लेलिस्ट बना देता है। इमेज स्टूडियो, जो आपके आइडिया को तस्वीरों, अवतार, स्टिकर या वॉलपेपर में बदल देता है – और ये सब कुछ एआई की मदद से होता है।

स्मार्ट कनेक्ट फीचर- मोटोरोला का स्मार्ट कनेक्ट फीचर भी अब एआई के साथ पहले से और बेहतर हो गया है। अब आप सिर्फ यह कहकर – मुझे यह टीवी पर दिखाओ – अपने फोन को ऐप को बड़ी स्क्रीन पर चला सकते हैं। आप चाहें तो फोन को लैपटॉप या टैबलेट से कनेक्ट करें और मल्टीटास्किंग के लिए हब व्यू का भी इस्तेमाल करें।
