FIRST POST-MERGER RESULTS

JioStar Posts ₹229 cr Net Profit for FY25

Our Bureau

Mumbai: Reliance Industries-Walt Disney JV JioStar reported a net profit of ₹229 crore for FY25 on revenues of ₹10,006 crore. ₹The companies had merged their respective businesses in the country, effective November 14, 2024, to create India's biggest media company.

The media conglomerate's operational revenue stood at ₹9,497 crore with ₹774 crore Ebitda and 7.7% Ebitda margin.

The results mark JioStar's first financial disclosure since the \$8.5 billion Reliance-Disney merger that created India's largest media entity.

The results come as JioStar's digital platform JioHotstar crossed 100 million paid users within 5 weeks

of its February 14 launch, reaching 503 million monthly active users in March 2025.

Sports properties drove engagement, with IPL 2025 delivering 1.4 billion digital views (+35% YoY) and Champions Trophy finals set-

ting a 61.2 million peak concurrency record. The consolidated Star Sports network now operates 24 channels including regional feeds.

On the entertainment side, Jio-Hotstar's live streams of Mahashivratri (39 million views) and Coldplay concert (8.3 million views) performed strongly, while Star Plus maintained leadership in Hindi GEC with 6 of top 10 shows.

Telco sees ARPU rise 1.4% to ₹206.2 in 04 while revenue soars 18% to ₹39.853 crore

Our Bureau

Mumbai: Jio Platforms (JPL), which houses Reliance Industries' telecom and digital businesses, posted a 26% year-on-year rise in fiscal fourth quarter net profit, helped by the tariff increases in July and backed by a strong subscriber base addition that pushed up data usage.

JPL's consolidated net profit climbed to ₹7,022 crore in the March quarter from ₹5,587 crore a year earlier, and ₹6,861 crore in the previous three months, the Mukesh Ambaniowned company said in a statement on Friday.

"Steady increase in subscriber base, with an improving mix continually improving user engagement metrics boosted earnings. Strong adoption of our 5G services and our home broadband offerings continues with accelerated addition in subscribers and in the number of home-connects," said Mukesh Ambani, chairman and managing director, Reliance Industries, the parent of JPL

Jio's average revenue per user (ARPU) rose 1.4% sequentially to ₹206.2, and the limited growth showed the company was yet to get the full benefit of the tariff hikes taken last July because a large part of users were consuming data for free, owing to bundled plans, analysts said. By contrast, Bharti Airtel's AR-PU was ₹245 a month in the October-December period, on the back of the July hikes and boosted by a larger

base of higher paying subscribers. Jio reported a 17.8% on-year growth in revenue from operations at ₹39,853 crore for the just-ended shoring up ARPU.

quarter, reflecting continued data usage and ramp-up of 5G-based fixed wireless access (FWA) services.

Reliance Jio Infocomm, the tele comunit under JPL, reported 24.5% on-year growth in net profit for the March quarter at ₹6,642 crore, on a 15.6% growth in revenue from operations at ₹30,354 crore. Jio Infocomm, the country's top telecom operator, comprises the bulk of JPL's operations which also houses RIL's digital properties.

For the full fiscal 2025, JPL's profit grew 21.9% to ₹26,120 crore from ₹21,434 crore in FY24. Revenue was up 16.9% to ₹1,50,270 crore from ₹1,28,521 crore in the same period.

SWELLING SUBSCRIBER BASE

During the three-month period, Jio gained 6.1 million users, boos-ting its overall base to 488.2 mil lion, as it shrugged off the effect of last July's rate hikes, which had prompted many price-sensitive users to initially port out to staterun Bharat Sanchar Nigam Ltd.which did not raise rates last July

- but have now returned to the telecom market leader

The company had taken the lead in raising tariffs by 12-25% for most of its users with the aim of

Revenue surges nearly 9% to ₹2.9 Lcr; conglomerate becomes the first Indian co to hit ₹10 Lcr net worth

Our Bureau

Mumbai: Reliance Industries Ltd (RIL) posted a 6.4% rise in March-quarter net profit from a year ago, exceeding estimates on the back of revenue growth in the oil-to-chemicals and consumer-facing units. The oil-to-telecom conglomerate posted profit after tax of ₹22,611 crore, up from ₹21,243 crore a year ago. Profit after tax for the full fiscal year rose 3% to ₹81,309 crore from ₹79,020 crore.

RIL, which became the first Indian company to hit the milestone of ₹10 lakh crore net worth, said net profit attributable to owners of the company rose 2% to ₹19,407 crore in the March quarter from ₹18,951 crore a year earlier.

A Bloomberg survey of analysts had pegged profit in the fourth quarter at about ₹18,471.40 crore.

Revenue rose 8.8% to ₹2.88 lakh crore from ₹2.67 lakh crore in the year-ago period. FY25 revenue rose 7% to ₹10.71 lakh crore. Ebitda rose 2.9% year-on-year to ₹1.83 lakh crore. "FY2025 has been a challenging year for the global business environment, with weak macroeconomic conditions and a shifting geopolitical landscape," RIL chairman and managing

The board recommended a dividend of ₹5.5 per share. The RIL stock had ended at ₹1,300, down 0.12% on the BSE Friday. The benchmark Sensex closed 0.74% lower. Results were announced after market hours. In a separate announcement, RIL said its board approved a fundraising plan of ₹25,000 crore through the issuance of listed, secured/unsecured, redeemable non-convertible debentures (NCDs) in one or more tranches on a private placement basis. The firm will also buy a 100% stake in Kandla GHA Transmission Ltd (KGTL) from PFC Consulting Ltd for an aggregate consideration of ₹20 crore. After the deal, KGTL will become a wholly owned subsidiary.

It said in a filing, "This is in accordance with the terms of the tender awarded to the company, for the establishment of turnkey construction of 765/400kV GIS substation at Kandla including transformers and reactors, 765kV transmission lines between Halvad and Kandla, 765kV bay extension at Halvad & Statcom."

JIO PLATFORMS

Jio Platforms Ltd (JPL), which

houses Reliance Industries' telecom and digital businesses, posted a 25.7% year-on-year rise in fiscal fourth-quarter net profit, boosted by the tariff hikes of July 2024, backed by strong subscriber additions that boosted data use.

The higher headline tariffs helped Jio boost March quarter average revenue per user (ARPU) 1.4% sequentially to ₹206.2 from ₹203.3 previously. Analysts said the limited ARPU growth showed the company was yet to derive the full benefit of tariff increases made last July because most users were consuming data for free, owing to bundled plans.

JPL's consolidated net profit climbed to ₹7,022 crore in the March quarter from ₹5,587 crore a year earlier, and ₹6,861 crore in the preceding three-month period. The company reported a 17.8% on-year growth in revenue from operations to ₹39,853 crore for the just-ended quarter, reflecting continued data usage and ramp-up of 5G-based fixed wireless access (FWA) services.

OIL TO CHEMICALS

Segment revenue during the quarter rose 15.4% to ₹1.65 lakh crore due to higher volumes and increased domestic product place-

ment. For FY25, it increased by 11% to ₹6.27 lakh crore primarily on account of higher volumes and increased domestic product placement. Segment Ebitda for FY25 was lower at ₹54,988 crore due to a significant weakness in transportation fuel cracks and subdued downstream chemical deltas.

"The oil-to-chemicals (O2C) business posted a resilient performance despite considerable volatility in energy markets. Significant demand-supply imbalances in downstream chemicals markets have led to multi-year low margins," said Ambani, adding that RIL's business teams ensured optimisation of integrated operations and feedstock costs to enhance margin capture across value chains.

OIL AND GAS

In the fourth quarter, oil and gas segment revenue was down 0.4% on account of lower gas production and oil offtake from KGD6. FY25 revenue was up 3.2% from FY24 mainly on account of higher volumes of KGD6 and coalbed methane (CBM). This was partly offset by lower gas and condensate price realisations, the company said. "The oil and gas business recorded its highest ever annual Ebitda led by higher production from our KGD6 and CBM blocks."

Ambani said.

RETAIL

Reliance Retail recorded gross revenue of ₹3.31 lakh crore for FY25, a growth of 7.9% over last year. In FY25, the business focused on a strategic recalibration of the store network, aimed at improving operational efficiencies and long-term sustainability. March-quarter net profit rose 30% from a year earlier to ₹3,519 crore, while gross revenue increased 16% to ₹88,620 crore.

"The quick hyperlocal deliveries initiative has also gained significant traction in the market, connecting strongly with the users," Ambani said. "Our suite of omnichannel offerings and wide-spread presence will enable Reliance Retail to continue delivering superior value to all its customers."

NEW ENERGY

On the new energy front, RIL chief financial officer Srikanth Venkatachari said on a conference call, "We have commissioned the first gigawatt-scale solar module. It's BIS certified already and the largest, from a size point of view, at 720 megawatt peak. It's possibly the largest panel that we have."

RIL is building four gigafactories in the new energy space with the first of these manufacturing solar photovoltaic (PV) modules.

Mumbai: Reliance Retail on Friday said pockets of urban and rural demand have yet to fully recover; after reporting 16% sales growth in the fourth quarter of 2024-25.

Reliance Industries' retail division, which operated 19,340 stores at the end of March, selling grocery, consumer electronics and apparel, posted net revenue of ₹78,622 crore for the January-March period. Net profit increased 30% from a year earlier to ₹3,519 crore, while gross revenue increased 16% to ₹88,620 crore.

The company said the first half of 2024-25 with elections and monsoon season was slightly weak but it saw gradual recovery in the second half, fuelled by festive demand and Mahakumbh.

"In FY25, the business focused on a strategic recalibration of our store network, aimed at improving operational efficiencies and long-term sustainability," Reliance Industries chairman and managing director Mukesh Ambani said.

Reliance Retail opened 1,085 new stores in the fourth quarter and had 77.4 million sqft of retail space as of March-end. During the year ended March, the retailer recorded an 8% increase in net revenues to ₹2,90,979 crore with net profit at ₹12,392, a 12% increase.

While the company opened 2,659 stores during the year, it also had store rationalisation and shut more than 2,100 stores across grocery and fashion formats. The company said its outlet streamlining process is now over, with 500 net additions during the year. Digital commerce and

new commerce contributed 18% to total revenue.

Reliance's consumer products business, which sells Campa and Inde-

pendence, recorded sales of ₹11,450 crore during 2024-25. General trade accounted for 60% of the consumer business sales.

"Reliance Retail delivered strong growth in revenue and profits, powered by improved efficiencies, innovative formats, a sharper product mix, and continued investments in technology and customer experience. We remain focused on shaping the future of retail with agility and purpose," said Isha Ambani, executive director, Reliance Retail Ventures.

Mumbai: Jio Platforms (JPL), which houses Reliance Industries' telecom and digital businesses, posted a 25.7% year-on-year rise in fiscal fourth quarter net profit, boosted by the tariff hikes of July 2024 and backed by a strong addition in its subscriber base which pushed up data usage. JPL's consolidated net profit climbed to ₹7,022 crore in the March quarter from ₹5,587 crore a year earlier, and ₹6,861 crore in the previous three months, the Mukesh Ambani-owned company said in a statement. The company reported a 17.8% on-year growth in revenue from operations at ₹39,853 crore for the just-ended quarter, reflecting continued data usage and ramp-up of 5G-based fixed wireless access (FWA) services.

Jio average revenue per user (ARPU) rose 1.4% sequentially to ₹206.2, with analysts saying that the limited growth underlined that the company was yet to get the full benefit of the tariff hikes taken last July because a large part of users were consuming data for free, owing to bundled plans.

Reliance Jio Infocomm, the telecom unit under JPL, reported 24.5% on-year growth in net profit for the March quarter at ₹6,642 crore, on a 15.6% growth in revenue from operations at ₹30,354 crore. Jio Infocomm, the country's top telecom operator, comprises the bulk of JPL's operations which also houses RIL's digital properties. For the full fiscal 2025, JPL's profit grew 21.9% to ₹26,120 crore from ₹21,434 crore in FY24. Revenue was up 16.9% to ₹1,50,270 crore from ₹1,28,521 crore in the same period.

During the three-month period, Jio gained 6.1 million users, boosting its overall base to 488.2 million, as it shrugged off the effect of last July's rate hikes, which had prompted many price-sensitive users to initially port out to staterun Bharat Sanchar Nigam—which did not raise rates last July—ut have now returned to the telecom market leader.

The company had taken the lead in raising tariffs by 12-25% for most of its users with the aim of shoring up ARPU due to the lack of monetisation of 5G services so far where the company has made large investments in buying airwaves and rolling out a pan-india 5G network.

Retail, Telecom Lift RIL Net to ₹19.4kcr, Beating Estimates

Strong performance in the 2 arms offsets weakness in O2C unit; becomes first co to hit ₹10 Lcr networth

Agencies

Mumbai: Reliance Industries Ltd beat estimates for fourth-quarter profit on Friday, which rose 2.4%, as store rationalisation in retail business and improved margins in telecom helped offset weakness in mainstay oil and petrochemicals business and higher finance cost.

Consolidated net profit of Rs 19,407 crore, or Rs 14.34 per share, in January-March was higher than Rs 18,951 crore, or Rs 14 a share, in the same period a year back, the company said in a statement.

Profit was also up sequentially from Rs 18,540 crore in October-December.

Annual profits were almost unchanged at Rs 69,648 crore but the oil-to-telecomand-retail conglomerate became the first company to hit a networth of over Rs 10 lakh crore in 2024-25. Last year, it became the first company to hit a market cap of Rs 20 lakh crore.

In Q4, increased subscriber base led to higher earnings in the telecom business while a rationalisation of stores and pick up in quick commerce improved retail metrics. Oil-to-chemicals (O2C) business however saw pre-tax earnings fall on lower fuel cracks and polyester chain margins.

The profit before tax (EBITDA) rose 3.6% to Rs 48,737 crore. This was despite

an almost 7% rise in finance cost due to higher debt (Rs 3.47 lakh crore as of March 31, 2025, compared to Rs 3.24 lakh crore a year back).

The board recommended a dividend of ₹5.5 per share.

The RIL stock had ended at \$1,300, down 0.12% on the BSE on Friday. The benchmark Sensex closed 0.74% lower. Results were announced after market hours.

In a separate announcement, RIL, said its board approved a fundraising plan of ₹25,000 crore through the issuance of listed, secured/unsecured, redemable non-convertible debendures (NCDs) in one or more tranches on a private placement basis.

The company will also acquirea 100% stake in Kandia GHA
Transmission (KGTL) from
PFC Consulting for an aggregate consideration of ₹20 crore. After the acquisition,
KGTL will become a wholly
owned subsidiary.

"This is in accordance with the terms of the tender awarded to the company, for the establishment of turnkey construction of 765/400kV GIS substation at Kandla including transformers and reactors, 765kV transmission lines between Halvad and Kandla, 765kV bay extension at Halvad and Statcom," the company said in a regulatory filing.

RIL's human resources, nomination and remuneration committee appointed Anant Ambani, a non-executive director of the company, as a whole-time director designated as executive director for five years with effect from May 1, 2025. The appointment is subject to the approval of the members of the company.

JIO PLATFORMS

Jio Platforms (JPL), which houses Reliance Industries' telecom and digital businesses, posted a 25.7% year-on-year rise infiscal fourth-quarter net profit, boosted by the tariff hikes of July 2024, backed by strong subscriber additions that boosted data use.

The higher headline tariffs helped Jio boost March quarter average revenue per user (ARPU) 1.4% sequentially to

#206.2 from #203.3 previously.
Analysts said the limited AR-PU growth showed the company was yet to derive the full benefit of tariff increases made last July because most users were consuming data for free, owing to bundled plans.

JPL's consolidated net profit climbed to ₹7,022 crore in the March quarter from ₹5,587 crore a year earlier, and ₹6,881 crore in the preceding threemonth period. The company reported a 17.8% on-year growth in revenue from operations to <39,853 crore for the just-ended quarter, reflecting continued data usage and ramp-up of 5G-based fixed wireless access (FWA) services.

OIL TO CHEMICALS

Segment revenue during the quarter rose 15.4% to ₹1.65 lakh crore due to higher volumes and increased domestic product placement. For FY25, it increased by 11% to ₹6.27 lakh crore primarily on account of higher volumes and increased domestic product placement. Segment Ebitida for FY25 was lower at ₹54,988 crore due to a significant weakness in transportation fuel cracks and subdued downstream chemical deltas.

"The oil-to-chemicals (O2C) business posted a resilient performance despite considerable volatility in energy markets. Significant demand-supply imbalances in downstream chemicals markets have led to multi-year low margins," said Ambani, adding that RIL's busiteams ensured optimisation of integrated operations and feedstock costs to enhance margin capture across value chains.

OIL AND GAS

In the fourth quarter, oil and gas segment revenue was down 0.4% on account of lower gas production and oil off-take from KGD6. FY25 revenue was up 3.2% from FY24 mainly on account of higher volumes of KGD6 and coalbed methane (CBM). This was partly offset by lower gas and condensate price realisations, the company said. "The

oil and gas business recorded its highest ever annual Ebitda led by higher production from our KGD6 and CBM blocks," Ambani said.

RETAIL

Reliance Retail recorded gross revenue of ₹3.31 lakh crore for FY25, a growth of 7.9% over last year. In FY25, the business focused on a strategic recalibration of the store network, aimed at improving operational efficiencies and long-term sustainability. March-quarter net profit rose 30% from a year earlier to ₹3.519 crore, while gross revenue increased 16% to ₹88,620 crore.

"The quick hyperlocal deliveries initiative has also gained significant traction in the market, connecting strongly with the users," Ambani said. "Our suite of omni-channel offerings and wide-spread presence will enable Reliance Retail to continue delivering superior value to all its customers."

NEW ENERGY

On the new energy front, RIL chief financial officer Sri-kanth Venkatachari said on a conference call, "We have commissioned the first giga-watt-scale solar module. RIL's profit rises 2.4% in Q4, beats estimates

First Indian conglomerate to achieve ₹10 trillion net worth

JADEN MATHEW PAUL & DEV CHATTERJEE Mumbai, 25 April

Beating analyst estimates, oil-retail-telecom conglomerate Reliance Industries (RIL) on Friday reported a 2.4 per cent year-on-year (Y-o-Y) rise in its consolidated net profit (attributable to the owners) at ₹19,407 crore for the fourth quarter of 2024-25 (Q4FY25). The performance was driven by its consumer-facing business (retail and telecom), but its oil-to-chemicals (O2C) division remained under pressure.

The company also said it had become the first Indian corporate entity to post a net-worth exceeding ₹10 trillion.

India's most valuable company posted a 3.6 per cent increase in consolidated profit before interest, depreciation and taxes (PBIDT), at ₹48,737 crore, while revenue for the March quarter climbed 10.5 per cent Y-o-Y to ₹2,61,388 crore.

A Bloomberg poll of 11 analysts had pegged consolidated net adjusted income at ₹18,471 crore, with 18 analysts forecasting revenue of ₹2,40,800 crore. Sequentially, RIL's net profit was up 4.7 per cent, with revenue rising 8.9 per cent.

On a standalone basis, which primarily reflects the Mukesh Ambani-led firm's O2C operations, net profit was down 0.6 per cent Y-o-Y at ₹11,217 crore. Turn to Page 6 b

O2C segment delivered 'resilient' performance amid volatility in global energy mkt: Ambani

Revenue on a standalone basis slipped 9.4 per cent to ₹1,32,962 crore in the period under review.

"The financial year 2024-25 had been a challenging year for the global business environment with weak macroeconomic conditions and a shifting geo-political landscape. Our focus on operational discipline, customer-centric innovation, and fulfilling India's growth requirements helped Reliance deliver a steady financial performance during the year," said Mukesh Ambani, chairman and managing director of RIL in a statement.

For the full financial year 2024-25, RIL reported record consolidated revenue of ₹9,64,693 crore, up 7.1 per cent Y-o-Y, aided by strong contributions from its consumer businesses and O2C. Consolidated net profit attributable to owners was largely flat at ₹69,648 crore, compared to ₹69,621 crore in FY24.

Ambani said the O2C segment delivered a "resilient" performance amid significant volatility in global markets. "Significant demand-supply imbalances in downstream chemicals markets have led to multi-year low margins," he said. "Our business teams ensured optimisation of integrated operations and feedstock costs to enhance margin capture across value chains. The oil & gas business recorded its highest ever annual Ebitda (earnings before interest, taxes, depreciation, and amortisation) led by higher production from our KGD6 and CBM blocks."

In the retail segment, Reliance Retail Ventures Ltd reported a 30.4 per cent jump in net profit at ₹3,519 crore for the January–March quarter, with Ebitda from operations rising 14.6 per cent to ₹6,510 crore. Revenue from operations stood at ₹78,622 crore, up 16.3 per cent Y-o-Y, while gross revenue climbed 15.7 per cent to ₹88,620 crore.

Sequentially, revenue from operations dipped 1.2 per cent, though net profit inched up by I per cent. The

RIL Chairman and MD Mukesh Ambani said the digital services arm had achieved record revenues and profits, supported by a growing subscriber base and improved user engagement

company opened 1,085 new outlets during the quarter, taking its total store count to 19,340 across 77.4 million sq ft of retail space.

Gross revenue from Reliance Retail in FY25 was ₹3,30,870 crore, up 7.9 per cent from the previous year. Depreciation for the March quarter was down 3.4 per cent Y-o-Y at ₹1,402 crore, while finance costs remained largely flat. The business continued to expand its digital and new commerce platforms, which now account for 18 per cent of total revenue.

Jio Platforms Ltd (JPL), the holding company for Reliance Jio and other digital assets, posted a 25.8 per cent Y-o-Y rise in net profit at ₹7,023 crore for Q4FY25, driven by higher telecom tariffs introduced in July. Sequentially, net profit rose 2.4 per cent. Jio maintained momentum in net profit growth, building on gains of 26 per cent, 23.4 per cent, 11.7 per cent and 12 per cent across the previous four quarters. Average Revenue Per User (Arpu) per month rose to ₹206.2 in Q4, up from ₹203.3 in the preceding quarter. Arpu in Q2 had reversed a four-month slump by rising to ₹191.5. Year-on-year, Arpu in Q4 was up 13.4 per cent.

Ambani said the retail segment had demonstrated consistent growth through the year. "In FY25, the business focused on a strategic recalibration of our store network, aimed at improving operational efficiencies and long-term sustainability," he said. "Our enhanced product catalogue and user experience across all formats strengthened customer engagement. The quick hyperlocal deliveries initiative has also gained significant traction in the market, connecting strongly with the users."

The RIL's chairman and managing director further said the digital
services arm had achieved record
revenues and profits, supported by a
growing subscriber base and
improved user engagement. "Strong
adoption of our 5G services and our
home broadband offerings continues
with accelerated addition in subscribers and in the number of homeconnects," he said.

About the conglomerate's new business, Ambani said that during FY25, RIL laid a strong foundation for "our projects in renewable energy and battery operations".

"In the coming quarters, we will see the transition of this business from incubation to operationalisation," he added

RIL's net debt as of March 2025 was recorded at ₹1.17.083 crore, marginally higher than ₹1,16,281 crore a year ago. Net debt-to-Ebitda stayed steady at 0.60 times Y-o-Y. Capital expenditure also continued at a steady rate of ₹36,041 crore for the reporting quarter. Finance costs increased by 6.8 per cent Y-o-Y to ₹6,155 crore but a tad lower sequentially. The conglomerate's O2C business posted a 15.4 per cent Y-o-Y rise in segment revenue at ₹164,613 crore, but Ebitda for the segment was down 10 per cent Y-o-Y at ₹15,080 crore.

Ahead of the Q4 results that were announced post-market hours, shares of RIL closed at ₹1,300.05 apiece (down 0.12 per cent) on the BSE on Friday; the Sensex was down 0.74 per cent at 79,212.53.

Telecom tariff hike rings in 26% jump in Jio profit

SUBHAYAN CHAKRABORTY

New Delhi, 25 April

Jio Platforms Ltd (JPL), which runs India's largest mobile network operator Reliance Jio, on Friday reported a strong 25.7 per cent year-on-year (Y-o-Y) increase in net profit to ₹7,022 crore for the January-March quarter of 2024-25 (Q4FY25) as a result of a hike in telecom tariffs imposed in early-July 2024. On a sequential basis, the holding company for Jio and other digital businesses of the Reliance group, witnessed its net profit rise by 2.34 per cent.

The telco's Y-o-Y rate of growth in net profit maintained momentum given the 26 per cent, 23.4 per cent, 11.7 per cent, and 12 per cent net profit growth registered in the previous four quarters. The telco's average revenue per user (Arpu) in Q4 rose to ₹206.2, up from ₹203.3 in Q3. Before that, it had broken a four-month slump to rise to ₹191.5 in Q2. Calculated yearly, Arpu was higher by 13.4 per cent in O4.

The company attributed this to the continued impact of the tariff hike and better subscriber mix, even though the numbers were partly impacted by the fewer number of days in the quarter.

In Q4, revenue from operations grew 17.7 per cent Y-o-Y to 333,986 crore. Revenue had grown by 19.4 per cent, 18 per cent and 12.8 per cent in the preceding three quarters. Jio Platforms' earnings before interest, taxes, depreciation, and amortisation (Ebitda) for the quarter was a record \$17,016 crore, up 18.5 per cent Y-o-Y.

Jio said that 191 million subscribers have migrated to Jio's 5G network, and account for 45 per cent of Jio's wireless data traffic, up from 40 per cent, 34 per cent, 31 per cent, and 28 per cent in the preceding quarters. Jio's 5G users

now represent the largest 5G subscriber base for any telecom operator outside China. This essentially means 45 per cent of data is being provided to users for free by the telco considering Jio does not charge extra from 5G subscribers, and this increasing gaphas to be addressed in the future, Jio's leadership said on Friday.

Overall, Jio Platforms had 488.2 million users at the end of Q4, up from 482.1 million at the end of Q3. It gained 6.1 million subscribers in the latest quarter, up sharply from the 3.3 million additions in Q3. The telco had lost 10.9 million subscribers in Q2 following the tariff hike. Before that, the telco had added users for seven straight quarters.

"Jio is working on enabling large scale AI (artificial intelligence) infrastructure and services that will add an intelligence layer to all Jio services," said Akash M Ambani, chairman, Reliance Jio Infocomm.

Reliance Q4 profit rides on retail, telecom growth

The core oil-to-chemical biz saw revenues rise 15% in Q4, but Ebitda fell by a tenth

eliance Industries Ltd (RIL), India's most valuable company, beat Street estimates while reporting a 6% growth in its consolidated profit for the January-March quarter on Friday. This came on the back of a resurgence in its retail business and better realizations in telecomeven as pain persisted in the oil-to-chemicals business.

The company reported consolidated profit of ₹22,434 crore, higher than the ₹18,471.4 crore consensus estimate of analysts polled by *Bloomberg*, in the fourth quarter of FY25. The profit in the corresponding quarter in the previous fiscal year was ₹21,143 crore.

Meanwhile, consolidated revenue grew by a tenth to ₹2.65 trillion. The Street had pencilled in a consensus estimate of ₹2.4 trillion. Earnings before interest, tax, depreciation and amortization (Ebitda) grew almost 4% to ₹48,737 crore. Ebitda margin fell 90 basis points to 16.9%. One basis point is 0.01%.

The company also became the first in the country to have a net worth of over {IO trillion, it said in a press statement.

The company's chairman and managing director Mukesh Ambani said that FY25 was a challenging year for business with weak macroeconomic conditions and a shifting geopolitical landscape. "Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial perform-

ance during the year," he said.

The growth was front-led by improved performances in the company's retail and telecombusinesses. The retail segment, which includes its consumer retail and range of related services and investment in retail business, was on the mend after several quarters of weakness. It reported revenues of \$88,637 crore during the quar-

ter, nearly 16% more year-on-year. Ebitda for the segment improved 14% on-year to ₹6,721 crore.

"In FY25, the business focused on a strategic recalibration of our store network, aimed at improving operational efficiencies and longterm sustainability," Ambani said.

Reliance Retail is nearly done with the streamlining of its operations that started during the year, which included shutting down unprofitable locations. There was a net addition of about 500 stores during the year.

The digital services segment, which includes the group's telecom arm Jio, reported an 18% growth in earnings backed by increased tariffs during the quarter. Ebitda for the segment grew by a commensurate 18% to ₹17,278 crore, retaining its new-found position of being Reliance's most profitable business. Average revenue per user (Arpu), a key metric in the telecom industry, improved almost 14% year-on-year to ₹206.2 per month. This was primarily led by an increase in tariff. Jio added 6.1 million customers during the quarter to take its count to 488.2 million subscribers. "Our Digital Services business achieved record revenue and profit numbers," Ambani said.

While Reliance's mainstay O2C

business reported an impressive 15% growth in revenue during the fourth quarter, operational parameters continued to deteriorate. Its Ebitda fell by a tenth to ₹15,080 crore. The segment includes refining, petrochemicals, aviation fuel and bulk wholesale marketing as well as polymers, polyesters and elastomers.

"Significant demand-supply imbalances in downstream chemicals markets have led to multi-year low margins," Ambani said. "Our business teams ensured optimization of integrated operations and feedstock costs to enhance margin capture across value chains."

"It is a decent set of numbers; they beat the market expectations," said Ambareesh Baliga, an independent analyst, "The

retail segment was the one that surprised me the most because after the festive October-December quarter, we expected a muted quarter but that was not the case."

Balia added that the muted margins of the O2C segment were along expected lines. "In telecom we had expected a slightly higher Arpu, but that did not affect the overall revenue and Ebitda," he said.

Amongst the company's

"Ifirmly believe that the New Energy growth engine will create significant value for Reliance, for India and for the world," he said. The company is

Jio Q4 net profit rises 26% to ₹7,022 cr

Jatin Grover jatin.grover@livemint.com NEWDELHI

Reliance Jio, the telecom arm of Mukesh Ambani's Reliance Industries Ltd, surpassed analyst expectations on net profit, revenue, and average revenue per user (Arpu) in the March quarter, driven by the residual benefit of the July 2024 tariff hike, subscriber additions, and growth in data consumption.

The company's parent, Jio Platforms reported a 2.3% quarter-on-quarter (q-o-q) growth in its consolidated net profit to ₹7,022 crore for the fourth quarter of 2024-25. Consolidated revenue from operations rose 2.8% sequentially to ₹33,986 crore.

Year-on-year, the company clocked 17.7% revenue growth and 25.7% increase in net profit for the quarter, beating market estimates. Earnings before interest, taxes, depreciation, and amortisation (Ebitda), too, surpassed analysts' estimates and rose 18.5% on-year and 2.6% on-quarter to ₹17.016 crore in the quarter, owing to the impact of last tariff hikes. Analysts had expected Jio's Ebitda at ₹15,800 crore.

Ebitda margin was flat sequentially at 50.1%. On a y-o-y basis, margin expanded 40 basis points from 49.7%

"Steady increase in subscriber base, with an improving mix and increasing user engagement metrics boosted earnings. Strong adoption of our 5G services and our home broadband offeringscontinues with accelerated addition in subscribers and in the number of home-connects," said Mukesh D. Ambani, chairman and managing director of Reliance Industries Ltd.

on Friday beat estimates on all fronts in its earnings for the January-March quarter, driven by a recovery in its oil-tochemicals (O2C) business and strong performance of digital and retail arms.

Its net profit during the quarter rose 2.4% year-on-year to ₹19,407 crore, exceeding Bloomberg's consensus estimate of ₹18,471 crore. Its revenue from operations increased by 10% to ₹2.64 lakh crore, also above expectations. Total expenditure rose in tandem, climbing 10% to ₹2.4 lakh crore. RIL said it has crossed the ₹10-lakh-crore mark in net

worth, becoming the first Indian company to do so.

RIL was the first domestic company to surpass ₹10 lakh crore in annual revenue and ₹20 lakh crore in market capitalisation last year.

The board approved a divi-

dend of ₹5.50 per equity share for FY25. Earnings before interest, taxes, depreciation and amortization (Ebitda) grew 3.1% year-on-year to ₹43,832 crore.

IT REFLECTED STRONG performance in telecom and retail segments despite mixed results from the energy businesses. Commenting on the company's performance, chairman and managing director Mukesh Ambani said, "FY25 has been a challenging year for the global business environment, with weak macro-economic conditions and a shifting geo-political landscape.

Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial performance

during the year."

Segment-wise, the O2C business saw a mixed quarter. While revenue for the segment rose 15% to ₹1.64 lakh crore due to higher volumes and better domestic product placement, Ebitda declined 10% to ₹15,080 crore. The company cited weak transportation fuel cracks and lower polyester chain margins as primary drags, partially mitigated by increased throughput, optimised feedstock costs, and stronger margins in polypropylene (PP) and polyvinyl chloride (PVC). Total throughput for the quarter rose 2.5% to 20.3 million metric tonne (mmt).

Despite the volatility, Ambani emphasised the segment's resilience. "The oil-to-chemicals business posted a resilient performance despite considerable volatility in energy markets. Significant demand-supply imbalances in downstream chemicals markets have led to multi-year low margins," he said. Reliance is actively pursuing cost and operational optimisation to shore up margins.

In the oil and gas exploration and production business, revenue dipped slightly by 0.4% year-on-year to ₹6,440 crore in the March quarter, while Ebitda fell 9% to ₹5,123 crore. The decline was attributed to lower price realisations for gas and condensate, despite higher production volumes.

Finance costs rose 7% yearon-year to ₹6,155 crore during the quarter due to higher average liabilities, while tax expenses increased by 1% to ₹6,669 crore. Capital expenditure for the quarter stood at ₹36,041 crore, reflecting continued investment across core and new energy businesses.

On Friday, RIL shares closed marginally lower at ₹1,301 on the NSE. The results were announced after market hours.

net revenue grew 16.3% year-onyear to ₹78,622 crore. Sequentially, the company's net revenue from operations was down 1.2%, and its net profit was up 2.5%.

The fast-moving consumer goods (FMCG) business, which is part of Reliance Consumer Products, a subsidiary of the retail unit, touched ₹11,450 crore in FY25, Dinesh Taluja, chief financial officer, Reliance Retail, said, in a post-results earnings call, amongst the "fastest-growing" FMCG companies in the country. The revenue milestone, he said, had been achieved in the second year of operation.

Reliance Retail had already indicated earlier that consumer brands such as Campa and Independence were projected to cross ₹1,000 crore in turnover by the end of FY25 as sales steadily expanded. On Friday, Taluja added that growing general-trade reach of the consumer business and its brands had led to a 3.5 times year-on-year growth in sales during the period.

JIO PLATFORMS (JPL), the digital and telecom arm of Reliance Industries, on Friday posted a sequential rise in net profit for the January–March quarter, on the back of rising average revenue per user (Arpu) and continued growth in data usage. The company's consolidated net profit at ₹7,023 crore, was up 2.42% from ₹6,857 crore in the previous quarter.

Revenue from operations for the quarter stood at ₹33,986 crore, up 2.76% quarter-on-quarter, largely driven by improved Arpu and the ongoing scale-up of Jio's home broadband and digital services. The company's telecomarm, Reliance Jio Infocomm, continued to be the main driver of financials, with net profit rising 2.55% sequentially to ₹6,642 crore. Revenues for the telecom business touched ₹30,018 crore, up 2.43%, while Ebitda came in at ₹16,188 crore, registering a 2.47% rise.

Jio's performance during the quarter exceeded market expectations across key metrics. Analyst projections had pegged revenue at ₹29,840 crore, Ebitda at ₹15,478 crore, and net profit at ₹6,477 crore.

Mukesh Ambani, chairman and managing director of Reliance Industries, attributed the strong performance to steady subscriber growth, an improving customer mix, and increased user engagement. "The strong adoption of our 5G services and home broadband offerings continues to accelerate, reflected in rising subscriber numbers and expanding home connections," Ambani said.

Reliance Retail reported a 29 per cent rise in profit after tax at ₹3,545 crore for the quarter that ended on March 31. The business registered a 15.7 per cent year-on-year increase in revenue during the quarter with ₹88,620 crore.

During the quarter, the EBITDA was at 14 per cent. In FY25, the retail business was soft in H1 with elections and the monsoon season. The business saw a recovery in H2, fuelled by festive de-

mand. There were pockets of urban and rural demand that are yet to fully recover.

During the year, 2,659 stores were opened, while 1,085 stores opened during the quarter.

Reliance Retail has been undertaking a rationalisation of its stores and ended the year with a total count of 19,340 spread across 77.4 m sq ft.

STORE NETWORK

"In FY25, the business focused on a strategic recalibration of our store network, aimed at improving operational efficiencies and longterm sustainability," said Mukesh D Ambani, Chairman and MD, Reliance Industries Ltd.

He added, "Our enhanced product catalogue and user experience across all formats strengthened customer engagement.

"The quick hyperlocal deliveries initiative has also gained significant traction in the market, connecting strongly with the users.

"Our suite of omnichannel offerings and widespread presence will enable Reliance Retail to continue delivering superior value to all its customers," he said. Reliance Retail stated that the consumer brands are the fastest-growing FMCG business and achieved ₹11,450 crore sales.

Digital commerce and new commerce contributed 18 per cent to the total revenue. The business also expanded its quick commerce and hyper-local deliveries to over 4,000 pin codes in Jio Mart.

"We remain focused on shaping the future of retail with agility and purpose," said Isha M. Ambani, Executive Director, Reliance Retail Ventures Limited. The consumer brands delivered a ₹11,450 crore revenue in FY25. Campa-Cola delivered a double-digit market share.

The business launched its sports drink 'Spinner' and acquired personal care brand 'Velvette' during the quarter.

EXPORT BUSINESS

Reliance Retail stated that it is looking at markets in the Middle East and Asia.

"We have started to look at exports to other markets and set up distribution to the international market," stated Reliance Retail.

Vallari Sanzgiri Mumbai

Reliance Jio Infocomm reported a 25.7 per cent yearon-year rise in profit growth in Q4FY25, while revenue rose 17.8 per cent driven by tariff increase for mobility services, improving subscriber mix due to scale up of home connects and growth in digital services.

Its EBITDA grew to ₹17,016 crore, a quarterly growth of 2.5 per cent and an 18.5 per cent yearly growth on account of higher revenue and margin improvement.

On-year basis, subscriber base grew by 1.3 per cent and Average Revenue Per User (ARPU) grew 13.5 per cent, to over ₹206. On a sequential basis, net profit rose 2.3 per cent to ₹7,022 crore in the quarter on a 2.8 per cent growth in gross revenue.

JioStar subscribers were

recorded at around 280 million subscribers, with 503 million users visiting on a monthly basis. The platform reported a 34 per cent TV market share and more than 85 per cent share of sports viewing.

SUBSCRIBER BASE

The platform recorded a revenue from operations of ₹9,497 crore and an EBITDA of ₹266 crore, from November 14, 2024 to March 31, 2025. It also claimed higher sports ad revenue led by ICC Champions Trophy and

growth in the Indian Premier League (IPL) Season 18 compared to the previous season

Regarding Rjio's performance, Mukesh D Ambani, RIL Chairman and Managing Director said, "Steady increase in subscriber base, with an improving mix and increasing user engagement metrics boosted earnings. Strong adoption of our 5G services and our home broadband offerings continues with accelerated addition in subscribers and in the number of home-connects."

The total subscriber base was at 488.2 million with flat sequential growth while ARPU increased to ₹206.2, a up 1.4 per cent q-o-q. The company attributed ARPU growth to continued impact of the tariff hike and better subscriber mix partly impacted by lower number of days in the quarter. Monthly churn was 1.8 per cent, the lowest in the industry. Net

subscriber addition was 6.1 million during the quarter. New additions were driven by the rebound of mobility additions post tariff hike and the steady ramp-up of connected home.

DATA TRAFFIC

Data traffic hit 48.9 billion GB in Q4, a 5.1 per cent sequential increase and 19.6 per cent on-year growth. Per capita data consumption was 33.6 GB/ month, and total data traffic growth of 19.6 per cent y-o-y. Voice traffic grew 1.49 trillion minutes, a 2.8 per cent quarterly growth and 3.5 per cent on-year growth. 191 million subscribers used Jio's True5G network. JioAirFiber reported a subscriber base of over 5.6 million.

During Q4, Jio announced an agreement with SpaceX to offer Starlink's broadband services to its customers here, subject to SpaceX receiving authorisations.

Led by digital and retail, RIL posts 2.4% rise in Q4 profit

Reliance Industries, the first Indian company to cross ₹10 lakh crore net worth, beat street estimates in the fourth quarter of FY25 with a surge in its retail and digital services revenue that offset the weakness in the oils-to-chemicals business.

The conglomerate reported a 2.4 per cent rise in the consolidated net profit to ₹19,407 crore and revenue from operations was 10 per cent higher at ₹2.65 lakh crore in the quarter.

An increase in subscriber base and the continued impact of the tariff hike saw Jio Platform's revenues rise 17.8 per cent while Reliance Re-

Mukesh Ambani, Chairman

tail Ventures' rose 15.7 per cent, with growth across consumption categories.

"FY2025 has been a challenging year for the global business environment, with weak macro-economic conditions and a shifting geopolitical landscape," said Chairman and Managing Director Mukesh Ambani.

"Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial performance during the year," he said.

EBITDA UP

Overall, EBITDA rose 3.6 per cent, largely due to retail and digital performance.

The capex for the quarter was ₹36,041 crore (\$4.2 billion), taking its total capex for FY25 to \$15.3 billion. It ended the year with a gross debt of ₹3.5 lakh crore, slightly higher than year ago.

The O2C business of RIL performed better than its global peers, reporting a 15.4 per cent rise in revenue. But at the operating level, there was a fall of 10 per cent due to weak fuel cracks and polyester chain deltas, both of which saw significant de-

"The oil-to-chemicals business posted a resilient performance despite considerable volatility in energy markets. Significant demand-supply imbalances in downstream chemicals markets led to multi-year low margins. Our business teams ensured optimisation of integrated operations and feedstock costs to enhance margin capture across value chains," said Ambani.

With a subscriber base of over 488 million and average revenue per user crossing ₹206 in Q4, RJio was a significant contributor to the overall revenue of RIL.

RJio's EBITDA saw an increase of 18.5 per cent onyear and operating margin was 40 bps higher at 50.1 per cent. The company recommended a dividend of ₹5.50 per share and also approved raising up to ₹25,000 crore through an NCD issue.

NEW DELHI

Reliance Industries posted resilient performance in the fiscal fourth-quarter, with net profit (pre-minority) rising 6.4 percent from a year earlier, as strong growth in its digital and retail units offset softer earnings from its energy businesses.

The company's net profit attributable to shareholders grew 2.4 percent to Rs 19,407 for Q4 FY25, beating Street expectations. According to a TDG poll of brokerage estimates, RIL's Q4 net profit was pegged at Rs 18,820 crore.

Revenue for the three months ended 31 March climbed 8.8 percent from a year ago to Rs 2.88 lakh crore, driven by company's digital services, retail and oil-to-chemicals business, RIL said on Friday. Consolidated earnings before interest, taxes, depreciation and amortisation rose 3.6 percent to a record Rs 48,737 crore.

Pre-minority net profit increased to Rs 22,611 crore, while profit before tax rose EBITDA from digital services surged 18.5 percent as the company's 5G subscriber base swelled to roughly 191 million and average revenue per user rose to Rs 206.2 after tariff revisions.

5 percent to Rs 29,103 crore. Quarterly capital expenditure rose to Rs 36,041 crore but remained fully covered by cash generation of nearly Rs 40,000 crore, leaving net debt broadly steady at Rs 1.17 lakh crore.

EBITDA from digital services surged 18.5 percent as the company's 5G subscriber base swelled to roughly 191 million and average revenue per user rose to Rs 206.2 after tariff revisions.

Digital, Retail Biz Growth Offsets Weakness In Traditional Oil-To-Chem Unit

TIMES NEWS NETWORK

Mumbai: Reliance Industries, India's largest company in terms of market value, reported a 6% increase in quarterly profit to Rs 22,611 crore on Friday. This was driven by the strong performance of its digital and retail businesses, which offset the weakness in its traditional oil-to-chemicals (O2C) unit.

Revenue totalled over Rs 2.64 lakh crore, up about 10%. Operating profit, a yardstick for underlying business performance, increased 3% to Rs 46,471 crore. Expenses climbed by about 11% to Rs 2.4 lakh crore. Operating profit of O2C fell by 10% to Rs 15,080 crore due to a sharp de-

Reliance Q4 profit rides on retail, telecom growth

Nehal Chaliawala

MUMBAI: Reliance Industries Ltd (RIL), India's most valuable company, beat Street estimates while reporting a 6% growth in its consolidated profit for the January-March quarter on Friday. This came on the back of a resurgence in its retail business and better realizations in telecom even as pain persisted in the oil-to-chemicals business.

The company reported consolidated profit of ₹22,434 crore, higher than the ₹18,471.4 crore consensus estimate of analysts polled by *Bloomberg*, in the fourth quarter of FY25. The profit in the corresponding quarter in the previous fiscal year was ₹21,143 crore.

Meanwhile, consolidated revenue grew by a tenth to ₹2.65 trillion. The Street had pencilled in a consensus estimate of ₹2.4 trillion. Earnings before interest, tax, depreciation and amortization (Ebitda) grew almost 4% to ₹48,737 crore. Ebitda margin fell 90 basis points to 16.9%. One basis point is 0.01%.

The company also became the first in the country to have a net worth of over ₹10 trillion, it said in a press statement.

The company's chairman and managing director Mukesh Ambani said that FY25 was a challenging year for business with weak macroeconomic conditions and a shifting geopolitical landscape. "Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial performance during the year," he said. The growth was front-led by improved performances in the company's retail and telecom businesses. The retail segment, which includes its consumer retail and range of related services and investment in retail business, was on the mend after several quarters of weakness. It reported revenues of ₹88,637 crore during the quarter, nearly 16% more year-on-year. Ebitda for the segment improved 14% on-year to ₹6,721 crore.

"In FY25, the business focused on a strategic recalibration of our store network, aimed at improving operational efficiencies and long-term sustainability," Ambani said.

Reliance Retail is nearly done with the streamlining of its operations that started during the year, which included shutting down unprofitable locations. There was a net addition of about 500 stores during the year.

The digital services segment. which includes the group's telecom arm Jio, reported an 18% growth in earnings backed by increased tariffs during the quarter. Ebitda for the segment grew by a commensurate 18% to ₹17,278 crore, retaining its newfound position of being Reliance's most profitable business. Average revenue per user (Arpu), a key metric in the telecom industry, improved almost 14% year-on-year to ₹206.2 per month. This was primarily led by an increase in tariff. Jio added 6.1 million customers during the quarter to take its count to 488.2 million subscribers. "Our Digital Services business achieved record revenue and profit numbers," Ambani said.

While Reliance's mainstay O2C business reported an impressive 15% growth in revenue during the fourth quarter, operational parameters continued to deteriorate. Its Ebitda fell by a tenth to ₹15,080 crore. The segment includes refining, petrochemicals, aviation fuel and bulk wholesale marketing as well as polymers, polyesters and elastomers. "Significant demand-supply imbalances in downstream chemicals markets have led to multi-year low margins," Ambani said.

NEW DELHI, APRIL 25

DESPITE A CHALLENGING global business environment, Reliance Industries Ltd (RIL) on Friday reported a 6.4 per cent rise in consolidated net profit at Rs 22,611 crore for the quarter ended March 2025 as against Rs 21,243 crore in the same period of last year.

The net profit attributable to the owners of the company was at Rs 19,407 crore for the March quarter as against Rs 18,951 crore a year ago, showing a rise of 2.40 per cent.

RIL dividend 2025 and net worth

RIL's board of directors also declared a dividend of Rs 5.5 per share for the year. The FY25 revenue of the company was Rs 10.71 lakh crore and profit rose 2.9 per cent at Rs 81,309 crore. RIL has also become the first company to have a net worth of over Rs 10 lakh crore.

The net profit attributable to the owners of the company was at Rs 19,407 crore for the March quarter.

Jio Platform Ltd, the digital arm of RIL, posted a 25.7 per cent rise in net profit at Rs 7,022 crore for the March quarter. Revenue increased by 17.8 per cent to Rs 39,853 crore for the fourth quarter.

Reliance Retail Ventures Ltd (RRVL) reported a 29.1 per cent rise in net profit at Rs 3,545 crore for the March quarter and posted a 15.7 per cent increase in revenue at Rs 88,620 crore.

RIL chairman and MD Mukesh Ambani said FY25 has been a challenging year for the global business environment, with weak macro-economic conditions and a shifting geo-political landscape.

"Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial performance during the year," he said.

"The oil to chemicals business posted a resilient performance despite considerable volatility in energy markets. Significant demand-supply imbalances in downstream chemicals markets have led to multiyear low margins. Our business teams ensured optimisation of integrated operations and feedstock costs to enhance margin capture across value chains," Ambani said.

RIL's oil & gas business recorded its highest ever annual EBITDA led by higher production from our KGD6 and CBM blocks. The retail segment also delivered consistent growth. "In FY25, the business focused on a strategic recalibration of our store network, aimed at improving operational efficiencies and long-term sustainability. The enhanced product catalogue and user experience across all formats, strengthened customer engagement," Ambani said.

Focus on AI and renewable energy

Ambani said Jio continues to invest in innovation, focusing on Al capabilities and next generation technologies, which will shape India's digital future.

"During FY25, we have laid a strong foundation for our projects in renewable energy and battery operations. In the coming quarters, we will see the transition of this business from incubation to operationalisation. I firmly believe that the new energy growth engine will create significant value for Reliance, for India and for the world," he said.

The net profit attributable to the owners of the company was at Rs 19,407 crore for the March quarter as against Rs 18,951 crore a year ago, showing a rise of 2.40 per cent.

RIL dividend 2025 and net worth

RIL's board of directors also declared a dividend of Rs 5.5 per share for the year. The FY25 revenue of the company was Rs 10.71 lakh crore and profit rose 2.9 per cent at Rs 81,309 crore. RIL has also become the first company to have a net worth of over Rs 10 lakh crore.

The net profit attributable to the owners of the company was at Rs 19,407 crore for the March quarter.

Jio Platform Ltd, the digital arm of RIL, posted a 25.7 per cent rise in net profit at Rs 7,022 crore for the March quarter. Revenue increased by 17.8 per cent to Rs 39,853 crore for the fourth quarter.

Reliance Retail Ventures Ltd (RRVL) reported a 29.1 per cent rise in net profit at Rs 3,545 crore for the March quarter and posted a 15.7 per cent increase in revenue at Rs 88,620 crore.

RIL chairman and MD Mukesh Ambani said FY25 has been a challenging year for the global business environment, with weak macro-economic conditions and a shifting geo-political landscape.

"Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial performance during the year," he said.

"The oil to chemicals business posted a resilient performance despite considerable volatility in energy markets. Significant demand-supply imbalances in downstream chemicals markets have led to multiyear low margins. Our business teams ensured optimisation of integrated operations and feedstock costs to enhance margin capture across value chains," Ambani said.

RIL's oil & gas business recorded its highest ever annual EBITDA led by higher production from our KGD6 and CBM blocks. The retail segment also delivered consistent growth. "In FY25, the business focused on a strategic recalibration of our store network, aimed at improving operational efficiencies and long-term sustainability. The enhanced product catalogue and user experience across all formats, strengthened customer engagement," Ambani said.

Focus on AI and renewable energy

Ambani said Jio continues to invest in innovation, focusing on Al capabilities and next generation technologies, which will shape India's digital future.

"During FY25, we have laid a strong foundation for our projects in renewable energy and battery operations. In the coming quarters, we will see the transition of this business from incubation to operationalisation. Ifirmly believe that the new energy growth engine will create significant value for Reliance, for India and for the world," he said.

RIL Q4 profit rises 2.4%, becomes 1st co with ₹10 lakh cr networth

MUMBAI: Reliance Industries Ltd (RIL) on Friday reported a 2.4 per cent rise in its March quarter net profit as store rationalisation in retail business and improved margins in telecom helped offset weakness in mainstay oil and petrochemicals business and higher finance cost

Consolidated net profit of Rs 19,407 crore, or Rs 14.34 per share, in January-March - the fourth quarter of April 2024 to March 2025 fiscal (FY25) - was higher than Rs 18,951 crore, or Rs 14 a share, in the same period a year back, the company said in a statement.

Profit was also up sequentially from Rs 18,540 crore in the October-December quarter.

Annual profits were almost unchanged at Rs 69,648 crore but the oil-to-telecom-andretail conglomerate became the first company to hit a networth of over Rs 10 lakh crore in 2024-25. Last year, it became the first company to hit a market cap of Rs 20 lakh crore.

In the fourth quarter, increased subscriber base led to higher earnings in the telecom business while a rationalisation of stores and pick up in quick commerce improved retail metrics. The oil-to-chemicals (O2C) business however saw pre-tax earnings fall on lower fuel cracks and polyester chain margins.

The profit before tax (EBITDA) rose 3.6 per cent to Rs 48,737 crore. This was despite an almost 7 per cent rise in finance cost due to higher debt (Rs 3.47 lakh crore as of March 31, 2025, compared to Rs 3.24 lakh crore a year back).

Jio Platforms Ltd, the unit that houses the telecom and digital businesses, saw profits rise by 26 per cent to Rs 7,022 crore in Q4 and 22 per cent in full-year (Rs 26,120 crore).

All four key parameters - data minute usage, data consumed, average per-user earnings and number of subscribers - grew. The customer base rose to 488.2 million from 482.1 million in October-December 2024 and 481.8 million in January-March 2024. Average revenue per user rose

to Rs 206.2 from Rs 203.3 in the preceding quarter and Rs 181.7 a year ago.

Retail arm Reliance Retail Ventures Ltd posted a 29 per cent year-on-year rise in profit to Rs 3,545 crore. While it opened 238 new stores to take the number to 19,340, the area operated fell 2.1 per cent to 77.4 million square feet due to store rationalisation.

Oil-to-chemical business, which houses the company's twin refineries at Jamnagar in Gujarat and petrochemical plants, saw EBITDA fall 10 per cent to Rs 15,080 crore in Q4 and 12 per cent in the full fiscal. It made good the fall in cracks or margins by placing more fuel in the domestic market.

In the fuel retail business, Jio-bp - its joint venture with BP of the UK - saw diesel and petrol sales rise by 24.4 per cent and 25.4 per cent respectively in the quarter, the statement said.

Lower gas output from KG-D6 fields led to an 8.6 per cent fall in the pre-tax profit of its oil and gas business to Rs 5,123 crore in Q4.

"The average KGD6 production for the 4Q is 26.73 million standard cubic metres per day of gas and 19,000 barrels a day of oil," it said.

Commenting on the results, Reliance chairman and managing director Mukesh D Ambani said FY2025 has been a challenging year for the global business environment, with weak macro-economic conditions and a shifting geo-political landscape.

"Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial performance during the year," he said.

The O2C business posted a resilient performance despite considerable volatility in energy markets. Significant demandsupply imbalances in downstream chemicals markets have led to multi-year low margins. "Our business teams ensured optimization of integrated operations and feedstock costs to enhance margin capture across value chains," he said.

RELIANCE INDUSTRIES, country's largest company by market-cap, on Friday reported a tepid 2.4% year-on-year rise in net income at ₹19,407 crore in the March quarter, weighed down by softer energy margins.

Strong show by the digital and retail unit businesses has offset the impact. The earnings beat Street estimates of ₹18,820 crore. Revenue for the reporting period rose 8.8% YoY to ₹2.88 lakh crore, driven by digital services, retail and oil-to-chemicals business, chairman and managing director Mukesh Ambani said on Friday. The company incurred a capital expenditure of ₹36,041 crore but remained fully covered by cash generation of nearly ₹40,000 crore, leaving net debt steady at ₹1.17 lakh crore. It paid ₹6,669 crore in taxes during Q4FY25 and ₹25,230 crore for full year. Capex stood at ₹36,041 crore for Q4FY25 and annual at ₹131,107 crore.

Outstanding debt as of March end stood at ₹347,530 crore but it has carried cash & cash equivalents of ₹230,447 crore,

Operating profit from digital services rose 18.5% to ₹39,853 crore as Jio's 5G user base rose to 191 million and average revenue per user rose to ₹206.2 after tariff revisions. Net profit from this vertical rose 25.7% to

₹7,022 crore for Q4 and ₹26,120 crore for full year. Operating profit from retail arm grew 14.3% to ₹88,620 crore on stronger store operating metrics and a 2.4-fold sequential jump in its hyper-local delivery business. It earned ₹3,545 crore in net income during the quarter.

These gains were partly offset by softer commodity prices and margins. Operating profit from refining arm fell 10% to ₹15,080 crore as fuel prices were weaker and the cracks narrowed and the margins from polyester fell. As a result oil-and-gas operating profit fell 8.6% to ₹5,123 crore on lower KG-D6 output, weaker coal-bed-methane price and one-time maintenance costs. For full year, consolidated revenue rose 7.1% to ₹10.71 lakh crore and operating margins rose 2.9% to ₹1.83 lakh crore, a net income of ₹81,309 crore, up 2.9% YoY.

Of total pre-tax earnings from oil-and-gas stood at an all-time high of ₹21,188 crore, those from retail arm crossed ₹25,000 crore mark for first time. Profit from Jio Platforms topped ₹25,000 crore, up 22%.

Describing FY25 as a challenging year for global business environment with weak macroeconomic conditions and a shifting geo-political landscape, Amabni said "focus on operational discipline, customer-centric innovation and fulfilling the nation's growth requirements has helped us deliver a steady financial performance".

RELIANCE INDUSTRIES, country's largest company by market-cap, on Friday reported a tepid 2.4% year-on-year rise in net income at ₹19,407 crore in the March quarter, weighed down by softer energy margins.

Strong show by the digital and retail unit businesses has offset the impact. The earnings beat Street estimates of ₹18,820 crore. Revenue for the reporting period rose 8.8% YoY to ₹2.88 lakh crore, driven by digital services, retail and oil-to-chemicals business, chairman and managing director Mukesh Ambani said on Friday. The company incurred a capital expenditure of ₹36,041 crore but remained fully covered by cash generation of nearly ₹40,000 crore, leaving net debt steady at ₹1.17 lakh crore. It paid ₹6,669 crore in taxes during Q4FY25 and ₹25,230 crore for full year. Capex stood at ₹36,041 crore for Q4FY25 and annual at ₹131,107 crore.

Outstanding debt as of March end stood at ₹347,530 crore but it has carried cash & cash equivalents of ₹230,447 crore,

only ₹117,083 crore in net debt or 0.60x its operating profit. It incurred a finance cost of ₹24,269 crore, up 5% YoY for the fiscal, mainly due to higher average liability balances.

Operating profit from digital services rose 18.5% to ₹39,853 crore as Jio's 5G user base rose to 191 million and average revenue per user rose to ₹206.2 after tariff revisions. Net profit from this vertical rose 25.7% to

₹7,022 crore for Q4 and ₹26,120 crore for full year. Operating profit from retail arm grew 14.3% to ₹88,620 crore on stronger store operating metrics and a 2.4-fold sequential jump in its hyper-local delivery business. It earned ₹3,545 crore in net income during the quarter.

These gains were partly offset by softer commodity prices and margins. Operating profit from refining arm fell 10% to ₹15,080 crore as fuel prices were weaker and the cracks narrowed and the margins from polyester fell. As a result oil-and-gas operating profit fell 8.6% to ₹5,123 crore on lower KG-D6 output, weaker coal-bed-methane price and one-time maintenance costs. For full year, consolidated revenue rose 7.1% to ₹10.71 lakh crore and operating margins rose 2.9% to ₹1.83 lakh crore, a net income of ₹81,309 crore, up 2.9% YoY.

Of total pre-tax earnings from oil-and-gas stood at an all-time high of ₹21,188 crore, those from retail arm crossed ₹25,000 crore mark for first time. Profit from Jio Platforms topped ₹25,000 crore, up 22%.

Describing FY25 as a challenging year for global business environment with weak macroeconomic conditions and a shifting geo-political landscape, Amabni said "focus on operational discipline, customer-centric innovation and fulfilling the nation's growth requirements has helped us deliver a steady financial performance".

Reliance Industries Q4 profit rises 2.4% to Rs 19,407 crore

NEW DELHI, DHNS: Reliance Industries Ltd (RIL) on Friday reported a consolidated net profit of Rs 19,407 crore for January-March 2025 quarter, a year-on-year growth of 2.4%, well above the market expectation, as strong earnings from telecom and retail businesses offset decline in margins from the energy segment.

On a sequential basis, the company's net profit was around 5% higher from Rs 18,540 crore reported in the third quarter of 2024-25.

"FY2025 has been a challenging year for the global business environment, with weak macro-economic conditions and a shifting geo-political landscape. Our focus on operational discipline, customer-centric innovation and fulfilling India's growth requirements has helped Reliance deliver a steady financial performance during the year," RIL Chairman and Managing Director Mukesh Ambani said

in a statement.

The company's earnings before interest, taxes, depreciation, and amortisation (EBITDA) during the fourth quarter of 2024-25 increased by 4% year-on-year to Rs 48,737 crore.

EBITDA from digital services surged 18.5%, while from retail business it jumped by 14.3%. However, the company posted a softer increase in earnings from energy businesses. EBITDA from oil-to-chemical business dipped by 10% year-on-year to Rs 15,080 crore during the January-March quarter.

"Significant demand-supply imbalances in downstream chemicals markets have led to multi-year low margins," Ambani said.

Reliance Q4 net profit up 2.4 pc, becomes first firm with ₹10L crore networth

MUMBAI, APR 25

RELIANCE Industries Ltd on Friday reported a 2.4 per cent rise in its March quarter net profit as store rationalisation in retail business and improved margins in telecom helped offset weakness in mainstay oil and petrochemicals business and higher finance cost.

Consolidated net profit of Rs 19,407 crore, or Rs 14.34 per share, in January-March - the fourth quarter of April 2024 to March 2025 fiscal (FY25) - was higher than Rs 18,951 crore, or Rs 14 a share, in the same period a year back, the company said in a statement.

Annual profits were almost unchanged at Rs 69,648 crore but the oil-to-telecom-and-retail conglomerate became the first company to hit a networth of over Rs 10 lakh crore in 2024-25. Last year, it became the first company to hit a market cap of Rs 20 lakh crore.

In the fourth quarter, increased subscriber base led to higher earnings in the telecom business while a rationalisation of stores and pick up in quick commerce improved retail metrics. The oil-to-chemicals (O2C) business however saw pre-tax earnings fall on lower fuel cracks and polyester chain margins.

Jio Platforms Ltd, the unit that houses the telecom and digital businesses, saw profits rise by 26 per cent to Rs 7,022 crore in Q4 and 22 per cent in full-year (Rs 26,120 crore). All four key parameters data minute usage, data consumed, average per-user earnings and number of subscribers - grew. The customer base rose to 488.2 million from 482.1 million in October-December 2024 and 481.8 million in January-March 2024. Average revenue per user rose to Rs 206.2 from Rs 203.3 in the preceding quarter and Rs 181.7 a year ago.

मुंबई: रिलायन्स इंडस्ट्रीज लिमिटेडने शुक्रवारी जाहीर केलेल्या आर्थिक वर्षाच्या चौथ्या अर्थात मार्च तिमाहीच्या वित्तीय कामिगरीनुसार, निञ्चळ नफ्यात २.४ टक्के वाढ नोंदवली. तेल आणि पेट्रोकेमिकल्स व्यवसायात कमकुवतपणा आणि वित्तीय खर्च वाढला असला तरी, किराणा व्यवसायात विक्री दालनांचे सुसूत्रीकरण व संख्येत कपात आणि दूरसंचार व्यवसायातील सुधारित नफाक्षमता कंपनीसाठी फलदायी ठरली

तेल ते दूरसंचार आणि किरकोळ विक्री क्षेत्रात कार्यरत रिलायन्स इंडस्ट्रीज मात्र २०२४-२५ मध्ये १० लाख कोटी रुपयांपेक्षा जास्त नक्त मालमत्तेचा टप्पा गाठणारी देशातील पहिली कंपनी ठरली, गेल्या वर्षी बाजार भांडवलात २० लाख कोटींचा अनोखा टप्पा गाठणारी ती पहिली कंपनी होती.

जानेवारी ते मार्च २०२५ तिमाहीत रिलायन्सने १९,४०७ कोटी रुपयांचा अर्थात प्रति समभाग १४.३४ रुपये एकत्रित निव्वळनफा कमावला. गेल्या वर्षीच्या याच तिमाहीत त्याचे १८,९५१ कोटी रुपये आणि प्रति समभाग १४ रुपये या प्रमाणापेक्षा ते यंदा जास्त आहे, असे कंपनीने निवेदनात म्हटले आहे. आधीच्या ऑक्टोबर ते डिसेंबर या तिसऱ्या तिमाहीतील १८,५४० कोटी रुपयांच्या नफ्याच्या तुलनेतही तो वाढला आहे.

निकालांवर भाष्य करताना, अध्यक्ष आणि रिलायन्सचे व्यवस्थापकीय संचालक मुकेश अंबानी म्हणाले की, आर्थिक वर्ष २०२५ हे जागतिक व्यावसायिक वातावरणासाठी आव्हानात्मक वर्ष होते. ऊर्जा बाजारपेठेत लक्षणीय अस्थिरता असुनही तेल व पेट्रोकेमिकल्स व्यवसायाने तुलनेने चांगली कामगिरी केली. तर डिजिटल सेवा व्यवसायाने विक्रमी महसूल आणि नफ्याचे आकडे गाठले. ग्राहकांच्या संख्येत सातत्याने वाढ, ५ जी आमच्या ब्रॉडबॅंड सेवेला उत्साहदायी वाढती स्वीकृती सुरूच आहे.

रिलायंस और Jio के मुनाफे में हुई बढ़ोतरी

■ NBT रिपोर्ट, मुंखई: देश की सबसे वड़ी कंपनी रिलायंस इंडस्ट्रीज लिमिटेड (RIL) का मार्च 2025 तिमाही के लिए नेट प्रॉफिट में 2.41% की YoY बढ़ोतरी के साथ 19,407 करोड़ रुपये रहा। जो पिछले वितीय वर्ष की इसी तिमाही में 18,951 करोड़ रुपये था। ऑपरेशंस से इसका रेवेन्यू सालाना आधार पर 10% वढ़कर 2.64 लाख करोड़ रुपये हो गया। RIL के बोर्ड ने वित्त वर्ष 2025 के लिए 5.50 रुपये प्रति इंक्विटी शेयर का डिविडेंड प्रस्तावित किया है। इसके साथ ही रिलायंस इंडस्ट्रीज 10 लाख करोड़ रुपये से अधिक नेटवर्थ वाली पहली भारतीय कंपनी बन गई है।

वहीं, रिलायंस इंडस्ट्रीज लिमिटेड की डिजिटल इकाई जियो प्लैटफॉर्म्स का नेट प्रॉफिट बीते वित्त वर्ष (2024-25) की जनवरी-मार्च तिमाही में 25.7 प्रतिशत बढकर 7,022 करोड़ रुपये रहा। कंपनी ने एक साल पहले इसी अवधि में 5,587 करोड़ रुपये का शुद्ध लाभ दर्ज किया था। RIL के चेयरमैन और MD मुकेश अंबानी ने कहा, 'FY25 ग्लोबल कारोबारी माहील के लिए चनौतीपुण साल रहा है, जिसमें कमजोर मैक्रो-इकॉनमिक स्थितियां और बदलते जियो-पॉलिटिकल फैक्टर शामिल हैं। लेकिन कस्टमर-केंद्रित इनोवेशन और भारत की विकास आवश्यकताओं को परा करने पर हमारा ध्यान केंद्रित करने से रिलायंस को वर्ष के दौरान स्थिर वित्तीय प्रदर्शन करने में मदद मिली है।'

Maruti Suzuki के मुनाफे में गिरावट

Maruti Suzuki इंडिया ने शुक्रवार को बताया कि मार्च 2025 को खत्म हुए चौथे तिमाही में उसका नेट प्रोफिट 1 फीसदी कम होकर 3,911 करोड़ रुपये रह गया। पिछले साल इसी तिमाही में कंपनी का प्रोफिट 3,952 करोड़ रुपये था। शुक्रवार को कंपनी के शेयरों में करीब 2 फीसदी की गिरावट आई है। वहीं, सार्वजिनक क्षेत्र के बैक ऑफ महाराष्ट्र का नेट प्रॉफिट FY2024-25 की जनवरी-मार्च तिमाही में 23 प्रतिशत बढ़कर 1,493 करोड़ रुपये हो गया। पुणे स्थित बैंक का शुद्ध लाभ वित्त वर्ष 2023-24 की समान तिमाही में 1,218 करोड़ रुपये रहा था।

Tata Technologies का प्रॉफिट बढ़ा

ग्लोबल प्रोडक्ट इंजीनियरिंग और डिजिटल सर्विसेज कंपनी टाटा टेक्नोलॉजीज (Tata Technologies) ने बताया कि मार्च 2025 को खत्म हुई चौथी तिमाही में कंपनी का कंसोलिडेटेड प्रॉफिट आफ्टर टैक्स (PAT) 20.12 फीसदी बढ़कर 188.87 करोड़ रुपये हो गया है। हिंदुस्तान जिंक लिमिटेड का FY24-25 की मार्च तिमाही में उसका नेट प्रॉफिट 47.3 प्रतिशत बढ़कर 3.003 करोड़ रुपये हो गया।

भारत-पाक तनाव से गिरा शेयर बाज़ार

■ NBT रिपोर्ट, मुंबई : भारत-पाक सीमा पर बढ़ते तनाव के बीच शुक्रवार को प्रमुख इंडेक्स Sensex, Nifty में खासी गिरावट दर्ज की गई। एक्सिस बैंक में भारी विकवाली के चलते Sensex शुरुआती बढ़त को गंवाते हुए 588.90 अंक यानी 0.74 प्रतिशत टूटकर 79,212.53 अंक पर बंद हुआ। कारोबार के दौरान एक समय यह 1,195.62 अंक ट्टकर 78,605,81 अंक पर आ गया था। Nifty में दूसरे दिन भी गिरावट जारी रही और यह 207,35 अंक यानी 0.86 प्रतिशत गिरकर 24,039.35 अंक पर बंद हुआ। आईटी इंडेक्स को छोड कर सभी इंडेक्स लाल निशान में बंद हुए। मुनाफावसूली के कारण मिडकैप इंडेक्स और स्मॉलकैप इंडेक्स में दो प्रतिशत से अधिक की गिरावट आई। शेयर बाजारों में दो दिनों में आई गिरावट के दौरान निवेशकों की संपत्ति 8,88 लाख करोड रुपये घट गई। वही, केनरा रोबेको असेट मैनेजमेंट कंपनी ने IPO लाने के लिए पूंजी बाजार नियामक सेबी के पास प्रारंभिक दस्तावेज दाखिल किए है।

रिलायंस का शुद्ध लाभ चौथी तिमाही में 2.4 प्रतिशत बढ़ा; खुदरा, तेल कारोबार में सुधार

📕 दिव्य राष्ट

नई दिल्ली। विविध कारोबार में सक्रिय रिलायंस इंडस्ट्रीज लिमिटेड (आरआईएल) ने शुक्रवार को कहा कि वित्त वर्ष 2024-25 की मार्च तिमाही में उसका शुद्ध लाभ 2.4 प्रतिशत बढकर 19,407 करोड़ रुपये हो गया। कंपनी ने कहा कि जनवरी-मार्च तिमाही में उसके खुदरा और तेल कारोबार में सुधार हुआ। इसके पहले विश्लेषकों का अनुमान था कि वैश्विक स्तर पर दबाव के कारण कंपनी के तेल कारोबार में सुस्ती देखने को मिल सकती है, लेकिन नतीजे अलग रहे हैं। इसी प्रकार, रिलायंस इंडस्ट्रीज लिमिटेड (आरआईएल) की डिजिटल इकाई जियो प्लेटफॉर्म्स का शुद्ध लाभ बीते वित्त वर्ष (2024-25) की जनवरी-मार्च तिमाही में 25.7 प्रतिशत बढ़कर 7,022 करोड़ रुपये रहा। कंपनी ने बताया कि उसका मुनाफा मुख्य रूप से प्रति उपयोगकर्ता औसत राजस्व बढ़ने के कारण बढ़ा।
